PARLIAMENTARY COMMISSIONER FOR STANDARDS—John Lyon, CB

PARLIAMENTARY SECURITY CO-ORDINATOR—Peter Mason

22 February 2010

Written Ministerial Statements

Monday 22 February 2010

TREASURY

Council for Financial Stability

The Chancellor of the Exchequer (Mr. Alistair Darling): I have today deposited in the Libraries of both Houses copies of the minutes of the first meeting of the Council for Financial Stability, which was held on 14 January 2010.

The Council comprises the Chancellor of the Exchequer, who chairs the Council, the Governor of the Bank of England and the Chairman of the Financial Services Authority. The Council is responsible for considering emerging risks to the financial stability of the UK and global financial system, and co-ordinating an appropriate response by the UK's authorities.

At the first meeting of the Council, the Governor of the Bank of England, the Chairman of the Financial Services Authority and I discussed the following issues:

the Bank of England Financial Stability Report published on 18 December 2009;

Financial Sector Remuneration;

Recovery and Resolution Plans.

The Financial Services Bill currently before Parliament provides for the establishment of the Council in statute, including the requirement to publish minutes of its quarterly meetings. The Government have moved to the new arrangements ahead of the passage of the Bill.

Tax Information Exchange Agreement

The Financial Secretary to the Treasury (Mr. Stephen Timms): A Tax Information Exchange Agreement (TIEA) was signed with San Marino on 16 February 2010.

The text of the TIEA has been deposited in the Libraries of both Houses and made available on HM Revenue and Customs' website. The text will be scheduled to a draft Order in Council and laid before the House of Commons in due course.

HOME DEPARTMENT

Fraudulent Use of Passports (Investigation)

The Secretary of State for the Home Department (Alan Johnson): Following a formal request from the Emirati law enforcement authorities the Serious Organised Crime Agency is conducting an investigation into the apparent use of counterfeit British passports by those suspected of murdering a Hamas official in Dubai recently. The investigation is at an early stage but a number of avenues of inquiry are expected to be followed. Since this is a criminal investigation it would not be appropriate to comment on it at this stage.

Based on the limited information available, the Identity and Passport Service is satisfied that the passport records identified are genuine UK passports, issued in the UK between September 2001 and January 2006, and that the photographs and signatures provided by the Dubai authorities do not match those on IPS records. These pre-date the time when biometric UK passports started to be issued.

UK Border Agency Strategy

The Minister for Borders and Immigration (Mr. Phil Woolas): I am today publishing a new strategy entitled "Protecting our Border, Protecting the Public". Copies will be available in the Vote Office and in the Libraries of both Houses.

Since its creation in 2008, the UK Border Agency has become one of the UK's largest law enforcement bodies, operating across the UK and in 135 countries overseas. It stands at the forefront of efforts to protect the United Kingdom from overseas threats posed by dangerous people, goods and materials, while at the same time enforcing our immigration rules and facilitating the flow of legitimate travel and trade on which our economy depends.

This document both clarifies the extent of our law enforcement activities and sets out our vision as to how, over the next five years, we will develop our capability to protect the public from the harm caused by illegal immigration and smuggling. It also sets out how the agency will support the work of its criminal justice partners in tackling non-immigration crime committed by foreign nationals in the UK.

In support of the wider Government priority of tackling organised crime, the document identifies tackling organised immigration and smuggling crime as a key priority for the agency, with particular focus on the detection of class A drugs at the border and the targeting of groups that facilitate illegal entry or stay in the UK. The underlying themes of the strategy include encouraging compliance with our immigration rules, the benefits of disrupting criminal activity before it reaches our shores and greater targeting of the assets of criminal groups.

Tackling border and immigration crime and protecting the public is a responsibility that the UK Border Agency shares with law enforcement partners, such as the police and the Serious and Organised Crime Agency. The UK Border Agency has much to contribute, for example through the e-Borders programme; but success will be multi-agency. We already have strong partnership arrangements; our regional immigration crime teams for example, are comprised of both border agency and seconded police officers. We also have local immigration teams across the country that work alongside the police, HM Revenue and Customs, local authorities and other local partners to ensure compliance with, and enforce, our immigration laws.

This strategy explains our relationship with the wider law enforcement community and sets out how we will work more closely together to deter, disrupt, detect and deal with crime, in order to make the UK a hostile environment for criminals and a safer place for the public.

JUSTICE

Accommodation and Support Service

The Minister of State, Ministry of Justice (Maria Eagle): I am today announcing that the Government have awarded a new national contract for the Bail Accommodation and Support Service to Stonham.

This follows a competitive tender conducted in accordance with Public Sector Procurement Directive (2004/8/EC). Stonham offered the best overall bid in terms of quality of service and cost relative to the other bids received and will take over the service from ClearSprings on18 June 2010 for an initial three years.

Stonham is a third sector organisation and registered charity, and one of the UK's largest providers of housing and support for vulnerable and socially excluded people.

The primary aim of the Bail Accommodation and Support Service is to provide accommodation and support services to enable the courts and prison governors to make greater use of conditional bail and early release on home detention curfew, in appropriate cases. The scheme allows defendants without an appropriate address, who would otherwise have been granted bail by the courts, to be bailed. It helps to ensure that prison is reserved for people who really need to be there: not people who the courts judge to be suitable for bail or who prison governors judge may be placed on home detention curfew.

PRIME MINISTER

Informal European Council - 11 February 2010

The Prime Minister (Mr. Gordon Brown): I attended an informal meeting of the European Council in Brussels on 11 February.

Leaders discussed the financial situation in Greece. They fully supported Greece's commitment to ensure that the ambitious targets set in the stability programme for 2010 and the following years are met. The euro area member states committed to take determined and co-ordinated action to safeguard financial stability in the euro area as a whole.

The leaders also discussed the Europe 2020 strategy, the successor to the Lisbon strategy for jobs and growth. There was support for the ideas contained in the UK's compact for jobs and growth and agreement on the need to co-ordinate activity to achieve a higher level of growth. I look forward to the publication of the Commission's detailed proposals on 3 March.

The leaders also discussed climate change, Iran and Haiti.

SOLICITOR-GENERAL

Revised Code for Crown Prosecutors

The Solicitor-General (Vera Baird): My right hon. Friend the Attorney-General has made the following written ministerial statement:

> The review of the Code for Crown Prosecutors, which began during 2008, is now complete. Copies of the revised code have been placed in the Libraries of both Houses.
>
> The code was last revised by the Director of Public Prosecutions (DPP) in 2004 and it has now been updated in order to take into account recent changes in law and practice, as well as the merger between the Crown Prosecution Service and the Revenue and Customs Prosecutions Office.
>
> The fundamental evidential and public interest considerations have not changed. However, the code has been amended to include: some additional public interest factors tending both in favour of and against prosecution; provision for exceptional situations which allow a decision to be made not to undertake a prosecution on public interest grounds before all the evidence in the case is available for consideration by the prosecutor; an explanation of how the CPS takes decisions in cases which require the DPP's consent; greater clarity on the prosecutor's role in considering out-of-court disposals; the introduction of an explanation of the threshold test and the circumstances in which it should be applied.
>
> The revised code also makes it clear that, for the maintenance of public confidence in the criminal justice system, in rare cases where a new look at the original decision shows it was wrong, the CPS will consider reversing a decision not to prosecute. The current wording of this aspect of the code updates and brings greater clarity to the undertaking given in a written answer on this issue by the Attorney-General on 31 March 1993. I am particularly please to welcome the DPP's decision to take a more robust approach to correcting prosecution decisions that were wrongly taken.
>
> To ensure the code's accessibility, it will be published in audio and Braille and, in addition to English and Welsh, the most commonly spoken community languages.
>
> I welcome the revised code and commend it to all prosecuting authorities. Copies of the "Code for Crown Prosecutors" will be available on the Crown Prosecution Service website which can be found at: www.cps.gov.uk.

TRANSPORT

Informal Meeting of EU Transport Ministers

The Minister of State, Department for Transport (Mr. Sadiq Khan): An informal meeting of EU Transport Ministers took place on 12 February 2010 in La Coruña, Spain. I represented the United Kingdom. The two topics for discussion were aviation security and the Commission's action plan on urban mobility.

The priority on aviation security was to discuss the additional security measures introduced in member states post-Detroit and the future evolution of aviation security within the EU. The UK, along with most member states, highlighted the need for a review and reinforcement of EC current baseline measures and the application of new technologies, including but not limited to advanced imaging technology (AIT), subject to appropriate safeguards. It was noted that the European Commission would shortly be producing a report on the use of new technologies (including AITs), as a first step to a future legislative proposal to allow their use as a primary screening technology within the EU, a move supported by the UK. The presidency emphasised that the threat posed a global challenge which required a single response and that technology must play a fundamental role in EU strategy to protect the public. The presidency expressed satisfaction at the consensus reached, which would be developed in a joint strategy within the framework of the European Union. The UK will be participating in further EU, ECAC and ICAO meetings over the next few weeks and months to continue to work internationally to build on existing aviation security standards and using and developing new technology, in order to make things harder for the terrorist, but to continue to facilitate and protect genuine passenger journeys.

On the action plan on urban mobility, the priority was to prepare draft conclusions which will be considered at the Transport Council in June. The UK joined several other member states in supporting the principles of the action plan, in particular, the Commission's approach of promoting and supporting the development of sustainable urban mobility policies, while maintaining that the principle of subsidiarity is vital in the field of urban transport. The presidency emphasised the need to implement sustainable plans to promote greater integration of infrastructure planning and to find alternatives to the use of private vehicles through the use of public and non-motorised means of transport. The UK agreed that there is a role for the Commission to play in overcoming the lack of evidence surrounding urban mobility and facilitating the exchange of best practice. An observatory, as suggested in the action plan, could achieve this goal, but it is vital that it has clear terms of reference, objectives and a work programme agreed by member states. The UK position remains clear that the action plan should not lead to further legislation, and that cities and city regions should retain the freedom to pursue and implement locally relevant solutions.

Written Ministerial Statements

Tuesday 23 February 2010

BUSINESS, INNOVATION AND SKILLS

Departmental Expenditure Limits

The Minister for Business, Innovation and Skills (Mr. Pat McFadden): Subject to parliamentary approval of the necessary Supplementary Estimate, the Department for Business, Innovation and Skills' DEL will be increased by £1,240,523,000 from £21,829,701,000 to £23,070,224,000 and the Administration budget will be increased by £1,220,000 from £357,473,000 to £358,693,000.

Within the DEL change, the impact on Resources and Capital is as set out in the following table:

	Change		*New DEL*		
	Voted	*Non-Voted*	*Voted*	*Non-voted*	*Total*
Resource (£000)	279,431	531,819	-3,235,584	22,886,573	19,650,989
of which					
Administration budget*	1,220		358,693		358,693
Near cash in Resource DEL**	-67,660	464,711	-5,004,730	22,570,097	17,565,367
Capital (£000)	277,146	152,127	-209,708	3,628,943	3,419,235
Less Depreciation*** (£000)	-1,985	-47,320	-61,433	-248,599	-310,032
Total (£000)	554,592	636,626	-3,506,725	26,266,917	22,760,192

The total of the 'Administration Budget' and 'Near Cash in Resource DEL' figures may well be greater than total Resource DEL, due to the definitions overlapping.

**Capital DEL includes items treated as Resource in Estimates and Accounts, but which are treated as Capital DEL in Budgets.

***Depreciation, which forms part of Resource DEL, is excluded from the total DEL since Capital DEL includes Capital spending and to include depreciation of those assets would lead to double counting.

The change in the resource element of the DEL arises from:

RfR1

i) a Reserve claim of £85,000,000 of voted non-cash for the Automotive Assistance Programme;

ii) a Reserve claim of £48,500,000 for Enterprise Fund Guarantees;

iii) utilisation of End Year Flexibility of £21,004,000 for Automotive Assistance Programme non-cash;

iv) utilisation of End Year Flexibility of £41,500,000 for Enterprise Fund Guarantees on-cash;

v) transfer of £500,000 to United Kingdom Trade and Investment in respect of an inward investment conference;

vi) transfer of £450,000 of non-voted expenditure to the Office of Fair Trading in respect of the Consumer White Paper;

vii) reclassification of £6,300,000 from Strategic Investment Fund capital to resource in relation to the New Industries, New Jobs agenda;

viii) virement of £1,100,000 from the non-voted RfR1 Departmental Unallocated Provision to RfR3 for increasing the number of apprenticeships by 35,000;

ix) virement of £11,700,000 from the non-voted RfR1 Departmental Unallocated Provision to non-voted expenditure by the Learning and Skills Council for increasing the number of apprenticeships by 35,000;

x) virement of £4,000,000 from support for the Post Office to non-voted expenditure by the Learning and Skills Council (RfR3);

xi) virement of £3,144,000 from Enterprise Fund Guarantees to non-voted expenditure by the Learning and Skills Council (RfR3);

xii) virement of £10,000,000 from Enterprise Fund Guarantees to Student Support (RfR3);

xiii) utilisation of £16,000,000 from the non-voted Departmental Unallocated Provision for voted Student Maintenance Grants (RfR3);

xiv) utilisation of £5,632,000 from the non-voted Departmental Unallocated Provision for non-voted expenditure by the Learning and Skills Council (RfR3);

xv) virement of £13,000,000 from non-voted expenditure by the Technology Strategy Board to the RfR2 Science Research Councils;

xvi) virement of £188,000 Government Skills and £46,000 Further Education Improvement (both RfR3) to the non-voted Departmental Unallocated Provision;

xvii) reclassification changes resulting from the implementation of International Financial Reporting Standards of £800,000 in non-voted expenditure for the Regional Development Agencies;

xviii) reclassification changes resulting from the implementation of International Financial Reporting Standards of £400,000 in non-voted expenditure for the Competition Commission;

xix) reclassification changes resulting from the implementation of International Financial Reporting Standards of £90,000 for Acas;

xx) reclassification changes resulting from the implementation of International Financial Reporting Standards of £12,427,000 for Capital for Enterprise Fund;

xxi) reclassification changes resulting from the implementation of International Financial Reporting Standards of £912,000 for the National Measurement Office;

xxii) reclassification changes resulting from the implementation of International Financial Reporting Standards of £2,000,000 for the Insolvency Service;

Also within the change to resource DEL, the changes to the Administration budget are (RfR1):

xxiii) transfer of £1,020,000 from the Cabinet Office in respect of the Parliamentary Counsel Office;

xxiv) transfer of £25,000 from the Cabinet Office in respect of the Skills Strategy;

xxv) reclassification changes resulting from the implementation of International Financial Reporting Standards of £175,000 for UK Trade and Investment;

RfR2

i) utilisation of End Year Flexibility of £45,464,000 for non-voted expenditure by the Medical Research Council;

ii) utilisation of End Year Flexibility of £20,536,000 for non-voted expenditure by the Natural Environment Research Council;

iii) virement of £100,000 from RfR3 to non-voted expenditure by the Research Councils in respect of the wellbeing project;

iv) virement of £50,000 from non-voted expenditure by Research Councils to voted Research-based Initiatives;

v) virement of £250,000 from voted Public Sector Research Establishments expenditure to non-voted expenditure by Research Councils;

vi) virement of £594,000 from voted Science and Society expenditure to non-voted expenditure by Research Councils.

vii) virement of £13,000,000 from the Technology Strategy Board (RfRl) to non-voted expenditure by the Research Councils;

viii) reclassification changes resulting from the implementation of International Financial Reporting Standards of £1,406,000 in non-voted expenditure for the Science Research Councils.

RfR3

i) a Reserve Claim of £50,000,000 non-cash for Tuition Fee Loans;

ii) a Reserve Claim of £83,000,000 non-cash for Maintenance Fee Loans;

iii) utilisation of End Year Flexibility of £22,800,000 for the 6 month training offer to unemployed via non-voted expenditure of the Learning and Skills Council;

iv) utilisation of End Year Flexibility of £225,376,000 to meet student support pressures;

v) utilisation of End Year Flexibility of £20,000,000 for the delivery of the Level 3 training entitlement to young people via non-voted expenditure of the Learning and Skills Council;

vi) utilisation of End Year Flexibility of £11,700,000 to provide 35,000 additional apprenticeships via non-voted expenditure of the Learning and Skills Council;

vii) utilisation of End Year Flexibility of £15,000,000 for voted non-cash relating to Career Development Loans;

viii) utilisation of End Year Flexibility of £64,000,000 for non-voted non-cash relating to the Learning and Skills Council;

ix) utilisation of End Year Flexibility of £3,000,000 for expansion of the Personal Career Development Loans scheme via non-voted expenditure of the Learning and Skills Council;

x) utilisation of End Year Flexibility of £4,624,000 for Aim Higher Challenge Initiative;

xi) utilisation of £16,000,000 from the non-voted Departmental Unallocated Provision for voted Student Maintenance Grants;

xii) increase in voted receipts for the Learning and Skills Council of £338,877,000 from the Department for Children, Schools and Families for 6th Forms, apprenticeships, Entry to Employment, Education Maintenance Allowance, offset by an increase in the Learning and Skills Council non-voted resource DEL;

xiii) increase in voted receipts for the Higher Education Funding Council for England of £895,000 from the Department for Children, Schools and Families to help kick start activity on Shared Services initiatives within the HE Sector, offset by an increase in the Higher Education Funding Council for England non-voted resource DEL;

xiv) increase in voted receipts for the UK Commission for Employment and Skills of £258,000 from the Department for Children, Schools and Families, offset by an increase in the UK Commission for Employment and Skills non-voted resource DEL;

xv) increase in voted receipts for the UK Commission for Employment and Skills of £200,000 from the Department for Work and Pensions, offset by an increase in the UK Commission for Employment and Skills non-voted resource DEL;

xvi) transfer of £2,624,000 from the Ministry of Justice in respect of Offender Learning;

xvii) transfer of £500,000 of non-voted expenditure from the Department of Energy and Climate Change to the Learning and Skills Council in respect of the National Skills Academy for Power;

xviii) transfer of £7,734,000 of non-voted expenditure from the Department for Children, Schools and Families to the UK Commission for Employment and Skills in respect of the National Vocational Qualifications Levy;

xix) transfer of £6,381,000 (of which £581,000 voted and £5,800,000 non-voted) from the Department for Work and Pensions in respect of graduate internships;

xx) virement of £15,668,000 from voted Aim Higher Challenge Initiative to non-voted expenditure;

xxi) virement of £30,876,000 from non-voted expenditure by the Learning and Skills Council to voted expenditure for the Young Person's Guarantee;

xxii) virement of £14,457,000 from Aim Higher Challenge Initiative and other Higher Education resources to non-voted expenditure;

xxiii) virement of £14,999,000 from non-voted expenditure to Maintenance Grants;

xxiv) virement of £4,310,000 from Adult Guidance and Leith Implementation to non-voted expenditure;

xxv) virement of £20,636,000 from Offender Learning to non-voted expenditure;

xxvi) transfer of £5,371,000 from the Home Office for Migration Impact Funding;

xxvii) virement of £100,000 voted expenditure to non-voted expenditure by the Science Research Councils in respect of the Wellbeing project;

xxviii) utilisation of £5,632,000 from the non-voted Departmental Unallocated Provision (RfRl) for non-voted expenditure by the Learning and Skills Council;

xxix) virement of £4,000,000 from RfRl support for the Post Office to non-voted expenditure by the Learning and Skills Council;

xxx) virement of £11,700,000 from the non-voted RfRl Departmental Unallocated Provision to non-voted expenditure by the Learning and Skills Council for increasing the number of apprenticeships by 35,000;

xxxi) virement of £1,100,000 from the non-voted RfRl Departmental Unallocated Provision to voted expenditure on increasing the number of apprenticeships by 35,000;

xxxii) virement of £3,144,000 from Enterprise Fund Guarantees RfRl to non-voted expenditure by the Learning and Skills Council;

xxxiii) virement of £10,000,000 from Enterprise Fund Guarantees RfR1 to voted expenditure on Student Support;

xxxiv) virement of £188,000 Government Skills and £46,000 Further Education Improvement to the non-voted Departmental Unallocated Provision;

xxxv) virement of £15,000,000 from non-voted expenditure by the Higher Education Funding Council for England towards student support;

xxxvi) reclassification changes resulting from the implementation of International Financial Reporting Standards of £2,531,000 in non-voted expenditure for the Student Loan Company.

The change in the capital element of the DEL arises from:

RfR1

i) a Reserve Claim of £300,000,000 for the Automotive Assistance Programme;

ii) utilisation of End Year Flexibility of £ 10,000,000 for Capital for Enterprise Fund;

iii) reclassification of £6,300,000 from Strategic Investment Fund capital to resource in relation to the New Industries, New Jobs agenda;

iv) transfer of £25,573,000 from Department of Enterprise Trade and Investment Northern Ireland for Launch Investment;

v) virement of £29,624,000 from Strategic Investment Fund to non-voted expenditure by the Learning and Skills Council under RfR3;

vi) virement of £16,103,000 from Strategic Investment Fund to the non-voted Departmental Unallocated Provision;

vii) virement of £3,487,000 from non-voted expenditure by the Science Research Councils to the non-voted non-Science Departmental Unallocated Provision;

viii) virement of £9,513,000 from non-voted expenditure by the Science Research Councils RfR2 to the non-voted Technology Strategy Board;

RfR2

i) Increased voted contributions of £1,900,000 from other Government Departments to fund non-voted expenditure by the Biotechnology and Biological Sciences Research Council on the Institute for Animal Health;

ii) virement of £ 1,600,000 voted British Academy expenditure to non-voted expenditure by the Research Councils;

iii) virement of £3,487,000 from non-voted expenditure by the Research Councils to the non-voted non-Science Departmental Unallocated Provision;

iv) virement of £9,513,000 from non-voted expenditure by the Research Councils to the non-voted Technology Strategy Board (RfR1);

RfR3

i) utilisation of End Year Flexibility of £100,000,000 for renewal of the Further Education estate via an increase in the Learning and Skills Council non-voted DEL;

ii) increase of £2,900,000 in voted receipts from the Department for Children, Schools and Families for 14-19 activities by the Learning and Skills Council, offset by an increase in the Learning and Skills Council non-voted DEL;

iii) virement of £29,624,000 from RfR1 Strategic Investment Fund to non-voted expenditure by the Learning and Skills Council.

Office of Fair Trading

Subject to Parliamentary approval of the necessary Supplementary Estimate, the Office of Fair Trading's DEL will be increased by £451,000 from £65,260,000 to £65,711,000.

Within the DEL change, the impact on Resources and Capital is as set out in the following table:

	Change		*New DEL*		
	Voted	*Non-Voted*	*Voted*	*Non-Voted*	*Total*
Resource (£000)	-946	-	65,124	-	65,124
of which					
Administration* budget	-946	-	63,210	-	63,210
Near cash in Resource DEL*	-946		62,516	-	62,516
Capital (£000)**	1,397	-	2,728	-	2,728
Less Depreciation*** (£000)	-	-	-2,141	-	-2,141
Total (£000)	451	-	65,711	-	65,711

*The total of the 'Administration Budget' and 'Near Cash in Resource DEL' figures may well be greater than Total Resource DEL, due to the definitions overlapping.

**Capital DEL includes items treated as Resource in Estimates and Accounts, but which are treated as Capital DEL in Budgets.

***Depreciation, which forms part of Resource DEL, is excluded from the total DEL since Capital DEL includes Capital spending and to include depreciation of those assets would lead to double counting.

The change in the resource element of the DEL (and also the Administration budget) arises from:

RfR1

i) transfer of £450,000 from the Department of Business, Innovation and Skills in respect of Consumer White Paper funding;

ii) virement of £1,397,000 from resource to capital to allow for increased capital investment in the OFT;

iii) token increase of £1,000 to allow increase in appropriations-in-aid to be included in the Estimate.

The change in the capital element of the DEL arises from:

RfR1

i) virement of £1,397,000 from resource to capital to allow for increased capital investment in the OFT.

UK Trade and Investment (Departmental Expenditure Limits)

The Parliamentary Under-Secretary of State for Business, Innovation and Skills (Ian Lucas): My noble Friend the Minister with responsibility for trade, investment and small Business, Lord Davies of Abersoch, has today made the following statement:

The statement below follows the format guidance as set out in "Supply Estimates: guidance manual", available on the HMT website.

Subject to parliamentary approval of any necessary supplementary estimate, UKTI's total DEL (Resource and Capital) will be increased by £3,255,000 from £96,610,000 to £99,865,000. This reflects the net transfer of £500,000 in voted resource from BIS's vote to UKTI's vote and the relevant IFRS changes. Within the total DEL change, the impact on resources and capital is set out in the following table:

£'000

	Change		New DEL		
	Voted	*Non-Voted*	*Voted*	*Non-Voted*	*Total*
Resource DEL	-485	-	95,877	-	95,877
Of which					
Near-cash in RDEL	-1,531	-	94,744	-	94,744
Capital DEL *	3,740	-	3,988	-	3,988
Less Depreciation **	-1,046	-	-1,212	-	-1,212
Total DEL	2,209	-	98,653	-	98,653

* Capital DEL includes items treated as resource in estimates and accounts but which are treated as Capital DEL in budgets.

** Depreciation, which forms part of resource DEL, is excluded from total DEL since Capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.

UKTI's vote does not include administration provision, which is included in the estimates of our parent departments, BIS and FCO.

The change in the resource element of departmental expenditure limit (DEL) sought in this supplementary estimate relate primarily to:

A decrease of £1,067,000 to allow more cover in capital due to IFRS.

An increase of £81,000 to allow for depreciation cover due to IFRS.

An increase of £500,000 as a result of the BIS transfer to UKTI for the inward investment conference.

An increase of £486,000 as a result of the estimate exclusion adjustment

An increase of a token £1,000 to allow the increase in appropriations-in-aid

The change in the capital element of DEL sought in this supplementary estimate relate primarily to:

An increase of £1,067,000 due to IFRS.

An increase of £2,673,000 transferred from BIS due to IFRS changes.

CABINET OFFICE

Departmental Expenditure Limits

The Minister for the Cabinet Office and for the Olympics, and Paymaster General (Tessa Jowell): Subject to Parliamentary approval of the spring supplementary estimate 2009-10, the Cabinet Office total departmental expenditure limit (DEL) will be increased by £65,214,000 from £394,149,000 to £459,363,000.

The impact on resources and capital is set out in the following table:

£'000

	Winter Supplementary Estimate DEL			Changes			Spring Supplementary Estimate New DEL		
	Voted	*Non-Voted*	*Total*	*Voted*	*Non-Voted*	*Total*	*Voted*	*Non-Voted*	*Total*
Resource DEL	332,954	45,015	377,969	+1,928	+7,356	+9,284	334,882	52,371	387,253
Of which:									
Administration Budget	*206,397*	-	*206,397*	*-35,847*	*+7,600*	*-28,247*	*170,550*	*7,600*	*178,150*
Near cash in RDEL	*288,176*	*45,015*	*333,191*	*+5,109*	*+8,175*	*+13,284*	*293,285*	*53,190*	*346,475*

*Depreciation**	*-34,805*	-	*-34,805*	*+3,456*	-	*+3,456*	*-31,349*	-	*-31,349*
Total DEL	348,134	46,015	394,149	+55,458	+9,756	+65,214	403,592	55,771	459,363
New AME	-	10	10	-	-10	-10	-	-	-

*Depreciation, which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.

**Capital DEL includes items treated as resource in Estimates and accounts but which are treated as Capital DEL in budgets.

Summary of Changes in Departmental Expenditure Limit (DEL) and Annually Managed Expenditure (AME)

The change in the resource element of DEL, an increase of £9.284 million, comprises a £11.344 million agreed claim on the reserve, £10.083 million end year flexibility drawdown, £11.184 million budget cover transfers to other Government Departments, £0.150 million transfer to capital grant in aid to ENDPBs, a switch from to AME to DEL £0.010 million resulting from HM Treasury retracting their original advice on classification of accrued benefits holiday pay as a result of the implementation of International Financial Reporting Standards (IFRS) and a £0.819 million reduction in wages and salaries to cover the use of provision for early departures.

The change in the capital element of DEL, an increase of £52.474 million, comprises a £0.150 million transfer from resource DEL and a £52.324 million drawdown on End Year Flexibility.

Changes in Resource DEL (RDEL)

The changes which result in a net increase in resource DEL (RDEL) of £9,284,000 are as follows:

Agreed Claim on the Reserve

A claim on the Reserve for V Matched Funding increases resource DEL and net cash requirement by £10,500,000.

A claim on the Reserve for Invest to Save Budget in the Office of the Third Sector increases resource DEL and net cash requirement by £844,000.

End Year Flexibility

A drawdown for Invest to Save budget increases resource DEL and net cash requirement by £83,000.

A drawdown for Real Help for Communities Action Plan run by the Office of the Third Sector increases resource DEL and net cash requirement by £10,000,000.

Budget cover transfers outwards

Budgetary cover transfers to various Government Departments to cover the costs of the Office of the Parliamentary Counsel (OPC) decrease resource DEL and net cash requirement by £8,003,000.

A budgetary cover transfer to the Security and Intelligence Agencies (SIA) to cover the non-cash charges upon transfer of SCOPE assets decreases non-cash resource DEL by £3,181,000.

Transfer from Voted to non-voted within Resource DEL

A switch within resource DEL from voted to non-voted administration to properly record the implementation of IFRS for a service concession arrangement of £7,600,000. The impact on net resource requirement and resource DEL is neutral. A switch is required owing to the different treatment of the service concession in estimates and budgets. For estimates purposes, this arrangement will be treated as a finance lease and for budget purposes it will be treated as an operating lease.

The Cabinet Office entered into a contract with Fujitsu Services Limited (FSL) for the provision of information and communications technology (ICT) services over a five-year term until June 2012 and this includes certain infrastructure assets for use in delivering public services that fall within the scope of IFRIC12 service concession arrangements.

Transfers from non-Voted Resource to Capital DEL

A switch from resource DEL to capital DEL to cover additional expenditure for the non-voted grant in aid to ENDPBs decreases resource DEL by £150,000. The impact on net cash requirement is neutral because the overall grant in aid to ENDPBs in the estimate remains unchanged.

Other changes

A decrease in wages and salaries to cover the use of early departure provisions by £819,000.

Switch from AME to DEL

A switch from to AME to DEL of £10,000 resulting from HM Treasury retracting their original advice on classification of accrued benefits holiday pay as a result of the IFRS implementation.

Changes in Capital DEL (CDEL)

The changes which result in a net increase in capital DEL of £52,474,000 are as follows:-

End Year Flexibility

A drawdown to cover capital grants programmes run by the Office of the Third Sector (OTS) increases capital DEL and net cash requirement by £52,324,000.

Transfers from Voted Resource to Capital DEL

A switch from resource DEL to capital DEL to cover additional expenditure for the non-voted grant in aid to ENDPBs increases capital DEL by £150,000. The impact on net cash requirement is neutral because the overall grant in aid to ENDPB non budget in the estimate remains unchanged.

UK Statistics Authority (DEL)

The Minister of State, Cabinet Office (Angela E. Smith): Subject to parliamentary approval of any necessary Supplementary Estimate, the UK Statistics Authority's total departmental expenditure limit (DEL) will be increased by £630,000 from £212,246,000 to £212,876,000, and the programme budget will be increased by £630,000.

Within the DEL change, the impact on resources and capital is as set out in the following table:

£'000

	Change		*New DEL*		
	Voted	*Non-voted*	*Voted*	*Non-voted*	*Total*
Resource DEL	6,630	-6,000	212,876	-	*212,876*
of which					
Administration budget*	-	-	-		-
Near-cash in RDEL	-3,370	4,000	178,876	14,000	*192,876*
Capital**	-15	-	14,985	-	*14,985*
Less Depreciation***		-	-18,000	-	*-18,000*
Total	*6,615*	*-6,000*	*209,861*	-	*209,861*

*The total of 'Administration Budget' and 'Near-cash in Resource DEL' figures may well be greater than total resource DEL, due to the definitions overlapping.

**Capital DEL includes items treated as resource in Estimates and accounts but which are treated as Capital DEL in budgets.

***Depreciation, which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.

The change in the resource element of DEL arises from:

Take up of End-Year Flexibility (EYF) of £630,000 as set out in the Public Outturn White Paper (CM 7606).

The take up of Departmental Unallocated Provision (DUP) of £6,000,000 in order to finance in-year pressures and to meet new priorities.

The change in the programme budget arises from draw down of end of year flexibility (EYF) of £630,000 and the draw down of £6,000,000 of DUP.

Charity Commission (DEL)

The Minister of State, Cabinet Office (Angela E. Smith): Plans to change the Charity Commission's Departmental Expenditure Limit (DEL) and administration budget for 2009-10 are as follows.

Subject to parliamentary approval of any necessary supplementary estimate, the Charity Commission DEL will be increased by £54,000 from £31,764,000 to £31,818,000 and the administration budget will be increased by £259,000 from £31,219,000 to £31,478,000. Within the DEL change, the impact on resources is as set out in the following table:

		New DEL		*£'000*
	Change	*Voted*	*Non-voted*	*Total*
Resource DEL	259	31,478	0	31,478
of which	259	31,478	0	31,478
*Administration budget**	54	30,173		30,173
Near Cash in DEL				
Capital	0	1,315	0	1,315
Depreciation**	-205	-975	0	-975
Total	54	31,818	0	31,818

* The total of 'Administration budget' and 'Near cash in Resource DEL' may be greater than total resource DEL due to the definitions overlapping.

** Depreciation, which forms part of resource DEL, is excluded from total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.

The change in Resource DEL reflects the utilisation of £259,000 of the Commission's Resource EYF. The funds from Resource EYF will be used to improve our website, making it more accessible in support of the Government's initiative to increase online interaction with Government Departments, and to cover depreciation in respect of capital expenditure relating to our modernisation programme.

CHILDREN, SCHOOLS AND FAMILIES

Joint Advisory Committee for Qualifications Approval

The Parliamentary Under-Secretary of State for Children, Schools and Families (Mr. Iain Wright): I would inform the House that the Joint Advisory Committee for Qualifications Approval has published its Annual Summary report for 2008-2009. The Committee is a non-statutory body chaired jointly by the Learning and Skills Council and Qualifications and Curriculum Development Agency. The role of the committee is to provide advice to the Secretary of State for Children, Schools and Families on which qualifications should be eligible for public funding and delivery to learners aged 14-19.

Copies of the Annual Summary will be placed in the House Libraries.

Departmental Expenditure Limits

The Secretary of State for Children, Schools and Families (Ed Balls): Subject to Parliamentary approval of any necessary Supplementary Estimate, the Department for Children, Schools and Families Departmental Expenditure Limit (DEL) will be increased by £696,511,000 from £56,415,027,000 to £57,111,538,000; the administration cost budget will be increased by £10,520,000 from £182,352,000 to £192,872,000. The Office for Standards in Education, Children's Services and Skills (OFSTED) which has a separate Estimate and DEL, will increase by £10,718,000 from £192,881,000 to £203,599,000 with the administration cost budget remaining at £28,020,000.

Within the DEL change, the impact on resources and capital are as set out in the following table:

	Resources				*Capital****			
	Change	*New DEL*	*Of which: Voted*	*Non-voted*	*Change*	*New DEL*	*Of which: Voted*	*Non-voted*
	£'000	*£'000*	*£'000*	*£'000*	*£'000*	*£'000*	*£'000*	*£'000*

*Depreciation, which forms part of resource DEL, is excluded from the total DEL, in the table above, since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.

** The total of 'Administration budget' and 'Near-cash in resource DEL 'figures may well be greater than total resource DEL, due to the definitions overlapping.

***Capital DEL includes items treated as resource in Estimates and accounts but which are treated as Capital DEL in budgets.

Department for Children, Schools and Families

Resource DEL

The increase in the resource element of the DEL of £496,825,000 arises from an increase in the voted element of the resource DEL of £368,992,000 and an increase of £127,833,000 in the non-voted element of resource DEL.

Voted Resource DEL

The £368,992,000 increase in the voted element of the resource DEL arises from:

RFR1

A take up of End Year Flexibility of £8,800,000 for Administration costs.

A take up of End Year Flexibility of £363,221,000 for Programme costs. Transfers from the Department for Work and Pensions of £14,803,000 for Apprentices, Child Poverty, School Gates Project and for the Joint Birth Registration.

A transfer from the Cabinet Office of £529,000 for Parliamentary Counsel.

A draw down from central funds of £819,000 for implementing International Financial Reporting Standards.

A movement of £4,750,000 from RfR2 to support National Training.

A take up of Departmental Reserves of £64,105,000 for Youth programmes.

A movement of £144,667,000 to Non-voted resource DEL to support Non-Departmental Public Bodies.

A transfer to the Office for Standards in Education, Children's Services and Skills of £8,100,000 for Early Years Foundation Stage inspections.

A movement of £11,028,000 to non-voted resource DEL for Partnerships for Schools.

A transfer to the Scottish Office of £642,000 for the Family Fund Trust.

A transfer to the Welsh Assembly of £372,000 for the Family Fund Trust.

A transfer to the Northern Ireland Executive of £220,000 for the Family Fund Trust.

An increase in receipts of £47,000 for Interest on 105 Loans.

RFR2

A take up of End Year Flexibility of £82,241,000 for Programme Costs.

A movement of £50,000 from non-voted resource DEL for Sure Start programmes.

A movement of £4,750,000 to RfR 1 to support National Training.

A movement of £500,000 to non-voted resource DEL for the Children's Workforce Development Council.

Non-voted resource DEL

The £127,833,000 increase in Non-voted resource DEL arises from:

A take up of End Year Flexibility of £2,017,000 to support the British Educational Communications and Technology Agency.

A take up of End Year Flexibility of £21,584,000 to support the Qualifications and Curriculum Authority.

A take up of End Year Flexibility of £5,511,000 to support the Training and Development Agency for Schools.

A take up of End Year Flexibility of £12,111,000 to support the Children's Workforce Development Council.

A movement of £144,667,000 from voted resource DEL to support Non-Departmental Public Bodies.

A movement of £11,028,000 from voted resource DEL for Partnerships for Schools.

A transfer of £2,854,000 from the Home Office for the Migration Impact Fund.

A take up of £64,105,000 from Departmental Reserves for Youth programmes. An increase of £550,000 for Consolidated Fund extra Receipts collected by the Department.

A transfer of £7,734,000 to the Department for Business, Innovation and Skills for the UKCES Levy. A movement of £50,000 from non-voted resource DEL for Sure Start programmes.

RFR2

A movement of £500,000 from voted resource DEL for the Children's Workforce Development Council.

Capital DEL

The increase in the capital element of the DEL of £199,686,000 arises from a £2,316,354,000 decrease in the voted element of capital DEL and an increase of £2,516,040,000 in the non-voted element of capital DEL.

Voted Capital DEL

The £2,316,354,000 decrease in the voted element of the capital DEL arises from:

RFR1

A take up of End Year Flexibility of £16,108,000 for the purchase of the Sheffield Head Office replacement.

A take up of End Year Flexibility of £55,185,000 for Children's Services through Local Authorities.

A take up of End Year Flexibility of £2,900,000 for 14-19 year olds through the Learning and Skills Council.

A take up of End Year Flexibility of £5,981,000 for Devolved Grants.

A take up of End Year Flexibility of £25,419,000 for Building Schools for the Future.

A take up of End Year Flexibility of £20,763,000 for Targeted Grants through Local Authorities.

A take up of £33,792,000 from Departmental Reserves for Children's programmes not through Local Authorities.

A take up of £15,000,000 from Departmental Reserves for Children's programmes through Local Authorities.

A take up of £6,700,000 from Departmental Reserves for the purchase of the Sheffield Head Office replacement.

A movement of £2,567,288,000 to non-voted resource DEL

A transfer of £161,000 to the Scottish Office for the National Society for the Prevention of Cruelty to Children.

A transfer of £93,000 to the Welsh Assembly for the National Society for the Prevention of Cruelty to Children.

A transfer of £55,000 to the Northern Ireland Executive for the National Society for the Prevention of Cruelty to Children.

An increase in receipts of £5,000 for the disposal of vehicles.

RFR2

A take up of End Year Flexibility of £69,400,000 for Sure Start programmes through Local Authorities.

Non-voted Capital DEL

The £2,516,040,000 increase in the non-voted element of capital DEL arises from:

RFR1

A take up of End Year Flexibility of £4,244,000 for the Qualifications and Curriculum Authority.

A transfer of £6,700,000 from Departmental Reserves to voted capital DEL for the purchase of the Sheffield Head Office replacement.

A movement of £2,567,288,000 to non-voted resource DEL.

A take up of £33,792,000 from Departmental Reserves to voted capital DEL for Children's programmes not through Local Authorities.

A take up of £15,000,000 from Departmental Reserves to voted capital DEL for Children's programmes through Local Authorities.

Administration

The £10,520,000 increase in the voted element of resource DEL arises from:

A take up of End Year Flexibility of £8,800,000 to cover net pressure on departmental administration costs.

A draw down from central funds of £819,000 for implementing International Financial Reporting Standards.

A transfer from the Cabinet Office of £529,000 for Parliamentary Counsel.

Transfers from the Department for Work and Pensions of £372,000 for Child Poverty and the Joint Birth Registration.

Office for Standards in Education, Children's Services and Skills

Resource DEL

The increase in the resource element of the DEL of £10,318,000 arises from an increase in the voted element of the resource DEL of £13,833,000 and a decrease of £3,515,000 in the non-voted element of resource DEL.

Voted Resource DEL

The £13,833,000 increase in the voted element of the resource DEL arises from:

A transfer from the Department for Children, Schools and Families of £8,100,000 for Early Years Foundation Stage inspections.

A movement from non voted Departmental Unallocated Provision of £3,515,000 to invest in change projects to deliver long term efficiency.

An increase of £2,618,000 relating to IFRS treatment of a lease.

A transfer of resource to capital of £400,000 to cover changes related to IFRS treatment of a lease.

Non Voted Resource DEL

The £3,515,000 decrease in the non voted element of the resource DEL arises from:

A movement to voted resource from non voted Departmental Unallocated Provision of £3,515,000 to invest in change projects to deliver long-term efficiency.

Voted Capital DEL

The £400,000 increase in the voted element of the capital DEL arises from:

A transfer of resource to capital of £400,000 to cover changes related to IFRS treatment of a lease.

TREASURY

Government Actuary's Department (DEL)

The Economic Secretary to the Treasury (Ian Pearson): Subject to parliamentary approval of any necessary Supplementary Estimate, the Government Actuary's Department total DEL will be increased by £22,000 from £403,000 to £425,000. Within the total DEL change the impact on resources and capital is set out in the following table:

£'000

	Change		New DEL		
	Voted	*Non-voted*	*Voted*	*Non-voted*	*Total*
Resource DEL	1	-	543	-	543
Of which:					
Administration Budget*	1	-	543	-	543
Near-cash in RDEL*	1	338	49	345	394
Capital DEL**	-	-	217	-	217
Less Depreciation***	21	-	-335	-	-335
Total DEL	22	-	425	-	425

*The total of the 'Administration budget' and 'Near-cash in Resource DEL' figures may well be greater than total resource DEL, due to the definitions overlapping.

**Capital DEL includes items treated as resource in estimates and accounts but which are treated as Capital DEL in budgets.

***Depreciation, which forms part of resource DEL, is excluded from total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.

The change in the resource element of DEL arises from:

An increase in salaries provision of £2,201,000 from £8,638,000 to £10,839,000.

An increase in other non-staff expenditure of £450,000 from £3,907,000 to £4,357,000.

Moving to reporting under International Reporting Accounting Standards (IFRS) to record an increase of £15,000 for employer liability relating to untaken annual leave.

An Increase in Appropriations in Aid provision of £2,665,000 from £12,497,000 to £15,162,000.

An increase in Notional Audit costs of £21,000 from £35,000 to £56,000.

A decrease in the Depreciation provision of £21,000 from £356,000 to £335,000.

HM Revenue and Customs (DEL)

The Financial Secretary to the Treasury (Mr. Stephen Timms): Subject to parliamentary approval of the Supplementary Estimate, the HM Revenue and Customs total DEL will be increased by £68,529,000 from £4,063,850,000 to £4,132,379,000. Within the total DEL change, the impact on resources and capital are as set out in the following table:

£'000

	Change		New DEL		
	Voted	*Non-voted*	*Voted*	*Non-voted*	*Total*
Resource DEL	25,206	46,286	3,703,057	397,623	4,100,680
Of which:					
Administration Budget*	24,206	46,286	3,982,092	46,286	4,028,378
Near-cash in RDEL*	22,243	46,286	3,378,640	431,771	3,810,411
Capital**	-	-	241,633	-	241,633

	£'000				
	Change		*New DEL*		
	Voted	*Non-voted*	*Voted*	*Non-voted*	*Total*
Less Depreciation ***	-2,963	-	-209,934	-	-209,934
Total DEL	22,243	46,286	3,734,756	397,623	4,132,379

*The total of the 'Administration budget' and 'Near-cash in Resource DEL' figures may well be greater than total resource DEL, due to the definitions overlapping.

**Capital DEL includes items treated as resource in estimates and accounts but which are treated as Capital DEL in budgets.

***Depreciation, which forms part of resource DEL, is excluded from total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.

The change in the resource element of DEL arises primarily from:

A draw down of the Modernisation Fund of £65,741,000 administration near cash to support costs for delivering modernisation and transformation across the Department.

A net increase of £2,797,000 administration non-cash to effect changes under International Financial Reporting Standards (IFRS) where assets are in HMRC's balance sheet in Estimates and Accounts

The draw down of End Year Flexibility of £1,000,000 programme near cash in accordance with the Public Expenditure outturn White paper (CM 7606) to fund expenditure on the Glover Portal.

A transfer of £1,574,000 administration near cash from the Office of Parliamentary Counsel for counsel costs relating to pages of new legislation.

A transfer of £379,000 administration near cash from the Northern Ireland Executive for work relating to the aggregates levy.

The change in the administration budget arises from the specific administration items detailed in the resource element above.

Departmental Expenditure Limits

The Exchequer Secretary to the Treasury (Sarah McCarthy-Fry): Subject to Parliamentary approval of the Spring Supplementary Estimate, HM Treasury's Resource DEL will be increased by £9,401,000 from £230,747,000 to £240,148,000. The Administration Budget will be increased by £6,431,000 from £180,145,000 to £186,576,000. The impact on resources, including the administration budget is set out in the following table:

	Change		*New DEL*		
	Voted	*Non-voted*	*Voted*	*Non-voted*	*Total*
Resource	9,401,000	-	219,304,000	20,844,000	240,148,000
of which:					
*Administration budget**	6,431,000	-	186,576,000	-	186,576,000
*Near cash in RDEL**	9,401,000	-	209,619,000	31,444,000	241,063,000
Capital**	-	-	154,800,000	2,142,000	156,942,000
Less: Depreciation***	-	-	-7,915,000	-	-7,915,000
Total	9,401,000	-	366,189,000	22,986,000	389,175,000

*The total of the 'Administration budget' and 'Near-cash in Resource DEL' figures may well be greater than total resource DEL, due to the definitions overlapping.

**Capital DEL includes items treated as resource in estimates and accounts but which are treated as Capital DEL in budgets.

***Depreciation, which forms part of resource DEL, is excluded from total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.

The net increase in resource DEL of £9,401,000 is the net effect of the take up of Administration Budget (£3,200,000) and Programme (£2,500,000) EYF in RfR1 Section A to fund the costs of the increased workload arising from financial stability work and spending on the Money Guidance project and the draw down from the Modernisation Fund of £3,700,000 administration costs to fund costs associated with the Fast Forward IT project.

The Administration Budget is increasing by £6,431,000, which is the net effect of the EYF take up (£3,200,000) and the draw down from the Modernisation Fund (£3,700,000) outlined above, less a transfer of £469,000 to programme spending.

National Savings and Investments (DEL)

The Exchequer Secretary to the Treasury (Sarah McCarthy-Fry): Subject to Parliamentary approval of any necessary Supplementary Estimate, National Savings and Investments DEL will be increased by £150,000 to £183,749. Within DEL change, the impact on resources and capital are set out in the following table:

	Change		*New DEL*		
	Voted	*Non-voted*	*Voted*	*Non-Voted*	*Total*
Resource Del:	150	-	183,749	-	183,749
Of which:					
Administration budget:	150	-	183,749	-	183,749
Near cash in RDEL:	150	-	179,254	-	179,254
Capital	-	-	3,176	-	3,176
Depreciation*	-	-	-3,015	-	-3,015
Total	150	-	183,910	-	183,910

*Depreciation which forms part of resource DEL is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.

The change in the resource element of DEL arises from:

Transfer of holiday pay accrual from Annually Managed Expenditure (AME) to DEL.

COMMUNITIES AND LOCAL GOVERNMENT

Departmental Expenditure Limits

The Secretary of State for Communities and Local Government (Mr. John Denham): Subject to parliamentary approval of any necessary Supplementary Estimate, the Department for Communities and Local Government's Departmental Expenditure Limits for 2009-10 will change as follows:

(1) the Department for Communities and Local Government's Main Programmes DEL will be decreased by £14,110,000 from £13,673,055,000 to £13,658,945,000 and the administration budget will be increased by £1,819,000 from £273,064,000 to £274,883,000. Within the DEL change, the impact on resources and capital are as set out in the following table:

	Change		*NEW DEL*		
	Voted	*Non-voted*	*Voted*	*Non-voted*	*Total*
Resource	51,092	-43,919	3,942,370	609,884	4,552,254
Of which					
*Administration budget**	1,819	0	274,833	0	274,883
Near-cash in RDEL	-3,431	10,541	3,843,705	511,073	4,354,778
Capital **	-15,277	-19,723	2,128,029	7,014,741	9,142,770
Depreciation***	5,717	8,000	-30,333	-5,746	-36,079
Total	41,532	-55,642	6,040,066	7,618,879	13,658,945

*The total of 'Administration budget' and 'Near-cash in resource DEL' figures may be greater than total resource DEL due to the definitions overlapping.

** Capital DEL includes items treated as resource in Estimates and accounts but which are treated as Capital DEL in budgets

***Depreciation, which forms part of resource DEL, is excluded from the total DEL, since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.

The change in the resource element of the DEL arises from:

(i) draw down of End of Year Flexibility of £21,000,000, comprising:

Programme Expenditure

(a) £20,000,000 for the Mortgage Rescue Scheme to help vulnerable families at risk of repossession to stay in their homes;

Administration Expenditure

(b) £1,000,000 for Central Administration in respect of the Enhanced Local Government Accrued Reporting project.

(ii) a reduction of £17,500,000, from the Departmental Unallocated Provision, to partly offset increased Fire pensions costs that resulted from backdating the revised commutation rate.

(iii) a transfer in of £3,673,000 from other government departments, comprising:

Programme Expenditure

(a) £2,854,000 from the Home Office in respect of their contribution to the Migration Impact Fund;

Administration Expenditure

(b) £819,000 from the Cabinet Office for the work of Parliamentary Counsel.

Items (iv) and (v) below have a net nil effect on the Departmental Expenditure Limit:

(iv) a net decrease in receipts of £1,549,000 comprising offsetting:

decreases in provision of:

(a) £10,000,000 for Central Administration following surrender of the Ashdown House lease.

offset by increases in provision of:

(b) £3,580,000 for the Ordnance Survey Trading Fund as a result of changes in the targeted rate of return and value of net assets employed;

(c) £1,800,000 for Central Administration (Other Current) for staff on loan to the Homes and Communities Agency;

(d) £1,768,000 for the Government Offices for work being undertaken on behalf of sponsor departments;

(e) £1,200,000 for the Queen Elizabeth II Conference Centre Agency as a result of a change in the target rate of return and value of net assets employed;

(f) £103,000 for Fire Control Rooms for the recovery of accommodation costs for the maintenance of the newly built Regional Control Centres from the relevant Fire Authorities.

(v) a net transfer of £26,419,000 from non-voted to voted provision comprising:

from voted to non-voted provision

Programme Expenditure

(a) £7,117,000 to the Homes and Communities Agency from Growth Areas, New Growth Points and Eco-towns in respect of:

(i) Eco-towns, to make funding awards to the four Eco-town authorities (£6,617,000);

(ii) the Advisory Team on Large Applications (ATLAS) funding (£500,000);

(b) £3,225,000 to Thames Gateway Thurrock Urban Development Corporation from FireLink (£1,508,000) and Fire Control Rooms (£1,717,000) for fixed assets' depreciation and interest costs.

(c) a transfer of £105,493,000 from various voted programmes to the Departmental Unallocated Provision.

from non-voted to voted provision

(d) a transfer of £142,254,000 from the Departmental Unallocated Provision comprising:

(i) European Regional Development Fund (£111,000,000)

(ii) Community Empowerment (£10,000,000) in respect of anti-social behaviour

(iii) Community Policy (£7,500,000) in respect of Connecting Communities

(iv) Renewing Neighbourhoods (£2,632,000) in respect of Town Centre funding

(v) Area Based Grant (£2,241,000)

(vi) Cumbria Floods Recovery (£1,000,000)

(vii) Regeneration Strategy (£441,000)

(viii) Migration Impact Fund (£400,000)

(ix) Housing Management (£200,000)

(x) Ordnance Survey Trading Fund (£3,580,000)

(xi) Residential Property Tribunal Service (£3,000,000)

(xii) Queen Elizabeth II Conference Centre Agency (£260,000)

The change in the administration budget arises from a draw down of End of Year Flexibility of £1,000,000—see above section (i) and a transfer of £891,000 from the Cabinet Office—see above section (iii)).

The change in the capital element of the DEL arises from

(vi) a reduction of £35.000,000 comprising

(a) £4,000,000 (part of £44,000,000) in respect of Support for Mortgage Interest, as agreed in the 2009 Pre-Budget Report. The balance of this (£40,000,000) will be effected by HM Treasury reducing the Department's End of Year Flexibility stock in the Public Expenditure Provisional Outturn 2009-10 White Paper; and

(b) £31,000,000 to offset increased prudential borrowing cover for the Local Authority New Build programme as agreed at the 2009 Budget and extended in "Building Britain's Future."

Items (vii) and (viii) below have a net nil effect on the Departmental Expenditure Limit:

(vii) an increase in receipts of £15,937,000 offsetting increases in provision of: £10,000,000 for Capital Pooled Housing Receipts; £5,000,000 for Support for the Voluntary and Community Sector in respect of the Community Builders project and £937,000 for Central Administration for the purchase of carbon reduction efficient lighting systems and reimbursement by reclaim to Department of Energy and Climate Change.

(viii) a net transfer of £15,277,000 from voted to non-voted provision comprising

from voted to non-voted provision

(a) £15,500,000 from Growth Areas, New Growth Points and Eco-Towns to the Homes and Communities Agency to enable it to make funding awards to the four Eco-town authorities.

(b) a transfer of £25,057,000 to the Departmental Unallocated Provision comprising Support for Voluntary & Community Sector Sustainability (£12,784,000); Capital Pooled Housing Receipts (£10,000,000); Fire and Rescue Service Improvement Programme (£2,139,000); and Local Enterprise Growth Initiative (£134,000).

from non-voted to voted provision

(c) transfers from the Departmental Unallocated Provision of £25,280,000 comprising:

(i) Fire Control Rooms (£24,963,000). The additional funding is required due to the delay in the transfer of the Regional Control Centre leases for the West Midlands and East of England;

(ii) Fire and Rescue Service Improvement Programme (£315,000) for replacement of assets lost and damaged in the fire at the Fire Service College and

(iii) European Regional Development Fund (£2,000) for token subhead to reinstate central and local authority spending from the European Regional Development Fund.

(2) The Department for Communities and Local Government's Local Government DEL will be increased by £30,000,000 from £25,761,145,000 to £25,791,145,000. Within the DEL change, the impact on resources and capital are as set out in the following table:

	£'000				
	Change		*NEW DEL*		
	Voted	*Non-voted*	*Voted*	*Non-voted*	*Total*
Resource	-32,300	300	25,446,700	118,351	25,565,051
Of which					
*Administration budget**					
Near cash in RDEL	-32,300	300	25,446,700	117,261	25,563,961
Capital**	62,000	0	226,122	978	227,100
Depreciation***	0	0	0	-1,006	-1,006
Total	29,700	300	25,672,822	118,323	25,791,145

*The total 'Administration budget' and 'Near-cash in resource DEL' figures may be greater than total resource DEL due to the definitions overlapping.

** Capital DEL includes items treated as resource in Estimates and accounts but which are treated as Capital DEL in budgets

*** Depreciation, which forms part of resource DEL, is excluded from the total DEL, since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.

The change in the resource element of the DEL arises from:

(i) a transfer of £300,000 from voted to non-voted comprising a transfer from Improvement, Transformation and Efficiency to the Standards Board for England to meet restructuring costs.

(ii) a switch of £32,000,000 from Resource to Capital for the Local Government Public Service Agreement Performance Fund to meet commitments.

The change in the capital element of the DEL arises from:

(i) a draw down of End Year Flexibility of £30,000,000 to meet commitments for the Local Government Public Service Agreement Performance Fund.

(ii) a switch of £32,000,000 to Capital from Resource for the Local Government Public Service Agreement Performance Fund to meet commitments.

CULTURE, MEDIA AND SPORT

Departmental Expenditure Limits

The Secretary of State for Culture, Media and Sport (Mr. Ben Bradshaw): Subject to Parliamentary approval, the Department for Culture, Media and Sport's total Departmental Expenditure Limit (DEL) will be increased by £78,600,000 from £2,060,368,000 to £2,138,968,000. Within the DEL change the impact on resource and capital are set out in the following table:

Departmental Expenditure Limits

	Change		*New*	*DEL*	*£'000*
	Voted	*Non-voted*	*Voted*	*Non-voted*	*Total*
Resource DEL	469	16,957	103,804	1,602,459	1,706,263
of which					
*Administration budget**			55,133		55,133
Near-cash in RDEL	469	-6,895	94,425	1,350,986	1,445,411
Capital**	53,477	7,949	-730,727	1,274,053	543,326
Less Depreciation***	-	-252	-6,405	-104,216	-110,621
Total	53,946	24,654	-633,328	2,772,296	2,138,968

*The total of 'Administration budget' and 'Near-cash in Resource DEL' figures are greater than total resource DEL, due to the definitions overlapping.

**Capital DEL includes items treated as resource in Estimates and accounts but which are treated as Capital DEL in budgets

***Depreciation, which forms part of resource DEL, is excluded from total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.

The change in the resource element of the DEL arises from:

A claim on the Reserve of £23,500,000 for provisions associated with the decommissioning costs of the Olympic Stadium; an addition of £352,000 non-cash, to cover costs associated with a change in accounting policy as a consequence on implementing International Finance Reporting Standards (IFRS), less a switch of funding from resource to capital of £6,426,000.

The capital element of the DEL has increased by £61,426,000 as a result of:

The drawdown of £30,000,000 End Year Flexibility (EYF) to meet agreed spending plans; the drawdown of £25,000,000 EYF to cover access to reserves by our Non-Departmental Public Bodies; and, an additional £6,426,000 arising from the resource to capital switch detailed above.

DEFENCE

MOD Votes A Annual Estimate 2010-11

The Secretary of State for Defence (Mr. Bob Ainsworth): The "Ministry of Defence Votes A Estimate 2010-11" will be laid before the House on 23 February 2010 as HC 304. This outlines the maximum numbers of personnel to be maintained for each service in the armed forces during financial year 2010-11.

Departmental Expenditure Limits

The Secretary of State for Defence (Mr. Bob Ainsworth): Subject to Parliamentary approval of the necessary supplementary estimate, the Ministry of Defence departmental expenditure limits will be increased by £284,565,000 (voted and non-voted) from £39,596,111,000 to £39,880,676,000. Within the DEL change, the impact on resources and capital is set out in the following table:

£000s

	Change		*New DEL*		
	Voted	*Non-Voted*	*Voted*	*Non-voted*	*Total*
Resource	-33,261	222,266	38,660,976	439,112	39,100,088

Capital	178,695	-	9,227,484	851	9,228,335
Depreciation*	-83,265		-8,438,227	-9,520	-8,447,747
Total	62,169	222,396	39,450,233	430,443	39,880,676

* Depreciation, which forms part of Resource DEL, is excluded from the total DEL since capital DEL includes capital spending; to include depreciation of those assets would lead to double counting.

The changes to the resource and capital elements of the DEL arise from:

an increase of £100,000,000 direct resource near-cash relief in RfR1, as agreed with Treasury;

resource transfers into RfR1 from the Cabinet Office being their contribution to MOD security costs of £6,000,000, transfers from the Foreign and Commonwealth Office of £6,695,000 and £1,965,000 respectively for the Counter Narcotics Ground Force, a transfer of £211,000 from the Cabinet Office being their contribution to the Parliamentary Counsel cost, a transfer of £1,002,000 from the Foreign & Commonwealth Office being their contribution to the Information Assurance Technical Programme; and a transfer of £1,832,000 from the Department for International Development being their contribution to the Global Pool (RfR2);

a net decrease in the cash release of provisions of £17,324,000 charged to RDEL (with a corresponding increase in the provision charge scored in AME) to reflect the latest forecast of out-turn;

a further increase in Fiscal Capital Resource of £5,000,000 to reflect Treasury relief for lower capital receipts in Northern Ireland than originally forecasted;

a net resource increase of £13,430,000 in non-cash depreciation and cost of capital costs to reflect the latest forecast cost of operations in Iraq and Afghanistan;

to reallocate the net resource impact of £35,000,000 for employee benefits under IFRS trigger point 3 from AME to resource DEL, reflecting the revised control framework for this item;

to reflect the revised, and reduced, resource impact assessment of disclosing three PFI contracts as finance leases under IAS 17, being a credit of £21,000,000;

to reflect the revised resource impact of a reduced service charge relating to Annington Homes of £18,000,000;

to reflect the non-cash resource impact, in the amount of £26,000,000, of implementing IFRS 17 on three PFI off balance sheet contracts now reassessed as finance leases;

to reflect the IFRS reduced near-cash service charge of £178,000,000 impact of disclosing IFRIC 12 PFI assets on MOD's balance sheet;

to increase non-budget grants in aid (non-voted) for the Council of Reserve Forces and Cadets Association of £4,199,000 in the Central TLB and £4,943,000 in Land TLB;

£210,000 for the Marine and Sea Cadets Society by reducing resource DEL current costs and increasing non-budget grants in aid with no overall impact on resource;

to increase non-budget funding by £10,991,000 from within resource DEL to reflect the latest forecast of out-turn for the Navy Command, Land Forces and Central TLBs;

to revise sub-head provisions to reflect resource and capital revisions in allocations between holders to match required defence outputs, with no overall impact on DEL;

To request a net increase in capital DEL of £160,695,000 to reflect the latest forecast cost of operations in Iraq and Afghanistan.

The changes to resource DEL and capital DEL will lead to an increased net cash requirement of £935,052,000.

ENERGY AND CLIMATE CHANGE

Departmental Expenditure Limits

The Secretary of State for Energy and Climate Change (Edward Miliband): Subject to Parliamentary approval of any necessary Supplementary Estimate, the Department of Energy and Climate Change Departmental Expenditure Limit (DEL) will decrease by £2,283,000 from £3,102,677,000 to £3,100,394,000 and the Administration Budget will be increased by £9,047,000 from £93,512,000 to £102,559,000.

Within the DEL change, the impact on resources and capital is as set out in the following table:

£'000	*Change*		*New DEL*		
	Voted	*Non-Voted*	*Voted*	*Non-Voted*	*Total*
Resource DEL	-31,215	145,592	-735,996	1,955,536	1,219,540
Of which:					

£'000	*Change*		*New DEL*		
	Voted	*Non-Voted*	*Voted*	*Non-Voted*	*Total*
Administration Budget*	9,047	-	102,559	-	102,559
Near Cash in Resource DEL*	-31,215	145,592	-759,528	2,000,030	1,240,502
Capital DEL**	10,864	-127,524	693,065	1,194,880	1,887,945
Less Depreciation***	-	-	-2,987	-4,104	-7,091
Total DEL	-20,351	18,068	-45,918	3,146,312	3,100,394

*The total of 'Administration Budget' and 'Near Cash in Resource DEL' figures may well be greater than total Resource DEL, due to the definitions overlapping.

**Capital DEL includes items treated as resource in Estimates and accounts but which are treated as Capital DEL in budgets.

***Depreciation, which forms part of Resource DEL, is excluded from the total DEL in the table above, since Capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.

Resource DEL

The increase in the Resource element of the DEL of £114,377,000 arises from a decrease in the voted element of Resource DEL of £31,215,000 and an increase of £145,592,000 in the non-voted element of Resource DEL.

Voted Resource DEL

The £31,215,000 decrease in the voted element of Resource DEL arises from:

The take up of Departmental Unallocated Provision of £22,800,000.

A transfer of £343,000 from the Cabinet Office for Parliamentary Counsel Office costs.

An increase to DEL of £211,000 following the adoption of International Accounting Standard (IAS) 19 for accrued employee benefits.

An increase of £40,748,000 in Nuclear Decommissioning Authority operating appropriations-in-aid.

A transfer to the Department for Environment, Food and Rural Affairs of £12,500,000 for cost pressures on Common Agricultural Policy disallowance.

An increase of £821,000 in operating appropriations-in-aid for the Committee on Climate Change.

A transfer to the Department for Business, Innovation and Skills of £500,000 for the National Skills Academy for Power.

Non-voted Resource DEL

The £145,592,000 increase in non-voted Resource DEL arises from:

A transfer from Capital to Resource DEL for the Nuclear Decommissioning Authority of £126,823,000.

An increase of £40,748,000 in Nuclear Decommissioning Authority DEL offsetting the increase in appropriations-in-aid.

An increase of £821,000 in Committee on Climate Change DEL offsetting the increase in appropriations-in-aid.

The take up in voted Resource DEL of Departmental Unallocated Provision of £22,800,000.

Capital DEL

The decrease in the Capital element of the DEL of £116,660,000 arises from an increase in the voted element of Capital DEL of £10,864,000 and a decrease of £127,524,000 in the non-voted element of Capital DEL.

Voted Capital DEL

The £10,864,000 increase in the voted element of Capital DEL arises from:

An increase from central funds of £50,000,000 for the 2020 European Fund for Energy, Climate Change and Infrastructure ('Marguerite').

An increase of £39,401,000 in Nuclear Decommissioning Authority non-operating appropriations-in-aid formerly scored as Consolidated Fund Extra Receipts.

A transfer from the Department for Environment, Food and Rural Affairs of £265,000 for the Anaerobic Digestion Demonstration Programme.

Non-voted Capital DEL

The £127,524,000 decrease in the non-voted element of Capital DEL arises from:

A transfer from Capital to Resource DEL for the Nuclear Decommissioning Authority of £126,823,000.

An increase of £40,102,000 in Consolidated Fund Extra Receipts for the repayment of Offshore Wind Capital Grants.

A decrease of £39,401,000 in Consolidated Fund Extra Receipts for the Nuclear Decommissioning Authority, now scored as non-operating appropriations-in-aid.

Administration budget

The increase of £9,047,000 in the Administration Budget arises from:

A transfer from Programme DEL of £7,500,000 for DECC transition costs.

A transfer from Programme DEL of £1,000,000 for consumer levies administration costs.

A transfer of £343,000 from the Cabinet Office for Parliamentary Counsel Office costs.

An increase to Administration DEL of £204,000 following the adoption of IAS19 for accrued employee benefits.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Evidence Investment Strategy

The Parliamentary Under-Secretary of State for Environment, Food and Rural Affairs (Dan Norris): I have arranged for copies of DEFRA's new Evidence Investment Strategy (EIS) which provides an agenda to prioritise and manage DEFRA's investment in evidence from 2010 to 2013 and beyond to be placed in the Libraries of both Houses. It highlights the need to focus efforts on the interlinked challenges of climate change, protecting ecosystems and developing a sustainable food supply. The strategy will ensure that DEFRA has access to the best evidence when developing and implementing policies. The strategy is available at: http://www.defra.gov.uk/evidence/science/how/strategy.htm

DEFRA's Chief Scientific Adviser led a detailed review of DEFRA's evidence activities and worked in collaboration with teams across DEFRA and the evidence landscape (including the executive agencies, non departmental public bodies and key external stakeholders) to develop the strategy. The EIS will build on the progress made by DEFRA's first evidence strategy, Our approach to Evidence and Innovation for 2005-08, encouraging better use of evidence for policy-making.

The strategy contains a number of recommendations including the importance of working with others, both internally and through partnerships with the research councils and other Government Departments, and developing skills, expertise and capabilities which will improve DEFRA's gathering and use of evidence.

Departmental Expenditure Limits

The Parliamentary Under-Secretary of State for Environment, Food and Rural Affairs (Dan Norris): Subject to Parliamentary approval of any necessary supplementary estimate, the Department for Environment, Food and Rural Affairs departmental expenditure limit (DEL) will be increased by £41,608,000 (1.32 per cent.) from £3,149,133,000 to £3,190,741,000. The administration budget will be increased by £200,000 (0.07 per cent.) from £304,296,000 to £304,496,000. Within the DEL change, the impact on resources and capital is set out in the following table:

£000s

	Change			*New DEL*		
	Voted	*Non-voted*	*Total*	*Voted*	*Non-voted*	*Total*
Resource	404,844	-392,971	11,873	4,405,871	-1,684,991	2,720,880
Of which						
Administration Budget	*200*	-	*200*	*304,496*	-	*304,496*
Near-cash in Resource DEL	*389,547*	*-377,674*	*11,873*	*4,138,436*	*-1,752,988*	*2,385,448*
Capital	-8,305	38,040	29,735	262,071	432,179	694,250
Depreciation*	9,450	-9,450	-	-115,820	-108,569	-224,389
Total	405,989	-364,381	41,608	4,552,122	-1,361,381	3,190,741

*Depreciation, which forms part of resource DEL since capital DEL includes capital spending of those assets would lead to double counting.

The change in the resource element of the DEL of £11,873,000 arises from: (i) a transfer of £30,000,000 programme from resource to capital for the Environment Agency; (ii) a £30,000,000 increase to programme following an agreement with HM Treasury to bring forward part of next year's ring-fenced disallowance provision to cover a Rural Payments Agency (RPA) disallowance issue that has materialised this year; (iii) a transfer of £827,000 programme to the Department of Agriculture and Rural Development for Northern Ireland for transmissible spongiform encephalopathy responsibility; (iv) a transfer of £12,500,000 programme from the Department of Energy and Climate Change, returning funding DEFRA previously provided for the Carbon Capture and Storage Front-End Engineering Design (FEED) studies; and (v) a transfer of £200,000 administration from the Cabinet Office for the Office of Parliamentary Counsel.

There has also been a transfer within the resource element of the DEL of £355,481,000 from voted to non-voted. This relates to increases in income and expenditure for the EU funded schemes. This change is DEL neutral, but the expenditure is classed as voted, whereas the income is classed as non-voted consolidated fund extra receipts.

There has been a transfer of the remaining £26,000,000 Departmental Unallocated Provision from non-voted to voted to cover in part an RPA disallowance issue that has materialised this year. The remainder of the transfers within resource DEL, between voted and non-voted, primarily relate to budget transfers from the core Department (voted) to the Department's Non Departmental Public Bodies (non-voted).

The change in the capital element of the DEL of £29,735,000 arises from: (i) a transfer of £30,000,000 from resource to capital for the Environment Agency; and (ii) a transfer of £265,000 to the Department of Energy and Climate Change for anaerobic digestion of manure and food waste demonstration projects.

There has also been a transfer within the capital element of the DEL of £8,040,000 from voted to non-voted relating to budget transfers from the core Department (voted) to the Department's Non Departmental Public Bodies (non-voted).

FOREIGN AND COMMONWEALTH OFFICE

Hong Kong

The Secretary of State for Foreign and Commonwealth Affairs (David Miliband): The latest report on the implementation of the Sino-British joint declaration on Hong Kong was published today. Copies have been placed in the Library of the House. A copy of the report is also available on the Foreign and Commonwealth Office website: www.fco.gov.uk. The report covers the period from 1 July to 31 December 2009. I commend the report to the House.

Departmental Expenditure Limits

The Secretary of State for Foreign and Commonwealth Affairs (David Miliband): Subject to Parliamentary approval of any necessary supplementary estimate, the Foreign and Commonwealth Office departmental expenditure limit (DEL) will be increased by £94,354,000 from £2,246,893,000 to £2,341,247,000. The administration budget will be increased by £29,444,000 from £426,845,000 to £456,289,000. Within the DEL change, the impact on resources and capital are as set out in the following table:

£000

	Change		*New DEL*		
	Voted	*Non-Voted*	*Voted*	*Non-Voted*	*Total*
Resource	107,354	-	2,237,987	3,000	2,240,987
Of which					
Administration budget *	*29,444*	-	*456,289*	-	*456,289*
Near-cash in Resource DEL	*107,354*	-	*2,027,913*	*16,000*	*2,043,913*
Capital**	-13,000	-	203,310	-	203,310
Depreciation ***	-	-	-103,050	-	-103,050
Total	94,354	-	2,338,247	3,000	2,341,247

* The total of Administration budget and Near-cash in Resource DEL figures may well be greater than total resource DEL, due to the definitions overlapping.

** Capital DEL includes items treated as resource in Estimates and accounts but which are treated as Capital DEL in budgets.

*** Depreciation, which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.

The change in the resource element of the DEL arises from:

Request for Resources 1

Administration

I. Take-up of £5,700,000 administration costs in respect of restructuring.

II. A claim on the Reserve of £6,000,000 administration costs in respect of modernisation of the FCO.

III. A transfer of £11,000 administration from the Cabinet Office in respect of charging for legal services by the Office of the Parliamentary Counsel.

IV. A transfer of £1,002,000 administration to MOD in respect of the FCO's contribution to the information assurance technical programme.

V. A transfer of £16,000,000 capital to administration in respect of exchange rate pressures. This amount includes £3,000,000 transferred from Capital EYF.

VI. A transfer of £2,735,000 other current AME to administration DEL in respect of FCO staff costs for accrued annual leave.

Programme

I. A claim on the Reserve of £44,464,000 current grants in respect of the International Subscriptions cost-sharing agreement.

II. A claim on the Reserve of £25,060,000 other current in respect of Consular Premiums.

III. A transfer of £5,500,000 other current from DFID in respect of the Returns and Reintegration Fund.

IV. A transfer of £77,000 other current from DFID in respect of the Iraqi LE staff assistance scheme.

V. A transfer of £10,000 other current from DFID in respect of the Low Carbon High Growth Strategic Programme Fund.

VI. A transfer of £6,695,000 other current to MOD in respect of counter-narcotics work in Afghanistan.

VII. A transfer of £1,965,000 other current to MOD in respect of counter-narcotics work in Afghanistan.

VIII. A transfer of £500,000 other current to the Security and Intelligence Agencies for expansion and capability.

IX. A transfer of £2,000,000 from RfR1 to RfR2 for FCO's contribution to the Helmand uplift for Stabilisation and Conflict Prevention.

Capital

I. Take up of £3,000,000 Capital EYF in respect of a transfer to administration costs.

II. A transfer of £ 16,000,000 capital to administration in respect of exchange rate pressures.

Request for Resources 2

Programme

I. A benefit to HMT Reserve of £14,000,000 in respect of Stabilisation and Conflict Prevention.

II. A transfer of £14,700,000 from DFID in respect of discretionary peacekeeping funds.

III. A transfer of £11,259,000 from DFID in respect of Stabilisation and Conflict Prevention.

IV. A transfer of £2,000,000 from RfR1 to RfR2 for FCO's contribution to the Helmand uplift for Stabilisation and Conflict Prevention.

Sri Lanka

The Secretary of State for Foreign and Commonwealth Affairs (David Miliband): I would like to update the House on recent developments in the political and humanitarian situations in Sri Lanka.

Since the end of the fighting last May between the Government of Sri Lanka and the Liberation Tigers of Tamil Eelam there has been a unique opportunity for the Government to work with all communities in Sri Lanka to achieve lasting peace through genuine national reconciliation. The UK has continued to make the case that this can only come about through a fully inclusive political process to address the underlying causes of the conflict.

Elections

Following the presidential election of 26 January the Prime Minister wrote to President Rajapakse and I have spoken with Foreign Minister Bogollogama. Together with others, such as the Secretaries-General of the UN and the Commonwealth and the EU High Representative, we have urged President Rajapakse to use his new mandate to make real progress on national reconciliation. The President has made some positive comments about the need to focus on the concerns of Tamils and to discuss the devolution of powers. Setting out his plans for political reform would be a welcome next step.

Election monitors and the Election Commissioner were united in declaring the result of the election valid. But they voiced concerns about aspects of the election campaign, including incidences of violence and allegations of electoral malpractice. We have been encouraging the Government to address these concerns by conducting thorough investigations into any allegations and to encourage an atmosphere of calm by reaching out to those who did not support the President. There have, however, been worrying reports of a clampdown on those who did not support President Rajapakse. The arrest of his principal challenger in the election, Sarath Fonseka, has done nothing to ease tensions. The Government needs to ensure that all detainees, including Fonseka, are treated strictly in accordance with Sri Lankan law.

The next opportunity for Sri Lankans to elect their political representatives will be the Parliamentary elections that are expected to take place on 8 April. The Prime Minister has encouraged the President to ensure that measures are in place to remove the scope for allegations of malpractice. I have underlined to Foreign Minister Bogollogama the importance of making it possible for all Sri Lankans to vote. While we welcomed the high national turnout in the presidential election of 70 per cent., this dropped to less than 30 per cent. in the north and east. An election in which all communities can select their representatives of choice could advance the prospects for genuine reconciliation.

We will continue to engage with the Government and other political parties in Sri Lanka to encourage a process of political reform. In recognition of the potentially positive contribution they could make to that process, we also continue to engage with the Tamil, Muslim and Sinhalese communities based in the UK. This includes the activities of the right hon. Member for Kilmarnock and Loudoun (Des Browne) MP, the Prime Minister's special envoy for Sri Lanka. I will be addressing the forthcoming London conference of the global Tamil Forum to encourage a forward-looking, constructive approach.

Accountability

The EU has made clear its view that a credible process to address alleged violations of international humanitarian law by both sides during the conflict could also contribute to the process of reconciliation. The US State Department report on the conflict in Sri Lanka and the statement by Philip Alston, the UN special rapporteur for extrajudicial, summary or arbitrary executions, underline the need for a credible and independent investigation. We continue to make this clear to the Sri Lankan Government, most recently when I spoke to Foreign Minister Bogollogama earlier this month. We await with interest the findings of the committee set up by President Rajapakse to look into the State Department report.

Human Rights and GSP+

A third way in which the GoSL could encourage genuine reconciliation would be through greater promotion and protection of human rights, including media freedoms, and by tackling the culture of impunity. I have reinforced to Foreign Minister Bogollogama the importance of producing and implementing a human rights national action plan, as was agreed at the UN Human Rights Council periodic review of Sri Lanka in 2008.

On 19 October the European Commission published its report into Sri Lanka's compliance with three of the conventions linked to Sri Lanka being a beneficiary of the GSP+ scheme. The report was clear about Sri Lanka's failings in its implementation of the International Covenant on Civil and Political Rights, the convention against torture and other cruel, inhuman or degrading treatment or punishment, and the convention on the rights of the child. The report reinforces our concerns about the human rights situation in Sri Lanka and we share the Commission's assessment.

On 15 February the UK and other member states supported the Commission's formal recommendation to withdraw GSP+ benefits from Sri Lanka. This will come into effect on 15 August, six months following the date of the decision. We continue to urge the Government to engage constructively with the European Commission and to take all necessary steps to address the serious concerns highlighted in the Commission's report.

Humanitarian Situation

The UK's most immediate priority since the end of the conflict has been to work for an improvement in the humanitarian situation. By the end of the fighting there were over 280,000 internally displaced people in camps in the north of Sri Lanka. We have been advocating an improvement in conditions inside the camps and for IDPs to be able to return to their home areas as soon as it is safe to do so. Since September 2008, the UK, through the Department for International Development, has also allocated £12.5 million to the humanitarian response.

Conditions in the camps have improved and there has been progress in the return of IDPs. UN official figures estimate that as of 15 January around 187,500 people have been released from the camps, of which 158,500 have been able to return to their home areas, while 29,000 vulnerable people have been housed with host families or in institutions. It is important that vulnerable people have been housed with host families or in institutions. It is important that IDPs continue to be able to return to their home areas as soon as it is safe to do so.

The Government's announcement on 1 December that all IDPs still in the camps would be granted freedom of movement was a positive step. However, some restrictions remain in place and we will continue to encourage the Government to ease those.

We will continue to work with international partners and with the Sri Lankan Government to encourage progress on reconciliation, accountability and human rights as a basis for the lasting peace all Sri Lankans want and deserve.

HEALTH

Chronic Obstructive Pulmonary Disease

The Secretary of State for Health (Andy Burnham): I am publishing today the "Consultation on Services for Chronic Obstructive Pulmonary Disease in England".

Since 2005 the Department, the National Health Service and other key stakeholders have been working together to identify the best ways to improve care and outcomes for those people with chronic obstructive pulmonary disease and to reduce the overall prevalence of the condition. Following this work we have developed a set of recommendations for the NHS, further action for the Department and we are now consulting with stakeholders. This document represents the final consultation stage before we publish the final strategy.

We estimate that over three million people in England live with this condition. One person dies in England of COPD every 20 minutes—a loss of about 25,000 lives every year. COPD is also the second most common cause of emergency admission and the fifth largest cause for readmission to hospital. It is also one of the most costly, in terms of acute hospital care.

It has therefore become clear that we need to change our approach to prevention, diagnosis, treatment and management of the condition. As we have developed the strategy we have had extensive engagement with people with COPD and their carers

The strategy offers a real opportunity to make a difference to people with COPD and their carers. Successful implementation will require ongoing commitment and ambition and the engagement and involvement of all stakeholders.

The strategy does not define how each aspect of care should be delivered. We think services need to be sensitively planned and appropriately delivered in response to the needs of each local community. However, the strategy is designed to support local service plans within the NHS, and to complement other related national and local initiatives. This will include the clinical guidelines developed by NICE and other broader health promotion initiatives such as the national tobacco control programme. With better co-ordinated and integrated services, we can provide care that better meets the complex needs of people with COPD and meets their expectations.

Because of the magnitude of the burden of asthma, we have given separate attention to that condition within this strategy, highlighting where there are synergies in the approach to the care of these conditions and where there are differences. It also highlights some aspects of good asthma services.

"Consultation on Services for Chronic Obstructive Pulmonary Disease (COPD) in England" has been placed in the Library and copies are available for hon. Members from the Vote Office.

The consultation will run from 23 February to 5 April 2010.

Departmental Expenditure Limits

The Minister of State, Department of Health (Mr. Mike O'Brien): Subject to the necessary Supplementary Estimates, the Department of Health's element of the Departmental Expenditure Limit (DEL) will increase by £2[illegible]6,000 from £105,349,954,000 to £105,564,260,000 and the Administration Cost Limit increases by £4,426,000 from £213,765,000 to £218,191,000. The Food Standards Agency DEL decreases by £1,500,000 from £134,987,000 to £133,487,000. The overall DEL including the Food Standards Agency will increase by £212,806,000 from £105,484,941,000 to £105,697,747,000. The impact on resource and capital are set out in the following table:

	CHANGE		*New DEL*

Total Food Standards Agency DEL	2.000		136.987	-3.500	133.487
Depreciation **			-1.908		-1.908
Total Food Standards Agency spending (after adjustment)	2.000	-3.500	135.079	-3.500	131.579

* The total of "administration budget" and "Near-cash in Resource DEL" figures may well be greater than the total resource DEL, due to definitions overlapping.

** Depreciation, which forms part of resource DEL, is excluded from the total DEL since the capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.

The Department of Health DEL has increased by £214,306,000 made up of:

a transfer of £568,000 from the Ministry of Justice, mainly for prison healthcare services;

a transfer of £2,854,000 from the Home Office as the Department's share of a contribution to the migration impact fund;

a transfer of £280,000 to the Department for International Development for the healthy living fund;

a transfer from the Cabinet Office of £426,000 (administration costs) for services of the Parliamentary Counsel; and

an increase of £210,738,000 for changes in accounting policies resulting from the introduction of International Financial Reporting Standards.

In addition, the following internal transfers were made:

a transfer of £4,000,000 from programme to administration costs to meet additional costs arising from the Swine Flu programme, reform of Care and Support and the NHS Next Stage Review; and

a transfer from the capital budget to the revenue budget of £200,000,000 to meet existing commitments on pandemic flu.

The Department of Health's administration cost limit has increased by £4,426,000 as detailed above.

The change to the Food Standards Agency element of the DEL is due to:

an increase in the administration budget of £2,000,000 to fund reorganisation within FSA headquarters; and

a decrease of £3,500,000 programme cost identified savings in relation to research and campaign activity.

HOME DEPARTMENT

Departmental Expenditure Limits

The Secretary of State for the Home Department (Alan Johnson): Subject to Parliamentary approval of the necessary supplementary estimates, the Home Office's

Departmental expenditure limits for 2009-10 will be increased by £135,354,000 from £10,242,220,000 to £10,377,574,000 and the administration budget will be reduced by £276,293,000 from £675,540,000 to £399,247,000.

Within the DEL change, the impact on resources and capital are as set out in the following table:

£'000

	Change		*New DEL*		
	Voted	*Non-voted*	*Voted*	*Non-voted*	*Total*
Resource DEL	46,564	(85,434)	8,589,149	980,335	9,569,484
Of which:					
Administration budget *	(241,071)	(35,222)	246,339	152,908	399,247
Near-cash in RDEL *	41,153	(92,736)	8,418,215	930,329	9,348,544
Capital **	189,300	(300)	726,561	280,520	1,007,081
Less depreciation ***	(4,976)	(9,800)	(133,867)	(65,124)	(198,991)
Total	230,888	(95,534)	9,181,843	1,195,731	10,377,574

* The total of the "Administration Budget" and "Near-cash in Resource DEL" figures may well be greater than total resource DEL, due to the definitions overlapping.

**Capital DEL includes items treated as resource in Estimates and accounts but which are treated as Capital DEL in budgets.

***Depreciation, which forms part of resource DEL, is excluded from total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.

INTERNATIONAL DEVELOPMENT

EU Development Ministers Meeting (Segovia)

The Minister of State, Department for International Development (Mr. Gareth Thomas): The informal meeting of EU Development Ministers, organised by the Spanish presidency, took place in Segovia, Spain, on 17 and 18 February. I represented the UK.

The items covered were as follows:

The Millennium Development Goals Review Summit

This session focused on EU preparations for the MDGs summit in New York in September 2010. The new Development Commissioner, Andris Piebalgs, and the presidency underlined the importance of the summit to galvanising support for poverty reduction before the 2015 MDG target date. The UK, alongside the Commission, a number of other member states and civil society representatives, argued that the EU should demonstrate global leadership through a comprehensive package that would include commitments to those goals most at risk, particularly maternal and child health, food security and education. The Commission welcomed the clear steer from Ministers and will reflect this in its proposals planned to be put to the May and June Foreign Affairs Councils. The overall EU position will then go to the June European Council for agreement by leaders.

Financing for Development

I underlined the importance of honouring our EU Official Development Assistance (ODA) commitments. While alternative financing mechanisms, including from the private sector, are likely to form an increasingly significant part of meeting the global development and climate challenges, ODA will remain the core contribution and our pledges must be met. I shared the UK's experience of increasing ODA to a position where we will meet the 0.7 per cent. GNI target by 2013 and there was considerable interest in our draft legislation to make this commitment a legal obligation. Several member states highlighted the challenge of meeting the targets in the current economic environment, though all member states reaffirmed the importance of the commitment. The Commission and presidency will work further on suggestions for enhancing the accountability of member states to meet their pledges including an annual review of progress by Heads of Government and delivery plans to 0.7 per cent. for member states.

By special invitation, Norway presented on its work on combating tax evasion and tax havens. In response to the presentation and a Commission discussion paper, Ministers noted the importance of mobilising domestic resources in developing partner countries as a key step in reducing dependency on aid and harnessing finance for poverty reduction. In this context, economic growth, support for improving partner countries' tax systems, tackling illegal financial flows and corruption and addressing tax havens where noted as particularly important. The French led a call for the presidency to ensure that innovative proposals on taxation and financing were discussed by both Development and Finance Ministers given the shared interest. The Commission will draft a paper for Ministers at the May Foreign Affairs Council on enhancing work on tackling tax evasion in developing countries.

More effective EU development assistance

Alongside the quantity of aid, we discussed improving the quality of that aid. The Commission presented work on the improving the complementarity and co-ordination of EU aid.

Transatlantic relations

The new Administrator of the United States' Agency for International Development (USAID), Dr. Shah, presented his priorities to the group. These were: a strong focus on the MDGs, particularly how technology can be deployed in support of development; maternal health; food security; and education. Dr. Shah emphasised his desire to build an effective and practical partnership with the EU on development issues, something already in evidence and underlined by the response to the Haiti earthquake. EU Ministers welcomed his appointment and pledged to take forward this important relationship on a range of issues, not least the 2010 MDG summit.

Haiti

Ministers discussed the situation in Haiti, both in terms of immediate response and ensuring better co-ordination for the reconstruction. Edmund Mullet, UN Special Representative to Haiti, Kristalina Georgieva, the new EU Humanitarian Commissioner and Dr. Shah provided details of their own efforts and their assessment of need. I joined my EU colleagues in recognising the tireless efforts of UN staff, Commission and other aid workers in Haiti

I argued for a thorough review of the humanitarian system over the last five years, learning lessons from Haiti and other disasters and drawing up recommendations to improve future responses. This proposal gained support from a number of Ministers and this will help to build the growing consensus behind the review.

I also held a series of useful bilateral meetings discussing for example reform of the humanitarian system, Haiti, the MDGs and aid financing with, amongst others, Dirk Neibel, the German Development Minister, Dr. Shah of USAID and Commissioner Piebalgs.

Departmental Expenditure Limits

The Secretary of State for International Development (Mr. Douglas Alexander): Subject to parliamentary approval of the necessary Supplementary Estimate, the Department for International Development's departmental expenditure limit (DEL) will be reduced by £33,098,000 from £6,757,774,000 to £6,726,607,000.

Within the DEL change, the impact on resources and capital are as set out in the following table:

	Change		*New DEL*		*£'000*
	Voted	*Non-voted*	*Voted*	*Non-voted*	*Total*
Resource DEL	243,797	-276,895	4,542,361	836,065	5,378,926
of which					
Administration budget*	3,341	-3,341	159,950	-	159,950
Near-cash in RDEL	233,047	-266,145	4,437,111	846,815	5,283,926
Capital DEL**	9,750	-9,750	1,365,750	-	1,365,750
Less Depreciation***	1,931	-	-18,069	-	-18,069
Total DEL	255,478	-286,645	5,890,542	836,065	6,726,607

*The total of the 'Administration Budget' and 'Near Cash in Resource DEL' figures may well be greater than total Resource DEL, due to the definitions overlapping.

**Capital DEL includes items treated as Resource in Estimates and Accounts, but which are treated as Capital DEL in Budgets.

***Depreciation, which forms part of Resource DEL, is excluded from the total DEL since Capital DEL includes Capital spending and to include depreciation of those assets would lead to double counting.

The net change in the Resource element of DEL arises from:

Additions

£280,000 transferred from the Department of Health in respect of International Health Links Funding Scheme.

Reductions

£77,000 transferred to the Foreign and Commonwealth Office in respect of payments to locally engaged staff in Iraq.

£5,500,000 transferred to the Foreign and Commonwealth Office in respect of the Returns and Reintegration Fund.

£25,959,000 transferred to the Foreign and Commonwealth Office in respect of the Conflict Prevention Pool.

£1,832,000 transferred to the Ministry of Defence in respect of the Conflict Prevention Pool.

£10,000 transferred to the Foreign and Commonwealth Office in respect of the Low Carbon High Growth Strategic Programme Fund.

There is no net change in the Capital element of DEL.

JUSTICE

Departmental Expenditure Limits

The Secretary of State for Justice and Lord Chancellor (Mr. Jack Straw): Subject to Parliamentary approval of any necessary Supplementary Estimate, the Ministry of Justice (MoJ), Northern Ireland Court Service (NICS) and The National Archives (TNA) Total Departmental Expenditure Limit (DEL) will be increased as follows:

Total DEL for MoJ (RfR1, 2 & 3) is increased by £101,298,000 from £9,828,762,000 to £9,930,060,000 and the administration budget has increased by £23,282,000 from £435,920,000 to £459,202,000.

Total DEL for the NICS has increased by £17,000,000 from £147,556,000 to £164,556,000.

Total DEL for the TNA has increased by £1,000 from £44,151,000 to £44,152,000.

Within the Total DEL change for MoJ (RfR1, 2 & 3), the impact on resource and capital is as set out in the following table:

	Change		*New DEL*		
	Voted £'000	*Non-voted £'000*	*Voted £'000*	*Non-voted £'000*	*Total £'000*
Resource DEL:	36,361	32,676	5,772,369	3,680,095	9,452,464
Of which:					
Administration *	23,282	0	459,202	0	459,202
Near Cash in Resource DEL	18,823	50,754	4,883,323	3,885,532	8,768,855
Capital DEL**	16,706	16,373	849,570	52,043	901,613
Depreciation ***	(1,690)	872	(414,213)	(9,804)	(424,017)
Total DEL	51,377	49,921	6,207,726	3,722,334	9,930,060

*The total of the 'Administration Budget' and 'Near Cash in Resource DEL' figures may well be greater than total Resource DEL, due to the definitions overlapping.

**Capital DEL includes items treated as Resource in Estimates and Accounts, but which are treated as Capital DEL in Budgets.

***Depreciation, which forms part of Resource DEL, is excluded from the total DEL since Capital DEL includes Capital spending and to include depreciation of those assets would lead to double counting.

1) The change in the Resource and Capital DEL for MoJ arises from:

Resource Departmental Expenditure Limit

The change in the resource element of DEL arises from:

Movements in Voted Expenditure

Request for Resources 1

i. An increase in voted expenditure of £7,000,000 as a result of drawdown of End Year Flexibility (EYF) funding relating to the workforce modernisation programme.

ii. An increase in voted expenditure of £14,792,000 as a result of a budget transfer from the Home Office in relation to accommodation costs.

iii. An increase in voted expenditure of £13,088,000 as a result of the adoption of International Financial Reporting Standards (IFRS).

iv. An increase in voted expenditure of £34,000,000 as a result of drawdown of reserve claim from HM Treasury relating to prison capacity programme.

v. An increase in voted expenditure of £1,166,000 to the transfer of funding in relation to the Parliamentary Council Office from the Cabinet Office

vi. An increase in voted expenditure of £1,000,000 in relation to non-cash funding from the Supreme Court.

vii. An increase in voted expenditure of £273,000 in relation to mail and messenger services received from the Home Office.

viii. An increase in voted expenditure of £86,000 in relation to funding for Estate Agents Appeals Panel and the creation of the Consumer Credit Appeals Tribunals from the Department for Business, Innovation and Skills (DBIS).

ix. A decrease in voted expenditure of £568,000 in relation to healthcare services for additional prison places transferred to the Department of Health (DoH).

x. A decrease in voted expenditure of £2,624,000 in relation to education services for additional prison places transferred to the DBIS.

xi. A decrease in voted expenditure of £500,000 in relation to costs associated with Corporate Manslaughter Act transferred to the Crown Prosecution Service (CPS).

xii. A decrease in voted expenditure of £470,000 in relation to near cash transferred to Supreme Court.

Request for Resources 2

xiii. An increase in near cash resource funding of £1,200,000 in relation to drawdown of EYF.

xiv. An increase in near cash resource funding of £28,000 as a result of the adoption of IFRS.

Request for Resource 3

xv. An increase in near cash resource funding of £230,000 in relation to transfer of costs relating to the Parliamentary Counsel Office from the Cabinet Office.

xvi. An increase in near cash resource funding of £116,000 as a result of the adoption of IFRS.

Movements in Non-Voted Expenditure

Request for Resources 1

i. An increase in non-voted expenditure of £220,000 as result of the adoption of IFRS.

ii. An increase in non-voted expenditure offset by a decrease in voted expenditure of £61,400,000 relating to increased spend of the Legal Services Commission.

iii. A decrease in non-voted expenditure offset by a increase in voted expenditure of £3,501,000 relating to increase in the attributable income receivable by the Legal Services Board.

iv. A decrease in non-voted expenditure offset by an increase in voted expenditure of £6,124,000 relating to increase in the attributable income receivable by the Office of Legal Complaints.

v. A decrease in non-voted expenditure offset by an increase in voted expenditure of £14,704,000 relating to decrease in spend of the Criminal Injuries Compensation Authority.

vi. A decrease in non-voted expenditure offset by an increase in voted expenditure of £4,650,000 relating to decrease in spend of the Youth Justice Board.

vii. An increase in non-voted expenditure offset by a decrease in voted expenditure of £35,000 relating to increased spend of the Criminal Cases Review Commission.

Capital Departmental Expenditure Limit

The change in the capital element of the Departmental Expenditure Limit arises from:

Request for Resources 1

Movements in Voted Expenditure

i. An increase of £33,000,000 in Capital DEL in respect of the Prison Capacity Programme.

ii. An increase of £79,000 in Capital DEL as a result of the implementation of IFRS.

Movements in Non-Voted Expenditure

i. An increase in non-voted expenditure offset by a decrease in voted expenditure of £12,900,000 relating to increased spend of the Legal Services Commission.

ii. An increase in non-voted expenditure offset by a decrease in voted expenditure of £3,450,000 relating to increase in the attributable income receivable by the Office of Legal Complaints.

iii. An increase in non-voted expenditure offset by a decrease in voted expenditure of £500,000 relating to decrease in spend of the Criminal Injuries Compensation Authority.

iv. An increase in non-voted expenditure offset by a decrease in voted expenditure of £47,000 relating to decrease in spend of the Parole Board.

v. A decrease in non-voted expenditure offset by a decrease in voted expenditure of £524,000 relating to increased spend of the National Probation Service Local Area Boards.

Administration Costs

The movement in the administration cost limit is as a result of the following changes.

Request for Resources 1

i. An increase in voted expenditure of £7,000,000 as a result of drawdown of EYF funding from HM Treasury relating to the workforce modernisation funding.

ii. An increase in voted expenditure of £14,792,000 as a result of a budget transfer from the Home Office in relation to accommodation costs.

iii. An increase in voted expenditure of £241,000 as result of the adoption of IFRS.

Request for Resources 2

iv. An increase in near cash resource funding of £1,200,000 in relation to drawdown of EYF.

v. An increase in near cash resource funding of £28,000 as a result of the adoption of IFRS.

Request for Resource 3

vi. An increase in near cash resource funding of £230,000 in relation to transfer of costs relating to the Parliamentary Counsel Office from the Cabinet Office.

vii. An increase in near cash resource funding of £116,000 as a result of the adoption of IFRS.

2) The change in the Resource and Capital DEL for the Northern Ireland Court Service (NICS) arises from:

Within the Total DEL change for Northern Ireland Court Service, the impact on resources and capital is as set out in the following table:

	Change		New DEL		
	Voted £'000	Non-voted £'000	Voted £'000	Non-voted £'000	Total £'000
Resource DEL:	-	17,000	58,391	111,300	169,691
Of which:					
Administration*	(2,000)		(574)		(574)
Near cash in Resource DEL	-	17,000	40,451	110,800	151,251
Capital DEL**	-	-	6,000	-	6,000
Depreciation***			(10,694)	(441)	(11,135)
Total DEL		17,000	53,697	110,859	164,556

*The total of the 'Administration Budget' and 'Near Cash in Resource DEL' figures may well be greater than total Resource DEL, due to the definitions overlapping.

**Capital DEL includes items treated as Resource in Estimates and Accounts, but which are treated as Capital DEL in Budgets.

***Depreciation, which forms part of Resource DEL, is excluded from the total DEL since Capital DEL includes Capital spending and to include depreciation of those assets would lead to double counting.

Resource Departmental Expenditure Limit

Movements in Non Voted Expenditure

i. This arises from the take up of a DEL Reserve claim of £17,000,000 to reflect the increase in the Northern Ireland Legal Services Commission Baseline to cover the projected shortfall in legal aid expenditure.

Movements in Administration Expenditure

i. The change in the administration budget arises from a £2,000,000 increase in civil court fee income. This will be offset against additional related costs to dispose of civil court business. The appropriations-in-aid are classified as administrative income and so the additional fee income will reduce the administration cost limit by £2,000,000.

3) The change in the Resource and Capital DEL for The National Archives (TNA) arises from:

Within the Total DEL change for The National Archives, the impact on resources and capital is as set out in the following table:

	Change		New DEL		
	Voted £'000	Non-voted £'000	Voted £'000	Non-voted £'000	Total £'000
Resource DEL:	(2,135)	0	46,595	0	46,595
Of which:					
Administration*	0	0	0	0	0
Near cash in Resource DEL	(2,135)	150	34,844	150	34,994
Capital DEL**	2,136	0	4,236	0	4,236
Depreciation***	0	0	(6,679)	0	(6,679)
Total DEL	1	0	44,152	0	44,152

*The total of the 'Administration Budget' and 'Near Cash in Resource DEL' figures may well be greater than total Resource DEL, due to the definitions overlapping.

**Capital DEL includes items treated as Resource in Estimates and Accounts, but which are treated as Capital DEL in Budgets.

***Depreciation, which forms part of Resource DEL, is excluded from the total DEL since Capital DEL includes Capital spending and to include depreciation of those assets would lead to double counting.

Movements in Voted Expenditure

Resource Departmental Expenditure Limit

i. An increase in near cash resource funding of £4,695,000 and associated increase in A in A of £4,694,000 to reflect higher than expected levels of activity and income from the 1911 Census information, Digital Continuity and the Civil Pages Project.

ii. A decrease of £2,136,000 in resource provision representing the additional spend on improvements to facilities at our Kew building including data storage facilities and air conditioning units.

Capital Departmental Expenditure Limit

i. An increase in Capital funding of £2,136,000 representing the additional spend on improvements to facilities at Kew, including data storage facilities and air conditioning. This is offset by the decrease in resource funding referred to above.

NORTHERN IRELAND

Department Expenditure Limits

The Secretary of State for Northern Ireland (Mr. Shaun Woodward): Subject to Parliamentary approval the Northern Ireland Office will be taking a 2009-10 spring supplementary estimate. The effect this will have is to increase the NIO's total DEL by £161,881,000 from £1,205,742,000 to £1,367,623,000.

£'000

	Charge		*New DEL*		
	Voted	*Non-voted*	*Voted*	*Non-voted*	*Total*
Resource	66,619	123,563	359,487	1,020,157	1,379,644
Admin Budget	*(2,247)*	*-*	*71,679*	*-*	*71,679*
Near cash	*28,217*	*72,962*	*277,153*	*793,141*	*1,070,294*
Capital	12,288	(12,288)	36,526	40,177	76,703
Depreciation	(28,240)	(61)	(47,489)	(41,235)	(88,724)
Total	50,667	111,214	348,524	1,019,099	1,367,623

The change in Total DEL of £161,881,000 relates to the drawdown of end year flexibility (EYF) of £100,335,000 (all resource), increase in PSNI provisions of £88,000,000, resource budget transfers with other Government Departments totalling £847,000 and funding of £1,000,000 from HM Treasury for the impact of international financial reporting standards (IFRS) on property, plant and equipment. This has been offset by a change in non-cash costs of £28,301,000.

The EYF drawdown is required to supplement CSR07 baselines in Central Administration, Political Directorate, Public Prosecution Service, Criminal Justice Directorate, Policing-Non Severance, Northern Ireland Prison Service, Compensation Agency and Policing and Security Directorate.

The administration budget will decrease by £2,247,000 from £73,926,000 to £71,679,000. This is due to the reclassification of £2,610,000 from administration to programme for the Northern Ireland Prison Service and resource budget transfers of £315,000 from the Department of Finance and Personnel, Northern Ireland for accommodation costs, £98,000 from the Cabinet Office for Parliamentary Counsel charges and £50,000 to the Department of Health, Social Services and Public Safety, Northern Ireland for healthcare costs.

The Northern Ireland Executive DEL will increase by £740,207,000 from £9,283,643,000 to £10,023,850,000. Within the total DEL change, the impact on resources and capital is set out in the following table:

£'000

	Change	*New DEL*
Resource DEL	634,464	9,023,819
Of which:		
Near Cash	483,082	8,551,148
Capital DEL	127,009	1,210,614
Resource DEL + Capital DEL	761,473	10,234,433
Less Depreciation	21,266	210,583
Total DEL net of depreciation	740,207	10,023,850

The increase in the Northern Ireland Executive DEL takes account of the following changes:

The take up of end year flexibility of £135,000,000 (£35,000,000 near cash and £100,000,000 capital);

Additions of £23,827,000 (-£49,092,000 near cash, £20,337,000 non cash and £52,582,000 capital) following IFRS changes;

A budget reclassification of £497,200,000 (near cash) in respect of NHS pensions;

An addition of £131,045,000 (non cash) in respect of provisions for equal pay; and

Budget cover transfers to other Government Departments of £25,599,000 broken down as follows:

i. Transfer of £827,000 from DEFRA for BSE-OTM;

ii. Transfer of £275,000 from DCSF for the NSPCC Expansion Grant;

iii. Transfers of £749,000 to the Northern Ireland Office for accommodation and other central services;

iv. Transfer of £379,000 to HMRC in respect of the Aggregates Levy; and

v. Transfer of £25,573,000 to Department of Business, Innovation and Skills in respect of industrial support.

SCOTLAND

Department Expenditure Limits

The Secretary of State for Scotland (Mr. Jim Murphy): Subject to Parliamentary approval of the necessary Supplementary Estimates, the Departmental Expenditure Limit (DEL) provision for the administration of the Scotland Office will be increased by £1,200,000 and takes account of the following routine adjustment:

- a take-up of near cash End Year Flexibility of £1,200,000.

The increase will be added to the planned total of public expenditure spending commitments in the current financial year.

The Scotland DEL will be increased by £18,005,000 from £29,552,282,000 to £29,570,287,000. Within the total DEL change, the impact on resources and capital is set out in the following table:

£'000

	Change	*New DEL*
Resource DEL	17,844	25,640,423
Of which:		
Near Cash	838	24,572,419
Capital DEL	161	3,929,864
Resource DEL + Capital DEL	18,005	29,570,287
Less Depreciation & Impairments	16,932	525,069
Total DEL	1,073	29,045,218

The increase in the Scotland DEL takes account of the following adjustments to the Scottish Government provision:

International Financial Reporting Standard (IFRS) classification changes of £17,006,000.

The DEL increase also includes the following changes:

a transfer of £196,000 from the Department for Work and Pensions in respect of the School Gates Project.

a transfer of £803,000 from the Department for Children, Schools and Families for the NSPCC Expansion Grant.

SOLICITOR-GENERAL

Departmental Expenditure Limits

The Solicitor-General (Vera Baird): My right hon. Friend the Attorney-General has made the following written ministerial statement:

Subject to parliamentary approval of any necessary supplementary estimate, the Attorney-General's total DEL will be increased by £9,646,000 from £744,966,000 to £754,612,000. Within the total DEL change, the impact on resources and capital are set out in the following table:

£'000

	Change		*New DEL*		
	Voted	*Non-voted*	*Voted*	*Non-voted*	*Total*
Resource DEL	6,478	1,419	736,333	12,317	748,650
of which:					
Administration budget *	1,081		69,704		69,704
Near-cash in RDEL *	6,478	1,419	723,960	13,990	737,[illegible]
Capital DEL **	1,749		14,479		14,479
Less Depreciation ***			8,517		8,517
Total DEL	8,227	1,419	742,295	12,317	754,612

* The total of "Administration budget" and "'Near-cash in resource DEL" figures may well be greater than total resource DEL, due to the definitions overlapping.

** capital DEL includes items treated as resource in Estimates and accounts but which are treated as capital DEL in budgets.

*** Depreciation, which forms part of resource DEL, is excluded from total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.

The Crown Prosecution Service's element of the Attorney-General's total DEL will be increased by £1,975,000 from £688,335,000 to £690,310,000.

The change in Resource DEL arises from:

The reclassification of contract costs of £6,419,000 from voted to non-voted DEL following the requirement to restate under International Financial Reporting Standards (IFRS)

The take up of Departmental Unallocated Provision of £5,000,000 from non-voted to voted DEL to increase the spending on the prosecution of criminal cases

A budgetary transfer of £500,000 from the Ministry of Justice to help fund the delivery of the Corporate Manslaughter Act 2007

A budgetary transfer of £25,000 to the Department for Business, Innovation and Skills to contribute towards the implementation of the Skills Strategy for Government.

The change in capital DEL arises from the take up of £1,500,000 from end-year flexibility (EYF) to meet the up-front capital costs of the relocation of CPS Headquarters.

The Serious Fraud Office's element of the Attorney-General's total DEL will be increased by £6,590,000 from £40,932,000 to £47,522,000.

The change in Resource DEL arises from:

The take up of £1,138,000 of modernisation funding to complete the SFO's transformation programme which is designed to help the SFO to meet its key challenges of:

increasingly sophisticated frauds and instances of corruption;

working more flexibly and efficiently;

focusing on the needs of victims; and

working collaboratively with other Government Departments, agencies and organisations as appropriate.

The take up of £4,952,000 in blockbuster funding relating to UN Oil for Food cases to enable the SFO to continue with the investigation and prosecution of outstanding cases in 2009-10.

The take up of £500,000 from EYF to deliver work early at a reduced cost.

There is also a transfer of £249,000 from resource to capital spending to cover increased National Fraud Authority capital costs

The HM Procurator General and Treasury Solicitor element of the Attorney-General's total DEL will be increased by £1,081,000 from £15,699,000 to £16,780,000. This increase will occur within the administration budget which will increase from £13,630,000 to £14,711,000.

The change in Resource DEL arises from:

Take up £775,000 of near-cash administration costs resource end-year flexibility (EYF) to meet the cost of the Attorney-General's office and to support the transformation of the Attorney-General's Departments

Other changes in near-cash DEL spending of £306,000 to meet the increased charge to lease costs following the requirement to restate under IFRS accounting rules.

TRANSPORT

Departmental Expenditure Limits

The Minister of State, Department for Transport (Mr. Sadiq Khan): My right hon. and noble Friend the Secretary of State for Transport, Lord Adonis, has made the following ministerial statement:

Subject to Parliamentary approval of any necessary supplementary estimate, the Department for Transport departmental expenditure limit (DEL) for 2009-10 will be increased by £22,464,000 from £14,137,677,000 to £14,160,141,000 and the administration budget will be increased by £4,520,000 from £275,172,000 to £279,692,000.

Within the DEL change, the impact on resources and capital, are as set out in the following table:

£'000

	Change		*NEW DEL*		
	Voted	*Non-voted*	*Voted*	*Non-voted*	*Total*
Resource	+802,705	-91,359	6,597,715	561,185	7,158,900
Of which:					
Administration budget	+5,020	500	279,692	0	279,692
Near-cash in RDEL	-92,053	-277,093	5,331,272	404,136	5,735,408
Capital	+342,438	-42,693	7,163,175	1,100:172	8,263,347
Depreciation *	-988,627	0	-1,230,332	-31,774	-1,262,106
Total	+156,516	-134,052	12,530,558	1,629,583	14,160,141

* Depreciation, which forms part of resource DEL, is excluded from the total DEL, since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.

Resource Change: Administration (total increase of £4,520,000)

Voted: total net increase of £5,020,000

RfR1

(i) Transfer of £520,000 near-cash from the Cabinet Office for Parliamentary Counsel costs;

(ii) HM Treasury agreed reclassification of £4,000,000 from programme near-cash to reflect the revised treatment of shared services expenditure;

(iii) Transfer of £500,000 near-cash from non-voted departmental unallocated provision for administration pressures; and

(iv) Transfer of £1,159,000 near-cash transferred to non-voted in respect of Highways Agency increased utilisation of provisions; offset by £1,159,000 non-cash transferred from non-voted.

Non Voted: total net decrease of £500,000

(i) Transfer of £500,000 near-cash to voted provision; and

(ii) Transfer of £1,159,000 non-cash to voted; offset by £1,159,000 near-cash transferred from voted.

Resource Change: Programme (total increase of £706,826,000) Voted: total net increase of £797,685,000

(i) Increase of £989,371,000 non-cash in accordance with Treasury guidance for the introduction of International Financial Reporting Standards (IFRS) for Highways Agency depreciation;

(ii) A net transfer of £186,631 000 near-cash from non-voted for:

i. Railways—Support for Passenger Rail Services (£228,263,000 including £200,188,000 take up of departmental unallocated provision and £28,075,000 from headroom).

ii. Highways Agency for work on the strategic network transferred from headroom arising from revised forecast utilisation of provisions (£8,118,000);

iii. Highways Agency use of Consolidated Fund Extra Receipts within the departmental expenditure limit (£4,750,000); partially offset by

iv. Transfer of London and Continental Railways near cash provision for domestic capacity charges to non voted (£54,500,000);

(iii) Decrease of £278,545,000 near-cash in accordance with Treasury guidance for the introduction of IFRS for the reclassification of Highways Agency renewals to Capital (£279,745,000); partially offset by increase for the Maritime and Coastguard Agency in respect of their annual leave liability (£1,200,000);

(iv) A net transfer of £95,772,000 non-cash to non-voted; and

(v) HM Treasury agreed reclassification of £4,000,000 from programme near cash to administration.

Non-Voted: total net decrease of £90,859,000

(i) A net transfer of £186,631,000 near-cash to voted provision; partially offset by

(ii) Increase of £91,121,000 non-cash, offset by £91,121,000 near-cash to reflect the capitalisation element of Highways Agency renewals in accordance with Treasury guidance for the introduction of IFRS; and

(iii) A net transfer of £95,772,000 non-cash from voted provision for:

a. London and Continental Railways pensions liability (£80,000,000) from Highways Agency headroom;

b. Highways Agency to forecast provisions offset by an increase in forecast utilisation

of provisions (£8,118,000);

c. To the departmental unallocated provision from voted headroom (£7,654,000).

Capital Change: (total net increase of £299,745,000)

Voted: total net increase of £342,438,000

RfR1

(i) Take up of £20,000,000 end year flexibility for London and Continental Railways Eurostar (UK) Ltd recapitalisation;

(ii) Increase of £279,745,000 in accordance with Treasury guidance for the introduction of IFRS for the reclassification of Highways Agency renewals to Capital; and

(iii) Net transfer of £42,693,000 from non voted for:

a. London and Continental Railways Eurostar (UK) Ltd recapitalisation (£20,000,000) from departmental unallocated provision;

b. Green buses (£10,000,000) from departmental unallocated provision;

c. GLA transport grants (£13,000,000); partially offset by

(iv) A transfer from voted railways provision to Rail Heritage Committee (£307,000).

Non-Voted: total net decrease of £42,693,000

(i) A net transfer of £42,693,000 to voted provision.

WALES

Departmental Expenditure Limits

The Secretary of State for Wales (Mr. Peter Hain): The Wales Departmental Expenditure Limit (DEL) will be increased by £456,459,000 from £14,995,229,000 to £15,451,688,000. Within the total DEL change, the impact on resources and capital is set out in the following table:

£'000	*Change*	*New DEL*
Resource DEL	346,332	13,902,677
Of which:		
Near Cash	118,954	13,133,986
Capital DEL	216,955	1,.939,166
Resource DEL + Capital DEL	563,287	15,841,843
Less Depreciation	106,828	390,155
Total DEL	456,459	15,451,688

The increase is a result of:

(a) Take-up of £138,094,000 Near-Cash EYF;

(b) Take-up of £87,000,000 Non-Cash EYF;

(c) Take-up of £106,200,000 Capital EYF;

(d) Capital re-profiling of £90,755,000 from 2010-11 financial year;

(e) Switch of £20,000,000 from Near-Cash to Capital;

(f) A reclassification of NHS depreciation to DEL of £140,378,000

(g) A transfer of £395,000 Near-Cash from Department of Work and Pensions under the School Gates Employment Support Initiative;

(h) A transfer of £372,000 Near-Cash and £93,000 Capital from Department for Children, Schools and Families for the NSPCC Expansion Grant;

In addition, Annually Managed Expenditure increases by £6,294,000 to £688,050,000

There will be an increase in non- budget spending of £14,200,000 for a housing stock transfer for Gwynedd.

DEL provision for the Wales Office increases by £230,000 from £7,483,000 to £7,713,000 following a transfer of provision from the Parliamentary Counsel Office.

WOMEN AND EQUALITY

Government Equalities Office (DEL)

The Minister of State, Government Equalities Office (Maria Eagle): Subject to Parliamentary approval of the necessary Supplementary Estimate, the Government Equalities Office Departmental Expenditure Limit will increase by £12,000 from £80,182,000 to £80,194,000 and the administration budget will increase from £9,605,000 to £9,617,000.

Within the Departmental Expenditure Limit change, the impact on resource and capital is as set out in the following table:

	Change			*New DEL*		*£'000s*
	Voted	*Non -Voted*	*Total*	*Voted*	*Non-Voted*	*Limit*
Resource	12		12	17,818	60,960	78,778
of which						
Administration*	12		12	9,617		9,617
Near Cash*	12		12	17,817	60,651	78,468
Capital					1,980	1,980
Depreciation**					-564	-564
Total	12		12	17,818	62,376	80,194

*The total of "Administration budget" and "Near cash in Resource DEL" figures may well be greater than total Resource DEL due to the definitions overlapping

**Depreciation, which forms part of resource Departmental Expenditure Limit, is excluded from the total Departmental Expenditure Limit since the capital Departmental Expenditure Limit includes capital spending and to include depreciation of those assets would lead to double counting.

Resource Departmental Expenditure Limit

The change in the Resource Departmental Expenditure Limit arises from an increase in relation to the recording of International Financial Reporting Standards for accrued employee benefits. The increase arises from the change in staff numbers between 2008-9 and 2009-10 and planned increased amounts of annual leave carried over by staff into 2010-11.

There has been an increase in appropriation in aid for operating activities and this is offset by increased expenditure. This reflects the activities of the Women's National Commission which has been making its services available to other government departments and agencies in line with the review of the Women's National Commission.

Administration Costs Limit

This increases by £12,000 due to adoption of International Financial Reporting Standards for accrued employee benefits.

WORK AND PENSIONS

Departmental Expenditure Limits

The Secretary of State for Work and Pensions (Yvette Cooper): Subject to Parliamentary approval of the necessary Supplementary Estimate, the Department for Work and Pensions Resource Departmental Expenditure Limit will increase by £318,266,000 to £9,123,522,000 and the Capital Departmental Expenditure Limit will remain unchanged at £284,517,000. The Administration budget will increase by £38,170,000 to £6,242,507,000.

	Change £k			*New Departmental Expenditure Limit £k*		
	Voted	*Non-voted*	*Total*	*Voted*	*Non-voted*	*Total*
Resource	1,041,453	-723,187	318,266	6,922,236	2,201,286	9,123,522
of which:						
Administration	759,354	-721,184	38,170	5,560,083	682,424	6,242,507
Near-cash	1,041,453	-723,187	318,266	6,660,506	2,234,712	8,895,218
Capital	-421	421	0	283,288	1,229	284,517
Depreciation*	0	0	0	234,194	1,105	235,299
Total DEL	1,041,032	-722,766	318,266	6,971,330	2,201,410	9,172,740

*Depreciation, which forms part of Resource DEL, is excluded from the total DEL since Capital DEL includes Capital spending and to include depreciation of those assets would lead to double counting.

Resource Departmental Expenditure Limit

The change in the resource element of the Departmental Expenditure Limit arises from:

Request for Resources 1

i. An increase in Appropriations in Aid of £9,000 not offset by an increase in expenditure.

Request for Resources 2

ii. A reserve claim of £108,050,000 from the dual-key funding package announced in the 2008 Pre Budget Report.

iii. A reserve claim of £86,000,000 (£12,000,000 Administration and £74,000,000 Other Current) from the "six month offer" funding package made available to the department following the Employment Summit in January 2009.

iv. A reserve claim of £6,000,000 (£1,000,000 Administration and £5,000,000 Other Current) to support expenditure on the Pathways under 25.

v. Budget transfers of £196,000 to the Scottish Government, £395,000 to the Welsh Assembly and £431,000 to the

Department for Children, Schools and Families to assist with Jobcentre support in schools for unemployed parents.

vi. A budget transfer of £6,381,000 to the Department for Business, Innovation and Skills in relation to Backing Young Britain. This increases the number of internships that are available to non-graduates.

vii. A budget transfer of £12,500,000 to the Department for Children, Schools and Families in relation to the white paper "Building Britain's Recovery: Achieving Full Employment". This increases the number of apprenticeships that are available for 16 and 17 year olds.

viii. Budget transfers to the Department for Children, Schools and Families of £1,500,000 (Other Current) for the Co-ordinated Support for Separating Parents Child Poverty Pilot and £110,000 (Administration) for the Child Poverty Support Unit.

ix. A budget transfer of £262,000 to the Department for Children Schools and Families in relation to Joint Birth Registration work.

Request for Resources 3

x. A reserve claim of £25,000,000 from the department's Modernisation Fund.

Request for Resources 5

xi. A reserve claim of £115,000,000 from the department's Modernisation Fund.

Movements between Voted and Non-Voted Budgets

xii. An increase in voted funding of £29,184,000 offset by a decrease in non-voted funding of £29,184,000 as a result of using the Departmental Unallocated Provision to support expenditure by the Child Maintenance and Enforcement Commission.

xiii. An increase in voted funding of £100,000,000 offset by a decrease in non-voted funding of £100,000,000 as a result of accessing funds held in the Departmental Unallocated Provision which were provided in the 2008 Pre Budget Report package.

xiv. An increase in voted funding of £571,000,000 (£456,551,000 Administration and £114,449,000 Other Current) offset by a decrease in non-voted funding of £571,000,000 (Administration) as a result of accessing funds held in the Departmental Unallocated Provision which were announced in the 2009 Budget.

xv. An increase in voted funding of £21,000,000 offset by a decrease in non-voted funding of £21,000,000 as a result of accessing funds held in the Departmental Unallocated Provision which relate to the Welfare Reform White Paper.

xvi. An increase in voted funding of £1,305,000 offset by a decrease in non-voted funding of £1,305,000 relating to decreased utilisation of the Financial Assistance Scheme provision.

xvii. A decrease in non-voted funding of £1,143,000 offset by an increase in voted funding of £1,143,000 relating to decreased expenditure by Working Ventures (UK) Limited.

xviii. An increase in non-voted funding of £3,988,000 offset by a decrease in voted funding of £3,988,000 relating to increased expenditure by the Independent Living Fund.

xix. A decrease in non-voted funding of £30,000 offset by an increase in voted funding of £30,000 relating to decreased expenditure by The Pensions Advisory Service.

xx. An increase in non-voted funding of £51,000 offset by a decrease in voted funding of £51,000 relating to increased expenditure by The Pensions Ombudsman.

xxi. A decrease in non-voted funding of £3,208,000 offset by an increase in voted funding of £3,208,000 relating to decreased expenditure by the Personal Accounts Delivery Authority.

xxii. A decrease in non-voted funding of £356,000 offset by an increase in voted funding of £356,000 relating to decreased expenditure by The Pensions Regulator.

Capital Departmental Expenditure Limit

The net nil movement in the capital element of the Departmental Expenditure Limit arises from:

Movements between Voted and Non-Voted Budgets

xxiii. An increase in non-voted capital funding of £517,000 offset by a decrease in voted capital funding of £517,000 relating to increased expenditure by the Personal Accounts Delivery Authority.

xxiv. A decrease in non-voted capital funding of £96,000 offset by an increase in voted capital funding of £96,000 relating to decreased expenditure by The Pensions Regulator.

Administration Costs

The movement in the Administration Cost limit arises from the changes to the Resource Departmental Expenditure Limit as noted in items i, iii, viii, iv, ix, x, xi and xiv above.

Written Ministerial Statements

Wednesday 24 February 2010

TREASURY

Capital Distributions

The Financial Secretary to the Treasury (Mr. Stephen Timms): There is, at the moment, considerable uncertainty in relation to the corporation tax treatment of distributions. This uncertainty is causing significant problems to UK business and this statement is intended to establish with certainty a result that will be consistent with established expectations of HMRC practice.

In the Finance Act 2009, the Government introduced a new distribution exemption regime. Since then most income distributions received by UK companies are exempt from corporation tax unless they are linked to tax avoidance. The rules ensure that the UK corporate tax regime remains competitive and represent a significant reduction in the compliance burden faced by UK companies.

As intended, the exemption regime excludes distributions of a capital nature, which are subject to the chargeable gains rules where other exemptions may apply. However, the introduction of the new legislation has prompted HMRC to look more closely at the issue of whether a distribution is of a capital nature.

Before 2005 it was possible to interpret the law as saying that all UK distributions were income in nature unless a specific rule said otherwise—for example, distributions in a winding up. In 2005 a Tax Law Rewrite Act, in clarifying the law, made that view impossible to sustain. Despite this, prevailing practice remained unaltered and so UK distributions have generally been regarded until recently as income in nature and potentially exempt from corporation tax.

In the absence of a rule treating distributions as income, companies in receipt of capital distributions may now face an unexpected tax charge. In some cases, it has become clear that commercial transactions have been put on hold until the tax consequences become clear, with a corresponding effect on the normal business of those companies.

In order to resolve the issue, the Government will introduce legislation in the Finance Bill with a view to restoring previous expectations about the way that distributions are taxed. The changes will apply retrospectively where appropriate and will be subject to an opt out to ensure that UK retrospective application of the new legislation does not increase tax liabilities. These new rules will give UK companies the clarity they need to carry on their normal business.

ECOFIN

The Chancellor of the Exchequer (Mr. Alistair Darling): The Economic and Financial Affairs Council was held in Brussels on 16 February 2010. The following items were discussed:

Implementation of the Stability and Growth Pact

ECOFIN issued new recommendations to Malta, Romania and Lithuania, extending the deadlines for correcting their excessive deficits on account of the worse than expected deterioration of their economies. The Council also established that Latvia, Hungary and Poland had taken effective action on their Council recommendations.

The Council also adopted an opinion on Greece's updated stability programme, which sets out plans to reduce its deficit to under 3 per cent. of GDP by 2012; a further decision which sets out budgetary consolidation measures with a timetable; a recommendation with a view to bringing Greece's economic policies in line with the EU's broad economic guidelines; and a decision to make this recommendation public.

The Government believe that Greece must act swiftly to implement these recommendations in line with the given timetable, and welcome the evaluation by the European Commission and ECB as well as the technical assistance being provided by the IMF, which has the experience to play an important supportive role. ECOFIN will return to this issue in March, where it will review progress made, including the further measures the Greek Government have agreed to take.

Single market—Services Directive

ECOFIN discussed and agreed a set of conclusions on the EU single market and the services directive, which called for comprehensive and ambitious implementation of the Directive. The Council also heard a presentation by Mario Monti ahead of his proposals in April for the re-launch of the single market. The Government support the conclusions and the work by Mario Monti, particularly his focus on open markets. It is important ECOFIN takes a view on strategic economic issues for the single market agenda.

Appointment of the Vice-President of the European Central Bank

The Council adopted a recommendation on the nomination of Vitor Constâncioas as Vice-President of the European Central Bank, to succeed Lucas Papademos, whose term of office expires on 31 May. This recommendation will now be submitted to the European Council for approval.

Discharge procedure in respect of the implementation of the budget for 2008

On the basis of a report from the Court of Auditors, the Council approved a recommendation to the European Parliament on the discharge to be given to the Commission for implementation of the EU's general budget for 2008.

Financial Stability Update

The Exchequer Secretary to the Treasury (Sarah McCarthy-Fry): Following the successful legal and capital restructuring of Northern Rock, which took effect on 1 January 2010, the Government, in conjunction with the Financial Services Authority, have reviewed the guarantee arrangements applying to retail deposits held with Northern Rock.

The restructuring has resulted in the formation of a strong, well-capitalised, highly liquid bank that remains in Government ownership. The bank is authorised and regulated by the FSA and customers' deposits are secure. The Government, in consultation with the FSA, have therefore assessed that it is now appropriate to give notice to remove the guarantee covering retail deposits in Northern Rock plc.

Accordingly, HM Treasury has today given three months' notice that the Government's retail savings guarantee for Northern Rock plc will no longer apply from 5 pm on 24 May 2010. This excludes guarantee arrangements for fixed-term deposits in existing accounts, which will terminate on maturity on the relevant fixed term. For fixed-term products, renewed or extended after today's announcement, the guarantee arrangements in respect of that deposit, will terminate on the date of maturity existing prior to its renewal or extension. The guarantee for wholesale borrowings of Northern Rock plc, to the extent it relates to sums which are attributable to retail deposits made with Northern Rock (Guernsey) Limited, will be also lifted at the same time.

Following lifting of the guarantee, every Northern Rock retail customer will continue to have the first £50,000 of their total deposit protected by the Financial Services Compensation Scheme, whether their deposit is fixed term, non-fixed term or a combination of both. This is the same level of protection that is provided for retail customers of all banks and building societies in the UK. Customers of Northern Rock (Guernsey) will continue to benefit from the Guernsey banking deposit compensation scheme.

The guarantee applying to Northern Rock's retail deposits was put in place as a temporary measure during a period of unprecedented instability in the financial markets. It was never intended to be permanent. Today's announcement affirms the strength of the new Northern Rock plc, and is a positive step in the bank's progression towards independence. Removal of the specific Northern Rock plc retail guarantee more closely aligns Northern Rock's retail depositor protection arrangements with those of all other UK banks, an important step in the normalisation of the UK retail banking market.

Counter-terrorism Act 2008 (Schedule 7)

The Exchequer Secretary to the Treasury (Sarah McCarthy-Fry): As outlined in schedule 7 to the Counter-terrorism Act 2008, the Treasury has undertaken to report to Parliament following the end of each calendar year in which a direction under the powers has been issued. This is the first of these reports, and covers the 2009 calendar year.

The Schedule 7 powers

Schedule 7 provides the Treasury with powers to implement a graduated range of financial restrictions in response to certain risks to the UK's national interests. The risks it addresses are those posed by money laundering, terrorist financing, and the proliferation of chemical, biological, radiological and nuclear (CBRN) weapons.

Direction issued under the powers in Schedule 7

The Treasury issued a direction under schedule 7 powers on 12 October 2009, designating two Iranian companies: Bank Mellat and the Islamic Republic of Iran Shipping Lines (IRISL). The direction was issued on the basis that activity in Iran that facilitates the development or production of nuclear weapons poses a significant risk to the national interests of the UK. Vessels of IRISL have transported goods for both Iran's ballistic missile and nuclear programmes. Bank Mellat has provided banking services to a UN listed organisation connected to Iran's proliferation sensitive activities, and been involved in transactions related to financing Iran's nuclear and ballistic missile programmes.

The direction requires all UK financial and credit institutions to cease business relationships and transactions with Bank Mellat and IRISL.

The direction was approved by the House of Commons on 28 October 2009 and by the House of Lords on 2 November 2009.

Bank Mellat challenged the direction in 2009, and the judicial review will be heard in 2010. IRISL also challenged the direction in early 2010.

Licensing

Licensing is the means by which the Treasury can exempt business relationships or transactions between designated entities and UK financial and credit institutions from the requirements of the direction. The licensing regime in place for the direction against Bank Mellat and IRISL allows the Treasury to minimise the impact of the restrictions upon innocent third parties, without compromising the objective of the direction. Licences are considered on a case-by-case basis.

Between 12 October and 31 December 2009, 120 licence applications were received. Of these, 90 had been processed by 31 December 2009, 87 licences had been issued, and three licences rejected.

CHILDREN, SCHOOLS AND FAMILIES

Special Educational Needs

The Secretary of State for Children, Schools and Families (Ed Balls): I am publishing today the Government's implementation plan in response to the Lamb inquiry on parental confidence in the special educational needs—SEN—system.

The inquiry, under the chairmanship of Brian Lamb, the chair of the Special Educational Consortium, was tasked with investigating a range of ways in which parental confidence in the SEN assessment process might be improved. The inquiry's final report was published on 16 December 2009.

The inquiry found that, while the SEN framework functions well for the majority of parents, within the same legislative framework there are parents who have been poorly served and have had to battle to get the needs of their child identified and met. This varied picture must be redrawn so that it is common practice to have access to skilled professionals who understand the needs of children and who have high expectations of what children can achieve.

The implementation plan builds on the significant progress that the Government have already made in improving work force skills, and services for children with special educational needs and disabilities—SEND—and their families:

A clear focus on outcomes

The Lamb inquiry report was clear that parental confidence depended on seeing that the needs of their children with SEND were being met by skilled professionals. The Government have already strengthened the status and role of the SEN co-ordinator—SENCO—in schools. All SENCOs are required to be qualified teachers and those new to the role must undertake nationally accredited training and gain a national award. We are investing £10 million per annum to deliver this. We are also investing £12 million over 2008-11 to improve the skills and confidence of trainee and existing teachers, which includes new SEN and disability units in initial teacher training and the inclusion development programme for serving teachers. Our response to Sir Jim Rose's review into teaching children with dyslexia included funding course places for an additional 4,000 specialist dyslexia teachers. The implementation plan builds on this existing investment with up to £4 million for the Training and Development Agency for Schools, including for starting to deliver on the Lamb inquiry recommendation for advanced-level training around the five main SEN areas—learning difficulties; behavioural, emotional and social difficulties; dyslexia; autism spectrum disorders; and speech, language and communication needs.

In addition to improved achievement for children with SEND, parents want to be assured that children are safe from bullying. The Government's pupil and parent guarantees make a commitment to all pupils and their parents, including those with SEND, that their schools will have effective policies in place to prevent and tackle all forms of bullying. We have started work with the Anti-Bullying Alliance to review the most effective approaches to anti-bullying.

Strengthening the voice of parents

The implementation plan explains how we will enhance the service offered to parents through parent partnership services with better trained advisors, and launch a dedicated national helpline in April to provide information and advice to parents of children with SEND.

Establishing a local system in tune with children's needs

The inquiry concluded that the system works best where schools, local authorities and parents operate in a true partnership. We want to build on this good practice through incorporating SEN and disability in the training that leaders of children's services receive. The plan also details the training for local authority SEN officers in how to work well with parents, which will start in March, and guidance and training for those drawing up statements of SEN will be issued this July.

Building accountability around children's progress

The inquiry's final report placed a great deal of emphasis on effective accountability, throughout the system, to ensure parental confidence. We will strengthen training on SEND for school governors, with improved legal resources available for all governors in December and the national training programme for new governors will reflect the conclusions of the inquiry. School improvement partners—SIP—play an increasingly important role in providing high-quality challenge and support to school leaders and, this summer, the national strategies will roll out SEND training to all local authority SIP managers.

My Department has already implemented the inquiry recommendation to route parental complaints to the local government ombudsman. The first-tier tribunal—SEN and Disability—also has already launched enhanced training for tribunal chairs; will issue guidelines on the provision of professional and expert evidence in March and launch revised information for parents, including online materials and a DVD, in May.

A number of recommendations in the inquiry were for Ofsted to take forward and it will be publishing its implementation plan in March. The Children, Schools and Families Bill, currently before Parliament, places an explicit duty on Ofsted to report on how well schools are meeting the needs of children with SEND as part of school inspections.

A responsive national framework

My Department has invited local authorities, working with parents and voluntary organisations, to undertake innovative projects to improve parental confidence. These will be launched in April, one in each region, and will include testing greater independence in assessment.

The inquiry recommended remedying the exclusion of schools from the duty in the Disability Discrimination Act to provide auxiliary aids and services. The Government have already acted on this through an amendment to the Equality Bill, currently before Parliament.

I have asked Brian Lamb to report on progress against the actions in the implementation plan in the summer, rather than in April as originally planned. This will provide him with sufficient time to see the impact of the actions already undertaken and those set out in the plan before reporting.

The implementation plan responds fully to the challenge set in the inquiry report and takes action in those areas that will make a lasting impact on parental confidence; a higher-skilled work force able to respond to children's needs; more accessible information and advice for parents; training for those in key positions throughout the system, and enhanced accountability and redress mechanisms.

I am placing a copy of the implementation plan in the Libraries of both Houses.

COMMUNITIES AND LOCAL GOVERNMENT

General GLA Grant (2010-11)

The Parliamentary Under-Secretary of State for Communities and Local Government (Barbara Follett): The General GLA Grant for 2010-11 has been determined by the Secretary of State for Communities and Local Government at £48,136,000, after consultation with the Mayor of London. The grant is a block grant paid for the purposes of the Greater London Authority and its functional bodies under section 100 of the Greater London Authority Act 1999. The grant for 2010-11 is based on the three-year settlement for the grant following the outcome of the 2007 comprehensive spending review.

DEFENCE

War Pensions (Uprating)

The Parliamentary Under-Secretary of State for Defence (Mr. Kevan Jones): The new rates of war pensions and allowances proposed from April 2010 are set out in the tables below. The annual uprating of war pensions and allowances for 2010 will take place from the week beginning 12 April. To provide additional support to households during the early stages of economic recovery, the 2009 pre-Budget report announced that the Government will bring forward a proportion of the increases expected in April 2011 a year earlier, thereby providing a 1.5 per cent. increase for those benefits normally uprated by RPI.

War Pensions Rates

(Weekly rates unless otherwise shown)	*Rates 2009*	*Rates 2010*
War Pensions		
Disablement Pension (100% rates)		
officer (£ per annum)	7,952.00	8,072.00
other ranks	152.40	154.70
Age allowances payable from age 65		
40%-50%	10.25	10.40
over 50% but not over 70%	15.65	15.90
over 70% but not over 90%	22.30	22.65
over 90%	31.30	31.80
Disablement gratuity (one-off payment)		
specified minor injury (min.)	970.00	985.00
specified minor injury (max.)	7,247.00	7,356.00
1-5% gratuity	2,423.00	2,459.00
6-14% gratuity	5,387.00	5,468.00
15%-19% gratuity	9,423.00	9,564.00
Supplementary Allowances		
Unemployability allowance		
Personal	94.20	95.60
adult dependency increase	53.10	53.10
increase for first child	12.35	12.35
increase for subsequent children	14.50	14.50
Invalidity allowance		
higher rate	18.65	18.95
middle rate	12.00	12.20
lower rate	6.00	6.10
Constant attendance allowance		
exceptional rate	115.00	116.80
intermediate rate	86.25	87.60
full-day rate	57.50	58.40
part-day rate	28.75	29.20
Comforts allowance		
higher rate	24.70	25.10
lower rate	12.35	12.55
Mobility supplement	54.85	55.65
Allowance for lowered standard of occupation (maximum)	57.44	58.22
Therapeutic earnings limit (annual rate)	4,784.00	4,836.00
Exceptionally severe disablement allowance	57.50	58.40
Severe disablement occupational allowance	28.75	29.20
Clothing allowance (£ per annum)	196.00	199.00
Education allowance (£ per annum) (max)	120.00	120.00
Widow(er)s' Benefits		
Widow(er)s' - other ranks (basic with children)	115.55	117.30
Widow(er) - Officer (basic with children) (£ per annum)	6,147.00	6,239.00
Childless widow(er)s' u-40 (other ranks)	27.68	28.10
Childless widow(er)s' u-40 (Officer highest rate both wars) (£ per annum)	2,135.00	2,167.00
Supplementary Pension	77.32	78.48
Age allowance		
(a) age 65 to 69	13.20	13.40
(b) age 70 to 79	25.30	25.70
(c) age 80 and over	37.55	38.10
Children's allowance		
Increase for first child	18.15	18.40
Increase for subsequent children	20.30	20.60
Orphan's pension		
Increase for first child	20.70	21.00
Increase for subsequent children	22.70	23.05
Unmarried dependant living as spouse (max)	113.20	114.95
Rent allowance (maximum)	43.60	44.25
Adult orphan's pension (maximum)	88.75	90.10

HOME DEPARTMENT

Justice and Home Affairs Council

The Parliamentary Under-Secretary of State for the Home Department (Meg Hillier): The Justice and Home Affairs Council is due to be held on 25 and 26 February 2010 in Brussels. My noble Friend, the Parliamentary Under-Secretary of State for Justice, Lord Bach and I, intend to attend on behalf of the United Kingdom. As the provisional agenda stands, the following items will be discussed:

The Council will begin by agreeing the text on the internal security strategy which was discussed at the January Informal Council in Toledo. The Government support the internal security strategy as currently drafted, in particular the reference to an EU organised crime strategy.

The presidency will then update Ministers on plans to establish the Standing Committee on operational co-operation on internal security—COSI—setting out its legal basis and outlining the next steps for the committee. The Government have supported the creation of COSI and look forward to its first meeting.

The Council will have an orientation debate on a proposal for a European pact against drug trafficking designed to co-ordinate member state activity in this field. The pact focuses on three thematic areas: the "cocaine route" from Latin America via West Africa to Europe; the "heroin route" through Turkey and the Western Balkans; and money-laundering. The Government support this proposal which is in line with UK objectives on drug trafficking.

The presidency will update Ministers on EU-US relations following its high level meeting with US officials in January, which focused on data protection, child protection and terrorism.

There will also be a discussion for Interior Ministers on what the next steps should be for the EU-US agreement on the processing and transfer of financial messaging data for the purposes of the terrorist tracking finance programme—the so-called SWIFT agreement—following the European Parliament's decision to reject the Council decision intended to conclude it.

After lunch, the presidency will update the Mixed Committee, with non-EU Schengen states, on the results of the evaluation of the first milestone test of the second-generation Schengen information system—SIS II—which took place at the end of January. The Government support the need for a thorough evaluation of the first milestone test and will seek to ensure that the remaining milestone tests are conducted in a timely fashion.

The Council will then discuss the official Canadian response to the Commission's October 2009 report which criticised the Canadian Government for its decision to re-introduce visas for Czech nationals. The Government have maintained a neutral position so far and will continue to urge a proportionate solution to this issue, either resolved bilaterally or brokered by the Commission.

The presidency will present a draft instrument establishing a European agency for the management of operational co-operation at the external borders of the member states of the European Union—Frontex. The Government will consider the draft regulation carefully as soon as it is published.

Finally, the Mixed Committee will discuss the ongoing issue of illegal migration on the southern border of the European Union. The Government recognise the significance of these flows and support strong, strategic and evidence-based EU collaboration on this issue through co-operation with countries of origin and transit, and practical action at, and beyond, the EU's borders, including a strong focus on returns.

On the second day of the Council meeting, there will be a state-of-play report on the negotiations that have been taking place about a proposed directive on the European protection order. Ministers will then be given the opportunity to comment. This is a member state initiative, presented by the Spanish presidency, and it is designed to assist victims who have obtained a protection order in one member state who subsequently move to another.

The presidency will then provide Justice Ministers with information about the state of play of the negotiations on the proposed directive on interpretation and translation. This proposal was negotiated as a framework decision under the Swedish presidency and reached political agreement at the October JFIA Council. However, it lapsed when the Lisbon treaty came into force, and so has had to be retabled as a directive under the new treaty. The Government support this proposal.

There will be a presentation and debate on EU accession to the European convention of human rights. The Government fully support EU accession to the European convention on human rights, which will close the gap in judicial protection of fundamental rights in the EU by ensuring that the EU institutions, as well as the member states when implementing EU law, will clearly be subject to the convention.

The Council will be asked to agree a Council resolution proposing the creation of an updated model agreement to help in the establishment of, and participation in, joint investigation teams—JITs. The Government fully support this updated-model agreement which is based on practical experience and good practice.

In addition to the agenda items, Commissioner Viviane Reding will deliver a presentation of her work.

JUSTICE

European Parliament

The Minister of State, Ministry of Justice (Mr. Michael Wills): My hon. Friend the Minister for Europe and I wish to announce that following the treaty of Lisbon's entry into force on 1 December 2009, the Government intend that the extra seat in the European Parliament which is assigned to the UK under the treaty will be filled in accordance with the results at the June 2009 European Parliamentary elections. The treaty of Lisbon establishes an overall cap on the size of the European Parliament and an adjustment of the distribution of MEPs between 12 EU member states. The number of UK MEPs increases from 72 to 73.

An agreement of a transitional protocol is required to permit those member states who gain MEPs under the treaty to elect their additional MEPs during the current European Parliamentary term rather than wait until the next round of European Parliamentary elections in 2014. At EU level, unanimous agreement is needed for such a protocol, as it will mean a temporary increase in the number of MEPs allowed by the treaty. At UK level, a Bill will be required after the general election to ratify the treaty change in the UK. Legislation will also be required to provide for the seat to be filled.

Should the seat be awarded to a European Parliamentary electoral region of Great Britain, the results from that region at the 2009 election will be used to determine which party would have been awarded the next seat had an additional seat been available. The system used in Northern Ireland to elect its MEPs—the single transferable vote—is different from that used in Great Britain. If the extra seat is allocated to Northern Ireland therefore, the seat would go to the highest ranking candidate not to have reached the quota at the 2009 election following completion of the count.

Advisory Panel on Judicial Diversity

The Secretary of State for Justice and Lord Chancellor (Mr. Jack Straw): In April 2009 I established an independent advisory panel on judicial diversity. I asked the panel to identify the barriers to progress on judicial diversity, and to make recommendations on how to make speedier and sustained progress to a more diverse judiciary. I invited Baroness Julia Neuberger DBE to chair the panel and Lord Justice Goldring, Professor Dame Hazel Genn, Andrew Holroyd CBE, Winston Hunter QC and Dr. Nicola Brewer CMG to serve as members of the panel.

The advisory panel were originally to have presented their final report to me by November 2009. However, at the panel's request, I agreed to a deferral of the publication date to enable the panel to continue engaging with a wide range of contributors and developing their findings. Overall, the panel met, corresponded with, or received evidence from, over 180 individuals and organisations—including members of the judiciary, the Judicial Appointments Commission, members and representatives of the legal professions, and diversity and equality experts—during the course of their investigation.

The advisory panel has now completed its work and produced its final report. Copies of the "Report of Advisory Panel on Judicial Diversity 2010" have been placed in the Libraries of both Houses.

I welcome warmly the findings of the panel's report and its recommendations. Some of these will be for individual organisations to deliver. The majority though will require co-operative working between the Government, the judiciary, the Judicial Appointments Commission and the legal professions. Accordingly, I have written today to invite them to join a new judicial diversity taskforce, which will be responsible for driving forward the comprehensive programme of reform identified by the panel.

I am very grateful to Baroness Neuberger and the members of her advisory panel for the work they have done in producing this report, and the thorough approach that they have taken to identifying and analysing the issues involved.

We know that improving the diversity of the judiciary is a long-term challenge. I hope that this excellent report will spur all those across the system to respond to this challenge with renewed vigour.

NORTHERN IRELAND

Bill of Rights

The Secretary of State for Northern Ireland (Mr. Shaun Woodward): The need for an additional human rights framework that reflects the particular circumstances of Northern Ireland was recognised in the Belfast agreement and given shape through the commitment to set up a Bill of Rights forum as part of the St. Andrews agreement. Flowing from these commitments, the Government launched a public consultation on the next steps towards a Bill of Rights for Northern Ireland on 30 November 2009.

The Government believe that a Bill of Rights which has the support of the people of Northern Ireland could play an important role in underpinning the peace, prosperity and political progress of Northern Ireland, and we are committed to taking this work forward. The launch of the consultation marked another milestone on that path.

The Government have received a number of requests to extend the consultation deadline by organisations that are keen to participate. As we made clear in the consultation paper, we want a full debate on the issues involved, and it is important to hear the full range of views. With that in mind, I have decided to extend the consultation deadline by four weeks until the end of March to allow those individuals and organisations who wish to contribute to do so.

I encourage everyone in Northern Ireland to read the consultation paper carefully and to participate in the debate.

TRANSPORT

Eurostar

The Minister of State, Department for Transport (Mr. Sadiq Khan): My right hon. and noble Friend the Secretary of State for Transport, Lord Adonis, has made the following ministerial statement:

The independent review looking into the collapse of Eurostar services before Christmas was published on Friday 12 February. This was a thorough review of the incident and I am pleased to say that all parties have committed to working on implementing the recommendations.

The incident occurred during some of the most prolonged adverse winter weather. Nevertheless, too many passengers were left to endure appalling conditions onboard trains and at stations with inadequate information and assistance. This did not reflect the level of service passengers had experienced over the last 15 years or had come to expect from Eurostar. The company now must win back the trust of the public by taking every step necessary to ensure that services return to their previous high levels of performance and reliability.

I have requested Eurostar and Eurotunnel to provide an update by the end of March on their progress in implementing the recommendations.

Urban Congestion Performance Fund

The Minister of State, Department for Transport (Mr. Sadiq Khan): I am today announcing the third tranche of performance-related payments from the Urban Congestion Performance Fund that will see the 10 largest urban areas in England receive a further £19.7 million to study and address the causes of urban congestion.

The Department for Transport has a public service agreement indicator regarding person journey time on main roads into urban areas. The indicator states that by 2010-11 the 10 largest urban areas in England will meet the congestion targets set in their local transport plan relating to movement on main roads into city centres. The indicator will be deemed to have been met if, on target routes in these areas, an average increase in travel of 4.4 per cent. is accommodated with an average increase of 3.6 per cent. in person journey time per mile.

On 4 February the Department published statistics for 2008-09 for each urban area to replace the provisional estimates that were published in November 2009. These data showed that the average person journey time across all the target routes has improved by 5.5 per cent. between the baseline (which uses a mix of 2004-05 and 2005-06 data) and 2008-09. At the same time the average level of travel fell by 0.8 per cent. across all the target routes.

Based on this performance, the £19.7 million payment will now be shared between the participating areas as below:

Urban Area	*Tranche 3 Payments*
London	£6,000,000
Greater Manchester	£2,508,605
West Midlands	£2,339,880
West Yorkshire	£2,040,536
South Yorkshire	£1,604,010
Tyne & Wear	£1,344,263
Merseyside	£1,369,138
West of England	£825,968
Nottingham	£831,412
Leicester	£793,903
Total	£19,657,715

In relation to the 2007-08 performance fund payments announced on 23 February 2009, an error was identified in the way that "statistical confidence" is determined. This meant that when London was awarded full funding under tranche 2 (£3.9 million) they should have only been awarded 90 per cent. (£3.51 million). After taking in to consideration the fact that the error was due to the Department and not Transport for London, that London had still only marginally missed the full payment threshold and as the priority of the fund is to identify and tackle the causes of congestion, it has been decided to retain London's original performance fund allocation of £3.9 million under tranche 2. No other payments to the other urban areas were affected.

The performance fund is worth a total of £60 million over four years, and today's announcement will have seen a total of £42.6 million paid to the 10 areas. A further £15 million is available in the next financial year, and will also be awarded on a performance basis.

Written Ministerial Statements

Thursday 25 February 2010

BUSINESS, INNOVATION AND SKILLS

EU Competitiveness Council

The Parliamentary Under-Secretary of State for Business, Innovation and Skills (Ian Lucas): The EU Competitiveness Council will take place in Brussels on 1 and 2 March and this statement covers the business to be taken at the Council. I shall represent the UK on internal market and industry issues on 1 March and Andy Lebrecht, the UK's Deputy Permanent Representative to the EU, will represent the UK on research issues on 2 March.

The main industry and internal market items on the agenda are: Council conclusions on future EU industrial policy; discussion of the Commission's Europe 2020 strategy for growth and jobs; a Council resolution on EU intellectual property rights policy; and a ministerial lunchtime discussion with Mario Monti to discuss his preliminary report on the re-launch of the EU single market.

The main research items on the agenda are: a joint Baltic sea research and development programme; a regulation on the European earth observation programme (GMES) and its initial operations 2011-13; a Council resolution on the governance of the European research area, including a new mandate for the scientific and technical research committee (CREST); Council conclusions on the European Research Council and on researcher mobility and careers issues; and discussion of the Commission's Europe 2020 strategy for growth and jobs.

The any other business items are set out below:

AOB items

a. Information from the Commission on the results of the Copenhagen conference. Implications for European industry;

b. Information from the presidency on the results of the informal Competitiveness Council on 8 and 9 February (San Sebastián);

c. Information from the presidency and the Commission on standardisation activities, within and outside the EU, relating to electric vehicles;

d. Possible information from the Commission on internal market scoreboard no.20;

e. Presentation by the Commission on functioning of the internal market: implementation of the internal market information system;

f. Information from the Commission—services directive—state of play of transposition information from the Commission—ITER;

g. Communication from the Commission to the European Parliament, the Council, the European Economic and Social Committee and the Committee of the Regions: "Mobilising private and public investment for recovery and long term structural change; developing Public Private Partnerships"—Information from the Commission: 16586/09 COMPET 496 ECOFIN 836 IND 173 MI 447 RECH 434 TRANS 469 ENER 411 ENV 836

h. Communication from the Commission to the European Parliament, the Council, the European Economic and Social Committee and the Committee of the Regions: "A public-private partnership on the Future Internet"—Information from the Commission: 15279/09 TELECOM 227 RECH 372 IND 144 ENER 359 ENV 747 SAN 291 TRANS 432

i. Communication from the Commission—European Institute of Innovation and Technology: Update on progress

j. Information from the presidency—high-level event on information and communication technologies for energy efficiency (ICT4EE) towards a sustainable society (Brussels 23 and 24 February 2010).

The Government's main aims will be:

To outline UK priorities for a new EU industrial policy, particularly the importance of open and competitive markets.

To support the Council resolution on enhancing the enforcement of intellectual property rights in the EU internal market.

In discussions on the Europe 2020 strategy for growth and jobs, to emphasise the UK priorities set out in the Prime Minister's EU compact for jobs and growth.

To agree a decision on the participation by the Community in a joint Baltic sea research and development programme being undertaken by several member states and a regulation on the European earth observation programme (GMES) and its initial operations 2011-13.

To adopt a Council resolution on the governance of the European Research Area, including a new mandate for the Scientific and Technical Research Committee (CREST) which will strengthen that body's strategic role in the definition of European research policy.

To adopt Council conclusions in response to the recent evaluation of the mechanisms and structures of the European Research Council and Council conclusions on researcher mobility and careers issues.

CHILDREN, SCHOOLS AND FAMILIES

EU Education Council

The Parliamentary Under-Secretary of State for Children, Schools and Families (Mr. Iain Wright): My right hon. Friend the Parliamentary Under-Secretary of State for Children, Schools and Families (Baroness Morgan of Drefelin) has made the following written ministerial statement:

I represented the UK at the Education Council, on behalf of DCSF and BIS.

Summary

The Council had only two substantive agenda items—adopting the joint progress report on the "Education and Training" work programme, and a debate on the role of education in the upcoming EU2020 strategy. Also, Androulla Vassiliou, the new Commissioner for Education, Culture, Multilingualism and Youth, presented her priorities for forthcoming work in the area of education.

The presidency introduced the joint report on the implementation of the "Education and Training 2010" work programme. While advancements have been made across the key competencies and agreed benchmarks, low literacy levels and drop-out rates remain a concern. The Council adopted the report without further comments.

Ministers discussed the role of education and training for the Europe of 2020, based on a presidency discussion paper which argued that education must play a central role in ensuring that Europe is a leading, competitive, knowledge based economy. All countries supported the key messages in the text, notably the need to upgrade skills, promote mobility, foster innovation at all levels of education, and increase the links between the education system and employers.

A number of member states underlined the importance of focusing on current and future skills needs. I also spoke on the importance of an outcome-based approach to the EU's open method of co-ordination and noted the need for an individualised approach to learning.

The Commissioner concluded by calling for increased, targeted investment in education, a more innovative higher education area, and greater flexibility between the world of education, employment and wider society. She also revealed President Barroso's plans for EU2020, including his proposal that the benchmark on 40 per cent. tertiary level education attainment should be one of five priority benchmarks for the upcoming EU2020 strategy.

The Council was followed by a lunch debate on social inclusion and social responsibility through education and training. This focused on the balance between promoting equity and excellence, and will lead to Council conclusions to be agreed by Ministers later this year.

HEALTH

Nutrition Action Plan Delivery Board

The Minister of State, Department of Health (Phil Hope): I am publishing the independent Nutrition Action Plan Delivery Board's (NAPDB) end of year report on progress by health and social care organisations in implementing the nutrition action plan to improve the nutritional care of older people in hospital and those living in care homes. I have placed copies of the report and our response to the NAPDB's findings in the Library and copies are available to hon. Members from the Vote Office. I am grateful to the Chair and members of the NAPDB for their work in overseeing the first year implementation of the nutrition action plan.

In completing their task, I congratulate the board on their work to raise awareness of the links between nutrition and good health, and the risks to vulnerable groups within the population, such as older people living alone. The NAPDB report adds to the evidence base to help us address the complex factors that determine malnutrition—for example, loss of appetite associated with age and/or illness, including absorption problems or the need for assistance in eating and drinking. Many of the report's conclusions and recommendations align with our policy on nutrition and programmes underway to improve health and social care services.

HOME DEPARTMENT

Identity Commissioner

The Secretary of State for the Home Department (Alan Johnson): We successfully launched the National Identity Service in Manchester on 30 November. So far over 5,000 people have been issued with identity cards and the number is continually growing. These people are already starting to see the advantages of having an identity card — using it to prove and protect their identity and for travel to Europe.

The Identity Commissioner provides independent oversight of the National Identity Service and has already begun to look closely at the way the service is delivered. I am pleased to lay before Parliament the first annual report of the Identity Commissioner. His early impression, that the Identity and Passport Service are "doing a pretty good job", is welcome. But the Identity Commissioner is not complacent; neither am I. I endorse his priorities for scrutiny in the coming year: data-sharing; exploiting the benefit of identity cards; and the security and integrity of the technology of the National Identity Service. I look forward to seeing the result of his work in the coming months.

Since the beginning of the year, roll out of identity cards has continued to grow. On 4 January we extended eligibility to people across the North-West and since 8 February, young people aged 16 to 24 living in London have also been able to apply for an identity card. Furthermore, over 21,000 people throughout the UK have registered an interest in applying for an identity card and I have made a commitment that anyone who registers their interest through the Directgov website before 30 June will be able to apply for an identity card. Identity cards are a convenient and universal proof of age as well as a credit-card sized alternative to the passport when travelling in Europe.

Copies of the Identity Commissioner's report will be available in the Vote Office.

JUSTICE

Parole Board Chair

The Secretary of State for Justice and Lord Chancellor (Mr. Jack Straw): I have reappointed Sir David Latham as chairman of the Parole Board from 25 February 2010 for a period of 12 months or until the future status of the Parole Board has been resolved following the consultation "The Future of the Parole Board".

Office for Judicial Complaints

The Secretary of State for Justice and Lord Chancellor (Mr. Jack Straw): With the concurrence of the Lord Chief Justice, I have published today the annual report of the Office for Judicial Complaints (OJC). The OJC provides support to the Lord Chief Justice and myself in our joint responsibility for the system of judicial complaints and discipline.

I welcome the publication of this report, the third produced by the OJC, which details the work undertaken by the OJC in the past year, and the complaints with which it has dealt.

The OJC's 2006-2007 report marked the first occasion on which comprehensive details of complaints received about judicial office holders had been made available to the public. I am pleased to note that the OJC continues to build on this foundation and believe that this report highlights the continued progress made by the OJC in delivering a high quality, effective and transparent service to all its complainants.

The Lord Chief Justice and I are keen to ensure that the disciplinary process for judicial office holders is both transparent and accountable. As we announced in April 2009, we have agreed that, where a judicial office holder has been removed from office following disciplinary procedures, there should now be a presumption that both the identity of that judicial office holder, and the reason for their removal, should be made public. While mindful of this presumption, we will none the less continue to make decisions about disclosure on a case-by-case basis.

Where a judicial office holder has been subject to a lesser sanction than removal, this presumption does not apply, however, we will continue to give consideration to the disclosure of relevant information in cases that have attracted a high degree of interest from the public and media.

Copies of the report are available in the Libraries of both Houses, the Vote Office and the Printed Paper Office. Copies of the report are also available on the internet at: http://www.judicialcomplaints.gov.uk/publications/publications.htm.

Pleural Plaques

The Secretary of State for Justice and Lord Chancellor (Mr. Jack Straw): This ministerial statement sets out the Government's decision on the question of compensation for pleural plaques, following their consultation on the issue. A full summary of the submissions we received during that consultation will be published shortly.

On 17 October 2007 the Law Lords upheld a Court of Appeal decision that the existence of pleural plaques—small localised areas of fibrosis caused by exposure to asbestos fibres, found within the pleura of the lung—does not constitute actionable or compensatable damage. Prior to that, people had been able to bring claims for compensation for pleural plaques since the 1980s

In the light of representations made by individuals and organisations who strongly disagreed with the Law Lords' decision, and in recognition of the concerns that existed, the Government published a consultation paper on the issue which sought views on a number of options in response to the ruling, including whether to overturn the House of Lords' judgment and legislate so that pleural plaques would again be compensatable under civil law.

In total the Government received 224 responses to its consultation paper. In addition, reports were received from the chief medical officer (CMO) for England and Wales and the Industrial Injuries Advisory Council (IIAC) reviewing the medical evidence on pleural plaques. Very helpful further discussions have also taken place with key medical experts in relation to the medical evidence.

This has confirmed that the presence of pleural plaques is an indicator that a person has been exposed to asbestos. Given that exposure to asbestos increases the risk of developing a serious illness, a diagnosis of pleural plaques can give rise to an understandable sense of anxiety and unease. However, while the exposure to asbestos has resulted in an anatomical change, in the great majority of cases pleural plaques do not in themselves produce any significant physiological change or loss of lung function, and only very rarely give rise to physical symptoms. In such rare cases it is still possible for individuals to bring a civil claim for damages.

There is no available medical evidence to show that pleural plaques become malignant or lead to mesothelioma or other asbestos-related diseases. Current evidence indicates that it is a person's exposure to asbestos that produces any increased risk of developing a serious asbestos-related disease rather than the pleural plaques themselves.

The chief medical officer has invited the British Lung Foundation and the British Thoracic Society to develop information materials for health care professionals, and an information leaflet for people diagnosed with pleural plaques, to ensure that consistent and accurate information is provided about the condition to help allay concerns as far as possible.

On the basis of medical evidence received during the course of this review, including authoritative reports from the CMO and the IIAC, we are unable to conclude that the Law Lords' decision should be overturned at this time or that an open-ended no-fault compensation scheme should be set up. While the current medical evidence is clear that pleural plaques are a marker of exposure to asbestos, and that exposure to asbestos significantly increases the risk of asbestos-related disease, any increased risk of a person with pleural plaques developing an asbestos-related disease arises because of that person's exposure to asbestos rather than because of the plaques themselves. However, if new medical or other significant evidence were to emerge, the Government would obviously reassess the situation.

While we cannot, for the reasons outlined above, restore the previous position, we do acknowledge the unique position of those individuals who had already begun, but not resolved, a legal claim for compensation for pleural plaques at the time of the Law Lords' ruling in October 2007. Such people would have had an understandable expectation that their claim would result in compensation and many had made plans accordingly.

The Government have decided to make payments of £5,000 to individuals in this limited category under an extra-statutory scheme. The payment broadly reflects the level of compensation likely to have been received if pleural plaques had continued to be compensatable. Detailed arrangements relating to the operation of this extra-statutory scheme will be announced shortly. The scheme will apply to England and Wales, where the Ministry of Justice has responsibility for civil law. An information telephone line will be available by the end of the week and the number will be published at: www.justice.gov.uk/about/pleural-plaques.htm. The Government regard this as a unique situation and as not setting any precedent for any other circumstances where litigants may be disappointed.

A significant consequence of the House of Lords' decision has been that people diagnosed with plaques can no longer bring proceedings to establish liability for negligent exposure to asbestos. This was useful for some individuals later diagnosed with mesothelioma, as prior establishment of liability expedited their new compensation claim. This is of particular importance where conditions like mesothelioma are concerned, as patients frequently die very soon after diagnosis, leaving little time to trace records and obtain compensation. The Government believe it is imperative that steps are taken to improve the speed of payment for compensation claims for mesothelioma and other serious asbestos-related diseases.

We will therefore establish a working group composed of claimant solicitors, trade unions, insurers, the judiciary, and civil servants to examine litigation practices and procedures for compensation claims relating to mesothelioma, and identify options for streamlining them in order to reduce the time taken to conclude cases. In particular the working group will consider:

the operation of the practice direction for court proceedings introduced in April 2008 to ensure that it is working effectively;

possible solutions to difficulties arising from delays in obtaining medical reports because of the shortage of medical experts in this area;

why more claims do not settle, and whether any provisions in relation to pre-action behaviour would be helpful in reducing the time taken to establish liability without the need for court proceedings.

We also intend to consider changes to the substantive law to:

resolve difficulties experienced by mesothelioma sufferers as a result of differences in the value of claims which are settled before or after the death of the person concerned and to clarify the limitation period for bringing a claim;

clarify that the limitation period for bringing a claim runs from the date that the claimant becomes aware that he or she has mesothelioma rather than from the date they became aware of the original exposure to asbestos.

In addition, in November 2009 we introduced the Third Parties (Rights against Insurers) Bill into Parliament under a new procedure for Law Commission Bills. The Bill will enable claims against insolvent employers to be brought direct against the employer's insurer. This will simplify court procedures and remove the need for dissolved companies to be restored to the register of companies. The Bill is expected to become law in this Parliament.

Further to these initiatives we are also taking action to deal with the problem of people who develop a serious asbestos-related disease but are unable to obtain full compensation because they cannot trace the employer's insurer.

This problem has been recognised for some time, and since 1999 the Association of British Insurers (ABI) and the Lloyds Market Association have committed to a voluntary code of practice for tracing EL insurance policies. However, while the tracing service has led to some improvements, there are still many individuals who are left without help—3,210 of them in 2008.

That situation is clearly unsatisfactory and the Government are therefore consulting on two proposals to improve matters.

We believe that an essential first step is the creation of a UK-wide Employers' Liability Tracing Office (ELTO) to manage an electronic database of EL policies and to operate the existing tracing service. The Association of British Insurers (ABI) has agreed to drive forward this work to help claimants and their representatives, informed by the outcome of the consultation. The new office will initially be launched on a voluntary basis but we would ultimately like it to be a requirement on all insurers to publish relevant policy details on the ELTO.

The ELTO will initially be populated with existing trace data but new and renewed policies will be included shortly afterwards. One of the issues explored in the consultation is the extent to which historic insurance records can be added to the database.

We have every expectation that the ELTO will deliver significant results, creating a database of records that will help many thousands of people trace policies and receive compensation in the future.

However, even with an ELTO there will be some people, especially those who suffer from long-tail diseases like mesothelioma, who are unable to trace their insurance records and thus are denied full compensation. The Government therefore propose to establish an Employers' Liability Insurance Bureau (ELIB) providing a compensation fund of last resort for individuals across the UK who are unable to trace EL insurance records.

The consultation, published on 10 February, examines what an ELIB should cover, the impact of an ELIB on insurers and employers, how much should be paid by way of compensation, limitations on claiming from the ELIB, and what more can be done to ensure that employers who are legally obliged to obtain ELCI do so. The Government will consider fully the responses to the consultation before determining next steps towards the introduction of an ELIB.

A mandatory ELTO and an ELIB should, in time, provide a comprehensive framework for supporting people who develop a serious asbestos-related disease. However, in recognition of the need for action now, the Government are taking a series of steps to increase the upfront payments that are currently made to mesothelioma sufferers and their dependants.

The Government will increase payments made under the Pneumoconiosis etc. (Workers' Compensation) Act 1979 by 1.5 per cent., even though the retail prices index showed negative growth. In addition, we will increase payments made due to mesothelioma under the Child Maintenance and Other Payments Act 2008 so that they equal payments made under the Pneumoconiosis etc. (Workers' Compensation) Act 1979.

The Secretary of State for Work and Pensions is also amending regulations to increase payments to all dependants under the 1979 Act and the 2008 Act by up to £5,000, so that their awards are closer to those paid to sufferers. All of these increases will come into effect on 1 April 2010.

The fact that the UK has one of the highest rates of death from mesothelioma in the world is a legacy of our industrial heritage and the part that asbestos played in it. Just as the UK was a global leader in the asbestos industry, we must now become a global leader in research into asbestos-related disease.

We have received strong representations from clinicians, asbestos support groups and trade unions—as well as from Members on all sides of this House—for the creation of a national centre for asbestos-related disease, a collaborative network of funded researchers whose core purpose would be to advance medical research into the prevention, cure and alleviation of asbestos-related disease—primarily mesothelioma.

There is now widespread recognition, including within the medical research community, that while there has been considerable investment into cancer research generally, not enough has been focused on the study of cancers of the lung, including mesothelioma. Yet mesothelioma is now the 12th most common cancer killer in men and the cancer of most rapidly increasing incidence in women.

We are determined to expand research in this area. The Secretary of State for Health has therefore asked Department of Health officials to consider and advise on how best to create a world-leading network of medical research practitioners for asbestos related disease. The Department will involve my hon. Friend the Member for Barnsley, West and Penistone (Mr. Clapham), Dr. John Edwards and others with a special interest this review.

Based on their recommendations and on advice from National Cancer Research Institute about research priorities, we will set out how Government will support an increase in research investment in this area. In addition, we are very pleased to announce that the insurance industry will be contributing £3 million towards research into asbestos-related disease.

The Government believe that these measures will be of real and significant benefit to people diagnosed with mesothelioma and other asbestos-related diseases.

SOLICITOR-GENERAL

Final Policy on Prosecuting Cases of Encouraging and Assisting Suicide

The Solicitor-General (Vera Baird): My right hon. Friend the Attorney-General has made the following written ministerial statement:

In September last year, and following the House of Lords judgment in Purdy *v.* DPP, the Director of Public Prosecutions issued his interim policy setting out the particular public interest factors he would take account of when deciding whether to give consent to the prosecution of a person for the offence of aiding, abetting, counselling or procuring (assisting) another to commit or attempt to commit suicide. At the same time he announced the start of a consultation process on the issue.

Having considered over 4,500 responses to that consultation process the Director has issued today his final policy, together with the summary of the responses. Copies of each have been placed in the Libraries of both Houses.

It should be emphasised that the policy does not change the law but responds to the House of Lords judgment in Purdy *v.* DPP in which the House of Lords considered that in the special case of assisted suicide the Director should issue such a policy. This policy should be read in conjunction with the code for Crown prosecutors which will continue to apply to all cases.

Additionally, following a similar public consultation process, the Director of Public Prosecutions for Northern Ireland has issued today guidelines in respect of cases arising in Northern Ireland. Copies of these guidelines have also been placed in the Libraries of both Houses.

TRANSPORT

Bus, Coach and Tram Passenger Champion

The Minister of State, Department for Transport (Mr. Sadiq Khan): The Local Transport Act 2008 enables the Secretary of State to confer additional functions, through secondary legislation, on the Rail Passengers' Council, the statutory rail passenger watchdog known as Passenger Focus, in relation to buses, coaches and trams.

The Government are announcing that the Passengers' Council (Non-Railways Functions) Order 2010 comes into force today. The order extends the council's remit so as to give bus, coach and tram passengers in England outside London statutory representation for the first time. It also changes the statutory name of the Rail Passengers' Council to the Passengers' Council, although it will continue to be known as Passenger Focus.

WORK AND PENSIONS

Exportability of Disability Benefits

The Parliamentary Under-Secretary of State for Work and Pensions (Jonathan Shaw): In October 2007 the European Court of Justice decided that disability living allowance (care component), attendance allowance and carer's allowance ("disability benefits") should be classified as sickness benefits under Regulation EC 1408/71. Consequently, the benefits are exportable in certain circumstances. Before this judgment disability benefits were not exportable and as a result people who had been receiving these benefits lost entitlement when they moved abroad.

The Government accepted that the disability benefits referred to above are exportable to customers living in the European economic area (EEA) and Switzerland provided certain conditions are met. This includes a requirement that customers making a new claim have been in the UK for 26 out of the past 52 weeks.

After careful consideration we have decided, to take a different approach on cases where people lost entitlement to a disability benefit when they moved to another EEA state or Switzerland before 18 October 2007 (the date of the judgment in case C-299/05, *Commission v. Parliament*) but no earlier than 8 March 2001 (the date of the judgment in case C-215/99, *Jauch v. Pensionsversicherungsanstalt der Arbeiter*).

We accept that these people will have been in the UK for 26 out of the previous 52 weeks when they left the UK. We will therefore no longer require that they should satisfy this condition at the date they seek reinstatement, providing they continued to meet the other relevant domestic and EU law eligibility requirements throughout the period their claim was disallowed. Payment will be considered from 18 October 2007.

Once full details are available, the Pension, Disability and Carers Service will start to contact those people who have already applied for reinstatement to check if they are able to have their benefit reinstated.

The Department will take action to publicise this different approach and has placed information on the Government's official website, Directgov: http://www.direct.gov.uk/en/Nl1/Newsroom/DG_185646. The disability benefits pages on the site will be updated as more information becomes available.

Lump Sum Mesothelioma Sufferers

The Secretary of State for Work and Pensions (Yvette Cooper): I am pleased to inform the House that, from April 2010, a series of increases will be made to lump sum payments paid to individuals suffering from mesothelioma and certain other qualifying diseases under the Pneumoconiosis etc. (Workers' Compensation) Act 1979 and the 2008 mesothelioma scheme. Together, these schemes mean that all people suffering from mesothelioma can receive lump sum awards from the Government quickly after diagnosis, in addition to weekly state benefits.

There is no requirement on Government to uprate payments under the schemes, but we have previously committed to increasing payments in line with those to state benefits. We have laid regulations to increase payments under the 1979 Act by 1.5 per cent. from 1 April this year, despite the negative growth in the retail price index. This will increase the value of such payouts to these very vulnerable people.

I can announce also that we are increasing the level of payments made through the 2008 mesothelioma scheme to bring them up to those under the 1979 Act.

The 2008 scheme was introduced to provide up-front financial support to those people who previously were not eligible for help from the Government's other compensation schemes. The scheme is funded by compensation recovery—compensation recovered from individuals who are successful in a civil damages claim but who have already received a payment under the 1979 Act or 2008 scheme. When we started the scheme in 2008 we set awards at a level consistent with the amount of recoveries we expected to make; a lower rate than the 1979 Act. We made it clear, however, that we intended to bring 2008 scheme payments to the same level as those under the 1979 Act at the earliest opportunity. Our expectation was that we would be able to do this in the scheme's third year of operation.

I am pleased to inform the House that we are able to honour our promise sooner than expected and will be increasing payments to 1979 Act levels from April 2010, only 18 months after the 2008 scheme started. This means that those receiving a lump sum payment for mesothelioma will receive the same amount whether they were exposed to asbestos at work or exposed elsewhere, such as through washing their partner's clothes or by living close to an asbestos factory.

Finally, I am announcing an increase in the level of payments made to most dependants under both the 1979 Act and the 2008 scheme.

We recognise that the terrible effects of mesothelioma are not limited to the sufferer and that their families also have to cope with the effect of the disease on their loved one, witnessing their pain, suffering and ultimately their death. While we do acknowledge this by making payments to the family of someone who dies of mesothelioma and other dust-related diseases—such as pneumoconiosis, byssinosis and silicosis—these payments have been paid at a much lower rate than those to sufferers during life. We listened to the arguments put forward by stakeholders and hon. Members, who feel that this situation is unfair to dependants and can put added stress on sufferers and families at already extremely difficult times. We made a commitment to look at reducing the difference in payment to sufferers and dependants as funds became available.

We are now able to do this, and from April the majority of dependants receiving awards under the 1979 Act and 2008 scheme will receive a £5,000 increase. Those who already receive close to the amount paid to the sufferer will receive a proportionate amount, bringing their award up to the level of that paid to the sufferer in life.

These changes all take effect from April 2010.

Right to Control (Trailblazer Sites)

The Secretary of State for Work and Pensions (Yvette Cooper): The Right to Control aims to provide disabled adults with more choice and control over the support they need to live their lives, and how they receive that support. It allows them to select whether they receive funding direct, support from a service provider, or a mixture of both.

To understand how the Right to Control can be best implemented we plan to test this approach within a small number of trailblazer sites. On 8 December 2009, we published a prospectus inviting interested authorities to be at the forefront of this innovative approach and apply to become a trailblazer site.

We have selected eight sites that have provided us with quality proposals. These sites will also provide a good geographical balance between rural and urban communities as well as a mixture of different types of authorities.

The trailblazing authorities are:

Barnsley Metropolitan Borough Council and Sheffield City Council (Joint)

Essex County Council

Greater Manchester—incorporating Manchester City Council, Oldham Council, Bury Council, Stockport Metropolitan Borough Council and Trafford Council

Leicester City Council

London Borough of Barnet

London Borough of Newham

Redcar and Cleveland Borough Council, and

Surrey County Council (two districts—Epsom and Ewell Borough Council, and Reigate and Banstead Borough Council)

To ensure that the greater independence requested by disabled people is being met Jobcentre Plus will also be working closely with each of these authorities to provide a more streamlined service, and support for disabled people to achieve the outcomes that suit them best.

These eight sites will commence delivery of the Right to Control by the end of 2010, and will continue for a period of two years. Their findings will help inform the decision as to whether the Right to Control can be rolled out further.

Today we are also publishing our consultation document on our statutory regulations that will support the delivery of the Right to Control by the trailblazers. This can be viewed and downloaded from the Office for Disability Issues website at: www.odi.gov.uk/right-to-control. Copies of the document will be placed in the House Library.

Written Ministerial Statements

Friday 26 February 2010

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Public Sector Food Procurement Initiative

The Minister of State, Department for Environment, Food and Rural Affairs (Jim Fitzpatrick): I have today deposited copies of the report giving the proportion of UK produce supplied to Government Departments and the armed forces, as well as the proportions supplied to prisons and hospitals under contracts negotiated by HM Prison Service and NHS supply chain. A copy of the report is available on the PSFPI web site at: http://defraweb/foodfarm/policy/publicsectorfood/awareness.htm

HEALTH

Out-of-Hours GP Services (Ministerial Correction)

The Minister of State, Department of Health (Mr. Mike O'Brien): In answer to a question following my statement to the House on 9 February 2010, *Official Report*, column 764, I stated as understood at that time that—

> "On 21 April, Dr. Ubani was convicted, received a four-month suspended sentence and made a payment, although it is disputed whether it was a cost or a fine".

It has come to light that proceedings in Germany against Dr. Ubani were finalised on 15 April 2009 where he received a suspended sentence of nine months and made a payment of €5,000. The CPS understands the sum was a fine, rather than costs.

I hope this clarifies the situation.

Access to the NHS (Foreign Nationals)

The Minister of State, Department of Health (Mr. Mike O'Brien): On 20 July 2009, the Parliamentary Under-Secretary of State for Health, my hon. Friend the Member for Brentford and Isleworth (Ann Keen) announced the outcome of the joint Department of Health and UK Border Agency review of the rules on overseas visitors' access to the national health service in England, and the Government's intention to consult publicly on the change proposals. Today, on her behalf, I am fulfilling that commitment by launching the consultation.

The proposals in the consultation strike a balance between public health needs, managing migration and upholding humanitarian principles, ensuring that we continue to deliver high quality care to all those with a legal right to it while protecting our NHS from those who would take advantage of it.

The consultation includes proposals to increase the time that UK residents can regularly stay outside the UK before losing automatic entitlement to free NHS hospital care, and to protect unaccompanied children who arrive in the UK. We propose to exempt from charges failed asylum seekers who are co-operating with, and are supported by, the UK Border Agency prior to returning to their own country, but to charge all other failed asylum seekers.

In my hon. Friend's earlier statement, *Official Report*, column 97WS, she said that the Government were attracted to the principle that some visitors should be required to pay for their NHS treatment through personal health insurance, as is already the case in some other countries. Although developing a scheme that is fair and effective will be challenging, we are determined to take this forward. We will now seek views on the merits and feasibility of key principles and mechanisms for making this work, which have the potential both to increase the income that the NHS receives from overseas visitors, and to act as a deterrent to those seeking to abuse the NHS.

We have also taken the opportunity to consolidate the current regulations that underpin the policy on the charging of visitors, and to improve the supporting guidance that we provide for the NHS. Neither of these updates reflects any change in entitlements or operating practices, but they are provided in draft form for people to examine and comment on prior to them being launched.

The Minister of State for Borders and Immigration is today also launching a consultation on the proposal to refuse entry to the UK to those who have significant outstanding debts for NHS treatment. This will help the NHS to recover debts and discourage further those visitors who travel to the UK to seek treatment without paying.

The period for responding to the consultation will run until 30 June 2010. I have placed the consultation document in the Library and copies are available to hon. Members from the Vote office.

HOME DEPARTMENT

NHS Debtors (Immigration Rules)

The Minister for Borders and Immigration (Mr. Phil Woolas): On 20 July 2009, the Parliamentary Under-Secretary of State for Health, my hon. Friend the Member for Brentford and Isleworth (Ann Keen) announced the outcome of the joint Department of Health and UK Border Agency review of the rules on migrants' access to the national health service in England. As part of a balanced package of measures to rationalise and reform the present NHS charging arrangements, my hon. Friend signalled our intention to consult publicly on significant proposals for change emerging from the review, including action to protect the NHS from misuse by a minority of foreign nationals who are charged for using our public health services but default on their debts. Proposals to tackle the problem of "health tourism" sit alongside a broader range of measures to protect the interests of vulnerable individuals.

In taking forward this commitment, I have today published a public consultation on a proposal to change the immigration rules to provide for the first time that debt to the NHS above a prescribed amount will constitute grounds for refusal of permission to enter and stay in the United Kingdom for those subject to immigration control. The Government believe that those who take advantage of our hospitality should respect that hospitality or face consequences. The consultation sets out how the UK Border Agency would work in partnership with NHS to administer these new arrangements. The new immigration rule would supplement existing work by UK Border Agency officers at ports of entry to identify and remove visitors seeking to conceal an intention to enter the UK for the purpose of accessing NHS services. The period for responding to the consultation will run until 28 May 2010, and I have placed copies of the consultation documentation, together with regulatory and equality impact assessments, in the Vote Office and in the Library of the House.

INTERNATIONAL DEVELOPMENT

EU Trade Ministers Informal Meeting

The Minister of State, Department for International Development (Mr. Gareth Thomas): I represented the United Kingdom at the Spanish presidency's Trade Ministers informal dinner on 21 February. I welcomed the presidency's constructive highlighting of the importance of external trade for the economic strength of member states, and the importance of open and fair markets globally as the world emerges from the current economic crisis. I pointed to the importance of trade and exports to help tackle unemployment, currently at 10 per cent. across the EU-27 member states. The EU needed an open, fair trading system for our global competitiveness. I was pleased that my comments were reflected well in the new Commissioner, Karel de Gucht's response, and I look forward to the UK working closely with the new Commission to deliver this critically important agenda.

I emphasised the importance of reaching a balanced conclusion to the Doha development round. Only through the multilateral trade structures can we address the unfair and unbalanced array of trade barriers which prevent growth, particularly in developing countries. But I also said that the United Kingdom welcomed EU progress on reaching free trade agreements, which were a stepping stone to a multilateral agreement. I welcomed the initialling of the agreement with Korea—with potential value of €19 billion for the EU—and stressed the importance to the UK and EU of free trade agreements with India and Singapore. On a free trade agreement with Andean countries currently under negotiation I was clear that we would need reassurances of adequate and appropriate human rights provisions.

I warmly welcomed a renewed focus on economic co-operation with our major trading partners, and the contribution this could make to EU competitiveness. We needed to prioritise relations with the US, Japan and China. We should focus on regulatory co-operation, on international standards, and an intellectual property framework that reflected emerging new technologies and supported greener economic growth.

I pointed to the importance of addressing trade barriers at the EU's external borders. DG Trade in the Commission needed to work with other directorates general, in particular tax and customs, health and consumers, and energy and transport, on a risk-based approach to trade regulation and improve or remove disproportionately bureaucratic measures.

I strongly argued that we had to modernise our trade defence rules and ensure a transparent, economic and business-focused system that recognised the realities of global supply chains.

International trade and investment have the potential to bring benefits not only to our own economies, but also to developing countries. I therefore applauded the overall EU member state provision of more than 40 per cent. of the global Aid for Trade. But I argued that the Commission needed more effective and more flexible systems for spending it. On economic partnership agreements (EPAs) with African, Caribbean and Pacific countries I encouraged the Commission to press forward with negotiating full regional agreements that were truly development-friendly. We also needed mechanisms to implement and monitor existing EPAs. I pressed the Commission to make progress on the review of the general system of preferences (GSP). We needed increased transparency around the effective implementation of GSP+. I drew all member states' attention to the plight of Pakistan. I argued that there was an overwhelming moral and political case to support the Pakistan economy at this time, and that an adjustment of rules within GSP+ could bring trade benefits that would have wider, mutually beneficial social and political impact. Finally I emphasised the importance of decent work. I argued that working more closely with the ILO we could make important progress to ensure that standards were raised and secured without creating artificial barriers to trade.

JUSTICE

Thirty-year Rule Review

The Secretary of State for Justice and Lord Chancellor (Mr. Jack Straw): Yesterday I laid before each House a copy of the Government's response to the 30-year rule review (Cm. 7822). Copies of this document are available in the Libraries of both Houses and also in the Vote Office and the Printed Paper Office.

This publication will further the Government's plans to increase the accessibility of public information to improve the culture of openness and transparency in public life.

The right to access information has become a cornerstone of our democracy. On 25 October 2007, my right hon. Friend the Prime Minister, announced an independent review of the 30-year rule. The review, chaired by Paul Dacre, published its findings in January 2009. The Government have carefully considered those findings.

As my right hon. Friend, the Prime Minister, announced on 10 June 2009, *Official Report*, column 797, the Government plan to reduce the rule to 20 years via amendments to the Public Records Act 1958 and the Freedom of Information Act 2000. The Government believe that a 20-year rule offers the best balance between openness, affordability and the protection of the public interest in good government.

The new information access arrangements set out in the Government's response to the 30-year rule review will provide earlier access to a wide range of public documents, while also ensuring that we are able to protect the most sensitive information and the constitutional relationships that underpin our system of government.

In order to bring forward these important proposals the Government yesterday tabled amendments to the Constitutional Renewal and Governance Bill. Those amendments also provide protection to royal records.

I would like to express my gratitude to Paul Dacre, and his two colleagues on the review Sir Joseph Pilling and Professor Sir David Cannadine for all their work on the review.

Prisoner Escapes (Ministerial Correction)

The Minister of State, Ministry of Justice (Maria Eagle): An error has been identified in the written answer given to the hon. and learned Member for Beaconsfield (Mr. Grieve), 10 November 2009, *Official Report*, columns 216-17W. The full answer should have been as follows:

The table below shows information relating to three prisoners still unlawfully at large for murder who have absconded from open prisons in England and Wales since April 2004.

Prisoners still unlawfully at large since April 2004 serving an index offence of murder

	Prisoner 1	*Prisoner 2*	*Prisoner 3*
Date of offence	*March 1984*	*25/04/1982*	*27/09/1989*
Date convicted to life imprisonment	12/12/1984	04/10/1982	31/10/1989
Length of sentence	Life	Life	Life
Date of re-categorisation to category D	01/09/2004	08/04/2005	01/02/2009
Date of transfer to open conditions	01/09/2004	26/10/2005	21/01/2009
Date of abscond	17/05/2005 HMP Sudbury	10/01/2007 HMP Sudbury	31/08/2009 HMP Ford
Was prisoner on temporary release at time of abscond	No	No	No
Number of offences against prison discipline during this period of custody	30*	29*	38*

Note on table:

*All of these would have been proven and subject to disciplinary punishment.

These figures have been drawn from administrative data systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system.

It is obviously in general much in the public interest that the names of those escaping and absconding should be made public, but there can be operational or other reasons for not doing so in specific cases. I will write to the hon. and learned Member for Beaconsfield with the name of the offender when the police have confirmed that there is no difficulty in placing this in the public domain.

Over 96 per cent. of prisoners who abscond are re-captured and returned to custody. On recapture the prisoner will be returned to a closed prison and referred to the police for consideration for prosecution for having been unlawfully at large.

TRANSPORT

Rolling Stock

The Parliamentary Under-Secretary of State for Transport (Chris Mole): My right hon. and noble Friend the Secretary of State for Transport, Lord Adonis, has made the following written ministerial statement:

> In order to replace Britain's ageing fleet of Intercity 125 trains and to invest in capacity and passenger journey improvements on the east coast and Great Western main lines, the Government began the inter-city express programme procurement in 2007. The programme's key objective has been to achieve value for money across the lifetime of the trains, taking account of costs right across the rail industry.
>
> Good progress has been made, including the announcement of Agility Trains as preferred bidder in February 2009. Over the course of the procurement, however, there has been a reduction in the capacity of the debt market to support the transaction as originally envisaged, and passenger growth has also slowed. In addition the Government and Network Rail have committed to electrify the Great Western main line from 2016. The Government have identified appropriate adjustments to the original programme to take account of these developments. This has inevitably extended the contractual negotiations, which are not yet complete and would not be so until mid-March at the earliest.
>
> The negotiations are for a contract of nearly 30 years, a multi-billion pound spend over the course of many Parliaments. In all the circumstances, the Government do not believe it would be appropriate to enter into this particular contract in the immediate run up to a general election. To ensure that a decision is taken at the beginning of the next Parliament on the basis of the fullest evaluation, the Secretary of State has today asked Sir Andrew Foster, former controller of the Audit Commission, to provide an independent assessment of the value for money of the programme and the credibility and the value for money of any alternatives which meet the programme's objectives. It is critical for rail passengers that the right long-term decision is made about the next generation of inter-city trains, which will have a life of 30 years or more.
>
> The existing rolling stock dates back to the 1970s and needs to be replaced. If Sir Andrew Foster reaffirms that the inter-city express programme is better than the alternatives, the Secretary of State's intention would be to proceed with the project in the next Parliament, subject to satisfactory resolution of all the contractual issues.
>
> Sir Andrew Foster will consult Agility Trains, the Department, the relevant train operating companies, the Office of Rail Regulation, Network Rail, passenger groups and the devolved Scottish and Welsh Administrations.
>
> Sir Andrew Foster will report within three months. The report and the Government's response will be published and reported to Parliament. A copy of the letter from the Secretary of State to Sir Andrew Foster has been laid in the Libraries of both Houses.

Written Ministerial Statements

Monday 1 March 2010

BUSINESS, INNOVATION AND SKILLS

Northwest Regional Development Agency Board

The Minister for Regional Economic Development and Co-ordination (Ms Rosie Winterton): I am pleased to announce that I have decided to appoint three new board members to the Northwest Regional Development Agency. These are: Clive Elphick and David Goldie, to fill the two vacant business positions, and Frank Hont to fill the trade union vacancy.

Regional development agencies are playing a crucial role in addressing short-term issues as well as maintaining a long-term vision to help build a resilient economy for the future. The appointees to the Northwest Regional Development Agency board bring a wealth of experience and knowledge which will be extremely valuable to the contribution that the board can make towards the region's economic recovery.

The appointments will commence on the 1 March 2010 and expire on 13 December 2012.

I have placed further details of these appointments, including biographies, in the Libraries of both Houses. I can confirm that the appointments were made in accordance with the Commissioner for Public Appointments code of practice.

DEFENCE

Iraq Historic Allegations Team

The Minister of State, Ministry of Defence (Bill Rammell): The armed forces served with distinction in Iraq in successive Telic operations. A number of allegations of abuse of Iraqi citizens by British service personnel have been brought to our attention by public interest lawyers, and more are anticipated. Many of them are sketchy and incomplete in their details; all relate to events that occurred a long time ago; we are no longer in Iraq in significant numbers; we do not have access to the claimants; and the seriousness of the behaviour alleged varies considerably. Investigating these allegations thus presents a huge challenge. Over 120,000 British service personnel have served in Iraq and the vast, vast majority have conducted themselves to the highest standards of behaviour, displaying integrity and selfless commitment. The uncertainty created by these allegations risks undermining unfairly their reputation and achievements, and we owe to them, and to the claimants, that these allegations are properly investigated.

We are determined, therefore, to ensure that such investigations are carried out thoroughly and expeditiously, so that—one way or another—the truth behind them is established. We firmly believe that open consideration of the issues will establish once and for all that the vast, vast bulk of British forces behaved professionally and responsibly in Iraq in the most challenging of circumstances.

The special investigation branch (SIB) of the Royal Military Police (RMP) has made progress in investigating the claims. To date, we have been treating these allegations on a case-by-case basis, but as more have been brought to our attention we have decided to devote even more resource to this work. Therefore we are looking to set up a dedicated team—the Iraq historic allegations team (IHAT)—to concentrate on these allegations so that they can be addressed as soon as possible.

Some argue that the Government should hold a public inquiry into these allegations: we disagree. We do not believe that a public inquiry would uncover criminal behaviour, but in the unlikely event that it did, a public inquiry would be unable to investigate it fully, even less impose punishments; that would be wrong. Instead we want the administrative court to be assured that, so far as possible, the facts will be investigated—and that this will be done transparently, fully, and in a reasonable timescale. The additional resource which the IHAT represents will help to bring matters to as swift a conclusion as is possible. With this assistance the independent service justice system, including the independent Director of Service Prosecutions (analogous to the DPP), will be able to take appropriate action against anyone who might not have behaved in accordance with the standards which MOD and the armed forces expect of them.

Setting up this new team is not an admission of fault; nothing could be further from the truth. Rather it is a demonstration of the continuing commitment of the MOD and the armed forces to transparency, and our respect for proper investigation. The time has come to deal with these unproven allegations once and for all. We have nothing to fear and everything to gain by this approach, because the truth is important for the vast, vast majority of British troops who behaved to the highest standards in Iraq.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Thames Tunnel Project

The Secretary of State for Environment, Food and Rural Affairs (Hilary Benn): The building of the Thames tunnel is vital for the future health of Londoners and for the environment and reputation of our capital city. I would like to inform the House that I am minded to direct applications for the tunnel to the Infrastructure Planning Commission (IPC), under Section 35 of the Planning Act 2008, because I believe that this is likely to be the most appropriate and effective way of reaching a decision on this unique and complex project.

Around 32 million cubic metres of untreated sewage and rainwater pollute the River Thames tideway every year from combined sewer overflows (CSOs) when storm water capacity is exceeded. A CSO is a feature of a combined system, introduced for the purpose of relieving the system of flows in excess of a selected rate, the excess flow being discharged to a local receiving water. A combined system is a system that takes in both rainwater and sewage. The discharges occur, on average, once a week and have a significant environmental impact on the river. These discharges can increase the likelihood of fish kills, create a higher health hazard for users of the river, and damage the aesthetic appeal of the Thames. Following the Thames tideway strategic study the Government identified the tunnel, which will intercept around 30 million cubic metres of the average annual discharge, as the best solution to protect the River Thames and to ensure that the capital has a sewerage system able to cope with the impact of population growth, more intense rainfall patterns and the reduction of green space available to soak up rainfall.

I believe the project to be of national significance and I am minded to direct it to the IPC for the following reasons:

> it is essential to meet the ecological water quality objectives of a major river;
>
> it is essential to reduce the risk to human health and prevent negative aesthetic impacts;
>
> the unsatisfactory intermittent discharges cause reputational risk to the UK, detracting from the appeal of the river in the nation's capital, which is otherwise a great asset to residents and visitors alike;
>
> the unique scale and complexity of development will lead to an equally large and complex planning process and the Government have a clear interest in ensuring that the planning process goes as smoothly as possible, to ensure that there are not significant delays in addressing the problems caused by these sewage overflows, while ensuring the process is transparent and that all interested points of view are given a proper opportunity to be heard; and
>
> these improvement works are needed to enable us to continue to meet our obligations under the urban waste water treatment directive. The urgency of the works is increased by the infraction proceedings being pursued against the UK by the European Commission for an alleged breach of the directive.

I believe that a Section 35 direction is likely to offer the most efficient route for a decision on development of the Thames tunnel. The announcement that I am minded to direct the project to the IPC will allow DEFRA to work with the directly affected London boroughs, Thames Water and other London stakeholders to discuss what a Section 35 direction is likely to involve. It will also allow us to include consideration of the Thames tunnel in the national policy statement for waste water.

The ongoing input of local planning authorities and local stakeholders will be vital. Under the Planning Act, scheme promoters have a duty to consult, and local authorities can make representations if they think promoters have not adequately consulted with local authorities on how they carry out their consultation with local communities. This can result in an application not being accepted as valid by the IPC. Local authorities will also be invited to submit local impact reports as part of the IPC's consideration of applications.

A final decision on whether to direct the project to the IPC will not be made until after planning applications are submitted under the Town and Country Planning Act. I do not expect Thames Water to submit these applications before the autumn of 2011.

Further information on the Thames tunnel and DEFRA'S involvement is available on DEFRA'S website at:

http://www.defra.gov.uk/environment/quality/water/waterquality/sewage/overflows/index.htm

HEALTH

Adult Autism Strategy

The Minister of State, Department of Health (Phil Hope): I am announcing today the Government's intent to publish "Rewarding and fulfilling lives: The strategy for adults with autism in England (2010)" on 3 March. A copy will be placed in the Library and copies will be available to hon. Members from the Vote Office.

The Autism Act 2009 was a unique and groundbreaking piece of legislation which signalled this Government's commitment to improve the lives both of people with autism, and their families—and it has been reinforced by a range of action across Government to boost the profile of autism across public services.

The Autism Act committed the Government to publishing a strategy for adults with autism in England no later than 1 April 2010. We are indebted to the hon. Member for Chesham and Amersham (Cheryl Gillan) and the all-party parliamentary group on autism for their work in bringing forward this legislation.

Autism is a lifelong developmental disability and although some people can live relatively independently, others will require a lifetime of specialist care. There are approximately 400,000 adults with autistic spectrum conditions (ASC) in England, around half of whom have a learning disability.

Service-engendered barriers to education, employment and the wider community bring economic disadvantage, social isolation, and mental and physical ill-health for adults with ASC. Therefore, addressing social exclusion for adults with autism is an issue which demands a collective response from services across the public sector.

The autism strategy will set out very clearly what we want for people with autism, and indeed what they should expect from public services and their communities. This new national strategy is an ambitious statement of intent focusing on five core elements:

> increasing awareness and understanding of autism;
>
> developing a clear, consistent pathway for diagnosis in every area, which is followed by the offer of a personalised needs assessment;
>
> improving access for adults with autism to the services and support they need to live independently within the community;
>
> helping adults with autism into work;
>
> and enabling local partners to plan and develop appropriate services for adults with autism to meet identified needs and priorities.

Each of these areas has its own chapter in the strategy. They have been chosen to reflect the findings of the consultation, the themes emerging from the external reference group which supported the strategy's development and the conclusions of important studies such as the NAO report.

Last year's National Audit Office report (5 June 2009) "Supporting People with Autism through Adulthood", reveals widespread evidence of services not meeting need and made a case that investment in services, particularly to support people with high-functioning autism (including Asperger's syndrome) into employment, would deliver substantial savings to the public purse.

The strategy is a practical document. It starts with a long-term vision, but its core is in laying the foundations for long-term change. The overall approach is shaped by existing policy, in particular:

tackling social exclusion;

personalisation of public services as articulated in "Putting People First";

the emphasis on local solutions to meet local needs;

and above all the emphasis on fair chances and opportunities for all.

These form the backdrop to the strategy and give it much of its underlying direction. More specifically, the strategy recognises the breadth of existing policy and programmes that should deliver better for adults with autism. The strategy focuses on how to make these existing policies work better for adults with autism.

The strategy is reinforced by a range of actions across Government:

we are funding a study giving better data on the prevalence of autism in the adult population;

we will publish, before the end of March, a first-year delivery plan to set out in more detail the timescale for implementation in 2010-2011;

we will launch in early summer consultation on statutory guidance for health and social care bodies to support delivery, and publish that guidance before the end of the year;

there will be a new national programme board to oversee delivery;

we will develop delivery plans for years two and three of the strategy to maintain momentum;

and we will review the strategy in 2013.

I am confident that the strategy marks a key milestone on the journey towards full inclusion and equality for people with autism. But real success will depend, ultimately, not only on transforming services, but on changing attitudes across our society. This is not going to happen overnight. We need to work together to achieve our common goal of full inclusion and equality for people with autism.

HOME DEPARTMENT

"International Challenges, International Solutions: Managing the movement of people and goods"

The Minister for Borders and Immigration (Mr. Phil Woolas): I am pleased to announce the joint publication by the UK Border Agency and the Foreign and Commonwealth Office of "International Challenges, International Solutions: Managing the movement of people and goods". The document represents the close partnership that exists between our Departments and our close co-operation on the international stage to secure our border and control migration for the benefit of our country.

Today's publication updates on progress since our 2007 international strategy and sets out how the UK Border Agency and the FCO will strengthen existing partnerships and develop new ones to continue to deliver our objectives overseas. It also shows how the Government plan to do more to help developing countries to maximise the development benefits of migration and to mitigate the negative effects where they occur.

We have made impressive progress towards the goals we set out in 2007. Our overseas border controls have been strengthened through the increased use of risk and intelligence tools. The introduction of the points-based system has delivered a transparent system which allows us to adapt entry criteria based on economic or labour market conditions in the UK. We have also worked closely with international partners to improve co-operation on the return of migrants who are not entitled to be in the UK.

While our priority is to pursue the interests of the UK, the impacts of migration on other countries cannot be ignored. We are determined to keep improving our migration policies so that we do more to facilitate overseas development. We are considering policies that aim to contribute towards this goal.

Today's publication sets out proposals to use our overseas networks better to manage migration and to protect Britain's borders. Copies will be made available in the Vote Office and the Library of the House.

JUSTICE

Office of the Public Guardian

The Parliamentary Under-Secretary of State for Justice (Bridget Prentice): The Office of the Public Guardian (OPG) supports the Public Guardian in discharging his statutory duties under the Mental Capacity Act 2005.

The following list sets out the key performance targets that have been set for the Office of the Public Guardian for the year 2010-11.

KPI 1: Lasting Power of Attorney/Enduring Power of Attorney

Register and return 90 per cent. of applications for registration of attorneyship within nine weeks of receipt.

Target time for the registration of applications is 90 per cent. in nine weeks. This takes into account the increased numbers of LPAs OPG expects to receive and develops the aim from 2009-10 of 80 per cent. registration in eight weeks of receipt; 90 per cent. in nine weeks is more challenging and provides a better service for a larger number of customers.

KPI 2: Supervision of Deputies

All deputyship cases require the allocation of a supervision regime based on risk assessment:

The time scale to notify new deputies within 20 working days remains the same as last year. However, we have increased the target percentage from 90 per cent. to 95 per cent.. This will improve service to more of our customers.

KPI 3: Supervision of Deputies—Case review

A full case review of all deputyship cases subject to supervision will be carried out at least every three years, and this year the target is to review a minimum of 40 per cent. of cases. A case review could be a combination of, review of annual report; carrying out a visit; and review of supervision level following short-term intervention.

Last year the target was to review 10,000 cases that require intermediate and light-touch supervision during 2009-10. The reviews in the coming year will be more specific to the individual issues within the case, and we see this as a key element to helping deputies understand and appreciate the PG supervisory function.

KPI 4: Investigations

Where concerns are raised about actions of an attorney or deputy we will assess risk in 95 per cent. within two working days. Upon receipt of an investigations case in the relevant team, it is allocated to a specific caseworker. We will conclude 75 per cent. of investigations within three months and 95 per cent. of investigations within six months.

The new element in this KPI is to conclude 95 per cent. of investigations within six months. This provides a challenge to ensure the large majority of cases are concluded within a reasonable timescale.

KPI 5: Finance

Based on the statutory instrument for fees approved by Parliament, we will aim to achieve 100 per cent. full cost recovery.

Full cost is defined as:

The total cost of carrying out the provision of services to the taxpayer, less social subsidy/fee remission; financial losses over and above a yearly notional premium; in-year bad debts write-off and exceptional items.

KPI 6: Customer Satisfaction

Achieve 70 per cent. customer satisfaction with OPG service delivery.

This is a new measurement to ensure the OPG maintains and improves the quality of service to its customers.

Copies of the Office of the Public Guardian business plan have been deposited in the Libraries of both Houses. It is also available from the OPG website (www.publicguardian.gov.uk).

Written Ministerial Statements

Tuesday 2 March 2010

ENERGY AND CLIMATE CHANGE

Household Energy Management

The Secretary of State for Energy and Climate Change (Edward Miliband): Together with my right hon. Friends the Secretary of State for Communities and Local Government and the Minister for Housing, I am publishing today "Warm Homes, Greener Homes: A strategy for Household Energy Management", which sets out the strategy for improving energy efficiency in people's homes through to 2020. Copies of the document will be placed in the Libraries of the House.

Improving domestic energy efficiency helps people to make their homes more comfortable, to save money on their energy bills and to reduce greenhouse gas emissions. This strategy sets out a comprehensive approach to helping people do that across all tenure types.

The strategy will deliver greenhouse gas emissions savings of at least 4 million tonnes of CO_2 per annum by 2020, ensuring the UK hits its target of cutting emissions from households by 29 per cent. by 2020.

The strategy sets out our commitment to support people to install cavity wall and loft insulation in every home where practical to do so by 2015, while increasing the volumes of more significant insulation measures. We will help people to install eco-upgrades to their homes—which go beyond basic measures to include solid wall insulation and/or micro-renewable energy generation—in up to 7 million homes by 2020, on the way to ensuring that all homes have benefited from energy efficiency measures by 2030. There will be particular support for vulnerable groups.

To deliver against these objectives, the strategy sets out a new policy framework. This reflects the fact that the existing obligation for suppliers to support energy efficiency measures is due to expire at the end of 2012, and also the new challenges that need to be overcome to meet our stretching ambitions.

The strategy has four elements:

An enhanced role for local authorities, including a requirement on energy companies to partner with councils to deliver local area-based programmes and further support for district heating;

New financing mechanisms, including an obligation on energy companies to support people to improve their energy efficiency and plans for legislation to enable households to install measures without upfront costs, with repayments made out of the savings in energy bills;

Universal standards for the rented sector, including a new warm homes standard for social housing to complement decent homes and plans for regulation of the private rented sector;

Support for consumers in understanding their options, including a universal advice service, new standards for installation, and plans to make better use of the energy performance certificate.

We estimate that the implementation of this strategy will help support around 65,000 jobs in 2020 in the installation and manufacture of insulation and micro-generation, with further jobs created in the wider supply chain.

The proposals in this strategy signal a step change in the level of ambition for the household sector over the next decade that will put the country on track to meet our carbon targets while at the same time saving families money on their fuel bills, creating jobs and helping to secure our energy supplies.

FOREIGN AND COMMONWEALTH OFFICE

EU General and Foreign Affairs Councils

The Minister for Europe (Chris Bryant): The General Affairs Council (GAC) and Foreign Affairs Council (FAC) were held on 22 February in Brussels. My right hon. Friend the Foreign Secretary represented the UK.

The agenda items covered were as follows:

FOREIGN AFFAIRS COUNCIL

The full text of all conclusions adopted, including 'A' points, can be found at:

http://www.consilium.europa.eu/uedocs/cms_data/docs/pressdata/EN/foraff/112999.pdf

Haiti

High Representative Ashton gave a positive assessment of the EU's contribution and announced that she would travel to Haiti soon, together with Humanitarian Commissioner Georgieva. The Commission said it would release €5 million (£4.39 million) in budget support within the next few days, rising to €50 million (£43.9 million) in the remainder of 2010; and was committing a further €90 million (£79.1 million) in humanitarian assistance, on top of the €30 million (£26.4 million) already committed, probably primarily for areas outside Port-au-Prince.

The High Representative proposed that the March FAC agree conclusions giving her the mandate to represent the EU at the donors' conference in New York in late March; and that the EU should offer a significant long-run reconstruction package at the conference. Ideas for increasing EU visibility would also be discussed. The Government broadly welcome this approach.

Iran

At the High Representative's request, the Foreign Secretary introduced the discussion. He highlighted that the EU needed to pursue the dual track policy and also increase the pressure in relation to human rights, whilst the E3 plus 3 pursued work on the new UNSCR. Ashton concluded that there was a high degree of consensus around several recommendations: including that the dual-track policy should be pursued "calmly and steadily"; and that the EU should be ready to support the UN track. The Government strongly endorse this approach.

MEPP

This item was dropped from the FAC agenda.

Ukraine

The High Representative welcomed the conduct of the Ukrainian presidential elections. The Commission presented initial proposals for engagement with the new President that set out the reforms required and the EU support on offer. Following a discussion of these proposals, the High Representative noted the support from many member states to engage strongly with the new Ukrainian team, but also the need for progress with reforms on the Ukrainian side. The Government strongly support this approach.

AOB: Afghanistan

The High Representative gave an update on the appointment of an EU special representative to Afghanistan. Once the process is completed, the successful candidate would be double-hatted as the head of the EU delegation in Kabul.

AOB: Belarus

Poland raised the ongoing repression of Belarus' Polish minority. The Commission noted that it had already lobbied the Belarusian Foreign Minister. The High Representative said that the FAC would return to this issue.

AOB: Dubai/passports

Ministers agreed a statement on the killing of Mahmoud al-Mabhouh in Dubai on 20 January. It condemned the fact that those involved in the operation had used passports and credit cards which had been fraudulently acquired through the theft of EU citizens' identities. The Government strongly support the statement. The Foreign Secretary said that the EU needed to think hard about how it could promote peace and stability in the region, because the longer this was left unaddressed, the greater the risk of individual incidents such as this spilling over.

AOB: Libya/Switzerland/visas

Malta, Italy and Spain briefed Ministers on the Libya/Swiss bilateral dispute, which had prompted Libya to refuse visas to citizens of all Schengen countries, including many EU member states. The High Representative concluded that Libya's actions had been disproportionate, and encouraged the Swiss to resolve the matter diplomatically.

AOB: Madeira

Portugal briefed Ministers on the recent flooding and landslides in Madeira. The High Representative said that she was keen to offer Portugal such assistance as possible.

AOB: Niger

The Council discussed briefly the coup d'état in Niger on 18 February and called for the swift restoration of democracy and constitutional order.

GENERAL AFFAIRS COUNCIL

The full text of all conclusions adopted can be found at:

http://www.consilium.europa.eu/uedocs/cms_data/docs/pressdata/EN/genaff/112998.pdf

Preparation of the European Council, 25-26 March

The European Council agenda will consist of the Europe 2020 strategy for jobs and growth and climate change. The Government welcome the presidency's choice of topics. The UK agreed that leaders needed continuously to pay attention to economic policy—but in order to make sure that a strategic view and assessment of progress could be made, a dedicated annual economic summit was needed; otherwise, the risk was that strategic consideration of economic policy would be derailed by events. The presidency expressed the need for progress on Europe 2020 at the spring European Council, to show that the EU could deliver for its citizens.

Climate change

The new Climate Action Commissioner, Connie Hedegaard, set out her intentions for European climate policy in the wake of Copenhagen, placing particular emphasis upon the need for better co-ordinated outreach to the major international players. Many member states called for the maintenance of the EU's ambition on climate, for the speedy operationalisation of the Copenhagen accord, and for delivery of the promised fast-start funding, all of which are in line with the UK position.

Dinner with President van Rompuy

The discussion covered the 11 February informal European Council and preparations for the spring European Council. President van Rompuy expressed satisfaction with the 11 February summit, although the dominance of economic issues had left work unfinished on climate change and Haiti, which the GAC and European Council would need to follow up.

A points

The Council adopted the following conclusions or decisions without discussion:

Council conclusions on Zimbabwe

Council conclusions on the Republic of Moldova: Restrictive measures against the leadership of the Moldavian region of Transnistria

Council decision extending restrictive measures against the leadership of the Transnistrian region of the Republic of Moldova

Relations with Morocco: Adoption of the EU position in view of the EU-Morocco summit

Relations with the Kyrgyz Republic: Establishment of the EU position for the 11th meeting of the EU-Kyrgyz Republic Co-operation Council

HEALTH

Future of Nursing and Midwifery

The Secretary of State for Health (Andy Burnham): Today, on behalf of the Government, I welcome formally the report from the Commission on the Future of Nursing and Midwifery in England.

The commission, chaired by my hon. Friend the Under-Secretary of State for Health, the hon. Member for Brentford and Isleworth (Ann Keen), was established by the Prime Minister in March 2009 to take a visionary look at how to maximise the contribution of nurses and midwives to the health of the nation in the future.

It undertook an extensive engagement exercise, hearing the views of many thousands of nurses, midwives, patients, and members of the public across England and its report, "Front Line Care", sets out proposals to ensure that the nurses and midwives of the future are at the heart of designing and delivering 21st century health services.

I welcome the messages in the report that the fundamentals of patient care should always remain the core responsibility of nurses and midwives, but also that responsibility for care needs to go right through to the board.

I would like to place my thanks on record to the commission for the work that has led to this report.

My Department and I will consider the contents of the report in detail, and will formally respond in due course.

I am placing a copy of the report in the Library and copies are available to hon. Members from the Vote Office.

INTERNATIONAL DEVELOPMENT

Bangladesh Development Forum

The Parliamentary Under-Secretary of State for International Development (Mr. Michael Foster): The Government of Bangladesh held a high level Bangladesh Development Forum (BDF) meeting in Dhaka on 15-16 February 2010. It was the first such event since 2005, and it took place one year after the current Government took office. The objective of the forum was for the Government to share, and discuss with development partners, their long-term plan to reach middle income status by 2021 (Vision 2021); the content of their new national strategy for accelerated poverty reduction; and their proposed reforms and delivery priorities.

The forum was widely hailed as a success. Prime Minister, Sheikh Hasina, opened the event, her speech referring specifically to the need for healthy democracy, decentralisation, transparency and anti-corruption. She highlighted the climate change challenge, called for speedy action on Copenhagen "fast-start" finance and emphasised the importance of women's empowerment and gender equity. Her presence increased the profile of the event, attracting substantial national media attention.

Six business sessions covered: development strategies, governance and human development; power and energy; agriculture, food security and water resources; environment and climate change; transport and communications; and "Digital Bangladesh and ICT development". The Minister of Finance A.M.A. Muhith chaired all six business sessions, supported by Economic Adviser to the Prime Minister Moshior Rahman and a number of cabinet ministers and secretaries. The event was well attended by development partners, including 36 development agencies and donors, and more than 80 civil society and private sector representatives. Bangladesh was congratulated on its progress towards the millennium development goals, on its sustained economic growth, and on its climate change strategy.

Improving delivery was at the heart of all discussions, with governance issues—the need for institutional and policy reforms, local government strengthening, improved implementation capacity and reduced corruption—and climate change featuring prominently. The importance of regional links in power, trade, transport and communications, and the need to create a better investment climate in Bangladesh was emphasised. The Finance Minister reaffirmed the Government's determination to increase domestic revenue mobilisation and improve budget implementation.

Commitments were captured in a "BDF agreed action plan", outlining 25 concrete actions for Government to be supported by development partners. The potential for increased transparency and aid effectiveness was boosted by the Government's endorsement of the joint co-operation strategy, produced collectively by 32 development partners operational in Bangladesh and centred around the Paris declaration on aid effectiveness and Accra agenda for action.

The themes emerging from the BDF endorsed the direction the UK's country plan for Bangladesh (2009-2014) is already taking, with our development efforts focused on building effective Government systems and strengthening the political system; improving the delivery of services; working with the private sector to create jobs; and helping the country live with climate change. Future programme direction and ongoing implementation of the existing portfolio will be guided by the BDF outcomes and framed by the joint co-operation strategy.

The Government of Bangladesh used the event to dismiss reports—in the UK and Bangladesh—of a dispute over climate change funding. The Government confirmed their desire to establish a climate change multi-donor trust fund, with grant funding committed from the UK, the European Union and Denmark. The fund will by led by the Government with the World Bank providing technical back-stopping and fiduciary management.

As co-chair of the Local Consultative Group, which represents development partners in Bangladesh, the UK played a central strategic role in preparing for the forum and steering the event. We will continue to work closely with the Government of Bangladesh to ensure that the next steps outlined in the action plan are implemented.

JUSTICE

Bernard Lodge Inquiry

The Parliamentary Under-Secretary of State for Justice (Claire Ward): Today I have laid before Parliament the Government response to the report of the Inquiry into the death of Bernard Lodge, who died at HMP Manchester on 28 August 1998. I published the report of the inquiry on 15 December 2009.

The National Offender Management Service is committed to learning lessons from all deaths in prison custody.

TRANSPORT

Taxi and Private Hire Vehicle Licensing

The Minister of State, Department for Transport (Mr. Sadiq Khan): The Department has published today a revised version of its best practice guidance for taxi and private hire vehicle (PHV) licensing authorities.

A copy has been placed in the Libraries of the House.

The purpose of the guidance is to assist licensing authorities in carrying out their taxi and PHV licensing functions.

The key aim of the guidance is to ensure that the decisions which licensing authorities make deliver a good and safe service to the public having taken account of all the factors involved, including, for example, the effect on the supply of taxis and PHVs of unnecessary rules and restrictions.

Publication of guidance was initially recommended by the Office of Fair Trading in the context of their market study in 2003. The first guidance was published in 2006. This revised version takes account of comments received as part of a consultation exercise in 2009.

Urban Challenge Fund

The Minister of State, Department for Transport (Mr. Sadiq Khan): I am announcing today the Government's plans for a new urban challenge fund designed to support local authorities in delivering economic growth and improving the health and environment for local communities in urban areas.

The Prime Minister's strategy unit report on urban transport and the DFT response "The Future of Urban Transport", published in November 2009, identified a range of transport challenges faced by our cities. It estimated the cost of congestion, in delays and unreliability suffered by road users, to be of the order of £12 billion a year. The PMSU report also indicated that the measurable costs to society of poor air quality, inactivity leading to obesity, and road accidents in urban areas, are each similar to those of congestion. The evidence from the PMSU report is that initiatives geared to tackling the various challenges simultaneously better would achieve "triple win" outcomes in terms of economic growth, improvements to health, and improvement to the urban environment. This new fund will support forward-looking cities and local authorities in delivering these outcomes.

The aim of the new fund will be to deliver clear and measurable benefits for urban areas in terms of:

enhanced mobility, through offering people wider choices for their journeys;

reduced congestion and increased journey time reliability;

better health as a result of improved safety and much greater levels of walking and cycling;

streets and public spaces which are enjoyable places to be, where exposure to harmful emissions is reduced, and where quality of life is transformed;

improved safety; and

reduced level of carbon emission from transport.

The fund will support packages of measures designed to deliver all of these benefits. The packages are likely to include a combination of sustainable travel measures, investment to encourage modal shift and better bus services alongside demand management measures, better and city-wide traffic management and improved street design. Acting together, these measures will deliver a step change in the local economy, the health of urban residents and the environment they enjoy.

The new fund will replace the transport innovation fund. Work by a number of authorities showed that a combination of measures was necessary to tackle the problem of congestion and could deliver wider benefits to local communities, the urban economy and environment. TIF also encouraged new thinking in a number of areas, for example on a phased and incremental approach to demand management. Its weaknesses lay in its too narrow a focus on the issue of congestion, the failure to win public acceptance for the more challenging proposals, and inability to transform governance at the same time as delivering radical change. The new fund will draw on the lessons from TIF and the new ideas that have come forward.

Sustainable travel measures will be a key component of the packages supported by the new fund. The sustainable travel towns initiative has shown that small-scale, relatively inexpensive measures can deliver significant reductions in car trips, increases in bus use, walking and cycling and consequential improvements in health. In order to achieve best value from available resources, the sustainable travel programme for cities will be absorbed into the urban challenge fund. While there will be no separate fund for cities, we would expect these sorts of measures to form part of a wider package of interventions, and deliver even greater benefits than those already achieved through the sustainable travel towns initiative.

The Department will be considering the future of our current congestion performance fund and targets with a view to ensuring there is an integrated approach to addressing all of the challenges in urban areas.

Funding for the urban challenge fund will be top-sliced from the Department's overall funding allocation following conclusion of the next comprehensive spending review.

I am publishing today also a discussion paper inviting comments on the new urban challenge fund. Copies of the discussion paper are being placed in the House Libraries and will also be available on the Department for Transport's website.

WORK AND PENSIONS

National Employment Savings Trust

The Minister for Pensions and the Ageing Society (Angela Eagle): Today is another important milestone for the delivery of workplace pension reform. The Personal Accounts Delivery Authority (PADA) has completed its procurement for the scheme administration services for NEST, and will award that contract to Tata Consultancy Services Limited (TCS) later today. PADA plans to sign the contract with TCS later this month.

The 10-year contract has two stages. The first stage runs to October 2010, and enables TCS to begin the activity required to set up and administer NEST. A further decision will be made by October on whether to proceed with the second stage contract for the remainder of the contract term. The contract also includes possible extensions for up to a further five years.

NEST is a critical part of the Government's pension reforms and, as one of the pension schemes employers will be able to use to fulfil their automatic enrolment duties, will play a major role in supporting low to moderate earners in saving for their retirement.

PADA's priority has been to secure value for money for future NEST members. I am satisfied this contract achieves that objective, and we remain on track to deliver the reform package from October 2012.

Written Ministerial Statements

Wednesday 3 March 2010

FOREIGN AND COMMONWEALTH OFFICE

Zimbabwe: EU Targeted Measures

The Secretary of State for Foreign and Commonwealth Affairs (David Miliband): I wish to inform you that on 15 February 2010 the EU decided to extend for one year its targeted measures on Zimbabwe. These comprise an arms embargo, travel ban and assets freeze, with small modifications detailed below. The EU decision is entirely consistent with the UK's Zimbabwe policy: to support reform in line with Zimbabwe's global political agreement.

We have monitored closely the progress of the Inclusive Government since its formation in February 2009, drawing on a wide range of evidence. It has made progress on economic reform: stabilising the economy, improving public financial management and working effectively with the international financial institutions. By contrast, progress on political reform has been slow. A number of key reforms outlined in the global political agreement, which underpins the Inclusive Government, have not been met. These include reform of the media, security apparatus, judiciary, constitution and electoral system. Human rights violations continue, including the harassment of civil society activists, farm seizures and restrictions on the freedom of speech and assembly.

In response to economic reform in Zimbabwe, the EU decided to modify its targeted measures, which it lifted on eight state-owned companies that are now adequately supervised by the Inclusive Government and no longer cause concern (Industrial Development Corporation of Zimbabwe, Zimbabwe Iron and Steel Company, ZIMRE Holdings, ZIMRE Reinsurance Company, ZB Financial Holdings, ZB Holdings, Scotfin and Intermarket Holdings). The EU also lifted its targeted measures on five individuals and one company which no longer met EU criteria for inclusion on the list (Richard Hove, Joseph Msika, Vitalis Zvinavashe, Dumiso Dabengwa, Thamer Al-Shanfari and Oryx Diamonds Ltd).

The EU continues fully to support the ongoing efforts of reformers in the Inclusive Government to bring positive change to Zimbabwe, and of South Africa and the Southern African Development Community to support those endeavours. It remains ready to ease its targeted measures in response to further implementation of the reforms outlined in the global political agreement.

For its part, the UK will continue to play a full role in international efforts to support the Inclusive Government in delivering better services to its people and in preparing for free and fair elections. This year we will provide £60 million in aid to Zimbabwe, the highest level ever.

JUSTICE

Legal Aid (Expert Witness Fees)

The Parliamentary Under-Secretary of State for Justice (Bridget Prentice): My noble Friend, the Under-Secretary of State, Lord Bach, has made the following written ministerial statement:

> Following a consultation process, the Government today announce the launch of a new project to review current fee arrangements and deliver new fee structures for professional expert witnesses.
>
> A central working group of key stakeholders involved in experts work will shortly be established to help MoJ gain a greater understanding of the range of work which experts do and how this is currently remunerated. In conjunction with this, a further group of experts will be asked to contribute to a wider reference group.
>
> The new project follows the MoJ's careful consideration of the feedback received to the earlier consultation "Legal Aid: Funding Reforms" where the Government proposed exploring the concept of fixed fees and hourly rates for experts work.
>
> As a result of the wide range of responses received from experts, legal practitioners and other representative bodies, the Government have decided that additional analysis of this complex area is needed to ensure that any future fee structures are both sustainable and fair.
>
> By seeking greater control over expert fees, the Government aim to reduce disbursement spend to a more sustainable level, while maintaining access to justice through the provision of key expert evidence.
>
> It is intended that the project will report to Ministers with proposals for a new fee structure within six months.
>
> Copies of "Legal Aid: Funding Reforms Part Three Experts' Fees—Response to Consultation" have been placed in the Libraries of both Houses.

Legal Aid

The Secretary of State for Justice and Lord Chancellor (Mr. Jack Straw): I am publishing today the report of Sir Ian Magee's review into legal aid delivery and governance and announcing the Government's decision to move the Legal Services Commission (LSC) to an executive agency of the Ministry of Justice (MoJ).

I asked Sir Ian to conduct this review, which was announced in October 2009, to ensure that the legal aid budget is delivering value for money, providing a healthy and sustainable future for social welfare advice as well as considering how best to position and protect the civil fund from the criminal fund. I am extremely grateful to Sir Ian for his work.

Sir Ian's report makes a number of recommendations to strengthen and improve the legal aid system including actions to strengthen governance and accountability arrangements, streamline policy and to establish a more rigorous approach towards legal aid fund forecasting and financial management. His report includes the option of moving the LSC to an executive agency.

It is 10 years since the LSC was established and in that time there have been considerable changes in the type of legal advice and services that the public needs. The UK has one of the most generous legal aid schemes in the world and the Government are committed to ensuring legal aid is managed effectively so that more people are able to access it to resolve their legal problems. In the current climate, it is even more important that this public money is managed efficiently and effectively.

It is the right time to make some meaningful changes now that will help us protect and sustain the world-class legal aid service that we are so proud to deliver to England and Wales. The Government believe that an executive agency is the best option for the delivery of legal aid and a Bill will be brought forward as soon as parliamentary time allows. Over the coming weeks, we will consider Sir Ian's other recommendations which will be taken forward in parallel with the move to agency status.

The change in status will see a new and stronger relationship between the MoJ and the LSC and tighter financial control over the £2.1 billion budget, which allows the MoJ to help control and address some of the financial problems that have been noted over the past year. It also presents an opportunity for the Government to consider Sir Ian's other options for structuring the delivery of legal aid, including through devolving budgets, to help protect funding for social welfare legal advice from rising demand for criminal legal aid.

Alongside today's publication, the chief executive of the LSC, Carolyn Regan, has announced her resignation to allow for new leadership during a time of change for the organisation. Carolyn Regan has served as the chief executive of the LSC for three and a half years.

Conditional Fee Agreements

The Secretary of State for Justice and Lord Chancellor (Mr. Jack Straw): Further to my written ministerial statement on 19 January 2010, *Official Report*, column 14WS, I have published today the Government's response to the consultation paper entitled "Controlling Costs in Defamation Proceedings—Reducing Conditional Fee Agreement Success Fees". As the response sets out, the Government have decided to proceed with the proposal to reduce the maximum success fee which can be claimed in Conditional Fee Agreements (CFAs) in defamation cases to 10 per cent. I have laid an affirmative order before Parliament today to achieve that.

Our consultation paper sought views on the Government's interim proposal to reduce the maximum CFA success fee in defamation cases while we consider Sir Rupert Jackson's substantial report, "Review of Civil Litigation Costs", published on 14 January, for longer-term reform.

As the consultation paper recognised, high legal costs in defamation cases—particularly in defending claims brought under a CFA with 100 per cent. success fees—may have a harmful effect on freedom of expression. This affects not only the media, but also scientific and academic debate.

The consultation closed on 16 February. A total of 57 responses were received, including from legal professionals and their representative organisations, members of the judiciary, media organisations and from legal insurance groups. More than half (53 per cent.) of those who responded supported the proposal to reduce the maximum CFA success fee in defamation cases to 10 per cent. The response paper summarises the responses received and the Government's conclusions.

Since that consultation closed, the Culture Media and Sport Committee has published the report of their inquiry into press freedom, libel and privacy (on 24 February 2010). The Committee agrees with our proposal that the impact of success fees on defendants should be capped at 10 per cent. However, the Committee considers that recoverability—rather than the success fee itself—should be capped at 10 per cent.

The Government are actively assessing the implications of Sir Rupert's recommendations, and will announce how they are to be taken forward in due course. The Government are also considering the Committee's report and will respond to the Committee's recommendations shortly. However, in the meantime we are minded to implement the proposal to reduce the maximum CFA success fee in defamation cases to 10 per cent. immediately as an interim measure so that the specific concerns around high costs in defamation cases can be addressed urgently.

I have therefore today laid the Conditional Fee Agreements (Amendment) Order 2010 before Parliament so that the success fee reduction can come into force as soon as possible subject to parliamentary approval. The order will apply to CFAs in respect of defamation cases entered into after the date on which the order comes into force.

Copies of the response paper will be placed in the Libraries of both Houses and on the Department's website at: www.justice.gov.uk.

NORTHERN IRELAND

Decommissioning

The Secretary of State for Northern Ireland (Mr. Shaun Woodward): I have received the report of the Independent International Commission on Decommissioning (IICD) on their activity over the last six months, up to the end of the British and Irish decommissioning amnesties. I have placed a copy of the report in the Library.

I pay tribute to the tireless work of the IICD over the last 12 years in securing this progress. Their contribution has been a central part of the peace and political process over many years. The people of Northern Ireland will be safer with these illegal arms out of circulation.

Now that the decommissioning amnesties have expired, I will discuss the finalisation of the IICD's work with the Irish Government and with the IICD. The two Governments will be asking the IICD for a report covering the whole of their 12 years experience and, of course, a report on armaments decommissioned. I will need to discuss the scope and timing of the report with the IICD and the Irish Government. John de Chastelain and his team have an enormous wealth of experience and wisdom that needs to be properly captured and understood before we finally end their role.

Non-Jury Trial (Northern Ireland)

The Minister of State, Northern Ireland Office (Paul Goggins): During the passage of the Justice and Security (Northern Ireland) Act 2007 commitments were given that a statement would be made to Parliament each year on the volume of non-jury trial cases under the legislation. This is the second such statement.

During the period 1 August 2008 to 31 July 2009 inclusive, the Director of Public Prosecutions for Northern Ireland issued 13 certificates. This is fewer than the 29 certificates issued during the first year of operation of the system, but indicates that there are still a number of cases in which the Director of Public Prosecutions was satisfied that the administration of justice might be impaired if the trial were to be conducted with a jury.

There will be a review of the non-jury trial system, including a full public consultation, before it next falls to be renewed in July 2011.

TRANSPORT

Powered Mobility Scooters and Powered Wheelchairs

The Minister of State, Department for Transport (Mr. Sadiq Khan): I am announcing today the publication of the consultation on proposed changes to the laws governing the use of powered mobility vehicles and powered wheelchairs (referred to as "invalid carriages" in legislation). Copies of the consultation and impact assessment have been placed in the Libraries of the House.

The primary legislation governing mobility vehicles is the Chronically Sick and Disabled Persons Act 1970 (section 20). The Use of Invalid Carriages on Highways Regulations 1970 introduced the requirements for a powered invalid carriage with a speed not exceeding 4 mph (a class 2 vehicle is primarily for use on the pavement). The Use of Invalid Carriages on Highways Regulations 1988 brought in additional requirements for a class 3 vehicle which can travel up to 8 mph on the road but must be limited to 4 mph on pavements.

A review of class 2 and class 3 vehicles was carried out on behalf of the Department for Transport in 2005. It estimated that there were between 70,000 and 100,000 vehicles in use. More recent information from the national travel survey, however, suggests that there may now be up to 330,000 people who have access to a mobility vehicle. The review also made some key recommendations: that vehicle users should have third-party insurance; that a simple fitness to drive assessment be developed; and that vehicle users should receive more advice and training in the use of mobility vehicles.

The 12-week consultation seeks views on a series of possible changes to existing legislation. The proposed changes are largely designed to make mobility vehicles safer when they are used on the footway and on the carriageway, and to improve redress when, very occasionally their use injures people. The main areas that the consultation addresses are: the legal classification; design standards, including the permitted unladen weights limits and safety features; possible reforms relating to vehicle users, including better information provision, training and fitness to drive, insurance and the registration of mobility vehicles.

Written Ministerial Statements

Thursday 4 March 2010

TREASURY

Equitable Life

The Chief Secretary to the Treasury (Mr. Liam Byrne): I can today provide an update to the House on Sir John Chadwick's work in advising the Government on the establishment of an ex gratia payment scheme for Equitable Life policyholders.

Sir John published his second interim report on 16 December 2009. He has since received a range of representations on the questions raised, and is today publishing his third and final interim report, which sets out:

> Sir John's provisional view on which life companies are suitable as a basis for a comparator in the assessment of relative loss resulting from accepted maladministration.
>
> His provisional views as to what factors the Government may wish to take into account when considering those policyholders who have experienced disproportionate impact from the accepted maladministration, and
>
> A comprehensive annex detailing initial quantitative advice from Sir John's actuarial advisers, Towers Watson.

Sir John would welcome final representations and comments from all parties on the issues raised in his latest report by 9 April 2010.

The Government are committed to establishing a fair payment scheme as quickly as possible. Sir John expects to submit his final report in May 2010, and the Government have undertaken to provide a response, setting out details of a payment scheme, within 14 days of its publication.

COMMUNITIES AND LOCAL GOVERNMENT

Town and Country Planning

The Parliamentary Under-Secretary of State for Communities and Local Government (Mr. Ian Austin): One of the consequences of the 2010 non-domestic rate revaluation, which comes into effect on 1 April, is that certain thresholds linked to rateable value limits also have to be raised so that small businesses are not disadvantaged.

I am therefore announcing today that we intend to raise the annual rateable value limit below which the owners of small businesses can serve blight notices and claim other types of compulsory purchase compensation. The limit was previously raised to £29,200 at the time of the 2005 revaluation, and it will now be raised to £34,800 from 1 April 2010. This reflects the changes in rateable values between 2005 and 2010, so that businesses which are currently eligible to serve a blight notice will continue to be able to do so when the new rating lists come into effect.

The same threshold also applies for businesses claiming compensation for loss of value under part 1 of the Land Compensation Act 1973 when their premises are affected by physical factors such as noise, vibration, fumes and artificial lighting from new public works such as highways and aerodromes.

This threshold also applies under the 1973 Act to enable proprietors aged at least 60 to claim disturbance compensation on the basis of the total extinguishment of their business when they are subject to a compulsory purchase order. This allows claimants of that age to retire if they do not want to re-establish their business elsewhere.

The Town and Country Planning (Blight Provisions) (England) Order 2010 (SI No: 2010/498), which is the Statutory Instrument necessary to achieve the change to the rateable value limit, will be laid today in order for it to come into force on 1 April.

HEALTH

GP Practices (Registration)

The Secretary of State for Health (Andy Burnham): In a great NHS, everybody should be able to choose the best and most convenient service for themselves and their families. We believe people should have the freedom to choose their own GP practice, and not be faced by artificial restrictions, like practice boundaries, that limit choice.

Our overriding objective is to deliver the best possible service to patients. People want healthcare that is more personalised and convenient, so primary care services must respond to provide this.

The Department is commencing today a national consultation on the proposals to enable people to register with a GP practice of their choice. The proposals have been developed following a period of initial engagement with stakeholders from the NHS, professional groups, and patient representatives.

Most people are likely to want to continue to be registered with a local GP practice that can offer home visits when necessary and is well placed to co-ordinate care with other local agencies. The proposals in the consultation document are designed to build on these existing strengths of general practice and indeed give people a greater choice of local GP practices.

In a smaller number of cases, some people may want to choose a GP practice further away from home, for instance near their workplace, that enables them to have more convenient access to primary care and to have greater continuity of care than they have at present. The options in the consultation look in particular at the issues involved in arranging home visits, where needed, for people in this group, together with issues of access to urgent care, co-ordination of community-based services, access to hospital and specialist treatment and patient records.

The options identified in relation to home visiting arrangements are:

> GP practices to continue to have responsibility for home visiting for local patients. PCTs will make arrangements to provide home visits, where necessary, for patients who register further away from home;
>
> maintain the requirement for GP practices to provide or secure home visits for all patients on their list, regardless of where they live;
>
> allow patients to register with two separate GP practices; or
>
> remove all home visiting obligations from GP practices and make PCTs responsible for establishing home visiting arrangements.

The consultation document recommends the first of these options. It would allow people to register with any GP practice in England with an open list. There would be a simple set of principles to distinguish between the majority of patients who are registering locally (where the local GP practice would retain the duty to provide or secure home visits where necessary) and a small number of patients who are registering further away from home (for whom other home visiting arrangements would be needed).

A copy of the consultation document has been placed in the Library and copies are available for hon. Members from the Vote Office.

HOME DEPARTMENT

Immigration and Asylum (War Crimes)

The Minister for Borders and Immigration (Mr. Phil Woolas): The Race Relations (Immigration and Asylum) (War Crimes etc.) Authorisation 2007 enables the Secretary of State to subject certain applications to more rigorous scrutiny than he subjects like applications from persons of other nationalities to, for the purposes of determining whether the applicant has committed, or been complicit in the commission of, or otherwise been associated with the commission of war crimes, crimes against humanity or genocide.

The condition for subjecting these applications to more rigorous scrutiny is that the applicant is a national of a state specified on a list approved personally by the Minister for the purpose of the authorisation.

I have now reviewed and approved this list in accordance with our commitment to do so annually. I am satisfied that the conditions set out in the authorisation are met in respect of the countries on the list.

The authorisation will continue to be reviewed on an annual basis and will remain in force until revoked.

JUSTICE

Arrest Warrants (Universal Jurisdiction)

The Secretary of State for Justice and Lord Chancellor (Mr. Jack Straw): The Government are concerned about the implications for the United Kingdom's relations with other states of the risk that foreign visitors to this country might be arrested on the application of a private individual, on suspicion of the gravest of offences, on the basis of evidence that might well be insufficient to gain the Attorney-General's consent (which is normally required for offences of this kind to be prosecuted), or to secure a conviction by a jury.

The problem is not hypothetical, as applications for an arrest warrant have been made, on at least two occasions successfully; and there is reason to believe that the risk of arrest may discourage prominent people, with whom HM Government would wish to engage, from visiting this country.

The problem arises as a result of four factors:

> (1) The jurisdiction of the courts in England and Wales is basically territorial—with some exceptions they try only offences committed here. However, war crimes under the Geneva Conventions Act 1957, and a small number of other grave offences, are subject to "universal jurisdiction" which enables them to be prosecuted here even though they were committed outside the United Kingdom by someone who is not a British national.
>
> (2) It is open to any private individual to initiate criminal proceedings, including for universal jurisdiction offences, by applying to a magistrate for a summons or an arrest warrant.
>
> (3) The evidence required for the issue of a summons or warrant is far less onerous than that applied by the Crown Prosecution Service (CPS) in determining whether a prosecution should go ahead. The court's duty is to ascertain that it has jurisdiction; it then looks to see if there is some prima facie information that an offence known to the law has been committed by the person named. The court does not need to decide that there is a realistic prospect of conviction.
>
> (4) For almost all universal jurisdiction offences there is a safeguard in that the consent of the Attorney-General is required in order for a prosecution to go ahead. But while a summons will not be issued until the necessary consent has been given for the prosecution to proceed, absence of consent does not prevent the issue of an arrest warrant.

The facility for seeking an arrest warrant in these circumstances without the prior consent of the prosecutor is unusual. It is paralleled in only a very few other jurisdictions of which we are aware. In most jurisdictions prosecutorial consent is required.

The Government have considered this matter very carefully. They have concluded that there is a case for restricting to the CPS the right to prosecute this narrow range of universal jurisdiction offences, in circumstances where the offence is alleged to have been committed outside the United Kingdom by a person who is not a British national. The effect of this change—which would require legislation—would be that in such cases it would no longer be possible for anyone other than the CPS (or the Law Officers) to obtain an arrest warrant. This would ensure that action is taken only where the expert and independent investigators and prosecutors in the police and CPS are confident that there is a realistic likelihood of a successful prosecution.

Our commitment to international justice is a strong one. This is why, by section 70 of the Coroners and Justice Act 2009, we recently amended the International Criminal Court Act 2001 to ensure that we could prosecute serious international crimes committed as far back as 1991 by UK nationals and residents, thus covering the horrific events in Rwanda and the former Yugoslavia. We remain absolutely committed to upholding the principles of universal jurisdiction, so that there can be no impunity for those suspected of such grave offences. What we propose is wholly consistent with those principles, and would bring us into line with the practice of a number of our European and North American partners.

The Government recognise that this is a controversial issue, involving as it does the long-standing right of private prosecution. Therefore, rather than legislating now, we are going to seek views on the proposals we are minded to make. In particular, I am writing to the Chairman of the Justice Select Committee to ask if his Committee would consider those proposals. We intend to conclude this process within a month, and to receive views by Tuesday 6 April. A copy of my letter to the Chairman will shortly be placed in the Libraries of both Houses.

Written Ministerial Statements

Friday 5 March 2010

CHILDREN, SCHOOLS AND FAMILIES

Pupils with Severe, Profound and Multiple Learning Difficulties (Teachers)

The Secretary of State for Children, Schools and Families (Ed Balls): On 28 September 2009 I asked Toby Salt to carry out a review to identify key barriers to the supply of adequately trained teachers for pupils with severe, profound and multiple learning difficulties (SLD and PMLD), and opportunities to improve this supply for the future.

This is an important and timely review, which is a vital part of the Government's wider significant investment in the SEN sector. I am very grateful for Toby Salt and his review team's swift and thorough work on this.

The report calls for more to be done to attract and retain specialist teachers to meet the growing demand for their skills, and to build the next generation of teachers with specialist skills. The evidence in the report highlights examples of existing good practice and specialist training, but also significant gaps in specialist knowledge and skills, and opportunities to acquire these, which it recommends be addressed urgently. These include:

improving the range of specialist opportunities offered to trainee and newly qualified teachers, to encourage and inform entry into specialist teaching;

increasing the quality and consistency of specialist professional development opportunities available to experienced teachers in mainstream and special schools, to widen and share specialist skills and build on good practice;

addressing leadership issues in this specialist sector—a disproportionally high level of leaders in special schools are nearing retirement age, whose expertise will need to be replaced over the next five to seven years.

Evidence to inform the review was gathered from teachers, local authorities, training providers, parents and parent networks, social partners and other national organisations, through a public call for evidence and in-depth interviews. Existing data and research were also reviewed, including information on relevant international teacher supply systems. An expert advisory group of specialists in SLD, PMLD and wider SEN issues provided challenge and support to the work.

We accept all of the recommendations in the review and my Department will publish a plan later this month to set out how Toby Salt's recommendations will be implemented, and how, over the next year, we will develop:

A partnership with Teach First to bring top graduates into specialist teaching. Teacher training pilots will allow more graduates to gain the skills they need to teach these children;

A new six-month specialist course for new teachers to enable them better to prepare for their first job working with children with severe, profound and multiple learning difficulties;

New arrangements to collect data on specialist teacher demand and supply to manage supply effectively for the future;

New training on severe learning difficulties, through the TDA, to ensure that all teachers have access to the quality professional development materials that they need to develop their skills

Copies of Toby Salt's report and our initial response have today been placed in the Libraries of both Houses.

DEFENCE

Gurkha Pension Scheme (Annual Uplift)

The Parliamentary Under-Secretary of State for Defence (Mr. Kevan Jones): I am pleased to inform the House that with effect from 1 April 2010 there will be an increase in pensions paid through the Gurkha pension scheme of 11.3 per cent. This is in line with inflation in Nepal.

It has always been our policy to ensure that Gurkha pensioners are treated fairly. The Gurkha pension scheme currently costs some £55 million per year and will now rise to £62 million as a result of this uplift.

This increase ensures that Gurkha pensions are kept at a fair and appropriate level and demonstrates our continuing commitment to the Gurkha pension scheme. It also reinforces the UK's long-standing links with the Government of Nepal, which we greatly value and would wish to maintain.

HEALTH

Basildon and Thurrock University NHS Foundation Trust

The Secretary of State for Health (Andy Burnham): Following my statements to the House on 30 November 2009, *Official Report*, c. 855-870 and 7 January 2010, *Official Report*, c. 13WS, I wish further to update the House on the situation at Basildon and Thurrock University Hospitals NHS Foundation Trust.

Chris Mellor, acting chair of Monitor, the regulatory body for NHS foundation trusts, has written to me about the progress being made at the trust. His letter dated 19 February 2010 has been copied to all local MPs and has also been placed in the Library.

Monitor has advised that further progress has been made at the trust since December 2009. With the support of the taskforce, the trust board has put in place a series of key performance indicators (KPIs) aimed at focusing attention on the areas of greatest clinical concern.

The trust has responded to specific concerns around hospitalised standardised mortality rations (HSMR), hygiene and children's services and learning disability services and each of these areas are actively being monitored. The taskforce has reported that progress has been made, especially against HSMR and hygiene. However, concerns remain around the pace and sustainability of progress when the taskforce exits, governance at board level, and board leadership.

Monitor has advised me of one further quality issue since my last statement, which was an outbreak of Legionella affecting two patients at the trust. Legionella is an ongoing risk at the trust and they have significant monitoring and controls in place as a result.

Monitor has advised that while it is somewhat encouraged by the quality improvements that have been made, it is not yet in receipt of all the information required to make a full assessment of the extent and pace of progress. This will be clearer in the next month when Monitor expect to receive the Dr. Foster data on HSMR for December 2009 (these data are subject to a three-month lag time), the outcome of the CQC registration process, further progress against the agreed KPIs and the independent report assessing governance arrangements at the trust.

I will receive regular updates once Monitor's board has reviewed the trust's progress and will continue to provide these updates to the House.

HOME DEPARTMENT

Justice and Home Affairs Post-Council Statement

The Parliamentary Under-Secretary of State for the Home Department (Meg Hillier): The Justice and Home Affairs (JHA) Council was held on 25 and 26 February 2010 in Brussels. My noble Friend, the Under-Secretary of State for Justice, Lord Bach and I attended on behalf of the United Kingdom. The following issues were discussed at the Council.

The interior day began with a presentation by Cecilia Malmström, the new Commissioner for Home Affairs, on her forthcoming priorities, which included publishing the results of a study of measures already in place on passenger name records (PNR), which had been promised to the European Parliament, and a new proposal on EU PNR. The Government welcomed the Commissioner's commitment to the PNR initiative and looked forward to seeing a proposal—in March if possible—highlighting that this should also cover intra-EU flights.

Following this, the Council agreed the internal security strategy (ISS) without amendment. President Van Rompuy had agreed to bring the strategy to the spring European Council. The Government strongly support the ISS, particularly references to an EC organised crime strategy.

The presidency updated the Council on the first COSI (Standing Committee on operational co-operation on internal security) meeting, which will take place on 11 March. Member states identified five key objectives for this committee: a partly operational and partly strategic role; co-ordinating the various agencies in the EU; assuming the functions of the Police Chiefs' task force; assessing the effectiveness of existing legislative instruments; and providing the Council with regular reports on internal security. The Government have supported the creation of COSI and look forward to its first meeting.

The presidency presented the first draft of the European Pact On International Drug Trafficking. The Government supported this initiative emphasising the need to ensure tangible output, proactive engagement with third countries, a focus on the East to tackle the supply chain, including those responsible at the top, and to take into account ongoing activity and the EU drugs action plan. Work will be taken forward at expert-level working groups, with the intention of agreeing the pact by the end of the Spanish presidency.

The Council discussed briefly the next steps in resolving the Czech Republic-Canada visa situation. An experts' meeting would take place on 15 March; the Commission urged Canada and the Czech Republic to solve their visa dispute before reporting back to the April JHA Council.

A restricted session looked at the next steps for the US terrorist tracking finance programme, following the European Parliament's decision to reject the Council decision to conclude the EU-US agreement (SWIFT). Both Justice and Interior Ministers agreed that they wanted a new permanent agreement between the EU and US as soon as possible.

Over lunch, Interior Ministers discussed the current Libya-Switzerland visa dispute. The presidency said events had significantly improved over the previous 10 days, with the short-term goal being the release of the remaining Swiss citizen in prison. Longer term, the requirement would be to address the link between Schengen arrangements and relationships with third countries.

After lunch, the Mixed Committee (with non-EU Schengen States) had a brief discussion on the Schengen Information System II (SIS II). A statement, included in the Council minutes and agreed by member states, indicated that a decision on the future of SIS II would be taken at the April JHA Council following analysis of the results of the first milestone test in January. The presidency and Commission would take all steps necessary to ensure that the required information was made available in order to make a well-informed decision. The Government highlighted that if a decision were taken to terminate SIS II, member states needed to ensure that any chosen alternative had to be a viable option.

The presidency presented draft conclusions on measures for reinforcing the protection of the external border and combating illegal immigration. The Government said this was an important long-term issue for all member states and emphasised co-operation with third countries and combating organised illegal crime as priorities. Successful projects with Turkey and Libya had demonstrated what could be achieved to prevent illegal border crossing but the EU needs also to complement this with increased efforts on returns.

The Commission introduced new draft legislation to strengthen Frontex. The Government welcomed Frontex's work to date and hoped the new instrument would include measures to enable our officers to continue to participate in joint operations. The Government also looked forward to Frontex doing more work in assisting returns in future and welcomed stronger Frontex co-operation with third countries, but regretted the lack of a provision to use personal data (which was critical in tackling the criminal gangs facilitating illegal migration). The Commission said it would carry out an overview of the EU-wide data exchange infrastructure before proposing anything concrete on personal data exchange for Frontex.

Finally, the Frontex executive director gave a presentation on the current situation at the EU's external border and new work programme initiatives for 2010.

During the day the Council also adopted the A points where the UK national member to Eurojust, Aled Williams, was confirmed as the new president of Eurojust. Malta was agreed as the site of the European asylum support office.

The justice day began with the new Commissioner for Freedom, Security and Justice, Viviane Reding, deliver a short presentation of her work. The presidency then outlined the state of play on the negotiations on a proposed directive on the European protection order, designed to protect victims of domestic violence. The Government confirmed their support for the objectives of the proposal and thanked the presidency for its work.

The presidency then provided Justice Ministers with information about the state of play on the negotiations on the proposed directive on interpretation and translation in criminal proceedings. The Government support this proposal and, following a discussion, the presidency concluded that it would give priority to reaching a rapid agreement.

The Council adopted the updated model agreement on joint investigation teams (JITs). The Government fully support this agreement which is based on practical experience and good practice.

During a presentation and debate on EU accession to the European convention of human rights, the presidency emphasised their intention to move the accession process along as quickly as possible. The Government, and all other member states that intervened, expressed support for accession as soon as possible and for early agreement on an appropriate mandate for negotiations with the Council of Europe.

Police Use of Firearms in England and Wales (2008-09)

The Minister for Policing, Crime and Counter-Terrorism (Mr. David Hanson): The latest figures from 1 April 2008 to 31 March 2009 show that:

The number of police operations in which firearms were authorised was 19,951—an increase of 57 (0.3 per cent.) on the previous year.

The number of authorised firearms officers (AFO's) was 6,868—an increase of 88 (1.3 per cent.) officers overall on the previous year.

The number of operations involving armed response vehicles was 16,564—an increase of 1,139 (7.4 per cent.) on the previous year.

The police discharged a conventional firearm in four incidents (down from seven incidents in 2007-08).

Full details are set out in the tables below:

Source: Association of Chief Police Officers (ACPO)

1. Does not include discharges for animal destruction or discharges during police training

Notes for tables:

Source: Home Office Public Order Unit, based on information aggregated from figures provided by individual police forces as part of the Home Office Annual Data Requirement. This was followed by a further quality assurance process involving the Home Office asking individual forces to verify and sign off their figures.

The information provided is a regular annual update of figures previously published (*Official Report*, 2 March 2009, Column 39WS), and on the Home Office website:

http://police.homeoffice.gov.uk/publications/operational-policing/police-firearms-use-2007-2008.html

Home Office guidance to forces for providing these figures is contained within the booklet "Annual Data Requirement, Police Personnel and Performance Data, Notes for Guidance". For the purpose of this statistical return AFOs are deemed to be deployed when "they are required to conduct a specific task during which their possession of a firearm (with appropriate authorisation) is a required element" (Chapter 3, paragraph 3.1 "ACPO Manual of Guidance on Police Use of Firearms").

In addition to the total number of operations, a further sub-category is required regarding those operations where the initial or sole response is by armed response vehicle (ARV).

Each incident will be classed as only one operation regardless of the number of personnel/deployments or tactics employed to deal with the incident.

Deployments also include those incidents where AFOs "self-authorise"

The number of officers authorised to use firearms as at 31 March 2009.

INTERNATIONAL DEVELOPMENT

New Education Strategy

The Secretary of State for International Development (Mr. Douglas Alexander): I have deposited in the Library today my Department's new education strategy, entitled; "Learning For All: DFID's Education Strategy 2010-2015". The strategy has been placed in the Libraries of the Houses and an electronically accessible version is available on the DFID website at www.dfid.gov.uk/educationstrategy.

"Learning For All: DFID's Education Strategy 2010-2015" outlines how DFID will contribute to helping the world's children realise their full potential through access to a quality basic education for all.

WORK AND PENSIONS

Employment, Social Policy, Health and Consumer Affairs Council

The Minister for Pensions and the Ageing Society (Angela Eagle): The Employment, Social Policy, Health and Consumer Affairs Council will be held on 8 March 2010 in Brussels. I shall represent the United Kingdom on all items.

The presidency will seek political agreement on a proposal for a Council directive which will implement a social partners' framework agreement to protect hospital and healthcare workers at risk of injury and infection from medical 'sharps' (including needle sticks, scalpels and suture equipment). Most of the requirements are already covered in the UK by a combination of existing health and safety legislation and healthcare specific legislation, codes of practice and guidelines: the UK will agree to the proposal.

The main agenda item will be a Commission presentation, followed by a policy debate on the Commission Communication on EU 2020 (which replaces the Lisbon strategy) published on 3 March. The UK response to the preceding Commission Consultation on EU 2020—'EU Compact for Jobs and Growth'—proposed creating new jobs and up-skilling or re-skilling the workforce as one of six priorities. I shall stress that the Employment and Social Policy Council must focus on active inclusion of those farthest from the labour market with ownership of the policy and responsibility for delivering results.

The presidency will seek adoption of the Joint Employment Report 2009-2010, and also the Joint Report on Social Protection and Social Inclusion 2010. These annual reports summarise evaluation of member states' progress and the EU's employment situation and also key lessons from member states under the open method of co-ordination for social protection and social inclusion. They also look ahead to further planned work. The UK is content.

The presidency will also seek adoption of Council conclusions on the eradication of violence against women, followed by an exchange of views. The UK Government have been working closely with European partners to support the work being progressed on tackling this issue at the European level and welcomes these conclusions.

There will also be an exchange of views, following a presentation by a delegation of Ministers for Research, on conclusions on European researchers' mobility and careers adopted by the Competitiveness Council (internal market, industry and research). This item reflects work being undertaken under the banner of the European research area, which is designed to advance the so-called "Fifth Freedom"—the free movement of knowledge across Europe. One of its elements is work on researcher careers and mobility, intended to make research an attractive career option across Europe and promote cross-border mobility of researchers. The Competitiveness Council agreed conclusions on careers and mobility on 1 and 2 March; these include sections on social security and pensions issues and the intention is that some of the research Ministers involved will present the conclusions to EPSCO to raise the profile of these issues.

There will also be presentations from the Commission on the latest report on equality between women and men, which the UK welcomes, and also information from the presidency on preparation of the Tripartite Social Summit due to take place before the spring European Council.

Under any other business, the Chairs of the Employment Committee and the Social Protection Committee will give an oral presentation on their 2010 work programmes. There will also be information on conferences held under the Spanish presidency to date.

Monday 22 February 2010

OBSERVATIONS

DEFENCE

Malta Cross/Africa Star

The Petition of the George Cross Island Association North West Branch and others,

Declares that a small Maltese Cross should be issued by the British Government to be worn with the Africa Star, for personnel involved with the defence of Malta, in recognition of the valiant efforts of our former servicemen and the people of Malta.

The Petitioners therefore request that the House of Commons urges the Government to issue a small Maltese Cross to be pinned to the Africa Star.

And the Petitioners remain, etc.—*[Presented by Mr. Joe Benton, Official Report,* 15 December 2009; Vol. 502, c. 934 .]

[P000638]

Observations from the Secretary of State for Defence, received 12 February 2010:

The Africa Star was awarded for a minimum one day service in an operational area of North Africa between 10 June 1940 and 12 May 1943. The whole of the area between the Suez Canal and the Strait of Gibraltar is included, together with Malta, Abyssinia, Kenya, Sudan, The Somalilands and Eritrea. The Africa Star was awarded to Royal Navy and Merchant Navy personnel anywhere at sea in the Mediterranean between 10 June 1940 and the 12 May 1943. Service in Merchant Navy vessels which took part in the landings on the coast of Morocco between 8 November 1942 and the 12 May 1943 also qualified.

It was, as is now, the responsibility of those in command at the time to determine when it was appropriate to request medals for campaign service and similarly to decide when it was felt that their continued issue for a particular campaign was no longer necessary. If the military chain of command agreed that some additional recognition for those who served in Malta between 1940 and 1943 was appropriate, or in fact the introduction of any medal, they would have to prepare a case to be considered by the cross-Government, non-political Committee on the Grant of Honours, Decorations and Medals (HD Committee). This committee considers all cases for new medals and all amendments to the eligibility criteria for existing medals and makes recommendations to the Queen. It is not the remit of Minister's to introduce or review criteria for introducing medals.

Since the end of the second world war the HD Committee has made it clear that it will not consider cases for any new medals, or amendments to the qualifying criteria for existing medals recognising service performed many years ago. The reason for this policy is that the present HD Committee cannot put itself in the place of the Committee which made the original decision and which would have been able to take account of the views of the Government and of other interested parties at the time of the decision.

In conclusion, the institution of the Africa Star was deemed entirely appropriate for the operations undertaken at that time. It is for these reasons that there are no plans to introduce any additional recognition in the form of a medal, clasp or rosette, for those veterans who served in Malta.

I hope this explains the Government's position on this matter.

OBSERVATIONS

HOME DEPARTMENT

Bristol Refugee Rights

The Petition of supporters of Bristol Refugee Rights and others,

Declares that Britain has an international obligation to provide sanctuary to people fleeing conflict or persecution; declares that three quarters of those seeking safety here are refused protection, but that many cannot go back to their home country; further declares that people in this situation are not allowed to work or claim benefits, and frequently become destitute rather than go back to countries where they would be in real danger; further declares that the Petitioners believe that such people deserve to be treated fairly, humanely and with dignity.

The Petitioners therefore request that the House of Commons calls on the Government to grant temporary protection to people who cannot return to their countries of origin; to end the threat and use of destitution as a tool of Government policy against refused asylum seekers; and to allow asylum seekers, including those whose application has been refused, the right to work if they have not been given a decision and/or they cannot leave the UK after six months.

And the Petitioners remain, etc.—*[Presented by Stephen Williams, Official Report,* 16 December 2009; Vol. 502, c. 1071.]

[P000655]

Observations from the Secretary of State for the Home Department, received on Monday 22 February 2010:

The United Kingdom has a long and proud tradition of providing protection to those who need it and considers all protection claims carefully, on their individual merits, and in accordance with our legal obligations. All asylum claims are considered on their individual merits in accordance with the 1951 United Nations Convention Relating to the Status of Refugees and the European Convention on Human Rights, against the background of the latest accurate, objective, sourced and up-to-date information on asylum seekers' countries of origin produced by the UK Border Agency Country of Origin Information Service.

Asylum and human rights applicants that are found to be in need of protection are granted it. Those found not to be in need of protection have a right of appeal to the independent appellate authorities. In this way we ensure that we provide protection to those asylum seekers who need it. Where a decision has been made that a person does not require international protection, and there are no remaining rights of appeal or obstacles to their return, unsuccessful asylum seekers are expected to return voluntarily to their country of origin. Return and reintegration assistance is available through the International Organization for Migration.

The Government do not have a policy of destitution. The asylum support policy is properly balanced. No person who has sought protection need be destitute whilst they have a valid reason to be here. Asylum seekers who need support to avoid destitution are given it from the time they arrive in the UK until their claim is fully determined (appeal rights exhausted). Support takes the form of accommodation or subsistence or both.

When an asylum seeker has been found not to need protection it is the Government's policy to discontinue providing support. It is not considered right to ask the UK taxpayer to continue to fund those who choose to remain here when they have no grounds to stay and it is open to them to return to a home country that has been found safe for them to live in, nor is it considered right to allow individuals to take employment under such circumstances.

For this reason, the Government believe that support for failed asylum seekers should be restricted to those in narrow categories of increased vulnerability. These categories are families with dependent children under the age of 18 years who continue receiving support until they leave the UK; children and vulnerable adults qualifying for local authority care provision; and people who are temporarily prevented from leaving the UK through no fault of their own who are provided with accommodation and subsistence support if they would otherwise be destitute.

While the Government welcome the enormous contribution that the skills and knowledge of refugees make to our society and economy, it is important to maintain the distinction between economic migration and asylum. A change to the policy on employment would create a disincentive to departure for unsuccessful asylum seekers and act as a draw for those who want to come to the UK for economic reasons, compromising the integrity of the asylum system and slowing down the asylum application process for others. This is why asylum seekers are generally not allowed to work while their claim for asylum is under consideration, the only exception being asylum seekers who have been waiting 12 months for a decision where this delay cannot be attributed to them. Allowing asylum seekers to work in these circumstances is in accordance with the EC Directive on the reception of asylum seekers.

Our focus is therefore rightly on those the UK accepts are in need of international protection, and every effort is made to help refugees integrate into society. A crucial part of that integration is the recognition of the skills, knowledge and diversity that refugees bring to British life. The UK Border Agency document of March 2009 'Moving on Together: Government's Recommitment to Supporting Refugees' sets out the national strategy for the integration of refugees. This includes provision of critical support immediately after grant of refugee status—and in particular, identifying the skills of refugees at the earliest opportunity and providing the right support for getting a job.

The Government have introduced proposals for reform of asylum support under the draft Immigration Bill which was published on 12 November 2009 and public consultation on this matter is currently underway.

TRANSPORT

Pedestrian Crossings

The Petition of residents of Hove and Portslade and others,

Declares that the petitioners have serious concerns about the safety of pedestrians using the crossroads at the junction between Old Shoreham Road, Neville Road and Sackville Road; further declares that the Petitioners are concerned that there are no pedestrian crossings on the north or southbound carriageways at the junctions on Neville and Sackville roads, and believe that there is an urgent need for a safe and effective pedestrian crossing at this site.

The Petitioners therefore request that the House of Commons urge Ministers in the Department for Transport to take steps to ensure that a crossing is placed at this juncture to ensure the safety of pedestrians at this crossing.

And the Petitioners remain, etc.—*[Presented by Ms Celia Barlow, Official Report*, 9 February 2010; Vol. 505, c. 884.]

[P000732]

Observations from the Secretary of State for Transport:

Old Shoreham Road is a local road for which West Sussex county council has responsibility. The provision of pedestrian facilities on this and adjoining roads is for them to consider.

The Road Traffic Regulation Act 1984 confers on local highway authorities the power to establish crossings for pedestrians on roads in their area. The signing, road markings, etc that form these crossings are prescribed in the Zebra, Pelican and Puffin Pedestrian Crossings Regulations and General Directions 1997.

The Department for Transport has produced guidance to highway authorities regarding the assessment method to be used when considering the provision and type of pedestrian crossings. This is contained in Local Transport Note 1/95, "The Assessment of Pedestrian Crossings". The note recommends a framework method to encourage informed decisions as to whether a crossing is necessary and, if so, which type should be used. There is guidance on assessing such factors as difficulty of crossing, local representations and cost (including maintenance).

Petition

Wednesday 24 February 2010

OBSERVATIONS

TRANSPORT

Gritting

The Petition of residents of the South Lakes and others,

Declares that better gritting is required in the South Lakes.

The Petitioners therefore request that the House of Commons urges the Government to put pressure on Cumbria County Council to develop an emergency plan to make sure that roads and pavements are cleared properly and people are not trapped in their homes during snowfall.

And the Petitioners remain, etc.—*[Presented by Tim Farron, Official Report,*9 February 2010; Vol. 505, c. 883 .]

[P000733]

Observations from the Secretary of State for Transport:

Provision of a winter service on the roads in the South Lakes district is a matter for Cumbria County Council. They have a duty, under section 41 of the Highways Act 1980, to maintain the highways in their charge: and this includes a specific requirement to ensure, so far as is reasonably practicable, that safe passage along a highway is not endangered by snow or ice.

The Department for Transport encourages local highways authorities to adopt the good practice set out in the UK Roads Liaison Group's code of practice for highways maintenance management, Well-maintained Highways (available from www.ukroadsliaisongroup.org). This includes a section on winter service, which has been recently updated to take account of the review which the UKRLG undertook in response to the severe weather of February 2009. The Code of Practice urges local highway authorities to produce, and formally approve and adopt, policies and priorities for winter service. These should be coherent with wider objectives for transport, integration, accessibility and network management, including strategies for public transport, walking and cycling, as well as the wider strategic objectives of the authority. Local government democratic processes provide opportunities for the public to make their views known to the Council.

The Government and the devolved Administrations, with the support of the Local Government Association, have taken action which aims to help authorities not to run out of salt, by providing advice to suppliers on priorities for deliveries. Local authorities, as well as the Highways Agency, have been asked to conserve supplies to deliver an overall target of a 40 to 50 per cent. reduction in salt use. These measures have been critical in retaining sufficient salt stock resilience, at a time when salt deliveries from domestic suppliers are only a proportion of the potential national usage.

Petition

OBSERVATIONS

COMMUNITIES AND LOCAL GOVERNMENT

Planning and Development (Hampshire)

The Petition of the Bordon for Option 1 Group

Declares that the Whitehill/Bordon Opportunity Town Enlargement and/or Bordon Eco-Town Development expansion proposals are not appropriate to the character of this small country town. Because of the size of the proposed town enlargement it will have an excessive and undesirable impact on the surrounding areas. The Petitioners respectfully ask that the currently proposed over-development plan for Bordon be stopped. This small town and its surroundings contain characteristics and important heathland and other biodiversity rich habitats, which will be lost or substantially damaged, even if they are mitigated for, by these development proposals and options.

The Petitioners therefore request that the House of Commons urges the Secretary of State for Communities and Local Government, to limit the expansion of the town at Whitehill/Bordon to no more than 2000 houses and associated infrastructure: and to insist that the proposed town expansion should be situated only on the future brownfield sites that are currently barracks, which are to be vacated by the MOD in the town.

And the Petitioners remain, etc.—*[Official Report, 6 October 2008; Vol. 480, c. 1P .]*

[P000270]

Observations from Secretary of State for Communities and Local Government:

The Secretary of State for Communities and Local Government acknowledges the concerns of the petitioners regarding the eco-town proposals for Bordon.

Whitehill-Bordon was announced as one of the four successful sites in the first wave of eco-town announcements (16 July 2009) following two years of thorough assessment including public consultation and Sustainability Appraisal.

All of the four sites are led by, or strongly supported by, their local authorities who can see the potential for being a national green exemplar and for economic and housing growth to benefit their existing communities.

The original proposals for Whitehill-Bordon included provision for 5,000-8,000 homes, during the assessment process this has been amended to 5,500 homes. This is reflected in the Regional Spatial Strategy for the South East (The South East Plan) which states "A separate allocation of 5,500 has been made for Whitehill-Bordon as the basis for further study including the implications for the Special Protection Area".

An announcement by the Housing Minister, my right hon. Friend the Member for Wentworth (John Healey), on 8 February 2010 has pledged a further £11 million to Whitehill-Bordon to lay the green foundations for the proposed eco-town.

OBSERVATIONS

CHILDREN, SCHOOLS AND FAMILIES

Badman Report (Skipton and Ripon)

The Petition persons resident in Skipton and Ripon,

Declares that they are concerned about the recommendations of the Badman Report, which suggests closer monitoring of home educators, including a compulsory annual registration scheme and right of access to people's homes for local authority officials; further declares that the Petitioners believe the recommendations are based on a review that was extremely rushed, failed to give due consideration to the evidence, failed to ensure that the data it collected were sufficiently robust, and failed to take proper account of the existing legislative framework.

The Petitioners therefore request that the House of Commons urges the Secretary of State for Children, Schools and Families either not to bring forward, or to withdraw, proposed legislative measures providing for tighter registration and monitoring of children educated at home in the absence of a thorough independent inquiry into the condition and future of elective home education in England; but instead to take the steps necessary to ensure that the existing Elective Home Education Guidelines for Local Authorities are properly implemented, learning from current best practice, in all local authorities in England.

And the Petitioners remain, etc.—*[Presented by Mr. Graham Stuart, Official Report,* 8 December 2009; Vol. 502, c. 268 .]

[P000590]

Petitions in the same terms were presented by the right hon. Member for West Dorset (Mr. Letwin) [P000720]; the right hon. Member for Sheffield, Hallam (Mr. Clegg) [P00724]; the hon. Member for Leominster (Bill Wiggin)[P00728]; and the hon. Member for Hexham (Mr. Atkinson) [P000735];

Petitions in the same terms were also presented from persons resident in the following constituencies: Solihull [P000710]; Richmond, Yorks [P000711]; and Bury St. Edmunds [P000727].

Observations from the Secretary of State for Children, Schools and Families:

DCSF commissioned the Badman review of home education in January 2009 and the report was published on 11 June 2009. As part of the review, Graham Badman took written and oral evidence from a range of individuals and organisations who responded to his public call for evidence, including home educators and local authorities. Alongside this he also considered published literature, the current legal position and guidance and the approaches taken in other countries. He was assisted by an expert reference group. I am confident that his report draws from a wide and heterogeneous evidence base.

The Children, Schools and Families Select Committee also considered the Badman report and was supportive of most of the recommendations. It agreed that a short statement of educational approach would be helpful in establishing dialogue between home educating families and local authorities; that an annual meeting between local authorities and home educators was needed; and that better support for home educators and better training for local authorities would together lead to an improvement on the current arrangements.

Home Education registration and monitoring proposals are included in the Children, Schools and Families Bill which passed Third Reading in the House of Commons on 23 February 2010 and was introduced into the House of Lords on 24 February. The proposals will put in place light touch regulation and monitoring arrangements and our guidance will make it clear that this will be proportionate and focused on support and encouragement for home educating families. We have also committed around £21 million in the first year to additional support for home educating families, which has a focus on children with SEN and home educated children who would like to attend FE College courses.

Home education is an established part of the British education system and the vast majority of home educators who do a good-job will find monitoring supportive and—for the first time—backed by real resources. Our reforms will not require home educators to adopt a particular approach, to teach a specific curriculum, or for their children to take SATs tests or specific public examinations. After these reforms are implemented, England will remain one of the most liberal countries in the developed world for home educators to live in.

COMMUNITIES AND LOCAL GOVERNMENT

Incinerators (Tatton)

The Petition of Stop Incinerators in Disguise (S.I.D) in the constituency of Tatton in Cheshire,

Declares that they want to stop the building of an incinerator (Waste Treatment Plant) at New Cheshire Business Park in Wincham.

The Petitioners therefore request that the House of Commons urges the Secretary of State responsible for local government to put pressure on the local authority to reject the plans to build an incinerator in the area.

And the Petitioners remain, etc.—*[Presented by Mr. George Osborne, Official Report,* 10 February 2010; Vol. 505, c. 8P .]

[P000730]

Observations from the Secretary of State for Communities and Local Government:

The Secretary of State for Communities and Local Government is aware that a planning application has been submitted to Cheshire West and Chester council in respect of the above development. He is advised that the application was registered on 19 November 2009.

Cheshire West and Chester borough council are responsible for the day to day planning control in their area, and the Secretary of State cannot comment on the merits or otherwise of any application. The Government's policy is not to interfere with the jurisdiction of a local planning authority unless it is necessary to do so. This is because local authority councillors are elected to represent the views of local people and, in the main, it is these councillors who are in the best position to decide whether a development should go ahead. It is, of course, for local planning authorities to provide whatever justification it may be appropriate to give for their decisions and procedures.

In determining a planning application the local planning authority, who have full knowledge of the local circumstances, are required to have regard to all material considerations including the development plan, national policies and views expressed by third parties.

The Secretary of State might decide to call-in the application for his own determination if he considers that it raises matters of more than local importance, but his policy is to be very selective about this. As it is possible that this proposal may, at some future date, come within his jurisdiction, it would be inappropriate to comment on the issues raised in the petition.

Planning and Development (Essex)

The Petition of David Head, residents of Daws Heath, Hadleigh, Thundersley and others,

Declares that we object to the proposed housing estate planned for the green land bounded by Stadium Way, Rayleigh Road and Daws Heath Road; deplore that proper public consultation has not been undertaken; believe that our green belt is sacrosanct; it provides wildlife habitat, leisure opportunities, a green lung function and acts as a buffer between densely populated urban areas. The sheer size of the proposed development of up to 750 houses would be catastrophic and out of character with the area. Infrastructure, including roads, sewers, school places, dentists, youth facilities and much else are insufficient even without the additional houses. And we note that our neighbouring councillors, unlike Castle Point Councillors, have consulted their residents widely and have voted against green belt development; further note that the Government have stated green belt should not be built upon; therefore urge Castle Point Councillors to consult the public before they vote to destroy our environment and quality of life.

The Petitioners therefore request that the House of Commons urges the Government first to change their policy on housing targets and secondly to urge Castle Point Borough Councillors to consult residents before voting on their plans and to reject building on the green belt in order to protect the quality of life of all residents.

And the Petitioners remain, etc.—*[Presented by Bob Spink, Official Report, 18 November 2008; Vol. 483, c. 207 .]*

[P000290]

Observations from the Secretary of State for Communities and Local Government:

The Secretary of State for Communities and Local Government is aware that Castle Point Borough Council has identified the site bounded by Stadium Way, Rayeligh Road and Daws Heath Road within the Local Plan for the potential for a housing development of up to 750 dwellings.

There is no current planning application in with Castle Point Borough Council for determination which would be primarily the responsibility of the Borough Council as local planning authority, and the Secretary of State cannot comment on the merits or otherwise of any application, or prospective application.

Decisions on planning applications are required to be in accordance with the adopted development plan, unless material considerations indicate otherwise. The Government's statements of national planning policy, such as Planning Policy Statement 9, Biodiversity and Geological Conservation, are material considerations which must be taken into account, where relevant, in planning decisions, but it is the responsibility of the local planning authority to identify and weigh up all the different issues, in the context of the specific local circumstances, having regard to the views of local residents and other interested parties.

The Secretary of State may decide to call in an application for his own determination where he considers that it raises issues of more than local importance, but his policy is to be very selective about this. As it is possible that a proposal may, at some future date come within his jurisdiction, it would be inappropriate to comment on the matter raised in the petition.

Petitions

OBSERVATIONS

HOME DEPARTMENT

Destitution Among Asylum Seekers

The Petition of Members of Churches Together in Roundhay,

Declares that we are deeply concerned about the high levels of destitution among asylum seekers, especially refused asylum seekers, and in particular that many people have been left in this dire situation for prolonged periods.

Research in Leeds in 2009, indicates that since the Report in 2007, the situation has deteriorated. It demonstrates that destitution happens at all stages of the asylum process, administrative delays worsen destitution, destitution is serious and prolonged, the number of people being made newly destitute is increasing even with the 'New Asylum Model'—it is not just a 'legacy' problem and entitlement to apply for support does not mean entitlement to receive support. Destitute people may be single or families with children; they are being forced into street homelessness and they have worsening health and mental health problems.

The Petitioners therefore request that the House of Commons to ensure its legislation is designed and implemented so as to end the destitution of asylum seekers at all stages of the asylum process. Furthermore that asylum seekers have the right to work at all stages of the asylum process so they can contribute to the United Kingdom and provide for themselves.

And the Petitioners remain, etc.—*[Presented by Mr. Fabian Hamilton, Official Report,* 3 February 2010; Vol. 411, c. 505.]

[P000723]

Observations from the Secretary of State for the Home Department:

The UK's asylum support policy is properly balanced and sufficient to meet essential living needs. No person who has sought our protection need be destitute while waiting for an application to be decided.

We have transformed the asylum system by streamlining the process and introducing end-to-end case management by a single case owner. The UK Border Agency provides support to asylum seekers from the time they arrive in the UK until their claim is finally determined if they would otherwise be destitute. As part of this process we have systems in place to measure the eligibility of the asylum seeker's rights to access support at all stages of the asylum process. This includes an assessment of destitution and a consideration of their rights under the European convention of human rights.

Asylum seekers who would otherwise be destitute are entitled to accommodation or subsistence or both until their claim is fully determined. Extra money is provided to those who are pregnant or have children under the age of three.

If the asylum seeker's application is successful they will have full access to public funds on a no less favourable basis than UK citizens. However, when it has been determined that an asylum seeker does not need international protection it is the Government's policy to discontinue providing support. The Government do not consider that it is right to continue to fund those who choose to remain here when they have no grounds to stay and it is open to them to return to a home country that has been found safe for them to live in.

There are sufficient safeguards for a number of categories of vulnerable failed asylum seekers including families with dependent children under the age of 18 years who continue receiving support until they leave the UK; children and vulnerable adults qualifying for local authority care provision; and those who are temporarily prevented from leaving the UK, who are provided with accommodation and non-cash subsistence. In addition, there is provision to support failed asylum seekers for a time-limited period while they make arrangements to leave the UK.

All asylum seekers and failed asylum seekers who apply for support, but are refused, are entitled to appeal this decision to the independent Tribunal. The Government do not propose to alter this position.

With regard to the termination of support: failed asylum seekers in receipt of section 4 support will continue to be supported until the barrier to leaving the UK, which entitles them to section 4 support, is removed or resolved, providing there is no change in their circumstances which would affect their eligibility. All cases will be regularly reviewed to determine if they remain eligible for section 4 support. The asylum support consultation proposes to remove the right of appeal against the cessation of support that is provided in order to allow individuals to make arrangements to return home. This support is provided on an expressly time-limited basis. We have not proposed to remove the right of appeal when support is terminated in any other circumstances.

The Government are committed to partnership working to reduce destitution and homelessness in the migrant community. The UK Border Agency continues to support the No Recourse to Public Funds Network (NRPF) based at Islington. The network is developing a national operating structure and IT system to enable local authorities to prevent fraud and share good practice when meeting the needs of NRPF migrants receiving local authority support. This network is also being designed to share critical data with the UK Border Agency enabling far more effective joint working with local authorities; the aim to resolve these claimants circumstances locally, at source.

In addition, the UK Border Agency is working with the network to more effectively tailor the assisted voluntary returns (AVR) scheme to meet the needs of local authority clients.

The Government welcome the enormous contribution that the skills and knowledge of genuine refugees make to our society and economy, but permitting asylum seekers or failed asylum seekers to work is not in line with Government policy. It is important to maintain the distinction between economic migration and asylum

Giving asylum seekers or failed asylum seekers permission to work would be likely to encourage asylum applications from those without a well-founded fear of persecution, hence slowing down the processing of applications made by genuine refugees and undermining the integrity of the managed migration system. The only exception is asylum seekers who have been waiting 12 months for a decision where this delay cannot be attributed to them. Allowing asylum seekers to work in these circumstances is in accordance with the EC directive on the reception of asylum seekers.

It is important that those who apply for asylum in the UK have their applications processed as quickly as possible. In 2008 the UK Border Agency began meeting its target to conclude 60 per cent. of new asylum claims within six months and are working to meet even more challenging targets. Those who are recognised as refugees will therefore increasingly be able to work here legally much sooner than in the past, enabling them to make a contribution to the UK.

Immigration (Adela Mahoro Mugabo)

The Petition of the Mahoro Must Stay Campaign,

Declares that Adela Mahoro Mugabo, who is to be removed to Rwanda, is the widow of a man murdered in 2002 by the Interharamwe Hutus, and as a Hutu herself was accused by the Rwandan Military Intelligence of covering up for her husband's murderers. The Petitioners further declare that Mahoro was tortured and raped, and is now HIV-positive, and that if she is returned to Rwanda she will still be in danger and will be unable to get the anti-retroviral drugs she needs to survive.

The Petitioners therefore request that the House of Commons urges the Home Secretary to instruct a reconsideration of the Home Office decision and allow Adela Mahoro Mugabo to stay in the UK, a safe environment in which she will be able to lead a healthy life.

And the Petitioners remain, etc.—*[Presented by Mr. John Leech, Official Report,* 9 December 2009; Vol. 502, c. 468.]

[P000493]

Observations from the Secretary of State for the Home Department:

The Government are committed to providing safety to those individuals found to be genuinely in need of protection. The Government would not seek to enforce returns to Rwanda unless they were satisfied it was safe to do so. In the absence of compelling evidence to suggest that a particular unsuccessful asylum seeker is at risk of persecution on return, the Government believe that the UK Border Agency are justified in maintaining their policy of enforcing the return of unsuccessful asylum seekers.

The Home Office Country of Origin information Service closely monitors the human rights situation in all the countries that generate asylum seekers to the United Kingdom including Rwanda. It provides accurate, objective, sourced and up to date information on asylum seekers' countries of origin, for use by UK Border Agency officials involved in the asylum determination process. In dealing with applications from Rwanda caseworkers have access to detailed Country of Origin Information Reports which are published biannually on the top 20 asylum intake countries. These reports focus on the main issues raised in asylum and human rights applications to the UK. They are compiled from a wide range of reliable external information sources including international organisations such as UNHCR and non-governmental organisations, such as Human Rights Watch and Amnesty International and the media.

The UK Border Agency has confirmed that a decision has been made on Ms Mugabo's case. The UK Border Agency would like to assure the petitioners that the Country of Origin reports for Rwanda and Ms Mugabo's circumstances, along with their petition, were taken into account when a decision was made. Ms Mugabo will be notified of the outcome of her case shortly.

Petition

Thursday 4 March 2010

PRESENTED PETITION

Petition presented to the House but not read on the Floor

Badman Report (North Devon)

The Petition of Persons resident in the North Devon Parliamentary Constituency,

Declares that they are concerned about the recommendations of the Badman Report, which suggests closer monitoring of home educators, including a compulsory annual registration scheme and right of access to people's homes for local authority officials; further declares that the Petitioners believe the recommendations are based on a review that was extremely rushed, failed to give due consideration to the evidence, failed to ensure that the data it collected were sufficiently robust, and failed to take proper account of the existing legislative framework.

The Petitioners therefore request that the House of Commons urges the Secretary of State for Children, Schools and Families either not to bring forward, or to withdraw, proposed legislative measures providing for tighter registration and monitoring of children educated at home in the absence of a thorough independent inquiry into the condition and future of elective home education in England; but instead to take the steps necessary to ensure that the existing Elective Home Education Guidelines for Local Authorities are properly implemented, learning from current best practice, in all local authorities in England.

And the Petitioners remain, etc.

[P000748]

Written Answers to Questions

Monday 22 February 2010

DEFENCE

Afghanistan

16. **Alistair Burt:** To ask the Secretary of State for Defence what his latest assessment is of progress in military operations in Afghanistan; and if he will make a statement. [317455]

Mr. Bob Ainsworth: We continue to work with the Afghan national security forces and ISAF partners to bring security to the Afghan people. The increasing ability of Afghan security forces has been shown recently in their effective planning, leadership and execution of Operation Moshtarak, which is successfully extending the authority and influence of the Afghan Government in central Helmand Province.

19. **Andrew Selous:** To ask the Secretary of State for Defence what his most recent assessment is of the role of UK armed forces in the overall military strategy in Afghanistan. [317458]

Mr. Bob Ainsworth: I refer the hon. Member to the answer I gave earlier to the hon. Member for Macclesfield.

20. **Mr. Russell Brown:** To ask the Secretary of State for Defence what the timetable is for transition of lead security responsibility to the Afghan government for *(a)* each district and *(b)* the nation as a whole. [317459]

Mr. Bob Ainsworth: The Afghan Government wants the Afghan national security forces (ANSF) to take the lead and conduct the majority of operations within three years, and to take responsibility for physical security within five years. At the London conference, the international community agreed to support this goal by continuing to improve the capability and effectiveness of the ANSF.

We hope that a number of provinces will transition to ANSF lead by late 2010 or early 2011, with ISAF moving to a supporting role. However, the rate of transition will depend upon conditions on the ground, and the judgment of military commanders and the Afghan Government.

RAF Church Fenton

18. **Mr. Grogan:** To ask the Secretary of State for Defence what his plans are for the future of RAF Church Fenton and its parent base RAF Linton-on-Ouse; and if he will make a statement. [317457]

Bill Rammell: RAF Church Fenton and its parent base RAF Linton-on-Ouse currently provide UK military flying training. The future roles of these stations are under review as part of the UK military flying training system programme which will deliver the future flying training needs of the armed forces. No decisions have been taken yet on the involvement of individual sites that are under review as part of the programme.

Personnel: Mental Illnesses

Mr. Bain: To ask the Secretary of State for Defence what arrangements his Department has put in place to help military service personnel with mental illnesses linked to combat experience. [317454]

Mr. Kevan Jones: Defence Medical Services deploy uniformed mental health staff on major operations to provide assessment and care to personnel in theatre. In the UK, community-based mental health care is available at 15 MOD-run regional departments of community mental health (plus centres overseas), while in-patient care, when necessary, is provided in specialist NHS mental health facilities.

Defence Storage and Distribution Agency

Tony Baldry: To ask the Secretary of State for Defence for what reasons the Defence Storage and Distribution Agency no longer has agency status. [317460]

Mr. Quentin Davies: The Defence Storage and Distribution Agency (DSDA) still has agency status. The operational efficiency programme made a number of recommendations which allow removal of agency status from DSDA and my Department is therefore currently consulting with the trade unions on its removal. Once this is complete, I will make a final decision which will be announced to Parliament in the usual manner.

Accommodation: Repairs

Willie Rennie: To ask the Secretary of State for Defence how much was charged to occupants of (1) Modern Housing Solutions accommodation for repair of damage caused by them to the accommodation in each of the last 12 months; [317328]

(2) family accommodation owned by Amec Turner for repair of damage caused by them to the accommodation in each of the last five years. [317329]

Mr. Kevan Jones: Modern Housing Solutions and Turner Estates Solutions are the prime contractors for the repair and maintenance of service family accommodation (SFA) in Great Britain. Neither company own any SFA properties.

However, charges for "barrack damage" are raised in cases where occupants vacate SFA below the required move-out standard, and are to cover the costs of remedial works required. The MOD manages over 20,000 moves in and out of SFA in the UK each year. Charges are not raised for normal wear and tear and any charges for the replacement of lifed items such as carpets will take into account the remaining life of the item. Housing officers visit every SFA property prior to move-out in order to advise occupants what work may be required to clean properties to the required standard, and to allow occupants to raise any concerns they may have. Figures are only available for the UK as a whole. For data prior to 2009, I refer the hon. Member to the answer I gave on 14 September 2009, *Official Report*, column 2124W. The following table shows data that are available for 2009.

	Amount charged (£)
January	137,245
February	85,946
March	54,124
April	64,942
May	69,87[illegible]
June	114,772
July	99,756
August	64,903
September	111,748
October	102,023
November	85,139
December	54,006

Afghanistan and Iraq: Peacekeeping Operations

Dr. Fox: To ask the Secretary of State for Defence how many personnel have served in *(a)* Afghanistan since 2001 and *(b)* Operation Telic from 2003-09. [314562]

Mr. Bob Ainsworth: The following table shows the numbers of personnel endorsed for Afghanistan since 2001 and Operation Telic since 2003.

	Iraq	*Afghanistan*
2001	0	4,300 (Op Veritas—includes personnel that supported operations in Afghanistan but were not based in the country)
2002	0	2,100 (early 2002) 3,500 (spring 2002) 300 (summer 2002)
2003	46,000 (March) 18,000 (end May)	300 (in ISAF) plus 100 (at Mazar-e-Sharif)
2004	8,600 (end May)	500 (in ISAF) (April 2004) 900 (in ISAF and Harrier GR7 deployment) (late 2004)
2005	8,500 (end November)	1,000
2006	7,200 (end May)	5,400 (summer 2006) 6,200 (autumn 2006) 6,300 (late autumn 2006)
2007	5,500 (end September)	6,300 (April) 7,800 (late 2007)
2008	4,100	8,100 (June)
2009	4,100 (end May) 150 (November)[1]	9,000 (April) 9,500 (October)

---

[1] This includes the UK's contribution to the NATO Training Mission—Iraq.

The data included in this response have been rounded. The Afghanistan figures represent the endorsed troop levels at the given time.

Afghanistan: Peacekeeping Operations

Mr. Bone: To ask the Secretary of State for Defence what recent assessment he has made of the security threat posed by the Taliban in the Afghanistan-Pakistan border region. [309737]

Mr. Bob Ainsworth *[holding answer 11 January 2010]*: I refer the hon. Member to the answer given by the Minister of State for the Armed Forces (Bill Rammell) to the hon. Member for Reigate (Mr. Blunt) on 11 January 2010, *Official Report*, column 740W.

Dr. McCrea: To ask the Secretary of State for Defence how many troops were stationed in Afghanistan in each year between 2006 and 2009. [316276]

Mr. Bob Ainsworth: The following table shows the number of personnel endorsed for Afghanistan between 2006 and 2009.

Afghanistan

		Number
2006	Summer	5,400
	Autumn	6,200
	Late autumn	6,300
2007	April	6,300
	Late 2007	7,800
2008	June	8,100
2009	April	9,000
	October	9,500

The Afghanistan figures represent the endorsed troop levels at the given time.

Mr. Gray: To ask the Secretary of State for Defence what the effect was on the operation of the Afghan air bridge of recent severe weather conditions in the UK. [316921]

Bill Rammell: Delivery of the strategic airbridge was challenging but successful during the period of severe weather in January 2010. Some aircraft were diverted from RAF Brize Norton or pre-positioned at East Midlands airport.

In spite of the closure of RAF Brize Norton from late on 5 January 2010 until 8 January 2010, the utilisation of additional resources and the inherent flexibility in airbridge passenger tasking ensured that outbound passengers were re-allocated to the next available aircraft departing from either Brize Norton or East Midlands airport. The airbridge continued through the period of severe weather with minimal overall disruption.

Armed Forces Compensation Scheme

Dr. Murrison: To ask the Secretary of State for Defence what plans he has to monitor the effectiveness of the changes to the Armed Forces Compensation Scheme announced on 10 February 2010. [318023]

Mr. Kevan Jones: The Government are committed to implementing all of the recommendations put forward by Lord Boyce in his Review of the Armed Forces Compensation Scheme. A report on progress will be made in 12 months time to the Central Advisory Committee on Pensions and Compensation, a statutory advisory body, whose members include representatives of Service and ex-service organisations as well as military personnel. As recommended in the Report this same body will monitor progress on implementation of the Review's recommendations and will also be the route through which any further reviews of aspects of the Scheme which might be required are conducted.

Dr. Murrison: To ask the Secretary of State for Defence by what means lifetime earnings lost by reservists as a result of injuries sustained in service be *(a)* calculated and *(b)* accounted for in the Armed Forces Compensation Scheme following implementation of the changes to the Scheme announced on 10 February 2010. [318024]

Mr. Kevan Jones: A Reservist's Guaranteed Income Payment is calculated, in the same way as a Regular's, using age and salary at time of discharge and reflecting the severity of the injury. The salary for Reservists is calculated using a military salary of equivalent rank as a Regular plus any Reservist pay supplements that an individual earns to compensate those whose gross civilian salary is higher than their gross Service pay. In line with the Review Recommendations the Guaranteed Income Payment calculation will be amended to reflect, for the most seriously injured, the average number of promotions they are no longer able to receive. This will apply to Reservists and Regulars alike.

Dr. Murrison: To ask the Secretary of State for Defence when he expects the compensation review for people injured since April 2005 announced on 10 February 2010 to be completed. [318028]

Mr. Kevan Jones: The Government have accepted all of the recommendations put forward by Lord Boyce in his Review of the Armed Forces Compensation Scheme and these will be implemented as quickly as possible. Some of the changes will be completed by the summer, while those which require more time to translate into detailed legislation are expected to be complete in about 12 months' time.

Armed Forces: Absent Voting

Sir Robert Smith: To ask the Secretary of State for Defence what discussions he has had with Ministerial colleagues on arrangements to ensure that service personnel on active duty can vote at the next general election. [317446]

Mr. Kevan Jones: I am working closely with the Minister of State at the Ministry of Justice, the right hon. Member for North Swindon (Mr. Wills), and the Electoral Commission regarding this important matter. The Ministry of Justice have set up a working party of officials and representatives of service families to look at long-term solutions. We are committed to ensuring, where we can, that all service personnel and their families who are eligible are registered to vote and can do so.

The proxy vote system is available to everybody and this is the most reliable means of voting for those for whom operational demands or their location would make the completion and return of postal votes difficult. None the less, we are striving to ensure that our service men and women, particularly those in Afghanistan are registered and able to vote in the forthcoming election.

Armed Forces: Aviation

Mr. Gray: To ask the Secretary of State for Defence how many *(a)* flights and *(b)* passengers have been delayed at (i) Brize Norton, (ii) Kandahar and (iii) Akrotiri for more than (A) 24, (B) 48 and (C) 72 hours in the last six months; what recent assessment he has made of the effectiveness of the Afghan Air Bridge; and if he will make a statement. [313928]

Bill Rammell: Data are not recorded in the format requested as any flight that does not depart within 24 hours is replaced by a standby reserve flight and consequently the original tasking is no longer required. The required number of weekly airbridge trips has always been achieved in the time period.

There have been 14 occasions (9 per cent. of flights) since 1 July 2009 when a scheduled TriStar from Brize Norton has needed to be replaced by a reserve flight, and passengers have had to wait until at least the next day to travel. This also impacts on the return flight from Kandahar. A fallback flight has run on 19 occasions in the same period to account both for these cancelled flights and for the differing capacity between KC1 TriStars that carry 115 passengers, and C2 TriStars that can carry 190, which are normally scheduled. As a result, there have been a further five occasions when passengers will have had to wait until at least the next day to travel.

As with any aircraft, there are occasions when for technical reasons or bad weather flights are delayed; there are also operational reasons, such as casualty evacuation, when priorities may be changed causing delay to other passengers either on departure for Kandahar or returning to the UK. However, these delays have not compromised the overall performance of the Afghan Air Bridge, which is kept under constant review.

Armed Forces: Derbyshire

Paul Holmes: To ask the Secretary of State for Defence what steps his Department has taken to provide assistance to soldiers normally resident in Derbyshire following active service in Afghanistan and Iraq. [317697]

Mr. Kevan Jones: My Department has taken many steps in recent years to improve the support available to all service personnel on their return from operations. These include improvements to medical support, welfare and financial packages.

The hon. Member will be aware of the Defence Secretary's recent statement on 10 February 2010, *Official Report*, column 926, to the House regarding improvements to the Armed Forces Compensation Scheme. He will also be aware of my recent announcement on the Army Recovery Capability, which is an integrated and coherent programme to help injured and sick personnel return to work or prepare for civilian life.

In terms of mental health, we continue to have a package of measures to assist with the early intervention of mental health problems. These include the use of Trauma Risk Management (TRiM), which is a model of peer group mentoring and support. We also provide out-patient and in extreme cases in-patient care to ensure any mental health needs are managed as early as possible.

There are no specific programmes of assistance for service personnel from Derbyshire, but a coherent package for all Service Leavers and Veterans regardless of location.

Armed Forces: Discharges

Willie Rennie: To ask the Secretary of State for Defence how many soldiers subject to manning control are *(a)* awaiting discharge and *(b)* have been discharged since 2007. [316937]

Bill Rammell: No soldiers have been discharged under Manning Control Points since 2002, and no soldiers are awaiting discharge.

Willie Rennie: To ask the Secretary of State for Defence how many soldiers have been subject to discharge after failing a compulsory drugs test in each of the last two years; and what the class of drug was in each such case. [316938]

Bill Rammell: The Army does not tolerate drug abuse within its ranks, as it is incompatible with military service and reduces operational effectiveness.

Positive results in the Army Compulsory Drug Testing over the last three years average around 0.8 per cent, which is much less than in similar civilian work place drug testing programmes in the UK.

The number of soldiers the British Army discharged after failing compulsory drugs tests, in each of the last two calendar years is as follows:

	Number
2008	580
2009	[1]508

[1] As at 30 November 2009

Information on the class of drug in each case of discharge is not held centrally and could be provided only at disproportionate cost. However, I can provide a breakdown of the types of drugs that have been detected by compulsory drug testing, by year for the British Army for the requested period:

Ser	*Drug Type*	*2008*	*2009*
1	Heroin	1	1
2	Cocaine	427	231
3	Ecstasy	32	4
4	Cannabis	171	165
5	Amphetamine	4	8
6	Benzodiazepine	15	9
7	Ketamine	1	11
8	Total	651	429

The figures for 2009 are as at 30 November 2009.

It should be noted that soldiers are not necessarily discharged in the year in which they fail a compulsory drugs test. It can take up to five months to process a discharge if the soldier wishes to challenge the decision. A soldier might also return multiple positive tests in one period. This may account for the apparent disparity between the totals of discharges and drugs detected.

Armed Forces: Expenses

Willie Rennie: To ask the Secretary of State for Defence how much was claimed in reimbursable expenses by members of the armed forces with a rank of Brigadier or equivalent and above in each of the last 12 months. [316374]

Mr. Kevan Jones: The following table provides information on expenditure reimbursed through the Joint Personnel Administration expenses system for those officers holding the rank of Brigadier and equivalent and above.

2009	£
January	67,392.31
February	81,780.41
March	114,559.39
April	76,809.24
May	120,100.37
June	100,542.10
July	97,569.42
August	51,536.52
September	77,002.27
October	96,296.42
November	104,682.84
December	75,724.20
Total	1,064,095.49

The figures provided reflect the month in which payment has been made. Although all claims for reimbursement will be made as soon as practical after the activity, it is possible that some claims will be listed against the month following an activity or even later.

The majority of reimbursed expenses relate to subsistence allowance and motor mileage allowance. In order to reduce expenditure greater use is being made of video and telephone conferencing. When travel is necessary, all personnel are strongly encouraged to maximise the value of their time away by incorporating several meetings, thus avoiding the need to travel to the same location on separate occasions. If travelling by road, all practical measures are to be taken to allow the sharing of transport. Furthermore, when arranging meetings, due consideration is to be made to holding the meeting at a time that will allow attendees to return to their home units and avoid the need to stay overnight.

Armed Forces: Foreigners

Mrs. Curtis-Thomas: To ask the Secretary of State for Defence pursuant to the answer of 24 November 2009, *Official Report*, column 52W, on armed forces: recruitment, how many members of the armed forces there are from each other Commonwealth country. [316925]

Mr. Kevan Jones: The number of personnel joining the UK armed forces from Commonwealth countries is given in the following table. There is a discontinuity between the statistics for 2006-07 and other years presented in the table due to the introduction of the Joint Personnel Administration System and direct comparisons should not be made.

Nationality	*2006-07*	*2007-08*	*2008-09*
Total non-UK Commonwealth	680	1,220	1,460
Australian	[1]—	10	10
Bahamian	[1]—	[1]—	[1]—

Trinidadian	10	10	20
Ugandan	20	20	20
Vincentian	10	40	190
Zambian	10	10	20
Zimbabwean	60	50	60

[1] Denotes zero or rounded to zero.

Notes:

1. Figures for 2006-07 exclude RAF data as the nationality of those joining the RAF can be identified only after 2006-07 with the introduction of the Joint Personnel Administration (JPA) System.
2. Army figures for 2006-07 are for an 11 month period between 1 April 2006 and 28 February 2007. Due to the introduction of JPA, Army intake by nationality is unavailable for March 2007.
3. The data provided are provisional and subject to review due to ongoing validation of data from the JPA system.
4. Figures have been rounded to the nearest 10. When rounding to the nearest 10, numbers ending in "5" have been rounded to the nearest multiple of 20 to prevent systematic bias.

Armed Forces: Health Services

Nick Harvey: To ask the Secretary of State for Defence (1) how many armed forces personnel Defence Medical Rehabilitation Centre Headley Court is able to accommodate at any one time; [316997]

(2) how many armed forces personnel undergoing a course of rehabilitation at Defence Medical Rehabilitation Centre, Headley Court are accommodated outside Headley Court; [316998]

(3) how many armed forces personnel are awaiting appointments at Defence Medical Rehabilitation Centre, Headley Court. [316999]

Mr. Kevan Jones: The facilities at the Defence Medical Rehabilitation Centre (DMRC) at Headley Court currently include 66 ward beds and 120 other beds that are available for patients who do not require full ward facilities.

We keep the numbers of beds required at DMRC under regular review. I refer the hon. Member to my written ministerial statement on 10 February 2010, *Official Report*, column 52WS, which states that we are working on plans to provide up to 30 extra ward beds later this year.

No individuals undergoing a course of residential rehabilitation at Headley Court are housed elsewhere. As part of its services, DMRC also provides a range of out-patient treatment. Personnel attending for a routine out-patient appointment may be offered overnight accommodation in a local hotel if they are unable to travel to and from the unit in a day.

Armed forces personnel requiring residential care or rehabilitation at DMRC are transferred there in accordance with their clinical need at a given date. No patients are awaiting admission because of any shortage in the availability of ward beds. Some personnel undertaking long-term rehabilitation programmes will spend periods of time at home with their families between concentrated periods of treatment at Headley Court. This practice is in accordance with recognised clinical procedures; our experience suggests that patients can often recover better and faster in this way rather than through continuing accommodation in the rehabilitation unit.

Armed Forces: Housing

Willie Rennie: To ask the Secretary of State for Defence what the *(a)* longest, *(b)* shortest and *(c)* average period of time taken was to make repairs to forces accommodation after a call out in the last period for which figures are available. [310247]

Mr. Kevan Jones *[holding answer 11 January 2010]:* I refer the hon. Member to the answer I gave on 6 July 2009, *Official Report*, column 552W, to the hon. Member for Woodspring (Dr. Fox).

Additional information is currently being collated and verified. I will write to the hon. Member as soon as possible.

Substantive answer from Kevan Jones to Willie Rennie:

In my answers of 13 January (Official Report, column 995W) I undertook to write to you with details of the number of calls made to the Department's accommodation helplines and details of the longest, shortest and average periods of time taken to carry-out repairs to Service accommodation.

The repair and maintenance of Service accommodation worldwide is carried out under many different arrangements, managed by different areas of the Department. Given this fact, the requested details for Single Living Accommodation worldwide and Service Family Accommodation (SFA) overseas are not held centrally and can only be provided at disproportionate cost.

Repairs to SFA properties in the UK are carried out under the Housing Prime Contract (HPC) in England and Wales, the Regional Prime Contract (RPC) in Scotland and separate arrangements exist in Northern Ireland (NI). In all cases, occupants can report faults and request repairs via a freephone helpdesk.

The HPC is being delivered by Modern Housing Solutions (MHS), which is responsible for maintaining some 45,000 properties. The MHS helpdesk received some 393,656 calls in 2009, of which some 226,889 resulted in work orders being raised. Although the total number of calls regarding SFA in Scotland and NI is not available, the RPC raised 15,424 work orders for Scottish SFA in 2009 and 11,148 were raised for NI SFA.

The longest, shortest and average times taken to carry out repairs on UK SFA in 2009 are as follows:

		Repair time (in days)		
		Emergency repair	*Urgent repair*	*Routine repair*
England and Wales SFA (HPC)	Longest	12	22	39
	Shortest	Less than 1	Less than 1	Less than 1
	Average	Less than 1	4	8.5
Scotland SFA (RPC)	Longest	1	23	59
	Shortest	Less than 1	1	1
	Average	Less than 1	4	11
Northern Ireland SFA	Longest	3	43	60
	Shortest	Less than 1	Less than 1	Less than 1
	Average	1	6	10.7

The MOD contracts set the response time for attending emergency repairs as three hours, repairs to remedy or make safe are to be completed within 24 hours and subsequent rectifications in line with urgent and routine timescales. Urgent jobs would include a partial loss of essential facilities such as heating or hot water, and are to be attended within seven working days. All other jobs are classed as routine, and are to be attended within 20 working days.

From the way the data are held, it is not possible to identify the specific reasons why the longest repairs took the time they did to complete. In general, repairs can take longer based on a number of factors, including the complexity of the work, whether accommodation is occupied or the availability of parts and materials that are required to finalise repairs. In many cases the fault is made good at the first visit, but additional work is required to complete the repair.

Willie Rennie: To ask the Secretary of State for Defence pursuant to the answer of 8 February 2010, *Official Report*, column 654W, on housing, how much his Department spent on those properties in 2008-09. [317117]

Mr. Kevan Jones: It is not possible to separately identify maintenance and other housing costs for individual service family accommodation properties.

Contribution in lieu of council tax is paid on these properties; however the individual cost per property cannot be readily identified.

Willie Rennie: To ask the Secretary of State for Defence what recent representations he has received on standards of service accommodation for service personnel and their families. [317449]

Mr. Kevan Jones: I have recently received representations from the three armed forces family federations regarding the standards of service accommodation. I will be replying to them shortly, addressing the issues they raise.

In addition, as the House is aware, I regularly respond to questions and correspondence from hon. Members and the public regarding the standard of accommodation.

Angus Robertson: To ask the Secretary of State for Defence how many *(a)* service family and *(b)* single living properties designated as empty were subsequently removed from his Department's housing stock in Scotland in each of the last five years. [317785]

Mr. Kevan Jones: Those service family accommodation (SFA) properties in Scotland that are declared surplus to requirements will be held empty prior to being sold on the open market. To date, the following numbers of properties were sold in each of the last five financial years:

Financial year	*Number of SFA sold*
2005-06	238
2006-07	242
2007-08	107
2008-09	407
2009-10	[1]34

[1] To date.

Single Living Accommodation (SLA) is normally located within the wire of a defence establishment and therefore can be sold only as part of a wider disposal. Although details are held of Scottish establishments sold in the last five years, the amount of SLA included could be provided only at disproportionate cost.

Willie Rennie: To ask the Secretary of State for Defence pursuant to the answer of 9 February 2010, *Official Report*, column 810W, on armed forces: housing, who rented each of the 17 properties listed in the last 12 months. [317887]

Mr. Kevan Jones: In accordance with data protection principles and for security reasons, the Department does not disclose the details of service families living in service accommodation.

Armed Forces: Manpower

Pete Wishart: To ask the Secretary of State for Defence (1) how many people have been recruited to the Royal Regiment of Scotland in each year since 2007; [317056]

(2) how many Commonwealth citizens have been recruited to the Royal Regiment of Scotland in each year since 2007. [317057]

Bill Rammell: Figures for entrants to the Regular Battalions of Royal Regiment of Scotland (RRS) as a whole are as follows:

	Soldiers	Of which: Commonwealth citizens	Officers
2007-08	220	18	19
2008-09	177	31	13
2009-10	305	58	—

These figures reflect the numbers who have passed out of training into the RRS. They therefore exclude those who have rejoined the regiment and those who have transferred into it from other regiments.

No Commonwealth citizens have passed into the RRS as officers during this period.

Armed Forces: Prisons

Dr. Murrison: To ask the Secretary of State for Defence how many times the Prison-in-Reach working group referred to on the service personnel and veterans website has met in the last 12 months. [317634]

Mr. Kevan Jones: The Veterans Prison-in-Reach working group meets on a quarterly basis. During the course of 2009, the Group met four times:

19 March
18 June
24 September
3 December.

The Group will next meet on 11 March 2010.

Armed Forces: Reorganisation

Mr. Bone: To ask the Secretary of State for Defence what steps he plans to take to integrate the activities of the three services. [317692]

Bill Rammell: The recent Defence Green Paper recognised that joint operations have become the norm and the benefits arising from our ability to co-ordinate our activities across land, sea and air. The Green Paper suggested that the future Strategic Defence Review would look at how the joint approach could be taken further.

Armed Forces: Salt

Mrs. Villiers: To ask the Secretary of State for Defence whether his Department has a policy on stockpiling of salt and grit by the armed forces for adverse winter weather. [316892]

Mr. Kevan Jones: There is no specific policy on stockpiling of salt and grit by the armed forces for adverse winter weather.

Armed Forces: Cadets

Michael Gove: To ask the Secretary of State for Defence how much was spent on assistance to cadet forces in maintained schools in *(a)* 1997, *(b)* 2003 and *(c)* the latest year for which figures are available. [316311]

Mr. Kevan Jones: The information is not held in the format requested. A recent study, however, estimated the overall annual public contribution to the cadet forces to be in the region of £140 million.

Armoured Fighting Vehicles

Mr. Gray: To ask the Secretary of State for Defence when he expects to announce the winner of the contract to supply the further elements of the new electronic systems for the Warrior armoured vehicle upgrade programme. [316922]

Mr. Quentin Davies: The competition for Warrior Capability Sustainment Programme (WCSP), which includes an upgrade to the Warrior's electronic architecture, is ongoing. I intend to make an announcement shortly on the outcome of this competition once the assessment is complete and the investment decision approved.

Mr. Gray: To ask the Secretary of State for Defence when he expects to announce his plans for the future of the Future Rapid Effects System contract. [316923]

Mr. Quentin Davies: The Future Rapid Effect System programme has been recast from a single programme into a set of constituent projects, namely: the Specialist Vehicles; the Utility Vehicles; and the Manoeuvre Support Vehicles. The competition for the Specialist Vehicle project is ongoing and I intend to make an announcement on the outcome of this competition shortly, once the assessment is complete and the investment decision approved.

Baha Mousa Inquiry

Harry Cohen: To ask the Secretary of State for Defence what the monetary value is of awards of legal aid made in respect of the Baha Mousa inquiry; and whether an estimate has been made of the total value of such awards made during the course of that inquiry. [317370]

Mr. Bob Ainsworth: No awards of legal aid have been made to witnesses to the Baha Mousa Inquiry. However, all witnesses to the Inquiry are provided with free independent legal advice funded by the Ministry of Defence (MOD). The MOD has so far paid £3.7 million in legal costs for witnesses to the Inquiry. Future costs are uncertain and will depend on the number of witnesses the Inquiry decides to call before it concludes.

Batteries

Chris Ruane: To ask the Secretary of State for Defence how much his Department spent on *(a)* rechargeable and *(b)* single use batteries in the latest period for which figures are available. [316720]

Mr. Quentin Davies: This information is not held centrally and could be provided only at disproportionate cost.

Blandford Camp

Mr. Walter: To ask the Secretary of State for Defence what plans he has for the future of Blandford Camp; and if he will make a statement. [317350]

Bill Rammell: It is currently anticipated that all communications training that currently takes place at Blandford Camp will move to RAF St. Athan as part of the implementation of the Defence Training Review by the end of 2015. We are pursuing alternative defence uses for Blandford Camp, but it is still too early to say what these might be.

Blaydon

Mr. David Anderson: To ask the Secretary of State for Defence if he will set out, with statistical information related as directly as possible to Blaydon constituency, the effects on Blaydon of his Department's policies and actions since 2000. [315303]

Mr. Kevan Jones: The Ministry of Defence delivers security for the equal benefit of all the people of the UK, and the Overseas Territories, by defending them, including against terrorism; and acting as a force for good in the world by strengthening international peace and stability. Our continuing main effort of success in Afghanistan, preventing al-Qaeda from having a secure base from which to threaten us directly, keeps our country safe from the threat of terrorism.

The Service Personnel Command Paper set out the Nation's Commitment to our Armed Forces, their families and veterans. This is a cross-Government initiative that is making real differences to the lives of our service personnel, veterans and their families and we are fully committed to upholding its key principles. The first annual report on the Service Personnel Command Paper was published on 19 November 2009. This report captured the progress made against the commitments of the Command Paper within the first year following its launch. It can be found at the following link:

http://www.mod.uk/DefenceInternet/Showcase/ProvidingForOurPeople.htm

The report sets out the substantial progress that has been made including:

compensation for most serious injuries doubled;

free further education for service leavers;

retention of places on NHS waiting lists;

Local Connection legislation amended in England and Wales, with a similar exercise currently being worked on in Scotland, to give service leavers credit for having lived and worked in an area when applying for social housing; and

from April 2009, ex-service men and women who are seriously injured were given priority for specially adapted social homes.

Defence Statistics are not available at constituency level, but regional statistics on service personnel numbers and defence employment can be found on the Defence Analytical Service and Advice website. Location of military personnel can be found in Tri Service Publication 10 at the following link:

http://www.dasa.mod.uk/applications/newWeb/www/index.php?page=67&pubType=0&thiscontent=100&date=2010-01-28

Regional defence employment can be found in Tables 1.11, 1.11a and 1.11b in UK Defence Statistics 2009 at the following link:

http://www.dasa.mod.uk/modintranet/UKDS/UKDS2009/c1/table1.11b.html

Additionally, although not defence-related, the Neighbourhood Statistics Service provides a wide range of statistical information at parliamentary constituency level, taken from the 2001 census and other sources. This service is available on the National Statistics website at the following link:

http://neighbourhood.statistics.gov.uk

Chemical Weapons: Animals

Mr. Drew: To ask the Secretary of State for Defence pursuant to the answer of 9 February 2010, *Official Report*, columns 811-12W, on chemical weapons: animals, what quantities of each *(a)* chemical and *(b)* biological warfare agent are held in the UK; when such agents were manufactured; and what quantity of each agent is permitted to be held under the (i) Chemical Weapons Convention and (ii) Biological and Toxic Weapons Convention. [317542]

Mr. Quentin Davies: The UK is a State Party to both the Chemical Weapons Convention (CWC), and the Biological and Toxin Weapons Convention (BTWC). In accordance with these conventions, the UK maintains small quantities of chemical and biological warfare agents for research purposes, that are not prohibited under the conventions, to ensure that UK forces are adequately protected in the event that chemical or biological weapons are used against them.

The CWC categorises chemical warfare agents under Schedule 1 chemicals. Under the CWC the UK is permitted to hold a maximum aggregate quantity of one tonne of Schedule 1 chemicals. There are no set limits on quantities of individual chemicals within this overall amount. The MOD holds some Schedule 1 chemicals within the one tonne limit. The Schedule 1 chemicals held by MOD are between approximately 10 and 40 years old, although on occasion small quantities (typically a few grammes) of Schedule 1 chemicals that are not normally held have been manufactured. These holdings are inspected by the Organisation for the Prohibition of Chemical Weapons (the OPCW), the international body set up to implement the CWC, to ensure compliance with the convention.

The BTWC does not stipulate specific agents that are prohibited, nor does it specify quantities of agents that are permitted to be held. It permits the possession of biological agents and toxins of types and in quantities consistent with prophylactic, protective or other peaceful purposes, recognising that such agents exist in nature and are used for legitimate purposes, including the development of protective materials and medical countermeasures to biological agents and toxins.

Defence Equipment

Willie Rennie: To ask the Secretary of State for Defence what *(a)* military equipment and *(b)* sensitive personal data were lost by his Department in the last 12 months. [317330]

Bill Rammell: The value of equipment lost or stolen, along with a range of other types of losses, is published in the summary of losses and special payments in the MOD's Annual Report and Accounts. Copies are available in the Library of the House and online at the following link:

http://www.mod.uk/DefenceInternet/AboutDefence/CorporatePublications/AnnualReports/

An explanation is provided for all losses which exceed £250,000. Loss information for equipments below £250,000 is not held centrally and could be provided only at disproportionate cost.

There has been one incident involving the loss of sensitive personal data in the past 12 months.

Defence Medical Rehabilitation Centre

Dr. Murrison: To ask the Secretary of State for Defence what the monthly occupancy rate for *(a)* ward and *(b)* other beds has been at the Defence Medical Rehabilitation Centre, Headley Court since January 2003. [318022]

Mr. Kevan Jones: Since May 2007, the Defence Medical Rehabilitation Centre, Headley Court, has had a total of 66 ward beds for the care of complex trauma and neurological in-patients. The majority of such patients are accommodated in these ward beds but some who have an appropriate level of function can alternatively be accommodated in 15 bed spaces in a separate building on site which are suitable for their clinical needs. These beds are part of a total of 120 hostel beds for patients whose condition (trauma or less serious musculoskeletal problem) allows them to be independent of nursing.

Occupancy rates for ward beds and other beds from 2008 are as follows:

	Ward beds		*Other beds*	
–	*Average patient numbers*	*Percentage occupancy*	*Average patient numbers*	*Percentage occupancy*
2008			—	—
January	24	36	—	—
February	39	59	—	—
March	43	65	—	—
April	43	65	—	—
May	43	65	—	—
June	42	64	—	—
July	34	52	—	—
August	35	53	—	—
September	38	58	98	82
October	38	58	120	100
November	36	55	109	91
December	25	38	23	19
2009				
January	27	41	86	72
February	37	56	75	63
March	40	61	104	87
April	42	64	120	100
May	43	65	68	57
June	42	64	120	100
July	43	65	104	87
August	42	64	80	67
September	50	76	92	77
October	57	86	84	70
November	56	85	101	84
December	55	83	18	15
2010				
January	61	92	82	68

Data prior to January 2008 for ward beds, and prior to August 2008 for other beds, are not centrally held and could be provided only at disproportionate cost.

Non-ward bed occupancy is deliberately managed to achieve high percentages in order to speed the rehabilitation of less seriously injured personnel by maximising the size of groups undertaking rehabilitation together.

While the statistics also indicate that ward bed occupancy has risen markedly in recent months, accommodation has been made available in ward beds for all operational casualties as and when they required it. Given this rise in patient numbers, we have a range of contingency plans, which include greater use of the 15 non-ward bed spaces mentioned, for those patients whose clinical condition allows, and greater use of our regional rehabilitation units for the treatment of less seriously injured personnel who might otherwise be accommodated at Headley Court. In addition, as I announced to the House on 10 February 2010, *Official Report*, columns 926-36, we are now planning to create up to 30 more ward beds at Headley Court later this year.

Dr. Murrison: To ask the Secretary of State for Defence how many follow-up visits former in-patients at DMRC Headley Court had on average in 2009. [318029]

Mr. Kevan Jones: Between 1 January 2009 and 31 December 2009, 722 patients attended out-patient appointments following either an in-patient stay or residential rehabilitation course at DMRC Headley Court. On average these patients had two follow-up visits during 2009, amounting to 1,683 out-patient appointments following their in-patient stay or residential rehabilitation course.

Defence Medical Services: Private Sector

Willie Rennie: To ask the Secretary of State for Defence how much his Department spent on employing private contractors in defence medical services in each of the last five years. [314176]

Mr. Kevan Jones: The vast majority of health care for service personnel is provided by the Defence Medical Services or the NHS. However, there will be times when it is necessary to employ private medical contractors, such as when a particular specialism is not readily available, or when it would be impractical to provide the service overseas using internal resources. For example, aspects of health care for personnel posted overseas to Germany and other smaller bases and detachments.

In practice, such private sector health provision is funded by a number of individual budgets across the MOD, including at local unit level within the single services. This information could only be provided at disproportionate cost.

However, we have a breakdown of costs from the MOD centre budget and British Forces Germany which indicates the sums involved for the health services they have contracted. This information is provided in the following tables.

MOD centre budget

Financial year	*Expenditure (£)*
2005-06	5,802,167
2006-07	4,892,840
2007-08	6,561,094
2008-09	7,830,192
2009-10 (to end January 2010)	3,744,016

These figures include specialist services where appropriate NHS provision is not available, including prosthetics and neurological services, and civilian locums for operational deployments. Prior to 2009-10, they included contract costs for the provision of in-patient mental health provision; this service is now provided through contract with NHS providers.

British Forces Germany

Financial year	*Expenditure (£)*
2005-06	43,790,000
2006-07	43,720,000
2007-08	45,450,000
2008-09	51,283,000
2009-10 (to April 2009)	39,016,000

These figures include secondary health care contracts with German hospitals; non-contracted extra-contractual costs for specialist care; primary care contract costs with SSAFA Forces Help and Guy's and St. Thomas' NHS Foundation Trust (i.e. not all private contractor provided); non-contracted primary care costs; and costs related to Isolated Detachments in European Theatre.

Departmental Energy

Andrew Stunell: To ask the Secretary of State for Defence what the estimated *(a)* amount and *(b)* cost was of energy used in his Department and its agencies in each year since 1997; what proportion of the energy used was generated from renewable sources in each of those years; and if he will make a statement. [317235]

Mr. Kevan Jones: The MOD total energy consumption, spend and proportion of energy used generated from renewable sources is shown in the following table:

Financial year	*Consumption (kWh)—weather corrected*	*Cost (£ million)*	*Percentage generated from renewables*
2008-09	5,994,113,743	345	10
2007-08	6,222,357,786	307	8
2006-07	6,313,429,656	319	9
2005-06	6,440,586,442	291	6
2004-05	7,587,922,256	241	6
2003-04	6,796,490,248	220	[1]—
2002-03	6,645,837,501	223	[1]—
2001-02	6,784,279,754	234	[1]—
2000-01	5,403,345,255	240	[1]—
1999-2000	2,439,054,321	231	[1]—

[1] Data not held

Data on energy consumption prior to 1999-2000 are not held centrally and could be provided only at disproportionate cost. Similarly data on the amount of energy generated from renewable sources prior to 2004-05 are not held.

Departmental Housing

Willie Rennie: To ask the Secretary of State for Defence how much his Department has spent on *(a)* permanent and *(b)* temporary accommodation for civil servants in each of the last 12 months. [314198]

Mr. Kevan Jones: I will write to the hon. Member when I have obtained the information, and will place a copy in the Library of the House.

Departmental Official Hospitality

Willie Rennie: To ask the Secretary of State for Defence (1) how much the Director General Land Warfare has spent on entertainment in each of the last 12 months; [316901]

(2) how much the Director General Land Warfare spent on *(a)* car hire, *(b)* accommodation, *(c)* hotels and *(d)* air fares in each of the last 12 months. [316966]

Bill Rammell: I refer the hon. Member to the answers I gave him on 10 February 2010, *Official Report*, columns 968-70W, on Departmental Visits Abroad, Armed Forces: Housing and Armed Forces: Official Cars.

Director General Land Warfare has responsibility for staff located in several overseas locations where the British Army regularly conduct training exercises, including Canada, Kenya, and Brunei. A certain amount of overseas travel is therefore an essential part of the job. When travelling overseas, the Director General Land Warfare stays in local service facilities rather than hotels whenever possible.

Director General Land Warfare has claimed the following expenses in the last 12 months:

	Entertainment	*Flights*	*Accommodation/hotels*	*Car hire*
February 2009	0	8,260	0	0
March 2009	40	0	0	0
April 2009	0	430	0	0

	Entertainment	*Flights*	*Accommodation/hotels*	*Car hire*
May 2009	0	4,960	0	460
June 2009	290	2,130	330	0
July 2009	50	0	0	0
August 2009	0	310	0	0
September 2009	320	300	0	0
October 2009	0	2,210	0	0
November 2009	0	30	0	0
December 2009	0	100	0	0
January 2010	0	0	0	0
Total	700	18,730	330	460

All claims submitted by Director General Land Warfare in the last 12 months have been in accordance with relevant MOD policy, rules and guidance.

Departmental Property

Pete Wishart: To ask the Secretary of State for Defence how much was received by his Department from sales of property in Scotland in 2009. [317058]

Mr. Kevan Jones: The value of receipts from sales of property in Scotland for the last auditable period of 2008-09 was £24.84 million. The list of potential sales for the period 2009-10 is held in the House of Commons Library. This covers all property sales in the period including Service accommodation.

Departmental Public Expenditure

Dr. Murrison: To ask the Secretary of State for Defence on what date his predecessor was first informed of the determination by HM Treasury in autumn 2003 that his Department had exceeded its budget in the previous 15 months in respect of the flexibility permitted by resource account budgeting; what estimate was made of the size of that overspend; what discussions he had with the Chancellor of the Exchequer on that matter; and if he will make a statement. [316087]

Mr. Bob Ainsworth: Following the 2002 spending review, a technical issue arose regarding flexibility between the MOD's core cash and non-cash expenditure plans.

HM Treasury and MOD officials identified the issue in the preparation of Main Estimates for 2003-04. My predecessor was first informed in April 2003. Discussions between MOD and HM Treasury officials and Ministers led to agreement on a way ahead in late 2003.

Departmental Training

Grant Shapps: To ask the Secretary of State for Defence pursuant to the answer of 9 February 2010, *Official Report*, column 813W, on departmental training, what the cost was of each media and communications training session. [317536]

Mr. Kevan Jones: The training sessions were conducted by Ministry of Defence personnel based at the Defence Media and Operations Centre. The only additional cost to the Department was their travel costs into London which were approximately £30 per session.

European Defence Agency

Mrs. Curtis-Thomas: To ask the Secretary of State for Defence pursuant to the answer of 25 November 2009, *Official Report*, column 153W, on European Defence Agency, with which Capability Development Plan programmes the UK is involved, what the monetary value of each such programme is; and what the nature is of the UK's involvement. [316926]

Mr. Quentin Davies: I refer the hon. Member to the answer given on 28 January 2010, *Official Report*, column 1017W, to the hon. Member for Woodspring (Dr. Fox)

Ex-servicemen

Mr. Hoyle: To ask the Secretary of State for Defence what recent discussions he has had with the Royal British Legion on support services for former service personnel. [314223]

Mr. Kevan Jones: I meet regularly with representatives of the Royal British Legion. Most recently, these meetings have concentrated on, among other things, Royal British Legion's involvement as a member of the Armed Forces Compensation Scheme Review's Independent Scrutiny Group; the launch of the Army Recovery Capability; and the launch of the Welfare Pathway initiative.

This demonstrates that the Royal British Legion remains a key partner in the Government's work to ensure that former service personnel receive the services, benefits and respect they deserve. I would like to pay tribute to all the work they do in support of the armed services family.

Angus Robertson: To ask the Secretary of State for Defence what support his Department provides to military personnel upon discharge with regard to *(a)* employment needs, *(b)* housing needs and *(c)* financial planning advice; and if he will make a statement. [317790]

Mr. Kevan Jones: The National Audit Office report "Leaving The Services" of 2007 acknowledged the success of the resettlement programme which found that 94 per cent. of those seeking work who used the career transition partnership resettlement services were in paid employment within six months of leaving the armed forces. Nevertheless, the Ministry of Defence recognises that making the transition from the armed forces into civilian life can be daunting.

Individual employment needs are identified from a mandatory interview with a trained service resettlement adviser who is able to signpost to a number of organisations and services ranging from the 'flexible new deal' programme available at Jobcentre Plus through to workshops and training delivered through the career transition partnership, a partnering arrangement with a leading specialist outplacement company. Furthermore, lifetime job finding support is available through the Officers' Association or the Regular Forces Employment Association.

For housing, all service personnel can attend presentations delivered by the Joint Service Housing Advice Office throughout the country and overseas. The "Options for Housing" presentation includes financial advice for housing options and accessing the Key Worker Living Scheme, entitlement to which has been extended for a year after discharge, in line with our Service Personnel Command Paper (7424) commitment. We have also removed the local connection criteria that treated service personnel unfairly when accessing social housing. For single personnel, SPACES (Single Persons Accommodation Centre for the Ex-Services) aims to assist single service leavers with securing accommodation. Our latest project "The Beacon" in Catterick complements Mike Jackson House in Aldershot and the Galleries in Richmond, which help us to reduce the potential of a single person leaving the armed forces becoming homeless.

Financial planning advice is provided through the Financial Aspects of Resettlement Briefing by the Forces Pension Society. This advises all service leavers throughout the country and overseas on matters ranging from the Armed Forces Pension Schemes through to debt counselling. The recent review of the Armed Forces Compensation Scheme recommended that for those who receive compensation, there needs to be better guidance and/or access to independent financial advice to allow for informed decisions. The Government have accepted all recommendations in full.

Angus Robertson: To ask the Secretary of State for Defence whether the 1999 protocol between the Deputy Chief of Defence Staff and the Director General of the Prison Service on the identification of former service personnel in prison to link them with their former regiment upon release is still in force; and if he will make a statement. [317794]

Mr. Kevan Jones: We continue to work closely with the Ministry of Justice and the third sector to raise awareness of veterans in prison to the help and support available to them and to their families, while they serve their sentence and as they prepare for release. The Veterans In Custody Support Service, for example, is designed so that prison staff can quickly identify veterans in prison and refer them to the various support organisations available to assist them, including the Service Personnel and Veterans Agency. The agency's website, "Veterans: UK", provides additional links to further organisations, including regimental associations. Through this service, veterans are encouraged and assisted in seeking the necessary support to help address their needs.

Angus Robertson: To ask the Secretary of State for Defence whether there is a minimum length of time that must be served by military personnel to qualify for entitlement to support services provided by his Department upon discharge. [317791]

Mr. Kevan Jones: There is no minimum length of time that must be served by military personnel to qualify for entitlement to some form of support services provided by the Ministry of Defence upon discharge. In order to reflect the differing needs of service personnel, the longer that is served the greater the amount of time that is allocated to enable resettlement activity. The level of support needed and given for those that have served for a relatively short period of time, and who therefore have more recent experience of life outside the armed forces, is less than someone who has spent their working life in service. However, all service personnel are entitled to receive lifetime job finding support through either the Officers' Association or the Regular Forces Employment Association.

Any personnel medically discharged are entitled a full resettlement package.

Angus Robertson: To ask the Secretary of State for Defence what the budget for support services offered by his Department to military personnel upon discharge has been in each of the last 10 years. [317792]

Mr. Kevan Jones: The information is not held in the format requested. Only those costs relating to the contract held between the MOD and Right Management Ltd., a specialist outplacement company, are held centrally. The following table provides information on the amount expended, which reflects the number of service leavers taking advantage of the resettlement opportunities available.

Financial year	*Total contract payments (£ million)*
2000-01	6.0
2001-02	6.3
2002-03	6.3
2003-04	6.5
2004-05	7.1
2005-06	8.3
2006-07	8.9
2007-08	8.4
2008-09	8.2

Other costs attributable to resettlement, such as the staffing costs for the Resettlement Information Service or the travel and subsistence for the service leaver, is not held centrally and could be provided only from a search of manual records at disproportionate cost.

Ex-servicemen: Prisoners

Mr. Davidson: To ask the Secretary of State for Defence what information his Department holds on the number of armed forces veterans in prison in Scotland; and if he will make a statement. [316845]

Mr. Kevan Jones: Information on the number of veterans in prison in Scotland is not held.

On 6 January 2010, *Official Report*, columns 6-7WS, my hon. Friend the Minister for the National Offender Management Service and I announced the results of the joint work by the Ministry of Defence and the Ministry of Justice to determine the number of veterans in prison in England and Wales. The Defence Analytical Services and Advice (DASA) organisation within the MOD have estimated that almost 3 per cent. of the prison population in England and Wales are veterans.

We are currently investigating the feasibility of conducting a similar exercise with the Scottish Prison Service to determine the number of veterans in prison in Scotland.

Falkland Islands

Bob Russell: To ask the Secretary of State for Defence if he will estimate the total expenditure under the defence budget of the military presence in the Falkland Islands since 1982; and what estimate he has made of such expenditure in *(a)* 2009-10 and *(b)* 2010-11. [317591]

Bill Rammell: The costs from 1982-83 to 2008-09 (outturn figures) for the Falkland Island are as follows:

Financial year	*£ million*
1982-83	780
1983-84	637 (391)
1984-85	644 (403)
1985-86	572 (396)
1986-87	402 (236)
1987-88	229 (118)
1988-89	102 (59)
1989-90	68 (60)
1990-91	66
1991-92	72
1992-93	58
1993-94	67
1994-95	66
1995-96	70
1996-97	81
1997-98	76
1998-99	72
1999-2000	71
2000-01	143
2001-02	115
2002-03	120
2003-04	1[illegible]1
2004-05	113
2005-06	143
2006-07	65
2007-08	67
2008-09	70

From 1983-84 to 1989-90 you will note two figures are available. The higher figure includes garrison costs, the cost of replacing capital equipment lost and residual campaign costs associated with the Falkland conflict. The lower figure reflects just garrison costs.

There is some variation between years caused by what categories of expenditure were included. For example, in recent years figures do not include military equipment, military personnel pay, service children education facilities, estate works and maintenance, IT and communication, maritime visits or air charter. Costs associated with these activities are met by other top level budget holders. The MOD's core budget is separated into eight top level budget holders (TLBs), each responsible for delivering individual military objectives. Within these TLBs the budget is not routinely allocated in terms of regions, but in terms of categories of expenditure. To provide the level of detailed breakdown of these categories in relation to the Falkland Islands would be of disproportionate cost.

The reason for the lower figures since 2006-07 is due to a change in MOD accounting policy, whereby reporting fixed asset depreciation costs and the cost of capital on fixed assets are recorded elsewhere.

The estimated costs for 2009-10 and 2010-11 are £70 million and £69 million respectively.

Helicopters

Angus Robertson: To ask the Secretary of State for Defence what the end of service dates are of the helicopters in the Sea King fleet. [317782]

Mr. Quentin Davies: I refer the hon. Member for Moray to the statement made by the Secretary of State for Defence on 15 December 2009, *Official Report*, columns 99-100WS.

HMS Gannet

Angus Robertson: To ask the Secretary of State for Defence how many search and rescue missions were flown from HMS Gannet in each of the last five years. [317779]

Bill Rammell: The information requested is provided in the following table:

HMS Gannet Search and Rescue

Calendar year	*SAR callouts*	*Persons assisted*
2005	267	226
2006	269	303
2007	359	286
2008	382	347
2009	447	378

Angus Robertson: To ask the Secretary of State for Defence how many *(a)* civilian and *(b)* service staff have been employed at HMS Gannet, Royal Navy Unit Prestwick in each of the last five years. [317780]

Bill Rammell: The civilian and service staff employed at HMS Gannet, Royal Navy Unit Prestwick, in each of the last five years is as follows:

Manning levels at HMS Gannet

	2005	*2006*	*2007*	*2008*	*2009*	*2010*
Royal Navy aircrew	20	20	20	20	21	21
Royal Navy support	92	63	17	13	8	5
Contractor engineering support	0	0	40	42	42	45
Civil service	11	10	8	8	8	8
Support staff	18	20	20	17	16	15
MGS/MDP	21	21	21	20	10	9
Totals	162	134	134	120	105	103

The figures reflect: the award of the Sea King Integrated Operational Support contract in 2007, which replaced the Royal Navy Maintenance personnel with civilian contractors; and the reduction in the Military Guard Service/Ministry of Defence Police following the closure of the Greensite (accommodation and administrative site) which came under the jurisdiction of the Prestwick Airfield authority during 2008.

Angus Robertson: To ask the Secretary of State for Defence what the maintenance costs were of HMS Gannet, Royal Navy Unit Prestwick in each of the last five years. [317781]

Mr. Kevan Jones: Planned and reactive maintenance costs for HMS Gannet for each of the last five years are shown in the following table.

Financial year	*Maintenance cost (£)*
2005-06	72,351
2006-07	72,092
2007-08	69,804
2008-09	61,634
2009-10	[1]43,724

[1] To date.

Projects outside the scope of this response include changes to operational requirements, condition improvements, and lifecycle replacements.

The reduction in maintenance costs per year is due to the reactive maintenance element of the service provided. By its very nature reactive maintenance is unpredictable in its volume, scope and cost and is dependent on many operational usage factors.

Improvised Explosive Devices: Afghanistan

Bob Spink: To ask the Secretary of State for Defence what estimate he has made of the number of improvised explosive devices identified by the armed forces in Afghanistan in each quarter of each of the last three years. [317965]

Mr. Bob Ainsworth: I am withholding the information as its disclosure would, or would be likely to, prejudice the capability, effectiveness or security of the armed forces.

Iraq Committee of Inquiry

Jenny Willott: To ask the Secretary of State for Defence (1) whether any *(a)* documents and *(b)* other items of information in electronic format sought from his Department by the Iraq Inquiry have not been disclosed owing to the Government's obligations to foreign governments or international bodies; and if he will make a statement; [310177]

(2) how many *(a)* documents and *(b)* other items of information held in electronic format at each level of security classification the Iraq Inquiry has requested from his Department; and if he will make a statement; [310178]

(3) how many and what proportion of *(a)* documents and *(b)* other items of information held in electronic format at each level of security classification requested by the Iraq Inquiry have been provided to it by his Department; and if he will make a statement. [310179]

Mr. Bob Ainsworth: I refer the hon. Member to the answer given by my right hon. Friend the Minister of State for the Cabinet Office (Angela E. Smith) on 14 December 2009, *Official Report*, columns 840-41W.

Jenny Willott: To ask the Secretary of State for Defence how many *(a)* documents and *(b)* other items of information in electronic format provided by his Department to the Iraq Inquiry that Inquiry has sought to publish under the procedure set out in the protocol on documents and other written and electronic information; and if he will make a statement. [314547]

Mr. Bob Ainsworth: I refer the hon. Member to the answer given by the Minister for the Cabinet Office on 9 February 2010, *Official Report*, column 894W.

Members: Correspondence

Sir Michael Spicer: To ask the Secretary of State for Defence when he will reply to the e-mail from the hon. Member for West Worcestershire, dated 10 November 2009, on citation. [317249]

Mr. Kevan Jones: The hon. Member's e-mail was not sent to the correct address. It has now been resent and a response will be provided shortly.

Nick Harvey: To ask the Secretary of State for Defence when he plans to answer question 312672, on the crash of Nimrod XV230, tabled on 19 January 2010. [317506]

Mr. Bob Ainsworth: I replied to the hon. Member on 11 February 2010.

Met Office

Dr. Murrison: To ask the Secretary of State for Defence whether the definition of the Met Office's Public Task has been amended to take account of the reference to it in the most recent edition of the Cabinet Office Asset Portfolio; and if he will make a statement. [317583]

Mr. Kevan Jones: The definition of the Met Office's Public Task has not been amended. The December 2009 Cabinet Office Operational Efficiency Programme: Asset Portfolio document reflects Met Office's public task.

Met Office: Standards

Sammy Wilson: To ask the Secretary of State for Defence what assessment he has made of the accuracy of the forecasts provided by the Met Office in the last 12 months. [316872]

Mr. Kevan Jones: Met Office's short-range forecasting accuracy is one of its four key performance targets which is regularly monitored by the Met Office Board on behalf of the Minister. The targets are agreed annually and are laid in Parliament. Met Office report against their performance in their annual report which is also laid before Parliament.

As a World Meteorological Organization (WMO) designated centre for seasonal/long-range forecasts, Met Office is required to carry out assessments of its forecasting accuracy using procedures laid down by WMO. The most recent assessment was carried out in September 2009.

Military Exercises

Willie Rennie: To ask the Secretary of State for Defence what proportion of his Department's planned military training exercises were cancelled before they took place in each of the last five years. [314177]

Bill Rammell: Success in Afghanistan is our main effort, and will remain our principal commitment for as long as it takes. Our approach at this time must be and is Afghanistan first. All exercises that better prepare our forces for operations in Afghanistan will continue but those that are considered not to directly support our effort, have limited training value to support our effort, or where the planned objectives for that exercises can be achieved elsewhere have been cancelled.

The proportion of MOD exercises cancelled in the last five full financial years is in the following table

	Scheduled training events	*Cancelled events*	*Percentage*	*Conducted*
2008-09	542	80	14.7	462
2007-08	722	76	10.5	646
2006-07	680	64	9.4	616
2005-06	533	58	10.8	475
2004-05	379	79	20.8	300

Missile Defence Centre

Mr. Drew: To ask the Secretary of State for Defence what expenditure his Department has incurred on the Missile Defence Centre since it opened. [318010]

Mr. Quentin Davies: Since its launch in July 2003 until the end of financial year 2008-09, the Ministry of Defence has spent some £35.7 million on missile defence research managed by the UK Missile Defence Centre. A further £4.6 million is forecast for the current financial year.

Navy: Middle East

Mr. Soames: To ask the Secretary of State for Defence on what tasks *(a)* HMS Pembroke and *(b)* HMS Lancaster are currently deployed in the Middle East. [317326]

Bill Rammell: HMS Pembroke is assisting with ensuring free movement of ships to Iraq and the region as part of Operation Telic. At the invitation of other nations, she may also take part in multinational exercises with regional naval forces.

HMS Lancaster is tasked under Operation Calash to carry out counter-terrorism and counter-piracy operations in order to improve the stability of the region.

Nimrod Aircraft

Nick Harvey: To ask the Secretary of State for Defence pursuant to the oral statement of 16 December 2009, *Official Report*, columns 967-69, on the Nimrod review, whether he has taken steps to apportion *(a)* responsibility and *(b)* liability to (i) BAE Systems and (ii) QinetiQ in respect of the crash of Nimrod XV230 in September 2006. [312672]

Mr. Bob Ainsworth: Yes. We set up the Nimrod Review in order, among other things, to assess where responsibility lay for the crash of Nimrod XV230. BAE Systems and QinetiQ were therefore put on notice in December 2007 that MOD might bring them into the compensation claims brought against MOD by the bereaved families. That position has been confirmed since the publication of Mr. Haddon-Cave's report and discussions with the companies' lawyers will commence shortly.

Nuclear Non-Proliferation Treaty

Paul Flynn: To ask the Secretary of State for Defence what discussions he has had with the Secretary of State for Foreign and Commonwealth Affairs on the Government's position at the Nuclear Non-Proliferation Treaty Review Conference in May 2010. [317451]

Mr. Bob Ainsworth: I have regular exchanges on nuclear matters with the Secretary of State for Foreign and Commonwealth Affairs and my other Cabinet colleagues.

We continue to work with partners from across the international community to seek a mandate for concrete, realistic and balanced action to strengthen the NPT's three mutually reinforcing pillars: non-proliferation, disarmament, and the peaceful use of nuclear energy, as well as addressing the threats to nuclear security.

Officers

Willie Rennie: To ask the Secretary of State for Defence how many *(a)* Major-Generals and *(b)* Brigadiers there are posted in the South of England. [316936]

Bill Rammell: As at 1 October 2009, a total of 120 Brigadiers and 30 Major-Generals were stationed in the South of England. These figures include those temporarily deployed on operations away from their home station.

Willie Rennie: To ask the Secretary of State for Defence how many *(a)* Major-Generals and *(b)* Brigadiers there are in the army; and what the establishment is for each such rank. [316903]

Bill Rammell: As at 1 December 2009, there were 41 Major-Generals against an establishment of 44, and 174 Brigadiers against an establishment of 174.

Willie Rennie: To ask the Secretary of State for Defence how many *(a)* Major-Generals and *(b)* Brigadiers in the army are on gardening leave. [316904]

Bill Rammell: There are currently no Major-Generals or Brigadiers in the Army on gardening leave.

Officers: Pay

Willie Rennie: To ask the Secretary of State for Defence what the salary is of a Major-General. [316902]

Bill Rammell: The base pay of a Major-General ranges between £101,537 and £114,729, depending on performance. This is augmented by an X-Factor of £2,336. The X-Factor is a percentage increase to basic pay which reflects the difference between the conditions of service experienced by members of the armed forces and conditions in civilian life, which cannot directly be taken into account by the job evaluation process.

The salaries for Major-Generals and above, and their equivalents in the Royal Navy and Royal Air Force, are determined by the Senior Salaries Review Body.

Public Holidays

Bob Spink: To ask the Secretary of State for Defence what estimate he has made of the cost to his Department of the introduction of an additional public holiday; and if he will make a statement. [315121]

Mr. Bob Ainsworth: We have made no estimate of the cost of an additional public holiday. Salary costs are fixed and would be unchanged. Military pay already takes account of the need to work unsocial and additional on-call hours as required, and elements of our Armed Forces already undertake duties on certain public holidays. While it might be necessary for some civilians in key roles to work on the public holiday, we would seek to minimise the cost to the Department by encouraging them to take time off in lieu, as is the MOD's current working practice. Similarly, we plan activities in advance to minimise disruption.

There would be some compensating savings, for example from reduced consumption of utilities, such as electricity, at MOD premises.

RAF Croughton

Mr. Drew: To ask the Secretary of State for Defence on what dates US *(a)* military personnel, *(b)* civilians and *(c)* contractors moved from RAF Fairford to RAF Croughton. [317981]

Bill Rammell: No US personnel or contractors have moved from RAF Fairford to RAF Croughton.

RAF Lyneham

Mr. Gray: To ask the Secretary of State for Defence what the construction cost was of the *(a)* new HQ building, *(b)* C130J simulator building, *(c)* new HQ for (i) 24 and (ii) 30 Squadron, *(d)* new gymnasium, *(e)* new pitch roof on the barrack blocks, *(f)* new sergeant's mess annexe, *(g)* new HQ for 47 Air Despatch Regiment and *(h)* extension to the security fence on the south side of the main entrance; and what further infrastructure improvements are planned to take place at RAF Lyneham. [310129]

Bill Rammell: In line with guidance from the National Audit Office, financial records are not retained for longer than six years and the information requested is therefore not available prior to 2004. Most of the construction projects referred to in the question were completed before this date and are no longer considered as new. The fitness suite was completed in 2004 and cost £784,000. The extension of the security fence was completed in 2009 and cost £18,000. These have been minimal expenditure on infrastructure since collocation at RAF Brize Norton was announced in 2003.

RAF Menwith Hill

Mr. Drew: To ask the Secretary of State for Defence on what dates members of the Intelligence and Security Committee have visited Menwith Hill since 2000; and which members of the committee participated in each such visit. [317979]

Bill Rammell: The Intelligence and Security Committee does not comment on its work programme. Where appropriate it publishes information on visits it has undertaken in its annual reports.

Mr. Drew: To ask the Secretary of State for Defence what plans he has for the Missile Defence System operations at RAF Menwith Hill in the next two years. [317980]

Bill Rammell: There are no plans to change the existing missile defence arrangements at RAF Menwith Hill.

Rescue Services: Scotland

Angus Robertson: To ask the Secretary of State for Defence what the monetary value is of the contract agreed with the Soteria Consortium for the provision of search and rescue services in Scotland. [317788]

Mr. Quentin Davies: While Soteria have been chosen as the preferred bidder for the search and rescue helicopter (SAR-H) project, the contract has yet to be signed. The finalised value of the contract to provide the search and rescue helicopter capability for the whole of the UK is likely to be in the region of £6 billion over the 25-year life of the service. It is not possible to break down the value of the contract by region.

Angus Robertson: To ask the Secretary of State for Defence what assessment he has made of the effect of the privatisation of search and rescue operations on local economies in Scotland. [317789]

Mr. Quentin Davies: The future SAR helicopter service in Scotland is expected to be provided from four locations (Stornoway, Sumburgh, RAF Lossiemouth and Glasgow airport, which is taking over from RNAS Prestwick). With the introduction of new, modern, more reliable helicopters there is likely to be a reduction in personnel at the two locations where they take over from the MOD Sea Kings (RAF Lossiemouth and RNAS Prestwick). The details will be finalised as the contract is agreed. As such, there is likely to be a negligible impact on the economy of Scotland as a whole from the contractorisation of the future service.

Reserve Forces

Angus Robertson: To ask the Secretary of State for Defence how many members of the *(a)* Royal Auxiliary Air Force, *(b)* Territorial Army and *(c)* Royal Naval Reserve are based in Scotland. [316516]

Mr. Kevan Jones: As at 5 February 2010, there are 224 Royal Naval Reservists, 141 Royal Marines Reservists, 2,506 in the Territorial Army and 252 personnel in the Royal Auxiliary Air Force based in Scotland.

Royal Navy Unit Prestwick

Angus Robertson: To ask the Secretary of State for Defence what the estimated monetary value is of the property comprising Royal Navy Unit Prestwick; how much is planned to be spent on its redevelopment; and if there are plans to sell this facility. [317786]

Mr. Kevan Jones: The MOD has a long-term commercial lease to 2019 with the Prestwick Airport Authorities for the HMS Gannet Air Station. The existing assets on the site are appropriately maintained but, as we do not own the site itself, there are no plans for redevelopment.

Angus Robertson: To ask the Secretary of State for Defence what estimate he has made of the number of jobs that will be lost as the result of the transfer of search and rescue operations from the Royal Navy Unit Prestwick to Glasgow; and what plans there are for the transfer of existing staff. [317787]

Mr. Kevan Jones: It is not anticipated that the decision to move future search and rescue operations from HMS Gannet at Prestwick to Glasgow airport will result in any job losses. Appropriate civilian personnel will be offered the opportunity to work with the successful contractor under the rules of Trade Union Protection of Employment (TUPE).

Service Personnel and Veterans Agency

Dr. Murrison: To ask the Secretary of State for Defence how many employees there have been in the Service Personnel and Veterans Agency in each month since its creation; and what expenditure his Department has incurred on the Agency in each year since it was established. [318030]

Mr. Kevan Jones: The Veterans Agency (VA) merged with the Armed Forces Personnel Administration Agency in April 2007 to become the Service Personnel and Veterans Agency (SPVA).

These figures and further related information can be found in the SPVA Annual Report and Accounts, copies of which are held in the Library of the House.

Dr. Murrison: To ask the Secretary of State for Defence (1) how many calls have been received by the Service Personnel and Veterans Agency Veterans-UK Helpline in the month since that service was started; [317639]

(2) what assessment has been made of the effectiveness of the Veterans-UK Helpline. [317644]

Mr. Kevan Jones: Veterans-UK Helpline has been in place for a number of years and answered 249,739 calls in financial year 2008-09 and has answered 176,898 calls for April 2009 to January 2010.

Benchmarking exercises in August 2007 and August 2008, conducted by PricewaterhouseCoopers, assessed the effectiveness of the Veterans-UK Helpline and compared it against internal and external call centres. In these assessments, the Veterans-UK Helpline compared favourably, being placed in the top quartile for overall performance.

Regular customer surveys also are conducted. In the 2008 survey 99 per cent. of customers rated the overall service provided as very satisfactory or satisfactory. Recommendations made in surveys are implemented where practicable.

In addition ongoing management checks are conducted to assess call handling and management.

As part of the Welfare Pathway I launched an additional National Point of Contact on 4 November 2009. This provides members of the Armed Forces, their families and Veterans with a single number to access support from a number of established service helplines and the Veterans-UK helpline on 08000 22 33 66.

In March 2011 an evaluation of the Welfare Pathway initiative will include the National Point of Contact.

Stabilisation Unit

Mr. Ellwood: To ask the Secretary of State for Defence what representations the Military Stabilisation and Support Group has at the Permanent Joint Headquarters. [317518]

Bill Rammell: The Military Stabilisation and Support Group (MSSG) is a tri-service unit that forms part of 8 Force Engineer Brigade. While there is no MSSG 'representation' in PJHQ, the military stabilisation and support function, also known as Civil-Military Co-operation, or CIMIC, is well represented. PJHQ has a CIMIC-trained officer, and its deployable Joint Force Headquarters (JFHQ) has a specialist officer responsible for engineering and CIMIC issues. Within the MSSG itself, there is a small Operations and Planning team of three staff officers ready to deploy with JFHQ at one week's notice.

Stabilisation Unit: Haiti

Mr. Ellwood: To ask the Secretary of State for Defence whether he plans to use members of the Military Stabilisation and Support Team to assist in humanitarian efforts in Haiti. [317517]

Bill Rammell: There are currently no plans to deploy a Military Stabilisation Support Team from the Military Stabilisation and Support Group (MSSG) to Haiti. The Department for International Development has the lead role in the UK's response to the Haitian earthquake, and does not currently require any military assistance beyond that already in Haiti or en route in RFA Largs Bay, following a reconnaissance by Permanent Joint Headquarters staff. The Ministry of Defence continues to take an active role in the UK response, and will provide further assistance where possible if required.

Veterans' World

Dr. Murrison: To ask the Secretary of State for Defence what the *(a)* cost and *(b)* circulation was of the publication Veterans World in the latest period for which figures are available. [317640]

Mr. Kevan Jones: Approximately 18,000 hard copies of the January 2010 edition of Veterans World were distributed at a cost of approximately £10,000. The publication is produced three times a year and is sent to ex-service organisations, mental health care workers, resettlement offices, homeless shelters, disability employment advisers, citizens advice bureau and the HM Prison Service. Audio copies of the publication are available and it can also be accessed via the Service Personnel and Veterans Agency website.

The aim of the publication is to raise awareness of the help, advice and support available to ex-service personnel and their families. For example, in the latest issue—No 15 it included articles on the launch of the Armed Forces Community Pathway, St. Dunstan's plans for a new centre in Wales, changes to the Veterans Welfare Service and initiatives for helping Veterans in Prison.

NORTHERN IRELAND

Bloody Sunday Tribunal of Inquiry

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland when he expects to receive the final report of the Saville Inquiry. [318065]

Mr. Woodward: Lord Saville has indicated that he intends to deliver his report to Government in the week commencing 22 March 2010.

Departmental Freedom of Information

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many freedom of information requests were submitted to the Northern Ireland Office in each of the last two years. [318066]

Paul Goggins: The following table shows the number of requests received by the Northern Ireland Office (NIO) in the last two years.

	Number of requests received
2008	183
2009	254

The Ministry of Justice (MOJ) has committed to publishing quarterly updates in relation to departmental performance under FOI, including information on both the volume and outcome of requests. The bulletins up to the 2009 third quarter can be found on the MOJ website at:

http://www.justice.gov.uk/publications/freedomofinformation quarterly.htm

and in the Libraries of both Houses. MOJ will be publishing information from the 2009 fourth quarter in spring 2010.

Departmental Manpower

Mr. Philip Hammond: To ask the Secretary of State for Northern Ireland how many performance reviews were undertaken in respect of staff of *(a)* his Department and *(b)* its agencies in each of the last five years; in how many cases performance was rated as unsatisfactory or below; how many staff left as a direct result of such a rating; and what percentage of full-time equivalent staff this represented. [313826]

Mr. Woodward: The Northern Ireland Office (NIO) operates a rigorous performance review policy that applies to all staff. The policy dictates that all NIO staff are subject to annual performance reviews and procedures are in place to deal with inefficiency/poor performance.

Full electronic records are not held to allow for an exact figure to be given in relation to the number of performance reviews actually carried out. It is, however, estimated that the overall figure in relation to the NIO and its agencies would be approximately 2,000 in each of the last five years.

The number of cases within the NIO and its agencies where annual performance was rated as unsatisfactory in each of the last five years is detailed in the following table.

	Number
2004-05	[1]—
2005-06	6
2006-07	[1]—
2007-08	[1]—
2008-09	6

[1] Suppressed. Information not released on grounds of confidentiality.

No staff have been dismissed in the last five years as a direct result of an unsatisfactory annual performance review.

Offences against Children

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many people in Northern Ireland were convicted in connection with an offence of a sexual nature that involved a child under 15 in each of the last three years. [318064]

Paul Goggins: The information is not available in the format requested. Northern Ireland conviction data do not include victim information, such as age, in relation to the commission of an offence. It is possible, therefore, only to give the number of convictions for those sexual offences which by their definition refer to a child or children. The one exception to this is the offence 'unlawful carnal knowledge of a girl under 14 years'—which confirms that the victim was under 15.

Convictions for these offences are documented in the following table. Data cover the calendar years 2004 to 2006 (the latest year for which figures are available) and are collated on the principal offence rule; so only the most serious offence for which an offender is convicted is included.

Number of convictions for sexual offences involving children by offence 2004-06

Offence	*2004*	*2005*	*2006*
Gross indecency with child	3	6	5
Buggery with a boy under 16 years	6	1	3
Buggery with a girl	1	0	0
Unlawful carnal knowledge of a girl under 14 years	4	3	3
Unlawful carnal knowledge of a girl under 17 years	2	4	5

Number of convictions for sexual offences involving children by offence 2004-06

Offence	2004	2005	2006
Permitting girl under 17 years to use premises for intercourse	0	1	0
Indecent assault on female child	3	18	2
Indecent assault on male child	4	5	0
Meeting a child following sexual grooming	0	0	2
Distributing indecent photograph or pseudo photographs of children	1	1	1
Possessing indecent photograph or pseudo photographs of children	1	2	0
Possession of indecent/pseudo photographs of children with a view to distribution	1	0	0
Taking indecent photograph or pseudo photographs of children	8	1	0
Copying indecent photograph or pseudo photographs of children	2	0	0
Making indecent photograph or pseudo photographs of children	7	10	15

Prisoners: Internet

Sammy Wilson: To ask the Secretary of State for Northern Ireland whether prisoners in Northern Ireland have regular access to the internet. [316844]

Paul Goggins: Managed internet access arrangements that allow controlled access to approved sites are available to prisoners in Northern Ireland. Supervised access to approved sites is an essential part of education provision, in particular for prisoners who are studying Open University, ICT or Essential Skills courses.

Reoffenders

Sammy Wilson: To ask the Secretary of State for Northern Ireland what his most recent estimate is of the proportion of prisoners released from prisons in Northern Ireland who re-offended within two years. [316842]

Paul Goggins: The most recent estimate of prisoners released from prison in Northern Ireland who are reconvicted within two years was published by the Northern Ireland Office (NIO) within 'Research and Statistical Bulletin 8/2008—Reconviction in Northern Ireland: Results from the 2005 Cohort'. During 2005, 892 people were released from immediate custody and, of these, 444 were reconvicted of a subsequent offence within two years of being released. This equates to a two-year reconviction rate of 49.8 per cent.

The bulletin can be downloaded from the following link:

http://www.nio.gov.uk/index/statistics-research/publications.htm

HOUSE OF COMMONS COMMISSION

House of Commons: Buildings

Kate Hoey: To ask the hon. Member for North Devon, representing the House of Commons Commission when the carpets in the Chamber and the division lobbies were last replaced; by what means carpets removed were disposed of; and whether the House of Commons Commission has made a recent estimate of the cost of replacing those carpets. [316939]

Nick Harvey: The carpets in the Commons Chamber and Division Lobbies were last replaced in 1[illegible]95; there is no record of the disposal method. The cost of replacing the carpets now is some £62,000, including fitting and VAT. The old carpet will be recycled into biofuel.

Members: Allowances

Mr. Frank Field: To ask the hon. Member for North Devon, representing the House of Commons Commission under what budgetary headings the House of Commons Commission has incurred expenditure in relation to *(a)* the review of the Additional Cost Allowance and *(b)* Sir Paul Kennedy's review. [316965]

Nick Harvey: The budgetary headings under which expenditure has been incurred for the Additional Cost Allowance review are: work commissioned, staff costs and office supplies. The budgetary headings in relation to Sir Paul Kennedy's work are: work commissioned, travel and office supplies.

OLYMPICS

Olympic Games 2012: Essex

Mr. Burns: To ask the Minister for the Olympics what recent assessment she has made of the economic effects of the London 2012 Olympics on *(a)* West Chelmsford constituency and *(b)* Essex. [314889]

Tessa Jowell: The Government and the London Organising Committee of the Olympic Games and Paralympic Games have established the Nations and Regions Group with representatives from each of the nations and English regions to maximise the economic, as well as the sporting and cultural, benefits of the 2012 Games.

To date, 84 businesses registered in the East of England have won contracts directly with the Olympic Delivery Authority, 27 of which are in Essex including one in West Chelmsford.

The London 2012 Business Network was set up to provide businesses across the UK with access to contracts in the London 2012 supply chains and any support they need to compete for them. At the end of January, over 11,600 businesses from the East of England had registered on CompeteFor, the electronic brokerage service for buyers and suppliers. So far 60 of these have won contracts. Businesses can find out about Games-related contra[illegible] opportunities on CompeteFor at:

www.competefor.com

and for business support services, businesses in the East of England can contact Business Link at:

www.businesslink.co.uk/eastofengland

or by calling 0845 717 1615.

Hosting the Olympic Mountain Biking Competition in Hadleigh Farm in Essex will provide an opportunity to showcase the region to the rest of the UK and abroad, increasing further the potential for the region to benefit economically.

PRIME MINISTER

Members: Correspondence

Sir Gerald Kaufman: To ask the Prime Minister when he intends to reply to the letter to him dated 29 November 2009 from the right hon. Member for Manchester, Gorton with regard to Mr. Colin Bardsley. [316878]

The Prime Minister: A reply has been sent.

Stabilisation Unit

Mr. Ellwood: To ask the Prime Minister which Minister is responsible for the Stabilisation Unit; and what the unit's budget is for 2009-10. [317514]

The Prime Minister: I refer the hon. Member to the press notice issued by my office on 9 February 2010. A copy is available on the No. 10 website:

http://www.number10.gov.uk/Page22421

WALES

Devolution: Referendums

Mrs. Gillan: To ask the Secretary of State for Wales what the cost to the public purse was of the most recent referendum on devolution in Wales. [316967]

Mr. Hain: The cost of the 1997 referendum on devolution in Wales was in the region of £2 million.

Mrs. Gillan: To ask the Secretary of State for Wales (1) what estimate he has made of the *(a)* highest and *(b)* lowest likely cost to the public purse of a referendum in Wales on the extension of powers under the Government of Wales Act 2006; [317312]

(2) by what mechanism public funding in respect of any referendum held in Wales on the extension of powers under the Government of Wales Act 2006 would be *(a)* provided and *(b)* allocated. [317313]

Mr. Hain: My officials are currently considering the potential costs of a referendum, and the mechanisms involved, for discussion with other key stakeholders.

LEADER OF THE HOUSE

Departmental Training

Mr. Harper: To ask the Leader of the House whether any *(a)* staff away days and *(b)* staff team building exercises have been held for staff in the Leader of the House's Office in each of the last two years. [317267]

Barbara Keeley: A range of development opportunities are open to civil servants in the Office of the Leader of the House of Commons. These are discussed by each member of staff as part of their appraisal process.

Mr. Harper: To ask the Leader of the House how much was spent on *(a)* staff training and *(b)* communication training for the Leader of the House's Office in the last 12 months. [317271]

Barbara Keeley: Training courses are just one aspect of the development opportunities open to civil servants in the Office of the Leader of the House of Commons, and every member of staff discusses their personal development as part of their appraisal process.

Information on courses attended is not held centrally and could be provided only at disproportionate cost. However, during the last 12 months members of staff participated in training provided by external training organisations and internal training courses which are provided by the Cabinet Office free of charge.

WOMEN AND EQUALITY

Crimes of Violence: Females

Mrs. May: To ask the Minister for Women and Equality how much the Government Equalities Office spent on producing and distributing the Tackling violence against women and girls: a guide to good practice communication document. [316958]

Maria Eagle: The production of "Tackling violence against women and girls: a guide to good practice communication" cost the GEO £134,868.78 excluding VAT. This cost includes considerable new research. The guide is a web-based document; therefore no distribution costs were incurred. The guide has been well received by partners in government and outside.

Departmental Disabled Staff

Mr. Harper: To ask the Minister for Women and Equality how many and what proportion of staff in *(a)* the Government Equalities Office and *(b)* the executive agencies for which she is responsible are disabled; and what the average salary in the Office is of (i) full-time disabled staff, (ii) full-time non-disabled staff, (iii) part-time disabled staff and (iv) part-time non-disabled staff. [317904]

Michael Jabez Foster: The Government Equalities Office has less than 10 staff that have elected to declare themselves as disabled. Given these small numbers it is not appropriate to give the information requested.

Departmental Energy

Andrew Stunell: To ask the Minister for Women and Equality what the estimated *(a)* amount and *(b)* cost was of energy used in her Department and its agencies in each year since 1997; what proportion of the energy used was generated from renewable sources in each of those years; and if she will make a statement. [317240]

Michael Jabez Foster: Since it's creation on 12 October 2007, the Government Equalities Office has occupied accommodation in Communities and Local Government-owned buildings under a memorandum of terms of occupancy. The invoices that result do not show the components of the cost of GEO occupancy and no figures are available on the amount and cost of energy used.

Departmental Official Hospitality

John Mason: To ask the Minister for Women and Equality how many receptions she has hosted for representatives of print and broadcast media since 3 October 2008. [316790]

Michael Jabez Foster: No receptions have been hosted for representatives of print and broadcast media since 3 October 2008.

Departmental Travel

Mr. Watson: To ask the Minister for Women and Equality if she will publish the travel guidance issued to staff of the Government Equalities Office's non-departmental public bodies. [314930]

Maria Eagle: The Government Equalities Office does not issue separate travel guidance to their non-departmental public bodies which are:

Equality and Human Rights Commission (EHRC)

Women's National Commission (WNC)

WNC uses the same policy as the Government Equalities Office (GEO) which will be published on GEO's external website at:

www.equalities.gov.uk

The EHRC follows its own travel policy and a copy of their travel guidance will be placed in the Library.

Equality and Human Rights Commission: Databases

Mr. Stewart Jackson: To ask the Minister for Women and Equality pursuant to the answer of 13 January 2010, *Official Report*, column 1003W, on Equality and Human Rights Commission: databases, what the budget is for the new equality measurement framework database; whether it will hold personal data; what anonymised Census data it will use; whether a privacy impact assessment for that database will be prepared; and which organisations will be asked to provide data for that database. [314959][1]

Maria Eagle: The Equality and Human Rights Commission budget for the development of the Equality Measurement Framework tool (EMF) is £2 million.

The plan is that no personal data will be stored or used within the context of the framework and because the data will be drawn from existing surveys most of which are already accessible to members of the public there will be no requirement for a privacy impact assessment.

The framework will not be using anonymised census information.

The intention is that data will be drawn from the following organisations: The Office for National Statistics, the NHS, the devolved Administrations, Government Departments, local government and the police force.

Feltham

Alan Keen: To ask the Minister for Women and Equality if she will set out, with statistical evidence relating as closely as possible to Feltham and Heston constituency, the effects on that constituency of changes to the Government Equalities Office's policies since its establishment. [316684]

Maria Eagle: The Government Equalities Office operates at a strategic level across Government to promote policies which address discrimination. It is not possible to provide statistical information about the effects on Feltham and Heston of the policies and actions of GEO since it was established.

Prostitution: Internet

Mr. Evans: To ask the Minister for Women and Equality whether the Government Equalities Office has made a recent estimate of the number of prostitutes who have become involved in the sex industry by making contact with companies on the internet; whether she plans to seek to prevent the use of the internet for such purposes; and if she will make a statement. [316076]

Maria Eagle: The Government have not made an estimate of the number of prostitutes who have become involved in the sex industry through establishing contact via the internet.

As part of the Violence Against Women Strategy, published in November 2009, the Government have also made a commitment to explore what action can be taken to challenge the advertising of prostitution.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agriculture: Sewage

Mr. McLoughlin: To ask the Secretary of State for Environment, Food and Rural Affairs what the estimated completion date is of his Department's review of the Sludge (Use in Agriculture) Regulations. [317795]

Jim Fitzpatrick: The Sludge (Use in Agriculture) Regulations 1989 and associated code of practice are currently being reviewed by DEFRA. Subject to policy clearance we will publish the proposals for a review, and draft regulations and a code of practice for public consultation, prior to making new regulations. This work is under way, but it is not possible to estimate how quickly the new regulations can be made.

Air Pollution: Greater London

Mr. Davey: To ask the Secretary of State for Environment, Food and Rural Affairs (1) when he last discussed air quality in London with the Mayor of London; and if he will make a statement; [317718]

(2) what steps his Department is taking to ensure that London meets air quality standards provided for in legislation; and if he will make a statement. [317724]

Jim Fitzpatrick: As Minister for the Environment, I last met with the Mayor of London in August 2009 to discuss air quality in London. Since then, the Secretary of State participated in a teleconference with the Mayor on this same matter on 7 December 2009.

---

[1] *[Official Report, 26 February 2010, Vol. 506, c. 9-10MC.]*

DEFRA officials meet regularly with the Greater London Authority (GLA) and Transport for London to discuss the Mayor's Air Quality Strategy and action necessary to meet both NO_2 (nitrogen dioxide) and PM_{10} (particulate matter) limit values in London. These meetings include discussions on our preparations for our resubmission to the Commission for additional time to meet the PM_{10} limit value in London. The latest draft of the Mayor's strategy was published in October 2009 and contained many helpful measures within it. However, further detail on the impact of these measures is needed to assess their contribution to meeting air quality standards. I am advised that public consultation on the strategy should commence in March this year and officials will continue to work with the GLA on the contribution of the strategy to meeting air quality standards.

Animal Health Bill: Draft

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs with reference to the draft Animal Health Bill, whether he plans to bring forward proposals to extend the powers available to inspectors. [315786]

Jim Fitzpatrick: Clause 47 of the draft Animal Health Bill broadens the powers available to inspectors to take samples of substances such as blood, tissue, excreta and milk to find out whether disease, or causative agents of disease exist.

The draft Animal Health Bill has been published for consultation and will be subject to pre-legislative scrutiny by Parliament before any such Bill is formally introduced.

Animal Tracing Schemes

Mr. Harper: To ask the Secretary of State for Environment, Food and Rural Affairs for what livestock traceability schemes his Department is responsible; and what the *(a)* objectives and *(b)* costs in 2009-10 are of each. [316826]

Jim Fitzpatrick: DEFRA is responsible for traceability across the main farmed livestock species: cattle, pigs, sheep and goats. Reliable traceability of livestock underpins disease control measures, ensures effective disease surveillance and maintains consumer confidence. Detailed figures by species are not available but identifying the main livestock species in England and tracking their movements costs Government and the livestock industry in the region of £55 million per year[1].

---

[1] NAO report "Identifying and Tracking Livestock in England": November 2003.

Association of Photographers

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what recent representations he has received from the Association of Photographers on Environment Agency photography contracts. [316715]

Jim Fitzpatrick: DEFRA has received a letter on behalf of the Association of Photographers on the Environment Agency's photography contracts.

The Environment Agency has been in contact with relevant photography organisations to clarify that all photographers will be paid for their work whether that be covering expenses, royalties or paying an agreed rate for their time.

Bees: Imports

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs whether he has made an estimate of the cost to the bee industry of importing queen bees in the last five years. [316499]

Dan Norris: No estimate has been made of the cost of importing queen bees. The cost to the bee industry varies considerably depending on the country of origin and the number of bees per consignment and can range between approximately £7-£50 or more for specialist breeder queens. The Food and Environment Research Agency's national bee unit records data on the number of bees imported into England for statutory disease control purposes. These data were set out in the answer of 7 December 2009, *Official Report*, column 7W.

Carbon Emissions: Business

Stewart Hosie: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the average amount of carbon dioxide emitted by companies which do not meet the minimum reporting guidelines on greenhouse gas emissions in each of the last three years. [317629]

Dan Norris: We encourage companies to publicly disclose their greenhouse gas (GHG) emissions using the recently published DEFRA/Department of Environment and Climate Change "Guidance on how to measure and report your greenhouse gas emissions", but such disclosures are not collected by the Government. No estimate has been made of the average carbon dioxide emissions of companies that do not report their GHG emissions.

Departmental Accountancy

Mr. Hurd: To ask the Secretary of State for Environment, Food and Rural Affairs whether any written instructions have been provided to his Department's Accounting Officer in accordance with paragraph 5.5 of the Ministerial Code since May 1997. [315561]

Dan Norris: Each accounting officer receives a copy of chapter 3 of Managing Public Money (the Accounting Officer Memorandum), which includes instructions on ministerial directions.

Departmental Consultants

Julia Goldsworthy: To ask the Secretary of State for Environment, Food and Rural Affairs how much consultants employed by his Department and its agencies have been paid *(a)* in total and *(b)* in reimbursable expenses in each of the last 10 years. [313992]

Dan Norris: The information is as follows:

(a) DEFRA has reported its use of consultants in its annual departmental reports.

		£ million
	Area	
Departmental reports	*Management and business consultancy*	*Specialist consultancy*
2002-03	15	40
2003-04	20	40
2004-05	79	36
2005-06	44	37
2006-07	29	54

Note:

The figures were derived on identifying the spend with particular external suppliers and placing all that spend under one of the areas shown in the table. It was recognised that this does lead to some inaccuracies as spend with a supplier may be across more than one expenditure area. But at the time, this was the only method available.

Refined processes were introduced in 2007-08, which allowed DEFRA to be more specific in the 2009 departmental report (for fiscal year 2007-08) with more accurate figures for Professional Services Consultancy. This is based on the extensive use of improved procurement category codes, a process which OGC adopted for the first Public Sector Procurement Expenditure Survey in October 2008 using their own version of category codes and to which we needed to map our category codes.

PSPES reports[1]

	£ million
2007-08	37
2008-09	35
2009-10 (Ap-No. only)	[2]23

[1] PSPES—Annual Public Sector Procurement Expenditure Survey.

[2] To be validated for next PSPES.

(b) Information on reimbursable expenses could be provided only at disproportionate cost.

Departmental Domestic Visits

Philip Davies: To ask the Secretary of State for Environment, Food and Rural Affairs how many planned visits by Ministers in his Department within the UK were cancelled within 72 hours of the visit taking place in the last 12 months; and what the planned venue or venues were for each such visit. [309878]

Dan Norris: The Department does not hold information in the form requested. Even if collation in this form were possible, it could be provided only at disproportionate cost.

Departmental Manpower

Mr. Philip Hammond: To ask the Secretary of State for Environment, Food and Rural Affairs how many employees in *(a)* his Department and *(b)* each of its agencies are in transition prior to being managed out; how long on average the transition window between notification and exit has been in (i) his Department and (ii) each of its agencies in each of the last five years; what estimate he has made of the salary costs of staff in transition in each such year; and what proportion of employees in transition were classed as being so for more than six months in each year. [313242]

Dan Norris: The definition of 'in transition' we have used in answering this question is 'employees who have been officially declared surplus'.

As at 4 February 2010, the number of surplus employees in core DEFRA is so low that we are withholding it on the grounds of the confidentiality of the individuals concerned. There are currently 33 surplus employees in the Rural Payments Agency and seven in animal health. None of the other agencies currently have surplus employees.

Not all the information requested is available, as DEFRA has not maintained a historical central record of its surplus employees, but it is doing so now.

Departmental Recruitment

Mr. Hurd: To ask the Secretary of State for Environment, Food and Rural Affairs how many job vacancies in his Department and its agencies were filled through external recruitment in the last year for which figures are available. [315475]

Dan Norris: For the 2009 calendar year DEFRA and its agencies filled 909 vacancies through external recruitment. Core DEFRA and its agencies comprises 10.189 staff (figure at 31 March 2009).

Mr. Hurd: To ask the Secretary of State for Environment, Food and Rural Affairs how much his Department and its agencies spent on external recruitment consultants in the last year for which figures are available. [315476]

Dan Norris: Our purchasing systems do not separate out expenditure on external recruitment consultants from expenditure on other HR consultancy services supplied to DEFRA and our agencies. The information requested can therefore be provided only at disproportionate cost.

Food: Origin Marking

Pete Wishart: To ask the Secretary of State for Environment, Food and Rural Affairs how many applications he has received for an EU Traditional Speciality Guaranteed designation for UK products in each of the last four years. [317924]

Jim Fitzpatrick: DEFRA is the National Competent Authority for the UK. Applications are submitted to and assessed by ADAS (for England), and the appropriate devolved administrations in Scotland, Wales and Northern Ireland before being forwarded to DEFRA.

Since 2006, five applications have been made for protection under the EU's Traditional Speciality Guaranteed (TSG) designation. The breakdown of applications is as follows:

	Number of TSG applications received
2006	0
2007	2
2008	3
2009	0
Total	5

Hotels

Mr. Hurd: To ask the Secretary of State for Environment, Food and Rural Affairs how many separate bookings for stays at five star or above hotels were made through the Expotel contract by his Department in the last year for which figures are available; and at what cost. [315474]

Dan Norris: Expotel are unable to provide details of the star rating of the hotel accommodation booked, this information could be obtained only at disproportionate cost.

Origin Marking

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many applications he has received for EU *(a)* Protected Geographical Indication and *(b)* Protected Designation of Origin status for UK products in each of the last four years. [318008]

Jim Fitzpatrick: DEFRA is the national competent authority for the UK, although applications are submitted to and assessed by ADAS (for England), and the appropriate devolved Administrations in Scotland, Wales and Northern Ireland before being forwarded to DEFRA.

Since 2006, the number of UK applications for Protected Designation of Origin (PDO) or Protected Geographical Indication (PGI) status which have been received are as follows:

	PGI	*PDO*
2006	3	3
2007	2	2
2008	4	4
2009	0	11
Total	9	20

Power Stations: Plymouth

Mr. Streeter: To ask the Secretary of State for Environment, Food and Rural Affairs how frequently the Environment Agency monitors the effect on air quality of emissions from Langage power station. [317348]

Jim Fitzpatrick: The Environment Agency require Langage power station to monitor chimney emissions continually. Each day a turbine is running, the operator is required to record the daily average and maximum hourly average emissions.

The Environment Agency can inspect or audit the collection of these data on-site at any time.

Ragwort

Mr. Soames: To ask the Secretary of State for Environment, Food and Rural Affairs what recent assessment he has made of the effects of ragwort on the health of horses and grazing stock. [317321]

Huw Irranca-Davies: The Government are aware of the effects of ragwort on the health of horses and grazing stock and in 2004 issued a Code of Practice on How to Prevent the Spread of Ragwort. The Code applies to Common ragwort (Senecio jacobaea) which is one of five injurious weeds specified in the Weeds Act 1959. Common ragwort is the only one of the five weeds listed in the Act which is poisonous to horses and other grazing animals.

The code was drawn up in consultation with a steering group which included the British Horse Society and includes an environmental appraisal which drew on evidence from a number of sources of the effects of ragwort poisoning on horses and other livestock. The code provides comprehensive guidance to all land owners and occupiers on how to take a cost effective approach to weed control.

DEFRA's policy under the Weeds Act 1959 is to control injurious weeds where there is a threat to animal welfare or agricultural activities. DEFRA's policy is not to eradicate Common Ragwort and other injurious weeds because in the right place, Common Ragwort and the other specified weeds make an important contribution to the biodiversity of the countryside.

Mr. Soames: To ask the Secretary of State for Environment, Food and Rural Affairs if he will bring forward proposals to make his Department's guidance on controlling the spread of ragwort more effective. [317322]

Huw Irranca-Davies: The Government's "Code of Practice on How to Prevent the Spread of Ragwort" was published in July 2004 and we have no immediate plans to review the code.

Stress

Grant Shapps: To ask the Secretary of State for Environment, Food and Rural Affairs if he will place in the Library a copy of the advice issued to staff of his Department on stress recognition and management. [314523]

Dan Norris: DEFRA encourages staff to use our comprehensive intranet-based toolkit information on the awareness, prevention and management of stress in and outside the workplace. An additional resource offering information, guidance and various sources of confidential support is also accessible to all departmental staff on an externally hosted microsite, via our occupational health provider.

DEFRA is currently developing a new Stress policy and anticipates this will be published on its intranet for the information of all staff and managers by this summer.

I will place copies of our advice in the Library.

Trees

Mr. Frank Field: To ask the Secretary of State for Environment, Food and Rural Affairs whether he plans to increase the net number of trees in the next five years. [317396]

Huw Irranca-Davies: Our Strategy for England's Trees, Woods and Forests puts a strong emphasis on planting the right tree in the right place. We will be taking an integrated approach to see where additional woodland can complement other activities.

As part of the Low Carbon Transition Plan announced in July, the Forestry Commission and DEFRA are working to develop the framework needed for a step change in the level of woodland creation for the next 15 years. As part of this, the Forestry Commission will be working with partners in each region to identify scope for increasing the area of woodland.

Veterinary Services: Complaints

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what recent representations he has received on the consideration by the Royal College of Veterinary Surgeons of complaints relating to veterinary services; and if he will bring forward proposals to amend the Veterinary Surgeons Act 1966 to provide for the regulation by his Department of complaints procedures in relation to veterinary services. [317006]

Jim Fitzpatrick: The President of the Royal College of Veterinary Surgeons (RCVS) has written to request that DEFRA put forward a legislative reform order (using powers in the Legislative and Regulatory Reform Act 2006) to change the constitution of the Disciplinary Committee and Preliminary Investigation Committee. The President of the British Veterinary Association has written in support of the RCVS proposal.

I am due to meet the Action Group Against the Professional Conduct Department of the Royal College of Veterinary Surgeons on 2 March to discuss their concerns about the current system for investigating complaints against veterinary surgeons.

Written Questions: Administrative Delays

Dr. Cable: To ask the Secretary of State for Environment, Food and Rural Affairs when he plans to answer Question 300896, on departmental pay, tabled on 18 November 2009. [313134]

Dan Norris: I replied to the hon. Member on 28 January 2010, *Official Report*, columns 1004-06W.

CULTURE, MEDIA AND SPORT

Barking Park

Justine Greening: To ask the Secretary of State for Culture, Media and Sport what charging regime is in place for users of Barking Park car park; and how much revenue has been received from such charges in each of the last five years. [316735]

Margaret Hodge *[holding answer 10 February 2010]*: While my Department is responsible for the Royal Parks, which manages the eight Royal Parks and a number of other open spaces, Barking Park is not one of these.

Barking Park is run by the London borough of Barking and Dagenham and any information regarding car parking charges would have to be requested directly from them.

Brass Bands: Finance

Mr. Drew: To ask the Secretary of State for Culture, Media and Sport what progress he has made in the provision of additional funding for brass bands. [316638]

Margaret Hodge: The provision of additional funding for brass bands is being undertaken by Arts Council England who advise they are unable to provide the full breakdown of information within the necessary timeframe.

I have therefore asked the chief executive of The Arts Council England to write direct to the hon. Member.

Copies of the reply will be placed in the Libraries of both Houses.

Departmental Disabled Staff

Mr. Harper: To ask the Secretary of State for Culture, Media and Sport how many and what proportion of staff in *(a)* his Department and *(b)* the executive agency for which he is responsible are disabled; and what the average salary in (i) his Department and (ii) the executive agency is of (A) full-time disabled staff, (B) full-time non-disabled staff, (C) part-time disabled staff and (D) part-time non-disabled staff. [317909]

Mr. Sutcliffe: My Department currently employs 15 (3.1 per cent.) disabled staff. The Royal Parks Agency currently employs five (4 per cent.) disabled staff. These figures show those employees who have actually declared a disability.

The average salary across all grades in both DCMS and the Royal Parks Agency is set out in the table.

£

	Full-time	Part-time
DCMS		
Disabled	32,936	25,139
Non-disabled	39,669	26,045
Royal Parks Agency		
Disabled	30,752.20	—
Non-disabled	32,224.73	31,039.25

Departmental NDBPs

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport on how many occasions he has met representatives of each of the advisory non-departmental public bodies sponsored by his Department in the last 12 months. [317009]

Mr. Bradshaw: I have met with representatives of the advisory non-departmental public bodies sponsored by the Department at a number of events in the course of my duties. The Minister for Culture has also held 14 formal meetings with these bodies.

Departmental Public Relations

Mr. Hurd: To ask the Secretary of State for Culture, Media and Sport (1) with reference to the answer of 5 March 2009, *Official Report*, column 1744W, on departmental public relations, how many staff in his Department and its agency are *(a)* embedded communicators and *(b)* members of the Government Communications Network but are not listed in the Central Office of Information White Book; [315163]

(2) how many staff in his Department and its agencies *(a)* have the status of embedded communicators and *(b)* are members of the Government Communications Network but are not listed in the Central Office of Information White Book. [315171]

Mr. Bradshaw: No members of staff in my Department or its agency, the Royal Parks, are embedded communicators. In addition to the Department's central communications directorate, the Government Olympic Executive (GOE) has a communications team consisting of 5.8 communications staff. This team is considered, and has been included in previous responses as, part of the Department's communications staff.

Within my Department all members of the Government Communications Network (GCN) are listed in the Central Office of Information (COI) White Book. The Royal Parks Agency has four communications staff belonging to the GCN that are not listed in the COI White Book.

Departmental Surveys

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport (1) how much his Department spent on each *(a)* survey and *(b)* independent report it commissioned in each of the last five years; and which organisation was contracted in each such case; [317158]

(2) what *(a)* surveys and *(b)* independent reports commissioned by his Department were undertaken in each of the last five years; how much each cost; and which organisation undertook each. [317521]

Mr. Sutcliffe: The table shows how much my Department spent on our commissioned surveys and independent research reports for each year over the last five years, with the relevant organisation given in each case.

	Commissioned organisation	*Cost*[1]
Surveys		
2005-06	BMRB	£1,180,000
2006	RSE Cons Ltd.	£30,000
2006	BMRB	£51,000
2006	Ipsos MORI	£91,000
2006-07	BMRB	£1,796,000
2007	Nottingham University Business School	£47,000
2007	BMRB	£97,000
2007	ORC International	£5,000
2007-08	BMRB	£1,500,000
2008	BMRB	£69,000
2008	BMRB	£34,000
2008-09	BMRB	£1,406,000
2009	Continental	£50,000
2009	BMRB	£62,000
2009	BMRB	£27,000
2010	Ipsos MORI	£9,000
Independent Reports		
2005	Cragg Ross Dawson	£24,000
2005	University of Stirling	£5,000
2005	Anglia University	£33,000
2005	Ipsos RSL	£38,000
2005	MasterCard	£20,000
2005	BOP	£25,000
2005	BMRB	£54,000
2005	National Opinion Research Centre	US$83,000
2005	University of Nottingham	£29,000
2006	Trauma Training	£16,000
2006	Frontier Economics	£55,000
2006	Work Foundation	£25,000
2006	Work Foundation	£50,000
2006	Experian	£10,000
2006	Lancaster University	£50,000
2006	David Trickley	£15,000
2006	Anne Eyre Trauma Training	£29,000
2006	De Montfort University	£44,000
2006	PWC	£100,000
2006	CIPFA	£60,000
2006	Morris Hargreaves McIntyre	£29,000
2006	Freshminds	£29,000
2006	Campbell Keegan Limited	£25,000
2006-07	Frontier Economics (comprised of several pieces of work)	£179,000
2007	Experian	£15,000
2007	BMRB and others	£114,000
2007	BMRB	£20,000
2007	TBR	£45,000
2008	PWC	£81,000
2008	BOP	£15,000
2008-09	Analysys Mason	£50,000
2008-09	BMRB	£23,000
2009	Frontier Economics (comprised of several pieces of work)	£85,000
2009	Europe Economics	£15,000
2009	PMP	£37,000
2009	BMG	£45,000
2009	Ipsos MORI	£24,000
2009	ARUP	£47,000

[1] All figures rounded to the nearest £1,000.

This does not include policy reports as we do not collect information on that basis.

Digital Broadcasting

Dan Rogerson: To ask the Secretary of State for Culture, Media and Sport how many complaints his Department and Digital UK have received relating to digital switchover from residents of *(a)* North Cornwall constituency, *(b)* Cornwall, *(c)* the South West region and *(d)* England in the latest period for which figures are available. [317003]

Mr. Simon: The information requested regarding my Department is not held in this manner and to provide it would incur disproportionate cost.

Information on correspondence received by Digital UK is not held centrally.

I have therefore asked the chief executive of Digital UK to write direct to the hon. Member for North Cornwall.

Copies of the reply will be placed in the Libraries of both Houses.

Janet Anderson: To ask the Secretary of State for Culture, Media and Sport if he will take steps to ensure that viewers in Rossendale and Darwen constituency are able to receive the full range of digital television channels. [317175]

Mr. Bradshaw: The three public service broadcasting digital multiplexes, which carry around 15 channels including the public service broadcasting channels—BBC 1 and 2, ITV1, Channel 4 (S4C in Wales) and Five—should reach 98.5 per cent. of UK households after digital switchover. Services carried on the commercial multiplexes, which increase the number of channels available to around 40, are planned to reach 90 per cent. of UK households and any expansion of coverage is a commercial matter for the multiplex operators. In Granada these latter multiplexes reach around 97 per cent. of households.

For those who require more services, there are other options for receiving digital services via satellite or cable.

Digital Broadcasting: Radio

Dan Rogerson: To ask the Secretary of State for Culture, Media and Sport what assessment his Department has made of the energy requirements of *(a)* digital and DAB radios and *(b)* analogue radios. [316981]

Mr. Bradshaw: My Department along with the Department for Business, Innovation and Skills (BIS) and the Department for Environment, Food and Rural Affairs (DEFRA) recently commissioned an independent review of the environmental impact of the Digital Radio Switchover programme. This research will look at current energy consumption of analogue, digital receivers and transmission networks; the projected energy consumption from a future increase in digital devices and potential developments in equipment and compatibility with other technologies.

We expect the first phase of this study to be completed by spring.

Mr. Burstow: To ask the Secretary of State for Culture, Media and Sport what steps his Department has taken to inform the public of the Government's plans for analogue wavelengths as part of its plans for digital radio; and if he will make a statement. [317071]

Mr. Bradshaw: The Digital Britain White Paper stated the Government's policy that, following the digital radio switchover, the MW spectrum will be re-allocated for non-radio purposes and the FM spectrum will be retained for radio, specifically for small commercial and community radio stations.

We have also made our position clear during the passage of the Digital Economy Bill.

Mr. Burstow: To ask the Secretary of State for Culture, Media and Sport what recent representations he has received from commercial radio stations on the effects on their businesses of the roll-out of digital audio broadcasting; and if he will make a statement. [317072]

Mr. Bradshaw: My hon. Friend the Member for Birmingham, Erdington (Mr. Simon) met representatives of the commercial radio sector a number of times, including at two joint DCMS and RadioCentre local radio summits, which were specifically intended to engage with the smallest local radio broadcasters.

These dialogues have provided a number of opportunities to gain a clear insight into the potential impact of the digital radio switchover on radio businesses. In light of this, I believe that the proposals for a digital radio switchover, as set out in the Digital Britain White Paper, are supported by the vast majority of the radio sector.

Mr. Wallace: To ask the Secretary of State for Culture, Media and Sport what steps he is taking to support local commercial radio stations in Scotland in the transition to digital broadcasting. [317563]

Mr. Bradshaw: My Department is in discussion with broadcasters from across the UK to consider the impact of digital radio switchover on local commercial radio stations. This will help inform what support, if any, is needed to aid the transition to digital, beyond those already set out in the draft Digital Economy Bill.

Bob Russell: To ask the Secretary of State for Culture, Media and Sport for what reason he decided to propose a digital radio switchover date of 2015; what assessment he made of the merits of proposing the switchover date of 2017 recommended in the Digital Radio Working Group report; and if he will make a statement. [317597]

Mr. Bradshaw: The Digital Britain White Paper stated our vision for a digital radio switchover by the end of 2015. This timetable is based on industry projections of take-up over the next six years and represents an achievable date by which the switchover criteria could be achieved and a sufficient notice period for listeners to convert their remaining radio devices to digital.

Digital Switchover Help Scheme

Mr. Vaizey: To ask the Secretary of State for Culture, Media and Sport what steps his Department has taken to ensure that those in vulnerable groups will be eligible for the scheme to provide free digital equipment during the digital switchover. [316963]

Mr. Simon: At the time of designing the help scheme for television switchover, research suggested that age and disability were the most important indicators of lower digital TV take-up and that these groups were most likely to struggle with digital switchover.

For these reasons it was decided that the scheme would offer practical support for people who are: aged 75 or over, disabled, visually impaired or care home residents. Participating in the scheme costs a subsidised £40. However help is available free of charge where the eligible person is also in receipt of certain income related benefits.

Domestic Visits

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport which constituencies he has visited on official duties in the last 12 months. [317010]

Mr. Bradshaw: Constituency visits made in the last 12 months by myself and my predecessor, my right hon. Friend the Member for Leigh (Andy Burnham) are listed.

Elmet
City of York
Westmorland and Lonsdale
Blackpool, North and Fleetwood
Blackpool, South
Nottingham, South
Huddersfield
Wakefield
Glasgow, Central
Bristol, West

Bolton, South East
Burnley
Bootle
Southampton, Itchen
Arundel and South Downs

Drama: Young People

Andrew Rosindell: To ask the Secretary of State for Culture, Media and Sport what recent steps his Department has taken to encourage young people to participate in *(a)* drama production and *(b)* acting. [314736]

Margaret Hodge: Providing access to high quality drama and theatre opportunities is part of the cultural offer, currently being tested through Find Your Talent. Nearly £24 million is being invested into 10 pathfinder areas to test how best to offer all children and young people the opportunity to access five hours of high quality cultural activity a week. Each of the 10 pathfinders are offering opportunities for children and young people to experience and participate in theatre, especially those with least access.

My Department also supported Arts Council England to deliver the £1.8 million national "Young People's Participatory Theatre" (YPPT) programme. This aims to increase young people's access to and participation in theatre through improved information on where to find and take part in high quality activities. We have also launched "Open Doors", a scheme which saw theatres across the country opening up to provide interactive events and workshops highlighting the wide variety of potential careers in theatre.

The "A Night Less Ordinary" initiative, launched by Arts Council England in February 2009 provided 122,000 free theatre tickets to under 26-year-olds in its first nine months. By removing price as a barrier to participation, the scheme enables more young people to experience theatre, and it is hoped will help to create both the practitioners and audiences of the future.

iPhone

Derek Wyatt: To ask the Secretary of State for Culture, Media and Sport if he will bring forward proposals to enable deposit libraries to archive iPhone applications. [316646]

Margaret Hodge *[holding answer 9 February 2010]:* The Legal Deposit Advisory Panel advises the Secretary of State on the deposit of non-print material. The Panel has made recommendations on the "Collection and Preservation of UK Offline and Microform Publications" and the "Collection and Preservation of UK Online Publications Free of Charge and Without Access Restriction" and we are currently consulting on the Panel's recommendations. The consultation period ends on 1 March 2010. The Government are keen to get these proposals through and will consider other content in the future.

Mass Media: Coventry

Mr. Jim Cunningham: To ask the Secretary of State for Culture, Media and Sport what recent steps his Department has taken to increase the level of media literacy in Coventry; and how much funding his Department has allocated to Coventry for that purpose since 2005. [316906]

Margaret Hodge: My Department does not directly allocate funding to specific regions for the purpose of increasing the level of media literacy. However, the Government and Ofcom have worked with media industry bodies, educational organisations and third sector groups on a range of initiatives to improve media literacy and digital participation across the UK. The Government are also considering a range of educational initiatives to improve the media literacy skills of children and parents in England and Wales.

Since 2005 my Department has provided grant in aid of £559,000 a year to support Ofcom's media literacy work programme. As part of the 2009-10 programme the National Institute of Adult Continuing Education was given support for its Adult Learners' Week. This project included events in Coventry such as internet for beginners' sessions organised by Coventry Central Library and ancestry sessions at Coventry's Canley Community Library.

National Gallery: Pay

Bob Spink: To ask the Secretary of State for Culture, Media and Sport how many members of the board of the National Gallery receive *(a)* remuneration and *(b)* expenses only. [317964]

Mr. Sutcliffe: The National Gallery is an exempt charity, governed by the Museums and Galleries Act 1992. As charity trustees, none receive remuneration but all are entitled to reclaim reasonable expenses.

Olympic Games: Canada

Mr. Swire: To ask the Secretary of State for Culture, Media and Sport whether he met the Snowsport GB team before its departure for the Winter Olympics. [317374]

Mr. Sutcliffe: The Secretary of State for Culture, Media and Sport did not meet with the Snowsport GB team before its departure to the Winter Olympics.

I, however, attended the launch of Team GB on 26 January.

Mr. Swire: To ask the Secretary of State for Culture, Media and Sport what his policy is on the funding of British teams to participate in Winter Olympics events. [317375]

Mr. Sutcliffe: The Department for Culture, Media and Sport funds UK Sport to deliver sporting excellence, primarily at the Olympics and Paralympics.

UK Sport allocates this funding based on the current performance and future potential of sports, via its successful "no compromise" investment strategy, which uses objective information to make funding awards that reflect each sport's relative ability to win medals on the world stage, whether at the Summer or Winter Olympics.

Snowsport GB

Mr. Swire: To ask the Secretary of State for Culture, Media and Sport what discussions he has had with Snowsport GB on its finances; and when he first became aware of Snowsport GB's financial situation. [317371]

Mr. Sutcliffe: The chair of Snowsport GB wrote to the Department for Culture, Media and Sport on 14 December 2009, informing us of their recent financial difficulties.

This followed a request in July 2009 for the Department to act as guarantor for a number of loans that Snowsport GB was seeking to raise from the private sector. Snowsport GB representatives discussed their situation and the way the organisation had been managed with DCMS and UK Sport officials on both occasions.

Mr. Swire: To ask the Secretary of State for Culture, Media and Sport whether he has had recent discussions with *(a)* the British Olympic Association and *(b)* others on Snowsport GB. [317372]

Mr. Sutcliffe: I have had no recent discussions with the British Olympic Association or others on Snowsport GB.

Officials from my Department and UK Sport had contact with the British Olympic Association regarding contingency plans to support the participation of the ski and snowboard teams in the Vancouver Winter Olympics.

Swimming: Concessions

Hazel Blears: To ask the Secretary of State for Culture, Media and Sport how many of those aged *(a)* under 16 and *(b)* over 60 years old resident in Salford have participated in his Department's free swimming programmes. [317551]

Mr. Sutcliffe: The number of unique participants in the free swimming programme is not collected centrally. Local authorities are responsible for collecting data on the number of free swims that have taken place in their area each month.

The table shows the total number of free swims that have taken place under the free swimming scheme by people aged 16 years and under, and people aged 60 and over, in the Salford local authority area between April 2009, when the scheme began, and December 2009.

These data were published on 5 February 2010:

	Number
Under 16 swims	73,907
Over 60s swims	23,900
Total	97,807

Tourism: Gloucestershire

Mr. Drew: To ask the Secretary of State for Culture, Media and Sport what funding his Department allocated to Gloucestershire for the purposes of tourism in each of the last 10 years. [315879]

Margaret Hodge: The information requested is not held centrally. south west RDA has the primary role in taking forward a regional tourism strategy, and in deciding on tourism investment that would affect Gloucestershire. The reported tourism investment of the south west regional development agency for 2008-09 across the entire region was £3 million.

In partnership with the industry and the wider public sector, the DCMS has a clear and coherent policy framework for industry growth. This includes branding and marketing improvement led by VisitBritain; the National Tourism Skills Strategy; work across Britain to drive up product quality through accommodation grading schemes and the better co-ordination of public investment of over £350 million a year in tourism at national, regional and local levels.

In addition, the overall level of public sector investment in tourism from local, regional and national sources is likely to exceed £2 billion in the current spending review period. The Government believe this public investment is a good and reasonable investment in support for the tourism and hospitality industry.

ENERGY AND CLIMATE CHANGE

Boilers: Government Assistance

Jenny Willott: To ask the Secretary of State for Energy and Climate Change what information his Department holds on the area of residence of people who have made inquiries about eligibility for assistance under his Department's boiler scrappage scheme. [312740]

Joan Ruddock: Calls to the Energy Saving Trust, which is delivering the boiler scrappage scheme, are diverted to the nearest regional office in most cases based on the caller's telephone number if a landline is used. An analysis of number of calls received on the subject of eligibility for the boiler scrappage scheme by location of the call centre would provide a broad indication of the callers' region.

The applicant's address is required when an application is made. The Department intends to publish shortly details indicating the level of interest in the boiler scrappage scheme, and we would hope to present this information region by region.

Carbon Emissions

Lynne Jones: To ask the Secretary of State for Energy and Climate Change what steps he plans to take to implement a personal carbon incentive scheme; when the scheme will be introduced; and how it will operate. [3167

Joan Ruddock: DECC's ambition to implement a scheme for a new personal carbon challenge with rewards and incentives for saving energy was set out in "The UK Low Carbon Transition Plan".

DECC is actively investigating how best to achieve this ambition. However, we are aware that there are existing schemes and proposals and are also looking to see how we can supplement them.

Chorley

Mr. Hoyle: To ask the Secretary of State for Energy and Climate Change if he will set out, with statistical information as closely related to Chorley constituency as possible, the effect on that constituency of the policies of his Department since its inception. [314240]

Joan Ruddock: The Department of Energy and Climate Change and its predecessors have implemented a large number of policies to address energy security, emissions reductions, low carbon economic growth and fuel poverty. Some of the key achievements are set out as follows, along with information on the number of households assisted by the Warm Front scheme in Chorley constituency. It would be disproportionately costly to provide statistical information on all the impact of all the policies to the level of detail requested, but statistical information covering energy and climate change is available at:

http://www.decc.gov.uk/en/content/cms/statistics/statistics.aspx

Key achievements

Total UK greenhouse gas emissions have been reduced by about 12 per cent. compared with 1997.

The UK is on track to cut emissions by nearly twice our Kyoto target (22 per cent. below 1990 levels by 2008-12 compared to the target of 12.5 per cent. set out under the Kyoto agreement).

The Climate Change Act in 2008 set a target of at least 80 per cent. reduction in greenhouse gases by 2050. Our first three carbon budgets legally bind the UK to a cut in greenhouse gases of 34 per cent. by 2018-22 against a 1990 baseline. In 2009, the UK's Low Carbon Transition Plan set out the long-term vision for climate change and energy and showing how we will meet the carbon budgets set out in the Climate Change Act.

In the same year, the Department published national policy statements on energy infrastructure which will lead to faster and fairer planning decisions and a diverse low carbon energy mix. An ambitious new framework for clean coal will also drive development of carbon capture and storage.

The UK's energy market is the most competitive in the EU and has attracted over £97 billion of investment from 1997 to 2008 (at 2005 prices). The UK also has the greatest installed capacity of offshore wind in the world.

Turning to household measures, since 2002, the carbon emissions reduction target (CERT) and its predecessors have helped over six million households with insulation measures with almost three million of these in a priority group of vulnerable households.

Government will be providing more financial assistance to help people generate their own heat and electricity in low carbon ways, where appropriate, through 'clean energy cashback' schemes:

Feed-in Tariffs (FITs) will be in place from April 2010. Payment for low carbon electricity produced by small-scale generators (including households) will be provided through the electricity supply companies to encourage the uptake of low carbon and renewable electricity generating technologies by households, businesses and communities.

The Renewable Heat Incentive (RHI), scheduled for launch in April 2011, will provide households, communities and businesses with payment for getting their heat from renewable sources. The detailed design of the RHI is currently out for consultation.

Warm Front scheme: Chorley constituency

DECC's Warm Front scheme provides grants for households on qualifying income and disability-related benefits to install a range of insulation and heating measures in their homes. Since 2000, the scheme has assisted 3,223 households in the Chorley constituency.

Departmental Accountancy

Mr. Hurd: To ask the Secretary of State for Energy and Climate Change whether any written instructions have been provided to his Department's Accounting Officer in accordance with paragraph 5.5 of the Ministerial Code since his Department's inception. [315563]

Joan Ruddock: No such written instructions have been provided.

Departmental Billing

Dr. Cable: To ask the Secretary of State for Energy and Climate Change what estimate he has made of the average length of time taken by his Department to pay invoices from *(a)* small and medium-sized enterprises and *(b)* all creditors in the last 12 months. [315129]

Joan Ruddock: DECC monitors its payment performance on the target of paying invoices within 10 days of receipt and this is included within the monthly management information reports. We do not however, differentiate between the size of each creditor as the same target applies to all. The latest available data is for December 2009, when 90.7 per cent. of invoices were paid within 10 days.

Departmental Consultants

Julia Goldsworthy: To ask the Secretary of State for Energy and Climate Change how many consultants his Department employed in each year since its inception; and how many hours were worked by such consultants for his Department in each of the last 10 years. [314016]

Joan Ruddock: This information can be provided only at disproportionate cost.

Departmental E-mail

Dan Rogerson: To ask the Secretary of State for Energy and Climate Change what procedures govern the manner in which his Department replies by e-mail to e-mail correspondence from *(a)* hon. Members and *(b)* members of the public. [316080]

Joan Ruddock: Until mid January, BIS and DEFRA handled all of DECC's correspondence in line with their respective departmental procedures, underpinned by Cabinet Office Guidance available at

http://www.cabinetoffice.gov.uk/propriety_and_ethics/
handling_members_correspondence/
guidance_for_departments/guidance/mps.aspx

This general guidance recommends that e-mail correspondence is replied to in the same medium where possible, unless requested otherwise.

Since 18 January the Department has handled its own correspondence. It continues to follow Cabinet Office guidance with a view to maximising e-communication where appropriate.

4

Departmental Information Officers

Mr. Hurd: To ask the Secretary of State for Energy and Climate Change how many staff in his Department have the status of *(a)* embedded communicators and *(b)* are members of the Government Communications Network and are not listed in the Central Office of Information White Book. [315568]

Joan Ruddock: There are 11 embedded communicators in the Department. None of these are listed in the Central Office of Information White Book.

Government Communications Network (GCN) membership data are not held by the Department. The Cabinet Office unit that administers the GCN is unable to share membership data without the permission of individual members, therefore it is not possible to readily provide accurate information on this without incurring a disproportionate cost.

Departmental Internet

Mr. Hurd: To ask the Secretary of State for Energy and Climate Change for which Google Adword online advertising keywords his Department and its agencies have paid in the last 12 months; and at what cost. [315468]

Joan Ruddock: Primarily as part of the Act on CO_2 campaign, the Department has paid for Google keywords (search words) over the past year to enable people to find information about energy, climate change and carbon reduction actions, quickly and effectively by taking people through to the Act on CO_2 website.

The Google Adword system is like an auction and places advertisers in order of prominence according to how much they bid for a relevant keyword. It should be noted however that the actual cost the Department incurs is based on the number of clicks on the sponsored DECC link displayed.

DECC has a specific account which contains keywords built around specific campaign-related themes such as loft insulation and the carbon calculator. There is also an account which is jointly funded with the Department for Transport, containing more generic keywords such as climate change and global warming and Act on CO_2 (as this is the call to action for both Departments' campaigns).

Other Government Departments and agencies such as the Energy Saving Trust sometimes bid for the same keywords as DECC. The amounts each Department pays can be capped, in order to minimise the risk of DECC and these Departments competing against each other for the same search keywords.

The total spend on paid search for DECC over the last 12 months is £361,700 (exclusive of VAT). The total spend for the Energy Saving Trust over the last 12 months is £272,000 (exclusive of VAT).

Departmental Pay

Grant Shapps: To ask the Secretary of State for Energy and Climate Change how many *(a)* year end and *(b)* in-year bonuses have been paid to officials in his Department since it was established; and what expenditure his Department has incurred on such bonuses. [301301]

Joan Ruddock: The Department of Energy and Climate Change (DECC) was created in October 2008. An element of the Department of Energy and Climate Change's overall pay award is allocated to non-consolidated variable pay related to performance. These payments are used to drive high performance and form part of the pay award for members of staff who demonstrate exceptional performance, for example by exceeding targets set or meeting challenging objectives.

Non-consolidated variable pay awards are funded from within existing pay bill controls, and have to be re-earned each year against pre-determined targets and, as such, do not add to future pay bill costs. The percentage of the pay bill set aside for performance-related awards is based on recommendations from the independent senior salaries review body.

	Number of staff	*Total number of in year awards*	*Value of non-consolidated performance payments from October 2008 to end March 2009 (£)*	*Wages and salaries for the year 2008-09 (£)*	*Non-consolidated performance payments as percentage of wages and salaries*
2008-09	366	172	81,055	37,996,000	0.21

These figures do not include DECC end of year non-consolidated performance payments as they were awarded after March 2009.

Electricity: Nottingham

Alan Simpson: To ask the Secretary of State for Energy and Climate Change how much electricity was supplied to the City of Nottingham from the national grid in each of the last 10 years. [317223]

Mr. Kidney: Annual electricity consumption statistics for the Nottingham city council area are only available for the years 2003 to 2008 and are shown in the following table. The statistics include both domestic and non-domestic consumption.

	Electricity consumption in Nottingham (GWh)
2003	1,342.4
2004	1,481.7
2005	1,583.0
2006	1,530.4
2007	1,459.0
2008	1,428.3

There are methodological differences in the production of the datasets before 2005 and therefore the data for 2003 and 2004 are not directly comparable. The changes in methodology were recognised as improvements and as such the statistics from 2005 are classified as National Statistics. Details of all methodologies used to compile the statistics can be found at:

http://www.decc.gov.uk/en/content/cms/statistics/regional/regional.aspx

Energy: Conservation

Jon Trickett: To ask the Secretary of State for Energy and Climate Change how many households in Hemsworth have received assistance under the Home Energy Efficiency Scheme since the inception of the scheme. [316633]

Joan Ruddock: The following table shows the number of households assisted by the Warm Front scheme in Hemsworth constituency since eaga became manager of the scheme in that region.

Assisted households

	Hemsworth
2005-06	228
2006-07	651
2007-08	728
2008-09	641
2009-10[1]	454
Total	2,702

[1] To 31 January 2010.

Note:

Prior to 2005 the scheme was managed by a different provider and the data retained by the current administrator are not sufficient to provide a consolidated response.

Energy: Housing

Mr. Peter Ainsworth: To ask the Secretary of State for Energy and Climate Change what estimate he has made of the proportion of households in the priority group under *(a)* phase one of the Energy Efficiency Commitment (EEC), *(b)* phase two of the EEC and *(c)* the Carbon Emission Reduction Target programme which were in fuel poverty on the latest date for which figures are available; and if he will make a statement. [317064]

Mr. Kidney: The latest figures available are for England in 2007. The following table shows number of priority group households in England for each phase of EEC and CERT and the proportion of these that are estimated to be in fuel poverty in 2007:

	In priority groups			
	EEC1[1]	*EEC2*[1]	*CERT*	*All households*
Total number of households (thousand)	6,545	5,559	8,681	21,380
Number of fuel poor households (thousand)	1,279	1,224	2,096	2,819
Proportion of households that are fuel poor (percentage)	19.5	22.0	24.1	13.2

[1] EEC1 and EEC2 figures are estimated.

Each of the policies covers GB, but fuel poverty statistics are a devolved responsibility.

Mr. Peter Ainsworth: To ask the Secretary of State for Energy and Climate Change what estimate he has made of the number of fuel poor households which *(a)* have received assistance in respect of his Department's provision for each energy saving measure under each of the first two phases of the Energy Efficiency Commitment and the Carbon Emission Reduction Target (CERT) programme in each year since 2002-03 and *(b)* will receive assistance in respect of his Department's provision for each such measure under the extended CERT programme; and if he will make a statement. [317065]

Mr. Kidney: The data requested are not available because the English Housing Survey, which is used to model fuel poverty, does not monitor individual households through time, rather it draws a representative sample each year. As such, it is not possible to identify individual households that have received assistance under these schemes, although the impact in aggregate of them will be captured in the fuel poverty statistics.

- Over 7 million households have benefited from insulation measures alone since 2002 through EEC and CERT. 40 per cent. of the carbon saving target is required to be achieved in a Priority Group of more vulnerable households on eligible benefits and aged 70 and over, so these schemes will have had a considerable impact in helping many households heat their homes for less. The CERT extension phase from April 2011 to December is proposed to be as ambitious as CERT.

Exhaust Emissions: Aviation

Stewart Hosie: To ask the Secretary of State for Energy and Climate Change what estimate he has made of the volume of carbon dioxide emissions arising from the aviation industry in the UK in each of the last five years. [317630]

Joan Ruddock: On 2 February 2010 DECC published final 2008 estimates of UK greenhouse gas emissions as National Statistics. 2008 is the latest year for which data are available.

Two separate sectoral breakdowns are published each year: by source and by end-user. The former breakdown is based on the sector where the emissions actually occurred; the latter breakdown reallocates these same emissions in accordance with where the end-use actually occurred. This effectively reallocates emissions from energy supply to, for example, household and business energy usage.

For aviation, emissions by source and end-users are very close to one another.

By source, carbon dioxide emissions from domestic aviation over the period 2004-08 are shown in the following table. They are based on National Communications sectors, which are the basis for UK Government reporting. The 2008 end-user breakdown will be published on 25 March 2010.

Carbon dioxide emissions from domestic aviation: by source breakdown, 2004-08

Million tonnes of CO_2

NC category	*2004*	*2005*	*2006*	*2007*	*2008*
Aviation	2.3	2.5	2.4	2.3	2.2

Emissions from international aviation can be estimated from refuelling from bunkers at UK airports, whether by UK or non-UK operators. Under the reporting guidelines agreed by the UNFCCC, these emissions are not included in the UK's emissions total, but are reported as memo items in national greenhouse gas inventories. Parties to the UNFCCC are required to act to limit or reduce emissions from international services working through the International Civil Aviation Organisation (ICAO) and International Maritime Organisation (IMO).

The following table provides CO_2 emissions estimates for UK international aviation over the period 2004-08.

Carbon dioxide emissions from UK-based international aviation, by source: 2004-08

Million tonnes of CO_2

Memo item	*2004*	*2005*	*2006*	*2007*	*2008*
International aviation bunkers	32.4	35.1	35.6	35.4	34.1

All the latest headlines results and data tables can be found on the DECC website at:

http://decc.gov.uk/en/content/cms/statistics/climate_change/gg_emissions/uk_emissions/2008_final/2008_final.aspx

Feltham

Alan Keen: To ask the Secretary of State for Energy and Climate Change if he will set out, with statistical evidence relating as closely as possible to Feltham and Heston constituency, the effects on that constituency of changes to his Department's policies since its inception. [317106]

Joan Ruddock: The Department of Energy and Climate Change and its predecessors have implemented a large number of policies to address energy security, emissions reductions, low carbon economic growth and fuel poverty. Some of the key achievements are set out as follows, along with information on the number of households assisted by the Warm Front scheme in Feltham and Heston constituency. It would be disproportionately costly to provide statistical information on all the impacts of all the policies to the level of detail requested, but statistical information covering energy and climate change is available at:

http://www.decc.gov.uk/en/content/cms/statistics/statistics.aspx

Key achievements

Total UK greenhouse gas emissions have been reduced by about 12 per cent. compared with 1997.

The UK is on track to cut emissions by nearly twice our Kyoto target (22 per cent. below 1990 levels by 2008-12 compared to the target of 12.5 per cent. set out under the Kyoto agreement).

The Climate Change Act in 2008 set a target of at least 80 per cent. reduction in greenhouse gases by 2050. Our first three carbon budgets legally bind the UK to a cut in greenhouse gases of 34 per cent. by 2018-22 against a 1990 baseline. In 2009, the UK's Low Carbon Transition Plan set out the long-term vision for climate change and energy and showing how we will meet the carbon budgets set out in the Climate Change Act.

In the same year, my Department published National Policy Statements on energy infrastructure which will lead to faster and fairer planning decisions and a diverse low carbon energy mix. An ambitious new framework for clean coal will also drive development of carbon capture and storage.

The UK's energy market is the most competitive in the EU and has attracted over £97 billion of investment from 1997 to 2008 (at 2005 prices). The UK also has the greatest installed capacity of offshore wind in the world.

Turning to household measures, since 2002, the Carbon Emissions Reduction Target (CERT) and its predecessors have helped over 6 million households with insulation measures with almost 3 million of these in a priority group of vulnerable households.

Government will be providing more financial assistance to help people generate their own heat and electricity in low carbon ways, where appropriate, through 'clean energy cashback' schemes:

Feed-in Tariffs (FITs) will be in place from April 2010. Payment for low carbon electricity produced by small-scale generators (including households), will be provided through the electricity supply companies to encourage the uptake of low carbon and renewable electricity generating technologies by households, businesses and communities.

The Renewable Heat Incentive (RHI), scheduled for launch in April 2011, will provide households, communities and businesses with payment for getting their heat from renewable sources. The detailed design of the RHI is currently out for consultation.

Warm Front scheme: Feltham and Heston constituency

DECC's Warm Front scheme provides grants for households on qualifying income and disability related benefits to install a range of insulation and heating measures in their homes. Since 2000 the scheme has assisted 2,156 households in the Feltham and Heston constituency.

Fuel Poverty: Salford

Hazel Blears: To ask the Secretary of State for Energy and Climate Change what steps his Department is taking to reduce the level of fuel poverty in Salford. [317392]

Mr. Kidney: The Government have a strong package of measures to help reduce fuel poverty among vulnerable households. This is centred on tackling the three root causes of fuel poverty:

Reducing the demand for energy by improving home energy efficiency through schemes such as Warm Front, Carbon Emissions Reduction Target (CERT), Community Energy Saving Programme (CESP) and the Decent Homes Standard. Between 2005 and 2010 (to 31 January) Warm Front delivered nearly £2.5 million worth of energy efficiency measures to over 2,208 Salford households; CERT requires energy suppliers to meet at least 40 per cent. of their obligation by promoting and installing measures in the homes of a Priority Group of vulnerable consumers in receipt of qualifying benefits or people aged over 70 years. Measures are only reported at a GB level and details for the work carried out in Salford are therefore not available.

Putting in place and continuously looking to improve a regulatory framework that promotes competition as the main driver to ensure downward pressure on prices for consumers, and to improve licence conditions and strengthen Ofgem's powers through the Energy Bill; and

Raising real incomes, including through Winter Fuel Payments and Cold Weather Payments alongside the wider tax and benefit system and through Benefit Entitlement Checks under the Warm Front Scheme. 386 such checks have been undertaken in Salford by Warm Front between 2005 and 2010 (to 31 January), identifying an average weekly increase in income of £35.32 for those entitled to additional benefits.

We have also introduced legislation to implement mandated social price support schemes once the current voluntary agreement with suppliers comes to an end in 2011. These schemes will provide more of the most vulnerable consumers with help towards their energy costs. We have said that we are minded to focus the majority of the additional resources on older pensioner households on the lowest incomes as these households tend to have a high incidence of fuel poverty—over 50 per cent. of fuel poor households have a person over 60 living in them; their circumstances are relatively stable; and they are at the greatest risk of excess winter deaths.

The fuel poverty review which was announced in January 2009, has been looking across all three drivers of fuel poverty, and particularly the key issue of how we can more effectively identify and target assistance at the most vulnerable households.

Hotels

Mr. Hurd: To ask the Secretary of State for Energy and Climate Change how many separate bookings for stays at five star or above hotels were made through the Expotel contract by his Department in the last year for which figures are available; and at what cost. [315500]

Joan Ruddock: None.

Housing: Insulation

Alan Keen: To ask the Secretary of State for Energy and Climate Change how many households in Feltham and Heston constituency have received assistance under the Home Energy Efficiency Scheme since the inception of the scheme. [316661]

Mr. Kidney: The following table shows how many households in Feltham and Heston have received assistance under the Warm Front scheme since the inception of the scheme.

Feltham and Heston	*Number*
2000-01	86
2001-02	181
2002-03	127
2003-04	117
2004-05	284
2005-06	159
2006-07	255
2007-08	289
2008-09	337
2009-10[1]	321
Total	2,156

[1] To 31 January

Industrial Diseases: Compensation

Mr. David Anderson: To ask the Secretary of State for Energy and Climate Change how much his Department has paid to the legal firm Nabarro for handling issues related to compensation to miners for *(a)* chest diseases, *(b)* vibration white finger and *(c)* miners' knee. [317257]

Mr. Kidney: The amount of legal fees the Department has paid to Nabarro for handling compensation to miners in respect of the British Coal Respiratory Disease Litigation (BCRDL), Vibration White Finger Handling Arrangements (VWF) and for Miners Knee Group Litigation as at 10 February 2010 is shown as follows:

	£
BCRDL	9,949,537.11
VWF	3,447,411.36
Knee litigation	5,710,185.20

These figures are exclusive of VAT and disbursements.

BCRDL fees include representation in the largest personal injury action in the UK over a 12 year period and the VWF fees cover an 11 year period. The Miners Knee Litigation fees cover a period from 2003-04 to date and primarily relate to the Department's obligations for document disclosure.

For the BCRDL and VWF the figures do not include the costs of defending individual court actions.

Intergovernmental Panel on Climate Change

Sammy Wilson: To ask the Secretary of State for Energy and Climate Change what his Department's most recent assessment is of the accuracy of reports issued by the Intergovernmental Panel on Climate Change. [316589]

Joan Ruddock: We consider that the IPCC's Assessment Reports provide the most authoritative and comprehensive assessment of climate-change science.

Its procedures are robust and are designed to minimise error and ensure a balanced and accurate assessment of the science. However, recent events remind us that even robust processes are not immune to mistakes. Those reported recently are isolated cases out of the thousands of papers reviewed by the IPCC.

The IPCC has proposed that a select group of distinguished external experts advise and guide the IPCC on how best to improve its procedures. A thorough review of the Principles Governing IPCC Work; the procedures for the preparation, review, acceptance, adoption, approval and publication of IPCC reports, is envisaged. The interim results of this review will be discussed at the upcoming session of the IPCC bureau in May 2010.

The UK supports the IPCC in planning to learn from mistakes and strengthen its procedures to ensure that its processes are properly followed. We remain committed to the IPCC as the primary source of information on climate-change science.

Recent errors have not changed the fundamental message that human induced climate change is happening and that we must act now to prevent the worst consequences.

Members: Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for Energy and Climate Change when he plans to reply to the letter of 15 December 2009 from the right hon. Member for Manchester, Gorton with regard to Miss M. Granath. [315019]

Mr. Kidney: I replied to my right hon. Friend on 28 January.

Milton Keynes

Mr. Lancaster: To ask the Secretary of State for Energy and Climate Change if he will set out, with statistical information related as directly as possible to North-East Milton Keynes constituency, the effects on Milton Keynes of the policies and actions of his Department and its predecessors since 1997. [316037]

Joan Ruddock: The Department of Energy and Climate Change and its predecessors have implemented a large number of policies to address energy security, emissions reductions, low carbon economic growth and fuel poverty since 1997. Following are some of the key achievements, along with information on the number of households assisted by the warm front scheme in North-East Milton Keynes constituency. It would be disproportionately costly to provide statistical information on the impact of all the policies to the level of detail requested, but statistical information covering energy and climate change is available at:

http://www.decc.gov.uk/en/content/cms/statistics/statistics.aspx

Key achievements since 1997

Total UK greenhouse gas emissions have been reduced by about 12 per cent. compared with 1997.

The UK is on track to cut emissions by nearly twice our Kyoto target (22 per cent. below 1990 levels by 2008-12 compared to the target of 12.5 per cent. set out under the Kyoto agreement).

The Climate Change Act in 2008 set a target of at least 80 per cent. reduction in greenhouse gases by 2050. Our first three carbon budgets legally bind the UK to a cut in greenhouse gases of 34 per cent. by 2018-22 against a 1990 baseline. In 2009, the UK's Low Carbon Transition Plan set out the long-term vision for climate change and energy and shows how we will meet the carbon budgets set out in the Climate Change Act.

In the same year, the Department published National Policy Statements on energy infrastructure which will lead to faster and fairer planning decisions and a diverse low carbon energy mix. An ambitious new framework for clean coal will also drive development of carbon capture and storage.

The UK's energy market is the most competitive in the EU and has attracted over £97 billion of investment from 1997 to 2008 (at 2005 prices). The UK also has the greatest installed capacity of offshore wind in the world.

Turning to household measures, since 2002, the Carbon Emissions Reduction Target (CERT) and its predecessors have helped over 6 million households with insulation measures, with almost 3 million of these in a priority group of vulnerable households.

Government will be providing more financial assistance to help people generate their own heat and electricity in low carbon ways, where appropriate, through "clean energy cashback" schemes:

Feed-in tariffs (FITs) will be in place from April 2010. Payment for low carbon electricity produced by small-scale generators (including households) will be provided through the electricity supply companies to encourage the uptake of low carbon and renewable electricity generating technologies by households, businesses and communities.

The Renewable Heat Incentive (RHI), scheduled for launch in April 2011, will provide households, communities and businesses with payment for getting their heat from renewable sources. The detailed design of the RHI is currently out for consultation.

Warm Front scheme: North-East Milton Keynes constituency

DECC's Warm Front scheme provides grants for households on qualifying income and disability related benefits to install a range of insulation and heating measures in their homes. Since 2000 the scheme has assisted 1,230 households in the North-East Milton Keynes constituency.

Nuclear Installations: Security

Mr. Dai Davies: To ask the Secretary of State for Energy and Climate Change if he will authorise the director of the Office for Civil Nuclear Security within the Nuclear Installations Inspectorate to release a redacted version of the nuclear industries malicious capabilities planning assumptions. [317559]

Mr. Kidney: The Nuclear Industries Malicious Capabilities (Planning) Assumptions is a protectively marked document produced by the Director of Civil Nuclear Security (DCNS) for use by the operators of civil licensed nuclear sites, approved carriers of nuclear material and other authorised persons. The purpose of the document is to set out the attributes and characteristics of those posing a threat to nuclear premises and to nuclear material so that an appropriate level of security can be put in place to protect against such malicious capabilities. This is a sensitive planning document underpinning security throughout the UK's civil nuclear industry and DCNS advises that it cannot be released, even in a redacted form, without significant risk to national security.

Nuclear Power Stations: Construction

Paul Flynn: To ask the Secretary of State for Energy and Climate Change if he will place in the Library a copy of *(a)* each leaflet and poster used to publicise each public consultation event held in the communities named as prospective sites for new nuclear build, *(b)* the printout of any PowerPoint presentation shown, *(c)* each DVD used and *(d)* all speeches made by Ministers or departmental officials at each such event. [317886]

Mr. Kidney: I have placed in the Library copies of *(a)* leaflets and posters used to publicise the draft nuclear NPS consultation events. Copies of *(b)* PowerPoint presentations and *(d)* transcripts of the meetings which include the speeches made by departmental officials at these events, can be found online on the URLs

https://www.energynpsconsultation.decc.gov.uk/nuclear/summary/

https://www.energynpsconsultation.decc.gov.uk/home/events/localevents/

No DVDs were produced for the consultation events on the draft nuclear NPS.

Offshore Industry: Taxation

Pete Wishart: To ask the Secretary of State for Energy and Climate Change how much the Government paid to *(a)* the Isle of Man and *(b)* Northern Ireland in respect of UK Continental Shelf receipts in (i) 2008 and (ii) 2009. [317052]

Mr. Kidney: The following table shows how much the Government have paid to *(a)* the Isle of Man and *(b)* Northern Ireland in respect of a share of UK Continental Shelf receipts in FY 2007-08 and 2008-09:

Payments to Isle of Man and Northern Ireland

£000

Financial year	*Isle of Man*	*Northern Ireland*
2007-08	0	1,539
2008-09	0	1,340

Public Holidays

Bob Spink: To ask the Secretary of State for Energy and Climate Change what estimate he has made of the cost to his Department of the introduction of an additional public holiday; and if he will make a statement. [315120]

Joan Ruddock: No such estimate has been made.

Renewable Energy: Finance

Mr. Peter Ainsworth: To ask the Secretary of State for Energy and Climate Change if he will publish the findings of his Department's research on Willingness to Pay, prepared in conjunction with the Energy Saving Trust; and if he will place in the Library a copy of the report of that research. [317066]

Joan Ruddock: The Energy Savings Trust will publish findings from the Willingness to Pay research early in March. The report will be available for download from the EST website and a copy will be placed in the House Library.

Slough

Fiona Mactaggart: To ask the Secretary of State for Energy and Climate Change if he will set out, with statistical information related as directly as possible to the Slough constituency, the effects on Slough of his Department's policies and actions since it was established. [311985]

Joan Ruddock: The Department of Energy and Climate Change and its predecessors have implemented a large number of policies to address energy security, emissions reductions, low carbon economic growth and fuel poverty. Following are set out some of the key achievements, along with information on the number of households assisted by the Warm Front scheme in Slough constituency. It would be disproportionately costly to provide statistical information on the impact of all the policies to the level of detail requested, but statistical information covering energy and climate change is available at:

http://www.decc.gov.uk/en/content/cms/statistics/statistics.aspx

Key achievements

Total UK greenhouse gas emissions have been reduced by about 12 per cent. compared with 1997.

The UK is on track to cut emissions by nearly twice our Kyoto target (22 per cent. below 1990 levels by 2008-12 compared to the target of 12.5 per cent. set out under the Kyoto agreement).

The Climate Change Act in 2008 set a target of at least 80 per cent. reduction in greenhouse gases by 2050. Our first three carbon budgets legally bind the UK to a cut in greenhouse gases of 34 per cent. by 2018-22 against a 1990 baseline. In 2009, the UK's Low Carbon Transition Plan set out the long-term vision for climate change and energy and shows how we will meet the carbon budgets set out in the Climate Change Act.

In the same year, the Department published National Policy Statements on energy infrastructure which will lead to faster and fairer planning decisions and a diverse low carbon energy mix. An ambitious new framework for clean coal will also drive development of carbon capture and storage.

The UK's energy market is the most competitive in the EU and has attracted over £97 billion of investment from 1997 to 2008 (at 2005 prices). The UK also has the greatest installed capacity of offshore wind in the world.

Turning to household measures, since 2002, the Carbon Emissions Reduction Target (CERT) and its predecessors have helped over 6 million households with insulation measures with almost 3 million of these in a priority group of vulnerable households.

Government will be providing more financial assistance to help people generate their own heat and electricity in low carbon ways, where appropriate, through "clean energy cashback" schemes:

Feed-in Tariffs (FITs) will be in place from April 2010. Payment for low carbon electricity produced by small-scale generators (including households), will be provided through the electricity supply companies to encourage the uptake of low carbon and renewable electricity generating technologies by households, businesses and communities.

The Renewable Heat Incentive (RHI), scheduled for launch in April 2011, will provide households, communities and businesses with payment for getting their heat from renewable sources. The detailed design of the RHI is currently out for consultation.

Warm Front scheme: Slough constituency

DECC's Warm Front scheme provides grants for households on qualifying income and disability related benefits to install a range of insulation and heating measures in their homes. Since 2000 the scheme has assisted 1,426 households in the Slough constituency.

Streatham

Keith Hill: To ask the Secretary of State for Energy and Climate Change if he will set out, with statistical evidence relating as closely as possible to Streatham constituency, the effects on that constituency of changes to his Department's policies since its inception. [313398]

Joan Ruddock: The Department of Energy and Climate Change and its predecessors have implemented a large number of policies to address energy security, emissions reductions, low carbon economic growth and fuel poverty since 1997. Some of the key achievements are set out as follows, along with information on the number of households assisted by the Warm Front scheme in Streatham constituency. It would be disproportionately costly to provide statistical information on all the impact of all the policies to the level of detail requested, but statistical information covering energy and climate change is available at:

http://www.decc.gov.uk/en/content/cms/statistics/statistics.aspx

Key achievements since 1997

Total UK greenhouse gas emissions have been reduced by about 12 per cent. compared with 1997.

The UK is on track to cut emissions by nearly twice our Kyoto target (22 per cent. below 1990 levels by 2008-12 compared to the target of 12.5 per cent. set out under the Kyoto agreement).

The Climate Change Act in 2008 set a target of at least 80 per cent. reduction in greenhouse gases by 2050. The Renewable Heat Incentive (RHI), scheduled for launch in April 2011, will provide households, communities and businesses with payment for getting their heat from renewable sources. The detailed design of the RHI is currently out for consultation.

Warm Front scheme: Streatham constituency

DECC's Warm Front scheme provides grants for households on qualifying income and disability related benefits to install a range of insulation and heating measures in their homes. Since 2000 the scheme has assisted 927 households in the Streatham constituency.

Thanet

Dr. Ladyman: To ask the Secretary of State for Energy and Climate Change if he will set out, with statistical information related as directly as possible to South Thanet constituency, the effects on South Thanet of the policies and actions of his Department and its predecessors since 2000. [315639]

Joan Ruddock: The Department of Energy and Climate Change and its predecessors have implemented a large number of policies to address energy security, emissions reductions, low carbon economic growth and fuel poverty since 2000. Some of the key achievements are set out as follows, along with information on the number of households assisted by the Warm Front scheme in South Thanet constituency. It would be disproportionately costly to provide statistical information on all the impact of all the policies to the level of detail requested, but statistical information covering energy and climate change is available at:

http://www.decc.gov.uk/en/content/cms/statistics/statistics.aspx

Key achievements

Total UK greenhouse gas emissions have been reduced by about 12 per cent. compared with 1997.

The UK is on track to cut emissions by nearly twice our Kyoto target (22 per cent. below 1990 levels by 2008-12 compared to the target of 12.5 per cent. set out under the Kyoto agreement).

The Climate Change Act in 2008 set a target of at least 80 per cent. reduction in greenhouse gases by 2050. Our first three carbon budgets legally bind the UK to a cut in greenhouse gases of 34 per cent. by 2018-22 against a 1990 baseline. In 2009, the UK's Low Carbon Transition Plan set out the long-term vision for climate change and energy and showing how we will meet the carbon budgets set out in the Climate Change Act.

In the same year, the Department published National Policy Statements on energy infrastructure which will lead to faster and fairer planning decisions and a diverse low carbon energy mix. An ambitious new framework for clean coal will also drive development of carbon capture and storage.

The UK's energy market is the most competitive in the EU and has attracted over £97 billion of investment from 1997 to 2008 (at 2005 prices). The UK also has the greatest installed capacity of offshore wind in the world.

Turning to household measures, since 2002, the Carbon Emissions Reduction Target (CERT) and its predecessors have helped over 6 million households with insulation measures with almost 3 million of these in a priority group of vulnerable households.

Government will be providing more financial assistance to help people generate their own heat and electricity in low carbon ways, where appropriate, through 'clean energy cashback' schemes:

Feed-in Tariffs (FITs) will be in place from April 2010. The Renewable Heat Incentive (RHI), scheduled for launch in April 2011, will provide households, communities and businesses with payment for getting their heat from renewable sources. The detailed design of the RHI is currently out for consultation.

Warm Front scheme: South Thanet constituency

DECC's Warm Front scheme provides grants for households on qualifying income and disability related benefits to install a range of insulation and heating measures in their homes. Since 2000 the scheme has assisted 2,067 households in the South Thanet constituency.

Totnes Transition Town Group

Mr. Steen: To ask the Secretary of State for Energy and Climate Change how much funding his Department has provided to Totnes Transition Town Group; over what period this funding is being provided; for what purpose the funding is being provided; and how the effectiveness of the funding will be evaluated. [314079]

Joan Ruddock *[holding answer 28 January 2010]:* Totnes Transition Group are being awarded £625,000 of funding, the benefits of which will be delivered mainly in FY 2009-10 and some in FY 2010-11. Totnes Transition Group are receiving this funding as they have been selected to take part in the low carbon communities challenge which is a £10 million Government research project for communities to improve energy efficiency and tackle the wider issue of climate change.

The monitoring and evaluation plan, managed by DECC, has been designed to capture evidence of project impacts and promote community dialogue and shared learning. The primary objective of this is to help inform and shape our policy in relation to the role of communities in delivering the transition to a low carbon economy and share our learning across the UK that will inspire and guide further community-led initiatives.

The evaluation strands consist of the installation of real time displays, survey of households, case studies, co-inquiry and shared learning.

Vauxhall

Kate Hoey: To ask the Secretary of State for Energy and Climate Change if he will set out, with statistical evidence relating as closely as possible to Vauxhall constituency, the effects on the constituency of changes to his Department's policies since 1997. [310332]

Joan Ruddock: The Department of Energy and Climate Change and its predecessors have implemented a large number of policies to address energy security, emissions reductions, low carbon economic growth and fuel poverty since 1997. Some of the key achievements are set out as follows, along with information on the number of households assisted by the Warm Front scheme in Vauxhall constituency. It would be disproportionately costly to provide statistical information on all the impact of all the policies to the level of detail requested, but statistical information covering energy and climate change is available at:

http://www.decc.gov.uk/en/content/cms/statistics/statistics.aspx

Key achievements since 1997

Total UK greenhouse gas emissions have been reduced by about 12 per cent. compared with 1997.

The UK is on track to cut emissions by nearly twice our Kyoto target (22 per cent. below 1990 levels by 2008-12 compared to the target of 12.5 per cent. set out under the Kyoto agreement).

The Climate Change Act in 2008 set a target of at least 80 per cent. reduction in greenhouse gases by 2050. Our first three carbon budgets legally bind the UK to a cut in greenhouse gases of 34 per cent. by 2018-22 against a 1990 baseline. In 2009, the UK's Low Carbon Transition Plan set out the long-term vision for climate change and energy and showing how we will meet the carbon budgets set out in the Climate Change Act.

In the same year, the Department published National Policy Statements on energy infrastructure which will lead to faster and fairer planning decisions and a diverse low carbon energy mix. An ambitious new framework for clean coal will also drive development of carbon capture and storage.

The UK's energy market is the most competitive in the EU and has attracted over £97 billion of investment from 1997 to 2008 (at 2005 prices). The UK also has the greatest installed capacity of offshore wind in the world.

Turning to household measures, since 2002, the Carbon Emissions Reduction Target (CERT) and its predecessors have helped over 6 million households with insulation measures with almost 3 million of these in a priority group of vulnerable households.

Government will be providing more financial assistance to help people generate their own heat and electricity in low carbon ways, where appropriate, through 'clean energy cashback' schemes:

Feed-in Tariffs (FITs) will be in place from April 2010. Payment for low carbon electricity produced by small-scale generators (including households), will be provided through the electricity supply companies to encourage the uptake of low carbon and renewable electricity generating technologies by households, businesses and communities.

The Renewable Heat Incentive (RHI), scheduled for launch in April 2011, will provide households, communities and businesses with payment for getting their heat from renewable sources. The detailed design of the RHI is currently out for consultation.

Warm Front scheme: Vauxhall constituency

DECC's Warm Front scheme provides grants for households on qualifying income and disability related benefits to install a range of insulation and heating measures in their homes. Since 2000 the scheme has assisted 1,190 households in the Vauxhall constituency.

Warm Front Scheme

Mr. Spring: To ask the Secretary of State for Energy and Climate Change what mechanisms have been put in place to ensure that quotations from Warm Front contractors match those in the private sector. [315649]

Mr. Kidney: In 2008 an independent audit carried out by the Warm Front scheme's quality assessors, White Young Green, confirmed that the Warm Front pricing structures in place at that time provided good value for money when compared with the wider market. This was supported by the National Audit Office report into the scheme published in 2009.

Following a renegotiation of the scheme manager contract aimed at improving the quality of service for Warm Front customers a number of changes were made to the Warm Front contract in July 2009.

As part of this, under the new arrangements up to 35 per cent. of work will be allocated to appointed installers at a new, competitively derived, set price. For the remaining 65 per cent. of work, Warm Front registered installers operating will be able to bid via an electronic auction to establish the lowest price. This will include all cases where a customer contribution would be required under the fixed prices. Where a customer contribution is required, individual households will be free to choose between the three lowest bidders and to help them decide will have access to the installer's performance rating.

This new system is in the process of being rolled out across England, with full coverage expected to be in place by 1 May 2010.

The effectiveness of all Warm Front pricing and cost processes continue to be subject to regular review by the Department and the independent audits by White Young Green.

Nadine Dorries: To ask the Secretary of State for Energy and Climate Change what estimate he has made of the number of back boilers which have been replaced under the Warm Front scheme in *(a)* Mid Bedfordshire constituency, *(b)* Bedfordshire, *(c)* the East of England and *(d)* England in each year since its inception. [317531]

Mr. Kidney: The following table shows the total number of boilers replaced by the Warm Front Scheme in *(a)* Mid Bedfordshire constituency, *(b)* Bedfordshire, *(c)* the East of England and *(d)* England in each year since the current phase of the scheme began in 2005, but does not differentiate between back boilers and other type of boiler replaced under Warm Front. Details on types of boiler being replaced are not recorded.

Boilers installed	*2005-06*	*2006-07*	*2007-08*	*2008-09*	*2009-10*[1]
Mid Bedfordshire	3	18	68	99	78
Bedfordshire	70	349	1,059	1,245	851
East of England	711	2,946	6,330	7,976	7,309
England	14,136	53,436	75,600	80,548	74,932

[1] Up to 10 February 2010

Warm Front Scheme: Feltham

Alan Keen: To ask the Secretary of State for Energy and Climate Change how many applications from residents of Feltham and Heston constituency to the Warm Front Scheme for *(a)* heating, *(b)* insulation and *(c)* heating and insulation were approved in each of the last three years. [316664]

Mr. Kidney: The following table shows the number applications where *(a)* heating *(b)* insulation and *(c)* both heating and insulation measures were recommended in Felton and Heston in each of the last three years.

Measure received	*2007-08*	*2008-09*	*2009-10*[1]	*Total*
Insulation	62	122	83	267
Heating	96	57	68	221
Both	68	77	74	219

[1] Up to 31 January 2010.

Note:

These figures may include those cases where a measure was recommended but not carried out. This may occur of variety of reasons, for instance, where the client chooses to have work carried out privately rather than wait for work to be carried out through the scheme.

Alan Keen: To ask the Secretary of State for Energy and Climate Change how much has been spent on the Warm Front programme in Feltham and Heston constituency in each year since its inception; and what other steps have been taken in that constituency to *(a)* encourage greater energy efficiency measures and *(b)* reduce the level of fuel poverty. [316665]

Mr. Kidney: Table 1 shows the amount of Warm Front scheme funding spent in Feltham and Heston in each year since its inception.

Table 2 shows the number of homes and amount of funding spent in Feltham and Heston by the Warm Front £300 rebate scheme (which provides assistance to households requiring boiler replacements or repairs for those over 60 and not receiving benefits which would give them access to the main Warm Front scheme) in each year since its inception.

Table 1: Warm Front spend

Feltham and Heston	*£*
2001-02	17,569.35
2002-03	83,686.17
2003-04	101,036.17
2004-05	247,734.90
2005-06	194,810.70
2006-07	202,014.09
2007-08	313,567.20
2008-09	260,248.41
2009-10[1]	371,699.28

Table 2: Heating rebate scheme

	Vouchers issued	*Funding (£)*
2006-07	1	315.46
2007-08	66	20,449.32
2008-09	76	22,985.52
2009-10	83	22,414.84

[1] To 7 February 2010.

The Government have a strong package of measures to help reduce fuel poverty among vulnerable households. This is centred on tackling the three root causes of fuel poverty:

(i) Reducing the demand for energy by improving home energy efficiency is encouraged through schemes such the Carbon Emissions Reduction Target (CERT), the Community Energy Saving Programme (CESP), the Community Energy Efficiency Fund (CEEF) and the Decent Homes Standard, in addition to the Warm Front scheme which continues to be the Government's flagship scheme for tackling fuel poverty in the private household sector in England.

CERT requires energy suppliers to meet at least 40 per cent. of their obligation by promoting and installing measures in the homes of a Priority Group of vulnerable consumers in receipt of qualifying benefits or people aged over 70 years. Measures are only reported at a GB level and details for the work carried out in Feltham and Heston are therefore not available.

(ii) Putting in place and continuously looking to improve a regulatory framework that promotes competition as the main driver to ensure downward pressure on prices for consumers, and to improve licence conditions and strengthen Ofgem's powers through the Energy Bill; and

(iii) Raising real incomes, including through winter fuel payments and cold weather payments alongside the wider tax and benefit system and through benefit entitlement checks under the Warm Front scheme.

We have also introduced legislation to implement mandated social price support schemes once the current voluntary agreement with suppliers comes to an end in 2011. These schemes will provide more of the most vulnerable consumers with help towards their energy costs. We have said that we are minded to focus the majority of the additional resources on older pensioner households on the lowest incomes.

As these households tend to have a high incidence of fuel poverty—over 50 per cent. of fuel poor households have a person over 60 living in them; their circumstances are relatively stable; and they are at the greatest risk of excess winter deaths.

The fuel poverty review which was announced in January 2009, has been looking across all three drivers of fuel poverty, and particularly the key issue of how we can more effectively identify and target assistance at the most vulnerable households.

Wind Power

Richard Younger-Ross: To ask the Secretary of State for Energy and Climate Change what plans he has for the future generating capacity of UK wind farms. [316861]

Mr. Kidney: The UK does not have specific targets for wind power generation. However, under the lead scenario in the Renewable Energy Strategy published last July, more than 30 per cent. of our electricity could be generated from renewables by 2020. Much of this generation would be from onshore and offshore wind.

Bob Spink: To ask the Secretary of State for Energy and Climate Change what estimate he has made of the *(a)* consumable electrical output and *(b)* proportion of the maximum potential output generated by wind turbines during the severe weather conditions in December 2009 and January 2010; and what estimate he has made of the cost per unit of generating electricity from (i) wind turbines and (ii) non-renewable sources during that period. [316911]

Mr. Kidney: The latest official electricity output data are for November 2009, when major power producers supplied 740 GWh from wind generation. Electricity output data for December 2009 and January 2010 will be available on 25 February 2010 and 25 March 2010 respectively. As such, we are unable to provide an estimate of the cost per unit of generation by either wind or non-renewable sources in December and January.

Load factors are defined as the average hourly quantity of electricity supplied during the year, expressed as a percentage of the average output capability at the beginning and end of the year. As such, these are only calculated on an annual basis, with the latest data for 2008 showing 29.4 per cent. for onshore wind and 34.9 per cent. for offshore wind.

An indication of the load factors for December 2009 and January 2010 can be obtained by calculating total operational wind generation as a percentage of the theoretical maximum generation for all operationally metered wind plants. This data is made available by National Grid and only refers to wind which is operationally metered i.e. around half of the onshore wind farms and none of the offshore wind farms. Onshore wind farms generated 20.9 per cent. and 30.3 per cent. of maximum potential output in December and January respectively. Where this figure exceeds the load factor for onshore wind, given above, the plants covered by operational metering were operating at above average levels.

WORK AND PENSIONS

Better Off in Work Credit

Steve Webb: To ask the Secretary of State for Work and Pensions when she expects the Better off in Work Credit to be available; what the monetary value will be of the weekly amount of credit provided; by what mechanisms payment of a claim will be triggered; how many people she estimates will be eligible for that credit; and if she will make a statement. [308337]

Jim Knight: We will be implementing the enhanced Better off in Work Credit in one region from October 2010 as the first step towards a national roll-out. We expect the credit to be available nationally from January 2011. The Better off in Work Credit will ensure that everyone who has been unemployed for 26 weeks or more will have at least £40 a week more income on moving into work. The amount of the credit will vary from customer to customer and will be dependent on a comparison of the income an individual receives in work against the income they received from out of work benefits.

During the Better off in Work Credit pilot that ran in Yorkshire and the Humber, customers made their applications at their local jobcentre in consultation with Jobcentre Plus staff. We will review this process to determine the most effective means of taking applications taking account of the lessons learned from the pilot before we roll out the next phase.

Of those who move from benefits to work in each year, the vast majority are already better off in work. We expect only a small minority—up to around 100,000 a year to qualify for the enhanced Better off in Work Credit.

Blaydon

Mr. David Anderson: To ask the Secretary of State for Work and Pensions if she will set out, with statistical information related as directly as possible to Blaydon constituency, the effect on that constituency of her Department's policies and actions since 2000. [315296]

Jonathan Shaw: DWP leads the Government's response to some of the biggest issues facing the Country—welfare and pension reform—and are a key player in tackling child poverty. As the biggest delivery department in the UK, DWP makes a difference to millions of people every day, helping them to lead safer, fairer and more rewarding lives that are free from poverty. We want to give people more choice and control over their lives and are committed to providing greater choice and personalised support to everyone who needs it so they have the opportunity to get into and remain in work. We believe that work works. Even in economically challenging times we know that work works for the most vulnerable and the disadvantaged.

Support to find work

Through Jobcentre Plus, we are promoting work as the best form of welfare for people of working age. Since 2000, although the number of people unemployed in Blaydon has increased by 45 per cent to 2,014, the number unemployed for more than one year has decreased by 28 per cent to 220. From May 2000 to May 2009 the number of lone parents claiming Income Support in Blaydon has decreased by 24 per cent to 860.

Our New Deals have helped lone parents, the young unemployed, the long-term unemployed, disabled people, the over 50s and partners of unemployed people to move from benefit into work. Since their inception over

C

2.2 million people in Great Britain have found work with the support of the New Deal, and 3,620 have been helped in Blaydon.

Support for children

We introduced a target to halve child poverty by 2010-11 on the way to eradicating it by 2020. Poverty is measured using a headline indicator of the proportion of children in households with an income below 60 per cent of contemporary household median income before housing costs. This is in line with international best practice.

Statistics on the numbers of children living in poverty are not available at the constituency level. But the latest information for the North East Government Office Region shows that the proportion of children in poverty has fallen from 32 per cent. in 2000 to 28 per cent.[1]

Support for older people

Figures from 2000 relating to support for older people could be obtained at only disproportionate cost. However, figures are available from 1997 and these are shown as follows.

Since 1997 our strategy has been to target help on the poorest pensioners while providing a solid foundation of support for all.

This year we will be spending over £13 billion more on pensioners than if we had continued with policies that were in place in 1997. Around half of that money will go to the poorest third of pensioners.

In 1997 the poorest pensioners, who received income support, lived on £69 a week (£98 in today's prices). Today pension credit, which was introduced in 2003, means no pensioner needs to live on less than £130 a week, £198.45 for couples. As of May 2009 6,140 pensioners in Blaydon are benefiting from pension credit.

In 2007-08 there were 900,000 fewer pensioners living in relative poverty in UK compared to 1998-99 (measured as below 60 per cent. of contemporary median household income after housing costs).

Statistics on the proportion of pensioners living in relative poverty are not available at the constituency level. But the latest data for the North East Government Office Region show that the number of pensioners in poverty in fell from 27 per cent. to 19 per cent. since 20002.

Pensioners in the UK also benefit from a range of additional support such as the winter fuel payment which this winter is worth £250 for households aged between 60-79 and £400 for households aged 80 or over. These payments provide vital reassurance to older people that they can afford to turn up their heating during cold weather. Prior to winter 1997-98 less than £60 million was spent helping pensioners meet their fuel bills - this year the Government will be spending around £2.7 billion on winter fuel payments alone. In 2008-09 19,980 people aged 60 and over benefited from Winter fuel payments in Blaydon.

We have also taken steps to strengthen and protect the private pensions system to ensure people can continue to have confidence to save for their future through the establishment of the Pensions Protection Fund, the Financial Assistance Scheme and a more powerful and proactive pensions regulator.

The protection system ensures that, unlike in 1997, people are not left without a pension even in the event that their employer becomes insolvent.

In total 405 people in the North East Region are receiving compensation from the Pension Protection Fund (data not available at constituency level[3]).

Regional information about assistance payments received by members from the Financial Assistance Scheme could be obtained only at disproportionate cost.

The Government have also taken forward a radical package of pension reforms in the Pensions Acts of 2007 and 2008 which will deliver a fairer and more generous state pension and extend the opportunity of workplace pension saving to millions, many for the first time.

The state pension reforms begin to come into effect from 2010 and will mean around three quarters of women reaching State Pension age in 2010 are expected to qualify for a full basic State Pension compared to half without reform.

Support for disabled people and carers

Since 2001, we have significantly extended and improved civil rights for disabled people in areas such as employment, education, access to goods and services and transport. Disabled people in Blaydon will have benefited from these improvements. The Welfare Reform Act 2009 contains powers to increase choice and control for disabled adults, including disabled parents who are entitled to state support, enabling them to choose how certain state support is used to meet their individual needs. This will be trail blazed in up to eight local authority areas from late 2010. Older and less well off carers have gained extra help through the provisions within the National Carers Strategy.

[1] Based on three-year averages and figures are rounded to the nearest percentage point or 100,000 children between 2000-01 to 200-03 and 200-06 to 2007-08.

[2] Based on three-year averages and changes are rounded to the nearest percentage point or 100,000 pensioners between 2000-01 to 2002-2003 and 2005-06 to 2007-08.

[3] Regional information about assistance payments received by members from the Financial Assistance Scheme could only be obtained at disproportionate cost.

Chorley

Mr. Hoyle: To ask the Secretary of State for Work and Pensions if she will set out, with statistical information as closely related to Chorley constituency as possible, the effect on that constituency of the policies of her Department and its predecessor since 1997. [314238]

Jonathan Shaw: As the biggest delivery Department in the UK, DWP makes a difference to millions of people every day, helping them to lead safer, fairer and more rewarding lives that are free from poverty. The policies that we have introduced since 1997 have aimed to give people more choice and control over their lives. Through our welfare reform programme, we are committed to providing personalised support to everyone who needs it so they have the opportunity to get into and remain in work.

Support to find work

Through Jobcentre Plus, we are promoting work as the best form of welfare for people of working age. Since 1997, although the number of people unemployed in Chorley has increased by 38 per cent. to 1,900, the number unemployed for more than one year has decreased by 23 per cent. to 170. From May 1997 to May 2009 the number of lone parents claiming Income Support in Chorley has decreased by 43 per cent. to 690.

Our New Deal programmes have helped lone parents, the young unemployed, the long-term unemployed, disabled people, the over 50s and partners of unemployed people to move from benefit into work. Since their inception over 2.2 million people in Great Britain have found work with the support of the New Deal, and 2,810 have been helped in Chorley.

Support for Children

We introduced a target to halve child poverty by 2010-11 on the way to eradicating it by 2020. Poverty is measured using a headline indicator of the proportion of children in households with an income below 60 per cent. of contemporary household median income before housing costs. This is in line with international best practice.

Statistics on the numbers of children living in poverty are not available at the constituency level, but the latest information for the North West shows that the proportion of children in poverty fell from 32 per cent. to 27 per cent. since 1997.

Support for older people

Since 1997 our strategy has been to target extra help at the poorest pensioners while providing a solid foundation of support for all.

This year we will spend over £13 billion more on pensioners than if we had continued with the policies that were in place in 1997. Around half of that money will go to the poorest third of pensioners.

In 1997 the poorest pensioners, who received Income Support, lived on £69 a week (£98 in today's prices). Today Pension Credit, which was introduced in 2003, means no pensioner needs to live on less than £130 a week, £198.45 for couples. As of May 2009, 5,330 pensioners in Chorley are benefiting from Pension Credit. Statistics on the proportion of pensioners living in relative poverty are not available at the constituency level, but the latest information for the North West Government Office Region shows that the proportion of pensioners in poverty fell from 28 per cent. to 18 per cent. from 1997.

Pensioners in the UK also benefit from a range of additional support such as the winter fuel payment which this winter is worth £250 for households aged between 60 and 79 and £400 for households aged 80 or over. These payments provide vital reassurance to older people that they can afford to turn up their heating during cold weather. Prior to winter 1997-98 less than £60 million was spent helping pensioners meet their fuel bills—this year we will be spending around £2.7 billion on winter fuel payments alone. In 2008-09 22,320 people aged 60 and over benefited from winter fuel payments in Chorley.

We have also taken steps to strengthen and protect the private pensions system to ensure people can continue to have confidence to save for their future through the establishment of the Pensions Protection Fund, the Financial Assistance Scheme and a more powerful and proactive pensions regulator.

The protection system ensures that, unlike in 1997, people are not left without a pension even in the event that their employer becomes insolvent.

In total 1,965 people in the North West Government Office Region are receiving compensation from the Pension Protection Fund (data not available at constituency level).

We have also taken forward a radical package of pension reforms in the Pensions Acts of 2007 and 2008 which will deliver a fairer and more generous state pension and extend the opportunity of workplace pension saving to millions, many for the first time.

The state pension reforms begin to come into effect from 2010 and will mean around three quarters of women reaching state pension age in 2010 are expected to qualify for a full basic state pension compared to half without reform.

Support for disabled people and their carers

Since 2001, we have significantly extended and improved civil rights for disabled people in areas such as employment, education, access to goods and services and transport. Disabled people in Chorley will have benefited from these improvements. The Welfare Reform Act 2009 contains powers to increase choice and control for disabled adults, including disabled parents, enabling them to choose how certain state support is used to meet their individual needs. Older and less well-off carers are receiving extra help through the provisions within the National Carers Strategy.

Cleethorpes

● **Shona McIsaac:** To ask the Secretary of State for Work and Pensions if she will set out, with statistical evidence relating as closely as possible to Cleethorpes constituency, the effects on that constituency of her Department's policies since 1997. [315244]

Jonathan Shaw: DWP leads the Government's response to some of the biggest issues facing the country—welfare and pension reform—and are a key player in tackling child poverty.[1] As the biggest delivery department in the UK, DWP makes a difference to millions of people every day, helping them to lead safer, fairer and more rewarding lives that are free from poverty. We want to give people more choice and control over their lives and are committed to providing greater choice and personalised support to everyone who needs it so they have the opportunity to get into and remain in work. We believe that work works. Even in economically challenging times we know that work works for the most vulnerable and the disadvantaged.

Support to find work

Through Jobcentre Plus, we are promoting work as the best form of welfare for people of working age. Since 1997, the number of people unemployed in Cleethorpes has decreased by 5 per cent. to 2,655, and the number unemployed for more than one year has decreased by 54 per cent. to 295. From May 1997 to May 2009 the number of lone parents claiming income support in Cleethorpes has decreased by 25 per cent. to 980.

Our new deals have helped lone parents, the young unemployed, the long-term unemployed, disabled people, the over 50s and partners of unemployed people to move from benefit into work. Since their inception over 2.2 million people in Great Britain have found work with the support of the new deal, and 4,130 have been helped in Cleethorpes.

Support for children

We introduced a target to halve child poverty by 2010-11 on the way to eradicating it by 2020. Poverty is measured using a headline indicator of the proportion of children in households with an income below 60 per cent. of contemporary household median income before housing costs. This is in line with international best practice.

Statistics on the numbers of children living in poverty are not available at the constituency level. But the latest information for the Yorkshire and the Humber Government office region shows that the proportion of children in poverty has fallen from 32 per cent. in 1997 to 26 per cent.[2]

Support for older people

Since 1997 our strategy has been to target help on the poorest pensioners while providing a solid foundation of support for all.

This year we will be spending over £13 billion more on pensioners than if we had continued with the policies that were in place in 1997. Around half of that money will go to the poorest third of pensioners.

In 1997 the poorest pensioners, who received income support, lived on £69 a week (£98 in today's prices). Today pension credit, which was introduced in 2003, means no pensioner needs to live on less than £130 a week, £198.45 for couples. As of May 2009 6,410 pensioners in Cleethorpes are benefiting from pension credit.

In 2007-08 there were 900,000 fewer pensioners living in relative poverty in UK compared to 1998-99 (measured as below 60 per cent. of contemporary median household income after housing costs).

Statistics on the numbers of pensioners living in relative poverty are not available at the constituency level. But the latest data for the Yorkshire and the Humber Government office region show that the number of pensioners in poverty has fallen from 32 per cent. in 1997 to 18 per cent.[3]

Pensioners in the UK also benefit from a range of additional support such as the winter fuel payment which this winter is worth £250 for households aged between 60-79 and £400 for households aged 80 or over. These payments provide vital reassurance to older people that they can afford to turn up their heating during cold weather. Prior to winter 1997-98 less than £60 million was spent helping pensioners meet their fuel bills - this year we will be spending around £2.7 billion on winter fuel payments alone. In 2008-09 22,420 people aged 60 and over benefited from winter fuel payments in Cleethorpes.

We have also taken steps to strengthen and protect the private pensions system to ensure people can continue to have confidence to save for their future through the establishment of the Pensions Protection Fund, the Financial Assistance Scheme and a more powerful and proactive pensions regulator.

The protection system ensures that, unlike in 1997, people are not left without a pension even in the event that their employer becomes insolvent.

In total 2296 people in the Yorkshire and Humber region are receiving compensation from the Pension Protection Fund (data not available at constituency level).[4]

We have also taken forward a radical package of pension reforms in the Pensions Acts of 2007 and 2008 which will deliver a fairer and more generous state pension and extend the opportunity of workplace pension saving to millions, many for the first time.

The state pension reforms begin to come into effect from 2010 and will mean around three quarters of women reaching state pension age in 2010 are expected to qualify for a full basic state pension compared to half without reform.

Support for disabled people and carers

Since 2001, we have significantly extended and improved civil rights for disabled people in areas such as employment, education, access to goods and services and transport. Disabled people in Cleethorpes will have benefited from these improvements. The Welfare Reform Act 2009 contains powers to increase choice and control for disabled adults, including disabled parents who are entitled to state support, enabling them to choose how certain state support is used to meet their individual needs. This will be trail blazed in up to eight local authority areas from late 2010. Older and less well off carers have gained extra help through the provisions within the National Carers Strategy.

[1] The Department for Work and Pensions was created in 2001 and so information relates to the department and its predecessors.

[2] Based on three-year averages and changes are rounded to the nearest percentage point or 100,000 children between 1997-98 to 1999-2000 and 2005-06 to 2007-08.

[3] Based on three-year averages and changes are rounded to the nearest percentage point or 100,000 pensioners between 1997-98 to 1999-2000 and 2005-06-2007-08.

[4] Regional information about assistance payments received by members from the Financial Assistance Scheme could be obtained only at disproportionate cost.

Council Tax Benefits and Housing Benefit

Grant Shapps: To ask the Secretary of State for Work and Pensions what proportion of her Department's expenditure on *(a)* council tax benefit and *(b)* housing benefit was paid to (i) tenants renting privately, (ii) tenants renting from a social landlord and (iii) homeowners in the latest period for which figures are available. [316252]

Helen Goodman: In 2007-08 it is estimated that 14 per cent. of council tax benefit expenditure was paid to private tenants, 58 per cent. to social tenants, and 28 per cent. to homeowners.

In 2008-09 one third of housing benefit expenditure was paid to tenants renting privately, and two thirds to tenants in the social rented sector, including local authority tenants.

Sources:

1. Housing benefit: Administrative and financial data from local authorities

2. Council tax benefit: National Statistics estimates of benefit take-up for 2007-08; available 2008-09 data from local authorities does not distinguish by tenure type.

Employers' Liability

Paul Rowen: To ask the Secretary of State for Work and Pensions when she plans to announce her decision on the feasibility of a compulsory database for recording details for employers' liability insurance policies. [316832]

Jonathan Shaw: The Government published a consultation document 'Accessing Compensation—Supporting people who need to trace Employers' Liability Insurance' on 10 February 2010. This consultation document discusses the best way of setting up and administering such a compulsory database as well as consulting on an Employers' Liability Insurance Bureau. This would be a compensation fund of last resort and would ensure that more individuals who are unable to trace employers' liability insurance records would receive compensation.

Employment and Support Allowance: Medical Examinations

Lynne Jones: To ask the Secretary of State for Work and Pensions what minimum professional qualification is required of those who carry out work capability assessments for her Department. [305266]

Jonathan Shaw: Atos healthcare doctors must be fully registered with the General Medical Council (GMC) without current or previous restrictions, conditions or warnings and hold a licence to practice from the date the GMC issues licences. In addition they must have at least three years post full registration (GMC or EEA—European Economic Area equivalent) experience as a minimum. Alternatively for non-EU graduates, three years post full registration experience in the doctors native country is required. In individual cases, solely at the discretion of the Chief Medical Advisor (CMA), the requirements that no conditions or warnings be attached to registration and that the doctor must have a minimum of three years post registration experience, may be waived.

Atos healthcare nurses must be fully registered (level 1) Registered General Nurses without current or previous restrictions or cautions with the Nursing and Midwifery Council. In addition they must have at least three years post full registration experience. In individual cases, solely at the discretion of the CMA, the requirements that no cautions be attached to registration and that the nurse must have a minimum of three years post registration experience, may be waived.

Atos healthcare doctors and nurses are specifically trained to provide decision making authorities with independent, accurate and authoritative advice and reports on the effects of disability.

The CMA approves Healthcare Professionals to carry out assessments. Approval is dependent on strict recruitment criteria, completion of a course of training in disability assessment medicine approved by the CMA and evidence of satisfactory performance.

Employment: Disabled

Mr. Harper: To ask the Secretary of State for Work and Pensions pursuant to the answer of 2 February 2010, *Official Report*, columns 257-58W, on employment: disabled, what estimate she has made of the *(a)* number and *(b)* proportion of disabled people employed (i) full-time and (ii) part-time in the (A) public and (B) private sector in each year since 1997. [317944]

Jonathan Shaw: There are currently 5,819,000 people of working age who declare a disability that corresponds to the Disability Discrimination Act's definition of disability. Of these, 2,783,000 (47.8 per cent.) are in employment. This has increased from 1,975,000 (39.7 per cent.) for the comparable quarter in 1998. Over the same period, the gap between the employment rate for disabled people and the overall employment rate has narrowed from 34.4 to 25.1 percentage points.

The information requested is in the tables.

Number of people with a Disability Discrimination Act disability in full and part-time employment in the public and private sector

	Private sector		Public sector	
	Full-time	*Part-time*	*Full-time*	*Part-time*
1998	1,062,000	421,000	323,000	153,000
1999	1,216,000	463,000	340,000	164,000
2000	1,240,000	482,000	364,000	172,000
2001	1,294,000	474,000	383,000	192,000
2002	1,367,000	510,000	418,000	212,000
2003	1,377,000	532,000	432,000	206,000
2004	1,465,000	565,000	457,000	228,000
2005	1,433,000	518,000	464,000	233,000
2006	1,469,000	593,000	476,000	242,000
2007	1,492,000	592,000	483,000	247,000
2008	1,496,000	582,000	491,000	244,000
2009	1,413,000	582,000	529,000	237,000

Note:

The figures given do not add up to 2,783,000 because a small number of cases have missing values for either the full-time/part-time or the private sector/public sector variables.

European Regional Development Fund

Mr. Clappison: To ask the Secretary of State for Work and Pensions how much employment-related funding she expects each region to receive from the European Regional Development Programmes on a per capita basis in the period 2007 to 2013; and what information her Department holds on the distribution of such funds on a per capita basis to other EU member States in that period for benchmarking purposes. [315671]

Ms Rosie Winterton: I have been asked to reply.

As a general rule, employment-related measures are supported through the European Social Fund (ESF), although a small amount of the European Regional Development Fund (ERDF) programmes may also be spent on employment-related measures. However, figures for ERDF employment-related measures for the regions and counties of the UK and the other member states are not readily available and could be produced only at disproportionate cost.

ERDF expenditure is focused on research, innovation, business development, environmental protection and infrastructure investment.

Feltham

Alan Keen: To ask the Secretary of State for Work and Pensions if she will set out, with statistical evidence relating as closely as possible to Feltham and Heston constituency, the effects on that constituency of changes to her Department's policies since 1997. [316677]

Jonathan Shaw: DWP leads the Government's response to some of the biggest issues facing the country—welfare and pension reform—and are a key player in tackling child poverty[1]. As the biggest delivery Department in the UK, DWP makes a difference to millions of people every day, helping them to lead safer, fairer and more rewarding lives that are free from poverty. We want to give people more choice and control over their lives and are committed to providing greater choice and personalised support to everyone who needs it so they have the opportunity to get into and remain in work. We believe that work works. Even in economically challenging times we know that work works for the most vulnerable and the disadvantaged."

Support to find work

Through Jobcentre Plus, we are promoting work as the best form of welfare for people of working age. Since 1997, although the number of people unemployed in Feltham and Heston has increased by 32 per cent. to 2,832, the number unemployed for more than one year has decreased by 86 per cent. to 75. From May 1997 to May 2009 the number of lone parents claiming income support in Feltham and Heston has decreased by 23 per cent. to 2,230.

Our New Deals have helped lone parents, the young unemployed, the long-term unemployed, disabled people, the over 50s and partners of unemployed people to move from benefit into work. Since their inception over 2.2 million people in Great Britain have found work with the support of the New Deal, and 3,730 have been helped in Feltham and Heston.

Support for children

We introduced a target to halve child poverty by 2010-11 on the way to eradicating it by 2020. Poverty is measured using a headline indicator of the proportion of children in households with an income below 60 per cent. of contemporary household median income before housing costs. This is in line with international best practice.

Statistics on the numbers of children living in poverty are not available at the constituency level, but the latest information for the outer London area shows that the proportion of children in poverty is the same now, at 20 per cent. as it was in 1997.[2]

Support for older people

Since 1997 our strategy has been to target help on the poorest pensioners while providing a solid foundation of support for all.

This year we will be spending over£13 billion more on pensioners than if we had continued with the policies that were in place in 1997. Around half of that money will go to the poorest third of pensioners.

In 1997 the poorest pensioners, who received income support, lived on £69 a week (£98 in today's prices). Today pension credit, which was introduced in 2003, means no pensioner needs to live on less than £130 a week, £198.45 for couples. As of May 2009, 5,180 pensioners in Feltham and Heston are benefiting from pension credit.

In 2007-08 there were 900,000 fewer pensioners living in relative poverty in UK compared to 1998-99 (measured as below 60 per cent. of contemporary median household income after housing costs).

Statistics on the proportion of pensioners living in relative poverty are not available at the constituency level. But the latest data for the outer London area Government office region show that the number of pensioners in poverty (measured as below 60 per cent. of contemporary median household income after housing costs) fell from 26 per cent. to 19 per cent. since 1997[3].

Pensioners in the UK also benefit from a range of additional support such as the winter fuel payment which this winter is worth £250 for households with someone aged between 60-79 and £400 for households with someone aged 80 or over. These payments provide vital reassurance to older people that they can afford to turn up their heating during cold weather. Prior to winter 1997-98 less than £60 million was spent helping pensioners meet their fuel bills—this year we will be spending around £2.7 billion on winter fuel payments alone. In 2008-09, 15,490 people aged 60 and over benefited from winter fuel payments in Feltham and Heston.

We have also taken steps to strengthen and protect the private pensions system to ensure people can continue to have confidence to save for their future through the establishment of the Pensions Protection Fund, the Financial Assistance Scheme and a more powerful and proactive pensions regulator.

The protection system ensures that, unlike in 1997, people aren't left without a pension even in the event that their employer becomes insolvent.

In total 473 people in the London region are receiving compensation from the Pension Protection Fund (data not available at constituency level).[4]

We have also taken forward a radical package of pension reforms in the Pensions Acts of 2007 and 2008 which will deliver a fairer and more generous state pension and extend the opportunity of workplace pension saving to millions, many for the first time.

The state pension reforms begin to come into effect from 2010 and will mean around three quarters of women reaching state pension age in 2010 are expected to qualify for a full basic state pension compared to half without reform.

Support for disabled people and carers

Since 2001, we have significantly extended and improved civil rights for disabled people in areas such as employment, education, access to goods and services and transport. Disabled people in Feltham and Heston will have benefited from these improvements. The Welfare Reform Act 2009 contains powers to increase choice and control for disabled adults, including disabled parents who are entitled to state support, enabling them to choose how certain state support is used to meet their individual needs. This will be trailblazed in up to eight local authority areas from late 2010. Older and less well off carers have gained extra help through the provisions within the National Carers Strategy.

Future Jobs Fund

Margaret Moran: To ask the Secretary of State for Work and Pensions which local authorities have taken on more staff under the Future Jobs Fund; how many such staff have been employed by each such local authority; and how many such staff each local authority plans to employ in the next three years. [315106]

Jim Knight: We cannot comment publicly on job starts ahead of publication of the confirmed official statistical data, which is due in spring 2010. It is not possible to estimate how many staff each local authority plans to employ in the next three years as this is not information we require as part of the Future Jobs Fund bid process.

Margaret Moran: To ask the Secretary of State for Work and Pensions what guidance her Department provides to local authorities on the role of social enterprises in the Future Jobs Fund. [315109]

Jim Knight: The future jobs fund provides an excellent opportunity for social enterprises and the third sector to create jobs for young people, and this is reflected in the guidance available on the website available to all potential bidders. While my Department does not provide specific guidance to local authorities on the role of social enterprises in the future jobs fund, there are many examples of authorities working closely with social enterprises to create new jobs.

Hemsworth

Jon Trickett: To ask the Secretary of State for Work and Pensions if she will set out, with statistical information related as directly as possible to Hemsworth constituency, the effects on Hemsworth of her Department's policies and actions since 2000. [316303]

Jonathan Shaw: DWP leads the Government's response to some of the biggest issues facing the country—welfare and pension reform—and are a key player in tackling child poverty[1]. As the biggest delivery Department in the UK, DWP makes a difference to millions of people every day, helping them to lead safer, fairer and more rewarding lives that are free from poverty. We want to give people more choice and control over their lives and are committed to providing greater choice and personalised support to everyone who needs it so they have the opportunity to get into and remain in work. We believe that work works. Even in economically challenging times we know that work works for the most vulnerable and the disadvantaged.

Support to find work

Through Jobcentre Plus, we are promoting work as the best form of welfare for people of working age. Since 2000, although the number of people unemployed in Hemsworth has increased by 42 per cent. to 2,164, the number unemployed for more than one year has decreased by 10 per cent. to 220. From May 2000 to May 2009 the number of lone parents claiming income support in Hemsworth has decreased by 29 per cent. to 1,130.

Our New Deals have helped lone parents, the young unemployed, the long-term unemployed, disabled people, the over 50s and partners of unemployed people to move from benefit into work. Since their inception over 2.2 million people in Great Britain have found work with the support of the New Deal, and 3,420 have been helped in Hemsworth.

---

[1] The Department for Work and Pensions was created in 2001 and so information relates to the Department and its predecessors.

[2] Based on three-year averages, and changes are rounded to the nearest percentage point or 100,000 children between 1997-98 to 1999-2000 and 2005-06 to 2007-08.

[3] Based on three-year averages, and changes are rounded to the nearest percentage point or 100,000 pensioners between 1997-98 to 1999-2000 and 2005-06 to 2007-08.

[4] Regional information about assistance payments received by members from the Financial Assistance Scheme could be obtained only at disproportionate cost.

Support for children

We introduced a target to halve child poverty by 2010-11 on the way to eradicating it by 2020. Poverty is measured using a headline indicator of the proportion of children in households with an income below 60 per cent. of contemporary household median income before housing costs. This is in line with international best practice.

Statistics on the numbers of children living in poverty are not available at the constituency level, but the latest information for the Yorkshire and Humber area shows that the proportion of children in poverty fell from 27 per cent. to 26 per cent. since 2000.

Support for older people

Figures from 2000 relating to support for older people could be obtained only at disproportionate cost. However, figures are available from 1997 and these are as follows.

Since 1997 our strategy has been to target help on the poorest pensioners while providing a solid foundation of support for all.

This year we will be spending over£13 billion more on pensioners than if we had continued with the policies that were in place in 1997. Around half of that money will go to the poorest third of pensioners.

In 1997 the poorest pensioners, who received income support, lived on £69 a week (£98 in today's prices). Today pension credit, which was introduced in 2003, means no pensioner needs to live on less than £130 a week, £198.45 for couples. As of May 2009 5,760 pensioners in Hemsworth are benefiting from pension credit.

In 2007-08 there were 900,000 fewer pensioners living in relative poverty in UK compared to 1998-99 (measured as below 60 per cent. of contemporary median household income after housing costs).

Statistics on the proportion of pensioners living in relative poverty are not available at the constituency level. But the latest data for the Yorkshire and Humber Government office region show that the number of pensioners in poverty has fallen from 26 per cent. in 2000 to 18 per cent[2].

Pensioners in the UK also benefit from a range of additional support such as the winter fuel payment which this winter is worth £250 for households with someone aged between 60-79 and £400 for households with someone aged 80 or over. These payments provide vital reassurance to older people so that they can afford to turn up their heating during cold weather. Prior to winter 1997-98 less than £60 million was spent helping pensioners meet their fuel bills—this year we will be spending around £2.7 billion on winter fuel payments alone. In 2008-09 19,740 people aged 60 and over benefited from winter fuel payments in Hemsworth.

We have also taken steps to strengthen and protect the private pensions system to ensure people can continue to have confidence to save for their future through the establishment of the Pensions Protection Fund, the Financial Assistance Scheme and a more powerful and proactive pensions regulator.

The protection system ensures that, unlike in 1997, people are not left without a pension even in the event that their employer becomes insolvent.

In total 2,296 people in the Yorkshire and Humber region are receiving compensation from the Pension Protection Fund (data not available at constituency level)[3].

We have also taken forward a radical package of pension reforms in the Pensions Acts of 2007 and 2008 which will deliver a fairer and more generous state pension and extend the opportunity of workplace pension saving to millions, many for the first time.

The state pension reforms begin to come into effect from 2010 and will mean around three quarters of women reaching state pension age in 2010 are expected to qualify for a full basic state pension compared to half without reform.

Support for disabled people and carers

Since 2001, we have significantly extended and improved civil rights for disabled people in areas such as employment, education, access to goods and services and transport. Disabled people in Hemsworth will have benefited from these improvements. The Welfare Reform Act 2009 contains powers to increase choice and control for disabled adults, including disabled parents who are entitled to state support, enabling them to choose how certain state support is used to meet their individual needs. This will be trailblazed in up to eight local authority areas from late 2010. Older and less well off carers have gained extra help through the provisions within the National Carers Strategy.

[1] The Department for Work and Pensions was created in 2001 and so information relates to the Department and its predecessors.

[2] Based on three-year averages and changes are rounded to the nearest percentage point or 100,000 pensioners between 2000-01 to 2002-03 and 2005-06 to 2007-08.

[3] Regional information about assistance payments received by members from the Financial Assistance Scheme could be obtained only at disproportionate cost.

Housing Benefit

Grant Shapps: To ask the Secretary of State for Work and Pensions how much was spent on housing benefit at 2009-10 prices in each year since 1997. [316237]

Helen Goodman: The available information is in the following table.

Housing benefit expenditure in Great Britain

	£ million, 2009-10 prices
1997-98	14,837
1998-99	14,386
1999-2000	14,107
2000-01	14,047
2001-02	14,265
2002-03	15,069
2003-04	14,314
2004-05	14,847
2005-06	15,429
2006-07	15,966
2007-08	16,451
2008-09	17,447

Notes:

1. Expenditure figures include all housing benefit expenditure whether funded by central or local government.
2. Real terms figures are in 2009-10 prices, and derived using the 2009 pre-Budget report GDP deflator.
3. Historic and forecast expenditure for housing benefit can be found on the internet at http://research.dwp.gov.uk/asd/asd4/medium_term.asp

Local authority expenditure data

Industrial Diseases: Compensation

Jeff Ennis: To ask the Secretary of State for Work and Pensions how many former miners have *(a)* applied for and *(b)* been granted industrial injuries benefit for miners' knee; and what have been the five most frequent reasons for refusing applications. [310922]

Jonathan Shaw: Since the addition of osteoarthritis of the knee to the list of prescribed industrial diseases on 13 July 2009, 33,602 claims have been received.

13,376 claims have been processed of which 5239 have received an award of, or an increase of, industrial injuries disablement benefit.

Information is collected about the three most frequent reasons for refusing applications. These are as follows:

3,420 were diagnosed with the disease but the assessment was less than 14 per cent., which means IIDB is not payable;

2,344 did not satisfy the occupational criteria;

2,189 did not have the disease diagnosed.

This information is based on an informal count by the Jobcentre Plus offices dealing with industrial injuries disablement benefit. We are looking into arrangements to publish this information as official statistics.

My colleague, Lord McKenzie of Luton, had a very helpful meeting with the National Union of Mineworkers on 14 January to discuss how the scheme is operating in relation to osteoarthritis of the knee claims, in particular the medical assessment process, and to identify ways to improve its administration. Officials will be having further meetings with the mining unions to discuss this work in more detail.

Jobcentre Plus: Finance

Mrs. May: To ask the Secretary of State for Work and Pensions what budget for Jobcentre Plus outreach work is in 2009-10; and what the budget will be in *(a)* 2010-11, *(b)* 2011-12 and *(c)* 2012-13. [313160]

Jonathan Shaw: Jobcentre Plus has locations across the country providing outreach services. These meet the needs of customers and communities, reaching the most disadvantaged and vulnerable in society. Outreach work is not an activity in its own right but covers a variety of initiatives that form part of the core services delivered to our customers and as such there is no specific budget allocated for outreach work alone.

Jobcentre Plus: Public Relations

Mr. Hurd: To ask the Secretary of State for Work and Pensions what payments *(a)* Jobcentre Plus and *(b)* the Pension Protection Fund has made to Fishburn Hedges in the last 12 months for which figures are available; for what purpose; and if she will place in the Library a copy of the contracts under which such payments have been made. [305146]

Jim Knight: I can confirm that in the last 12 months Jobcentre Plus has spent £49,957 with Fishburn Hedges which relates to fees associated with ESA public relations activity.

The chief executive of the Pension Protection Fund will write to the hon. Member in relation to the second part of his question as this is a matter for him.

Milton Keynes

Mr. Lancaster: To ask the Secretary of State for Work and Pensions if she will set out, with statistical information related as directly as possible to North-East Milton Keynes constituency, the effects on Milton Keynes of the policies and actions of her Department and its predecessors since 1997. [316038]

Jonathan Shaw: DWP lead the Government's response to some of the biggest issues facing the country—welfare and pension reform—and are a key player in tackling child poverty[1]. As the biggest delivery department in the UK, DWP makes a difference to millions of people every day, helping them to lead safer, fairer and more rewarding lives that are free from poverty. We want to give people more choice and control over their lives and are committed to providing greater choice and personalised support to everyone who needs it so they have the opportunity to get into and remain in work. We believe that work works. Even in economically challenging times we know that work works for the most vulnerable and the disadvantaged.

Support to find work

Through Jobcentre Plus, we are promoting work as the best form of welfare for people of working age. Since 1997, the number of people unemployed in North-East Milton Keynes has increased by 153 per cent. to 3,093, and the number unemployed for more than one year has increased by 94 per cent. to 475. From May 1997 to May 2009 the number of lone parents claiming Income Support in North-East Milton Keynes has decreased by 6 per cent. to 1,310.

Our New Deals have helped lone parents, the young unemployed, the long-term unemployed, disabled people, the over 50s and partners of unemployed people to move from benefit into work. Since their inception over 2.2 million people in Great Britain have found work with the support of the New Deal, and 2,560 have been helped in North-East Milton Keynes.

Support for children

We introduced a target to halve child poverty by 2010-11 on the way to eradicating it by 2020. Poverty is measured using a headline indicator of the proportion of children in households with an income below 60 per cent. of contemporary household median income before housing costs. This is in line with international best practice.

Statistics on the numbers of children living in poverty are not available at the constituency level, but the latest information for the South East Government Office Region shows that the proportion of children in poverty has fallen from 16 per cent. to 15 per cent. since 1997.

Support for older people

Since 1997 our strategy has been to target help on the poorest pensioners while providing a solid foundation of support for all.

This year we will be spending over £13 billion more on pensioners than if we had continued with the policies that were in place in 199. Around half of that money will go to the poorest third of pensioners.

In 1997 the poorest pensioners, who received income support, lived on £69 a week (£98 in today's prices). Today pension credit, which was introduced in 2003, means no pensioner needs to live on less than £130 a week, £198.45 for couples. As of May 2009 3,900 pensioners in North-East Milton Keynes are benefiting from pension credit.

In 2007-08 there were 900,000 fewer pensioners living in relative poverty in UK compared to 1998-99 (measured as below 60 per cent. of contemporary median household income after housing costs).

Statistics on the proportion of pensioners living in relative poverty are not available at the constituency level. But the latest data for the South East Government Office Region show that the number of pensioners in poverty (measured as below 60 per cent. of contemporary median household income after housing costs) has fallen from 26 per cent. in 1997 to 16 per cent[2].

Pensioners in the UK also benefit from a range of additional support such as the Winter Fuel Payment which this winter is worth £250 for households with someone aged between 60-79 and £400 for households with someone aged 80 or over. These payments provide vital reassurance to older people that they can afford to turn up their heating during cold weather. Prior to winter 1997-98 less than £60 million was spent helping pensioners meet their fuel bills - this year we will be spending around £2.7 billion on winter fuel payments alone. In 2008-09 16,810 people aged 60 and over benefited from winter fuel payments in North-East Milton Keynes.

We have also taken steps to strengthen and protect the private pensions system to ensure people can continue to have confidence to save for their future through the establishment of the Pensions Protection Fund, the Financial Assistance Scheme and a more powerful and proactive pensions regulator.

The protection system ensures that, unlike in 1997, people are not left without a pension even in the event that their employer becomes insolvent.

In total 733 people in the South East are receiving compensation from the Pension Protection Fund (data not available at constituency level[3]).

We have also taken forward a radical package of pension reforms in the Pensions Acts of 2007 and 2008 which will deliver a fairer and more generous state pension and extend the opportunity of workplace pension saving to millions, many for the first time.

The state pension reforms begin to come into effect from 2010 and will mean around three quarters of women reaching state pension age in 2010 are expected to qualify for a full basic state pension compared to half without reform.

Support for disabled people and carers

Since 2001, we have significantly extended and improved civil rights for disabled people in areas such as employment, education, access to goods and services and transport. Disabled people in North-East Milton Keynes will have benefited from these improvements. The Welfare Reform Act 2009 contains powers to increase choice and control for disabled adults, including disabled parents who are entitled to state support, enabling them to choose how certain state support is used to meet their individual needs. This will be trail blazed in up to eight local authority areas from late 2010. Older and less well off carers have gained extra help through the provisions within the national carers strategy.

---

[1] The Department for Work and Pensions was created in 2001 and so information relates to the department and its predecessors.

[2] Based on three-year averages and changes are rounded to the nearest percentage point or 100,000 pensioners between 1997-98 to 1999-2000 and 2005-06 to 2007-08.

[3] Regional information about assistance payments received by members from the Financial Assistance Scheme could be obtained only at disproportionate cost.

Motability

Mr. Oaten: To ask the Secretary of State for Work and Pensions whether the motability contract for electric-powered vehicles managed by her Department was subject to external tender; and what the monetary value of the current contract is. [315945]

Jonathan Shaw: Motability is an independent charitable company and is responsible for the administration of the Motability Scheme. They have agreed to write separately to the hon. Gentleman on this matter.

Pathways to Work

Mr. Harper: To ask the Secretary of State for Work and Pensions what profiling system the Department currently uses to assess how far from the job market a claimant for *(a)* incapacity benefit and *(b)* employment and support allowance who is referred to a Pathways to Work provider is. [315717]

Jonathan Shaw: While we do not have an electronic profiling system, people on incapacity benefit or employment and support allowance take part in interviews with personal advisers who help customers identify appropriate job goals and move back into work as quickly as possible, depending on their individual circumstances.

For employment and support allowance customers, the discussion between personal advisers and claimants is informed by the report provided following a work-focused health-related assessment. This assessment provides the opportunity for individuals to explore their aspirations and perceptions about engaging in work with a health care professional. During the assessment customers are able to identify the health-related challenges preventing them from moving into work, and the interventions or types of work-place adaptation, which might help them to overcome these challenges.

As set out in the 2009 White Paper "Building Britain's Recovery: Achieving Full Employment", we are currently trialling a profiling tool for jobseekers to help target support. If successful we will consider using this to support advisers' judgment.

Pensioners: Income

Paul Holmes: To ask the Secretary of State for Work and Pensions what recent estimate her Department has made of the number of *(a)* single pensioner and *(b)* pensioner couple households living below the guaranteed minimum income for pensioners. [316653]

Angela Eagle: The information that is available is shown in the following table. Information surrounding pensioners' incomes is most commonly given in benefit unit terms. The latest available information on pensioner incomes is for 2007-08 and figures have been rounded to the nearest 100,000.

In 2007-08, the latest year for which data is available, the Pension Credit Guarantee Credit amounts were £119.05 and £181.70, for singles and couples respectively.

Table 1: Number of pensioner units living with income below the minimum income guarantee (at 2007-08 levels)

	Number
Pensioner singles	400,000
Pensioner couples	200,000

Notes: 1. Figures have been rounded to the nearest 100,000. 2. Pensioner units are either a single pensioner over state pension age (65 and over for men or 60 and over for women) or pensioner couples. Pensioner couples are couples where at least one member is over state pension age. 3. Income is calculated as the benefit unit's gross income. 4. Based on FRS survey data and as such subject to a degree of sampling and non-sampling error. *Source:* Pensioners' Incomes Series (derived from the Family Resources Survey).

Pensioners: Poverty

Paul Holmes: To ask the Secretary of State for Work and Pensions whether her Department has commissioned recent research into the material deprivation of pensioner households. [316530]

Angela Eagle: The latest published research on material deprivation of pensioner households reported on a programme of work to develop new survey questions for DWP's Family Resources Survey which were introduced in May 2008. The research identified problems in measuring material deprivation among older people and suggested a new question structure to address these problems. Details of this research are available at:

http://research.dwp.gov.uk/asd/asd5/WP54.pdf

and

http://research.dwp.gov.uk/asd/asd5/WP55.pdf

Information from the survey will be included in Households Below Average Incomes 2008-09, due to be published in April/May 2010, reflecting responses to the 15 individual questions relating to material deprivation. We are currently in the process of commissioning research to assess options for combining these responses into an overall indicator of the material deprivation of pensioner households.

Pensions: Senior Civil Servants

Miss McIntosh: To ask the Secretary of State for Work and Pensions whether bonus payments paid to senior civil servants form part of their remuneration for pension purposes. [315507]

Ms Butler: I have been asked to reply.

Civil servants, including senior civil servants, have the choice of a pension provided under the rules of the Principal Civil Service Pension Scheme or an employer contribution to a stakeholder pension. The general principle is that bonus payments are not normally pensionable.

Sandwell

Mr. Watson: To ask the Secretary of State for Work and Pensions if she will set out, with statistical evidence relating as closely as possible to the borough of Sandwell, the effects on that borough of changes to the policies of her Department and its predecessors since 1997. [316476]

Jonathan Shaw: DWP lead the Government's response to some of the biggest issues facing the country—welfare and pension reform—and are a key player in tackling child poverty[1]. As the biggest delivery Department in the UK, DWP makes a difference to millions of people every day, helping them to lead safer, fairer and more rewarding lives that are free from poverty. We want to give people more choice and control over their lives and are committed to providing greater choice and personalised support to everyone who needs it so they have the opportunity to get into and remain in work. We believe that work works. Even in economically challenging times we know that work works for the most vulnerable and the disadvantaged.

Support to find work

Through Jobcentre Plus, we are promoting work as the best form of welfare for people of working age. Since 1997, although the number of people unemployed in West Bromwich East has increased by 37 per cent. to 3,660, the number unemployed for more than one year has decreased by 24 per cent. to 665. From May 1997 to May 2009 the number of lone parents claiming income support in West Bromwich, East has decreased by 2 per cent. to 1,370.

Our new deals have helped lone parents, the young unemployed, the long-term unemployed, disabled people, the over-50s and partners of unemployed people to move from benefit into work. Since their inception over 2.2 million people in Great Britain have found work with the support of the new deal, and 16,370 have been helped in the Sandwell local authority area.

Support for children

We introduced a target to halve child poverty by 2010-11 on the way to eradicating it by 2020. Poverty is measured using a headline indicator of the proportion of children in households with an income below 60 per cent. of contemporary household median income before housing costs. This is in line with international best practice.

Statistics on the number of children living in poverty are not available at the constituency level, but the latest information for the West Midlands area shows that the proportion of children in poverty fell from 28 per cent. to 27 per cent. since 1997.

Support for older people

Since 1997, our strategy has been to target help on the poorest pensioners while providing a solid foundation of support for all.

This year we will be spending over £13 billion more on pensioners than if we had continued with the policies that were in place in 1997. Around half of that money will go to the poorest third of pensioners.

In 1997, the poorest pensioners who received income support, lived on £69 a week (£98 in today's prices). Today pension credit, which was introduced in 2003, means no pensioner needs to live on less than £130 a week, £198.45 for couples. As of May 2009, 26,720 pensioners in the borough of Sandwell are benefiting from pension credit.

In 2007-08 there were 900,000 fewer pensioners living in relative poverty in UK compared to 1998-99 (measured as below 60 per cent. of contemporary median household income after housing costs).

Statistics on proportion of pensioners living in relative poverty are not available at the constituency level. But the latest data for the West Midlands Government Office Region show that the number of pensioners in poverty has fallen from 28 per cent. in 1997 to 18 per cent[2].

Pensioners in the UK also benefit from a range of additional support such as the winter fuel payment which this winter is worth £250 for households with someone aged between 60-79 and £400 for households with someone aged 80 or over. These payments provide vital reassurance to older people so that they can afford to turn up their heating during cold weather. Prior to winter 1997-98, less than £60 million was spent helping pensioners meet their fuel bills—this year we will be spending around £2.7 billion on winter fuel payments alone. In 2008-09, 55,210 people aged 60 and over benefited from winter fuel payments in the borough of Sandwell.

We have also taken steps to strengthen and protect the private pensions system to ensure people can continue to have confidence to save for their future through the establishment of the Pensions Protection Fund, the Financial Assistance Scheme and a more powerful and proactive pensions regulator.

The protection system ensures that, unlike in 1997, people are not left without a pension even in the event that their employer becomes insolvent.

In total 4,709 people in the West Midlands region are receiving compensation from the Pension Protection Fund (data not available at constituency level)[3].

We have also taken forward a radical package of pension reforms in the Pensions Acts of 2007 and 2008 which will deliver a fairer and more generous state pension and extend the opportunity of workplace pension saving to millions, many for the first time.

The state pension reforms begin to come into effect from 2010 and will mean around three quarters of women reaching state pension age in 2010 are expected to qualify for a full basic state pension compared to half without reform.

Support for disabled people and carers

Since 2001, we have significantly extended and improved civil rights for disabled people in areas such as employment, education, access to goods and services and transport. Disabled people in Sandwell will have benefited from these improvements. The Welfare Reform Act 2009 contains powers to increase choice and control for disabled adults, including disabled parents who are entitled to state support, enabling them to choose how certain state support is used to meet their individual needs. This will be trail-blazed in up to eight local authority areas from late 2010.

Older and less well-off carers have gained extra help through the provisions within the National Carers Strategy.

---

[1] The Department for Work and Pensions was created in 2001 and so information relates to the Department and its predecessors.

[2] Based on three-year averages and changes are rounded to the nearest percentage point or 100,000 pensioners between 1997-98 to 1999-2000 and 2005-06 to 2007-08.

[3] Regional information about assistance payments received by members from the Financial Assistance Scheme could be obtained only at disproportionate cost.

Second State Pension

Steve Webb: To ask the Secretary of State for Work and Pensions how much was spent on the second state pension in 2009-10; how much such expenditure was on entitlements accrued during *(a)* 2008-09, *(b)* 2007-08 and *(c)* 2006-07; and if she will make a statement. [301008]

Angela Eagle *[holding answer 23 November 2009]*: Public expenditure on state second pension/state earnings-related pension scheme in 2009-10 is expected to be £13,200 million.

The following table shows the planned expenditure on state second pension entitlements accrued during *(a)* 2008-09, *(b)* 2007-08 and *(c)* 2006-07.

Financial year, cash terms

Year second state pension entitlements accrued	*Planned expenditure (£ million) in 2009-10*
2008-09	20
2007-08	60
2006-07	100

Notes:

1. Figures have been rounded to the nearest £10 million.

2. Forecasts of second state pension/state earnings related pension scheme

are based on the pre-Budget report 2009 forecasts.

Published expenditure tables can found at the following link:

http://research.dwp.gov.uk/asd/asd4/medium_term.asp

3. Updated forecasts are scheduled to be published at Budget 2010.

4. Accrued entitlement after 2002 only relates to second state pension and does not include the state earnings related pension scheme.

5. The table shows that there are more cohorts in the later years that have accrued entitlement. Planned expenditure in 2009-10 of entitlements accrued in 2008-09 relates to men currently aged 65 and women aged 60. Planned expenditure in 2009-10 of entitlement accrued in 2007-08 relates to men currently aged 65, 66 and women aged 60, 61. Planned expenditure in 2009-10 of entitlement accrued in 2006-07 relates to men currently aged 65, 66, 67 and women aged 60, 61, 62.

Strategy Directorate modelling.

Slough

Fiona Mactaggart: To ask the Secretary of State for Work and Pensions if she will set out, with statistical information related as directly as possible to the Slough constituency, the effects on Slough of her Department's policies and actions since 2000. [311978]

Jonathan Shaw: As the biggest delivery department in the UK, DWP makes a difference to millions of people every day, helping them to lead safer, fairer and more rewarding lives that are free from poverty. The policies that we have introduced since 1997 have aimed to give people more choice and control over their lives. Through our welfare reform programme, we are committed to providing personalised support to everyone who needs it so they have the opportunity to get into and remain in work.

Support to find work

Through Jobcentre Plus, we are promoting work as the best form of welfare for people of working age. Since 1997, although the number of people unemployed in Slough has increased by 39 per cent. to 3,028, the number unemployed for more than one year has decreased by 54 per cent. to 270. From May 1997 to May 2009 the number of lone parents claiming income support in Slough has decreased by 21 per cent. to 1,740.

Our New Deal programmes have helped lone parents, the young unemployed, the long-term unemployed, disabled people, the over 50s and partners of unemployed people to move from benefit into work. Since their inception over 2.2 million people in Great Britain have found work with the support of the New Deal and 3,200 have been helped in Slough.

Support for children

We introduced a target to halve child poverty by 2010-11 on the way to eradicating it by 2020. Poverty is measured using a headline indicator of the proportion of children in households with an income below 60 per cent. of contemporary household median income before housing costs. This is in line with international best practice.

Statistics on the number of children living in poverty are not available at the constituency level, but the latest information for the South East Government Office Region shows that the proportion of children in poverty rose from 14 per cent. to 15 per cent. since 2000.

Support for older people

Since 1997 our strategy has been to target extra help at the poorest pensioners while providing a solid foundation of support for all.

This year we will spend over £13 billion more on pensioners than if we had continued with the policies that were in place in 1997. Around half of that money will go to the poorest third of pensioners.

In 1997 the poorest pensioners, who received income support, lived on £69 a week (£98 in today's prices). Today pension credit, which was introduced in 2003, means no pensioner needs to live on less than £130 a week, £198.45 for couples. As of May 2009, 4,060 pensioners in Slough are receiving pension credit.

In 2007-08 there were 900,000 fewer pensioners living in relative poverty in the UK compared to 1998-99 (measured as below 60 per cent. of contemporary median household income after housing costs). Statistics on the number of pensioners living in relative poverty are not available at the constituency level, but the latest information for the South East Government Office Region shows that poverty has fallen from 23 per cent. to 16 per cent. since 2000.

Pensioners in the UK also benefit from a range of additional support such as the Winter Fuel Payment which this winter is worth £250 for households aged between 60-79 and £400 for households aged 80 or over. These payments provide vital reassurance to older people that they can afford to turn up their heating during cold weather. Prior to winter 1997-98 less than £60 million was spent helping pensioners meet their fuel bills—this year we will be spending around £2.7 billion on Winter Fuel Payments alone. In 2008-09 14,090 people aged 60 and over benefited from Winter Fuel Payments in Slough.

We have also taken steps to strengthen and protect the private pensions system to ensure people can continue to have confidence to save for their future through the establishment of the Pensions Protection Fund, the Financial Assistance Scheme and a more powerful and proactive pensions regulator.

The protection system ensures that, unlike in 1997, people are not left without a pension even in the event that their employer becomes insolvent.

In total 716 people in the South East Region are receiving compensation from the Pension Protection Fund (data not available at the constituency level).

We have also taken forward a radical package of pension reforms in the Pensions Acts of 2007 and 2008 which will deliver a fairer and more generous state pension and extend the opportunity of workplace pension saving to millions, many for the first time.

The state pension reforms begin to come into effect from 2010 and will mean around three quarters of women reaching state pension age in 2010 are expected to qualify for a full basic state pension compared to half without reform.

Support for disabled people and carers

Since 2001, we have significantly extended and improved civil rights for disabled people in areas such as employment, education, access to goods and services and transport. Disabled people in Slough will have benefited from these improvements. The Welfare Reform Act 2009 contains powers to increase choice and control for disabled adults, including disabled parents, enabling them to choose how certain state support is used to meet their individual needs. Older and less well-off carers are receiving extra help through the provisions within the National Carers Strategy.

Social Security Benefits: Debts

Andrew Selous: To ask the Secretary of State for Work and Pensions pursuant to the answer of 25 January 2010, *Official Report*, column 578W, on social security benefits: debts, in respect of which Jobcentre Plus district is each of the 10 largest debts owed to the Department. [317169]

Helen Goodman: The Department treats all personal data as confidential. We take extremely seriously our duty to protect customer confidentiality. We believe the release of this information could lead to confidentiality being compromised; so breaching our duty of care to our customers.

Social Security Benefits: Fraud

David Simpson: To ask the Secretary of State for Work and Pensions how many people in England and Wales have been prosecuted for benefit fraud on *(a)* more than one occasion and *(b)* more than two occasions in each of the last three years. [314575]

Helen Goodman: Information on the number of people in England and Wales prosecuted for benefit fraud on more than one occasion and more than two occasions in each of the last three years is not available.

Information is available for convictions during 2006-07 in cases where benefit fraud has been committed on more than one or more than two occasions. The available information is in the table:

	Number
Number of people convicted where benefit fraud committed on:	
more than one occasion	104
more than two occasions	0

Options for collating this data more systematically are kept under review subject to cost effectiveness.

Mr. Harper: To ask the Secretary of State for Work and Pensions in which countries persons living abroad who are identified as having perpetrated benefit fraud reside. [316365]

Jonathan Shaw: UK nationals can, in certain circumstances, continue to receive some benefits while abroad, others will cease immediately. The Department for Work and Pensions is reminding people in the latest targeting fraud campaign and in leaflets of their responsibility to tell us if they are going abroad.

In addition we are increasing the number of countries with which we have arrangements for closer working and data sharing and employing Department for Work and Pensions officers based abroad.

Recent investigations have identified evidence of fraud in 51 cases in the following countries:

Australia
Austria
Bahrain
Bulgaria
Canada
Cyprus
Eire
France
Greece
Holland
India
Italy
New Zealand
Pakistan
Portugal
South Africa
Spain
Thailand
Trinidad and Tobago
USA

Thanet

Dr. Ladyman: To ask the Secretary of State for Work and Pensions if she will set out, with statistical information related as directly as possible to South Thanet constituency, the effects on South Thanet of her Department's policies and actions since 2000. [315632]

Jonathan Shaw: DWP leads the Government's response to some of the biggest issues facing the country—welfare and pension reform—and are a key player in tackling child poverty[1]. As the biggest delivery department in the UK, DWP makes a difference to millions of people every day, helping them to lead safer, fairer and more rewarding lives that are free from poverty. We want to give people more choice and control over their lives and are committed to providing greater choice and personalised support to everyone who needs it so they have the opportunity to get into and remain in work. We believe that work works. Even in economically challenging times we know that work works for the most vulnerable and the disadvantaged.

Support to find work

Through Jobcentre Plus, we are promoting work as the best form of welfare for people of working age. Since 2000, although the number of people unemployed in South Thanet has increased by 31 per cent. to 2,153, the number unemployed for more than one year has decreased by 21 per cent. to 280. From May 2000 to May 2009 the number of lone parents claiming income support in South Thanet has decreased by 24 per cent. to 1,070.

Our new deals have helped lone parents, the young unemployed, the long-term unemployed, disabled people, the over 50s and partners of unemployed people to move from benefit into work. Since their inception over 2.2 million people in Great Britain have found work with the support of the new deal, and 3,640 have been helped in South Thanet.

Support for children

We introduced a target to halve child poverty by 2010-11 on the way to eradicating it by 2020. Poverty is measured using a headline indicator of the proportion of children in households with an income below 60 per cent. of contemporary household median income before housing costs. This is in line with international best practice.

Statistics on the numbers of children living in poverty are not available at the constituency level. But the latest information for the south east Government office region shows that the proportion of children in poverty has risen from 14 per cent. to 15 per cent. since 2000.[2]

Support for older people

Figures from 2000 relating to support for older people could be obtained only at disproportionate cost. However, figures are available from 1997 and these are shown as follows.

Since 1997 our strategy has been to target help on the poorest pensioners while providing a solid foundation of support for all.

This year we will be spending over £13 billion more on pensioners than if we had continued with the policies that were in place in 1997. Around half of that money will go to the poorest third of pensioners.

In 1997 the poorest pensioners, who received income support, lived on £69 a week (£98 in today's prices). Today pension credit, which was introduced in 2003, means no pensioner needs to live on less than £130 a week, £198.45 for couples. As of May 2009 6,340 pensioners in South Thanet are benefiting from pension credit.

In 2007-08 there were 900,000 fewer pensioners living in relative poverty in UK compared to 1998-99 (measured as below 60 per cent. of contemporary median household income after housing costs).

Statistics on the proportion of pensioners living in relative poverty are not available at the constituency level. But the latest data for the south east Government office region show that the number of pensioners in poverty fell from 23 per cent. to16 per cent. since 2000[3].

Pensioners in the UK also benefit from a range of additional support such as the winter fuel payment which this winter is worth £250 for households aged between 60 to 79 and £400 for households aged 80 or over. These payments provide vital reassurance to older people that they can afford to turn up their heating during cold weather. Prior to winter 1997-98 less than £60 million was spent helping pensioners meet their fuel bills—this year we will be spending around £2.7 billion on winter fuel payments alone. In 2008-09 22,070 people aged 60 and over benefited from winter fuel payments in South Thanet.

We have also taken steps to strengthen and protect the private pensions system to ensure people can continue to have confidence to save for their future through the establishment of the Pensions Protection Fund, the financial assistance scheme and a more powerful and proactive pensions regulator.

The protection system ensures that, unlike in 1997, people are not left without a pension even in the event that their employer becomes insolvent.

In total 733 people in the south east region are receiving compensation from the Pension Protection Fund (data not available at constituency level).[4]

We have also taken forward a radical package of pension reforms in the Pensions Acts of 2007 and 2008 which will deliver a fairer and more generous state pension and extend the opportunity of workplace pension saving to millions, many for the first time.

The state pension reforms begin to come into effect from 2010 and will mean around three quarters of women reaching state pension age in 2010 are expected to qualify for a full basic state pension compared to half without reform.

Support for disabled people and carers

Since 2001, we have significantly extended and improved civil rights for disabled people in areas such as employment, education, access to goods and services and transport. Disabled people in South Thanet will have benefited from these improvements. The Welfare Reform Act 2009 contains powers to increase choice and control for disabled adults, including disabled parents who are entitled to state support, enabling them to choose how certain state support is used to meet their individual needs. This will be trailblazed in up to eight local authority areas from late 2010. Older and less well off carers have gained extra help through the provisions within the National Carers Strategy.

Winter Fuel Payments

Mr. Peter Ainsworth: To ask the Secretary of State for Work and Pensions (1) what estimate she has made of the proportion of recipients of the winter fuel payment who were *(a)* in fuel poverty when they received those payments and *(b)* no longer in fuel poverty as a result of having received those payments in each year since the implementation of the winter fuel payment scheme; and if she will make a statement; [317062]

(2) what estimate she has made of the proportion of recipients of cold weather payments who were *(a)* in fuel poverty when they received those payments and *(b)* no longer in fuel poverty as a result of having received those payments in each year since the implementation of the cold weather payment scheme; and if she will make a statement. [317063]

Angela Eagle: The information requested is not available.

Identifying those in fuel poverty is very difficult; however we know that the main contributing factors are energy efficiency of homes, energy prices and household income.

Both winter fuel and cold weather payments contribute to vulnerable households' incomes and provide reassurance that money will be available to contribute towards fuel bills. These payments form only part of a package of measures that the Government have put in place to tackle fuel poverty.

It is estimated that winter fuel payments help to keep around 200,000 households out of fuel poverty each year in the UK.

Winter Fuel Payments: Bexley

Mr. Evennett: To ask the Secretary of State for Work and Pensions how many residents of *(a)* Bexleyheath and Crayford constituency and *(b)* the London borough of Bexley have received cold weather payments since 1 November 2009. [317265]

Helen Goodman: Cold weather payment information is not available by constituency or local authority. It is only available by weather station and postcode.

HEALTH

Accident and Emergency Departments

Chris Grayling: To ask the Secretary of State for Health what data accident and emergency departments are obliged to *(a)* collect and *(b)* return to his Department regarding causes of admission. [317827]

Mr. Mike O'Brien: Accident and emergency departments collect details about cause of admission. An extract of this data set is then collected centrally by the NHS Information Centre for health and social care as part of Hospital Episode Statistics and is published.

Two data items collected in Hospital Episode Statistics describe the cause of admission: "Patient group" picks out seven specific causes, namely road traffic accident, assault, deliberate self-harm, sports injury, firework injury, other accident, and brought in dead. "Clinical diagnosis" provides a wider range of categories for

[1] The Department for Work and Pensions was created in 2001 and so information relates to the Department and its predecessors.

[2] Based on three-year averages and figures are rounded to the nearest percentage point or 100,000 children between 2000-01 to 2002-03 and 2005-06 to 2007-08.

[3] Based on three-year averages and changes are rounded to the nearest percentage point or 100,000 pensioners between 2000-01 to 2002-03 and 2005-06 to 2007-08.

[4] Regional information about assistance payments received by members from the financial assistance scheme could be obtained only at disproportionate cost.

cause of admission. Details for these categories are published in the Clinical Diagnosis section of the Hospital Episodes Data Dictionary. A copy of this has been placed in the Library and is also available at:

www.hesonline.org.uk/Ease/servlet/Attachment Retriever?site_id=1937&file_name=d:\efmfiles\1937\Understanding\AEDD_Jul09.pdf&short_name=AEDD_Jul09.pdf&u_id=8500

No data on causes of admission are returned to the Department.

Alcoholic Drinks: Cancer and Strokes

Mr. Dismore: To ask the Secretary of State for Health (1) what the cost to the NHS was of treating strokes caused by the consumption of alcohol in the last year for which figures are available; [316281]

(2) what the cost to the NHS was of treating *(a)* depression and *(b)* dementia attributable to alcohol in the last year for which figures are available; [316284]

(3) what the cost to the NHS was of treating breast cancer attributable to alcohol consumption in the last year for which figures are available; [316287]

(4) what the causes are of *(a)* breast cancer and *(b)* heart disease; and what proportion of cases of each were attributable to each such factor in the last 12 months; [316288]

(5) what the cost to the NHS was of treating *(a)* breast cancer and *(b)* heart disease attributable to the consumption of alcohol in the last year for which figures are available; [316290]

(6) how many reported cases of stroke there were in the last year for which figures are available; and in how many such cases the consumption of alcohol was a direct causal factor; [316291]

(7) what the cost to the NHS was of treating cancer of the *(a)* mouth, *(b)* oesophagus and *(c)* larynx attributable to the consumption of alcohol in the last year for which figures are available. [316295]

Gillian Merron: The cost of treating specific alcohol-related conditions, such as breast cancer, heart disease, stroke or mental health conditions can be given only at a disproportionate cost. However, alcohol misuse is estimated to cost the national health service around £2.7 billion per annum, which is broken down in the following table.

Estimates of the annual cost of alcohol misuse to the NHS in England

	Cost estimate (£ million)
Hospital in-patient and day visits	
Directly attributable to alcohol misuse	167.6
Partly attributable to alcohol misuse	1,022.7
Hospital out-patient visits	272.4
Accident and emergency visits	645.7
Ambulance services	372.4
NHS GP consultations	102.1
Practice nurse consultations	9.5
Laboratory tests	n/a
Dependency prescribed drugs	2.1
Specialist treatment services	55.3
Other health care costs	54.4
Total	2,704.1

There are a variety of direct risk factors that can lead to cancer and heart disease, but we know that tobacco, poor diet, genetics, such as a mutated BRC2 gene, and alcohol can cause cancer or heart disease in some individuals.

From work carried out by the North West Public Health Observatory we are able to estimate what the proportion of hospital admissions are due to alcohol consumption, this is know as the alcohol attributable fraction (AAF). The following table provides the AAFs for cancer of the oesophagus, cancer of the larynx, breast cancer. As there is no AAF for stroke, we have provided AAFs for haemorrhagic stroke, ischaemic stroke as a proxy and as there is no AAF for heart disease, we have provided AAFs for alcoholic cardiomyopathy, ischaemic heart disease, cardiac arrhythmias and heart failure as a proxy. There are no such appropriate proxy AAFs for dementia or depression.

AAFs for haemorrhagic stroke, ischaemic stroke, cancer of the lip, oral cavity and pharynx, cancer of the oesophagus, cancer of the larynx, breast cancer and hypertension, alcoholic cardiomyopathy, ischaemic heart disease, cardiac arrhythmias and heart failure

		Percentage
Condition	*Alcohol attributable factor*	
	Male	*Female*
Haemorrhagic stroke	24	10
Ischaemic stroke	4	*-6
Cancer of the lip, oral cavity and pharynx	47	28
Cancer of the oesophagus	26	13
Cancer of the larynx	29	16
Breast cancer	n/a	7
Hypertensive disease	28	13
Alcoholic cardiomyopathy	100	100
Ischaemic heart disease	*-6	*-4
Cardiac arrhythmias	33	25
Heart failure	0.4	0.2

Source:
Alcohol-attributable fractions for England, North West Public Health Observatory, 2008

It is important to note that although recent meta-analyses showed that alcohol consumption was found to have protective effects on the risk of four conditions: ischaemic heart disease (IHD); ischaemic stroke, type II diabetes; and cholelithiasis, the health benefits for heart disease mostly accrue at low levels of consumption (no more than one-two units daily is needed for the main protective effect) and the benefits are mainly only seen in men over 40 years old and in postmenopausal women. Drinking above the recommended lower-risk levels, of not regularly drinking more than three-four units per day for men and not regularly drinking more than two-three units per day for women, however, does increase the risk of both ischaemic heart disease and ischaemic stroke compared to non-drinkers.

In 2008-09, there were 84,926 hospital admissions due to stroke. As there is no AAF for stroke we cannot say how many of these admissions were due to alcohol, but we can provide the number of hospital admissions for alcohol-related haemorrhagic stroke and alcohol-related ischaemic stroke as a proxy. In 2008-09, there were 2,445 admissions for alcohol-related haemorrhagic stroke and 1,197 admissions for alcohol-related ischaemic stroke.

Alzheimer's Disease: Research

Mr. Frank Field: To ask the Secretary of State for Health what funding his Department has allocated for research into the causes of Alzheimer's disease in each of the last three years. [317778]

Mr. Lammy: I have been asked to reply.

The Department for Business, Innovation and Skills does not allocate funding for specific research directly but provides funding through the research councils.

The Medical Research Council (MRC) currently funds studies into the causes, prevention and treatment of dementia, including Alzheimer's disease. These include studying drug treatment for managing symptoms, supporting tissue banks, and research into 'biomarkers' that might improve diagnosis. Other teams are investigating ways to diagnose and measure the progression of dementia and studying genes that may increase risk.

MRC expenditure on dementia research, including Alzheimer's, in the last three years was as follows:

	MRC expenditure (£ million)
2006-07	6.4
2007-08	10.2
2008-09	11.5

The Biotechnology and Biological Sciences Research Council (BBSRC) supports basic biological research in neuroscience and psychology. This includes basic underpinning research that may increase understanding of the causes of Alzheimer's. Funding on this research in the last three years was as follows:

	Funding (£ million)
2006-07	0.5
2007-08	0.6
2008-09	0.5

Additionally, the BBSRC funds research of relevance to amyloids, which are implicated in Alzheimer's and other neurodegenerative diseases. Funding on this research in the last three years was as follows:

	Funding (£ million)
2006-07	0.4
2007-08	0.8
2008-09	0.8

Autism

Mr. Streeter: To ask the Secretary of State for Health what progress has been made by his Department in producing a national autism strategy. [317349]

Phil Hope: The legislation mandates a time frame for the publication of the strategy by 1 April 2010.

The autism strategy will be published shortly, in advance of that date.

Mr. Frank Field: To ask the Secretary of State for Health what progress has been made by his Department in producing a national autism strategy; and when he expects to issue guidance to local authorities and strategic health authorities. [317883]

Phil Hope: The Autism Act 2009 commits the Government to publishing a strategy for adults with autism no later than 1 April 2010. The autism strategy will be published shortly, in advance of that date.

The Department will consult on the content of guidance for health and social care bodies over the summer and will publish that guidance before the end of December.

Breast Cancer

Mr. Dismore: To ask the Secretary of State for Health how many deaths from breast cancer there were in the last year for which figures are available. [316289]

Angela E. Smith: I have been asked to reply.

The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Stephen Penneck, dated 9 February 2010:

As Director General for the Office for National Statistics, I have been asked to reply to your recent question asking how many deaths from breast cancer there were in the last year for which figures are available. (316289)

The table attached provides the number of deaths where breast cancer was the underlying cause of death, in England and Wales, in 2008 (the latest year available).

Table 1: Number of deaths where breast cancer was the underlying cause of death, England and Wales, 2008[1, 2, 3]

Cause of death	*Deaths (persons)*
Breast cancer	10,779

[1] Cause of death was defined using the International Classification of Diseases, Tenth Revision (ICD-10) code C50.

[2] Figures for England and Wales include deaths of non-residents.

[3] Figures are for deaths registered in each calendar year.

Breast Cancer: Hemsworth

Jon Trickett: To ask the Secretary of State for Health how many and what percentage of women resident in Hemsworth constituency with suspected breast cancer saw a specialist within two weeks of referral in each year since 1997. [316628]

Ann Keen: The information is not available in the format requested. The following table shows the number of people seen and the percentage seen within two weeks, following an urgent referral for suspected breast cancer for Barnsley Hospital NHS Foundation Trust and Mid-Yorkshire Hospitals NHS Trust.

		Barnsley Hospital NHS Foundation Trust		*Mid Yorkshire Hospitals NHS Trust*	
	Quarter (Q)	*Number*	*Percentage*	*Number*	*Percentage*
2001-02	Q1	98	96.1	86	69.9

Cancer Waiting Times database

Cancer: Drugs

Michael Connarty: To ask the Secretary of State for Health what assessment his Department has made of the merits of providing to patients with rare cancers second line treatments licensed for their conditions. [316548]

Ann Keen: The Department has made no assessment of the merits of providing to patients with rare cancer second line treatments licensed for their conditions.

However, second line treatments for patients with rarer cancers are included in the National Institute for Health and Clinical Excellence's programme of work on cancer. Full details of completed and ongoing appraisals of these treatments can be found at

www.nice.org.uk

Michael Connarty: To ask the Secretary of State for Health (1) what steps he plans to take to reduce the time taken for individual funding requests for drug treatment from patients with metastatic cancer to be processed; [317381]

(2) what assessment he has made of the performance of each primary care trust in meeting the timescales set out in the National Prescribing Centre's guidance on Principles for Processes Supporting Local Decision-making about Medicines in *(a)* decision making, *(b)* communication of outcome, *(c)* case type and *(d)* appeals processes. [317382]

Mr. Mike O'Brien: The National Prescribing Centre's document, 'Defining Guiding Principles for Processes supporting Local Decision Making about Medicines', available at:

www.npc.co.uk/policy/local/guiding_principles.htm

makes it clear that primary care trusts (PCTs) should make decisions in a reasonable and practical timeframe, but without compromising the minimum process requirements, even when requests are urgent. We expect PCTs to exercise their judgment when setting timeframes for dealing with individual requests. We have not made an assessment of PCT performance in dealing with such requests.

Cancer: Hemsworth

Jon Trickett: To ask the Secretary of State for Health how many and what percentage of suspected cancer patients resident in Hemsworth saw an NHS consultant within two weeks of referral in each year since 1997. [316629]

Ann Keen: The information is not available in the format requested. The following table shows the number of people seen and the percentage seen within two weeks, following urgent referral with suspected cancer for Barnsley Hospital NHS Foundation Trust and Mid-Yorkshire Hospitals NHS Trust.

		Barnsley Hospital NHS Foundation Trust		*Mid Yorkshire Hospitals NHS Trust*

Cancer: Kidneys

Michael Connarty: To ask the Secretary of State for Health what the incidence of kidney cancer was in each region in each of the last five years. [317509]

Angela E. Smith: I have been asked to reply.

The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Stephen Penneck, dated February 2010:

As Director General for the Office for National Statistics, I have been asked to reply to your recent Parliamentary Question asking what the incidence of kidney cancer was in each region in each of the last five years. [317509]

The latest available figures for newly diagnosed cases of kidney cancer (incidence) are for the year 2007. Please note that these numbers may not be the same as the number of people diagnosed with cancer, because one person may be diagnosed with more than one cancer.

Table 1 provides the numbers of newly diagnosed cases of kidney cancer in each government office region in England, for each year from 2003 to 2007.

Table 1: Registrations of newly diagnosed cases of kidney cancer[1]: government office regions, England[2] 2003 to 2007[3].

					Persons
	2003	2004	2005	2006	2007
North East	349	329	346	354	346
North West	686	655	679	741	758
Yorkshire and The Humber	572	583	607	675	655
East Midlands	380	488	481	524	529
West Midlands	503	496	532	541	590
East	527	518	622	644	593
London	547	550	552	550	590
South East	787	888	872	883	925
South West	620	663	714	780	770

[1] Kidney cancer is coded as C64 in the International Classification of Diseases, Tenth Revision (ICD-10).
[2] Based on boundaries as of 2009.
[3] Newly diagnosed cases registered in each calendar year.

Centre for Emergency Preparedness and Response

Robert Key: To ask the Secretary of State for Health what assessment has been made of the likely effects on the operational response to a public health incident of the transfer of the Centre for Emergency Preparedness and Response from Porton Down to Terlings Park during the transfer period. [316907]

Gillian Merron: The business case for redevelopment or relocation of the Health Protection Agency's (HPA's) facilities at Porton Down will be considered by the Department when it is received. Any impact on the HPA's ability to respond to an emergency at any time during the proposed project will be part of the consideration.

Centre for Emergency Preparedness and Response: Olympic Games 2012

Robert Key: To ask the Secretary of State for Health what arrangements are in place for the Centre for Emergency Preparedness and Response to provide advice to the organisers of the London 2012 Olympics. [317195]

Gillian Merron: The Health Protection Agency as a whole, including the Centre for Emergency Preparedness and Response, has been working with the organisers of the Olympic and Paralympics games and central Government Departments, since 2005 to provide advice and expertise on health protection issues.

Dementia: Health Services

Sir Nicholas Winterton: To ask the Secretary of State for Health what guidance his Department issues to healthcare professionals on improvement of recognition rates for vascular dementia; and what progress has been made in implementing his Department's dementia strategies. [317929]

Phil Hope: Improving services for people with dementia including vascular dementia is a Government priority, and we have already identified it as a priority for the national health service in the operating framework. This will help to ensure that dementia is prioritised locally where further improvement may be needed.

Early diagnosis of dementia including vascular dementia is a key part of the National Dementia Strategy, which was published a year ago and will be implemented over a five-year period. The joint National Institute for Health and Clinical Excellence and Social Care Institute for Excellence clinical guideline for England provides guidance to health care professionals for all types of dementia.

Departmental Energy

Andrew Stunell: To ask the Secretary of State for Health what the estimated *(a)* amount and *(b)* cost was of energy used in his Department and its agencies in each year since 1997; what proportion of the energy used was generated from renewable sources in each of those years; and if he will make a statement. [317229]

Phil Hope: The amount and cost of energy used by the Department and its agencies and as reported as part of the Sustainable Development in Government annual exercise for the last five years is as follows:

Core Department of Health

Consumption Kilowatt hour (kWh)	*2004-05*	*2005-06*	*2006-07*	*2007-08*	*2008-09*
Fossil Fuel	6,228,420	4,836,970	4,846,690	5,437,549	5,348,821
Electricity	13,268,795	12,972,000	12,340,000	12,317,512	12,297620
Total	19,497,215	17,808,971	17,186,690	17,755,061	17,646,440
% renewable	68	72	71	67	65
Cost (£)	848,572	£1,038,918	£1,095,438	£1,006,072	£1,686,629

NHS Purchasing and Supply Agency

Consumption KWh	*2004-05*	*2005-06*	*2006-07*	*2007-08*	*2008-09*
Fossil Fuel	455,509	513,790	547,914	589,362	418,320
Electricity	572,893	640,780	669,822	718863	720,143
Total	1,028,402	1,154,570	1,217,736	1,308,225	1,138,463
% renewable	47	55	54	54	63
Cost (£)	46,342	60,432	66,556	60,887	94,213

Note:

All data is weather corrected, and has been processed by the Building Research Establishment and signed off as part of the Sustainable Development in Government exercise.

Central Government Departments and their Executive agencies are required to report performance data on the amount of energy sourced from renewable sources annually as part of the Sustainable Development in Government (SDiG) reporting process. The Government had a target to source at least 10 per cent of electricity from renewables by 31 March 2008, which it has already achieved. The latest assessment of Government's performance against this target was published by the Office of Government Commerce (OGC) on the 18 December 2009, and is available on the OGC website

www.ogc.gov.uk/sustainability_programme_progress.asp

Information on reporting years prior to 2008-09 was collated and published by the Sustainable Development Commission (SDC) can be found on the SDC website

www.sd-commission.org.uk

The information in this answer covers the Department's central administrative estate of Richmond House, Wellington House and Skipton House. The Department is a minor occupier in New Kings Beam House (HM Revenue and Customs) and Quarry House in Leeds (Department of Work and Pensions) and the data for these sites is not available to us. Reductions in 2005-06 and 2006-07 are due to the closure of one London building, Eileen House. From 2007-08, we included figures from our site in Nelson, Lancashire.

The data supplied for NHS PASA relates to energy used at their Reading, Chester and Sheffield sites. The Sheffield site was closed during 2007-08.

The Medicines and Healthcare products Regulatory Agency are unable to provide electricity data for 2004-07 or gas data for 2004-09 as the information is not available from their landlord. This information has not been used for the energy efficiency part of the Sustainable Development in Government exercise, as the gas figures are unknown.

Medicines and Healthcare Products Regulatory Authority

Consumption KWh	*2007-08*	*2008-09*
Fossil Fuel	[1]—	[1]—
Electricity	1,672,164	1,697,914[2]
Total	1,672,164	1,697,914
% renewable	0	0
Cost (£)	163,000	146,000

Diabetes: Prisons

Mr. Dunne: To ask the Secretary of State for Health (1) what training his Department provides to *(a)* prison officers and *(b)* healthcare professionals on the management of diabetes in prisons; [316874]

(2) what assessment he has made of the effectiveness of healthcare services for people with diabetes in prison; [316875]

(3) what steps his Department has taken to prevent the development of type 2 diabetes among prisoners; [316876]

(4) how many adults in prison are being treated for each type of diabetes. [316877]

Phil Hope: Since April 2006, commissioning responsibility for prison health services has been fully devolved to the national health service primary care trusts (PCTs). PCTs work with the prison healthcare team to assess the health care needs of their population and develop services to meet those needs. There is no specific training for prison officers in the management of diabetes.

Local PCTs are responsible for assuring the training of their workforce and the quality of care provided in primary care settings to their local population, which includes the offender population within publicly run prisons in their locality.

All clinical staff are regulated and subject to the same standards of practice including those providing care in prisons. The standards of care expressed in the New General Medical Services Quality Outcomes Framework will be monitored, as they are in general practice, across the prison estate following the roll out of a general practitioner (GP) clinical IT system.

There is no specific programme in prisons for the prevention of type II diabetes, however, in April 2009, PCTs began phased implementation of the NHS Health Check programme which aims to prevent diabetes, stroke, heart disease and kidney disease. The programme is a universal and systematic programme for everyone between the ages of 40-74 that do not already have an existing vascular disease. The purpose of a NHS Health Check is to identify an individual's risk of diabetes, coronary heart disease, stroke and kidney disease, for this risk to be communicated in a way that the individual understands, and for that risk to be managed by appropriate follow-up.

It is the responsibility of local PCTs to consider their different communities, including offender populations, when doing so. NHS Health Checks can be carried out in a variety settings, including pharmacies, GP practices and other community settings such as prisons. This will help ensure access to the checks by prisoners.

The Department does not collect the numbers of adults in prison being treated for each type of diabetes.

Drugs: Misuse

Mr. Dai Davies: To ask the Secretary of State for Health by what mechanism the National Treatment Agency for Substance Misuse liaises with the Advisory Council on the Misuse of Drugs. [317555]

Gillian Merron: The secretariat of the Advisory Council on the Misuse of Drugs (ACMD), working together with the Department, which sponsors the National Treatment Agency for Substance Misuse (NTA), ensures that appropriate collaboration takes place between the ACMD and NTA on matters of mutual interest.

In addition, employees of the NTA have been or are ACMD members in a personal capacity. NTA staff have appeared before the Council as expert witnesses on particular drug misuse issues and the NTA has also attended public meetings of the ACMD, as a public stakeholder.

East Midlands Strategic Health Authority: Finance

Keith Vaz: To ask the Secretary of State for Health (1) how much NHS East Midlands spent on independent investigations relating to the care of patients in each of the last five years; [317366]

(2) what the total cost to NHS East Midlands was of the independent investigation into the death of Karen Godden, reference 2007/9913. [317377]

Phil Hope: This information is not collected centrally. However, this information may be available directly from East Midlands Strategic Health Authority.

Family Nurse Partnership Programme: Finance

Mrs. Maria Miller: To ask the Secretary of State for Health what estimate has been made of the cost to the public purse of delivering the Family Nurse Partnership nationwide. [317139]

Ann Keen: We are still testing the Family Nurse Partnership programme in England, and so are not yet in a position to estimate the costs of delivering it nationwide.

Feltham

Alan Keen: To ask the Secretary of State for Health if he will set out, with statistical evidence relating as closely as possible to Feltham and Heston constituency, the effects on that constituency of changes to the Department's policies since 1997. [316671]

Mr. Mike O'Brien: The Government have put in place a programme of national health service investment and reform since 1997 to improve service delivery in all parts of the United Kingdom. 93 per cent. of people nationally now rate the NHS as good or excellent. The NHS constitution contains 25 rights and 14 pledges for patients and the public including new rights to be treated within 18 weeks, or be seen by a cancer specialist within two weeks and an NHS health check every five years for those aged 40-74 years.

There is significant evidence that these policies have yielded considerable benefits for the Feltham and Heston constituency. For example, figures for November 2009 show that in Hounslow Primary Care Trust (PCT):

92 per cent. of patients whose treatment involved admission to hospital started their treatment within 18 weeks.

96 per cent. of patients whose treatment did not involve admission to hospital started their treatment within 18 weeks.

Between September 2001 and September 2008 the number of general practitioners (GPs) per 100,000 people within Hounslow PCT has increased from 55.6 to 61.2.

Hounslow PCT opened the Heart of Hounslow Centre for Health in February 2007. The centre became a polyclinic on 29 April 2009. It offers GP services between 8 a.m. and 8 p.m. seven days a week, 365 days a year, as well as access to a wide range of outpatient healthcare services.

In September 2009, at West Middlesex University Hospital NHS Trust, 98.9 per cent. of patients spent less than four hours in accident and emergency from arrival to admission, transfer or discharge.

Between September 1997 and September 2008 the number of consultants at West Middlesex University Hospital NHS Trust increased from 50 to 79. Between September 1997 and September 2008 the estimated number of nurses increased from 604 to 904.

92.8 per cent. of urgent GP referrals to West Middlesex University Hospital NHS Trust with suspected cancer are seen by a specialist within two weeks of the referral.

Although statistical information is not available at a local level, Feltham and Heston will have also benefited from national policies in other areas. For example since 1997, gross current expenditure on personal social services has increased by around 70 per cent. in real terms with around 105,000 households now receiving intensive home care and 3,076 new extra care housing units - exceeding the original target of 1,500 new extra care units.

Other strategies currently being implemented are:

Subject to parliamentary approval, the Personal Care at Home Bill will guarantee free personal care for 280,000 people with the highest needs and help around 130,000 people who need home care for the first time to regain their independence;

Shaping the Future of Care Together Green Paper, published in July 2009, sets out a vision for a National Care Service for all adults in England which is fair, simple and affordable. The Department has consulted widely on this reform and is currently analysing the responses, which will feed into a White Paper later this year;

The National Carer's Strategy - (Carers at the heart of 21st century families and communities)- launched in 2008;

The first National Dementia Strategy was published in February 2009; Valuing People Now - a three year strategy for people with learning disabilities published in January 2009; and

New Horizons: A Shared Vision for Mental Health - launched in December 2009 - to maintain improvements in mental health services combined with a new cross-Government approach to promoting public mental health.

Since 1998, there are now 2.4 million fewer smokers in England as a result of the Government's comprehensive tobacco control strategy which has had a measurable impact on reducing smoking prevalence.

Child obesity levels are reducing due to the efforts of families across England, supported by the Government's obesity strategy. In 2008, 13.9 per cent. of children (aged two to 10) in England were classified as obese, compared with 17.3 per cent. in 2005.

Overall, life expectancy at birth for men has increased from 74.5 years (1995-1997 data) to 77.7 years (2006-08 data) while for women, life expectancy at birth has increased from 79.6 years (1995-97 data) to 81.9 years (2006-08 data).

Food Standards Agency

Mr. Harper: To ask the Secretary of State for Health what the *(a)* objectives and *(b)* costs for 2009-10 are of the Food Standards Agency's Livestock Traceability Scheme. [316824]

Gillian Merron: The Food Standards Agency has advised that it does not have a 'Livestock Traceability Scheme'. European Union legislation requires food business operators (FBOs) at slaughterhouses to be able to trace all food-producing animals supplied to them and, from 1 January 2010, to receive food chain information (FCI) for all cattle and sheep sent for slaughter for human consumption. The requirement for FCI forms part of the whole chain, farm-to-fork approach to food safety introduced by EU hygiene regulations from 1 January 2006.

The Meat Hygiene Service verifies the checks on livestock identification carried out by FBOs in slaughterhouses to ensure the traceability of meat for food safety and animal disease control purposes. Livestock traceability is the responsibility of Department of Environment, Food and Rural Affairs and the Departments of Rural Affairs in the devolved Administrations.

General Practitioners

Mr. Todd: To ask the Secretary of State for Health what steps he is taking to reduce the number of people presenting to their GPs with minor ailments. [316718]

Mr. Mike O'Brien: The Department's self care strategy focuses on supporting people especially those with long-term conditions to take a more active and informed role in decisions about their health and well-being. "Your health, your way" provides information about self care support on NHS Choices, including "Making the most of your pharmacist".

Community pharmacies have a key role to play in supporting self care, providing advice and support to people requesting help with the treatment of minor ailments, illnesses and injuries including advice on the use of over-the-counter treatments, where appropriate. The pharmacy communications strategy, currently under way, aims to encourage people to use pharmacies as the first port of call for such minor ailments, potentially reducing the number of people presenting to general practitioners' surgeries.

General Practitioners: Opening Hours

Hazel Blears: To ask the Secretary of State for Health how many general practitioner surgeries in Salford offered extended opening times in *(a)* 1997 and *(b)* the latest date for which information is available. [317393]

Ann Keen: The information is not available in the format requested. The Department's latest published data show that as at July 2009, in the Salford primary care trust area, 39 out of 53 general practitioner practices (73.6 per cent.) were offering extended opening hours to patients. The figure for the North West Strategic Health Authority is 71.3 per cent., and the figure for England is 77.1 per cent.

Source:

Department of Health.

Government Car and Despatch Agency

Grant Shapps: To ask the Secretary of State for Health how much his Department paid to the Government Car and Despatch Agency in each of the last five years; how much it has spent on such payments in 2009-10; and what proportion of such payments was made in respect of the Government Car Service. [316425]

Phil Hope: The Department has made the following payments to the Government Car and Despatch Agency (GCDA). These totals exclude officials' cars.

	(£)
2005-06	56,997.91
2006-07	59,505.72
2007-08	61,588.42
2008-09	118,665.57
2009-10	104,357.14

The cost increase in 2008-09 was due to courier and taxi services previously supplied by another party being transferred to the GCDA contract, who provide a 'greener' service.

Costs to Departments of officials' cars are reported annually to Parliament by my right. hon. Friend the Secretary of State for Transport through written ministerial statement and are available in the Library.

Health Service: Feltham

Alan Keen: To ask the Secretary of State for Health (1) how many and what percentage of suspected cancer patients resident in Feltham and Heston saw an NHS consultant within two weeks of referral in each year since 1997; [316662]

(2) how many and what percentage of women resident in Feltham and Heston with suspected breast cancer saw a specialist within two weeks of referral in each year since 1997. [316666]

Gillian Merron: This information is not held in the format requested. This data is collected by national health service trust, for each quarter since 2001-02. The following table shows the number and percentage of patients seen within two weeks by a specialist following urgent general practitioner referral with suspected breast cancer and all suspected cancers at West Middlesex University Hospital NHS Trust.

	Breast cancer		All cancers

Cancer Waiting Times Database

Alan Keen: To ask the Secretary of State for Health how many people resident in Feltham and Heston over *(a)* retirement age and *(b)* the age of 60 years are entitled to free eye tests. [316667]

Gillian Merron: From 1 April 1999, eligibility for national health service funded sight tests was extended to everyone aged 60 and over.

Health Services: Hemsworth

Jon Trickett: To ask the Secretary of State for Health how much has been spent on healthcare in Hemsworth constituency in each year since 1997. [316623]

Mr. Mike O'Brien: The information is not available in the format requested. However, the following table shows the amount spent on healthcare services by the Wakefield District Primary Care Trust (PCT) for the years shown.

£000

	Primary healthcare	Secondary healthcare	Other healthcare	Total healthcare
2008-09	138,595	398,059	400	537,054
2007-08	134,171	372,689	52,620	559,480
2006-07	128,286	322,699	498	451,483
2005-06	117,137	289,530	375	407,042
2004-05	103,090	270,004	604	373,698
2003-04	90,316	231,898	1,118	323,332
2002-03	74,138	205,782	50	279,970

Notes:

1. 2002-03 to 2008-09 are the only years for which information is available for the Wakefield District PCT.

2. The figures are taken from the audited summarisation schedules of Wakefield District PCT and its predecessor organisations. Wakefield District PCT was formed as part of the reconfiguration of PCTs in October 2006, following the merger of Eastern Wakefield PCT and the Wakefield West PCT. The figures provided for 2002-03 to 2005-06 are the sum of equivalent values in these two PCTs.

3. The figures represent the total primary, secondary and other healthcare purchased and provided for the PCT's resident population, with the exception of primary dental and general ophthalmic services since these costs are not directly attributed to PCTs on the basis of a patient's place of residence.

4. 'Other healthcare' as defined in the audited summarisation schedules includes expenditure for NHS trust impairments, plus grants to other bodies for health related capital projects under joint working arrangements.

Source:

Department of Health, audited summarisation schedules of Wakefield District PCT and its predecessor organisations.

Health Services: Older People

Mr. Jamie Reed: To ask the Secretary of State for Health (1) how many elderly people resident in Cumbria are in receipt of elderly care; and what the projected figure is of the number of people requiring elderly care in each year up to 2020; [317685]

(2) what steps his Department is taking to ensure that elderly people living in poverty have access to an equal standard of elderly care; and if he will make a statement; [317686]

(3) what assessment his Department has made of the effect of care charges on users of elderly care services *(a)* in England, *(b)* in Cumbria and *(c)* amongst elderly people living in poverty. [317687]

Phil Hope: The number of people receiving social services, funded either partially or in full by Councils with Adult Social Services Responsibilities (CASSRs) in England is collected and published by the NHS Information Centre for health and social care from the Referrals, Assessments and Packages of Care return.

Provisional data for the period 1 April 2008 to 31 March 2009 show that 13,500 adults aged 65 and over in Cumbria were in receipt of CASSR-funded services. Information on the numbers of people who fund their own care services is not collected centrally.

The Department has not made projections of the number of older people who will require social services care in Cumbria in each year up until 2020. It has commissioned the Personal Social Services Research Unit (PSSRU) at the London School of Economics to make national projections of future demand for social care and associated expenditure. The PSSRU has projected an increase in numbers of older service users in England from approximately 880,000 in 2010 to approximately 1,050,000 in 2020; Forder and Fernandez, 2009, PSSRU discussion paper 2644, table 26—available on the PSSRU website at:

www.pssru.ac.uk

The Fair Access to Care Services (FACS) framework was introduced in 2003 to address inconsistencies across the country about who gets support, in order to provide a fairer and more transparent system for the allocation of social care services.

At the heart of the FACS guidance is the principle that councils should operate just one eligibility decision for all adults seeking social care support. FACS introduced four bands of eligibility based on people's needs—Critical, Substantial, Moderate and Low. Once eligibility for social care has been established using these four bands, the council may then means test the individual and apply the local charging regime.

The Department has been working with stakeholders to revise the FACS guidance in the context of "Putting People First", in order to support councils to implement eligibility criteria for social care as fairly and consistently as possible. The Department carried out a consultation on the revised FACS guidance simultaneously with the publication of the Fairer Contributions guidance, in July 2009. The FACS guidance is integral to the assessment of a person's need for social care, while the Fairer Contributions guidance is employed, where appropriate, once that assessment has been made. The revised FACS guidance will be published shortly.

The regulations under the Personal Care at Home Bill, introduced to Parliament on 25 November 2009, would offer free personal care at home for 280,000 people with the highest care needs. An additional £130 million will provide 130,000 people with an active programme of reablement to ensure they regain their independence. This will build on the most innovative practices already adopted by many local authorities and primary care trusts. We have already begun engaging with local authority stakeholders to discuss the workings of the scheme, and councils are invited to respond to the consultation document, "Personal Care at Home: a consultation on proposals for regulations and guidance". The consultation document is available in the Library.

In April 2009, my right hon. Friend, the then Secretary of State for Health (Alan Johnson) asked Sir Ian Carruthers OBE, chief executive of NHS South West, and Jan Ormondroyd, chief executive of Bristol City Council, to undertake a review of age discrimination and age equality in the health and social care sector. They were asked to consider what health and social care organisations should do to ensure that people are not discriminated against by services because of their age. The review was set up to help health and social care organisations meet the ban on age discrimination and the new public sector equality duty in the Equality Bill.

The consultation, "Age Equality in Health and Social Care", is now live and includes the Government's response on the recommendations in the review that are not directly tied to the legislation.

The consultation is concerned with action to be taken in England. However, the Equality Bill applies throughout Great Britain. The Scottish Executive and the Welsh Assembly Government are considering separately what action to take to prepare the NHS and social care in Scotland and Wales for implementation of the Equality Bill. There will also be a further consultation on a draft Legislative Order led by the Government Equalities office later in 2010.

It is for councils to decide whether or not to set charges for non-residential social services. The legal basis is that charges generally should be 'reasonable', as set out in the Health and Social Services and Social Security Adjudications (HASSASSA) Act 1983. Should councils decide to charge for these services, this must be in accordance with statutory guidance issued by the Department, "Fairer Charging Policies for Home Care and other non-residential Social Services".

For service users in receipt of personal budgets, the Department's Fairer Contributions guidance provides councils with a model for calculating how much a person should contribute to their personal budget. It has been produced as a companion to the existing Fairer Charging guidance.

Charging for residential care services is governed by regulations, which prescribe a national means test and a statutory system of charging, which councils must follow. Councils assess a person's ability to pay residential care charges according to the National Assistance (Assessment of Resources) Regulations 1992 and statutory guidance, the "Charging for Residential Accommodation Guide". Copies of all regulations and guidance are available in the Library.

No assessments have been made by the Department of the effects of care charges on users of social care services for older people in England, in Cumbria, or among older people living in poverty. However, all charging systems include safeguards to protect the least well-off from charges. Anyone with less than £23,000 in savings is entitled to apply for local authority assistance with the cost of their care.

Health Visitors: North West

Andrew Stunell: To ask the Secretary of State for Health how many health visitors have been employed in each primary care trust in the North West in each year since 1997. [317207]

Ann Keen: The following table shows the number of health visitors employed in the North West Strategic Health Authority (SHA) area and each primary care trust in the North West SHA area at 30 September each year for available years since 1997.

	Headcount for year											
Organisation	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*	*2006*	*2007*	*2008*

n/a = Not applicable; PCTs not established until 2002.

Notes:

1. PCT figures have been mapped to their current organisational structure.

2. Data quality: workforce statistics are compiled from data sent by more than 300 national health service trusts and PCTs in England. The Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data. Processing methods and procedures are continually being updated to improve data quality. Where this happens, any impact on figures already published will be assessed but unless this is significant at national level, they will not be changed. Where there is impact only at detailed or local level this will be foot noted in relevant analyses.

The Information Centre for health and social care—Non-Medical Workforce Census

Health: Sunlight

Mr. Todd: To ask the Secretary of State for Health whether he has commissioned research into the potential effects on health of low levels of sunlight in the UK relative to such levels in other countries. [317001]

Gillian Merron: The Department has not commissioned research of this kind and at present has no plans to do so.

Heroin: Overdoses

Mr. Dai Davies: To ask the Secretary of State for Health what proportion of former prisoners died as a result of a heroin overdose within *(a)* one week, *(b)* one month and *(c)* one year of their release from prison in the last three years. [317553]

Phil Hope: This information is not collected by the Department.

Home Care Services: Finance

Norman Lamb: To ask the Secretary of State for Health under what budget headings he expects the estimated £2.7 billion of savings consequent on moving more care from hospital to home to be made. [317116]

Mr. Mike O'Brien: By 2013-14 we estimate that up to £2.7 billion a year can be saved in the national health service by transforming the care and lives of those with long-term conditions and by reforming community services across the NHS. These are part of the £15-20 billion savings which we have said the NHS will deliver by 2013-14.

£750 million of savings are possible through driving down variation across the country by ensuring current best practice in terms of case management, care planning -care support. A further £750 million of savings are possible through reducing emergency admissions for people with long-term conditions to the level of the best performing systems internationally. This raises the quality of care for patients and helps the NHS, provided the care is good enough and we intend to ensure it is.

The remaining £1.2 billion is achievable through reforms to community services, driving improvements in the efficiency of community services, so that in all areas of the country efficiency levels meet those currently achieved by the best performing areas.

Hospitals: Admissions

Mr. Lansley: To ask the Secretary of State for Health how many emergency readmissions there were in each NHS trust in each year since 1997. [313972]

Mr. Mike O'Brien: The information available, based on information provided by the National Centre for Health Outcomes Development, is set out in a table which I have placed in the Library. Figures are given separately for the age groups 0-15 years and 16 years and above. The table also includes information on the standardised rate of emergency readmissions, defined as the number of emergency readmissions divided by the total number of hospital discharges, adjusted for the different case mix and age and sex of patients to allow a more valid comparison between different years or different provider units.

Andrew Stunell: To ask the Secretary of State for Health how many emergency admissions relating to orthopaedic injuries there were in each primary care trust in England in *(a)* November, *(b)* December and *(c)* January in each of the last five years. [317197]

Mr. Mike O'Brien: The information is not available in the format requested. Tables showing counts of finished admission episodes where the method of admission was emergency for episodes with a main consultant speciality of 'Trauma and Orthopaedics' separated by primary care trust of residence where the episode ended in months November, December and January from 2004-05 to 2008-09 have been placed in the Library.

Hospitals: Reviews

Mr. Davey: To ask the Secretary of State for Health what guidance his Department has given to regional health authorities in England who are undertaking reviews of acute hospital sectors; and if he will make a statement. [317716]

Mr. Mike O'Brien: The Department, in conjunction with its key stakeholders, has issued a raft of helpful guidance to strategic health authorities in England who are considering or undertaking reviews of acute hospital sectors.

It is the responsibility of the local national health service to plan, develop and improve health services according to the health care needs of the local population. The Department's 2008 publication—"Leading Local Change"—makes it clear that any changes should be locally led, clinically driven and built upon a sound clinical case for change. A copy of the publication has already been placed in the Library.

Hospitals: Waiting Lists

Hugh Bayley: To ask the Secretary of State for Health what the median waiting time for *(a)* in-patient and *(b)* out-patient treatment was for patients in York in each year since 1997. [317222]

Mr. Mike O'Brien: The following tables show the median inpatient and outpatient waiting times for the York Hospitals NHS Foundation Trust and its predecessor trusts from 1997 to 2009.

Table 1: Inpatient waiting times

Month ending	*Median (weeks)*
March 1997	12.0
March 1998	15.9
March 1999	13.1
March 2000	15.2
March 2001	15.7
March 2002	16.8
March 2003	14.6
March 2004	11.7
March 2005	10.2
March 2006	8.5
March 2007	6.6
March 2008	5.6
March 2009	4.8
December 2009	4.3

Notes:

1. Inpatient waiting times are measured from decision to admit by the consultant to admission to hospital.
2. The figures show the median waiting times for patients still waiting for admission at the end of the period stated.
3. Median waiting times are calculated from aggregate data, rather than patient level data, and therefore are only estimates of the position on average waits.

Source:

Department of Health waiting list collections KH07 and MMRPROV.

Table 2: Median outpatient waiting time for first outpatient appointment, patients seen in the year all specialties, provider organisations in the York area

Inpatient waiting times for York Health Services Trust 1997 to 2009

Financial year	*Median (weeks)*
March 1997	5.9
March 1998	6.6
March 1999	8.4
March 2000	8.9
March 2001	6.9
March 2002	6.1
March 2003	6.4
March 2004	6.4
March 2005	6.4
March 2006	5.4
March 2007	3.2

Notes:

1. Outpatient waiting times are measured from referral by the general practitioner to first outpatient appointment with a consultant.
2. The outpatient seen figures relate to the average wait for patients seen during the whole of each year.
3. Outpatient waiting times on this basis no longer available.
4. Median waiting times are calculated from aggregate data, rather than patient level data, and therefore are only estimates of the position on average waits.

Source:

Department of Health waiting list collections QM08.

Table 3: Median outpatient waiting time for first outpatient appointment, patients still waiting at period end, all specialties, provider organisations in the York area

Outpatient waiting times for York Health Services Trust 2005 to 2009

Month ending	*Median (weeks)*
March 2005	5.4
March 2006	3.9
March 2007	3.5
March 2008	3.1
March 2009	2.5
December 2009	3.6

Notes:

1. Outpatient waiting times are measured from referral by the general practitioner to first outpatient appointment to the consultant.
2. Full waiting list was only collected from 2004 so average waiting first outpatient times on this basis have only been available from then.
3. Median waiting times are calculated from aggregate data, rather than patient level data, and therefore are only estimates of the position on average waits.
4. Historically, since 1997, outpatient waiting times were collected based on numbers seen during the quarter.
5. In addition, data were collected on a 'still waiting' basis in the monthly return alongside the inpatient waiting times figures. However, unlike the inpatient figures, the full waiting list on outpatients, was not collected, just the long waiters. Therefore, it was not possible to calculate the average wait on this basis.

Department of Health Waiting List Collections QM08 and MMRPROV.

Mental Health Services

Keith Vaz: To ask the Secretary of State for Health how many people have been treated as an *(a)* in-patient and *(b)* out-patient for a mental health condition (i) in Leicester, (ii) in the East Midlands and (iii) nationally in each of the last five years. [317351]

Phil Hope: Information is available on the number of patients in contact with specialist mental health services who received inpatient treatment for a mental health condition. Data are also available on the number of people in contact with specialist mental health services who received consultant outpatient appointments for a mental health condition in each of the last five years for which data are available.

Data have been collected in respect of inpatients and outpatients treated for a mental health condition by Leicestershire Partnerships National Health Service Trust, East Midlands Strategic Health Authority and in England between 1 April 2004 and 31 March 2009. This information is shown in the following table.

The data should be used with caution as they do not record non-consultant led outpatient appointments, and they record patients who received both inpatient and outpatient treatment as inpatients only. The data therefore underestimate the total number of outpatient appointments recorded in each year.

Number of people in contact with specialist mental health services and who received NHS inpatient and outpatient appointments for a mental health problem in Leicester, East Midlands and in England between 2004-05 and 2008-09: male and female, all ages

		2004-05	*2005-06*	*2006-07*	*2007-08*	*2008-09*
Leicestershire Partnership NHS Trust	Inpatient	3,101	2,810	2,546	2,344	2,183
	Outpatient	11,291	11,887	12,237	12,438	13,631
East Midlands Strategic Health Authority	Inpatient	8,408	8,063	7,836	8,178	8,091
	Outpatient	36,153	43,616	45,859	45,812	44,926
England	Inpatient	114,435	111,088	106,561	105,719	102,571
	Outpatient	446,393	488,259	474,332	470,742	477,627

Source:

NHS Information Centre for Health and Social Care Mental Health Minimum Data Set 2004-2009 Annual Returns.

Keith Vaz: To ask the Secretary of State for Health (1) how many people have been *(a)* killed and *(b)* seriously injured by a person who has received treatment for mental health reasons in the three years before the incident (i) in Leicester, (ii) in the East Midlands and (iii) nationally in each of the last 10 years; [317352]

(2) how many people have been *(a)* killed and *(b)* seriously injured by a person who has received treatment for mental health reasons (i) in Leicester, (ii) in the East Midlands and (iii) nationally in each of the last 10 years; [317353]

(3) what estimate he has made of the cost to the NHS of independent investigations commissioned relating to patients receiving treatment for mental health reasons *(a)* in the East Midlands and *(b)* nationally in each of the last five years; [317354]

(4) how many independent investigations commissioned relating to patients receiving treatment for mental health reasons have been commissioned *(a)* in the East Midlands and *(b)* nationally in each of the last five years. [317358]

Phil Hope: Precise data on the number of homicides or serious injuries in England committed by people with mental illness are not collected centrally. However, we estimate that every year over 1,300 mental health patients take their own lives and between 50 and 70 per year are involved in taking the lives of others.

Nor does the Department collect data about homicide or serious injury committed by people with mental illness at local or regional levels. Strategic health authorities are responsible for commissioning independent investigations into adverse events in mental health services, including homicides committed by mental health service users. The Department does not collect routine information or cost data on such local investigations, and nor has there been a national estimate of their cost.

Nadine Dorries: To ask the Secretary of State for Health how many independent investigations commissioned relating to patients receiving treatment for mental health reasons there have been *(a)* in Mid Bedfordshire constituency and *(b)* England in each of the last five years. [317529]

Phil Hope: This information is not collected routinely by the Department, but is collected by strategic health authorities, who are responsible for commissioning independent investigations into patients with a mental illness.

Mental Health Services: Advocacy

Lynne Jones: To ask the Secretary of State for Health (1) what assessment he has made of the level of access to independent mental health advocates by qualifying patients in *(a)* Birmingham and *(b)* England; [316749]

(2) which primary care trusts *(a)* have and *(b)* have not commissioned independent mental health advocate (IMHA) services; and if he will establish a national database of IMHA services. [316750]

Phil Hope: It is the duty of each primary care trust in England to make such arrangements as it considers reasonable to make available independent mental health advocates (IMHAs) for qualifying patients. The precise arrangements are a matter for local decision. The Department has no plans to establish a national database of IMHA services.

Mental Health Services: Prisons

Alan Duncan: To ask the Secretary of State for Health how many prisons have a *(a)* resident and *(b)* visiting psychiatrists and how often visiting psychiatrists visited the prison to which they are allocated in the last 12 months. [318047]

Phil Hope: The information requested is not collected centrally.

The transfer of responsibility to primary care trusts for the commissioning of health services in prisons was completed in 2006. Health needs are based on a joint strategic needs assessment that informs the type and frequency of services provided in all prisons.

Mephedrone: Risk Assessment

Mr. Dai Davies: To ask the Secretary of State for Health what reports he has received of the progress of the European Commission's risk assessment of mephedrone. [317557]

Gillian Merron: The European Monitoring Centre for Drugs and Drug Addiction (EMCDDA) has issued a formal request to member states' National Focal Points for the collection of further information on mephedrone for an EMCDDA-Europol Joint Report due later this year.

The UK's Advisory Council on the Misuse of Drugs (ACMD) is also conducting a review into the harms associated with mephedrone and other cathinones and has invited the UK National Focal Point to present evidence to this review on behalf of the EMCDDA. The ACMD will incorporate this evidence into its report and will advise Ministers accordingly.

Musgrove Park Hospital Taunton: Patients

Mr. Liddell-Grainger: To ask the Secretary of State for Health how many appointments at Musgrove Park Hospital, Taunton were cancelled by patients in the last 12 months. [317974]

Mr. Mike O'Brien: The information is not available in the format requested. Such information as is available is in the following table.

Outpatient appointments cancelled by the patient for Taunton and Somerset NHS Foundation Trust, 2008-09

	Patient cancelled first appointment	*Patient cancelled subsequent appointment*	*Total*
2008-09	5,299	11,945	17,244

Notes:

1. Hospital Provider: hospital providers can also include treatment centres (TC). As the data is tabulated by healthcare provider, the figure for a national health service trust gives the activity of all the sites as one aggregated figure. The quality of TC returns are such that data may not be complete. Some NHS trusts have not registered their TC as a separate site, and it is therefore not possible to identify their activity separately. Data from some independent sector providers, where the onus for arrangement of dataflows is on the commissioner, may be missing. Care must be taken when using this data as the counts may be lower than true figures.

2. Data quality: Hospital Episode Statistics (HES) are compiled from data sent by more than 300 NHS trusts and primary care trusts in England and from some independent sector organisations for activity commissioned by the English NHS. The NHS Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies. While this brings about improvement over time, some shortcomings remain.

Source:

HES, The NHS Information Centre for health and social care

Mr. Liddell-Grainger: To ask the Secretary of State for Health (1) how many private patients were treated at Musgrove Park Hospital, Taunton in the last 12 months; [317975]

(2) whether Musgrove Park Hospital, Taunton is expected to meet its target to abolish mixed sex accommodation by the end of 2010. [317977]

Mr. Mike O'Brien: The information requested is a matter for Taunton and Somerset NHS Foundation Trust. We have written to Rosalinde Wyke, Chair of Taunton and Somerset NHS Foundation Trust, informing her of the hon. Member's enquiry. She will reply shortly and a copy of the letter will be placed in the Library.

Mr. Liddell-Grainger: To ask the Secretary of State for Health how many patients' complaints were rectified by Patient Liaison and Advice Service Level at Musgrove Park Hospital, Taunton in 2009. [317976]

Mr. Mike O'Brien: The information requested is not available centrally. The Patient Advice and Liaison Service is managed through the national health service at a local primary care trust (PCT) level. PCTs are required, as part of their annual report, to provide the relevant strategic health authority with complaints data.

Such information as is available is in the following table.

Written complaints about hospital and community services by local resolution action within Taunton and Somerset NHS Foundation Trust, England, as at 1 April 2008 to 31 March 2009

				Local resolution			
	Total complaints	Concluded within 25 working days		Concluded outside 25 working days	Concluded outside 25 working days with consent	Concluded outside 25 working days without consent	Still being pursued
		Percentage	Number				
Taunton and Somerset NHS Foundation Trust	459	62	283	171	130	41	5

Note:
Local resolution is the first stage of the complaints procedure when front-line staff should aim to provide the fullest possible opportunity for investigation and resolution of the complaint, as quickly as is sensible in the circumstances. This definition is from the guidance for completing the returns that are sent to Trusts.
Source:
Information Centre for health and social care—workforce and community dataset K041a.

Mr. Liddell-Grainger: To ask the Secretary of State for Health how many single occupancy rooms are available for patients at Musgrove Park Hospital, Taunton. [317978]

Mr. Mike O'Brien: The information is not available in the format requested. However, the latest Estates Related Information Collection (ERIC) return data for 2008-09 indicate that the Taunton and Somerset NHS Foundation Trust declared 14 per cent. of the 620 available beds at Musgrove Park Hospital as being single bedrooms for patients use.

Note:
ERIC defines "percentage of single bedrooms for patients" as a percentage of the total number of available beds that are single bedrooms provided for patient use.

National Institute for Health and Clinical Excellence

Mr. Boswell: To ask the Secretary of State for Health what consideration his Department gives to *(a)* progression-free and *(b)* overall survival factors in its health technology appraisals. [317948]

Mr. Mike O'Brien: The Department does not carry out health technology appraisals. The National Institute for Health and Clinical Excellence is an independent body responsible for the development of technology appraisal guidance and its "Guide to the Methods of Technology Appraisal" is available on its website at:

www.nice.org.uk/aboutnice/howwework/devnicetech/technologyappraisalprocessguides/guidetothemethodsoftechnologyappraisal.jsp

Mr. Boswell: To ask the Secretary of State for Health (1) what medicines *(a)* have been and *(b)* are being appraised through the National Institute for Health and Clinical Excellence for supplementary advice for treatments extending life; which have met National Institute for Health and Clinical Excellence criteria; what the outcomes were; and if he will make a statement; [317950]

(2) what assessment he has made of the impact of the National Institute for Health and Clinical Excellence's supplementary advice on the appraisal of end of life treatments in securing improved patient access to such treatments. [317951]

Phil Hope: I refer the hon. Member to the written answer I gave the hon. Member for South Cambridgeshire (Mr. Lansley) on 8 February 2010, *Official Report*, columns 713-14W.

Neuromuscular Services: West Midlands

Lorely Burt: To ask the Secretary of State for Health what discussions he has had with *(a)* the West Midlands Specialised Commissioning Group and *(b)* primary care trusts in the West Midlands on the implementation of the West Midlands Neuromuscular Strategy. [316910]

Ann Keen: No discussions have been held with the West Midlands Specialised Commissioning Group or primary care trusts in the west midlands on the implementation of the West Midlands Neuromuscular Strategy.

It is the responsibility of primary care trusts to ensure the provision of services for neuromuscular dystrophy patients in that region, including access to national health service funded muscular dystrophy care advisers.

NHS

Mr. David Anderson: To ask the Secretary of State for Health what his policy is on the NHS as the preferred provider of health services. [316313]

Mr. Mike O'Brien: The policy on national health service as preferred provider is about getting the best care for patients and looking after the NHS staff who care for them. It represents a clarification of Government policy to ensure that where services provided within the public sector are performing well, are financially sustainable and also demonstrating the ability to keep improving there should be no presumption that these services are subject to competitive tender. When competitive tender does occur, it will be transparent and fair with all providers having an equal opportunity to bid, potentially in new partnerships and joint ventures.

The aim is to ensure that NHS staff are treated fairly and engaged in decisions, so that they know what is happening and when, and what changes are being sought and why. Service improvement and re-design should not be something which is imposed on NHS staff but something which they own and lead. Clinical engagement and leadership will be crucial to driving the transformation of services patients and taxpayers need.

The Secretary of State's Vision document "NHS 2010-2015: From Good to Great" and the "NHS Operating Framework 2010/11" outline how we expect the NHS as preferred provider to work in practice. Copies of both documents have already been placed in the Library.

NHS Direct

Mike Penning: To ask the Secretary of State for Health how many referrals were made by NHS Direct services in *(a)* 2008 and *(b)* 2009. [317690]

Mr. Mike O'Brien: The information requested is set out in the following table:

Referrals from NHS Direct (0845 46 47)

	Referrals
2008	1,982,544
2009	1,735,473

Note:
These data include all calls to the 0845 46 47 line. It does not include other calls to services provided to national and local commissioners, including calls to The Appointments Line and locally commissioned services such as dental and out-of-hours services.
Source:
NHS Direct.

NHS Peterborough: Finance

Mr. Stewart Jackson: To ask the Secretary of State for Health what assistance his Department has provided to NHS Peterborough to reduce their budget deficit for 2010-11; and if he will make a statement. [317360]

Phil Hope: The Department has not provided any financial support to Peterborough Primary Care Trust (PCT) to reduce its forecast deficit. The PCT held an extraordinary board meeting on 3 February where the Month 9 forecast deficit was reported as £9.8 million.

The East of England Strategic Health Authority (SHA) reports that it has agreed a robust recovery plan with the PCT and is closely monitoring progress against the agreed plan. The Department will work with the SHA to ensure that the PCT returns to financial balance.

NHS: Drugs

Jo Swinson: To ask the Secretary of State for Health pursuant to the answer of 5 February 2010, *Official Report*, column 558W, on drugs: testing, if he will commission research on the comparative *(a)* safety and *(b)* effectiveness of (i) human biology-based testing and (ii) animal testing of new drugs and treatments. [317610]

Mr. Lammy: I have been asked to reply.

The Department for Business, Innovation and Skills does not commission research directly but provides funding to the National Centre for the Replacement, Refinement and Reduction of Animals in Research (NC3Rs) through the research councils.

The NC3Rs has a number of projects which assess the value of animal research in drug development and safety testing. For example, an evidence-based review of conventional single dose acute toxicity studies for pharmaceuticals has shown that they provide limited information for human safety. Based on these data the regulatory requirement to carry out these studies prior to clinical trials has been removed.

The Medical Research Council's (MRC) own research programmes contribute to developing new knowledge or methods that help replace or refine animal use.

The MRC invests substantially in drug safety science including the new MRC Centre for Drug Safety Science in Liverpool and Manchester, the MRC's Toxicology Unit in Leicester, and the Integrative Toxicology Training programme. The aims include evaluation of the potential contribution of new technologies to the pre-clinical toxicological assessment of drugs and integration of the results with the findings from clinical studies.

NHS: Expenditure

Mr. Davey: To ask the Secretary of State for Health what the expenditure envelope for the NHS in England is for the next five years. [317987]

Mr. Mike O'Brien: As set out in paragraph 6.23, page 103 of the pre-Budget report 2009, the Government have not done a spending review at this stage, and therefore, the specific numbers requested in the question are not available.

NHS: Fees and Charges

Mr. Burstow: To ask the Secretary of State for Health how much the NHS has collected in charges for services to patients not entitled to free services in each year since such charges were introduced; and if he will make a statement. [317337]

Ann Keen: Charges have been in place since 1982 for hospital treatment given to certain overseas visitors to the United Kingdom, but these statistics have only been collected since 2003-04. The total national income from overseas patients under non-reciprocal arrangements collected by national health service trusts and primary care trusts since that time is shown in the following table. They do not include data from NHS foundation trusts.

	Non-reciprocal income received (£)
2003-04	9,178,000
2004-05	10,883,000
2005-06	13,070,000
2006-07	15,182,925
2007-08	18,167,000
2008-09	17,541,000

NHS: Foreign Workers

Mr. Davey: To ask the Secretary of State for Health what estimate he has made of the number of non-UK citizens working for the NHS in England; and if he will make a statement. [317720]

Ann Keen: These data are not collected centrally.

NHS: Marketing

Anne Main: To ask the Secretary of State for Health how much his Department has spent on advertisements on television and commercial radio on NHS services since 2005. [317101]

Phil Hope: The following table shows the Department's television and radio advertising expenditure for the national health service over the last five completed financial years.

Department of Health television and radio advertising spend on NHS services 2004-05 to 2008-09

£ million

Financial year	*Television*	*Radio*
2004-05	14,116,855	2,613,818
2005-06	12,729,415	3,151,003
2006-07	8,017,017	1,800,547
2007-08	8,065,615	1,998,611
2008-09	12,757,306	3,061,050
2009-10	15,825,050	5,061,356

Notes:

1. Advertising spend is defined as covering only media spend (inclusive of agency commissions but excluding production costs, Central Office of Information (COI) commission and VAT). All figures exclude advertising rebates and audit adjustments and therefore may differ from COI official turnover figures. All figures are rounded to the nearest £10,000. These figures do not include the Department's recruitment/classified advertising costs and ad hoc spend under £10,000. These figures may include occasional minor spend through COI by NHS organisations, to supplement national campaigns in their area. While this expenditure has been excluded as far as possible so that this chart reflects central departmental spend, it would incur disproportionate cost to validate that every item of NHS expenditure has been removed.

2. 2009-10 figures are provisional until records are audited at the end of the financial year.

NHS: Procurement

Dr. Iddon: To ask the Secretary of State for Health what assessment has been made of the effectiveness of a system of reverse e-auctions, weighted toward lowest price, for the procurement of NHS medical products in ensuring high standards of *(a)* safety and *(b)* quality of products procured. [316959]

Mr. Mike O'Brien: In 2008-09 NHS Supply Chain conducted 54 reverse auctions, which resulted in estimated savings of 15 per cent. on previous tender prices.

As with the standard tender process, all medical products are checked for safety and quality before they are entered into a reverse auction. Medical products in a reverse auction are the same as those available in the standard tender process.

We are not aware of any formal assessment of the effectiveness of the system of reverse auctions for the procurement of national health service medical products.

NHS: Training

Mr. David Anderson: To ask the Secretary of State for Health when he plans to publish guidance on commissioning skills for the NHS. [316314]

Mr. Mike O'Brien: The world class commissioning (WCC) programme was launched in December 2007 and is intended to strengthen the commissioning capability of primary care trusts (PCTs) to improve local health outcomes at best value for current and future service users. The competencies for world class commissioning were first published in December 2007 and refreshed in September 2009. They set out the knowledge, skills, behaviours and characteristics that underpin effective commissioning. PCTs are held to account on their commissioning performance through an annual assurance process. A copy of the WCC Assurance Handbook year 2, which details the competencies, has been placed in the Library and is available at:

http://wcc.networks.nhs.uk/background

Nurses

Anne Milton: To ask the Secretary of State for Health whether he has made an estimate of the number of registered nurses who were in receipt of benefits in each month for the last five years. [315074]

Jim Knight: I have been asked to reply.

The information is not available.

Nurses: Feltham

Alan Keen: To ask the Secretary of State for Health how many nurses were employed in the area covered by Hounslow Primary Care Trust in *(a)* 1997 and *(b)* the latest period for which figures are available. [316689]

Gillian Merron: The information requested is displayed in the following table.

National health service hospital and community health services: Qualified nursing staff in each specified organisation as at 30 September each year

Headcount

	2002	*2003*	*2004*	*2005*	*2006*	*2007*	*2008*
Hounslow Primary Care Trust (PCT)	292	303	300	286	265	269	249
Qualified nursing, midwifery and health visiting staff[1]	213	208	221	200	190	190	184
General Practitioner Practice Nurses	79	95	79	86	75	79	65
West Middlesex University Hospital NHS Trust	820	817	857	765	815	888	904
Qualified nursing, midwifery and health visiting staff[2]	820	817	857	765	815	888	904

Note:

Due to the formation of PCTs in 2002 it is impossible to accurately map work force figures for these organisations prior to 2002

Source:

The Information Centre for health and social care Non-Medical Workforce Census

Nurses: Nottinghamshire

John Mann: To ask the Secretary of State for Health how many qualified school nurses there are employed in schools in *(a)* Bassetlaw constituency and *(b)* Nottinghamshire local authority. [316726]

Ann Keen: The information is not held in the format requested. Information is available for the number of qualified nursing staff in the school nursing area of work directly employed by national health service organisations. The following table shows the number of qualified nursing staff in the school nursing area of work in Bassetlaw Primary Care Trust (PCT) and Nottinghamshire County PCT.

NHS hospital and community health services: qualified school nursing

Headcount

	Nurses in each specified organisation as at 30 September 2008	
	Qualified nurses in school nursing	*Of which qualified school nurses*[1]
Total for specified organisations	21	1
Bassetlaw PCT	3	0
Nottinghamshire County Teaching PCT	18	1

Notes:

1. Qualified school nurses hold the Nursing and Midwifery Council (NMC) specialist practice qualification with an outcome in school nursing, which is a recordable qualification on the NMC register.
2. The NHS Hospital and Community Health Services non-medical workforce census is a large statistical exercise, collecting over one million records from over 400 organisations. It is not, and is not intended to be, carried out to exact accounting standards.

Source:

The Information Centre for health and social care: Non-Medical Workforce Census.

Patients

Mr. Boswell: To ask the Secretary of State for Health (1) what steps he is taking to encourage appropriate self-care by patients in treatment of minor ailments; [317952]

(2) what steps his Department is taking to educate patients on circumstances where *(a)* self-care is appropriate in the treatment of a minor ailments and *(b)* it is appropriate to seek medical advice. [317953]

Mr. Mike O'Brien: Community pharmacies are very accessible to patients and the public and have a key role to play in supporting self-care—providing advice and support to people requesting help with the treatment of minor ailments, illnesses and injuries. This includes advising on the use of over-the-counter treatments, where appropriate, and when medical advice should be sought. The White Paper, "Pharmacy in England: Building on strengths—delivering the future", aims to increase pharmacies contribution to supporting effective self-care and make better use of the range of skills and services available in pharmacies.

NHS Choices and NHS Direct also offer facilities, such as online symptom checkers and self-assessment tools, to help people understand where self-care is appropriate in the treatment of minor ailments, and when they should seek advice from medical professionals.

Prescription Drugs

Mr. Hoyle: To ask the Secretary of State for Health pursuant to the answer of 1 February 2010, *Official Report*, columns 64-5W, on prescription drugs, what legal advice his Department sought in preparing the elements of the partial impact assessment relating to professional liability and automatic generic substitution; and if he will make a statement. [317846]

Mr. Mike O'Brien: Legal advice from the Department of Health Legal Services did inform the formulation of the consultation document on generic substitution, and the partial impact assessment relating to the proposals, but there are no specific elements in the partial impact assessment relating to professional liability.

Under the Department's preferred approach (option 3), there are mechanisms for ensuring that patients continue to receive the most appropriate treatment. Therefore, we believe the liability risks associated with the proposed generic substitution arrangements should not be any greater than under current prescribing and dispensing arrangements. We recognise that further evidence may be available in relation to liability; stakeholders can input views through responding to the consultation in writing—details at

www.dh.gov.uk/en/consultations/index.htm

or by attending one of the consultation events—more information at

www.pcc.nhs.uk/events/

Prescriptions

Christopher Fraser: To ask the Secretary of State for Health how many prescriptions for *(a)* goserelin, *(b)* leuprorelin acetate, *(c)* buserelin acetate, *(d)* triptorelin, *(e)* bicalutamide, *(f)* flutamide, *(g)* cyproterone acetate and *(h)* diethylstilbestrol there were in (i) England, (ii) each primary care trust area and (iii) each constituency in each year since 1997. [317713]

Mr. Mike O'Brien: The information requested has been placed in the Library, apart from constituency information, which is not collected centrally.

The tables provide the number of prescription items dispensed in the community by primary care trust (PCT) and nationally. Usage in hospital is not collected at prescription level, and usage cannot be attributed to particular PCTs.

Prescriptions: Fees and Charges

Bob Spink: To ask the Secretary of State for Health what proportion of those with a diagnosis of asthma were exempt from paying prescription charges in the latest period for which figures are available. [316964]

Mr. Mike O'Brien: The Department does not hold information on the numbers of patients prescribed particular drugs or for what conditions those drugs are prescribed.

Kelvin Hopkins: To ask the Secretary of State for Health on what date the age at which men are entitled to free prescriptions will rise in line with the increase in the state retirement age for women; and if he will make a statement. [317925]

Mr. Mike O'Brien: The age at which people qualify for free prescriptions will change to reflect changes to the state pension age for women. We are considering how best to implement those changes and will not be introducing any changes to age exemptions in April 2010.

Primary Care Trusts

Mr. Swayne: To ask the Secretary of State for Health (1) if he will extend the deadline before which primary care trusts must name their preferred option for their future organisational structure for the purposes of his Transforming Community Services programme to a date later than the end of March 2010; [317021]

(2) what factors he took into account in determining the timetable for the Transforming Community Services programme; and if he will make a statement. [317022]

Mr. Mike O'Brien: There are no plans to extend the deadline set in the NHS Operating Framework 2010-11 for primary care trusts (PCTs) to agree their proposals for the future organisational form of all current PCT-provided community services with their strategic health authority.

When determining the timetable for planning and implementing proposals for the future form of PCT-provided community services, the Department took account of the need to create greater stability within community services to provide certainty for community service staff and a firm foundation for service transformation. Consideration was given to the pivotal role community services play in helping the national health service to meet the productivity and quality challenge. This will enable the NHS to accelerate service integration to deliver the vision of more integrated care delivered closer to home, as set out in NHS 2010-2015: from good to great. Preventative, people-centred, productive.

The Operating Framework 2010-11 and NHS 2010-2015: from good to great. Preventative, people-centred, productive have already been placed in the Library and are also available on the Department's website at:

www.dh.gov.uk/en/Publicationsandstatistics/index.htm

Primary Care Trusts: Procurement

Mr. David Anderson: To ask the Secretary of State for Health what account his Department's guidance on primary care trust procurement takes of the policy on preferred providers of health services. [316312]

Mr. Mike O'Brien: The "PCT Procurement Guide for Health Services" first published in May 2008 applies to all national health service-funded healthcare procurement. Primary care trusts as commissioners are expected to comply with this guidance as part of their obligations in the Operating Framework published in December 2007. The PCT Procurement Guide is currently being revised to take account of developments since 2008.

The Secretary of State's Vision document "NHS 2010-2015: From Good to Great" and the "NHS Operating Framework 2010/11" outline how we expect the NHS as preferred provider to work in practice. Copies of both documents have already been placed in the Library.

Primodos

Mike Penning: To ask the Secretary of State for Health whether he has made an estimate of the number of people there are in England who have been adversely affected by the drug Primodos. [317688]

Mr. Mike O'Brien: Reports of suspected adverse drug reactions (ADRs) are collected by the Medicines and Healthcare products Regulatory Agency (MHRA) and Commission for Human Medicines (CHM) through the spontaneous reporting scheme: the yellow card scheme. Approximately 25,000 reports of ADRs are reported to the MHRA/CHM through this scheme each year. The scheme collects ADR reports from across the whole United Kingdom and includes all medicines, including those from prescriptions, over-the-counter or general retail sales. It is not possible to calculate from yellow card data the number of people who have been adversely affected by a drug, as the scheme is associated with an unknown level of under-reporting.

Reporters of ADRs will often cite the active substance(s) rather than a particular brand name. As of 12 February 2010, there are three retrospective cases for Primodos and 3,540 that have been recorded in our database for the combined drug substances norethisterone and ethinylestradiol.

Mike Penning: To ask the Secretary of State for Health what steps his Department has taken to assess the needs of those adversely affected by Primodos; and if he will make a statement. [317689]

Mr. Mike O'Brien: We have made no assessment. It is for local clinicians and multi-disciplinary teams to assess the health and care needs of people adversely affected by Primodos.

Prostate Cancer: Health Services

Christopher Fraser: To ask the Secretary of State for Health what the *(a)* mean and *(b)* median waiting time was for patients with a diagnosis of prostate cancer as an (i) in-patient and (ii) out-patient (A) in England and (B) in each NHS trust was in each year since 1997-98. [317711]

Ann Keen: Information on the mean and median time waited to be seen as an in-patient, for the first out-patient attendance where there was a primary diagnosis of prostate cancer, with figures provided for England and by hospital provider, has been placed in the Library.

Christopher Fraser: To ask the Secretary of State for Health what the *(a)* mean and *(b)* median length of an in-patient hospital stay was for patients with a diagnosis of prostate cancer (i) in England and (ii) in each NHS trust was in each year since 1997-98. [317712]

Ann Keen: Information on the mean and median length of stay for patients by NHS hospital provider for each year since 1997-98 where the primary diagnosis was prostate cancer has been placed in the Library.

Christopher Fraser: To ask the Secretary of State for Health what the *(a)* mean and *(b)* median referral-to-treatment waiting time has been for patients with a diagnosis of prostate cancer (i) in England and (ii) in each NHS trust in each month since January 2007. [317714]

Ann Keen: Statistics on average waiting times for cancer patients and average waiting times specifically for prostate cancer treatment are not collected centrally. The cancer waiting time standard of a maximum wait of 62 days from urgent referral for suspected cancer to first cancer treatment was introduced for all cancer patients from December 2005. In the last quarter for which figures are available (July to September 2009) national performance against this standard was 85.7 per cent.

Streptococcus: Pregnancy

Mr. Gerrard: To ask the Secretary of State for Health (1) what guidance his Department issues to strategic health authorities on the availability of tests to pregnant women for Group B streptococcus infection; [317273]

(2) how many infant deaths were due to (a) early and (b) late onset Group B streptococcus infection in the latest period for which figures are available. [317274]

Ann Keen: The National Institute for Health and Clinical Excellence clinical guidelines for routine antenatal care, published in 2008, recommends that pregnant women should not be offered routine antenatal screening for group B streptococcus because evidence of its clinical and cost-effectiveness remains uncertain.

The following table provides the number of infant deaths where there was mention of streptococcus, group B. It is not possible to determine onset of infections but numbers are presented for the neonatal and post-neonatal periods. In 2008, there were 3,281 infant deaths in total; 2,260 occurred in the neonatal period and 1,021 occurred in the post-neonatal period.

Number of infant deaths where there was mention of streptococcus group B[1], for England and Wales, 2008[2]

	Number of deaths
Neonatal[3]	26
Postneonatal[4]	3
Infant[5]	29

[1] Cause of death was defined using the International Classification of Diseases, Tenth Revision (ICD-10). Deaths were included where there was mention of streptococcus group B (corresponding ICD-10 codes are shown in Box 1).

[2] Figures for 2008 are provisional.

[3] Neonatal deaths under 28 days after live birth.

[4] Post-neonatal deaths at least 28 days but under one year after live birth.

[5] Infant deaths under a year after live birth.

Box 1. ICD-10 codes used to define infant deaths due to Group B streptococcus infection

Description	*ICD-10*
Septicaemia due to streptococcus, group B	A40.1
Pneumonia due to streptococcus, group B	J15.3
Congenital pneumonia due to streptococcus, group B	P23.3
Sepsis of newborn due to streptococcus, group B	P36.0

Strokes: Health Services

Sir Nicholas Winterton: To ask the Secretary of State for Health what steps his Department is taking to improve the provision of needs-based services to support stroke survivors and their carers in the long-term; and if he will make a statement. [317926]

Ann Keen: The National Stroke Strategy recommends that local action is needed to ensure that stroke features in local joint health needs assessments so that primary care trusts and local authorities can shape their local commissioning priorities accordingly. The Stroke Improvement Programme and the stroke networks are disseminating across the service good practice for needs-based services that has already been developed in some areas. In addition, local authorities are benefiting from £45 million over three years in ring-fenced grants to improve support services to adult stroke survivors and their carers in the community.

Sir Nicholas Winterton: To ask the Secretary of State for Health what steps his Department is taking to require the provision of appropriate stroke-specific training for care home staff. [317927]

Ann Keen: It is the responsibility of individual social care employers to ensure that their staff are adequately trained for the role that they perform. However, we recognise that stroke survivors in care homes have particular needs and are currently considering what steps we can take to improve stroke specific training for care home staff.

Sir Nicholas Winterton: To ask the Secretary of State for Health what steps his Department is taking to raise *(a)* public and *(b)* professional awareness of (i) risk factors for stroke and (ii) effective primary prevention measures at individual, family, community and societal levels; and if he will make a statement. [317930]

Ann Keen: The Department has run a series of campaigns to raise both public and professional awareness of the importance of a healthy lifestyle in reducing the risk of a number of diseases, including stroke. These include Change 4 Life, which is aimed at reducing obesity, Smokefree marketing to motivate people to stop smoking and direct them to national health service information and support and a jointly branded campaign with our stakeholders, including the Stroke Association, about the unseen damage that drinking can cause to long-term health. The link between alcohol and stroke was one of the key messages.

Sir Nicholas Winterton: To ask the Secretary of State for Health how much his Department has spent on public health measures to reduce exposure to risk factors for stroke in each of the last 12 months; and if he will make a statement. [317931]

Ann Keen: This information is not available. The Department invests in a number of primary prevention measures to help people across different socio-economic groups address risk factors that are commonly associated with a number of diseases, including stroke. These help people to stop smoking, maintain a healthy weight, moderate their alcohol consumption and participate in more physical activity. For example, we are working across Government to make two million adults more physically active by 2012 and phasing in the implementation of the NHS Health Check programme that is designed to reduce an individual's risk of a number of vascular diseases including stroke.

Sir Nicholas Winterton: To ask the Secretary of State for Health what steps he is taking to develop community-based stroke prevention services with the voluntary sector, the NHS and local authorities; and if he will make a statement. [317932]

Ann Keen: The National Stroke Strategy recognises the importance of educating people about the risk of stroke and associated prevention measures. It asks that local assessments should be made of how effectively areas are supporting healthier lifestyles and taking action to tackle vascular risk including hypertension, atrial fibrillation and high cholesterol.

Phased implementation of the NHS Health Check programme began in April 2009. This programme is designed to reduce an individual's risk of a number of vascular diseases including stroke. Primary care trusts (PCTs) are responsible for commissioning. The programme has been designed so that it can be delivered from a variety of settings and by different providers where they have undergone appropriate training. PCTs may, therefore, use a range of providers, including the third sector, to deliver the programme.

Sir Nicholas Winterton: To ask the Secretary of State for Health when his Department plans to implement the National Institute for Health and Clinical Excellence guidelines for diagnosis and treatment of transient ischaemic attack and minor stroke; and if he will make a statement. [317933]

Ann Keen: Implementation of the 'Diagnosis and initial management of acute stroke and transient ischaemic attack (TIA)' guidance is the responsibility of local commissioners and providers. It is the responsibility of commissioners in consultation with their providers to procure the stroke services for their populations.

Sir Nicholas Winterton: To ask the Secretary of State for Health if his Department will issue guidance to ambulance services on the agreement of stroke protocols with hospitals with acute and hyper-acute stroke units. [317938]

Ann Keen: We are not planning to issue such guidance. The Royal College of Physicians' Stroke Sentinel Audit of 2008 showed that there has been a striking improvement in the number of protocols ambulance services have for the management of stroke patients. It shows that between 2006 and 2008 the percentage of primary care trusts having arrangements with their local ambulance service for emergency/rapid transfer to hospital for specialist acute stroke care services has risen from 12 per cent. to 49 per cent. It is the responsibility of the NHS locally to develop these arrangements.

Sir Nicholas Winterton: To ask the Secretary of State for Health if his Department will issue guidance on the treatment of stroke as an emergency, with particular reference to appropriate access to brain scanning and thrombolysis and immediate admission to an acute stroke unit. [317939]

Ann Keen: The National Stroke Strategy recommends that everyone who can benefit from urgent stroke care should be transferred to an acute stroke centre that provides 24-hour access to scans and care in a specialist stroke unit.

The 2009 National Sentinel Audit of stroke undertaken by the Royal College of Physicians shows that the number of stroke units providing thrombolysis is increasing and that the provision of these services out of hours remains a challenge. Local stroke care networks have been established to assist in improving the delivery of stroke services. This includes working with health care professionals to ensure urgent admission to an acute stroke unit, timely access to scanning and the provision of thrombolysis where appropriate. All hospitals provide CT scanning and most provide MRI and carotid doppler and the Department published an imaging guide in 2008, to help ensure that imaging services develop in line with the quality markers in the National Stroke Strategy.

To further encourage improvements in stroke care, in April 2010 we will introduce a Best Practice Tariff for stroke which incentivises direct admission to a stroke unit and timely brain imaging. We will continue to improve care for stroke patients by ensuring that more patients, for whom there is potential benefit, have a brain scan within one hour of their admission. However, thrombolysis can only be delivered safely by experienced teams. Hospitals should not aim to provide thrombolysis before the associated components of the service are functioning well and are of high quality. It is not appropriate, therefore, for every hospital to deliver a thrombolysis service.

Sir Nicholas Winterton: To ask the Secretary of State for Health if he will make it his policy to provide for every patient with stroke to be treated in a high quality stroke unit for the duration of their hospital treatment. [317940]

Ann Keen: The National Stroke Strategy recognises that stroke unit care is the single biggest factor that can improve a person's outcome following a stroke. We have, therefore, made this a top priority for the national health service. The tier 1 vital sign in the NHS Operating Framework aims to ensure that, by March 2011, 80 per cent. of patients with stroke spend at least 90 per cent. of their time in hospital on a stroke unit. This recognises that there are times when a patient, for clinical reasons, might need to spend time in the care of others outside a stroke unit.

Sir Nicholas Winterton: To ask the Secretary of State for Health if he will make it his policy to require all stroke units to meet the criteria set out in clinical stroke guidelines and by the British Association of Stroke Physicians. [317941]

Ann Keen: The National Stroke Strategy sets out twenty quality markers outlining the features of a good stroke service. In developing the strategy, we consulted experts in the field and used the most up-to-date clinical guidelines, including those from the National Institute for Health and Clinical Excellence and the nine key indicators used in the Royal College of Physicians' National Sentinel Stroke Audit.

Sir Nicholas Winterton: To ask the Secretary of State for Health if his Department will issue guidance on the *(a)* appropriate knowledge and skills relating to stroke and *(b)* appropriate training in stroke for all NHS staff working in emergency and acute care. [317942]

Ann Keen: Standard setting for the knowledge and skills required of those working with stroke patients is for the relevant professional bodies. It is for local areas to review, plan for and develop a stroke-skilled work force. Standard setting also guides commissioners on the criteria against which to judge services that they will commission.

The Department set up the UK Forum for Stroke Training through which the Stroke Specific Education Framework has been developed. This framework reflects the elements of the stroke care pathway from prevention through to long-term care which will facilitate links between training, education, work force competences and professional development. It aims to build on the generic skills that health, social, voluntary and independent care staff already possess through the clear identification of additional stroke-specific knowledge and skills. Its purpose is to ensure quality in stroke care by supporting stroke specialist and stroke relevant career pathways and course design and promoting recognised and transferable training and qualifications.

Jim Cousins: To ask the Secretary of State for Health how much funding has been allocated under the National Stroke Strategy to each local authority in Tyne and Wear; and in which years those allocations were *(a)* made and *(b)* spent on each (i) project and (ii) service. [318007]

Ann Keen: Ring-fenced grants are being provided to all 152 local authorities in England over the three years 2008-09 to 2010-11 for the provision of support services to adult stroke survivors and their carers in the community. The ring-fenced grants total £45 million over the three years which means that each local authority receives an average of £100,000 a year. A local authority circular has been issued that sets out the kind of services that these grants might be used to fund. Annex B of the circular also lists the funding allocated to local authorities. The local authority circular can be found at the following web address:

www.dh.gov.uk/en/Publicationsandstatistics/Lettersandcirculars/LocalAuthorityCirculars/AllLocalAuthority/DH_098601

The Department does not collect information on how local authorities spend these grants.

Strokes: Mental Health

Mr. Dismore: To ask the Secretary of State for Health if he will list *(a)* the causes of (i) stroke, (ii) dementia and (iii) depression and *(b)* the proportion of cases attributable to each such factor in the last 12 months. [316282]

Ann Keen: The information on the causes of stroke, dementia and depression is not held centrally.

There are many causes of stroke, dementia and depression and this information is widely available in the public domain. For example, the NHS Choices website lists the causes for stroke, dementia and depression on its website:

www.nhs.uk/Conditions/Pages/bodymap.aspx

Surgery

Stewart Hosie: To ask the Secretary of State for Health how many operations were conducted in each strategic health authority area in England in each of the last three years. [316753]

Mr. Mike O'Brien: The number of finished consultant episodes (FCEs) where a main procedure or intervention was performed, broken down by strategic health authority (SHA) of treatment for the years 2006-07 to 2008-09 is shown in the following table:

SHA	*SHA of treatment*	*2008-09*	*2007-08*	*2006-07*
Total		9,274,423	8,606,493	7,888,074
Q30	North East SHA	572,040	531,912	491,678
Q31	North West SHA	1,394,767	1,294,042	1,143,980
Q32	Yorkshire and the Humber SHA	981,160	902,896	840,971
Q33	East Midlands SHA	700,812	664,188	616,908
Q34	West Midlands SHA	991,949	909,925	876,376
Q35	East of England SHA	913,552	848,822	778,642
Q36	London Strategic SHA	1,403,602	1,304,337	1,206,929
Q37	South East Coast SHA	658,067	605,049	551,229
Q38	South Central SHA	611,945	575,613	505,462
Q39	South West SHA	1,050,513	969,707	875,898
Q99	Wales	16	2	0
Y	Unknown	0	0	1

Notes:

1. FCE is a continuous period of admitted patient care under one consultant within one healthcare provider. FCEs are counted against the year in which they end. Figures do not represent the number of different patients, as a person may have more than one episode of care within the same stay in hospital or in different stays in the same year.
2. The main procedure is first recorded procedure or intervention in each episode, usually the most resource intensive procedure or intervention performed during the episode. In some cases a patient may undertake more than one procedure as part of the same episode. The data does not include the number of secondary procedures undertaken at the same time as the main procedures.
3. SHA of treatment indicates the strategic health authority where the treatment took place.
4. Where Wales is shown as the SHA of treatment, the figure relates to patients who were treated by an English independent provider who also have sites in Wales, where these treatments took place.

Hospital Episode Statistics (HES), The NHS Information Centre for Health and Social Care

Surgery: Operating Costs

Stewart Hosie: To ask the Secretary of State for Health what the net cost to the NHS per theatre hour used was of each operating theatre in England in each of the last five years. [316752]

Mr. Mike O'Brien: The information requested is not collected centrally.

Teenage Pregnancy

Chris Ruane: To ask the Secretary of State for Health how many pregnancies of girls aged between 15 and 19 years there were in each of the last 30 years; and what assessment he has made of trends in the level of such pregnancies. [317966]

Angela E. Smith: I have been asked to reply.

The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Dennis Roberts, dated February 2010:

The Director General for the Office for National Statistics has been asked to reply to your recent question asking the Secretary of State for Health, how many pregnancies of girls aged between 15 and 19 years there were in each of the last 30 years; and what assessment has been made of trends in the level of such pregnancies. (317966) I am replying in his absence.

The table attached provides the statistics that are available on a consistent basis and follows the standard way of presenting these data. The table gives the number of conceptions among girls aged (a) under 16, (b) 16-19 years and (c) under 20, and rates of conceptions for (d) under 16 and (e) under 20, for England and Wales for 1987 to 2007 (the most recent year for which figures are available). Figures specifically for girls aged between 15 and 19 years could only be provided at disproportionate cost.

Figures on conceptions are estimates based on the number of live births, stillbirths or legal abortions. They do not include miscarriages and illegal abortions. Prior to 1987, a woman's age at conception was calculated on a different basis and therefore it is not possible to accurately compare the level of conceptions prior to 1987 against levels in subsequent years.

Rates have been included in the table provided as rates take account of changes in population sizes and therefore provide a better measure of the proportion of women who conceive each year.

Conceptions[1] to women aged (a) under 16 years[2] and 16-19 years[2] in England and Wales[3], 1987-2007[4]

	Number of conceptions (thousand)			Rate per 1,000[5]	
	Age of woman at conception			Age of woman at conception	
Year	(a) Under 16[6]	(b) 16-19 years[6]	(c) Under 20[6]	(d) Under 16[6]	(e) Under 20[6]
1987	8.6	112.7	121.3	8.8	65.2
1988	8.3	110.6	118.9	8.8	65.8
1989	8.0	107.7	115.7	8.9	66.8
1990	8.1	105.2	113.3	9.5	68.0
1991	7.5	94.1	101.6	8.9	64.1
1992	7.2	86.2	93.4	8.4	61.9
1993	7.3	79.9	87.2	[illegible].1	59.7
1994	7.8	77.6	85.4	8.3	58.7
1995	8.1	78.5	86.6	8.6	58.7
1996	8.9	86.0	94.9	9.5	63.2
1997	8.3	87.7	96.0	8.9	62.6
1998	8.5	93.1	101.6	9.0	65.1
1999	7.9	90.9	98.8	8.3	63.1
2000	8.1	89.6	97.7	8.3	62.5
2001	7.9	88.1	96.0	8.0	60.8
2002	7.9	89.2	97.1	7.9	60.6
2003	8.0	90.6	98.6	7.9	60.0
2004	7.6	93.7	101.3	7.5	60.3
2005	7.9	94.4	102.3	7.8	60.1
2006	7.8	95.3	103.1	7.8	60.2
2007	8.2	98.1	106.3	8.3	61.7

[1] Figures on conceptions are based on the number of live births, stillbirths or legal abortions. They do not include miscarriages and illegal abortions.

[2] Age at estimated date of conception.

[3] Women usually resident in England and Wales.

[4] Years for which the method used for estimating woman's age at conception was consistent. 2007 is the most recent year for which figures are available.

[5] Number of conceptions to women under 16 per 1,000 female population aged 13-15 and to women under 20 per 1,000 female population aged 15-18.

[6] Data have been published in groups—'under 16' and 'under 20'. Due to small numbers 'under 16' has been included as a group. Age 16-19 was calculated by subtracting the 'under 16' figure from the 'under 20'.

Urology: Health Services

Mr. Drew: To ask the Secretary of State for Health (1) what guidance his Department has issued to *(a)* primary care trusts and *(b)* regional procurement hubs in ensuring that commissioning arrangements for the provision of urology and stoma devices takes account of the outcomes of the most recent Part IX review consultation; [317934]

(2) what steps his Department is taking to ensure that the use of local tenders and product formularies for urology products does not affect the availability of Part IX products to patients who gain access to them through the prescription process; [317936]

(3) what mechanisms his Department plans to put in place to ensure consistency in the use of local tenders and product formularies for urology products and services in primary care, with particular reference to the outcomes of the most recent Part IX review consultation. [317935]

Dr. Ladyman: To ask the Secretary of State for Health (1) what assessment has been made of the effects on levels of competition in the urology industry of the development of local primary care trust tenders for the provision of urology products and services; and if he will make a statement; [317340]

(2) what assessment has been made of the effects on patient choice of the increasing use of tenders and formularies in primary care for urology and stoma products and services; and if he will make a statement; [317341]

(3) what his Department is doing to ensure that the use of local primary care trust tenders and product formularies for urology products does not prevent patients being able to access their choice of Part IX products via the normal prescription process; and if he will make a statement. [317342]

Mr. Mike O'Brien: Any decisions to undertake local procurement activity rests with the national health service organisations that initiate them.

Following the review of the supply of certain appliances for primary care, as listed in part IX of the Drug Tariff, new arrangements were announced in April 2009 and the relevant amendment regulations were laid on 22 December 2009. These are accompanied by directions to provide for new advanced services. There will also be changes to the Drug Tariff from 1 April 2010 to take account of associated new fees and allowances and a reduction of reimbursement prices for some appliances.

The Department is in ongoing dialogue with industry, industry trade federations, collaborative procurement hubs and primary care trusts (PCTs) over the use of local tenders and product formularies for products and services covered by part IX of the Drug Tariff. The aim of this dialogue is to agree clear guidance for PCTs on this matter.

The Department is not aware of any ongoing local tenders for part IX products. Any local procurement or tenders do not override the clinical judgment of the GP, who is still free to prescribe products listed in part IX of the Drug Tariff to meet the specific needs of patients.

CABINET OFFICE

10 Downing Street: Repairs and Maintenance

Mr. Hurd: To ask the Minister for the Cabinet Office pursuant to the answer to the hon. Member for Peterborough (Mr. Jackson) of 27 October 2009, *Official Report*, column 251W, on 10 Downing Street, how purchase orders for expenditure on renovation and refurbishment are *(a)* authorised and *(b)* electronically held; how quotations are obtained in advance of work on renovation and refurbishment; and how the Total Facilities Management Provider is reimbursed for expenditure on renovation and refurbishment over and above routine maintenance. [315220]

Ms Butler: All expenditure incurred by the Cabinet Office is procured and authorised in accordance with published departmental guidance on financial procedures and propriety, based on principles set out in 'Managing Public Money' and the Treasury handbook on 'Regularity & Propriety'. The departmental guidance is available to all staff on the Cabinet Office intranet.

Only staff with the appropriate delegated financial authority may authorise Cabinet Office expenditure.

Central Office of Information: Marketing

Mr. Hurd: To ask the Minister for the Cabinet Office what the *(a)* title and *(b)* notional budget is of each advertising and marketing campaign co-ordinated through the Central Office of Information in 2009-10. [315203]

Angela E. Smith: I have asked the chief executive of the Central Office of Information to write to the hon. Member.

Letter from Mark Lund, dated 8 February 2010:

As Chief Executive of the Central Office of Information (COI), I have been asked to reply to your Parliamentary Question [315203] regarding Government Campaigns co-ordinated through COI.

This information is not held centrally within COI and could only be made available at disproportionate cost.

Campaigns for the current year may not, at present, have the final title and release of such information may be misleading.

Budgets for campaigns are not held by COI but by the commissioning department.

Accurate information for the current financial year will only be published once the annual accounts have been fully audited.

Mr. Hurd: To ask the Minister for the Cabinet Office with reference to the Central Office of Information press release of 11 December 2009, on the merchandising and promotional items framework, how much the Central Office of Information has spent on promotional food and drink products in each of the last three years; what suppliers were used; and on behalf of which public bodies promotional food and drink was procured. [315223]

Angela E. Smith: I have asked the chief executive of the Central Office of Information to write to the hon. Member.

Letter from Mark Lund, dated 8 February 2010:

As Chief Executive of the Central Office of Information (COI), I have been asked to reply to your Parliamentary Question [315223] regarding the Merchandising and Promotional Framework.

The only company used for promotional products included in the new framework, in each of the last 3 financial years, was Sweet Concepts ltd. This was prior to the start of the specific framework mentioned.

Promotional products were purchased on behalf of the following clients:

British Transport Police
Health and Safety Executive
Home Office
Learning and Skills Council
University for Industry
Royal Air Force
Dept of Health
Police Information Technology Organisation.

	Total (£)

2007-08	11,666.99
2008-09	7,417.00

Charities

Mr. Gordon Prentice: To ask the Minister for the Cabinet Office if she will request the Charity Commission to require charities which have been found by the Commission to have raised money for a purpose outside their charitable objects to post information to this effect on their website and to indicate the steps they are taking to return such donations to the donors. [317183]

Angela E. Smith: The Charity Commission is an independent non-ministerial Government Department responsible for the support and supervision of charities in England and Wales under the Charities Acts 1993 and 2006. The Charity Commission is not subject to ministerial direction or control, and it would not be appropriate for me to make such a request. However, I have made the Charity Commission aware of your concerns.

A charity should take immediate action if it realises that it has made an appeal outside of its purposes. Where possible, it would be necessary for the charity running the appeal to contact the donors to clarify the basis on which they made their donation. The next steps would depend on the circumstances of the appeal and should be taken in consultation with the Charity Commission.

Mr. Gordon Prentice: To ask the Minister for the Cabinet Office what steps the Charity Commission is taking to ensure that charities file their accounts with the Commission within the prescribed timescales. [317184]

Angela E. Smith: The information requested falls within the responsibility of the Charity Commission. I have asked the Commission to reply.

Letter from Andrew Hind, dated 11 February 2010:

As the Chief Executive of the Charity Commission, I have been asked to respond to your written Parliamentary Question on what steps the Charity Commission is taking to ensure that charities file their accounts with the Commission within the prescribed timescales (317184).

To ensure that charities file their accounts within the prescribed time limit the Commission:

issues reminders by letter or email three months and one month prior to the submission deadline;

makes telephone contact with charities with income in excess of £5 million if they do not respond to written reminders;

clearly highlights any failure to submit accounts on the online public Register of Charities.

These measures are supported by periodic press campaigns, most recently the Commission's File on Time campaign launched in February 2010.

Charities that fail to comply may be subject to enforcement action or may be removed from the Register if it appears that they are no longer operating.

The percentage of charities filing accounts on time has risen from 66% in 2006 to 81% in the year to January 2010. In 2008-9, 94% of the sector's income was accounted for in annual accounts filed within the ten month deadline.

I hope this is helpful.

Civil Servants: Manpower

Mr. Maude: To ask the Minister for the Cabinet Office how many people were employed by *(a)* local government, *(b)* central government, *(c)* public corporations and *(d)* the Civil Service in (i) 1996 and (ii) the latest period for which figures are available. [312186]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Dennis Roberts, dated January 2010:

The Director General for the Office for National Statistics has been asked to reply to your recent Parliamentary Question concerning how many people were employed by (a) local government, (b) central government, (c) public corporations and (d) the Civil Service in (i) 1996 and (ii) the latest period for which figures are available. I am replying in his absence. (312186)

Estimates of employment for the public sector are taken from the ONS release on Public Sector Employment at

www.statistics.gov.uk

Data for the Quarterly Public Sector Employment Survey (QPSES) is collected on a quarterly basis; the latest date for which information is available is September 2009 (Annex A).

Annex A. Employment in (a) local government, (b) central government, (c) public corporations and (d) the Civil Service in (i) 1996 and (ii) the latest period for which figures are available

Office for National Statistics

Death: Alcoholic Drinks

Mr. Dismore: To ask the Minister for the Cabinet Office pursuant to the answer of 8 February 2010, *Official Report*, column 800W, on death: liver diseases, how many alcohol-related deaths there were in the latest year for which figures are available, excluding deaths with an underlying cause of chronic liver disease and cirrhosis that do not mention alcohol as a contributing factor. [317565]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Stephen Penneck, dated February 2010:

As Director General for the Office for National Statistics, I have been asked to reply to your recent question pursuant to the Answer of 8 February 2010, Official Report, column 800W, on death: liver diseases, how many alcohol-related deaths there were in the latest year for which figures are available, excluding deaths with an underlying cause of chronic liver disease and cirrhosis that do not mention alcohol as a contributing factor. (317565)

Figures provided in the previous Answer were the number of deaths with an underlying cause of (a) chronic liver disease and (b) cirrhosis, and the number of cases where alcohol is also mentioned on the death certificate as a contributing factor, in England and Wales, in 2008 (the latest year available) (Table 1).

According to the National Statistics definition, there were 7,344 deaths with an alcohol-related underlying cause in England and Wales in 2008 (the latest year available).[1, 2, 3]

The causes of death included in the previous Answer for chronic liver disease are not all included within the National Statistics definition of alcohol-related deaths. The causes listed for cirrhosis are included both in the causes for chronic liver disease and in the National Statistics definition. The causes of death previously given for chronic liver disease and cirrhosis, conditions which mention alcohol and the National Statistics alcohol-related deaths definition are listed below in Box 1.

Of the 6,514 deaths where chronic liver disease was the underlying cause of death in England and Wales in 2008,[4, 2, 3] 6,320 are included within the National Statistics definition of alcohol-related deaths (Figure 1).[5] Of these, there were 4,781 deaths where alcohol was mentioned on the death certificate as a contributing factor, and 1,539 deaths where there was no explicit mention of alcohol (Figure 2).[6]

There were 5,805 deaths with an alcohol-related underlying cause, excluding deaths where the underlying cause was chronic liver disease (within the National Statistics definition) and alcohol was not mentioned on the death certificate as a contributing factor, in England and Wales, in 2008.[2, 3]

This figure was derived by subtracting the number of deaths where chronic liver disease (within the National Statistics definition) was the underlying cause of death and there was no mention of alcohol on the death certificate (1,539) from the total number of alcohol-related deaths (7,344).

Internationally accepted guidance from the World Health Organisation requires only those conditions that contributed directly to the death to be recorded on the death certificate. Medical practitioners and coroners are not supposed to record all of the diseases or conditions present at or before death, and whether a condition contributed is a matter for their clinical judgement. Lifestyle and behavioural factors, such as the deceased's alcohol consumption, are not recorded.

Although not all deaths coded to liver disease and cirrhosis include a mention of alcohol on the death certificate, most are included in the official definition of alcohol-related deaths on the assumption that many of them were caused by alcohol, even if this was not explicitly stated.

Death: Cancer

Christopher Fraser: To ask the Minister for the Cabinet Office (1) what the age-standardised mortality rate from prostate cancer was in *(a)* England, *(b)* each primary care trust area and *(c)* each constituency in each year since 1997-98; [317707]

(2) how many deaths from prostate cancer there were in *(a)* England, *(b)* each primary care trust area and *(c)* each constituency in each year since 1997-98. [317708][1]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Stephen Penneck, dated February 2010:

As Director General for the Office for National Statistics, I have been asked to reply to your recent questions asking (1) what the age-standardised mortality rate from prostate cancer was in (a) England, (b) each primary care trust area and (c) each constituency in each year since 1997-98 (317707) and (2) how many deaths from prostate cancer there were in (a) England, (b) each primary care trust area and (c) each constituency in each year since 1997-98. (317708)

The tables attached provide:

(1) The age-standardised mortality rate per 100,000 population, where prostate cancer was the underlying cause of death, for (a) England, for the years 1997 to 2008 (the latest year available) (Table 1), (b) primary care organisations in England, for the years 2001 to 2008 (the only period available) (Table 2), and (c) parliamentary constituencies in England, for the years 2001 to 2007 (the only period available) (Table 3).

(2) The number of deaths where prostate cancer was the underlying cause of death, for (a) England and (b) primary care organisations in England, for the years 1997 to 2008 (the latest year available) (Tables 4 and 5), and (c) parliamentary constituencies in England, for the years 1997-02 and 2003-08 combined (the only periods available) (Table 6).

A copy of Tables 2, 3, 5 and 6 have been placed in the House of Commons Library.

Mortality rates for primary care organisations and parliamentary constituencies can only be calculated for the periods given due to the availability of mid-year population estimates. Numbers of deaths for parliamentary constituencies have not been given for individual years in line with the current ONS policy on protecting confidentiality within birth and death statistics.

Table 1: Number of deaths where breast cancer was the underlying cause of death, England and Wales, 2008[1, 2, 3]

Cause of death	*Deaths (persons)*
Breast cancer	10,779

[1] Cause of death was defined using the International Classification of Diseases, Tenth Revision (ICD-10) code C50.
[2] Figures for England and Wales include deaths of non-residents.
[3] Figures are for deaths registered in each calendar year.

Death: Drugs and Alcoholic Drinks

Chris Grayling: To ask the Minister for the Cabinet Office what information her Department holds for benchmarking purposes on the death rates in respect of *(a)* drug and *(b)* alcohol abuse in other EU member states. [315704]

Gillian Merron: I have been asked to reply.

Information on drug abuse and alcohol abuse deaths is collected by the Office for National Statistics (ONS).

"Deaths related to drug poisoning in England and Wales, 2008", is the latest available information on drug misuse deaths and was published by ONS in August 2009. A copy has been placed in the Library. It provided drug misuse death data by gender, age group, time and by specific drugs.

On behalf of the four United Kingdom health departments, we provide UK drug-related death information to the European Monitoring Centre on Drugs and Drug Addiction (EMCDDA). The EMCDDA receives drug-related death information from all European Union member states and some other European countries and publishes these data annually as a statistical bulletin available from the EMCDDA website:

http://www.emcdda.europa.eu/

though there are limitations on the comparability of data from different states.

"Alcohol-related deaths in the United Kingdom 1991-2008", is the latest available information on alcohol-related deaths and was published by ONS in January 2010. A copy has been placed in the Library.

European data on selected alcohol-related causes of death per 100,000 of population are held by the World Health Organization Regional Office for Europe on the European 'health for all' online database:

http://data.euro.who.int/hfadb/

Although this can be a helpful indicator for ranking countries by alcohol-related mortality, it is important to note that it does not include all known alcohol-related causes of death and is not directly comparable with ONS alcohol-related death data.

Death: Fuel Poverty

Richard Younger-Ross: To ask the Minister for the Cabinet Office what estimate she has made of the number of excess winter deaths of persons aged 65 or over attributable to fuel poverty in January 2010. [316862]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Stephen Penneck, dated 9 February 2010:

As Director General for the Office for National Statistics, I have been asked to reply to your recent question asking what was the number of excess winter deaths of persons aged 65 or over attributable to fuel poverty in January 2010. (316862)

Estimates of excess winter deaths are based on the difference between the number of deaths during the four winter months (December to March) and the average number of deaths during the preceding four months (August to November) and the following four months (April to July). Provisional estimated figures for excess winter mortality in the winter period 2009/10 will be published in November 2010.

---

[1] *[Official Report, 15 March 2010, Vol. 507, c. 16-18MC.]*

It is not possible to say from the information collected at death registration whether excess winter deaths are attributable to fuel poverty or any other social or economic circumstances.

Departmental Air Travel

Mr. Harper: To ask the Minister for the Cabinet Office how much the Leader of the House's Office spent on *(a)* first class and *(b)* business class flights in the last 12 months. [317270]

Angela E. Smith: Provision of a complete and accurate response would require a full interrogation of the corporate travel contract management information, Government Procurement Card (GPC) records and expenses claims for the period requested. This would therefore incur disproportionate costs.

However, since 1999, the Government have published a list of all overseas travel by Cabinet Ministers costing over £500. Information for the financial year 2008-09 was published on 16 July 2009, *Official Report*, column 66-70WS. All travel by Ministers is undertaken in accordance with the Ministerial Code.

Departmental Art Works

Mr. Maude: To ask the Minister for the Cabinet Office which works of art from the Government Art Collection are on display in *(a)* No. 10 Downing Street and *(b)* the Prime Minister's personal residence; and which other works of art have been on display at each such location since June 2007. [312285]

Angela E. Smith: I refer the hon. Member to the answer given on 9 June 2008, *Official Report*, column 94W. A list of the works of art will be deposited in the Libraries of both Houses.

Departmental Consultants

Mr. Harper: To ask the Minister for the Cabinet Office whether the Leader of the House's Office has had any contracts with external consultants in 2009-10. [317269]

Angela E. Smith: Up until 31 January 2010, the Leader of the House's Office did not have any contracts with external consultants in 2009-10.

Departmental Energy

Andrew Stunell: To ask the Minister for the Cabinet Office what the estimated *(a)* amount and *(b)* cost was of energy used in her Department and its agency in each year since 1997; what proportion of the energy used was generated from renewable sources in each of those years; and if she will make a statement. [317231]

Ms Butler: The information requested is in the following table. This information covers the Cabinet Office's central London estate. Information prior to 2005-06 is available only at disproportionate cost.

	Annual consumption (kWh)	*Cost of utilities (£)*	*Percentage of renewable energy*
2005-06	17,485,892	1,502,409	43.2
2006-07	16,682,196	1,608,105	45.7
2007-08	14,808,607	1,422,722	50.2
2008-09	16,384,746	2,232,021	60.0
2009-10 (to date)	11,774,435	1,256,662	67.1

Departmental Information Officers

Mr. Hurd: To ask the Minister for the Cabinet Office how many staff in *(a)* her Department, *(b)* the Charity Commission and *(c)* the Central Office of Information (i) have the status of embedded communicators and (ii) are members of the Government Communications Network but are not listed in the Central Office of Information White Book. [315166]

Ms Butler: Cabinet Office currently has no staff with the status of embedded communicators.

To provide information on how many members of Cabinet Office staff are members of the GCN but not listed in the White Book could be provided only at disproportionate cost.

I have asked the chief executives of the Charity Commission *(b)* and the Central Office of Information *(c)* to-write in reply to the hon. Member's question.

Letter from Andrew Hind, dated 3 February 2010:

As the Chief Executive of the Charity Commission, I have been asked to respond to your Parliamentary Question regarding how many of our staff (i) have the status of "embedded communicators" and (ii) are members of the Government Communications Network but are not listed in the Central Office of Information White Book. I will arrange for a copy of this letter to be placed in the Library of the House.

We have no employees with the status of "embedded communicators". There are two Charity Commission employees who are members of the Government Communications Network (GCN) but not listed in the current edition of the White Book. The post of Head of Corporate Affairs is listed in the current edition of the White Book as being filled by someone who is no longer in the role. Therefore the current postholder, a member of the GCN, is not listed by name in the White Book. In addition, our Internal Communications Manager is a member of the GCN but this post is not listed in the White Book.

I hope this is helpful.

Letter from Mark Lund, dated 2 February 2010:

As Chief Executive of the Central Office of Information (COI), I have been asked to reply to your Parliamentary Question [315166] asking how many staff in the Central Office of Information (i) have the status of embedded communicators and (ii) are members of the Government Communications Network but are not listed in the Central Office of Information White Book.

(i) COI has no staff defined as embedded communicators.

(ii) This information is not available and could only be provided at disproportionate cost.

Departmental Mass Media

Mr. Maude: To ask the Minister for the Cabinet Office with reference to the answer of 20 July 2009, *Official Report*, column 1040W, on departmental publications, if she will place in the Library hard copy print outs of the daily online news service bulletin for the period from 1 January 2010 to date. [312462]

Ms Butler: The Cabinet Office provides a staff intranet which has a main news story that changes frequently. The audience is internal Cabinet Office staff. Personal details of staff appear in these internal news stories on the understanding that they will be used for internal purposes only. Printing copies and placing them in the Libraries of the House, or other 'public' areas, would infringe staff privacy.

Departmental Pay

Mr. Scott: To ask the Minister for the Cabinet Office how much has been paid in bonuses to civil servants in the Office of the Leader of the House in each year since 2003. [306460]

Angela E. Smith: The Office of the Leader of the House of Commons is an integral part of the Cabinet Office.

I refer the hon. Member to the reply I gave on 10 February 2010, *Official Report*, column 1061W.

Grant Shapps: To ask the Minister for the Cabinet Office how many *(a)* year end and *(b)* in-year bonuses were paid to officials in the Prime Minister's Office in each of the last three years; and how much was paid in such bonuses in each such year. [307106]

Angela E. Smith: The Prime Minister's Office is an integral part of the Cabinet Office.

I refer the hon. Member to the reply I gave to the hon. Member for Ilford, North (Mr. Scott) on 10 February 2010, *Official Report*, column 1061W.

Life Expectancy: Salford

Hazel Blears: To ask the Minister for the Cabinet Office what the average life expectancy was for *(a)* women and *(b)* men in Salford in (i) 1997 and (ii) 2009. [317395]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Stephen Penneck:

As Director General for the Office for National Statistics, I have been asked to reply to your recent question asking what the average life expectancy was for (a) women and (b) men in Salford in (i) 1997 and (ii) 2009. (317395)

Life expectancy figures are calculated as three year rolling averages. The table below provides the period life expectancy at birth for (a) women and (b) men in Salford local authority, for (i) 1996-98 and (ii) 2006-08 (the latest figures available).

Table 1. Period life expectancy at birth[1], Salford local authority[2], 1996-98 and 2006-08[3]

		Years of life
	Males	*Females*
1996-98	72	77
2006-08	75	79

[1] Period life expectancy at birth is an estimate of the average number of years a newborn baby would survive if he or she experienced the area's age-specific mortality rates for that time period throughout his or her life. The figure reflects mortality among those living in the area in each time period, rather than mortality among those born in each area. It is not therefore the number of years a baby born in the area in each time period could actually expect to live, both because the death rates of the area are likely to change in the future and because many of those born in the area will live elsewhere for at least some part of their lives.

[2] Using boundaries as of 2009 for all the years shown.

[3] Three year rolling averages, based on deaths registered in each year and mid-year population estimates.

Lobbying: Registration

Mr. Maude: To ask the Minister for the Cabinet Office what timetable she has set for the lobbying industry to develop a voluntary register of lobbying activity. [312183]

Angela E. Smith: I refer the right hon. Member to my response during the debate on lobbying in Westminster Hall on 7 January 2010.

Media Monitoring Unit

Mr. Hurd: To ask the Minister for the Cabinet Office with reference to the answer of 3 December 2009, *Official Report*, column 975W, on Media Monitoring Unit, what the difference is between the subscribers referred to as the Cabinet Office and Cabinet Office Communications; and which subscriber incurred the £25,200 of expenditure referred to. [315281]

Angela E. Smith: I have asked the chief executive of the Central Office of Information to write to the hon. Member.

Letter from Mark Lund, dated 8 February 2010:

As Chief Executive of the Central Office of Information (COI), I have been asked to reply to your Parliamentary Question [315281] asking for clarification on the Media Monitoring Unit.

The MMU provides in-depth news briefings for press officers, policy officials and Ministers across all government departments, the public sector and regional public bodies.

The subscription information listed for Cabinet Office included all work carried out on their behalf.

The Information listed as Cabinet Office Communications was work carried out on behalf of another department.

The subscription listed as blank has already been included in the subscription for a department within the table and should be disregarded.

New Businesses: Feltham

Alan Keen: To ask the Minister for the Cabinet Office how many businesses have started up in Feltham and Heston constituency since 1997. [316696]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Stephen Penneck, dated 9 February 2010:

As Director General for the Office for National Statistics, I have been asked to reply to your recent Parliamentary Question concerning how many businesses have started up in Feltham and Heston constituency since 1997. [316696]

Annual statistics on business births, deaths and survival are available for 2002 onwards from the ONS release on Business Demography at:

www.statistics.gov.uk

The table below contains the latest statistics available on business births for Feltham and Heston.

Enterprise births for Feltham and Heston 2002 to 2008

	Total
2002	356
2003	421
2004	431
2005	496

Enterprise births for Feltham and Heston 2002 to 2008

	Total
2006	436
2007	411
2008	455

Part-time Employment: Working Mothers

Mrs. Maria Miller: To ask the Minister for the Cabinet Office what estimate she has made of the proportion of women with children who worked fewer than 16 hours a week in each year since 1997. [317140]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Stephen Penneck, dated February 2010:

As Director General for the Office for National Statistics, I have been asked to reply to your Parliamentary Question on the proportion of women with children who worked fewer than 16 hours a week in each year since 1997. (317140)

The information requested is given in table 1 attached. The figures are from the Labour Force Survey (LFS) household datasets for the three months ending June for each year requested.

As with any sample survey, estimates from the LFS are subject to a margin of uncertainty as different samples give different results. Table 2 shows the percentage and confidence interval for the three months ending June 2009. This is to give an indication as to the accuracy of the most recent estimate, and how much it could vary if taken from a different sample. The estimate is such that there is 95 per cent certainty that from all samples possible it will lie within the lower and upper bounds.

Table 1: Percentage of working age[1] mothers with dependent children[2] who worked fewer than 16 hours[3] a week, United Kingdom, not seasonally adjusted April to June 1997-2009

	Percentage[4]
1997	14.8
1998	14.5
1999	14.2
2000	13.4
2001	12.3
2002	11.9
2003	11.9
2004	11.5
2005	10.4
2006	10.5
2007	10.4
2008	9.2
2009	9.3

[1] Women aged 16 to 59.

[2] Children under 16 and those aged 16-18 who have never married and in full-time education.

[3] Total usual hours worked in main job (excluding overtime), excludes those not in employment.

[4] Denominator is all working age women with depe[illegible]hildren.

Source:

LFS household datasets.

Table 2: Percentage of working age[1] mothers with dependent children[2] who worked fewer than 16 hours[3] a week with 95 per cent. confidence interval[4] United Kingdom, not seasonally adjusted April to June 2009

	Percentage[5]	Lower CI	Upper CI
2009	9.3	8.8	9.7

[1] Women aged 16 to 59.

[2] Children under 16 and those aged 16-18 who have never married and in full-time education.

[3] Total usual hours worked in main job (excluding overtime), excludes those not in employment.

[4] 95 per cent. confidence interval which means that from all samples possible there would be 95 per cent. certainty that the true estimate would lie within the lower and upper bounds.

[5] Denominator is all working age women with dependent children.

Source:

LFS household datasets.

Prostate Cancer

Christopher Fraser: To ask the Minister for the Cabinet Office what the *(a)* age-standardised incidence rate for prostate cancer and *(b)* number of diagnoses of prostate cancer was in (i) each strategic health authority area, (ii) each primary care trust area and (iii) each constituency in each year since 1997. [317709]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Stephen Penneck:

As Director General for the Office for National Statistics, I have been asked to reply to your recent Parliamentary Question asking what the (a) age-standardised incidence rate for prostate cancer and (b) number of diagnoses of prostate cancer was in (i) each strategic health authority area, (ii) each primary care trust area and (iii) each constituency in each year since 1997. [317709]

The latest available figures for newly diagnosed cases of prostate cancer (incidence) are for the year 2007. Please note that these numbers may not be the same as the number of people diagnosed with cancer, because one person may be diagnosed with more than one cancer.

Cancer incidence rates for strategic health authorities can only be calculated from 2002 onwards and for primary care organisations and parliamentary constituencies from 2001 onwards due to the availability of mid-year population estimates for those areas.

The number of cases in parliamentary constituencies has not been given for individual years in line with policy on protecting confidentiality within patients' data.

The tables attached provide the age-standardised incidence rate per 100,000 population, for prostate cancer, for (i) strategic health authorities in England, for the years 2002 to 2007 (Table 1), (ii) primary care organisations in England for the years 2001 to 2007 (Table 2), and (iii) parliamentary constituencies in England for the years 2001 to 2007 combined (Table 3), the number of diagnoses (incidence) for prostate cancer for (i) strategic health authorities in England and (ii) primary care organisations in England, for the years 1997-2007 (Tables 4 and 5), and (iii) parliamentary constituencies in England for the years 1997-02 and 2003-07 combined (Table 6).

A copy of Tables 2, 3, 5 and 6 has been placed in the House of Commons Library.

Table 1: Age-standardised incidence rates per 100,000 population, prostate cancer, strategic health authorities in England, 2002-07[1,2,3,4]

						Cases per 100,000 (males)
	2002	2003	2004	2005	2006	2007
North East	90	97	86	93	86	86
North West	88	90	108	101	104	96
Yorkshire and the Humber	89	89	101	96	101	97

Table 1: Age-standardised incidence rates per 100,000 population, prostate cancer, strategic health authorities in England, 2002-07[1, 2, 3, 4]

	2002	2003	2004	2005	2006	2007
					Cases per 100,000 (males)	
East Midlands	84	82	94	99	101	99
West Midlands	102	102	109	104	105	97
East of England	99	95	99	101	100	99

Unemployment

Mr. Clappison: To ask the Minister for the Cabinet Office how many economically inactive people of working age wanted employment in the most recent year for which figures are available. [317339]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Stephen Penneck, dated February 2010:

As Director General for the Office for National Statistics, I have been asked to reply to your Parliamentary Question asking how many economically inactive people of working age wanted employment in the most recent year for which figures are available. (317339)

Estimates of economic inactivity are available from the Labour Force Survey (LFS). In accordance with the International Labour Organization (ILO) definition, people are classed as economically inactive if they are neither in employment nor unemployed.

The most recent estimates are for the three-month period September-November 2009 and show that 2.308 million seasonally adjusted economically inactive people of working age wanted a job. This estimate comprises those who have not been looking for work in the last four weeks, but who say they would like a regular paid job, plus those who have been looking for work but who were unable to start within two weeks.

These estimates are published in Table 13 of the Labour Market Statistical Bulletin.

As with any sample survey, estimates from the LFS are subject to a margin of uncertainty. Indications of the sampling variability of LFS aggregate estimates are provided in the Statistical Bulletin.

Unemployment: Kingston upon Thames

Mr. Davey: To ask the Minister for the Cabinet Office what the unemployed claimant count in *(a)* the Royal Borough of Kingston and *(b)* Kingston and Surbiton constituency was in (i) 1997, (ii) 2005 and (iii) 2009. [317717]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Stephen Penneck, dated February 2010:

As Director General for the Office for National Statistics, I have been asked to reply to your Parliamentary Question asking what the unemployed claimant count in (a) the Royal Borough of Kingston and (b) Kingston and Surbiton constituency was in (i) 1997 (ii) 2005 and (iii) 2009. (317717)

The Office for National Statistics (ONS) compiles the number of claimants of Jobseeker's Allowance (JSA) from the Jobcentre Plus administrative system. Table 1 shows the number of people resident in the London borough of Kingston upon Thames and

Kingston and Surbiton parliamentary constituency claiming Jobseeker's Allowance (JSA) in December 2009, December 2005 and December 1997.

National and local area estimates for many labour market statistics, including employment, unemployment and claimant count are available on the NOMIS website at:

http://www.nomisweb.co.uk

Table 1: Number of persons claiming jobseeker's allowance resident in the London borough of Kingston upon Thames and Kingston and Surbiton parliamentary constituency

As at December	*Kingston upon Thames*	*Kingston and Surbiton*
1997	2,009	1,559
2005	1,464	1,157

Source:
Jobcentre Plus Administrative System

Unemployment: North West

Andrew Stunell: To ask the Minister for the Cabinet Office for how long on average claimants aged between 18 and 24 years resident in each local authority area in the North West were in receipt of jobseeker's allowance in *(a)* each of the last 12 months and *(b)* each of the last five years. [317206]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Stephen Penneck, dated February 2010:

As Director General for the Office for National Statistics, I have been asked to reply to your Parliamentary Question asking for how long on average claimants aged between 18 and 24 years resident in each local authority area in the North West were in receipt of jobseeker's allowance in (a) each of the last 12 months and (b) each of the last five years. (317206)

The number of people claiming Jobseeker's Allowance (JSA) is taken from the Jobcentre Plus administrative system. The length of a claim has been defined as the time between the start of an individual's claim and the count date in each reference month. Table 1 shows the median length of live claims during the last 12 months up to the latest available period in December 2009, and for December of each of the last 5 years.

National and local area estimates for many labour market statistics, including employment, unemployment and claimant count are available on the NOMIS website at:

http://www.nomisweb.co.uk

Unemployment: Salford

Hazel Blears: To ask the Minister for the Cabinet Office what the level of unemployment has been in Salford in each year since 1997. [317394]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Stephen Penneck, dated February 2010:

As Director General for the Office for National Statistics, I have been asked to reply to your Parliamentary Question asking what the level of unemployment has been in Salford in each year since 1997. (317394)

The Office for National Statistics (ONS) compiles unemployment statistics for local areas from the Annual Population Survey and its predecessor the annual Labour Force Survey (LFS) following International Labour Organisation (ILO) definitions. However, estimates of unemployment for the Salford constituency are unavailable.

As an alternative, in Table 1 we have provided the number of persons claiming Jobseeker's Allowance for the Salford constituency for December 2009 and December of each year since 1997.

National and local area estimates for many labour market statistics, including employment, unemployment and claimant count are available on the NOMIS website at

http://www.nomisweb.co.uk

Table 1: Number of persons resident in Salford parliamentary constituency claiming Jobseeker's Allowance

	Number

TRANSPORT

Aviation

Norman Baker: To ask the Minister of State, Department for Transport how many domestic flights within Great Britain, excluding lifeline flights, were of 360 miles or less in *(a)* 2009 and *(b)* 2010; and what projection he has made of the number of such flights in (i) 2011, (ii) 2012, (iii) 2013, (iv) 2014 and (v) 2015. [317031]

Paul Clark: The following table shows the Department's latest forecasts of the number of domestic flights from GB airports, with a distance of 360 miles or under, between 2009 and 2015. All these figures, including 2009 and 2010, are forecasts from the aviation model as data are not yet available for these years.

Lifeline flights cannot be excluded from our forecasts as only movements between the 29 largest GB airports are explicitly modelled, which does not include any lifeline flights. A list of modelled airports can be found in annex F of the UK Air Passenger Demand and CO_2 Forecasts, published in January 2009. This is available at:

http://www.dft.gov.uk/pgr/aviation/atf/co2forecasts09/

Flights from a modelled airport to a minor airport are included in an 'other airports in model' category. This would include some lifeline flights but they cannot be separated out from the other flights in this category. Flights between two minor airports are not included in our modelling.

	Flights under 360 miles
2009	248,258
2010	254,242
2011	253,511
2012	250,985
2013	255,465
2014	259,171
2015	259,925

Notes:
1. Data are for departures only.
2. These forecasts refer to the central demand scenario s12s2, with Stansted R2 in 2015 and Heathrow R3 around 2020, as presented in 'UK Air Passenger Demand and CO_2 Forecasts', January 2009. This is available at:
http://www.dft.gov.uk/pgr/aviation/atf/co2forecasts09/
3. All figures are modelled, including 2009.
4. Distances are Great Circle Distances and no uplift for indirect routing has been applied.

Norman Baker: To ask the Minister of State, Department for Transport how many domestic flights within Northern Ireland, excluding lifeline flights, were of 360 miles or less in *(a)* 2009 and *(b)* 2010; and what estimate he has made of the number of such flights in (i) 2011, (ii) 2012, (iii) 2013, (iv) 2014 and (v) 2015. [317032]

Paul Clark: There are no flights within Northern Ireland. The three reporting airports (Belfast International, Belfast City and City of Derry) historically do not have flights between each other.

There are currently no lifeline flight routes from Northern Ireland airports.

Norman Baker: To ask the Minister of State, Department for Transport what the average distance travelled by flights departing from UK airports *(a)* was in 2009 and *(b)* is projected to be in (i) 2010, (ii) 2011, (iii) 2012, (iv) 2013, (v) 2014 and (vi) 2015. [317033]

Paul Clark: Table 1 shows the forecasts of the average distance of flights departing from UK airports between 2009 and 2015. All these figures, including 2009 and 2010, are forecasts from the aviation model as data are not yet available for these years.

Table 1

	Average flight distance (km)
2009	1,556
2010	1,568
2011	1,581
2012	1,588
2013	1,588
2014	1,590
2015	1,592

Notes:
1. Data is for UK departures only.
2. These forecasts refer to the central demand scenario s12s2, with Stansted R2 in 2015 and Heathrow R3 around 2020, as presented in "UK Air Passenger Demand and CO_2 Forecasts", January 2009. This is available at: http://www.dft.gov.uk/pgr/aviation/atf/co2forecasts09/
3. All figures are modelled, including 2009.
4. Distances are Great Circle Distances uprated by 9 per cent. for indirect routing and stacking.

Norman Baker: To ask the Minister of State, Department for Transport (1) how many flights departed from UK airports in *(a)* 2009 and *(b)* 2010; and what estimate he has made of the equivalent figure in (i) 2011, (ii) 2012, (iii) 2013, (iv) 2014 and (v) 2015; [317034]

(2) how many flights, excluding lifeline flights departed from UK airports in *(a)* 2009 and *(b)* 2010; and what estimate he has made of the equivalent figure in (i) 2011, (ii) 2012, (iii) 2013, (iv) 2014 and (v) 2015. [317035]

Paul Clark: Table 1 shows the Department's latest forecasts of flights from UK airports between 2009 and 2015. All these figures, including 2009 and 2010, are forecasts from the aviation model as data are not yet available for these years.

Table 1

	Number of flights
2009	2,324,695
2010	2,416,328
2011	2,511,165
2012	2,576,932
2013	2,655,016
2014	2,721,096
2015	2,799,069

Notes:
1. Data are for UK departures only.
2. These forecasts refer to the central demand scenario s12s2, with Stansted R2 in 2015 and Heathrow R3 around 2020, as presented in "UK Air Passenger Demand and CO_2 Forecasts", January 2009. This is available at: http://www.dft.gov.uk/pgr/aviation/atf/co2forecasts09/
3. All figures are modelled, including 2009.

It is not possible to exclude lifeline flights from the forecasts of flights from UK airports contained in table 1.

Only movements between the 31 largest UK airports are explicitly modelled, which does not include any lifeline flights. A list of modelled airports can be found in annex F of the "UK Air Passenger Demand and CO_2 Forecasts", published in January 2009. This is available at:

http://www.dft.gov.uk/pgr/aviation/atf/co2forecasts09/

Flights from a modelled airport to a minor airport are included in an 'other airports in model' category. This would include some lifeline flights but they cannot be separated out from the other flights in this category. Flights between two minor airports are not included in our modelling.

Norman Baker: To ask the Minister of State, Department for Transport what proportion of flights taking off from UK airports *(a)* exclusively carried cargo and *(b)* carried cargo with passengers in each of the last three years. [317041]

Paul Clark: The following table shows the proportion of flights departing from reporting UK airports by type.

				Percentage
	Exclusively carried cargo	*Carried cargo with passengers*	*Exclusively carried passengers*	*All departing flights*
2006	3	61	36	100
2007	3	60	37	100
2008	3	60	37	100

Notes:
1. Flights by cargo and passenger aircraft. Excludes flights without any recorded cargo or passengers.
2. Carried cargo includes freight and/or mail.
3. Flight departures are based on data from 58 reporting UK airports, including flights from the Isle of Man and Channel Islands.
4. Excludes airlines which did not give permission for CAA to disclose their data.

Source:

Based on data supplied to DfT by the Civil Aviation Authority.

Norman Baker: To ask the Minister of State, Department for Transport what average proportion of the weight of planes carrying cargo and passengers departing UK airports was made up of *(a)* cargo and *(b)* passengers in each of the last three years. [317042]

Paul Clark: The Department for Transport does not hold this information.

Norman Baker: To ask the Minister of State, Department for Transport what the average number of seats was on planes *(a)* making domestic flights within the UK and *(b)* taking off from UK airports in each of the last three years. [317043]

Paul Clark: The following table shows the average number of seats on planes making domestic flights and of all flights departing from reporting UK airports in 2006, 2007 and 2008.

	Average number of seats:	
	Domestic flight departures	*All flight departures (domestic and international)*
2006	91	139
2007	93	141
2008	93	142

Notes:

1. Flights by passenger aircraft only.
2. Flight departures are based on data from 58 reporting UK airports, including flights from the Isle of Man and Channel Islands.
3. Excludes airlines which did not give permission for CAA to disclose their data.

Source:

Based on data supplied to DfT by the Civil Aviation Authority.

Aviation: Exhaust Emissions

John McDonnell: To ask the Minister of State, Department for Transport how many tonnes of carbon dioxide were emitted as a result of UK domestic flights in 2008. [317122]

Paul Clark: In 2008, UK domestic aviation carbon dioxide emissions were 2.18MTCO$_2$.

The sources of these data are the AEA Energy and Environment and Department of Energy and Climate Change (DECC) and can be found at:

http://www.decc.gov.uk/en/content/cms/statistics/climate_change/gg_emissions/uk_emissions/2008final/2008_final.aspx

Aviation: Isle of Man

Andrew Mackinlay: To ask the Minister of State, Department for Transport what discussions he has had with air carriers on the consequences for them of the cessation of the bilateral health agreement between the UK and the Isle of Man with effect from 1 April 2010; what obligations there are on air carriers on routes between the UK and the Isle of Man to meet the costs of hospital care and admission consequent upon a passenger falling ill while being carried on such a route; and if he will make a statement. [317584]

Paul Clark: Responsibility for the bilateral health agreement with the Isle of Man rests with the Department of Health.

In relation to aviation, the Department for Transport has had no discussions with air carriers about the cessation of the bilateral health agreement. There are no obligations on airlines to cover costs of passengers who become ill (unless the airline was in some way negligent).

Aviation: Northern Ireland

Norman Baker: To ask the Minister of State, Department for Transport how many flights of less than 360 miles between Great Britain and Northern Ireland there were in each of the last three years. [317044]

Paul Clark: The following table shows the number of domestic flights of less than 360 miles between reporting airports in Great Britain and Northern Ireland in 2006, 2007 and 2008.

	Number of flights
2006	70,093
2007	74,727
2008	74,379

Notes:

1. Flights by passenger aircraft only.
2. Based on domestic flight arrival and departure data from the three reporting airports in Northern Ireland. Includes flights to/from the Isle of Man and Channel Island airports.
3. Excludes airlines which did not give permission for CAA to disclose their data.

Source:

Based on data supplied to DfT by the Civil Aviation Authority.

Aviation: Security

Mr. Leech: To ask the Minister of State, Department for Transport what steps are taken in circumstances where an air passenger in transit at a UK airport refuses to be subject to a full body scan on privacy grounds; and what discussions he has had with the Secretary of State for the Home Department and the UK Border Agency on the matter. [317171]

Paul Clark: Officials from the Department for Transport are discussing this matter with the UK Border Agency. Should a transit passenger refuse to be scanned and as a result is not allowed to travel, then UKBA would deal with any application for leave to enter the UK on its individual merits.

Mrs. Villiers: To ask the Minister of State, Department for Transport whether he has had discussions with *(a)* Smith Technologies and *(b)* QinetiQ on the availability and effectiveness of full body scanners. [317512]

Paul Clark: Officials from the Department for Transport have had discussions with a wide range of industry representatives including Smiths Detection and QinetiQ on the subject of advanced image technology, also known as body scanners.

Mrs. Villiers: To ask the Minister of State, Department for Transport whether he has made provision for training for airport security staff in relation to behavioural profiling. [317513]

Paul Clark: We are currently looking at whether targeting certain passengers for additional security measures at airports would be more effective than selecting a proportion of passengers at random. We have taken no decisions yet. Behavioural detection is not currently part of the training syllabus mandated for airport staff by the Department for Transport.

A number of security staff at Heathrow are undergoing training in behavioural analysis techniques—where passengers are selected if they are behaving suspiciously. This training is being trialled and will be independently evaluated. We will be considering the effectiveness of this trial before deciding whether it can be rolled out more widely.

Mrs. Villiers: To ask the Minister of State, Department for Transport whether he plans to publish guidance relating to the protection of the privacy of airline passengers who undergo full body scans. [317519]

Paul Clark: The Department for Transport has published an interim code of practice relating to the protection of privacy. It also covers health and safety, data protection and equality issues. The interim code of practice is available in the libraries of the House and on the Department's website.

The Department will shortly be launching a full public consultation on the interim code of practice and will consider all representations carefully before preparing a final code of practice later in the year.

Mrs. Villiers: To ask the Minister of State, Department for Transport when he expects full body scanning equipment to be operational at UK domestic airports other than designated airports. [317520]

Paul Clark: Body scanning equipment will be operational at three airports by the end of February. The Department for Transport is currently working with industry to develop a timetable for widespread implementation.

British Transport Police: Fixed Penalties

Norman Baker: To ask the Minister of State, Department for Transport pursuant to the answer of 3 February 2010, *Official Report*, columns 423-4W, on British Transport Police: fixed penalties, how many penalty notices for disorder were issued in each year from 2006 to 2009; and what percentage of *(a)* £50 fines and *(b)* £80 fines have been paid. [317258]

Chris Mole: Following is a breakdown for penalty notices which were issued in each year from 2006 to 2009 by British Transport police (BTP), including percentages for £50 and £80 fines which have been paid.

	Total £50 penalty notice for disorder issued	*Percentage paid*	*Total £80 penalty notice for disorder issued*	*Percentage paid*
2006	895	52	2,231	48
2007	1,401	53	3,454	51
2008	1,378	55	3,143	52
2009	1,495	56	3,743	48

Of the above unpaid penalty notices the following percentages were converted into fines at court:

	Converted into fines (percentage)
2006	88
2007	86
2008	81
2009	82

Bus Services: Concessions

Mr. Kemp: To ask the Minister of State, Department for Transport how many concessionary bus passes were issued to residents of Houghton and Washington East constituency in each of the last two years. [317159]

Mr. Khan: The Department for Transport is not responsible for issuing passes and so does not maintain records of how many passes individual authorities have issued.

Concessionary travel in Houghton and Washington East is administered by Nexus, Tyne and Wear's Passenger Transport Executive. Nexus is best placed to provide information regarding passes issued to residents of Houghton and Washington East.

The last information held by the Department was that as of 12 January this year, Nexus had issued approximately 295,028 smartcard concessionary passes since the introduction of the England-wide concession in April 2008. This includes passes issued to disabled people as well as those aged 60 and over. The Department holds no data about passes issued prior to this date.

Robert Neill: To ask the Minister of State, Department for Transport with reference to the answer to the hon. Member for Peterborough (Mr. Jackson) of 14 July 2009, *Official Report*, column 205W, on bus services: concessions, when he expects to place in the Library a copy of the written representations. [317604]

Mr. Khan: Where consent has been received from the relevant hon. Member or local authority, copies of the written representations that the Department has received between July 2008 and April 2009, regarding concessionary travel funding, were placed in the Library on 11 February 2010.

Departmental Accountancy

Mr. Hurd: To ask the Minister of State, Department for Transport whether any written instructions have been provided to his Department's Accounting Officer in accordance with paragraph 5.5 of the Ministerial Code since May 2002. [315565]

Chris Mole: Each Accounting Officer receives a copy of chapter 3 of Managing Public Money (the Accounting Officer Memorandum), which includes instructions on Ministerial Directions.

Departmental Communication

Mr. Hurd: To ask the Minister of State, Department for Transport pursuant to the answer of Lord Bates of 3 December 2009, *Official Report, House of Lords*, column WA68, on Government Departments: Annual Reports, and with reference to the Government Response to the House of Lords Communications Committee's report into Government Communications, whether his Department publishes an annual report on departmental communications. [315603]

Chris Mole: The Department for Transport does not publish an annual report on departmental communications. Communication activities and details of sponsorship support, and the objectives they contribute to, are reported in the Department's Annual Report and Accounts.

Departmental Finance

Mrs. Villiers: To ask the Minister of State, Department for Transport how much funding his Department has allocated to each *(a)* scheme and *(b)* area for local network management schemes for 2009-10. [316850]

Chris Mole: The Highways Agency allocated £105 million of funding to local network management schemes in 2009-10. Approximately 1,500 projects make up this total and it is not practicable to detail these.

The Highways Agency operates the Strategic Road network on a National basis and prioritises its programme as such. The local network management scheme budget in the 2009-10 Business Plan was allocated by area as follows:

	£ million
East	13
East Midlands	9
North West	18
South East	27
South West	8
West Midlands	14
Yorkshire and North [illegible]	16

Mrs. Villiers: To ask the Minister of State, Department for Transport how much of his Department's £700 million fiscal stimulus funding had been spent on roads projects on the latest date for which figures are available; and how much of that funding he plans to spend on funding each roads project. [316851]

Chris Mole: The Department for Transport is to spend £400 million of the £700 million fiscal stimulus funding on projects on the strategic road network. The year-to-date and estimated full year forecast of fiscal stimulus expenditure, split by region, is as follows:

£ million

Region	*Year to date (December 2009)*	*Full year forecast*
North West	36	58
Yorkshire and North East	61	87
West Midlands	33	61
East Midlands	51	78
East	32	55
South West	24	30
South East	29	31
Total	268	400

There are in excess of 100 schemes being delivered as part of the fiscal stimulus programme and it is not practicable for all schemes to be detailed. In the following table are examples of these schemes with estimated full year forecast expenditure (these are included in the £400 million shown in the above).

Description	*Full year forecast (£ million)*
A46 Newark to Widmerpool dualling	70
M6 J5-15 hard shoulder strengthening	51
M62 J25-30 concrete barrier and lighting renewal	36
M1 J32-35a concrete barrier and lighting renewal	20
M1 J10-13 hard shoulder strengthening	16
M11 J9-8 pavement renewals	11
Avonmouth Bridge Northbound resurfacing	6
A27 Lighting and major maintenance	6
A3 Esher bypass major maintenance	5
M4 J15 replacement of central reserve barrier	5
M18 Jctn 6-7 concrete barrier renewal	4
A5 Milton Keynes renewals	4
M1 J28-30 lane 1 and hard shoulder renewals	4
M6 J33-34 resurfacing/safety barrier replacement	4
A38—A50 installation variable message signs	3
M42 J5 through junction running	3
M5 Poundisford resurfacing	3
A55 River Dee carriageway resurfacing	2

Mrs. Villiers: To ask the Minister of State, Department for Transport (1) how much funding has been allocated to each *(a)* scheme and *(b)* region under the second round of the regional funding allocation; [316853]

(2) how much of his Department's Regional Funding Advice 2 budget has been allocated to *(a)* Highways Agency schemes of regional significance valued at over £5 million and *(b)* each local transport major scheme in each region in each of the next three years. [316871]

Mr. Khan: The Government published guidance for the regions and additional transport supplementary guidance in July 2008. This provided information on regional funding allocations by year from 2008-09 to 2018-19 and by region. I am placing a copy of this guidance in the Libraries of the House.

In addition, I have also recently placed in the House Libraries advice received from each region, excluding London, in July 2009 which highlights suggested funding allocations to 2018-19 for each *(a)* Highways Agency scheme of regional significance and *(b)* local transport major scheme, costing over £5 million. These allocations are indicative only. The actual amount spent on each scheme in any given year will depend upon the terms of the final funding approval from the Department, the start date, and progress of construction. Copies of our response to the advice dated July 2009 have also been placed in the House Libraries.

Departmental Manpower

Mr. Philip Hammond: To ask the Minister of State, Department for Transport what estimate he has made of the proportion of staff of *(a)* his Department and *(b)* its agencies managed out in the last five years who remain working in the public sector. [313848]

Chris Mole: The information requested can be provided only at disproportionate cost.

Departmental Recruitment

Mr. Hurd: To ask the Minister of State, Department for Transport how much his Department and its agencies spent on external recruitment consultants in the last year for which figures are available. [315483]

Chris Mole: The Department for Transport and its Executive agencies spent the following amounts on recruitment consultants in financial year 2008-09:

	£
Department for Transport (central)	1,164,056
Highways Agency	430,953
Driving Standards Agency	279,591
Government Car and Despatch Agency	86,052
Maritime and Coastguard Agency	0
Vehicle Certification Agency	0

The Driver and Vehicle Licensing Agency (DVLA) is unable to provide details of spend on external recruitment consultants without incurring disproportionate cost. However DVLA's expenditure on recruitment for financial year 2008-09, as published in the annual report and accounts, was £876,000.

The Vehicle and Operator Services Agency is unable to provide details of spend on external recruitment consultants without incurring disproportionate cost.

Mr. Hurd: To ask the Minister of State, Department for Transport how many job vacancies in his Department and its agencies were filled through external recruitment in the last year for which figures are available. [315484]

Chris Mole: The Department for Transport filled 1,390 job vacancies through external recruitment in the calendar year 2009.

Driving Instruction

Angus Robertson: To ask the Minister of State, Department for Transport how many driving instructors qualified in each of the last three years. [318035][1]

Paul Clark: The number of newly qualified approved driving instructors entering the Register of Approved Driving Instructors, in each of the last three years, is shown in the following table.

	Number qualified
2007	4,485
2008	4,749
2009	4,485

Angus Robertson: To ask the Minister of State, Department for Transport what the average age of driving instructors is. [318036][2]

Paul Clark: The average age of the 48,885 Approved Driving Instructors currently registered is 47 years and six months.

Driving Tests: Orkney and Shetland

Mr. Carmichael: To ask the Minister of State, Department for Transport what the average waiting time was between applying for and taking a driving test in *(a)* Orkney and *(b)* Shetland (i) in each of the last five years and (ii) in the most recent period for which information is available. [317188]

Paul Clark: The following table shows the average number of weeks between a candidate applying for different sorts of practical driving test and the test date at the Orkney and Shetland test centres in each of the last five years and for the period from 1 April 2009 to 9 February 2010

	2004-05	*2005-06*	*2006-07*	*2007-08*	*2008-09*	*2009-10 YTD*
Orkney						
Car	10.2	8.9	9.4	11.9	11.3	8.3
Motorcycle (old test)	7.7	8.0	8.5	8.6	8.3	—
Motorcycle (off road)	—	—	—	—	—	4.5
Motorcycle (on road)	—	—	—	—	—	6.2
Lorry or bus	7.1	6.8	6.9	6.4	8.6	7.6
Shetland						
Car	8.7	7.1	8.7	11.1	7.4	5.9
Motorcycle (old test)	7.2	6.6	4.3	5.9	6.2	—
Motorcycle (on road)	—	—	—	—	—	2.7
Lorry or bus	5.9	9.8	10.4	8.8	8.8	4.5

---

1. *[Official Report, 23 March 2010, Vol. 508, c. 1MC.]*
2. *[Official Report, 23 March 2010, Vol. 508, c. 2MC.]*

East Coast Railway Line

Mrs. Villiers: To ask the Minister of State, Department for Transport what the reliability figures for the East Coast Line were in each of the last four months. [316883]

Chris Mole: The percentage of trains arriving on time or within ten minutes of schedule is recorded as the 'Public Performance Measure' (PPM). The information requested is outlined in the following table:

Railway period start	*PPM (actual) (percentage)*	*PPM (MAA) (percentage)*	*Previous year PPM MAA (percentage)*	*Change in MAA since 2008*
23 August 2009	87.9	88.6	85.2	Improvement
20 September 2009	91.5	88.6	85.5	Improvement
18 October 2009	87.9	89.0	85.4	Improvement
15 November 2009	85.2	88.9	85.5	Improvement
13 December 2009	67.4	87.5	85.7	Improvement

Due to the severe weather the monthly PPM figure for the period starting December 2009 is considerably lower than for the period starting in November 2009.

Because of seasonal variations in performance, a more useful indicator of long-term trends is the Moving Annual Average—which is simply the average over the last 12 months.

Mrs. Villiers: To ask the Minister of State, Department for Transport whether his Department was involved in discussions on new uniforms for staff on trains operated by the East Coast rail company. [316884]

Chris Mole: The Department for Transport was not involved in this decision. Management decisions such as this are made by East Coast.

Mrs. Villiers: To ask the Minister of State, Department for Transport how much is planned to be spent on new livery for trains operated by the East Coast rail company. [316885]

Chris Mole: This is an operational matter for East Coast.

The hon. Member should contact the chair of East Coast at the following address for a more detailed response to her question:

Elaine Holt
Chair
East Coast
East Side Offices
King's Cross Station
London N1C 4AP

Feltham

Alan Keen: To ask the Minister of State, Department for Transport if he will set out, with statistical evidence relating as closely as possible to Feltham and Heston constituency, the effects on that constituency of changes to his Department's policies since 1997. [317105]

Mr. Khan: The Department for Transport (DFT) does not routinely hold transport statistics on a parliamentary constituency basis. The Department provides Transport for London with a block grant to fund transport delivery in London. This grant has more than doubled in the last nine years, rising to almost £3 billion in 2010-11. Drawing on these and other resources, the Mayor is responsible for publishing, and through TfL, implementing a Transport Strategy for London, while the boroughs are required to publish Local Implementation Plans which set out how they will contribute to the Mayor's strategy.

The additional funding that has been made available has helped deliver 1,089 million passenger journeys on the Tube in 2008-09, the highest ever. London Underground's scheduled service is now its largest ever, and in 2008-09 96.4 per cent. was run, the best annual result for 14 years.

Bus services in London have also improved. Some 2,247 million passenger journeys were made in 2008-09 and patronage grew by almost 47 per cent. between 1997-98 and 2007-08.

Concessionary travel continues to benefit elderly and disabled Londoners, and more than a million people currently hold a Freedom Pass.

On the South West Trains franchise, reliability has improved. In December 2009, 87 per cent. of trains arrived on time or within five minutes of the scheduled time, up from 75 per cent. in December 2004.

On the roads, national targets to reduce the number of people killed or seriously injured by 40 per cent. and reduce the number of "slight" casualties by 10 per cent. (compared to the period 1994 to 1998) by 2010 were largely exceeded by TfL by 2004, leading to TfL setting themselves new targets of 50 per cent. and 25 per cent. respectively.

Various improvements in relation to cycling have also been realised across London. TfL report that cycling now accounts for 2 per cent. of trips in London compared to 1.2 per cent. in 2000, and between 2000-01 and 2007-08, TfL's automatic cycle counters reported an increase in cyclists of 91 per cent.

Gospel Oak-Barking Railway Line

Jeremy Corbyn: To ask the Minister of State, Department for Transport what recent discussions he has had with the Mayor of London on the electrification of the Barking to Gospel Oak line; and if he will make a statement. [317848]

Chris Mole: None. I understand that Transport for London consider that further development work would be required for them to assess this project, but they are not currently funding this.

Government Car and Despatch Agency

Grant Shapps: To ask the Minister of State, Department for Transport what assessment the Government Car and Despatch Agency has made of its environmental impact in each of the last five years. [316235]

Paul Clark: The Government Car and Despatch Agency (GCDA) holds ISO 14001 accreditation—an internationally recognised environmental management system standard. GCDA gained (and has since maintained every year) this accreditation in 1999. Consequently GCDA's environmental performance is audited regularly. GCDA was awarded the Carbon Trust Standard in 2009.

GCDA's environmental performance is also measured against the Agency's Sustainable Development Action Plan agreed with Ministers at the Department for Transport under the framework of Sustainable Operations in the Government Estate (SOGE).

For example, in relation to its cars and drivers GCDA has adopted a number of different strategies to minimise its environmental impact, including:

Vehicle allocation

Mileage reduction

Driver training

Policies and practices to address grey fleet (private vehicles used for business journeys)

Measures to improve health and safety and duty of care

Fleet carbon footprinting

GCDA's efforts to reduce its tailpipe emissions while growing the business have been particularly successful. The use of alternatively powered vehicles has meant that tailpipe emissions were cut from 232.03 g CO_2/km in 2005 to 133.01 g CO_2/km in August 2009—a reduction of 43 per cent., significantly beating the Government target three years early. We are close to meeting the Government's target of 130 g CO_2/km by 2012 also three years early.

Grant Shapps: To ask the Minister of State, Department for Transport how much the Government Car and Despatch Agency spent on *(a)* media monitoring, *(b)* advertising and *(c)* public relations in each of the last five years. [316247]

Paul Clark: The Government Car and Despatch Agency does not undertake media monitoring.

The following table shows expenditure for the last five years on marketing. This incorporates elements of advertising and PR but it is not possible to disaggregate the component parts as they are purchased as marketing packages. To attempt to do so would incur a disproportionate cost.

Marketing/publicity advertising expenditure

	Spend (£)
2005-06	5,000
2006-07	450
2007-08	0
2008-09	2,750
2009-10	0

Grant Shapps: To ask the Minister of State, Department for Transport how many journeys between Government buildings were taken by *(a)* Ministers and *(b)* officials using the Government Car and Despatch Agency in each of the last three years. [316248]

Paul Clark: This information is not recorded at the level of detail requested. To obtain such information would incur a disproportionate cost.

Grant Shapps: To ask the Minister of State, Department for Transport which Departments used the services of the Government Car and Despatch Agency in 2008-09; and which Departments have used that service in 2009-10. [316254]

Paul Clark: All Departments used the services of the Government Car and Despatch Agency in 2008-09 and in 2009-10.

Grant Shapps: To ask the Minister of State, Department for Transport how much the Government Car and Despatch Agency spent on vehicle insurance in each of the last five years. [316255]

Paul Clark: The Government Car and Despatch Agency spent the following on vehicle insurance in each of the last five years.

	£
2008-09	110,909.00
2007-08	153,853.00
2006-07	162,804.00
2005-06	168,110.00
2004-05	172,184.00

Grant Shapps: To ask the Minister of State, Department for Transport how many Government Car and Despatch Agency vehicles were involved in road traffic accidents in each of the last five years. [316256]

Paul Clark: The number of Government Car and Despatch Agency (GCDA) vehicles involved in road traffic incidents in each of the last five years is as follows:

	Number
2005-06	155
2006-07	183
2007-08	143
2008-09	167
2009-to date	133

GCDA also operates an accident panel at which all incidents, no matter how minor, are investigated. Where agency drivers are found to be culpable, the panel's procedures permit referral for further training or other investigation or financial penalties.

Grant Shapps: To ask the Minister of State, Department for Transport how many cars in the Government Car and Despatch Agency fleet are equipped with vehicle tracking equipment. [316257]

Paul Clark: None of the allocated cars in the Government Car and Despatch Agency fleet are equipped with vehicle tracking equipment. Green car drivers who operate the agency's environmental taxi-style service are issued with equipment which enables the dispatching team to identify the location of the driver to maximise efficiency.

Grant Shapps: To ask the Minister of State, Department for Transport whether the Government Car and Despatch Agency has conducted a user satisfaction survey in the last three years. [316258]

Paul Clark: The Government Car and Despatch Agency has conducted a customer satisfaction survey for 2006-07, 2007-08 and for 2008-09. The customer satisfaction survey for 2009-10 will be completed at year end. The results of these surveys are available in the agency's annual report, copies of which have been placed in the Libraries of the House.

Grant Shapps: To ask the Minister of State, Department for Transport how much was spent by the Government Car and Despatch Agency on consultancy in each of the last five years; which companies were employed for such services in each such year; and how much was paid to each company for those services in each such year. [316259]

Paul Clark: The Government Car and Despatch Agency (GCDA) employed the services and spent the following with consultancy companies over the last five years:

	Expenditure (£)
2008-09	142,272.00
2007-08	100,272.00
2008-07	124,055.00
2005-06	89,356.00
2004-05	83,094.00

To identify the individual suppliers of consultancy services would incur a disproportionate cost.

GCDA uses consultants when specialist skills, knowledge or services are needed. Consultants on short-term contracts may represent better value for money than recruiting and retaining permanent staff for specialist, short-term roles.

Grant Shapps: To ask the Minister of State, Department for Transport how many *(a)* agency and *(b)* temporary workers were employed by the Government Car and Despatch Agency in each of the last five years; and how much was spent in respect of such employees in each such year. [316260]

Paul Clark: The expenditure on agency and temporary workers employed by the Government Car and Despatch Agency in each of the last five years is as follows:

	Cost (£)
2009	313,304.00
2008	174,666.00
2007	268,603.00
2006	217,942.00
2005	73,245.00

GCDA appoints temporary staff from (recruitment) agencies to meet the peak demands of the business' needs and to buy-in expertise on a short-term basis to meet operational needs.

Retrieving the number of staff within each category could be obtained only at a disproportionate cost.

Grant Shapps: To ask the Minister of State, Department for Transport how many complaints were received by the Government Car and Despatch Agency in each of the last five years; and how many such complaints related to the use of relief drivers. [316261]

Paul Clark: The Government Car and Despatch Agency monitors formal complaints through its ISO 9001 procedures. In the past two years there have been seven recorded formal complaints, five of which refer specifically to the provision of relief drivers. Records are not retained beyond two years.

The Customer Satisfaction Survey conducted each year invites customers to identify areas for service improvement. The provision of relief drivers is one of those areas identified.

Grant Shapps: To ask the Minister of State, Department for Transport what the income was of the Government Car and Despatch Agency from the *(a)* private and *(b)* public sector in each of the last five years; and how much of that income from each sector was received in respect of the Government Car Service in each such year. [316262]

Paul Clark: The Government Car and Despatch Agency (GCDA) is a full cost recovery organisation: all costs incurred as a result of our operation are fully recoverable through charges to our customers.

The income of GCDA in each of the last five years, including the value of that income received in respect of the Government Car Service was as follows (as per annual accounts):

				Income £000
	Total	*Public sector (Government car service)*	*Other (public sector)*	*Other (private sector)*
2008-09	21,260	14,906	6,073	281
2007-08	19,508	13,762	5,485	261
2006-07	18,861	12,673	6,183	5
2005-06	17,612	11,700	5,816	96
2004-05	16,743	11,301	5,329	113

Revenue is derived primarily from Government and the wider public sector within the UK working in accordance with the Agency's Framework Document.

Grant Shapps: To ask the Minister of State, Department for Transport how many miles were travelled by Government Car Service vehicles in each of the last five years. [316263]

Paul Clark: The information requested is in the following table.

	Miles travelled by Government car service vehicles
2008-09	2,631,000
2007-08	2,397,000
2006-07	2,189,000
2005-06	2,834,000
2004-05	2,394,200

Grant Shapps: To ask the Minister of State, Department for Transport what the average mileage was of a Government Car and Despatch Agency *(a)* car and *(b)* van on the latest date for which figures are available. [316264]

Paul Clark: The most up-to-date figure for the average mileage of a Government Car and Despatch Agency car is 30,652 and for a van is 79,826.

Grant Shapps: To ask the Minister of State, Department for Transport what the total expenditure was of the Government Car and Despatch Agency in each of the last five years; and how much of that expenditure related to the Government Car Service in each such year. [316265]

Paul Clark: The expenditure of the Government Car and Despatch Agency (GCDA) including that expenditure related to the Government Car Service in each of the last five years is as follows (as per annual accounts):

	Expenditure £000	
	Total	Government Car Service
2008-09	21,259	14,847
2007-08	20,106	14,014
2006-07	18,851	12,531
2005-06	17,602	11,578
2004-05	16,360	10,856

GCDA is a full cost recovery organisation: all costs incurred as a result of our operation are fully recoverable through charges to our customers.

Grant Shapps: To ask the Minister of State, Department for Transport how many online payments were received by the Government Car and Despatch Agency in each of the last three years. [316266]

Paul Clark: The Government Car and Despatch Agency implemented new payment procedures in October 2008. Some 801 payments were made in the financial year 2008-09 using the Government Procurement Card, and 1,517 some such payments have been made from April 2009 to end January 2010.

Grant Shapps: To ask the Minister of State, Department for Transport how many *(a)* cars and *(b)* other vehicles have been (i) owned and (ii) leased by the Government Car and Despatch Agency in each year since 1997. [316267]

Paul Clark: The information requested is in the following table:

	Cars (owned)	Other vehicles (owned)	Leased vehicles (cars)	Leased vehicles (other)
2002-03	193	57	0	4
2004	197	53	0	4
2005	197	55	0	4
2006	189	42	0	4
2007	212	48	0	5
2008	207	48	2	5
2009-10	215	41	26	7

Grant Shapps: To ask the Minister of State, Department for Transport how many cars the Government Car and Despatch Agency has *(a)* purchased and *(b)* sold in each of the last five years. [316268]

Paul Clark: I refer the hon. Member to the answer given on 24 March 2009, *Official Report*, column 205W. Added to which the following information for 2008-09 and 2009 to date:

	Purchased	Sold
2009-10 (to date)	10	29
2008-09	48	33

Grant Shapps: To ask the Minister of State, Department for Transport how many staff at the Government Car and Despatch Agency received bonuses in each of the last three years. [316269]

Paul Clark: An element of the Government Car and Despatch Agency's overall pay award is allocated to non-consolidated variable pay related to performance. These payments are used to drive high performance and form part of the pay award for members of staff who demonstrate exceptional performance, for example by exceeding targets set or meeting challenging objectives.

Non-consolidated variable pay awards are funded from within existing pay bill controls, and have to be re-earned each year against pre-determined targets and, as such, do not add to future pay bill costs. The percentage of the pay bill set aside for performance-related awards for the SCS is based on recommendations from the independent Senior Salaries Review Body.

The following table details how many people were eligible for and received a non-consolidated variable pay award, awarded under the Government Car and Despatch Agency's standard pay and performance management process for the last three performance years.

	GCDA headcount	Number of staff who received a non-consolidated performance payment	Number of staff who did not receive a non-consolidated performance payment
2008-09	315	298	17
2007-08	292	215	77
2006-07	307	239	68

Grant Shapps: To ask the Minister of State, Department for Transport how much was spent on staff costs by the Government Car and Despatch Agency in each of the last five years. [316270]

Paul Clark: The Government Car and Despatch spent the following on staff costs in each of the last five years:

	Spend (£000)
2008-09	12,742
2007-08	11,905
2006-07	11,728
2005-06	10,766
2004-05	9,841

Staff costs include employer's contribution to national insurance and pensions.

Grant Shapps: To ask the Minister of State, Department for Transport what proportion of drivers for the Government Car and Despatch Agency reported for work on *(a)* 7 and *(b)* 8 January 2010. [316271]

Paul Clark: The 7 and 8 January were days of heavy snowfall in the south-east. From a total of 234; 197 drivers reported for work on 7 January 2010 and 205 drivers reported for work on 8 January 2010 for the Government Car and Despatch Agency.

Relief drivers were used where regular drivers were unavailable.

Grant Shapps: To ask the Minister of State, Department for Transport what assessment has been made of effects of the implementation of the European Working Time Directive on the Government Car and Despatch Agency; and what estimate has been made of the cost to that Agency of such implementation. [316272]

Paul Clark: Changes to the Government Car Service which came into effect on 12 October 2009, will reduce the cost to the taxpayer. Under the new system, drivers work a single daily shift. Ministers continue to have one dedicated driver (apart from those in the high security category), but any out-of-hours ministerial driving is met, on demand, by the Government Car and Despatch Agency's low carbon taxi service. This is a better deal for tax payers than the previous arrangements.

The cost of implementation is estimated as £500,000 for changes to the driver remuneration package.

£89,278.30 was the cost for consultancy assistance within the implementation project. All other costs have been absorbed by the Government Car and Despatch Agency.

Grant Shapps: To ask the Minister of State, Department for Transport how many staff were employed by the Government Car and Despatch Agency to work in the Government Car Service in each of the last five years; and what the total cost was of the salaries of those staff. [316273]

Paul Clark: The information requested is in the following table.

	Total salary cost (£000)	*Employees*
2008-09	8,576	182
2007-08	7,865	158
2006-07	7,329	178
2005-06	6,551	164
2004-05	5,732	163

Note:
As per published annual report and accounts.

Grant Shapps: To ask the Minister of State, Department for Transport whether Ministers are entitled to express a preference for particular drivers to be assigned to them by the Government Car and Despatch Agency. [316349]

Paul Clark: Cars and drivers are allocated to Departments depending on the level of the job required. Drivers are trained to the appropriate level for the role they are expected to undertake. Departments and Ministers provide feedback to the Government Car and Despatch Agency on the service provided and if they have any concerns the Agency will address those concerns, including, if appropriate changing the driver.

Grant Shapps: To ask the Minister of State, Department for Transport how many mechanics the Government Car and Despatch Agency employed in each of the last three years. [316484]

Paul Clark: The Government Car and Despatch Agency employed the following number of mechanics in each of the last three years.

	Number of mechanics	*Number of apprentice mechanics*
2007-08	6	1
2008-09	5	1
2009 to date	4	1

Grant Shapps: To ask the Minister of State, Department for Transport what the country of manufacture of each of the *(a)* cars and *(b)* vans in the Government Car and Despatch Agency fleet was in each of the last five years. [316485]

Paul Clark: The country of manufacture of each of the *(a)* cars and *(b)* vans in the Government Car and Despatch Agency fleet, in each of the last five years is as follows:

2009

Country of manufacture	*Cars*	*Vans*
UK	36	22
Belgium	14	0
Germany	12	0
Japan	135	0
Poland	1	1
Portugal	3	0

Grant Shapps: To ask the Minister of State, Department for Transport how much the Government Car and Despatch Agency spent on *(a)* London congestion charge (i) payments and (ii) fines and *(b)* fines for (i) speeding and (ii) parking in each year since 2008. [316500]

Paul Clark: The Government Car and Despatch Agency (GCDA) has paid the following fines and London congestion charges:

£

	Congestion charges	*Congestion charge fines*	*Total parking fines*
2008-09	124,640.00	0	2,530.00

The Agency has paid no speeding fines.

Parking restrictions within central London may make it impossible sometimes to deliver secure or sensitive documents to buildings or allow people with a high public profile to attend or leave buildings without putting themselves or secure documents at risk. In these cases GCDA will pay the fine and recharge these costs to the customer as appropriate.

Highways Agency: Finance

Mrs. Villiers: To ask the Minister of State, Department for Transport how much the Highways Agency spent on each of its ongoing major maintenance projects in the latest period for which figures are available; and how much it plans to spend on each such project in each of the next three years. [316848]

Chris Mole: The financial year of 2008-09 is the most recent period for which expenditure on major maintenance is available.

In that year the Highways Agency delivered some 2,000 projects within this programme which includes reconstruction, overlay, resurfacing of road pavement and maintenance of roadside assets. It also includes inspections, parapet and structural repair as well as technology and asset renewal.

Therefore, it is not practicable to release costs of each project. In 2008-09 spend on these projects totalled £589 million. In 2009-10 we estimated in our Business Plan planned spend of £800 million on major maintenance projects.

The 2010-11 plans are being finalised and spending in the following years is subject to the outcome of any future Spending Review.

Mrs. Villiers: To ask the Minister of State, Department for Transport how much the Highways Agency spent on each of its ongoing routine maintenance projects in the latest period for which figures are available; and how much it plans to spend on each such project in each of the next three years. [316849]

Chris Mole: The financial year of 2008-09 is the most recent period for which expenditure on routine maintenance is available.

It is not practicable to release costs of individual routine maintenance works as this comprises many hundreds of projects and much of this activity is paid for through lump sum-based contracts.

Routine maintenance includes vital elements of the Highways Agency's maintenance regime to ensure it meets its statutory obligations. It includes activities such as gully emptying, accident damage repairs, cleaning signs, defect repairs, winter and technology maintenance.

In 2008-09 spend on routine maintenance totalled £325 million. In 2009-10 we estimated in our Business Plan planned spend of £300 million on routine maintenance.

The 2010-11 plans are being finalised and the following years are subject to the outcome of any future Spending Review.

Mrs. Villiers: To ask the Minister of State, Department for Transport how much funding the Highways Agency has allocated for *(a)* routine and *(b)* major maintenance in each region in each of the next three years. [316854]

Chris Mole: Allocations for 2010-11 are currently being finalised and the future years are subject to the outcome of any future spending review.

Mrs. Villiers: To ask the Minister of State, Department for Transport with reference to the answer to the hon. Member for Lewes (Norman Baker) of 24 November 2008, *Official Report*, columns 2098-99W, what total control budget has been allocated for Highways Agency major schemes in *(a)* development and *(b)* options stages in 2009-10. [316899]

Chris Mole: The Highways Agency Major Schemes in Development and Options Phases that had budgets set for the current financial year, 2009-10, are shown in the following lists. The total control budget for 2009-10 set for schemes in Development was £82.5 million and for schemes in Options was £29.7 million.

Schemes in Development

A1 Leeming to Barton
A11 Fiveways to Thetford
A14 Ellington to Fen Ditton
A14 Kettering
A21 Kippings Cross to Lamberhurst
A21 Tonbridge Bypass to Lamberhurst
A23 Handcross to Warninglid
A45 A46 Tollbar End Improvement
A46 Newark to Widmerpool Improvement
A556 Improvement (M6 J19-M56 J7)
A57/A628 Mottram to Tintwhistle Bypass
A5-M1 Link Dunstable Bypass
Birmingham Box Phase 3 M6 J5-8 Hard Shoulder Running
M1 J10-13 Hard Shoulder Running
M1 J10-13 Junctions
M1 J19 Improvement
M1 J32-35a Hard Shoulder Running
M20 Junction 10a
M25 J1b-J3 Controlled Motorway
M4 J19-20 and M5 J15-17
M60 J15-J12 Lane Gain
M60 J15-12 Lane Gain
M60 J8-12 Hard Shoulder Running
M62 J18-20 Hard Shoulder Running
M62 J25-30 Hard Shoulder Running
£82.5 million

Note:

A46 Newark to Widmerpool Imp moved into the Construction Phase in June 2009.

Schemes in Options

A14 Kettering Bypass
A1 Western Bypass
A1/A19/A1068 Seaton Burn
A160/A180 Imp Immingham
A19/A1058 Coast Road
A19/A189 Moor Farm
A19/A184 Testos Grade Separated Junction
A21 Baldslow Link
A38 Derby Junctions
A5036 Port of Liverpool Access
A63 Castle Street Improvement
Chichester and A27 Transport
M1 J10-13 Hard Shoulder Running
M1 J28-31
M1 J32-35a Hard Shoulder Running
M25 J23-27 Sect 5 Hard Shoulder Running
M25 J30/A13 Corridor
M25 J5-6/7 Sect 2 Hard Shoulder Running
M3 J2-4a Hard Shoulder Running
M4 J3-12 Hard Shoulder Running
M54 to M6 Toll Private Equity Partnership
M6 J10a-13
M6 J13-15 (including J15)
M6 J15-19 (including J19)
M6 J21a-26
M60 J12-18 Impt (Junction 28 to 12 Improvements)
M60 J8-12 Hard Shoulder Running
M62 J18-20 Hard Shoulder Running
£29.7 million

Throughout the course of the year some new schemes have been introduced into the Options Phase and others have moved between phases.

A number of schemes annotated as forming part of the Managed Motorway Feasibility Study within 2008-09 are now going forward as Hard Shoulder Running schemes.

Hotels

Mr. Hurd: To ask the Minister of State, Department for Transport how many separate bookings at five star or above hotels were made through the Expotel contract by his Department in the last year for which figures are available; and at what cost. [315489]

Chris Mole: The following table lists the number of trips booked, hotel night stays and total cost for Department for Transport booked through Expotel in the period 1 April 2009 to 31 January 2010.

Department for Transport	*Number/£*
Number of trips	65
Number of nights stayed	105
Total cost (£)	10,990.45

London Bridge Station

Simon Hughes: To ask the Minister of State, Department for Transport what consideration his Department has given to the merits of redeveloping London Bridge station so as to allow South London Line services to continue to operate from that station. [317019]

Chris Mole: It has always been recognised that it would not be possible to reconstruct London Bridge station within its current footprint without removing some of the terminating platforms, and thus reducing the number of trains that could use this part of the station.

If additional services from the South London Line were to be routed into the London Bridge station this would require a further expansion of the station which would be cost-prohibitive potentially require additional land and would require further planning consents.

Lorries

Ian Stewart: To ask the Minister of State, Department for Transport what information his Department *(a)* holds and *(b)* has access to on (i) the number of heavy trucks and lorry drivers (A) employed and (B) self-employed in each EU and EFTA member state, (ii) the average hours worked by each category of driver in each such state in the latest period for which figures are available and (iii) the average (1) hourly and (2) weekly earnings of heavy truck and lorry drivers in each such state in the latest period for which figures are available. [316167]

Paul Clark: The Department for Transport does not collect or hold the requested information.

M4: Cameras

Mr. Swire: To ask the Minister of State, Department for Transport how many dedicated cameras there are for surveillance of the bus and taxi lane on the M4. [317193]

Chris Mole: There are no dedicated cameras for surveillance of the M4 bus and taxi lane. However, there are six CCTV cameras between junctions 3 and 2 of the M4, which can be used to monitor the carriageway.

Motorways: Accidents

Mrs. Villiers: To ask the Minister of State, Department for Transport what recent research his Department and its agencies have undertaken on the number of traffic officers required to attend incidents on motorways. [309454]

Chris Mole: The number of officers and vehicles required to attend an incident varies greatly dependent on the nature, severity and location of the incident.

Neither the Department for Transport nor the Highways Agency has undertaken any recent research on the number of traffic officers required to attend incidents on the motorways.

A controlled trial is currently under way to fully explore the possibilities of variable crewing of patrol vehicles.

Motorways: Ragwort

Mr. Soames: To ask the Minister of State, Department for Transport which Minister has responsibility for control of ragwort on the motorway system. [317320]

Chris Mole: As Minister for the Strategic Road Network, I have responsibility for the control of ragwort on motorways in England.

Motorways: Repairs and Maintenance

Mrs. Villiers: To ask the Minister of State, Department for Transport (1) how much his Department *(a)* has spent and *(b)* plans to spend on the (i) M25 junction 30 improvements in Essex, (ii) M1 junctions 39 to 42 project and (iii) M4 junctions 3 to 12 project; and what the total projected cost of each is; [316894]

(2) how much his Department *(a)* has spent and *(b)* plans to spend on the (i) M1 junctions 21 to 30 improvements project, (ii) M25 junctions 27 to 30 widening project, (iii) M25 junction 1b to 3 project, (iv) M1 junction 25 to 28 project and (v) A5117/A550 Deeside Park junction project; and what the total projected cost of each is; [316895]

(3) how much his Department *(a)* has spent and *(b)* plans to spend on the (i) A2/A282 Dartford improvement project, (ii) A2 Bean to Cobham: Phase 2 project, (iii) A66 Carkin Moor to Scotch Corner Improvements project, (iv) A66 Greta Bridge to Stephen Bank improvement project and (v) A66 Long Newton junction project; and what the total projected cost of each is. [316896]

Chris Mole: The following table shows how much the Department *(a)* has spent (actual spend to date) and *(b)* plans to spend (forecast future spend) for each project. The table also gives the total projected cost and the current project phase within the project lifecycle (Options-Development-Constructions-Operations).

	Actual spend to date (£ million)	*Forecast future spend (£ million)*	*Total projected cost (£ million)*	*Phase*
M25 J30 Improvements in Essex	2.0	2.3	4.3	Options
M1 J39-42	0.0	1.9	1.9	Options
M4J3-12	1.0	0.4	1.4	Options
M1 J21-30 Improvements[1]	—	—	—	—
M25 J27-30 Widening	48.9	345.3	394.3	Construction
M25 J1b-3	59.2	0.0	59.2	Operational
M1 J25-28 Widening	267.0	52.9	319.9	Construction
A5117/A557 Deeside Park Junctions	60.5	0.0	60.5	Operational
A2/A282 Dartford Improvements	121.4	0.0	121.4	Operational
A2 Bean to Cobham Phase 2	131.1	0.0	131.1	Operational
A66 Carkin Moor to Scotch Corner Improvements	14.0	0.0	14.0	Operational
A66 Greta Bridge to Stephen Bank Improvement	12.8	0.0	12.9	Operational
A66 Long Newton Junctions	12.4	0.0	12.4	Operational

[1] The M1 J21-30 scheme was not included in the January 2009 Roads Announcement. It was a motorway widening scheme in the former Targeted Programme of Improvements, the first phase of which (widening between junctions 25-28) is under construction. Costs for this scheme are included in the table.

For projects in Options, budgets have only been approved to progress the projects to the end of the current phase. Approval will be sought from Ministers to move to the next phase, together with a new phase budget, at the appropriate time. Ministerial approval will be based on priorities, affordability, completion of statutory processes and the scheme continuing to demonstrate value for money. For these schemes the table gives spend to date and forecast spend to the end of the current phase.

Note that all forecasts are updated monthly as part of financial monitoring and control and therefore reflect the current position as at end December 2009.

Newspaper Licensing Agency

Mr. Hurd: To ask the Minister of State, Department for Transport what payments *(a)* his Department and *(b)* each of its agencies made to the Newspaper Licensing Agency in each year since his Department was established. [315591]

Chris Mole: The information requested is set out in the following table:

£000

	2002-03	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*2007-08*	*2008-09*
DFT(c)	4	4	12	12	12	13	15
HA	0	3	0	2	2	2	2
MCA	0	6	2	2	0	4	2
DVLA	4	3	4	3	2	2	2
DSA	1	2	10	10	12	15	16
VOSA	0	0	0	1	1	1	1
VCA	0	0	0	0	0	0	0
GCDA	0	0	0	0	0	0	0
Total DFT	9	18	28	30	29	37	38

Public Holidays

Bob Spink: To ask the Minister of State, Department for Transport what estimate he has made of the cost to his Department of the introduction of an additional public holiday; and if he will make a statement. [315114]

Chris Mole: No assessment has been made of the cost to the Department of an additional public holiday.

Public Transport: Rural Areas

Richard Younger-Ross: To ask the Minister of State, Department for Transport what steps he is taking to encourage greater use of public transport in large rural areas. [316860]

Mr. Khan: The Government pay over £58 million annually in rural bus subsidy grant payments and have just published a "toolkit" for local authorities planning rural transport provision; this is alongside guidance encouraging greater partnership with community transport operators, who provide valuable services in rural areas.

The Government also support a large number of rural rail services funded via the franchising process and by direct grants to Network Rail. They also provide support to community rail partnerships through the Association of Community Rail Partnerships and small scale grants for projects on designated community rail routes.

Railways

Mr. Ellwood: To ask the Minister of State, Department for Transport what guidance his Department has provided to train operating companies on the transport of surf boards on trains. [317515]

Chris Mole: The Department for Transport has not issued any guidance to train operating companies on the carriage of surf boards on trains.

The National Rail Conditions of Carriage sets out the conditions for luggage, articles, animals and cycles. Section II Appendix B includes a table relating to the carriage of specific articles in passenger accommodation, which includes "Canoes, Surfboards and Sailboards": none of these is permitted.

It is for the Association of Train Operating Companies, in consultation with its members and other interested bodies, to consider whether any changes should be proposed to be made to these. Any proposed changes to the National Rail Conditions of Carriage require the approval of the Secretary of State.

Railways: North East

Mr. Kemp: To ask the Minister of State, Department for Transport what his most recent assessment is of the potential for high speed rail services to the North East. [317161]

Chris Mole: The Department for Transport is continuing its assessment of the detailed report from High Speed Two on a detailed route proposal for the first stage of a north-south high-speed line between London and the West Midlands, which was received at the end of last year. The report also contains advice on options for extending high-speed services, and high-speed lines, to destinations further north, including the North East. If the Government decide to pursue proposals for high speed rail, we will publish a White Paper setting out plans by the end of March 2010.

Road Traffic

Norman Baker: To ask the Minister of State, Department for Transport how many miles vehicles, excluding heavy goods vehicles, travelled on *(a)* motorways and *(b)* dual carriageways in (i) England, (ii) Scotland and (iii) Wales in each of the last five years. [317046]

Paul Clark: The estimated miles travelled by vehicles (excluding heavy good vehicles) on motorways and dual carriageways in England, Scotland and Wales from 2004 to 2008 is shown in the following tables.

(a) Traffic on Motorways by country: All vehicles[1] excluding HGVs, 2004-08

Billion vehicle miles

		2004	*2005*	*2006*	*2007*	*2008*
(i)	England	47.3	47.6	48.8	49.3	49.1
(ii)	Scotland	3.3	3.3	3.5	3.6	3.6
(iii)	Wales	1.9	1.8	1.9	2.0	1.9
	Great Britain	52.5	52.8	54.2	54.8	54.7

[1] Includes motorcycles, cars, buses and LGVs.

DfT—National Road Traffic Survey

Roads: Accidents

Pete Wishart: To ask the Minister of State, Department for Transport how many *(a)* serious road injuries and *(b)* fatalities resulted from accidents related to drink driving in each of the last four years. [317250]

Paul Clark: The information requested can be found in table 3a on page 30 in article 3 in the Reported Road Casualties Great Britain: 2008 Annual Report, copies of which have been deposited in the Libraries of the House.

Mr. MacShane: To ask the Minister of State, Department for Transport how many *(a)* fatal and *(b)* other road accidents took place in the Yorkshire and Humber region in each year since 2001. [317511]

Paul Clark: The number of *(a)* fatal and *(b)* other reported personal injury road accidents in the Yorkshire and Humber region in each year since 2001 is shown in the following table.

Reported personal injury road accidents in Yorkshire and the Humber Government Office region by severity: 2001-08

	Accident severity		
	Fatal	*Non-fatal*	*All personal injury accidents*
2001	299	20,029	20,328
2002	294	20,037	20,331
2003	296	19,591	19,887
2004	288	18,488	18,776
2005	276	16,947	17,223
2006	278	16,655	16,933
2007	254	16,190	16,444
2008	203	15,306	15,509

Roads: Finance

Mrs. Villiers: To ask the Minister of State, Department for Transport with reference to the answer to the hon. Member for Crewe and Nantwich of 11 November 2009, *Official Report*, columns 368-70W, which of the non-major projects listed is a *(a)* routine maintenance project, *(b)* major maintenance project, *(c)* local management scheme and *(d)* fiscal stimulus project. [316900]

Chris Mole: The table which was prepared in answer to the question from the hon. Member for Crewe and Nantwich of 11 November and which was placed in the Libraries of the House has been updated to indicate which non-major project schemes are routine maintenance projects, major maintenance projects, local network management schemes and fiscal stimulus projects.

A table containing this information has been placed in the Libraries of the House.

Roads: Repairs and Maintenance

Mrs. Villiers: To ask the Minister of State, Department for Transport which uncompleted schemes included in the Targeted Programme of Improvements are funded through regional funding allocations; and from what other sources such schemes have been funded. [316185]

Mr. Khan: There are currently three Highways Agency schemes under construction which are funded wholly or partly through the regional funding allocation. These are A3 Hindhead Improvement (expected to open in summer 2011), A421 Bedford to M1 J13 (expected to open in winter 2010) and A46 Newark to Widmerpool Improvement (expected to open in spring 2012). The A46 scheme is partly funded through the regional funding allocation and partly through the national roads programme and fiscal stimulus budgets.

There are currently over 30 local major schemes (costing over £5 million) under way that are being funded through the regional funding allocation process. The following table indicates these schemes and highlights where the scheme is also being funded through a contribution from other sources of funding.

Region	*Scheme name*	*Other sources of funding (contributions)*
Yorkshire and Humber	A628 Cudworth and West Green Bypass	Local authority
Yorkshire and Humber	Bridlington Integrated Transport Plan	Local authority
Yorkshire and Humber	Kirklees Strengthening and Maintenance Scheme	Third party funding
West Midlands	Hagley Road Bus Show Case	Local authority and third party funding
West Midlands	Selly Oak New Road	Local authority and third party funding
West Midlands	BIA/NEC Public Transport Scheme	Local authority and third party funding
West Midlands	Rugby Western Relief Road	Local authority and developer contributions
West Midlands	West Midlands Red Routes Package 1	RFA only
South West	Weymouth Relief Road	Local authority
South West	Greater Bristol Bus Network	Local authority and developer contributions
South West	Salisbury Integrated Transport Package (Petersfinger Park and Ride)	Local authority and developer contributions
South East	Sittingbourne Northern Relief Road	Local authority, developer contributions and Homes and Communities Agency
South East	East Kent Access Phase 2	Local authority
South East	M4 Junction 11 and Mereoak Junction Improvement Scheme	Local authority and developer contributions
North West	A34 Alderley Edge and Nether Alderley Bypass	Local authority
North West	Manchester Metrolink Phase 3A	Local authorities
North West	Hall Lane Strategic Gateway	Local authority, European funding and third party funding
North West	Blackpool and Fleetwood Tramway Upgrade	Local authority
Eastern	B1115 Stowmarket Relief Road	Developer contributions and other third party sources
Eastern	Cambridgeshire Guided Busway	Developer contributions, local and regional partnerships and local authority
East Midlands	Connecting Derby Phase 2	European Objective 2, the Single Regeneration Budget, the European Urban Programme, the Townscale Heritage Lottery Initiative and local authority
East Midlands	Markham Employment Growth Zone	Local authority, developer contribution, European funding, third party funding and English Partnerships
East Midlands/Eastern	A1073 Spalding to Eye Improvement Scheme	Local authority
West Midlands	Birmingham New Street Station (Gateway)	BERR, Network Rail, Advantage West Midlands, local authority, ITA/PTE, developer contributions and property income
West Midlands	A461/A4123 Junction Improvement, Burnt Tree	Local authority
West Midlands	West Midlands UTC	RFA only
West Midlands	Wolverhampton Centre Access and Interchange	Local authority, developer contributions and West Midlands regional infrastructure funding
North West	Carlisle Northern Development Route (CNDR)	Private finance
North West	Greater Manchester Urban Traffic Control	RFA only
North West	Greater Manchester Retaining Walls	Local authorities
North East	Metro Ticketing and Gating	Local authority

Mrs. Villiers: To ask the Minister of State, Department for Transport how much of the budget for the Regional Fund Allocation 2 programme has been allocated to each *(a)* Highways Agency scheme of regional significance valued at over £5 million and *(b)* Local Transport major scheme in each region. [316192]

Mr. Khan: Regional Funding Allocation advice was received from regions, excluding London, in February 2009 and the Department responded in July 2009. The advice highlights how each of the regions allocated funding to *(a)* Highways Agency schemes of regional significance and *(b)* local major schemes.

I have placed a copy of the advice received from each region and our response in the Libraries of the House.

Mrs. Villiers: To ask the Minister of State, Department for Transport what allocations were made to each *(a)* region and *(b)* major scheme from the first round of regional funding allocations in 2005-06. [316193]

Mr. Khan: Guidance for preparing regional funding advice was published in July 2005 and within this guidance there is a section that provides indicative allocations to each to 2015-16.

In January 2006, each region, excluding London, submitted advice to the Government on where funding should be allocated to major schemes. The Department for Transport responded to this advice in July 2006.

A copy of the published guidance, advice received from each region and the Department for Transport response has been placed in the Libraries of the House.

Mrs. Villiers: To ask the Minister of State, Department for Transport with reference to the answer to the hon. Member for Crewe and Nantwich of 11 November 2009: *Official Report*, columns 368-70W, on roads: finance, which of the *(a)* major and *(b)* non-major schemes listed are funded from (i) the Regional Funding Allocation 2 programme and (ii) other sources. [316520]

Chris Mole: The table which was prepared in answer to the question from the hon. Member for Crewe and Nantwich (Mr. Timpson) of 11 November and which was placed in the Libraries of the House has been updated to indicate those schemes funded from the Regional Funding Allocation 2 programme or from other sources.

Many of the major schemes indicated as being funded from Regional Funding Allocation 2 have been allocated funds to progress through the Options or Development phases but have not been allocated full funding for construction. Funding decisions will be made at various points as the schemes progress through the project lifecycle which will take account of affordability, regional priorities and value for money.

The updated table has been placed in the Libraries of the House.

Mrs. Villiers: To ask the Minister of State, Department for Transport how much he plans to spend under each budget heading from the budget for the National Roads Programme in each year between 2008 and 2014. [316857]

Chris Mole: The following table gives the forecast expenditure against each budget heading (options/development/construction) for schemes in the National Roads Programme. For completeness, expenditure is also given for schemes which completed in 2008-09 and 2009-10 and which were included in the January 2009 Roads Announcement.

Forecast expenditure (£ million)

	2008-09	*2009-10*	*2010-11*	*2011-12*	*2012-13*	*2013-14*	*2014-15*
Options Phase Budget	10.1	20.0	3.4	0.0	0.0	0.0	0.0
Development Phase Budget	23.4	46.1	21.7	57.9	1.7	5.2	3.0
Construction Phase Budget	178.0	454.8	615.0	618.0	251.8	0.0	0.0
Schemes completing in 2008-09	207.2	5.7	0.0	0.0	0.0	0.0	0.0

Mrs. Villiers: To ask the Minister of State, Department for Transport (1) how much his Department had spent on work on the *(a)* A3 Hindhead improvement scheme, *(b)* A1 Peterborough to Blyth grade separated junction project and *(c)* A421 Bedford to M1 junction 13 project on the latest date for which figures are available; how much it plans to spend on each such project in each of the next three years; and whether such projects are funded through the National Roads Programme; [316873]

(2) how much his Department had spent on the *(a)* A1 Leeming to Barton improvement, *(b)* M25 junction 16 to 23 widening project and *(c)* M25 junction 27 to 30 widening project on the latest date for which figures are available; how much it plans to spend on each such project in each of the next three years; and whether such projects are funded through the National Roads Programme; [316880]

(3) how much his Department had spent on the *(a)* M1 junction 39 to 42 project, *(b)* M3 junction 2 to 4a project, *(c)* M6 junction 10a to 13 project, *(d)* M60 junction 8 to 12 project and *(e)* M62 junction 18 to 20 project on the latest date for which figures are available; how much it plans to spend on each such project in each of the next three years; and whether such projects are funded through the National Roads Programme; [316881]

(4) how much his Department had spent on the *(a)* A1 Dishforth to Leeming improvement, *(b)* A1 Bramham to Wetherby project, *(c)* M40 junction 15 (Longbridge roundabout) project, *(d)* M1 junction 25 to 28 widening project and *(e)* M6 junction 8 to 10a north of Birmingham project on the latest date for which figures are available; how much it plans to spend on each such project in each of the next three years; and whether such projects are funded through the National Roads Programme. [316882]

Chris Mole: The following table shows how much the Department has spent (spend to end December 2009), and how much it is currently forecasting to spend in the remaining three months of the 2009-10 financial year and in the following three years.

The table also indicates which schemes are funded from the National Roads Programme and the current phase of each project within the project lifecycle (options/development/construction/operations).

For projects in options and development, budgets have only been approved to progress the projects to the end of the current phase. Approval will be sought from Ministers to move to the next phase, together with a new phase budget, at the appropriate time. Ministerial decisions will be based on priorities, affordability, completion of statutory processes and the scheme continuing to demonstrate value for money. For these schemes the table gives spend to date and forecast spend to the end of the current phase.

Please note that all forecasts are updated monthly as part of financial monitoring and control and therefore reflect the current position as at end December 2009.

			Forecast spend in each of the next three years (£ million)				
	Spend to 31 December 2009 (£ million)	*Forecast spend 1 January 2010 to 31 March 2010 (£ million)*	*2010-11*	*2011-12*	*2012-13*	*Funded by the national programme (Yes/No)*	*Phase*
A3 Hindhead Improvement	274.8	19.6	50.8	17.4	0.0	No	Construction
A1 Peterborough to Blyth GSJ	92.9	0.0	0.0	0.0	0.0	No	Operations
A421 Bedford to M1 J13	109.0	20.4	68.9	0.0	0.0	No	Construction
A1 Leeming to Barton Improvement	21.9	0.3	1.9	2.2	1.7	Yes	Development
M25 J16-23 Widening	111.7	0.6	183.9	190.5	108.6	Yes	Construction
M25 J27-30 Widening	48.9	0.6	115.0	183.3	46.5	Yes	Construction
M1 J39-42	0.0	0.2	1.7	0.0	0.0	Yes	Options
M3 J2-4a	0.6	0.3	0.0	0.0	0.0	Yes	Options
M6 J10a-13	2.0	0.2	0.0	0.0	0.0	Yes	Options
M60 J8-12	1.5	1.2	0.0	0.0	0.0	Yes	Options
M62 J18-20	1.9	1.6	0.0	0.0	0.0	Yes	Options
A1 Dishforth to Leeming Improvement	118.2	21.0	91.2	79.7	0.0	Yes	Construction
A1 Bramham to Wetherby	72.0	0.0	0.0	0.0	0.0	Yes	Operations
M40 J15 (Longbridge Roundabout)	61.9	4.4	3.9	0.0	0.0	Yes	Construction
M1 J25-28 Widening	267.0	17.6	35.2	0.0	0.0	Yes	Construction
M6 J8-10a North of Birmingham	84.0	26.6	32.0	0.0	0.0	No	Construction

Mrs. Villiers: To ask the Minister of State, Department for Transport how much of the £6 billion allocated for the National Roads Programme was used to complete work on the *(a)* M6 Carlisle to Guardsmill project, *(b)* M1 junctions 6a to 10 widening project, *(c)* A14 Haughley New St to Stowmarket project, *(d)* M62 junction 6 improvements and *(e)* M25 junctions 1b to 3 widening project. [316897]

Chris Mole: The following table gives the amount spent on completing work on the listed schemes out of the up to £6 billion allocated to the National Roads Programme in the January 2009 Roads Announcement.

Amount allocated from £6 billion National Roads Programme

	£ million
M6 Carlisle to Guardsmill	31.4
M1 J6a-10 Widening	82.5
A14 Haughley New Street to Stowmarket	14.0
M62 J6 Improvements	14.7
M25 J1b-3 widening	15.1
Total	157.7

Roads: Snow and Ice

Mrs. Villiers: To ask the Minister of State, Department for Transport whether his Department has provided guidance to local authorities on (1) which buildings or public services should be prioritised for maintenance of access to them by salting or gritting during adverse winter weather conditions; [316887]

(2) the priority to be given to gritting pavements during severe weather conditions. [316888]

Mr. Khan: Winter service, including decisions about the relative priority of salting carriageways and footways or the relative priority of ensuring access to services and buildings, is a matter for each local highway authority.

Advice on developing and operating a winter service strategy is included in the UK Roads Liaison Group's code of practice for highways maintenance management, "Well-maintained Highways".

Mrs. Villiers: To ask the Minister of State, Department for Transport how much his Department spent on road *(a)* salt and *(b)* grit in each of the last 12 years. [316890]

Mr. Khan: The Highways Agency uses salt for the treatment of its network during winter and does not use grit.

The Highways Agency's routine and winter service is delivered by its contracted service providers. The delivery of these services, including the purchase of rock salt, is paid for within lump sum payments covering a range of defined activities. The individual amount specifically spent on the purchase of road-salt is not readily discernable from the service delivery lump sum payments and cannot therefore be provided.

Annual salt usage for the strategic road network varies greatly according to the weather faced, typically ranging 150,000 to 300,000 tonnes per annum, at an average cost from domestic salt suppliers of approximately £20 to £25 per tonne.

Mrs. Spelman: To ask the Minister of State, Department for Transport pursuant to the answer to the hon. Member for Peterborough of 2 February 2010, *Official Report*, column 178W, on roads: salt, how many tonnes of road salt *(a)* each local authority and *(b)* the Highways Agency held at the latest date for which information is available. [317115]

Mr. Khan: An updated table has been placed in the Libraries of the House, which shows how many tonnes of salt local authorities estimate they have available, according to the local authority salt audit returns the Department for Transport had received at 10.00 am on 8 February.

Taxis: Safety

Mr. Gordon Prentice: To ask the Minister of State, Department for Transport if he will take steps to ensure that local authorities prevent vehicles subject to a safety recall by Toyota from being used by licensed taxi companies; and if he will make a statement. [317173]

Mr. Khan: The Department for Transport has been advised that the recall has not been instigated on grounds of safety and so does not consider it appropriate to prevent these vehicles being used. The manufacturer has advised that at no time will drivers be without brakes and the vehicles remain safe in service.

The Vehicle and Operator Services Agency, the Department for Transport agency which deals with day-to-day vehicle safety recall issues, is in regular contact with Toyota and we are doing everything we can to help them recall vehicles in the shortest possible timescale. Ministers are monitoring the situation closely.

Transport: Finance

Robert Neill: To ask the Minister of State, Department for Transport what role the Government Offices for the Regions have in the determination of allocations of regional and local transport funding. [317860]

Mr. Khan: Officials in Government offices for the regions, alongside officials in central Departments, provide advice to Ministers on funding decisions.

Written Questions: Government Responses

Grant Shapps: To ask the Minister of State, Department for Transport when he plans to respond to Question 316500, on the Government Car and Despatch Agency, tabled on 3 February 2010. [317534]

Paul Clark: I replied to the hon. Member today.

FOREIGN AND COMMONWEALTH OFFICE

Afghanistan: Overseas Aid

Mr. Gordon Prentice: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he is taking to ensure that funding allocated by his Department in respect of Afghanistan is spent as intended; and what audit trail there is in respect of such funding. [313781]

Mr. Ivan Lewis: Funding in Afghanistan is delegated to our ambassador, or in his/her absence, the Charge d'Affaires, who acts as the senior responsible officer and chair of the Afghanistan Delivery Group. The role of this decision-making body is to ensure that expenditure is authorised, controlled and monitored in accordance with agreed UK priorities and outcomes.

All UK civilian funding in Afghanistan is aligned to strategic objectives and subject to a robust planning regime. A programme office, based in Kabul, oversees governance processes that monitor expenditure and reports progress to the Afghanistan Delivery Group. Expenditure, both in Afghanistan and London, is also monitored by budget holders, subjected to independent external audit by the National Audit Office, and incurred in accordance with the principles of Managing Public Money and the Treasury Handbook on Regularity and Propriety.

Antarctica

Mr. Watson: To ask the Secretary of State for Foreign and Commonwealth Affairs how many applications the Polar Regions Unit has *(a)* received and *(b)* granted for British expeditions to Antarctica in the last three years. [317079]

Chris Bryant: The Polar Regions Unit received and issued 82 permit applications during the last three years, comprising 26 applications during 2009, 27 applications during 2008 and 29 applications during 2007.

Belarus: Capital Punishment

Mrs. Curtis-Thomas: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 26 November 2009, *Official Report*, columns 300-1W, on Belarus: capital punishment, what information he has received on the plight of Vasily Yuzepchuk and Andrei Zhuk; and what representations he has made on their behalf to the government of Belarus. [316928]

Chris Bryant: Vasily Yuzepchuk and Andrei Zhuk have exhausted the legal appeals process. The sentence can now only be overturned by an appeal of clemency to President Lukashenko.

The UK is opposed to the death penalty in all circumstances as a matter of principle. Together with EU partners, we promote the abolition of capital punishment around the world. We have continued to raise these cases with the Belarusian authorities, and to support a process of public dialogue on the death penalty. We worked closely with the Council of Europe who organised an information campaign in Belarus. Our ambassador explained our views in an interview with the Belarusian media in January 2010. We are pleased that the National Assembly of the Republic of Belarus has set up a task force to study the issue, and continue to urge the Belarusian Government to declare a moratorium on the use of the death penalty.

British Indian Ocean Territory: Environment Protection

Mr. Spring: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the government of Mauritius on the creation of a marine protected area around the Chagos archipelago. [317118]

Chris Bryant: Foreign and Commonwealth Office officials discussed environmental protection and the possible creation of a marine protected area with Mauritian officials in bilateral talks on the British Indian Ocean Territory on 14 January 2009 and on 21 July 2009. My right hon. Friend the Foreign Secretary also discussed the proposal with the Mauritian Prime Minister and Foreign Minister in November 2009.

Mr. Spring: To ask the Secretary of State for Foreign and Commonwealth Affairs what the remit is of the PEW Environment Group in providing services under his Department's contract for public consultation on the proposed marine protected area around the Chagos Archipelago; what the cost to his Department was of that contract; when he expects that group to report; to whom that group will report; and when he plans to publish the outcome of that consultation. [317121]

Chris Bryant: The Foreign and Commonwealth Office does not have a contract with the PEW Environment Group. The Group, which is an independent non-profit organisation, is part of the Chagos Environment Network which has advocated the possible creation of a marine protected area in the British Indian Ocean Territory.

Hugh Bayley: To ask the Secretary of State for Foreign and Commonwealth Affairs what consideration his Department has given to pursuing the proposed Marine Protected Area project as a joint initiative with the government of Mauritius. [317696]

Chris Bryant: Foreign and Commonwealth Office officials discussed environmental protection and the possible creation of a marine protected area with Mauritian officials in bilateral talks on the British Indian Ocean Territory on 14 January 2009 and on 21 July 2009. My right hon. Friend the Foreign Secretary also discussed the proposal with the Mauritian Prime Minister and Foreign Minister in November 2009.

Burma: Politics and Government

Mr. Crabb: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment his Department has made of the political situation in Burma. [316579]

Mr. Ivan Lewis: The Government remain deeply concerned about the lack of progress towards democracy and respect for human rights in Burma. Planned elections will have no international legitimacy while over 2,100 political prisoners remain in detention. Aung San Suu Kyi's appeal has reached its final stage. We call on the military government to release her, along with all other political prisoners, and begin a dialogue with the opposition and ethnic groups that would lay the foundations for a genuine and inclusive transition to democracy.

As elections approach, the democratic opposition and Burma's ethnic groups face a difficult dilemma. If they participate in the elections they risk legitimising a process they know to be flawed. Boycott the elections and they risk further marginalisation and exclusion from the political process. This is not a decision we can or should presume to make for them.

Mr. Crabb: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he plans to take in response to Burma's announcement that plans are underway to hold elections in a systematic way in 2010; and if he will make a statement. [316584]

Mr. Ivan Lewis: The UK position on planned elections in Burma is well known. Unless Aung San Suu Kyi, and all other political prisoners are released, and the regime initiates an inclusive dialogue with the democratic opposition and ethnic groups, the elections will have no credibility or international legitimacy. As the elections approach, the UK will work to maintain tough EU sanctions targeted at the regime's economic interests, and press Burma's neighbours, including China, India and ASEAN countries to use their influence to secure real progress. We will also work in the UN's human rights bodies to highlight the ongoing and systematic human rights abuses in the country.

The planned elections should be an historic opportunity to reverse Burma's steady decline into poverty, stagnation and international isolation. It is difficult to be optimistic that the military regime will seize this opportunity, but the UK will continue to use all diplomatic channels to press them to do so.

Burma: War Crimes

Mr. Crabb: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has received requesting him to propose to the United Nations Security Council the establishment of a commission of inquiry into allegations of crimes against humanity and war crimes committed by the Burmese regime; and what steps he has taken in consequence. [317000]

Mr. Ivan Lewis: Since early December 2009, the Foreign and Commonwealth Office has received more than 70 letters from MPs and members of the public calling for the UK to support a UN Commission of Inquiry into crimes against humanity in Burma. We have also taken note of the Early Day Motion on this issue, and I have met campaign groups, NGOs and representatives of ethnic groups based on the Thai/Burma border, to hear their views.

In consequence of these representations and discussions, the Government have given further careful thought to the question of a UN Commission of Inquiry. We regularly test the level of consensus for action on Burma at the UN through our efforts to secure Security Council discussion. We secured tough resolutions in the UN General Assembly and Human Rights Council and will continue to raise abuse of human rights in the year ahead. Our assessment remains that an attempt to establish a Commission of Inquiry would not receive the requisite support from a significant number of countries and in particular veto holding members of the Security Council. We are concerned that if we tried and failed to secure agreement this would be interpreted by the Burmese regime as a diplomatic victory and approval of its conduct. The Government will nonetheless continue to do all they can to highlight the appalling and systematic abuse of human rights in Burma, and work to secure as robust an international response as possible.

Democratic Republic of Congo: War Crimes

Mr. Newmark: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has made to the Government of the Democratic Republic of Congo on the arrest and transfer to the International Criminal Court of General Bosco Ntaganda. [317732]

Mr. Ivan Lewis: We, along with our European counterparts, continue to press for Bosco Ntaganda to be handed over for trial by the International Criminal Court (ICC). The UK strongly supports the ICC and we welcome the Court's investigations into events in the Democratic Republic of Congo (DRC). Conflict in the region has been marked by atrocities, and those responsible for them should be held to account.

Our ambassador in Kinshasa discussed the arrest warrant with the UN Secretary General's Special Representative for the DRC, Alan Doss. He received assurances that the UN mission would support the DRC Government in carrying out the warrant. He has also raised the question of Bosco Ntaganda's position in meetings with the Foreign Minister. He has sought reassurances that Bosco Ntaganda will be handed over to the ICC at the earliest possible opportunity.

Departmental Public Expenditure

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the written ministerial statement of 10 February 2010, *Official Report*, columns 54-58WS, on Foreign and Commonwealth Office finances, how the planned foreign exchange adjustment account will operate; and in what ways it will *(a)* resemble and *(b)* differ from the Overseas Price Mechanism. [317625]

Chris Bryant: The foreign exchange adjustment account will be a departmental unallocated provision (DUP) which the Foreign and Commonwealth Office (FCO) will draw on as necessary to manage the impact of foreign exchange fluctuations. It is not a return to the Overseas Price Movements Mechanism under which the FCO budget was adjusted from the Treasury Reserve to reflect foreign exchange rate movements.

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the written ministerial statement of 10 February 2010, *Official Report*, columns 54-58WS, on Foreign and Commonwealth Office finances, which assets he expects to sell in order to raise the sum intended in the statement; and what the *(a)* current book value and *(b)* estimated market value is of each such asset. [317627]

Chris Bryant: The Foreign and Commonwealth Office publishes details of disposals quarterly in a letter to the Foreign Affairs Committee. For commercial reasons and in order to realise maximum value from disposals, we do not publish details of planned disposals in advance.

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the written ministerial statement of 10 February 2010, *Official Report*, columns 54-58WS, on Foreign and Commonwealth Office finances, what the *(a)* original agreed budget for 2010-11 and *(b)* budget reduction agreed in consequence of the effect of changes in the value of sterling is for (i) the British Council, (ii) the BBC World Service, (iii) Foreign and Commonwealth Office Services and (iv) each other agency and non-departmental public body for which his Department is responsible. [318025]

Chris Bryant: The Foreign and Commonwealth Office (FCO) grant in aid to the BBC World Service for 2010-11 is £267 million in resources and capital. The FCO grant in aid to the British Council for the same period is £194 million in resources and capital. The BBC World Service will make available £7.7 million to the FCO including an underspend of £4 million in 2009-10. The British Council will make available £5 million to the FCO. These contributions will not result in permanent reductions in their baseline, but are for 2010-11 only.

FCO Services Trading Fund will make a special dividend payment to the FCO of £3 million in financial year 2010-11.

No other non-departmental public bodies or agencies for which the FCO is responsible plan to make similar contributions to the FCO budget in 2010-11.

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the written ministerial statement of 10 February 2010, *Official Report*, columns 54-58WS, on Foreign and Commonwealth Office finances, how much his Department expects to save in 2010-11 as a result of each of the measures set out in the statement. [318026]

Chris Bryant: The value of the contributions from the British Council and the BBC World Service to the Foreign and Commonwealth Office (FCO) budget for 2010-11 are expected to be £7.7 million and £5 million respectively, while FCO Services Trading Fund will make a special dividend payment of £3 million to the FCO. Details of the FCO programme of streamlining have yet to be finalised.

Departmental Recruitment

Mr. Hurd: To ask the Secretary of State for Foreign and Commonwealth Affairs how much his Department and its agencies spent on external recruitment consultants in the last year for which figures are available. [315502]

Chris Bryant: The Foreign and Commonwealth Office (FCO) is committed to recruiting a talented and diverse work force, ensuring that the most qualified candidates from the widest range of backgrounds apply. The FCO sometimes uses external recruitment agencies to manage recruitment campaigns for new entrants, and where specialist knowledge of a specific job market is required; for instance Overseas Security Managers and procurement specialists. Outsourced recruitment is more cost-effective than running all recruitment campaigns through a larger in-house recruitment team and is a model used extensively across central Government. In 2008-09 FCO Recruitment spent £1,115,890 and FCO Services £839,790 on external recruitment agencies in order to help meet these aims. These figures include advertising and other costs involved in the recruitment campaigns and reflect an increase on 2007-08 spend due to a greater number of campaigns, many of them in specialist areas.

Diplomatic Service Appeal Board

Mr. Watson: To ask the Secretary of State for Foreign and Commonwealth Affairs how many times the Diplomatic Service Appeal Board has met in each of the last three years. [317080]

Chris Bryant: The Diplomatic Service Appeal Board (DSAB) has met four times since 2007 to consider the appeals of members of the Diplomatic Service dismissed from the Foreign and Commonwealth Office (FCO). In addition, DSAB members have met each year since 2007 for an Annual General Meeting with the FCO's Director General for Change and Delivery and a senior manager from Human Resources.

Falkland Islands: Expenditure

Bob Russell: To ask the Secretary of State for Foreign and Commonwealth Affairs how much Government funding for non-military purposes has been allocated to the Falkland Islands since 1982. [317590]

Chris Bryant: Between 1982 and 1998 the Falkland Islands received £55.6 million in funding from the UK to help with the development of the islands. However, since 1998 the Falkland Islands have been self-sufficient in all areas except for defence.

Falkland Islands: Oil

Bob Russell: To ask the Secretary of State for Foreign and Commonwealth Affairs what proportion of *(a)* profits and *(b)* royalties from oil reserves from the South Atlantic he expects to be allocated to (i) the Falkland Islands, (ii) other Overseas Territories in the South Atlantic and (iii) the UK. [317593]

Chris Bryant: The natural resources of the Falkland Islands belong to the Falkland Islands However, the Falkland Islands Government have previously offered to share some of any future hydrocarbons related revenues with the UK Government.

Bob Russell: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will discuss with Ministerial colleagues the merits of sharing by all overseas territories in the South Atlantic the anticipated financial revenues generated from oil reserves in that region; and if he will make a statement. [317594]

Chris Bryant: The South Atlantic Overseas Territories have the right to freely dispose of their natural wealth and resources. Should there be commercially viable hydrocarbons finds in the region, any sharing of revenues would be a matter for the Government of the overseas territory concerned

Falkland Islands: Population

Bob Russell: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will estimate the number of residents of the Falkland Islands, excluding military personnel, who are *(a)* permanent residents, *(b)* UK citizens from the Island of St. Helena, *(c)* other UK citizens and *(d)* not UK citizens. [317596]

Chris Bryant: Responsibility for non-military population statistics rests with the Government of the Falkland Islands who hold the requested information.

Government Hospitality: Wines

Mr. Watson: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the events where wine from the Government wine cellar was served between 25 December 2009 and 25 January 2010. [313986]

Chris Bryant *[holding answer 28 January 2010]:* The following table shows the events at which wine from the Government Hospitality cellar was served between 25 December 2009 and 25 January 2010.

2010	*Event title*	*Host Department*
11 January	Lunch: Learning and Technology World Forum	DCSF
11 January	Dinner: Learning and Technology World Forum British Council Dinner	DCSF
12 January	Lunch: Turkish Foreign Minister	FCO
13 January	Lunch: UK-India Education Forum	DCSF
13 January	Reception: UK-India Education Forum	DCSF
14 January	Treasury Lunch	Her Majesty's Treasury
14 January	Dinner: Defence Equipment	MOD
14 January	Reception: Diversity in Public Appointments	Government Equalities Office
18 January	Dinner: Nobel Laureates	10 Downing Street
18 January	Dinner: Leeds University Alumni	Ministry of Justice
19 January	Reception: UK Trade and Investment (UKTI) Defence Services	UKTI/MOD
20 January	Dinner: Deputy Defence Minister Korea	MOD
25 January	Lunch: Inter Parliamentary Union Group	FCO
25 January	Lunch: French Chief of Defence Staff	MOD
25 January	Dinner: Chevening Fellowship	FCO

Iraq Committee of Inquiry

Jenny Willott: To ask the Secretary of State for Foreign and Commonwealth Affairs how many *(a)* documents and *(b)* other items of information in electronic format provided by his Department to the Iraq Inquiry that Inquiry has sought to publish under the procedure set out in the protocol on documents and other written and electronic information; and if he will make a statement. [314546]

Mr. Ivan Lewis: I refer the hon. Member to the answer given by my right hon. Friend the Minister for the Cabinet Office, on 9 February 2010, *Official Report*, column 894W.

Libya and Egypt: Land Mines

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will provide assistance to the Libyan and Egyptian Governments to help clear land mines between Tobruk and El Alamein left over from the Second World War. [317331]

Chris Bryant: The Government are fully committed to ending the suffering caused by anti-personnel landmines. We continue to encourage Libya and Egypt to sign the Ottawa convention, which would give them greater access to international and UK demining assistance and victim support. In May 2009, we provided the Egyptian Government with all Ministry of Defence-held information, including maps, relating to landmines in North West Egypt. We have also provided the Libyan Government with similar information. In 2007, the Department for International Development, which has lead responsibility for international demining assistance, contributed £250,000 to a UN Development Programme mine clearance project in Egypt.

Marshall Aid Commemoration Commission

Mr. Watson: To ask the Secretary of State for Foreign and Commonwealth Affairs how many staff the Marshall Aid Commemoration Commission employs; and what the Commission's salary cost was in the last 12 months for which figures are available. [317020]

Chris Bryant: None and nil.

Mauritius: Foreign Relations

Mr. Spring: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the state of relations between the UK and Mauritius. [317119]

Mr. Ivan Lewis: There is no regular formalised process for assessing the state of relations between the UK and allies such as Mauritius, although annual informal assessments are made as part of every UK mission's business planning process. UK relations with Mauritius are broad and wide, with regular contacts at all levels. Later this year, we will be marking the 200th anniversary of UK involvement in Mauritius. More immediately, the Privy Council will hold their second sitting in Mauritius this April.

Mr. Spring: To ask the Secretary of State for Foreign and Commonwealth Affairs when Ministers and officials in his Department last met the Mauritian Government to discuss bilateral issues. [317120]

Mr. Ivan Lewis: My right hon. Friend the Foreign Secretary met the Mauritian Foreign Minister, Dr. Arvin Boolell, on 28 November 2009 during the Commonwealth Heads of Government Meeting in Trinidad and Tobago. Officials met representatives of the Mauritian Government on 14 January 2009 and 21 July 2009 for bilateral talks on the British Indian Ocean Territory. And our high commissioner to Mauritius maintains regular contact with his host Government and meets Mauritian Government Ministers and officials on a weekly basis.

Somalia: Human Trafficking

Mrs. Curtis-Thomas: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 25 November 2009, *Official Report*, columns 165W, on Somalia: human trafficking, what *(a)* discussions and *(b)* correspondence he has had with the Somalian government on human trafficking in that country and within the region. [316929]

Mr. Ivan Lewis: My right hon. Friend the Foreign Secretary has not held discussions or had correspondence with the Transitional Federal Government of Somalia (TFG) on human trafficking that occurs in Somalia or the wider region. We have held detailed discussions at ministerial and official level with the TFG on peace and security efforts and how we can best support progress and development in Somalia, in line with the UN-led Djibouti Peace Agreement. Establishing peace and stability for the Somali people will be fundamental to addressing the underlying causes of human trafficking in Somalia in the longer-term.

The UK is very concerned at the high levels of organised immigration crime in the region and will raise the issue with East African Community member states at a migration seminar later this month. Moreover, the UK has established various projects in the region to address migration issues, including organised immigration crime.

Ukraine: Famine

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs with reference to the answer to the hon. Member for Bolton South East of 6 October 2008, *Official Report*, column 234W, on Ukraine: human rights, what the policy of the Government is on the recognition as genocide of events which led to the Holodomor famine in Ukraine in 1932-33; and if he will make a statement. [317564]

Chris Bryant: The Holodomor was an appalling, man-made human tragedy and the UK fully recognises its importance in Ukraine's history. The UK has co-operated with Ukraine to promote remembrance and increase public awareness of the Holodomor. We have supported statements at the UN Educational Scientific and Cultural Organisation and the Organisation for Security and Co-operation in Europe honouring the memory of those who perished in the Holodomor and encouraging the promotion of its remembrance. In 2008, His Royal Highness The Duke of York, Her Royal Highness Princess Eugenie of York, my right hon. Friend the Foreign Secretary and my right hon. Friend the Member for Don Valley (Caroline Flint), the then Minister for Europe all paid their respects to those who suffered so terribly in 1932-33 by laying wreaths at the Holodomor memorial in Kyiv.

My right hon. Friend the Prime Minister was represented at the events to commemorate the 75th anniversary of the Holodomor held in Kyiv on 22 November 2008, and the Prime Minister and the Foreign Secretary sent written messages of condolence to mark this important occasion. The UK was also represented at the 75th anniversary memorial event in London.

With regard to the question of whether the events of 1932-33 should be recognised as genocide, the UK does not judge that the evidence is sufficiently unequivocal to categorise the Holodomor as genocide as defined by the 1948 UN Convention on Genocide. However, we do recognise that there is a division of opinion among academics on this matter and we will continue to follow the debate closely, particularly in the light of any further emerging evidence.

TREASURY

Banks: Africa

Mr. Gregory Campbell: To ask the Chancellor of the Exchequer what procedures his Department has in place to ensure that *(a)* illegal and *(b)* illegally-acquired funds from African countries are not deposited with UK banks; whether his Department has undertaken any recent investigations into such practices; and if he will make a statement. [318067]

Sarah McCarthy-Fry: The Money Laundering Regulations 2007 require banks and other regulated businesses to identify 'Politically Exposed Persons' (PEPs) and assess whether and to what extent they present a heightened risk before undertaking business with them, including opening new accounts or policies. Such transactions are subject to enhanced forms of scrutiny, including measures to establish the source of wealth and funds involved.

PEPs include individuals entrusted by an overseas Government with prominent public functions, such as Heads of State or Heads of Government, senior officials, and their immediate family and close associates.

HM Treasury chairs the cross-Government 'PEPs Strategic Group' which co-ordinates action to address the threats posed by corrupt PEPs.

The police are responsible for investigating such practices and have specific units responsible for doing so.

Council Tax

Grant Shapps: To ask the Chancellor of the Exchequer how many new *(a)* homes and *(b)* affordable homes in each (i) local authority and (ii) region were placed in council tax band (A) A, (B) B, (C) C, (D) D, (E) E, (F) F, (G) G and (H) H in each of the last three years. [317632]

Ian Pearson: The information requested on the number of new homes has been placed in the Library. The Valuation Office Agency does not hold information to identify new affordable homes separately.

Council Tax: Valuation

Robert Neill: To ask the Chancellor of the Exchequer how many and what proportion of dwellings have one or more *(a)* dwelling house and *(b)* significant code assigned to them on the Valuation Office Agency's property database for council tax valuations and revaluations. [317852]

Ian Pearson: I refer the hon. Member for Bromley and Chislehurst to the answer given on 26 October 2009, *Official Report*, column 142W.

Robert Neill: To ask the Chancellor of the Exchequer how many notification changes with code CL26 have been made to the Valuation Office Agency's council tax list in 2009-10 to date. [317853]

Ian Pearson: The total number of notification changes from 1 April 2009 to 11 February 2010 with code CL26 was 29,572 representing 0.1 per cent. of the dwellings in valuation lists for England and Wales.

Robert Neill: To ask the Chancellor of the Exchequer with reference to the answer of 3 November 2009, *Official Report*, column 840W, on council tax: valuation, how many times the Valuation Office Agency has reduced the council tax band of a dwelling due to the presence of a nearby Traveller encampment in the last three months. [317574]

Ian Pearson: This information cannot be provided other than at disproportionate cost. Although all changes to council tax bands are entered on the Valuation Office Agency's (VOA's) computer system, this cannot be interrogated to establish the precise reasons why a change in council tax band has occurred. The reasons can only be established by examining each record in turn.

Crown Lands and Estates: Canvey Island

Bob Spink: To ask the Chancellor of the Exchequer what interest the Crown Estate holds in the area of land to the seaward side of the Canvey Island sea defences; and if he will make a statement. [316905]

Sarah McCarthy-Fry: The Crown Estate does not own any foreshore or seabed around the entirety of Canvey Island.

Departmental Consultants

Julia Goldsworthy: To ask the Chancellor of the Exchequer how many consultants employed by his Department and its agencies have been paid *(a)* in total and *(b)* in reimbursable expenses in each of the last 10 years. [314012]

Sarah McCarthy-Fry: Information on spending on consultancy between 2001-02 and 2007-08 is shown in table A3 on page 111 of the 2007-08 annual report (CM 7408) and spending in 2008-09 on table 5c on page 107 of the 2008-09 annual report available from

http://www.hm-treasury.gov.uk/dep_perf_reports_index.htm

Information on spending prior to 2001-02 could be provided only at disproportionate cost. Information on reimbursable expenses could be provided only at disproportionate cost.

The pre-Budget report announced that consultancy spend across Government would be further reduced by 50 per cent. by 2012.

Departmental Coordination

Mr. Liddell-Grainger: To ask the Chancellor of the Exchequer what the outcomes were of the proof of concept trials undertaken by HM Revenue and Customs, the Department for Work and Pensions and 12 local authorities as referred to in the report on service transformation by Sir David Varney. [313940]

Mr. Timms: The pilot exercise referred to formed part of the "In and Out of Work" project, designed to encourage those who frequently move in and out of work and who claim benefits and/or tax credits to take up employment. It was also designed to improve customers' experience of dealing with government by reducing the number of times they have to engage with Government services and the amount of information they have to provide.

The pilot exercise showed that collaborative work between HM Revenue and Customs, the Department for Work and Pensions and local authorities resulted in:

a 15 per cent. reduction in the average time taken to make payments of benefits to customers; and

evidence that the process prevented overpayments of tax credits by ensuring that payments were adjusted quickly when a customer left employment and that housing benefit payments were adjusted more quickly in response to changes in employment.

This improvement for housing benefit processing times was coupled with a significant reduction in the resource required to process these claims, as local authorities no longer have to contact customers for details of their circumstances.

Customer research following the exercise indicated that:

84 per cent. of customers who went through the process now understood the information that was needed to adjust their housing benefit and council tax benefit payments;

48 per cent. of customers with previous experience of claiming benefits stated that the pilot process improved the service that they received; and

77 per cent. of customers rated the way the organisations worked together as good.

The improved customer perception of the service also reduces customers' concerns around how their benefit claims will be handled. This in turn encourages them to take up work, particularly short-term work, confident that they will receive the right support from government when they most need it.

Following this successful pilot exercise, on 16 October 2008 the Government announced the phased national roll out of the service, which was completed in December 2009.

Departmental Energy

Andrew Stunell: To ask the Chancellor of the Exchequer what the estimated *(a)* amount and *(b)* cost was of energy used in his Department and its agencies in each year since 1997; what proportion of the energy used was generated from renewable sources in each of those years; and if he will make a statement. [317201]

Sarah McCarthy-Fry: I refer the hon. Member to the answer I gave to the hon. Member for Tunbridge Wells (Greg Clark) on 1 April 2009, *Official Report*, column 1200W.

HM Treasury is committed to improving its environmental performance in the use of resources and to reducing its energy use year on year.

Detailed information on the Treasury Group's sustainable performance by building for the years in question were published in HM Treasury's Departmental Report for 2007-08 (Cm 7408). Updates on progress will be provided annually.

Domicile

Mr. Gordon Prentice: To ask the Chancellor of the Exchequer how many UK citizens had permanent residence in the UK but were either not resident in the UK for tax purposes or did not have UK domicile status in each year since 2000. [316919]

Sarah McCarthy-Fry: HMRC does not collect figures relating to the numbers of UK citizens, or other categories of British national, resident in the UK. This is because citizenship and nationality are of very limited relevance to an individual's liability to tax under domestic legislation, although they can play a part in resolving treaty residence in cases where an individual is resident both here and in one of the countries with which the UK has a double taxation convention.

Excise Duties: Alcoholic Drinks

Mr. Clifton-Brown: To ask the Chancellor of the Exchequer how much revenue (1) accrued to the Exchequer from duties on sales of alcohol in Northern Ireland in each of the last 12 months; [316707]

(2) has accrued to the Exchequer from value added tax collected in Northern Ireland in the last 12 months; and what proportion of that revenue accrued from sales of alcohol. [316708]

Sarah McCarthy-Fry: Historical alcohol duty revenue figures for the UK can be found in Table 2 of any of HM Revenue and Customs Alcohol Bulletins, copies of which can be found at:

https://www.uktradeinfo.com/index.cfm?task=bulletins&hasFlashPlayer=true

Information on revenue from VAT and duty on alcohol in Northern Ireland is not available.

Mr. Clifton-Brown: To ask the Chancellor of the Exchequer (1) how much revenue accrued to the Exchequer from alcohol excise duties on spirits in the last 12 months; and what estimates were made of such revenue for that period in the last three years; [316709]

(2) how much revenue has accrued to the Exchequer from tax on the sale of *(a)* domestically-produced and *(b)* imported spirits in each of the last 12 months. [316710]

Sarah McCarthy-Fry: Historical receipts of duty collected from spirits can be found in Table 2 of the HM Revenue and Customs Spirits Bulletin, a copy of which can be found at:

https://www.uktradeinfo.com/index.cfm?task=bullspirits

Estimates for domestically-produced or imported spirits are not available.

Mr. Clifton-Brown: To ask the Chancellor of the Exchequer with reference to the answer to the hon. Member for Tamworth of 21 April 2008, *Official Report*, column 1675W, on excise duties: alcoholic drinks, what percentage of the average price of a *(a)* pint of 4 per cent. beer, *(b)* a 70cl bottle of 37 per cent. spirits and *(c)* a 75cl bottle of 13 per cent. wine comprised tax in each of the last 10 years. [316719]

Sarah McCarthy-Fry: HMRC publishes data on the percentage of the average price of various alcohol products that is comprised of tax in the Alcohol Factsheet. This can be found in Tables 3.1 to 3.8 at:

https://www.uktradeinfo.com/index.cfm?task=factalcohol

Mr. Clifton-Brown: To ask the Chancellor of the Exchequer how much tax has been recovered in the sale of seized contraband *(a)* beer, *(b)* wine and *(c)* spirits in each of the last five years. [316758]

Sarah McCarthy-Fry: HMRC's policy is not to sell seized alcohol due to the potential risks with Health and Safety and trade descriptions. Seized alcohol is disposed through a specialist contractor that uses environmentally sound methods.

Feltham

Alan Keen: To ask the Chancellor of the Exchequer if he will set out, with statistical evidence relating as closely as possible to Feltham and Heston constituency, the effects on that constituency of changes to the Department's policies since 1997. [316674]

Sarah McCarthy-Fry: The Neighbourhood Statistics Service provides a wide range of statistical information at parliamentary constituency level, taken from the 2001 Census and other sources. This service is available on the National Statistics website at:

http://neighbourhood.statistics.gov.uk/

The Government have put in place a broad programme of reform since 1997. Over the decade to 2007, the economic performance of all parts of the UK has improved considerably.

The global recession has had a negative impact on economic activity in all areas of the UK. However, the economy was starting from a position of strength and is actively supported by policies implemented by the Government, including the fiscal stimulus and a significant package of support for those out of work.

In Feltham and Heston people are benefiting from this investment. Over the second half of 2009, more than 760 people moved off of the claimant count each month on average. The claimant count fell for two consecutive months in October and November. At the end of 2009, claimant count unemployment is still nearly 3 per cent. lower and long-term unemployment 97 per cent. lower than in May 1997.

Financial Institutions: Directors

Harry Cohen: To ask the Chancellor of the Exchequer what his policy is on the appointment of a proportion of non-executive directors of financial institutions by organisations other than the financial institution in question. [317356]

Sarah McCarthy-Fry: Appointments to boards of companies are a matter for the company and their shareholders in line with the statutory framework in the Companies Act 2006. Shareholders are responsible for holding directors accountable for their performance and stewardship and deciding whether to appoint or reappoint directors.

Financial Services Authority

Jim Cousins: To ask the Chancellor of the Exchequer when he plans to extend the scope of Financial Services Authority regulation to include second charge and buy-to-let mortgage lending. [318013]

Sarah McCarthy-Fry: The Government's consultation on extending the scope of FSA regulation to second charge and buy-to-let mortgage lending closed on 15 February. The Government will consider the responses from stakeholders and set out their plans in due course.

Financial Services: Standards

Jim Cousins: To ask the Chancellor of the Exchequer how many warning notices were issued to companies by the Financial Services Authority in each year since 2001. [318001]

Sarah McCarthy-Fry: The matter raised in this question is the responsibility of the Financial Services Authority, whose day-to-day operations are independent from Government. I have asked the FSA to write to the hon. Member.

Fiscal Policy

Mr. Philip Hammond: To ask the Chancellor of the Exchequer pursuant to the answer of 7 January 2009, *Official Report*, column 564W, on fiscal policy, if he will place in the Library a copy of the latest review of fiscal consolidation measures undertaken in other advanced economies produced by his Department. [315495]

Sarah McCarthy-Fry: The Government will set out their analysis of the fiscal position and updated projections for the public finances in the Budget in the usual way.

Fraud: Alcoholic Drinks

Mr. Clifton-Brown: To ask the Chancellor of the Exchequer how many staff of his Department work on the recovery of duty lost through fraud on alcohol sales. [316796]

Sarah McCarthy-Fry: There are no figures available for the number of staff in HMRC or the UK Border Agency (UKBA) working on the recovery of duty lost through fraud on alcohol sales. This is because officers are deployed flexibly across a number of threats.

Government Securities

Mr. Frank Field: To ask the Chancellor of the Exchequer what amount of gilts has been bought by *(a)* the Bank of England and *(b)* other banks operating in the UK who are regulated by the Financial Services Authority in the last 12 months. [316916]

Sarah McCarthy-Fry: The Bank of England has purchased £198,275 million of gilts via the Asset Purchase Facility, and £815 million for its own balance sheet purposes in the last 12 months. Please note that the amounts are shown in proceeds (i.e. amount paid) terms and that In the Asset Purchase Facility the Bank purchases only conventional gilts with a residual maturity of greater than three years (prior to August, conventional gilts with a residual maturity of greater than five and less than 25 years).

Net investment in British Government securities by deposit-taking banks is available in the Bank of England's Monetary and Financial Statistics publication page T51, table B1.2, column TBMH, available at:

http://www.bankofengland.co.uk/statistics/ms/2010/jan/bankstats_full.pdf

Hidden Economy

Mr. Duncan Smith: To ask the Chancellor of the Exchequer what estimate he has made of the amount of tax lost as a result of the hidden economy in each of the last five financial years. [317296]

Sarah McCarthy-Fry: An estimate of the tax gap as a result of the hidden economy was published at 2009 pre-Budget report in "Measuring Tax Gaps 2009", available at:

http://www.hmrc.gov.uk/stats/measuring-tax-gaps.pdf

Hospital Beds: Wakefield

Jon Trickett: To ask the Chancellor of the Exchequer how many beds there were in NHS hospitals in Wakefield in each year since 1997. [316630]

Ann Keen: I have been asked to reply.

The following tables show the average daily number of beds for national health service providers around Wakefield for the years 1997-98 to 2008-09, the latest date at which data are available.

Mid Yorkshire Hospitals NHS Trust

	Beds in wards open

Department of Health KH03

Income Tax

Hywel Williams: To ask the Chancellor of the Exchequer what estimate his Department has made of the amount of revenue that would be lost in 2010-11 if the personal tax allowance was raised to £10,000. [315721]

Mr. Timms: The information requested can be approximated from HM Revenue and Customs' table 1.6 'Direct effects of illustrative tax changes', available at:

http://www.hmrc.gov.uk/stats/tax_expenditures/table1-6.pdf

Hywel Williams: To ask the Chancellor of the Exchequer what estimate his Department has made of the additional amount of revenue that would be raised in 2010-11 if an income tax rate of 50 per cent. was charged on incomes over £100,000 per annum. [315722]

Mr. Timms *[holding answer 4 February 2010]:* The information requested is available only at disproportionate cost, due to the work needed to take account of the potentially significant behavioural responses.

The amount of additional revenue that would be raised if incomes at £100,000 or above were charged at 50 per cent., excluding behavioural responses, is estimated to be around £2.0 billion for 2010-11. This estimate is based on the 2006-07 Survey of Personal Incomes projected forward using pre-Budget 2009 assumptions. In practice, however, behavioural responses would reduce this yield significantly.

Hywel Williams: To ask the Chancellor of the Exchequer what estimate his Department has made of the additional amount of revenue that would be raised in 2010-11 if the national insurance contribution ceiling was removed. [315723]

Mr. Timms *[holding answer 4 February 2010]:* The additional amount of revenue that would be raised from the removal of the upper earnings limit for employees paying Class 1 national insurance contributions and the upper profits limit for self employed individuals paying Class 4 contributions is estimated to be around £11 billion in 2010-11.

This figure excludes any estimate of behavioural effects which are likely to be significant given the scale of the change. The estimate is consistent with the 2009 pre-Budget report assumptions.

Hywel Williams: To ask the Chancellor of the Exchequer what estimate his Department has made of the additional amount of revenue that would be raised in 2010-11 if the income tax rate of 60 per cent. was charged on incomes over £250,000 per annum. [315724]

Mr. Timms *[holding answer 4 February 2010]:* The information requested is available only at disproportionate cost, due to the work needed to take account of the potentially significant behavioural responses.

The amount of additional revenue that would be raised if incomes at £250,000 or above were charged at 60 per cent., with a rate of 4.5 per cent. for dividend income, excluding behavioural responses, is estimated to be around £3.5 billion for 2010-11. This estimate is based on the 2006-07 Survey of Personal Incomes projected forward using pre-Budget 2009 assumptions. In practice, however, behavioural responses would reduce this yield significantly.

Pete Wishart: To ask the Chancellor of the Exchequer what estimate he has made of the percentage of income tax due which was collected in *(a)* Scotland and *(b)* the UK in (i) 2008 and (ii) 2009. [317051]

Mr. Timms: Information on income tax liabilities in Scotland and the UK can be found in table 3.11 "Income and tax by gender, region and country" on the HM Revenue and Customs website at:

http://www.hmrc.gov.uk/stats/income_distribution/menu.htm

The information is based on the Survey of Personal Incomes, of which 2006-07 is the latest available. Information for 2008-09 and 2009-10 will be published during 2011 and 2012 respectively.

Income Tax: Tax Allowances

Ms Gisela Stuart: To ask the Chancellor of the Exchequer what estimate he has made of the likely cost to the public purse of increasing the personal allowance by £2,000, limited to the basic rate of income tax, in respect of *(a)* all married couples and couples in civil partnerships, *(b)* all married couples and couples in civil partnerships with children under the age of (i) three and (ii) six and (c) all those aged 65 years and over in each fiscal year from 2010-11 to 2013-14. [313286]

Mr. Timms *[holding answer 28 January 2010]:* Due to the complex nature of these questions the following estimates should be treated with caution. These estimates exclude any behavioural response to the change, which could be significant given the magnitude of the change. This has the additional implication of limiting reliable modelling of costs to 2010-11.

The estimated costs of increasing the personal allowance by £2,000 per person, limited to the basic rate of income tax, are:

(a) £5.9 billion for all married couples and civil partnerships;

(b) (i) £0.6 billion for all married couples and civil partnerships with children under the age of three;

(ii) £1.0 billion for all married couples and civil partnerships with children under the age of six.

These estimates have been calculated using HM Treasury's tax and benefit micro-simulation model using Family Resources Survey 2007-08 data.

The estimates of increasing the personal allowance for those aged 65 and over can be approximated from table 1.6 "Direct effects of illustrative tax changes" available at:

http://www.hmrc.gov.uk/stats/tax_expenditures/table1-6.pdf

Landfill Tax

Mr. Salmond: To ask the Chancellor of the Exchequer (1) how much is expected to be raised through landfill tax in 2010-11; [316624]

(2) whether he plans to review the criteria under which projects can apply for funding under the landfill tax credit scheme; [316625]

(3) how many applications from each constituency have been *(a)* received and *(b)* granted for funding under the landfill tax credit scheme in each year since 1996; and how much funding has been provided to successful applicants in each constituency in each of those years. [316626]

Sarah McCarthy-Fry: Estimates of landfill tax revenues are set out in chapter A, table A1, of the 2009 Budget publication "Building Britain's Future".

There are no plans for a specific review of the objects of the landfill communities fund (known as the landfill tax credit scheme up to 2006). However, the fund (including its qualifying objects) is kept under regular review as part of the Budget process.

Neither HM Revenue and Customs, nor the fund regulator, ENTRUST, hold information on applications or funding broken down by parliamentary constituency.

Loans

Jim Cousins: To ask the Chancellor of the Exchequer if he will estimate the *(a)* number of self-certification loans made in each year since 2004 and *(b)* total stock of self-certification loans which is outstanding. [318012]

Sarah McCarthy-Fry: The Treasury does not hold data on mortgage product sales by type. However, the FSA's 'Mortgage Market Review' includes some information on the proportion of regulated mortgage sales in 2007 that did not involve income verification. This is available in Exhibit 2.7 of the publication, which is available at the following link:

http://www.fsa.gov.uk/pubs/discussion/dp09_03.pdf

Members: Correspondence

John Barrett: To ask the Chancellor of the Exchequer when the MP's Parliamentary Business Unit of the Tax Credit Office expects to answer the hon. Member for Edinburgh West's faxed correspondence of 17 December 2009 on his constituent Mrs L A McKinnon. [316954]

Mr. Timms: HM Revenue and Customs wrote to the hon. Member about his constituent on 16 February 2010 and sincerely apologise for the delay in doing so.

Money Laundering

Tony Baldry: To ask the Chancellor of the Exchequer what reports he has received of allegations that North Korea is using Luxembourg as a channel for money laundering; and if he will request the Government of Luxembourg to investigate the allegations. [316823]

Sarah McCarthy-Fry: The Government are not able to comment on matters of intelligence. However the Government play a leading role in international efforts against money laundering, including the Financial Action Task Force (FATF) and the EU Committee for the Prevention of Money Laundering and Terrorist Finance.

It should also be noted that in 2009 the UK signed up to further sanctions against North Korea under UN Resolution 1874, placing restrictions on financial institutions providing services to North Korea and requiring enhanced vigilance by member states. While aimed at reducing the threat from the proliferation of weapons of mass destruction, such measures also serve to strengthen international anti-money laundering controls.

Mortgages

Jim Cousins: To ask the Chancellor of the Exchequer what estimate he has made of the number of non-deposit taking mortgage lenders in each year since 2004. [318011]

Sarah McCarthy-Fry: The Bank of England collects data on the volume of mortgage lending by different types of lenders, including specialist lenders. These are published in 'Monetary and Financial Statistics (Bankstats)'. Figures from the latest publication, which covers the period December 2007 to December 2009, are available at

http://www.bankofengland.co.uk/statistics/ms/2010/jan/taba5.3.xls

The full set of figures is accessible through the Bank's statistical database, at

http://www.bankofengland.co.uk/mfsd/iadb/BankStats.asp

National Insurance Contributions: Registration

Mr. Binley: To ask the Chancellor of the Exchequer how many self-employed people were late in registering their national insurance contributions with HM Revenue and Customs in the last two years. [316859]

Mr. Timms: Individuals starting self-employment have a legal obligation to notify HM Revenue and Customs (HMRC) of their liability to pay Class 2 National Insurance Contributions (NICs).

23,258 and 23,991 self-employed individuals were late in notifying HMRC of their liability to pay Class 2 NICs during 2008 and 2009 respectively. Late is defined as more than three months from the date self-employment commenced.

PAYE

Mr. Liddell-Grainger: To ask the Chancellor of the Exchequer whether an individual's PAYE case is automatically cleared when HM Revenue and Customs (HMRC) does not receive back an employment history enquiry; and how many PAYE cases were cleared after HMRC received back an employment history enquiry from individuals in *(a)* 2006, *(b)* 2007, *(c)* 2008 and *(d)* 2009. [316119]

Mr. Timms: Pay-as-you-earn (PAYE) aims to collect the right amount of tax each year through the PAYE tax code, which is based on the latest information available to HM Revenue and Customs (HMRC).

Where an individual's employment history appears incomplete HMRC will ask the customer for their employment history either during or at the end of the tax year. If the individual does not respond then the tax code will continue to be based on the most current information available and the case cleared at the end of the tax year.

Customers are encouraged to use the information provided on HM Revenue and Customs' (HMRC) website at:

www.hmrc.gov.uk/income/tax-codes.htm

to help them understand their PAYE tax code. If customers have concerns or believe they are being wrongly taxed, they should contact their tax office, which will be able to make any appropriate adjustments irrespective of whether the case has been cleared.

Information on how to find your tax office is available at:

http://search2.hmrc.gov.uk/kbroker/hmrc/locator/locator.jsp?type=1

The information requested is not available, as HM Revenue and Customs' systems do not capture details of the number of PAYE cases cleared following receipt of a completed employment history inquiry form.

Pension Credit: Northern Ireland

Dr. McCrea: To ask the Chancellor of the Exchequer how many pensioners resident in Northern Ireland have been contacted as part of his Department's pension credit Tax Back campaign. [316362]

Angela Eagle: I have been asked to reply.

The information requested is not available. I can confirm however, that for the United Kingdom as a whole, around 3.4 million letters were issued.

Public Sector: Contracts

Caroline Flint: To ask the Chancellor of the Exchequer whether a Minister or official in his Department has responsibility for promoting Article 19 of the European Union Procurement Directive in respect of the awarding of public sector contracts to work places in which more than 50 per cent. of employees are disabled. [317586]

Ian Pearson: The Office of Government Commerce (OGC) has responsibility for public procurement law and policy in the UK.

Government are fully committed to ensuring that people with disabilities are given the opportunity to enter the labour market, as well as ensuring that there is a level playing field for all companies, including supported businesses, seeking to do business with the public sector.

Article 19 of the EU procurement directive has a role to play in facilitating public sector contracting opportunities for supported businesses. Last year, the OGC published practical guidance for public procurers on the provision contained within Article 19, including how to reserve contracts for supported factories and businesses while still ensuring that value for money is achieved.

Buying Solutions, OGC's executive agency and national procurement partner for UK public services, has made use of the Article 19 provision to set up a pan Government collaborative framework agreement with supported businesses.

Central Departments, including HM Treasury, each have supported businesses champions at official level. Their role will include raising awareness of the Article 19 provision within their Departments.

OGC is working with DWP and key stakeholders to raise awareness of the Article 19 provision and to encourage Departments to use it where appropriate.

Resource Accounting and Budgeting

Dr. Murrison: To ask the Chancellor of the Exchequer what changes have been made to his Department's guidance on resource account budgeting since 2003; and if he will make a statement. [316085]

Mr. Byrne: The introduction of Stage 2 of Resource Accounting and Budgeting in 2003 moved non-cash items from AME (Annual Managed Expenditure) to DEL (Departmental Expenditure Limits).

The 2006-07 Consolidated Budgeting Guidance formalised existing restrictions on switching between non-cash and near-cash items by introducing a near-cash control total.

In 2006-07, capital grants were also moved from resource DEL to capital DEL, eliminating the need to ring fence them within resource DEL.

The 2009-10 Consolidate Budgeting Guidance made a number of smaller changes to align the budgeting system with International Financial Reporting Standards which have been adopted for departmental resource accounting purposes.

Copies of past editions of the budgeting guidance are available in the Library, and the present edition is available on the Treasury website.

Revenue and Customs

Jim Cousins: To ask the Chancellor of the Exchequer what the costs, including redundancy payments, and the benefits, including increased tax yield and transaction savings, have been of HM Revenue and Customs' transformation programme in each year from 2006-07; and what the net change in the number of staff employed has been in each year. [313699]

Mr. Timms *[holding answer 28 January 2010]:* HM Revenue and Customs' (HMRC) major transformation initiatives are delivered through the Departmental Transformation Programme (DTP), established in October 2006. The transformation programme has led to improved customer service, such as reduced administrative burden, faster responses to customer queries and an expansion in our online services to individuals and businesses.

The information requested is provided in the following table:

£ million

	Transformation costs[1]	*Additional tax yield*	*Transaction savings*[2]
2006-07	429.4	660.0	n/a
2007-08	421.7	714.8	14.2
2008-09	647.0	672.3	18.4
2009-10[3]	428.1	2,100.1	43.6
Total	1,926.2	4,147.2	76.2

[1] Transformation costs include the cost of voluntary staff releases made as part of the Workforce Change programme, when it was part of the Departmental Transformation Programme in 2008-09. [2] Transaction savings are defined as non-paybill savings in operational costs achieved through efficiencies, or improvements to our processes. [3] 2009-10 figures are forecast for the year, rather than actuals to date.

Transformation is expected to have long-term benefit, resulting in tax yield benefits continuing to accrue in future years.

The information requested is provided in the following table:

	Headcount	*Head count year-on-year change*	*Head count change to date*	*Full-time equivalent (FTE)*	*FTE year-on-year change*	*FTE change to date*
1 April 2006	97,332	n/a	n/a	89,702	n/a	n/a
1 April 2007	96,511	-821	-821	88,936	-766	-766
1 April 2008	90,961	-5,550	-6,371	83,828	-5,108	-5,874
1 April 2009	88,875	-2,086	-8,457	81,160	-2,668	-8,542
1 January 2010[1]	79,620	-9,255	-17,712	72,147	-9,013	-17,555

[1] Figures for 2009-10 include the transfer of 4,803 staff (4,628 FTE) from HMRC to the UK Border Agency.

Note

These figures relate to headcount and FTE numbers on the 1 April each year, except the current year where the figures are based on figures at 1 January 2010.

Mr. Duncan Smith: To ask the Chancellor of the Exchequer what estimate he has made of the loss to the Exchequer arising from official error on the part of HM Revenue and Customs staff in each of the last five years. [317299]

Sarah McCarthy-Fry: The information requested is available only at disproportionate cost, as the figures for all HMRC Official Error cases are not collated centrally.

Total revenue losses for HMRC are shown on p100 (table 8.2) of HMRC's Trust Statement, available at:

http://www.hmrc.gov.uk/about/reports.htm

It is not possible to disaggregate figures of Official Error cases from the totals shown.

Revenue and Customs: Manpower

Mr. Liddell-Grainger: To ask the Chancellor of the Exchequer what the HM Revenue and Customs employee headcount was for its *(a)* PSN and *(b)* information management services department in (i) 2006, (ii) 2007, (iii) 2008 and (iv) 2009. [312146]

Mr. Timms: The information requested is provided in the following table:

	Employee headcount	
	HMRC directorate	
	IMS (Information Management Services)	*PSN (PAYE, SA and NIC)*
April 2009	1,428	372
April 2008	1,499	350
April 2007	1,743	388
April 2006	1,997	334

Sick Pay

Hywel Williams: To ask the Chancellor of the Exchequer what estimate he has made of the amount of statutory sick pay not paid by companies in each of the last five years. [316756]

Mr. Timms: No such estimate has been made.

Hywel Williams: To ask the Chancellor of the Exchequer which 50 companies owe the most in statutory sick pay contributions; and how much each such company owes in such contributions. [316757]

Mr. Timms: Employers are responsible for establishing entitlement and making payment of any Statutory Sick Pay (SSP) due to their employees.

The information requested is not available, as there is no obligation on employers or employees to report to HM Revenue and Customs cases where an employer owes SSP to an employee.

Stamp Duty Land Tax

Mr. Duncan Smith: To ask the Chancellor of the Exchequer what estimate he has made of the tax gap in stamp duty land tax in each of the last five years. [317241]

Mr. Timms: In March 2008 HMRC published details of analysis from 2005 that attempted to derive broad-brush estimates of the direct tax gap at the start of the decade. This publication contained a net tax gap estimate for stamp duty land tax of £0.5 billion, within a range of £0.2 billion to £1 billion and can be found at:

http://www.hmrc.gov.uk/research/direct-tax-gaps.pdf

and

http://www.hmrc.gov.uk/research/measuring-tax-gap.pdf

The most up-to-date information is found in "Measuring Tax Gaps 2009", published at PBR 2009, which contains an illustrative indicator of the tax gap for all stamp duties, available at:

http://www.hmrc.gov.uk/stats/measuring-tax-gaps.pdf

Tax Allowances: North West

Andrew Stunell: To ask the Chancellor of the Exchequer (1) what estimate he has made of the number of people aged 75 years and over resident in each local authority area in the North West with an annual income below *(a)* £10,000, *(b)* the age-related personal allowance of £9,640 and *(c)* the basic level of personal allowance of £6,475 in 2009-10; [317208]

(2) what estimate he has made of the number of people aged between 65 and 74 years old resident in each local authority area in the North West with an annual income below *(a)* £10,000, *(b)* the age-related personal allowance of £9,640 and *(c)* the basic level of personal allowance of £6,490 in 2009-10. [317209]

Mr. Timms: The requested information is not readily available due to small sample sizes at local authority area level and non representative data for individuals with income below the personal allowance.

However, information on taxpayers' income and income tax by unitary authority can be found in table 3.14 'Income and tax by borough and district or unitary authority' on HM Revenue and Customs' website, available at:

http://www.hmrc.gov.uk/stats/income_distribution/menu-by-year.htm#314

Estimates are based on the Survey of Personal Incomes, of which 2006-07 is currently the latest available.

Any inference from the information in tables 3.14 should take into account the confidence intervals in table 3.14a 'income and tax by borough and district or unitary authority, Confidence Intervals'.

Taxation

Mr. Liddell-Grainger: To ask the Chancellor of the Exchequer what forms of individual income are subject to withholding tax but are not part of the Pay As You Earn system; and how the amount to be withheld is calculated on those forms of income. [316948]

Mr. Timms: The Pay As You Earn (PAYE) system applies to income from employment and pensions. Other individual income, outside PAYE, and subject to withholding tax is as follows.

Investment income from banks and building societies has basic rate tax deducted at source by the payer. Individuals who are not liable to tax can arrange to receive their income paid gross or claim a repayment, and those who should only be paying at the 10 per cent. savings rate can claim a repayment.

Interest distributions paid by authorised investment funds and investment trust companies are also subject to deduction of basic rate tax at source. Individuals with no liability or reduced liability can claim a repayment.

Other interest, annual payments and patent royalties payable to individuals are subject to deduction of basic rate tax at source. This is treated as if it were tax paid by the recipient, who then only has a tax liability on the gross amount of the payment if they are higher rate taxpayers.

Dividends are not subject to deduction of basic rate tax at source. However, individuals who receive dividends from UK and most non-UK companies are entitled to a non-payable tax credit designed to compensate for tax paid on corporate profits at the company level, and this is used to satisfy the tax liability of the recipient if they are liable to basic rate tax only. The recipient will then only have an additional liability if liable to higher rate tax on the amount of the dividend plus tax credit. Dividend distributions paid by authorised investment funds are treated in the same way.

Gains from certain life insurance policies are treated as income. Although there is no direct system of tax withholding, insurers are charged corporation tax on returns ultimately attributable to their policyholders. To reflect this, individuals with policies from UK life insurers will be treated as though they have paid basic rate tax on gains they realise from these policies.

Payments under purchase life annuities are subject to deduction of basic rate tax at source on the part of each payment that represents income rather than a return of the original capital used to acquire the annuity. Basic rate tax is deducted from this income by the insurer making the annuity payments and is treated as tax paid by the annuitant.

Income from construction contracts of any individual subcontractor registered for payment under deduction in the Construction Industry Scheme will be subject to a deduction of 20 per cent. on the amount which does not represent the direct cost of materials.

The non resident Landlords Scheme requires UK letting agents to deduct basic rate tax from any rent they collect for non resident landlords from UK property. If non resident landlords do not have UK letting agents acting for them, and the rent is more than £100 a week, their tenants must deduct the tax. When working out the amount to tax the letting agent/tenant can take off deductible expenses.

Property income distributions paid by UK REITs (Real Estate Investment Trusts) or by Property Authorised Investment Funds (PAIFs) are also subject to deduction of tax at the basic rate.

The taxation of income from trusts, other than bare trusts, depends upon whether the income is discretionary or an immediate entitlement. Discretionary payments from trusts which are not settlor-interested carry a credit at the trust rate. Where there is an income entitlement the trustees account for tax on that income and the beneficiaries receive credit for any tax payable by the trustees, along with any tax deducted at source and tax credits. The rate depends upon the nature of the income, 10 per cent. on dividend type income and basic rate on other income.

The treatment of income from estates is similar.

Where settlors are taxable on income arising to a trust, the trustees account for tax on that income as recipients. The settlor receives credit for any tax payable by the trustees along with tax deducted at source and any tax credits, for example attaching to dividends. The rate of tax chargeable on the trustees depends firstly on the nature of the trust and then on the nature of the income.

Taxation: Companies

Mr. Prisk: To ask the Chancellor of the Exchequer (1) how much HM Revenue and Customs (HMRC) charged in fines to *(a)* partnerships and *(b)* companies who (i) were fined for not filing their tax returns with HMRC by 31 January 2009 and (ii) were registered as a partnership for the purpose of receiving their unique taxpayer reference from 1 October 2008; [317355]

(2) how much HM Revenue and Customs (HMRC) charged in fines to *(a)* partnerships and *(b)* companies who were fined for not filing their tax returns with HMRC by 31 January 2010 and were registered as a partnership for the purpose of receiving their unique taxpayer reference from 1 October 2009. [317368]

Mr. Timms: Any partnership registering after 1 October 2008 and 1 October 2009 would not be required to submit a partnership tax return until 31 January 2010 or 31 January 2011 respectively. Penalties for late 2008-09 returns will start to be issued towards the end of February 2010.

Taxation: Fraud

Mr. Duncan Smith: To ask the Chancellor of the Exchequer what estimate he has made of the cost to the Exchequer arising from organised fraud in relation to *(a)* income tax, *(b)* value added tax, *(c)* corporation tax, *(d)* national insurance, *(e)* tax credits and *(f)* child benefit in each of the last five years. [317297]

Sarah McCarthy-Fry: In "Protecting Tax Revenues 2009", published at 2009 pre-Budget report, HMRC estimated that criminal attacks accounted for 12.5 per cent. of the total net tax gap of £40 billion in 2007-08:

http://www.hmrc.gov.uk/pbr2009/protect-tax-revenue-5450.pdf

Reliable estimates for losses arising from organised fraud in income tax, corporation tax national insurance and child benefit are not available.

Estimates for value added tax losses arising from organised fraud (Missing Trader Intra-Community fraud) for the years 2005-06 to 2008-09 are available in "Measuring Tax Gaps 2009":

http://www.hmrc.gov.uk/stats/measuring-tax-gaps.pdf

HM Revenue and Customs 2008-09 Accounts reported that for tax credits £31.9 million was written off due to organised fraud in 2008-09:

http://www.hmrc.gov.uk/about/hmrc-accs-0809.pdf

Taxation: Married People

Chris Ruane: To ask the Chancellor of the Exchequer if he will estimate the *(a)* number and *(b)* proportion of children living in poverty who would benefit from measures to benefit married couples through the tax system. [317963]

Mr. Timms: The number and proportion of children living in poverty who would benefit depends on the specific measure considered to benefit married couples through the tax system; and whether all married couples would benefit or just those with children below a certain age. When considering reforms of this type, it is important to take into account that children in lone-parent families face a higher chance of living in relative poverty than children in couple families. The Households Below Average Income 1994/95-2007/08 publication shows that 36 per cent. of children living in lone-parent families fall below the 60 per cent. median income threshold (before housing costs), against 18 per cent. of children in couple families.

Taxation: Medical Equipment

Mr. Oaten: To ask the Chancellor of the Exchequer pursuant to the answer of 14 December 2009, *Official Report*, columns 856-57W, on taxation: health professions, if he will consider the merits of bringing forward proposals to reduce to zero the rate of value added tax on medical appliances supplied by appliance contractors. [317137]

Mr. Timms: I refer the hon. Member to the answer I gave him on 14 January 2010, *Official Report*, column 1137W.

Taxation: Self Assessment

Mr. Duncan Smith: To ask the Chancellor of the Exchequer what estimate he has made of the tax gap for individuals in income tax self assessment in *(a)* 2005-06, *(b)* 2006-07 and *(c)* 2007-08. [317298]

Sarah McCarthy-Fry: The latest estimate of the tax gap for individuals in self assessment was published at the 2009 pre-Budget report in "Measuring Tax Gaps 2009", available at:

http://www.hmrc.gov.uk/stats/measuring-tax-gaps.htm

Valuation

Robert Neill: To ask the Chancellor of the Exchequer how much the Valuation Office Agency has spent on the Automated Valuation Model (AVM) for domestic dwellings to date; what the purpose of the AVM for domestic dwellings is; and which databases use *(a)* AVM technology and *(b)* data analysed by the AVM system. [317808]

Ian Pearson: From 2003 to 31 January 2010, total expenditure by the Valuation Office Agency (VOA) on Automated Valuation Model (AVM) technology, to support a range of its activities associated with domestic property valuation, has amounted to approximately £14 million.

The VOA originally developed AVM technology to support work on the 2007 Council Tax Revaluation in England, which was postponed in 2005, however the technology has since been used to develop a council tax banding support tool to assist with maintenance of current council tax valuation lists.

AVM technology makes use of data drawn from the VOA's digitised database of property records. The database itself does not use AVM technology.

No analysed data are passed from the AVM systems to the VOA's digitised database of property records.

Valuation Office: Databases

Robert Neill: To ask the Chancellor of the Exchequer on what date the Valuation Office Agency's Geographical Information System is expected to go live in each of the agency's area offices. [317867]

Ian Pearson: The roll-out of the Geographical Information System application to each of the agency's offices is planned to take place over a five-week period commencing in July 2010.

VAT: Charities

Janet Anderson: To ask the Chancellor of the Exchequer if he will lift the requirement for registered charities to pay value added tax on digital audio equipment. [317176]

Mr. Timms: A zero rate of VAT applies to equipment purchased by charities which they make available to disabled people for their domestic or personal use, provided the equipment is designed solely for use by a disabled person. This covers digital audio equipment which is so designed, but does not cover any equipment which disabled people may find useful, but which is also suitable for more general use.

The application of VAT throughout the EU is governed by agreements between the UK and its EU partners. Under these agreements, we are allowed to keep our existing zero rates, but may not extend their scope or introduce new ones.

Welfare Tax Credits

Steve Webb: To ask the Chancellor of the Exchequer how many and what proportion of couples with children receiving *(a)* child tax credit only and *(b)* both working tax credit and child tax credit have both adults in work and do not receive the 30 hour element of working tax credit. [315979]

Mr. Timms: The information requested is not available. Households eligible for child tax credit, but not working tax credit, are not eligible for the 30-hour element of working tax credit.

Working tax credit is designed to remove barriers to work and to top up the earnings of working people on low to moderate incomes. People with a child or a disability can claim it from age 16, provided they work at least 16 hours a week. The hours worked by couples with children can be combined; therefore if both adults in a couple work at least 16 hours a week they will be eligible for the 30 hour element of working tax credit.

In most cases if an individual in the couple works less than 16 hours, HM Revenue and Customs will not hold the necessary information to determine whether the individual is working at all. As such, the Department cannot produce the analysis requested.

Pete Wishart: To ask the Chancellor of the Exchequer how much was spent on each element of *(a)* working tax credit and *(b)* child tax credit in each (i) county and (ii) region in each of the last four years. [317923]

Mr. Timms: Estimates of the average number of recipient families and their entitlements to tax credits, by county, local authority and parliamentary constituency, for 2004-05 to 2007-08, are available in the HM Revenue and Customs (HMRC) publications "Child and Working Tax Credits Statistics Finalised Annual Awards. Geographical Analyses", available at:

http://www.hmrc.gov.uk/stats/personal-tax-credits/cwtc-geog-stats.htm

The same information for 2008-09 is not yet available as awards have not yet been finalised. However, estimates of the number of recipient families with tax credits, based on provisional awards, as at 1 December 2009, are available in the HMRC snapshot publication "Child and Working Tax Credits Statistics. Geographical analyses. December 2009", available at the same internet address.

HMRC do not produce these statistics separately for child tax credit and working tax credit.

Welfare Tax Credits: Newport

Jessica Morden: To ask the Chancellor of the Exchequer how many households in Newport East constituency are in receipt of tax credits. [317347]

Mr. Timms: The latest information on the number of households benefiting from tax credits, by each parliamentary constituency, is available in HM Revenue and Customs snapshot publication "Child and Working Tax Credits Statistics. Geographical Analyses. December 2009", available at:

http://www.hmrc.gov.uk/stats/personal-tax-credits/cwtc-geog-dec09.pdf

Welfare Tax Credits: Rotherham

Mr. MacShane: To ask the Chancellor of the Exchequer how much was paid in working tax credits to eligible households in Rotherham in the latest year for which figures are available. [317510]

Mr. Timms: Estimates of the average number of recipient families and their entitlements to tax credits, by local authority and parliamentary constituency, for 2007-08, are available in the HM Revenue and Customs (HMRC) publications 'Child and Working Tax Credits Statistics Finalised Annual Awards. Geographical Analyses', available at:

http://www.hmrc.gov.uk/stats/personal-tax-credits/cwtc-geog-stats.htm

The same information for 2008-09 is not yet available as awards have not yet been finalised. However, estimates of the number of recipient families with tax credits, based on provisional awards, as at 1 December 2009, are available in the HMRC snapshot publication "Child and Working Tax Credits Statistics. Geographical analyses. December 2009", available at the same internet address.

HMRC do not produce these statistics separately for child tax credit and working tax credit.

INTERNATIONAL DEVELOPMENT

Afghanistan and Pakistan: Overseas Aid

Stewart Hosie: To ask the Secretary of State for International Development which non-governmental organisations are receiving funding from his Department to conduct aid work in *(a)* Afghanistan and *(b)* Pakistan; and how much each is receiving in 2009-10. [317247]

Mr. Douglas Alexander: Details of the Department for International Development's (DFID) bilateral aid delivered by non-governmental organisations (NGOs) in recipient countries are published annually in "Statistics on International Development", which is available in the House Library or online at:

www.dfid.gov.uk

Final data for 2009-10 are not yet available and will be published in the 2010 edition of "Statistics on International Development".

Following is a list of some of the NGOs in Afghanistan and Pakistan that DFID has funded so far in 2009-10. For security reasons it is not possible to name all individual NGOs receiving direct funding from DFID in Afghanistan.

Afghanistan

HALO Trust
Afghanistan Research and Evaluation Unit (AREU)
The British and Irish Agencies Afghanistan Group (BAAG)
Agency Co-ordinating Body for Afghanistan Relief (ACBAR)
Mercy Corps
Peace Dividend Trust
War Child
BBC World Service Trust
Womankind
Relief International
Tiri
Actionaid UK

Pakistan

ACTED
Concern World Wide
Catholic Relief Services
Handicap International
International Committee of the Red Cross
International Medical Corps
International Relief Committee
Mercy Corps
Merlin
Muslim Aid
Oxfam GB
Relief International
Save the Children UK
Sarhad Rural Support Programme
Contact International
Rabta Consortium
Nai Zindagi
Family Health International
Rural Support Programme Network
Mountain Glacier Protection Organisation

Departmental Energy

Andrew Stunell: To ask the Secretary of State for International Development what the estimated *(a)* amount and *(b)* cost was of energy used in his Department in each year since 1997; what proportion of the energy used was generated from renewable sources in each of those years; and if he will make a statement. [317225]

Mr. Michael Foster: The amount and cost of energy use of the Department for International Development's UK estate, for the last five years, (without any allowance for organisational changes or weather correction) are provided in the table.

	Amount (KWH)	*Cost (£)*	*Percentage from renewable sources*
2004-05			
Electricity	6,448,093	320,811	95
Gas	4,734,311	67,911	n/a
2005-06			
Electricity	7,055,585	454,478	95
Gas	4,851,902	109,635	n/a
2006-07			
Electricity	6,991,134	620,304	100
Gas	4,309,038	131,460	n/a
2007-08			
Electricity	6,642,910	573,520	100
Gas	4,383,404	103,294	n/a
2008-09			
Electricity	6,089,299	644,079	100
Gas	4,030,927	121,423	n/a

Information on environmental performance is supplied to the Office of Government Commerce (OGC) and the Sustainable Development Commission (SDC), in accordance with the Government targets set for Sustainable Operations on the Government Estate (SOGE). Detailed information is available on the respective OGC and SDC websites. As a result of various measures taken by the Department for International Development (DFID), the carbon emissions after allowing for weather correction have reduced by 15 per cent. over the last two years. All energy is purchased via central Government framework contracts arranged by the Office of Government Commerce, and the variation in expenditure is partly attributable to the changes in unit costs under these contracts.

Iraq Committee of Inquiry

Jenny Willott: To ask the Secretary of State for International Development how many *(a)* documents and *(b)* other items of information in electronic format provided by his Department to the Iraq Inquiry that Inquiry has sought to publish under the procedure set out in the protocol on documents and other written and electronic information; and if he will make a statement. [314541]

Mr. Douglas Alexander: I refer the hon. Lady to the answer given to her by my right hon. Friend the Minister for the Cabinet Office on 9 February 2010, *Official Report*, column 849W.

Overseas Aid

Mr. Clifton-Brown: To ask the Secretary of State for International Development what proportion of the funding provided by his Department to UNITAID was allocated to tuberculosis drugs, vaccine and diagnostics in the latest period for which figures are available. [316703]

Mr. Michael Foster: Donor contributions to UNITAID are not earmarked for specific purposes. At the end of 2009, the cumulative total of funding provided to UNITAID by all donors was $1,017,801,290. Of this amount grants supporting TB treatments and diagnostics were just over 11 per cent. at $113,379,034.

Overseas Aid: Climate Change

Mr. Moore: To ask the Secretary of State for International Development what percentage of the £1.5 billion fast start finance for climate change adaptation programmes announced by the Prime Minister at the UN Climate Change Conference in December 2009 was additional to existing aid allocations. [315411]

Mr. Thomas: All fast start finance will contribute towards the existing Government Official Development Assistance (ODA) target of 0.7 per cent. of Gross National Income (GNI). In order to reach this target the UK's aid programme is growing and fast start will be financed from part of this growth. All of the £1.5 billion fast start finance is additional to spending on climate change in 2009-10.

Overseas Aid: Health Services

Mr. Clifton-Brown: To ask the Secretary of State for International Development what steps his Department is taking to implement the World Health Assembly's resolution 62.15 on prevention and control of multidrug resistant tuberculosis and extensively drug resistant tuberculosis. [316704]

Mr. Michael Foster: The Department for International Development (DFID) is working to implement resolution 62.15 and the earlier resolution 60.19 through our support to the delivery of the Global Plan to Stop TB 2006-15. We recognise that drug resistant strains of TB pose serious threats to achieving the goals of the Global Plan and are working with our partners to ensure that prompt quality diagnosis and effective treatment is available to those who need it.

This includes a 20-year commitment to UNITAID of up to €60 million per year by 2010. UNITAID aims to triple access to rapid testing for multi-drug resistant TB and to reduce the price of multi-drug resistant TB medicines by 25 per cent. by 2010. DFID funds research into new TB drugs and diagnostics, including through the Global Alliance for TB Drugs and the Tropical Disease Research special programme at the World Health Organisation (WHO). In 2006 DFID also provided an additional £1.6 million to the Stop TB Partnership to address extensively drug resistant TB in South Africa.

Mr. Clifton-Brown: To ask the Secretary of State for International Development what steps his Department is taking to promote the development and production of anti-tuberculosis drugs appropriate for children in developing countries. [316705]

Mr. Michael Foster: The Department for International Development (DFID) is committed to supporting the delivery of the Global Plan to Stop TB 2006-15, which specifically highlights children with tuberculosis.

As part of our support we have made a 20-year commitment to UNITAID, the international drugs purchasing facility, of up to €60 million per year by 2010. One of UNITAID's core areas of work is to support the development of, and access to, child-friendly TB medicine.

Mr. Clifton-Brown: To ask the Secretary of State for International Development what steps his Department is taking to implement commitments made by EU member states in the 2007 Berlin Declaration on Tuberculosis. [316706]

Mr. Michael Foster: The Department for International Development (DFID) is working towards implementing commitments in the 2007 Berlin Declaration on TB through our support to the delivery of the Global Plan to Stop TB 2006-15. We do this through country programmes, multilateral organisations, global partnerships, research and through using our political voice in the G8 and other forums.

Palestinians: Overseas Aid

Mr. Soames: To ask the Secretary of State for International Development whether an assessment has been made of the damage to projects in Gaza which have been *(a)* built and *(b)* financed by Government money since the Oslo Peace Accords. [317323]

Mr. Michael Foster: We have not made any specific assessments of the damage caused to projects in Gaza either built or financed with UK Government funding since the Oslo Peace Accords.

Mr. Soames: To ask the Secretary of State for International Development to what *(a)* infrastructure, *(b)* institutions and *(c)* civic sites that have been built in Gaza since the Oslo Peace Accords the Government has contributed funding. [317324]

Mr. Michael Foster: Since the Oslo Peace Accords in 1993, the Department for International Development (DFID) has directly funded a number of small infrastructure and civic site projects in Gaza including repairs to the water and sanitation network, rehabilitation of damaged schools, creation of safe play areas for children, and repairs to approximately 70 kilometres of road. More information on the projects we currently fund is available on the DFID website.

DFID also provides core funding to the UN Relief and Works Agency (UNRWA) which provide education, health care and housing to Palestinian refugees across the region. UNRWA spends approximately one third of its funding in Gaza, which includes infrastructure and civic sites such as health clinics and schools.

Western Sahara: Overseas Aid

Bob Spink: To ask the Secretary of State for International Development pursuant to the oral answer from the Prime Minister of 13 January 2010, *Official Report*, column 688, on Western Sahara, when the level of aid to the Western Sahara will be increased. [317847]

Mr. Douglas Alexander: As set out by the Prime Minister on 13 January, the UK is doubling its aid to areas where there is a growth of ethnic violence. Over the last five years, the Department for International Development (DFID) has doubled aid to fragile and conflict-affected countries to £1.2 billion a year. The 2009 Development White Paper commits DFID to maintaining this momentum by allocating at least 50 per cent. of new bilateral country aid to fragile and conflict-affected countries.

DFID supports Western Sahara through its share of the budget if the European Community Humanitarian Aid Office (ECHO). ECHO has provided €133 million in humanitarian aid to Western Sahara since it was established.

SOLICITOR-GENERAL

BAE Systems: Fines

Mr. Dai Davies: To ask the Solicitor-General by what date BAE Systems will be required to pay the fine imposed on it in relation to its activities in Tanzania; and if she will make a statement. [317256]

The Solicitor-General: The financial aspects of the plea agreement reached between the SFO and BAE in relation to Tanzania are all subject to the approval of the Crown Court, which will determine the appropriate sentence including the period within which any financial penalties must be paid. Criminal proceedings will be commenced in due course.

BAE Systems: USA

Sir Menzies Campbell: To ask the Solicitor-General what discussions the Attorney-General has had with the US Department of Justice on BAE Systems in the last 12 months. [317507]

The Solicitor-General: The Attorney-General has had no such discussions.

Departmental Energy

Andrew Stunell: To ask the Solicitor-General what the estimated *(a)* amount and *(b)* cost was of energy used in the Law Officers' Departments in each year since 1997; what proportion of the energy used was generated from renewable sources in each of those years; and if she will make a statement. [317239]

The Solicitor-General: The Law Officers' Departments have been reporting energy consumption and cost data since 2000-01 as part of the Sustainable Operations on the Government Estate (SOGE) reporting process. The Law Officer's Departments are well above the existing Government targets in using renewable energy. Data prior to 2000-01 are not available and to obtain this information in order to inform a meaningful estimate would incur disproportionate cost.

The data reported relate solely to the Law Officers' Departments controlled estate and exclude properties where energy costs are included as part of a general service charge levied by landlords or the major Government occupier of the property. Data to identify energy costs and inform a meaningful estimate of energy usage in these properties are not available and to obtain them would incur disproportionate cost.

The data reported by the Law Officers' Departments for the years since 2000-01 are detailed in the following table. Cost figures for 2007-08 and 2008-09 are not available and are estimated based on 2006-07 cost.

	Cost (£ million)	*kWHrs (million)*	*Percentage renewable*
1997-98	n/a	n/a	n/a
1998-99	n/a	n/a	n/a
1999-2000	n/a	n/a	n/a
2000-01	1.18	30.1	n/a
2001-02	1.00	24.4	n/a
2002-03	1.01	26.4	24
2003-04	1.06	32.2	33
2004-05	1.35	34.2	30
2005-06	1.61	31.3	44
2006-07	1.89	31.0	46
2007-08	1.76	28.9	42
2008-09	1.99	32.6	35

Iraq Committee of Inquiry

Jenny Willott: To ask the Solicitor-General how many *(a)* documents and *(b)* other items of information in electronic format provided by the Law Officers' Department's to the Iraq Inquiry that Inquiry has sought to publish under the procedure set out in the protocol on documents and other written and electronic information; and if she will make a statement. [314542]

The Solicitor-General: I refer the hon. Lady to the answer given to her by the Minister for the Cabinet Office (Tessa Jowell) on 9 February 2010, *Official Report*, column 894W.

Special Advocates

Mr. Dismore: To ask the Solicitor-General whether special advocates have been employed in cases involving *(a)* naturalisation judicial reviews, *(b)* Parole Board hearings, *(c)* pre-charge detention hearings, *(d)* production order hearings, *(e)* planning inquiries, *(f)* family proceedings and *(g)* the Mental Health Review Tribunal since their introduction. [316617]

The Solicitor-General: The answer to the question the hon. Member for Hendon has posed may most helpfully be put in the form of a table, which appears as follows. The table relates to the UK and has been prepared with the assistance of the Office of the Solicitor to the Advocate-General for Scotland.

		Yes	*No*
(a)	Naturalisation Judicial Reviews	—	x
(b)	Parole Board Hearings	x	—
(c)	Pre-Charge Detention Hearings	—	x
(d)	Production Order Hearings	—	x
(e)	Planning Inquiries	—	x
(f)	Family Proceedings	x	—
(g)	Mental Health Review Tribunal	—	x

JUSTICE

Correctional Services Board: Finance

Mr. Grieve: To ask the Secretary of State for Justice what the *(a)* allocated budget for and *(b)* expenditure on fees for members of the Correctional Services Accreditation Panel was in 2008-09; and if he will make a statement. [317694]

Mr. Straw: The allocated budget for the Correctional Services Accreditation Panel (CSAP) in 2008-09 was £155,000. Expenditure on fees for panel members during that period was £121,363.63. A breakdown of budget costs is included in the Correctional Services Accreditation Panel Annual Report for 2008-09, which was published on the Ministry of Justice website on 1 February 2010.

Custodial Treatment: Young Offenders

Mr. Burrowes: To ask the Secretary of State for Justice how many custodial sentences have been imposed on young offenders in each youth offending team area in each of the last six months. [317526]

Claire Ward: The available information is shown in the following table. Data for the last six months are not available—data for each month of 2008 are supplied in lieu. Data for 2009 will be available when Sentencing Statistics 2009 is published in the autumn.

Data by region held on the courts proceedings database does not match exactly to Youth Offending Team areas which are based on local authority areas.

The criminal justice areas that make up each region are shown in the table.

Young offenders[1] sentenced to custody by region[2]

Justice Statistics—Analytical Services, Ministry of Justice Ref: PQ(JSAS)317526 17/02/2010.

Departmental Electronic Equipment

Mr. Hands: To ask the Secretary of State for Justice how many plasma screen televisions his Department has purchased since 2001; and what the cost has been of purchasing and installing such screens in each such year. [306079]

Mr. Wills: Flat screen televisions may be plasma or LCD. It is not possible to determine which type of flat screen has been purchased in all cases, except at the disproportionate cost of physically examining all of the TVs or retrieving all invoices which are filed locally around the business.

Similarly it is not possible to identify the purpose of these purchases in all cases, except at disproportionate cost. However, no flat screen TVs have been purchased for prisoners' cells.

Expenditure between October 2008 to November 2009

Since October 2008, the Ministry of Justice has had one main supplier for the provision of flat screen televisions. From the start of this contract up to November 2009, £139,676 was spent on flat screen televisions. This figure excludes the costs of installation which is undertaken by local estates teams across the Ministry. Installation costs cannot be separately quantified but represent a tiny element of the work of estates teams. Procurement records indicate that flat screen television expenditure included 10 plasma screen televisions at a cost of £6,180.

It is possible, though unlikely, that some further expenditure may have been incurred outside of the contract using the Government Procurement Card (GPC). To investigate whether any flat screen televisions, DVD players or stereo equipment had been purchased with the GPC card would incur disproportionate cost.

Expenditure prior to October 2008

Prior to October 2008, there was one main supplier for the National Offender Management Service (NOMS) part of the business. Expenditure under this contract was £26,454 in 2007-08, with no expenditure recorded prior to that date. It is not known whether these televisions were plasmas or LCDs.

The Tribunals Service also had a single contract for the supply of flat screen TVs. Expenditure under this contract was a fixed annual contractual sum of £10,000 per annum, starting from 2006-07. It is not known whether these televisions were plasmas or LCDs.

The wider Ministry operated numerous local contracts and it is not possible to determine total expenditure on flat screen televisions prior to October 2008 without incurring the disproportionate cost of examining individual transactions incurred under local contracts. However, between March 2006 and March 2008, 397 flat screen television screens were purchased at a total cost of £516,478 by HM Courts Service, mainly in connection with the Videolinks Project, which allows vulnerable witnesses to take part in trials without actually being present. Videolinks also connects to a number of prisons, which saves money by allowing certain meetings and proceedings to occur which would otherwise require prisoner transport and accommodation.

Departmental Energy

Andrew Stunell: To ask the Secretary of State for Justice what the estimated *(a)* amount and *(b)* cost was of energy used in his Department and its agencies in each year since 1997; what proportion of the energy used was generated from renewable sources in each of those years; and if he will make a statement. [317203]

Mr. Wills: Since the Ministry of Justice (MOJ) was created in May 2007, the estimated reported amount of energy used in MOJ and its agencies and the cost is:

	Energy consumption 2007-08 kWh	*Cost 2007-08 (£)*	*Energy consumption 2008-09 kWh*	*Cost 2008-09 (£)*
Total	1,797,466,581	79,056,169.68	1,764,553,696	105,493,183

http://www.sd-commission.org.uk/publications.php?id=848

Central Government Departments and their executive agencies had a target to source at least 10 per cent. of electricity from renewables by 31 March 2008. The proportion of energy generated from renewable sources for MOJ and its agencies was 8 per cent. in 2007-08. MOJ sourced 20 per cent. of its energy from renewable sources during 2008-09.

Published data for 2007-08 can be found at:

http://www.sd-commission.org.uk/publications.php?id=849

Published data for 2008-09 can found at:

http://www.ogc.gov.uk/sustainable_development_in_government_chp_consumption_and_ renewables.asp

Departmental Information Officers

Mr. Hurd: To ask the Secretary of State for Justice how many staff in his Department and its agencies *(a)* have the status of embedded communicators and *(b)* are members of the Government Communications Network but are not listed in the Central Office of Information White Book. [315165]

Mr. Wills: The following table lists the number of staff in embedded communications roles in the Ministry of Justice. The embedded communications staff is employed primarily in communications roles based in policy and delivery units outside central communications functions.

MOJ Group	*Headcount (FTE) as of January 2010*	*GCN members*
Corporate Performance Group	6.5	5
Democracy, Constitution and Law	3	2
Access to Justice	0	0
National Offender Management Service	17	n/a
Criminal Justice	11.6	5
Total MOJ	38.1	—

The Government Communications Network (GCN) membership is voluntary and not required to work in a communications role. Data on GCN membership are not collected and neither are they stored by the Ministry of Justice. The Cabinet Office unit who administer the GCN are unable to share membership data without the permission of individual members. Therefore it is not possible to readily provide accurate information for National Offender Management Service.

Departmental Manpower

Mr. Philip Hammond: To ask the Secretary of State for Justice how many layers of management reporting from the most senior to the most junior there are in his Department and each of its agencies; how many officials are employed in each such layer; and how much was spent on salaries and associated employment costs of staff at each such layer in the latest year for which information is available. [312822]

Mr. Wills: Staff employed by the Ministry of Justice (excluding the National Offender Management Service (NOMS)) below the senior civil service (SCS) and its agencies (Her Majesty's Court Service (HMCS) and the Tribunals Service) are employed on the same terms and conditions. They work in job roles aligned to one of seven pay bands/grades—four of which may include management responsibilities. Allocation of a job role to a particular pay band is determined by the level of the level of responsibility and job evaluation. This grading system is comparable with the standard civil service grading system. In levels of descending seniority management grades below the SCS are:

Band A is the highest (typical job roles include qualified solicitors or accountants and senior operational managers)

Band B and C, which are middle management job roles (these may include junior lawyers or accountants, and legal advisors in magistrates courts)

Band D job roles, which are the first level of supervision.

The pay and grading structure for the SCS is managed by the Cabinet Office and is common across all civil service departments.

Details of each level of management responsibility (including SCS), the number of staff in each layer, and the amount spent on staff salaries are contained in the following table.

Management level	*Equivalent civil service descriptor*	*Number of staff*	*Salary costs (£)*
Corporate management board	Permanent Secretary and Director General	10	2,028,371
SCS Payband 2	Director	45	8,911,000
SCS Payband 1	Deputy Director	195	20,332,896
Band A	Grade 6 and Grade 7	1,551	98,375,515
Band B	Senior Executive Officer	2,477	112,987,699
Band C	Higher Executive Officer	1,986	57,845,114
Band D	Executive Officer	4,673	123,435,357

Notes:

1. The information provides details of basic salary but excludes payments of allowances, overtime and non-consolidated performance pay. Employers National Insurance and Pensions Contributions have been averaged at 19 per cent. for Bands A to F and 34 per cent. for SCS.
2. The information provided in the table relates to salary payments to staff working on the Ministry of Justice 'Deal' terms and conditions.
3. Details of the Permanent Secretary's remuneration is available in the MOJ Resource Accounts.
4. Latest salary cost information are for implementation of 2009-10 pay award effective 1 August 2009 with details of staff in post at that time.

Since July 2000, NOMS has operated a common unified pay structure for senior and middle managerial grades within 'Phase One' of their pay and grading arrangements. Roles are placed in one of seven paybands ranging from Senior Manager A to Manager G, which is determined by the level of responsibility of the role. Other grades on separate pay scales outside of 'Phase One' also provide a managerial function. These include Principal and Senior Prison Officers.

Senior Manager A is the highest management level (typical roles include Governors of high security prisons). Typical middle management roles are placed at Manager E, F or G (roles at these levels include operational or administrative managers). Details of each level of management responsibility, the number of staff in each payband and the total amount spent on staff salaries and associated employment costs for the latest period for which figures are available (1 April 2009 to 31 December 2009) are set out in the following table.

Management level	*Equivalent civil service descriptor*	*Number of staff*	*Salary costs (£)*
Senior Manager A	Grade 6	59	5,124,929
Senior Manager B	Grade 6	144	10,917,688
Senior Manager C	Grade 7	145	10,037,610
Senior Manager D	Grade 7	571	35,856,917
Manager E	SEO	1,336	62,313,486
Manager F	SEO	1,434	96,423,228
Manager G	HEO	921	27,067,627
Managerial grades outside of phase one of pay and grading	No single grade descriptor[1]	8,022	237,101,414

[1] These grades include roles such as senior officer and principal officer.

Note:

Staff in post information is for December 2009.

Departmental Travel

Mr. Watson: To ask the Secretary of State for Justice if he will publish the travel guidance issued to staff of each of his Department's agencies and non-departmental public bodies. [314924]

Mr. Wills: Travel guidance for staff working in the Ministry of Justice and its agencies and non-departmental public bodies (NDPBs) encompasses a number of different publications and either relates to the terms on which individuals claim reimbursement for business related travel, or health and safety advice. Any expenditure authorised for staff travelling on behalf of the Ministry is made in accordance with regulations on managing public money.

Publications with travel guidance include:

The Safe Driving at Work Policy Statement

Travel and Subsistence Policy

Information for staff travelling to work in bad weather.

I will place the information referred to above relating to the Ministry of Justice (and where different, its agencies and NDPBs) in the House of Commons Library.

Driving Offences: Suffolk

Mr. Ruffley: To ask the Secretary of State for Justice how many *(a)* convictions, *(b)* cautions and *(c)* fixed penalty notices have been given to people arrested for speeding offences in Suffolk in each year since 1997. [314868]

Mr. Alan Campbell: I have been asked to reply.

Data from 1997 to 2007 (latest available) on fixed penalty notices issued for speeding offences in Suffolk police force area are provided in table A.

Data provided by the Ministry of Justice, showing the number of convictions for speeding offences and vehicle registration and excise licence offences in Suffolk from 1997 to 2008 (latest available) can be viewed in Table B.

Cautions are not issued by the police for speeding offences.

Court proceedings data for 2009 are expected to be published in the autumn 2010.

Table A: Number of fixed penalty notices issued for speed limit offences, Suffolk police force area, 1997 to 2007[1]

	Number of notices
1997	7,271
1998	12,640
1999	18,088
2000	12,596
2001	12,416
2002	9,477
2003	16,606
2004	40,847
2005	40,029
2006	34,442
2007	30,378

[1] From 2000 onwards the national safety camera programme was introduced which increased enforcement of speeding offences.

Table B: Number of convictions for speed limit offences in Suffolk from 1997 to 2008[1]

Number of offences

	Convicted at all courts											
	1997	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*	*2006*	*2007*	*2008*
Speed limit offences	1,052	1,469	1,678	1,233	1,252	1,284	776	1,856	3,249	3,054	3,418	3,577

[1] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Mr. Ruffley: To ask the Secretary of State for Justice how many *(a)* convictions, *(b)* cautions and *(c)* fixed penalty notices have been given to people arrested for driving without a valid MOT certificate in Suffolk in each year since 1997. [314869]

Mr. Alan Campbell: I have been asked to reply

Data from 1997 to 2007 (latest available) on fixed penalty notices issued for vehicle test (MOT) offences in Suffolk police force area are provided in table A.

Data on the number of convictions for vehicle test offences in Suffolk from 1997 to 2008 (latest available) can be viewed in table B.

Data on fixed penalty notices held by the Home Office and Ministry of Justice cannot separately identify the specific offence of driving a vehicle without a valid MOT certificate. The following table shows the total number convictions for all vehicle test offences.

Court proceedings data for 2009 are expected to be published in autumn 2010.

Table A: Number of fixed penalty notices issued for vehicle test offences, Suffolk police force area, 1997 to 2007

	Number of notices
1997	—
1998	—
1999	—
2000	—
2001	2
2002	1
2003	—
2004	—
2005	—
2006	60
2007	471

Table B: Number of convictions for vehicle test offences in Suffolk 1997 to 2008[1]

Number of offences

	Convicted at all courts											
	1997	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*	*2006*	*2007*	*2008*
Vehicle test offences	1,707	1,757	1,951	1,769	1,717	2,009	2,309	2,180	1,588	1,196[2]	777	474

[1] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used. *Source:* Justice Statistics Analytical Services—Ministry of Justice (Ref: IOS 056-10) and (Ref: IOS 057-10).

Electoral Register: Overseas Residence

Mr. Evennett: To ask the Secretary of State for Justice what steps his Department is taking to increase the number of eligible overseas electors who are registered to vote. [317266]

Mr. Wills: The Government are keen to enhance registration rates generally, including among overseas electors. The Government have laid a statutory instrument in Parliament which extends the service voter declaration period from three to five years in respect of members of the armed forces, and their spouses or civil partners. This is intended to facilitate higher levels of registration among overseas service personnel.

The Electoral Commission promote awareness of UK electoral systems and electoral registration procedures including how to vote, and has conducted a series of promotional campaigns aimed at enhancing the registration rates among overseas electors more generally. The latest campaign ran in autumn 2009. I understand that it included online advertising using websites popular with British citizens living abroad and the distribution of information via British consulates and embassies. The campaign resulted in almost 25,000 visits to the overseas voters page of the Commission's About My Vote website. More than 7,000 overseas voter registration forms were downloaded from the site during the campaign.

The Commission will also target British citizens living abroad as part of its campaign ahead of a UK parliamentary general election. The campaign will encourage people to register to vote and also make them aware of the absent voting options available to them.

Human Trafficking: Victims

Mr. Jim Cunningham: To ask the Secretary of State for Justice what recent steps his Department has taken to support victims of human trafficking. [316986]

Maria Eagle: From 2003-09 we invested £5.8 million in the poppy Project to provide specialist support to women trafficked into sexual exploitation only. Over the current and next financial year we have invested an additional £3.9 million in the provision of specialist support to victims of all forms of human trafficking, including victims of sexual exploitation, domestic servitude and forced labour. This includes as a minimum: safe accommodation; advocacy; access to counselling; access to legal advice and interpretative services.

A National Referral Mechanism (NRM) has been put in place to systematically identify victims and refer them to specialist support. Identified victims are granted an extendable 45-day recovery and reflection period in which to consider their options and access specialist support services, and one-year temporary residency permits in certain circumstances.

A victim's information leaflet, produced in October 2009 is now available in a range of languages. The leaflet provides information for victims on the support available to them, their options and legal rights.

Iraq Committee of Inquiry

Jenny Willott: To ask the Secretary of State for Justice how many *(a)* documents and *(b)* other items of information in electronic format provided by his Department to the Iraq Inquiry that Inquiry has sought to publish under the procedure set out in the protocol on documents and other written and electronic information; and if he will make a statement. [314543]

Mr. Wills: I refer the hon. Lady to the answer given by my right hon. Friend the Minister for the Cabinet Office, and for the Olympics and Paymaster General (Tessa Jowell) on 9 February 2009, *Official Report*, columns 893-94W.

Land Registry: Manpower

Grant Shapps: To ask the Secretary of State for Justice how many people the Land Registry employed on the latest date for which figures are available. [316797]

Mr. Wills: The latest figures available are for 1 February 2010 and are shown in the following table. The figures shown under "off strength" refer to staff who remain employees of Land Registry but are not currently on the payroll, for example staff who are on career breaks or unpaid maternity leave or unpaid special leave.

	Number
Headcount	
On strength	6,263
Off strength	128
Total	6,391
Full time equivalents	
On strength	5,665
Off strength	100
Total	5,765

Land Registry: Peterborough

Mr. Stewart Jackson: To ask the Secretary of State for Justice what recent representations he has received on the proposed closure of the Land Registry's Peterborough office; and if he will make a statement. [317751]

Mr. Wills: Land Registry published their Accelerated Transformation Proposals on 22 October 2009. A public consultation on the proposal to close five offices closures ended on 29 January 2010. The Peterborough Land Registry office was one of those proposed for closure.

Land Registry have received responses from local MPs and MEPs in Peterborough and the surrounding area, and from their constituents, regarding these proposals. All contributions are now being considered and Land Registry currently plans to announce final decisions and publish a full responses document in March.

Life Imprisonment

Mr. Grieve: To ask the Secretary of State for Justice what the average tariff given with a mandatory life sentence was in each of the last 10 years. [316328]

Mr. Straw: The average length of tariff given to offenders sentenced to a mandatory life sentence in each of the last 10 years, as at 5 February 2010, is shown in the following table.

Year of sentence	*Number sentenced*	*Average days*	*Average in years (1 year = 365 days)*
2000	251	5,228	14.32
2001	278	5,111	14.00
2002	304	4,814	13.19
2003	280	4,992	13.68
2004	355	5,298	14.52
2005	366	5,891	16.14
2006	383	6,402	17.54
2007	353	5,806	15.91
2008	435	6,556	17.96
2009	317	6,402	17.54
Totals	3,322	—	—

The figures include those sentenced to a mandatory life sentence that subsequently had their sentence quashed or died. In a further 144 cases of prisoners sentenced over this period, the courts have yet to determine the length of tariff or the prisoner was given a life sentence by another jurisdiction. The figures also exclude those life sentence prisoners who have been given a whole life tariff. There were 19 whole life tariffs handed down by the courts during this period.

The figures were taken from the Public Protection Unit Database (PPUD) in the National Offender Management Service, and, as with any large scale recording system, it is subject to possible errors arising from either data entry or processing. The PPUD is a live database, updated on a regular basis. As a result, snapshots taken in consecutive days will contain differences reflecting updates.

National Offender Management Service

Mr. Grieve: To ask the Secretary of State for Justice what the *(a)* role and *(b)* responsibilities will be of the Chief Executive Officer of the National Offender Management Service (NOMS); and what the (i) role and (ii) responsibilities have been of the Director General of NOMS. [313367]

Mr. Straw: The National Offender Management Service (NOMS) is an Executive agency of the Ministry of Justice through which correctional services and interventions are commissioned and provided across England and Wales, within the strategic policy framework set by the UK Government. It is responsible for commissioning adult offender services and delivering these through a range of providers from the public, private and third sectors, as efficiently and effectively as possible, in all of the regions of England and Wales. The agency is also commissioned by the Youth Justice Board to provide youth custody places in young offender institutions.

The chief executive is the director general of NOMS. These are not different roles. The responsibilities of the chief executive are:

(a) reports to the permanent secretary of the Ministry of Justice and is a member of the Ministry's Corporate Management Board (CMB), fully contributing to the strategic direction of the Ministry and jointly accountable as such for its collective performance;

(b) supports Ministers, the permanent secretary and the Ministry of Justice's CMB by delivering against departmental strategic objective 3—protecting the public and reducing re-offending—and he/she is ultimately accountable to the Secretary of State for the overall performance of the agency and the delivery of its plans, objectives, targets and standards;

(c) as the accounting officer for the agency, he or she is responsible for managing, allocating and accounting for the budget of NOMS agency;

(d) has a key role in influencing other Government Departments to address the needs of offenders, and in providing feedback to sentencing bodies and others about the delivery and outcomes of various sentencing options; and.

(e) has overall leadership responsibility for the strategic direction and performance of the agency.

There is, however, a separate role of chief operating officer, also at DG level, which is responsible for delivery of prison and probation operations to meet MOJ strategic objectives on 'helping to protect the public and reduce re-offending'; specifically:

Development of a coherent regional delivery model to support the efficient and effective management of offenders in custody and community to protect the public and reduce reoffending;

Delivery of an integrated efficient and effective offender management system;

Development of realistic and deliverable reducing reoffending action plans, to achieve a 10 per cent. reduction in re-offending by 2011-12.

The chief operating officer is also responsible for ensuring operational delivery risks and constraints are fully understood and considered in developing the direction of the NOMS agency and in development of criminal justice strategy within MOJ.

Offences Against Children: Convictions

Mr. Grieve: To ask the Secretary of State for Justice with reference to the answer of 20 May 2009, *Official Report*, column 1438W, on children: abuse, how many people aged 21 years and over with a previous conviction were *(a)* prosecuted and *(b)* convicted for offences relating to child abuse in 2008. [317143]

Mr. Straw: According to information recorded by the police on the Police National Computer (PNC) there were 1,323 offenders aged 21 and over who were convicted in 2008 in England and Wales of offences relating to child abuse; at the time of their conviction 721 of these had one or more previous convictions for offences of any kind. Equivalent figures for offenders who have been prosecuted are not available.

These figures have been drawn from the police's administrative IT system which, as with any large scale recording system, is subject to possible errors with data entry and processing. The figures are provisional and subject to change as more information is recorded by the police. PNC data have been used here rather than court proceedings data, which are the usual source of published conviction statistics, as the PNC provides information on the criminal history of offenders.

Open Prisons

Mr. Grieve: To ask the Secretary of State for Justice pursuant to the answer of 12 January 2010, *Official Report*, column 933W, on open prisons, how many prisoners convicted of murder were held in open prison in each of the last five years. [316497]

Mr. Straw: The following table gives figures for the numbers of prisoners serving sentences for murder held in open prisons in the years between 2005 and 2009:

Prisoners held in open prisons serving sentences for murder 2005-09

	2005	2006	2007	2008	2009
Total	350	310	260	270	275
Askham Grange	5	5	5	5	10
Ford	40	40	25	35	25
Hewell[1]	0	0	0	5	10
Hollesley Bay	20	10	15	15	20
Kirkham	25	25	25	30	30
Leyhill	85	75	60	55	50
Moorland Open	0	0	0	0	0
North Sea Camp	40	30	20	15	25
Prescoed	35	25	20	20	15
Spring Hill	20	20	15	15	15
Standford Hill	15	10	20	15	10
Sudbury	65	65	50	55	60
East Sutton Park	0	5	5	5	5

[1] Hewell consists of three units; only the open unit has been counted.

Note:

Totals rounded to the nearest five; figures for June each year.

The total number of prisoners convicted of murder and in prison was around 4,900 at the end of June 2009. The figure in the open estate is therefore 5 per cent of the total. There have been open prisons since 1936 and they are widely accepted as the most effective means of ensuring prisoners are tested in the community before they are released. To release prisoners directly from a closed prison without the resettlement benefits of the open estate would undoubtedly lead to higher levels of post-release reoffending.

Prisoners are assessed objectively in a process looking at all aspects of their offending behaviour, actions they have taken to reduce their likelihood of reoffending and the risk they pose to the public. They are placed in the lowest security category consistent with their assessed risk. Only prisoners placed in the lowest security category

(D) may be allocated to open conditions. If their behaviour becomes a cause for concern, they can be moved back to more secure conditions.

Prisoners convicted of murder serving life sentences and other indeterminate sentence prisoners will be transferred from closed to open prison conditions only following the acceptance of a Parole Board recommendation to the Secretary of State. Before making such a recommendation, the Parole Board must be satisfied that the case meets the criteria set out in the Directions to the Parole Board under section 32(6) of the Criminal Justice Act 1991, of which the risk of abscond is a central factor.

Transfer of any prisoner to open conditions will only take place if continued detention in closed conditions is no longer necessary for the protection of the public. Open conditions allow prisoners to find work, re-establish family ties and reintegrate into the community. All these are essential components for successful resettlement and an important factor in protecting the public.

These figures have been drawn from administrative IT systems which, as with any large scale recording system, are subject to possible errors with data entry and processing. Totals for each prison have been rounded to the nearest five and the grand total to the nearest 10; separately rounded sub-totals may not add to the rounded total.

These figures have been drawn from administrative IT systems which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Political Parties

Peter Luff: To ask the Secretary of State for Justice pursuant to the answer to the hon. Member for Brentwood and Ongar of 5 January 2010 from the hon. Member representing the Speaker's Committee on the Electoral Commission, whether he has given a direction to the Electoral Commission on which of the UK's electoral regions should receive the additional European Parliament seat provided for under the Treaty of Lisbon. [316917]

Mr. Wills: No. The Government will ask the Electoral Commission to make a recommendation on this issue in due course.

Prison Accommodation

Mr. Grieve: To ask the Secretary of State for Justice pursuant to the answer to the hon. Member for Chesterfield of 7 January 2010, *Official Report*, column 546W, on prison accommodation, how many places were not included in the certified normal accommodation of the prison estate in each of the last three years. [317144]

Mr. Straw: This information could be obtained only at disproportionate cost as it would require a manual trawl of the changes to every establishment's certified normal accommodation over the last three years.

Prisoners Release: Domestic Violence

Mr. Grieve: To ask the Secretary of State for Justice with reference to the answers of 2 November 2009, *Official Report*, columns 741W and 742W, on prisoners' release: domestic violence and prisoners' release: reoffenders, whether any offender on end of custody licence has been *(a)* charged with and *(b)* convicted of an offence (i) relating to domestic violence and (ii) of manslaughter since 2 November 2009. [317141]

Mr. Straw: Determinate sentenced prisoners may be released into the community up to 18 days earlier than the halfway point of their sentence under the End of Custody Licence (ECL) Scheme. Indeterminate sentenced prisoners are not eligible for ECL.

Data on ECL releases, recalls and alleged re-offending are published every month on the following website:

http://www.justice.gov.uk/publications/endofcustodylicence.htm

The total number of alleged further offences committed by prisoners during their period of ECL as notified to NOMS for period 29 June 2007 to 31 December 2009 is 1,543, as published in the ECL releases and recalls statistical bulletin published on 29 January 2010.

Where the National Offender Management Offender Service (NOMS) is notified of a further charge while an offender is subject to ECL, it is not centrally recorded as to whether the offence was specifically in relation to violence within a domestic setting. Such information would be contained within individual records and could only be collated by manual checking of individual case details and could only be carried out at disproportionate cost.

In addition to data held on offenders who are notified to the National Offender Management Service as having been charged with an offence while subject to ECL, of those offenders who since 2 November 2009 were released on ECL and who were subject to probation supervision, NOMS has received no notification in line with serious further offences procedures that there has been any case where an offender has been charged with manslaughter.

Prisoners: Foreigners

Mr. Grieve: To ask the Secretary of State for Justice how many convicted foreign national prisoners were released from prisons in England and Wales in the last 12 months. [317129]

Mr. Straw: I refer the hon. Gentleman to the answer I provided on 14 December 2009, *Official Report*, column 801W.

> "The number of discharges of foreign national prisoners from completed determinate sentences in 2008 was 9,500. This figure has been rounded to the nearest 100.
>
> Data for 2009 are not yet available.
>
> These figures have been drawn from administrative IT systems which, as with any large scale recording system, are subject to possible errors with data entry and processing."

Data for 2009 will be available following publication of Offender Management Caseload statistics 2009, scheduled for release in July 2010.

Prisons: Drugs

Philip Davies: To ask the Secretary of State for Justice what assessment he has made of the relationship between the supply of illicit drugs into prison and the effectiveness of drug treatment in prisons; and what assessment was made of the merits of including demand for illegal drugs in the remit of the Blakey Review. [316183]

Maria Eagle: The National Offender Management Service (NOMS) has a comprehensive drug strategy for prisons. It has three key elements that interlink to reduce drug related offending and address individual need:

- reducing supply, through security measures and drug testing programmes;
- reducing demand, through targeted interventions for low, moderate and severe drug-misusers; and
- establishing effective through-care links to ensure continuity of treatment post-release in order to safeguard the gains made in custody.

The overall success of the strategy is evidenced by the reduction in drug misuse in prisons, as measured by random mandatory drug testing. Since 1996-97 the proportion of prisoners testing positive has declined by 68 per cent. In 2008-09 prisons undertook 5.4 per cent. more random mandatory drug tests than in 1996-97. The reduced availability of drugs in prisons provides a firm foundation on which to deliver drug treatment.

NOMS has in place a comprehensive drug treatment framework, based on the National Treatment Agency's Models of Care, to address the needs of drug misusing prisoners. The interventions available are designed to meet the needs of low, moderate and severe drug misusers—irrespective of age, gender or ethnicity. Since 1996-97 funding for prison drug treatment has increased year on year, and is now over 15 times that of 1997 (total 2009-10 allocation is around £112 million).

On 31 January 2008 the Justice Secretary's paper, "Prison Policy Update", set out the steps being taken to tackle drug misuse in prison. Following this the Justice Secretary and the NOMS Director General commissioned two reviews—David Blakey's review "Disrupting the supply of illicit drugs into prisons" and the Prison Drug Treatment Strategy Review Group led by Lord Patel. The focus of the two reviews was complementary, covering respectively security and treatment issues. Together they addressed the range of issues associated with illegal drugs in prison.

Voting Systems

Mr. Grieve: To ask the Secretary of State for Justice whether he has made a recent assessment of the likely effects of the implementation of a preferential voting system on the number of invalid votes cast in an election. [316318]

Mr. Straw: The Government's "Review of Voting Systems", published in 2008, found that

> "there was no conclusive evidence that any one particular voting system is more confusing for the voter, in terms of casting their votes correctly, than any other system".

Young Offenders: Reoffenders

Chris Grayling: To ask the Secretary of State for Justice what proportion of *(a)* juveniles and *(b)* young adult offenders was reconvicted within two years of release in each year since 1997. [317968]

Maria Eagle: Reoffending data are based on offences committed within one year of an offenders' release from custody. Reoffending data covering time periods longer than one year are not collated.

Data on the reoffending of juveniles and young adults from before 2000 are not available.

The proportion of juveniles that committed a proven offence within one year of leaving custody is shown in table 1.

Table 1: Reoffending rates of juveniles discharged from custody, 2000, 2002-07

Cohort	*Number of offenders discharged from custody*	*Percentage reoffending within one year*
Q1 2000	912	75.7
Q1 2002	959	72.9
Q1 2003	786	73.8
Q1 2004	815	76.4
Q1 2005	844	73.1
Q1 2006	817	77.0
Q1 2007	778	75.3

The proportion of young adults that committed a proven offence within one year of leaving custody is shown in table 2.

Table 2: Reoffending rates of young adults discharged from custody, 2000, 2002-07, by age band

Age group	*Cohort*	*Number of offenders discharged from custody*	*Percentage reoffending within one year*
18-20	Q1 2000	2,700	64.6
	Q1 2002	2,462	65.3
	Q1 2003	2,133	62.2
	Q1 2004	2,131	60.2
	Q1 2005	1,978	58.3
	Q1 2006	1,816	55.2
	Q1 2007	1,687	58.7
21-24	Q1 2000	3,338	58.5
	Q1 2002	3,508	60.4
	Q1 2003	3,237	60.0
	Q1 2004	3,311	55.2
	Q1 2005	2,938	52.5
	Q1 2006	2,763	49.0
	Q1 2007	2,349	49.4
Total	Q1 2000	6,038	61.3
	Q1 2002	5,970	62.4
	Q1 2003	5,370	60.9
	Q1 2004	5,442	57.2
	Q1 2005	4,916	54.8
	Q1 2006	4,579	51.5
	Q1 2007	4,036	53.3

Reoffending data are not available for 2001 due to a problem with archived data on court orders.

Please note that the definition of a proven reoffence differs between adults and juveniles. For adults, any offence within a year of release from custody, that is proven by court conviction within 18 months of release, is counted as a reoffence. For juveniles, an offence proven by court conviction or a caution within the same time period is counted as a reoffence. For these reasons the adult and juvenile reoffending rates are not comparable.

The frequency of reoffending by juveniles given an out of court disposal, commencing a non-custodial court disposal or discharged from custody in England and Wales fell by 23.6 per cent. from 151.4 offences per 100 offenders in 2000 to 115.7 in 2007.

Further information on adult reoffending is available at:

http://www.justice.gov.uk/publications/reoffendingofadults.htm

Further information on juvenile reoffending is available at:

http://www.justice.gov.uk/publications/reoffendingjuveniles.htm

In England, the number of offenders aged 10-17 entering the criminal justice system for the first time fell from 94,481 in 2007-08 to 74,033 in 2008-09—a 21.6 per cent. decrease.

Further information on first time entrants is available at:

http://www.dcsf.gov.uk/rsgateway/DB/STR/d000895/index.shtml

Youth Justice Board: Finance

Mr. Burrowes: To ask the Secretary of State for Justice how much funding the Youth Justice Board is providing to the Prison Service's Women and Young People Group in 2009-10. [317525]

Maria Eagle: The Youth Justice Board has provided NOMS Service Development Group (formerly Women's and Young People's Group) with £118.180 million of funding to deliver approximately 2,400 custodial places and associated services for all young men aged 15 to 17 and 17-year-old young women during the 2009-10 period. On occasion this may also include 16-year-old young women and 18 to 19-year-old young men and women.

Written Answers to Questions

Monday 22 February 2010

COMMUNITIES AND LOCAL GOVERNMENT

Affordable Housing

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many Homebuy providers there are in each region. [316739]

John Healey: The following table shows the number of providers who have been allocated funding for Homebuy schemes within the 2008-11 National Affordable Housing Programme.

Region	*Number of providers*
East Midlands	39
East of England	48
London	54
North East	21
North West	37
South East	52
South West	30
West Midlands	34
Yorkshire and Humberside	36

Grant Shapps: To ask the Secretary of State for Communities and Local Government how much has been spent on the Rent to HomeBuy scheme in each region on the latest date for which figures are available. [316759]

John Healey: I refer the hon. Member to the answer I gave him on 9 February 2010, *Official Report*, columns 866-68W.

Grant Shapps: To ask the Secretary of State for Communities and Local Government (1) what the average income of a Rent to HomeBuy *(a)* tenant and *(b)* purchaser was in each of the last three years; [316760]

(2) how many homes were rented under the Rent to HomeBuy scheme in each region in each of the last three years; [316762]

(3) how many active tenancies there are under the Rent to HomeBuy scheme in each Government Office region. [316763]

John Healey: Rent to HomeBuy was launched in July 2008. Data on the number of homes rented, active tenancies and the average income of tenants and purchasers are not held centrally.

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many Rent to HomeBuy completions there have been in 2009-10; and how many households have purchased a stake in their home under that scheme in 2009-10. [316761]

John Healey: Provisional data from the Homes and Communities Agency show that there were 4,899 Rent to HomeBuy completions up to end September 2009.

Data are not held centrally on the number of purchases under Rent to HomeBuy.

Sarah Teather: To ask the Secretary of State for Communities and Local Government whether the term Homebuy is monitored as part of *(a)* his Department's media monitoring and *(b)* media monitoring undertaken by a private consultancy on behalf of his Department. [316933]

John Healey: Yes.

Sarah Teather: To ask the Secretary of State for Communities and Local Government how many officials in his Department administer the Homebuy scheme. [316968]

John Healey: The homebuy scheme is administered by the Homes and Communities Agency on behalf of the Department. There are nine full-time equivalent employees working on low cost home ownership policy, including delivery of the homebuy scheme, within the Department.

Sarah Teather: To ask the Secretary of State for Communities and Local Government how many times the eligibility criteria for participation in the Homebuy scheme have changed since the inception of the scheme; and if he will list each such change. [316969]

John Healey: The homebuy scheme was introduced in 2006. Households with an income of up to £60,000 who were unable to buy a home on the open market without assistance, were eligible to apply for assistance. The basic eligibility criteria has not changed.

From 2006-08 priority for support was given to social tenants, prospective social tenants, key workers in the health, education and community safety sectors in London, the South East and the East of England, and those identified by regional housing boards. Some regional boards set lower income caps for support. From 2008 priority was given, in order, to social tenants, prospective social tenants, key workers in all regions and any other first-time buyers.

Sarah Teather: To ask the Secretary of State for Communities and Local Government which programmes are included in the Homebuy scheme; how much has been allocated to each such programme to date; and how many dwellings have been sold under each such programme to date. [316974]

John Healey: The following products are included in the Homebuy scheme; OpenMarket HomeBuy, NewBuild HomeBuy, Social HomeBuy, HomeBuy Direct, and Rent to HomeBuy.

The allocations and provisional completions for each product are listed in the following tables.

Allocations

£

	2006-07	*2007-08*	*2008-09*
Open Market HomeBuy	78,890,252	84,507,252	212,919,256
New Build HomeBuy	403,234,599	373,239,643	203,239,702
Social HomeBuy	536,400	1,912,175	973,175
HomeBuy Direct	0	0	0
Rent to HomeBuy	0	0	123,526,245
	482,661 251	459,659,070	540,658,378

Completions

	2006-07	*2007-08*	*2008-09*
Open Market HomeBuy	2,337	2,876	6,216
New Build HomeBuy	3,023	10,131	8,898
Social HomeBuy	47	157	93
HomeBuy Direct	0	0	0
Rent to HomeBuy	0	0	1,173
	5,407	13,164	16,380

Sarah Teather: To ask the Secretary of State for Communities and Local Government (1) how much funding his Department has allocated to the Homebuy scheme in financial year 2009-10 to date; how much such funding it expects to allocate in financial years *(a)* 2010-11, *(b)* 2011-12, *(c)* 2012-13, *(d)* 2013-14 and *(e)* 2014-15; and how much such funding it expects to allocate beyond financial year 2014-15; [317007]

(2) how much funding his Department has allocated to low cost income ownership programmes in financial year 2009-10 to date; how much such funding it expects to allocate in financial years *(a)* 2010-11, *(b)* 2011-12, *(c)* 2012-13, *(d)* 2013-14 and *(e)* 2014-15; and how much such funding it expects to allocate beyond financial year 2014-15. [317008]

John Healey: From 1 April 2009 to 30 December 2009 the Homes and Communities Agency has allocated £1,082 million for Homebuy and other low cost home ownership products within their Affordable Housing Programme.

Allocations for the Affordable Housing Programme 2008-11 are made as part of the Homes and Communities continuous market engagement process. Future estimated levels of allocations beyond 2010-11 will be dependent upon the outcome of the next spending review.

Buildings: Energy

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many properties on the *(a)* domestic and *(b)* non-domestic Energy Performance Certificate Register have received more than one inspection in the last three years; and for how many the rating (i) declined and (ii) improved in the last inspection. [316815]

John Healey: There is no information held centrally about the number of energy assessments that are carried out on individual buildings in either the domestic or non-domestic sectors.

Community Development: Business

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government how much has been spent on *(a)* assistance to businesses, *(b)* staffing, *(c)* administration and *(d)* publicity under the Local Enterprise Growth Initiative since its inception; and how many businesses have been assisted by the initiative. [317702]

Ms Rosie Winterton: LEGI is allocated to local authorities to support enterprise in deprived areas, thereby giving them the flexibility to best determine the local needs and use the funding in creative ways to support local priorities. The total programme from 2006-07 to 2010-11 is worth £418 million.

As a locally managed fund, central Government do not hold the information requested.

However, an independent national evaluation of LEGI is scheduled to be published later this year which will help to [illegible] and disseminate good practice.

Eco-Towns

Grant Shapps: To ask the Secretary of State for Communities and Local Government (1) what factors his Department plans to take into account in awarding the *(a)* minimum and *(b)* maximum allocations to each of the eco-town projects, as referred to in the notes for editors of his Department's press notice of 8 February 2010; [316946]

(2) what proportion of the funding announced in his Department's press notice of 8 February 2010 on eco-towns will come from each programme budget of *(a)* his Department and *(b)* the Homes and Communities Agency; and what proportion of the funding will come from the Department for Children, Schools and Families. [316951]

John Healey: Details about the programme budgets to support the first wave eco-towns in 200-10 will be set out in the Spring Supplementaries, which are due to be published shortly.

The majority of the £60 million growth fund that I announced last July to support the first wave locations has been allocated to local authorities and will be paid via the HCA. In addition we have provided support for the HCA's delivery role. DCSF have allocated £2.5 million from their programme budget to support greener schools.

I will decide on the funding allocations to the local authorities for 2010-11, pending further assessment of development agreements with investors. We will also need to take account of a range of factors including progress on delivery of projects, and we and the HCA will be having further discussion with authorities on these matters.

Empty Property: Lancashire

Rosie Cooper: To ask the Secretary of State for Communities and Local Government what estimate he has made of the number of properties in West Lancashire constituency which have been empty for more than *(a)* two and *(b)* five years. [317777]

Barbara Follett: This information for either domestic or non-domestic properties is not held centrally.

Our reforms to empty property relief for non-domestic are principled and right for the long-term. They provide a strong incentive on owners to bring empty property back into use, helping to improve access to premises for businesses and so to exert a downward pressure on commercial rents.

However, we provided owners with real help to manage short-term pressures in a difficult property market by exempting all empty properties with rateable values up to £15,000 from business rates in 2009-10.

We have listened to the continued concerns of owners and we are extending the temporary measure for a further 12 months—to cover the whole of 2010-11—and we are uprating the threshold to £18,000 in line with the general movement of property values at revaluation.

Fire Services: Pensions

Robert Neill: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Welwyn Hatfield of 26 January 2010, *Official Report*, column 770W, on local government and fire services: pensions, what the timetable is for the review of whether to restrict the employer contributions made to the firefighters' pension scheme. [317877]

Ms Rosie Winterton: The Firefighters Pension Committee has begun to consider the application of cap and share arrangements for the firefighters' pension schemes. Further meetings of the Committee have been arranged and the next one takes place on 15 March 2010. Consultations with stakeholders will follow once the arrangements have been drafted.

Government Offices for the Regions: Finance

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government which programme budgets are administered for each Government Department by the Government Offices for the Regions. [317369]

Ms Rosie Winterton: I refer the hon. Member to the answer given to her by the Secretary of State on 10 February 2010, *Official Report*, column 1029W.

Home Information Packs

Grant Shapps: To ask the Secretary of State for Communities and Local Government pursuant to the answer to my hon. Friend the Member for Peterborough (Mr. Jackson) of 3 February 2010, *Official Report*, columns 359-60W, on home information packs, if he will place in the Library a copy of the final report by the Working Group on Condition Information in the Home Buying and Selling Process; on what date the report was submitted to his Department; and what steps he plans to take in response to that report. [316781]

Mr. Ian Austin: The final report of the Working Group on Condition Information was submitted to the Department in late December. We are looking carefully at the recommendations and will set out our response in due course.

Homelessness: Torbay

Mr. Sanders: To ask the Secretary of State for Communities and Local Government how many *(a)* rough sleepers and *(b)* homeless people there were in Torbay constituency in (i) 1997 and (ii) the latest period for which figures are available. [314612]

Mr. Ian Austin: Data on rough sleeping and local housing authorities' activities under homelessness legislation are collected at local authority rather than constituency level. Torbay constituency falls within Torbay unitary authority.

Information on rough sleeping has been collected since 1998. In Torbay in 1998 there were 31 rough sleepers. The last street count in 2007 found nine rough sleepers.

We have reduced rough sleeping by 75 per cent. since 1998. Our national baseline was 1,850 in 1998 and the latest headline figure based on local authority rough sleeper counts was 464 for 2009.

The numbers of households accepted as statutory homeless in Torbay unitary authority in 1997-98 and 2007-08 are 253 and 119 respectively. The number of households accommodated by the Torbay unitary authority in temporary accommodation as at 30 March 1997 is 25 and as at 30 September 2009 is 163.

In 2002, we put stronger legislation in place by ensuring that more vulnerable people who face homelessness are provided with help and accommodation by extending the categories of people who have a 'priority need for accommodation" under the homelessness legislation—hence why more people were placed in temporary accommodation.

We know we need to do more to help people into settled homes. That's why our strategy includes the challenging target of halving the number of people living in temporary accommodation to 50,500 by 2010.

We have allocated a total of £220 million to local authorities and voluntary organisations over the three years 2008-09 to 2010-11 to support their strategies for tackling and preventing homelessness in their area.

The Government continue to demonstrate a long-term commitment to affordable housing, which is why between June and November we approved more than £2.4 billion towards 41,000 new affordable homes in England. Of this funding over £3 million has been allocated to schemes for Torbay.

This includes the largest council house-building programme for nearly two decades and funding for housing associations to build more homes for affordable sale or rent, and thousands of first time buyers have also managed to get a foothold on the property ladder thanks to our homebuy schemes.

Homes and Communities Agency

Grant Shapps: To ask the Secretary of State for Communities and Local Government how much *(a)* the Homes and Communities Agency, *(b)* the Homes and Communities Agency Academy and *(c)* the Tenant Services Authority spent on (i) advertising and (ii) marketing in (A) 2008-09 and (B) 2009-10 to date; and how much has been budgeted for such expenditure in 2009-10. [316431]

John Healey: The following table provides information on advertising and marketing spend by the Homes and Communities Agency (HCA), the Homes and Communities Agency Academy and the Tenant Services Authority (TSA) in 2008-09. Full details of spend for 2009-10 will be available once the Annual Report and Accounts are published later this year.

2008-09 spend

£000

	HCA	HCA academy	TSA
Advertising	92	7	5
Marketing	515	62	18

Notes:

1. All figures are subject to rounding.

2. The 2008-09 spend relates to the costs incurred since HCA and TSA's inception on 1 December 2008 and include the one offset up costs of both bodies.

Grant Shapps: To ask the Secretary of State for Communities and Local Government how much was spent by the *(a)* Finance and Corporate Services, *(b)* Strategy, Performance and Research, *(c)* Investment and Regeneration, *(d)* Land and Development, *(e)* New Ventures and Partnerships and *(f)* Skills and Knowledge division of the Homes and Communities Agency in 2008-09; how much has been budgeted for each division in 2009-10; and what proportion of each figure is attributable to staff costs. [316432]

John Healey: The Homes and Communities Agency (HCA) was launched on 1 December 2008 but some time passed before its directorates were fully established, and for this reason it is not possible to provide a break-down of costs by division for 2008-09.

For 2009-10, the planned budgets for 2009-10 for these directorates, including how much is attributable to staff costs, is set out as follows:

2009-10 Budgets

£000

	Finance and Corporate Services	Strategy	Investment and Renewal	New Ventures and Partnerships	Academy (Skills and Knowledge)
Total staff costs	9,715	7,463	3,543	7,876	1,771
Other costs[1]	1,477	1,027	770	676	157
Total	11,192	8,490	4,313	8,552	1,928

[1] Includes travel and subsistence, regional training and where applicable, programme fees. Excludes agency-wide costs which cannot be disaggregated, such as accommodation costs and office facilities, IT, legal and records, national training.

Homes and Communities Agency: Loans

Grant Shapps: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 3 February 2010, *Official Report*, column 361W, on Homes and Communities Agency and Tenant Services Authority loans, what rate of interest was applied to loans to staff; and for what reason the loans were made. [316737]

John Healey: The Homes and Communities Agency and Tenant Services Authority staff loans break down as follows:

	Number	£
HCA		
Bicycle loans	2	1,000
Season ticket loans	91	179,429.03
Total		180,429.03
TSA		
Car loans	4	41,244
Season ticket loans	55	110,043
Salary advances	8	9,640
Total		160,927

The season tickets, bicycle loans and salary advances are interest free and are to be repaid within 12 months of receipt.

The interest rate for the car loans which are available to those designated as an "essential user" varies according to the five years National Loan Funds rate which is compounded half yearly and converted into the annual percentage rate before being fixed for the term of the loan. The maximum term for car loans is five years.

Housing Associations: Finance

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many housing associations have been assigned to grade *(a)* 3 and *(b)* 4 following a Tenant Services Authority review of their financial position; and if he will make a statement. [316806]

John Healey: At present the Tenant Services Authority has two organisations whose judgment level (J) for viability is graded at J3. None are currently graded at J4.

Housing: Finance

Grant Shapps: To ask the Secretary of State for Communities and Local Government (1) how much his Department plans to spend on improving the supply and quality of housing in *(a)* 2009-10, *(b)* 2010-11 and *(c)* 2011-12 in (i) cash terms and (ii) 2008-09 prices; [316807]

(2) how much his Department spent against its Objective 4 to deliver a better balance between housing supply and demand *(a)* in cash terms and *(b)* in 2009-10 prices in each of the last five years. [316810]

John Healey: Information on departmental plans to spend on improving the supply and quality of housing in 2009-10 and 2010-11 was published in the 2009 departmental annual report, at:

http://www.communities.gov.uk/publications/corporate/annualreport09

including programmes delivered by the Homes and Communities Agency. Although given timing of publication the 2009 report was not able to reflect budget changes made to support the £1.5 billion Housing Pledge covering 2009-11 announced in Building Britain's Future on 29 June 2009, planned spending figures resulting from the Housing Pledge were subsequently specifically identified in the Homes and Communities Agency's corporate plan 2009-11 (see section on Housing Pledge in table 3 on page 28) published in September 2009, at:

http://www.homesandcommunities.co.uk/publications

For conversion to 2008-09 prices, Government use the GDP deflator to allow for the effects of changes in prices. This can be found on HM Treasury's website at:

http://www.hm-treasury.gov.uk/data_gdp_index.htm

Plans on spending on the supply and quality of housing for 2011-12 will be determined through the next spending review.

Figures for departmental spending on housing supply and demand for 2004-05, 2005-06 and 2006-07, are shown in each of the annual departmental reports covering those years. The 2008 departmental annual report provided data on 2007-08 spend on public service agreement target 5 (to achieve a better balance between housing availability and the demand for housing) on housing supply. In line with Treasury guidance, 2008 was the last report on public service agreements which had an end date later than 2008 but were subsumed within our CSR07 public service agreements and departmental strategic objectives. The 2008-09 departmental annual report showed forecast out-turn spend figures for 2008-09 against the new departmental strategic objective on improving the supply and quality of housing.

Expenditure can be converted to 2009-10 prices using the GDP deflator as published by HMT. This deflator is calculated from ONS data for seasonally adjusted current and constant price GDP for years up to 2008-09. The 2009-10 deflator is derived from HM Treasury forecasts for GDP deflator increases at the pre-Budget report 2009.

Grant Shapps: To ask the Secretary of State for Communities and Local Government what the average Homes and Communities Agency grant per unit was for a new *(a)* affordable home and *(b)* home for social rent in each region in (i) each of the last three years and (ii) 2009-10 to date. [316812]

John Healey: I refer the hon. Member to the answer given to him by my hon. Friend the Member for Dudley, North (Mr. Austin) on 15 July 2009, *Official Report*, column 495W.

The following table shows the average grant per unit for social rent and low cost home ownership for 2009-10 to end September 2009 for each region.

£

	Social rent	*Intermediate housing*
East Midlands	39,325	24,408
Eastern	43,638	29,491
London	106,618	45,633
North East	44,035	19,444
North West	57,193	33,211
South East	53,203	32,017
South West	47,526	28,980
West Midlands	52,133	27,243
Yorkshire and Humberside	52,505	25,585

Source:
Homes and Communities Agency.

Housing: Standards

Grant Shapps: To ask the Secretary of State for Communities and Local Government how much was spent by his Department on the English House Condition Survey in 2008-09. [316816]

John Healey: Expenditure on the English Housing Survey in 2008-09 was £4,737,821 which includes the cost of household interviews, surveyor training, property inspections and the Department's expenditure on the Survey.

Further information about the EHCS, including annual reports, can be found at:

http://www.communities.gov.uk/ehcs

Further information about the EHS can be found at:

http://www.communities.gov.uk/englishhousingsurvey

Land Use: Agriculture

Nick Herbert: To ask the Secretary of State for Communities and Local Government what estimate his Department has made of the area of farmland of grade *(a)* 1, *(b)* 2, *(c)* 3a, *(d)* 3b, *(e)* 4 and *(f)* 5 taken for development in each of the last five years. [317138]

Mr. Ian Austin: Annual information on the estimated area of agricultural land in hectares changing to a developed use in England for the most recent five years available is given in the following table:

	Hectares
2003	5,990
2004	2,690
2005	4,160
2006	2,950
2007	2,760

Information on how much of the above changes were from each grade of agricultural land could be provided only at disproportionate cost.

Local Government Finance: Barnet

Robert Neill: To ask the Secretary of State for Communities and Local Government with reference to the answer of 16 October 2009, *Official Report*, column 1129W, on local government: Barnet, if he will place in the Library a copy of the final report on the pilot study. [317600]

Barbara Follett: The London borough of Barnet has received an evaluation of its Behaviour Change Pilot Projects and is considering publishing the findings. As the pilot projects were directly commissioned by the London borough of Barnet, a decision on whether to publish a report rests with the council.

Local Government: East of England

Mr. Swire: To ask the Secretary of State for Communities and Local Government what the cost to the public purse has been of the structural review of local government in Norfolk, Suffolk and Devon. [316214]

Ms Rosie Winterton: The Department does not hold information about the costs incurred by local authorities of participating in the Boundary Committee's structural reviews in Devon, Norfolk and Suffolk. In the normal course of their business, local authorities respond to many consultation exercises and requests for information, and consequently, budget for this as part of their business planning.

The Boundary Committee estimate of their total costs, to date, of the three structural reviews is over £1.4 million.

Within the Department, there are currently some 10 full time-equivalent staff working on the structure of local government including work on unitary council restructuring—supporting those new unitaries that were created on 1 April 2009 and taking forward the reviews in Devon, Norfolk and Suffolk—and on improving the operation of two-tier local government. The anticipated expenditure in 2009-10 is some £590,000.

Members: Correspondence

Mr. Baron: To ask the Secretary of State for Communities and Local Government when he plans to respond to the letter of 5 January 2010 from the hon. Member for Billericay on his constituent Mr. M. Beiley. [317547]

Barbara Follett: A reply was sent to this letter on 9 February 2010.

Mobile Homes Act 1983

Annette Brooke: To ask the Secretary of State for Communities and Local Government if he will begin the proposed consultation on reforms to the Mobile Homes Act 1983 within the next two months. [317279]

Mr. Ian Austin: We remain committed to introducing reforms that improve transparency in relation to the Mobile Homes Act 1983. We intend to consult on initial proposals with key stakeholder groups in April before carrying out a public consultation.

Mortgages: Government Assistance

Grant Shapps: To ask the Secretary of State for Communities and Local Government how much his Department has spent on publicising the *(a)* Mortgage Rescue Scheme and *(b)* Homeowner Mortgage Support Scheme. [316747]

John Healey: No money has been spent specifically on advertising MRS and HMS.

In September 2009, the Government launched a national campaign to help struggling homeowners take control of their finances and make the most of the support available for them to avoid repossessions and stay in their homes. Press, radio, online and billboard advertisements point people to an advice line and a new website illustrating the practical steps they can take to resolve their mortgage repayment worries, as well as contacts for the wide range of support available, including targeted schemes such as Mortgage Rescue and Homeowners Mortgage Support.

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many households received an offer on their property under the Mortgage Rescue Scheme in each local authority area in each of the last 12 months; and how many such offers were subsequently accepted by the homeowner. [316821]

John Healey: We have acted rapidly to put in place a range of help and support for households struggling with their mortgage at every stage, and launched a campaign to ensure households have clear information about the help available.

Mortgage rescue scheme summary monitoring statistics are published on a quarterly basis on the Department's website. Figures can be accessed using the following link:

http://www.communities.gov.uk/publications/corporate/statistics/mortgagerescuestatistics

Quarterly figures reported by local authorities from January to December 2009 are provided in a table which has been placed in the Library.

Grant Shapps: To ask the Secretary of State for Communities and Local Government with reference to the Mortgage Rescue Scheme monitoring statistics published by his Department on 12 November 2009, how many of the 92 offers accepted under the scheme have been completed. [316943]

John Healey: Ninety two.

New Deal for Communities

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government how much has been spent by the New Deal for Communities programme since its inception; and what estimate he has made of the number of people assisted by the programme. [317910][1]

Ms Rosie Winterton: Between 2000-01 and 2007-08 (the last year for which audited accounts are available) NDC Partnerships reported that they have spent £1,559 million in grant funding. The latest figures available estimate that there were 797,100 people living in NDC areas in 2007.

Note:

Population figures from: Sheffield Hallam University's Centre for Regional and Economic and Social Research.

Non-Domestic Rates: Empty Property

Mr. Oaten: To ask the Secretary of State for Communities and Local Government what assessment has been made of the merits of extending the current empty property rate relief scheme beyond April 2010. [317078]

Barbara Follett: An impact assessment will be published shortly alongside the statutory instrument that will extend the empty property rate relief exemption threshold.

Our reforms to empty property relief are principled and right for the long-term. They provide a strong incentive on owners to bring empty property back into use, helping to improve access to premises for businesses and so to exert a downward pressure on commercial rents.

---

[1] *[Official Report, 12 March 2010, Vol. 507, c. 14MC.]*

However, we provided owners with real help to manage short-term pressures in a difficult property market by exempting all empty properties with rateable values up to £15,000 from business rates in 2009-10.

We have listened to the continued concerns of owners and we are extending the temporary measure for a further 12 months—to cover the whole of 2010-11—and we are uprating the threshold to £18,000 in line with the general movement of property values at revaluation.

Mr. Oaten: To ask the Secretary of State for Communities and Local Government (1) how much empty property rate relief has cost the Exchequer since 2007; [317112]

(2) how much empty property rate relief has cost the Exchequer since April 2009. [317113]

Barbara Follett: The amounts of empty property relief granted in 2006-07, 2007-08 and 2008-09 and the amount forecast to be granted in 2009-10 are as follows:

Empty property relief

	£ million
2006-07	1,362
2007-08	1,294
2008-09	487
2009-10	570

Data are as reported to Communities and Local Government by all billing authorities in England on the annual National Non-Domestic Rates (NNDR) returns.

The figures given are the net empty property relief granted in that year irrespective of the year to which the empty property relief related. It can also include the repayment of non-domestic rates where empty property relief should have been granted in previous years but was not.

In 2008-09, the rules governing empty and partly occupied property relief were reformed by the Rating (Empty Properties) Act 2007 and further reforms were introduced for 2009-10.

Our reforms to empty property relief are principled and right for the long-term. They provide a strong incentive on owners to bring empty property back into use, helping to improve access to premises for businesses and so to exert a downward pressure on commercial rents.

However, we provided owners with real help to manage short-term pressures in a difficult property market by exempting all empty properties with rateable values up to £15,000 from business rates in 2009-10.

We have listened to the continued concerns of owners and we are extending the temporary measure for a further 12 months—to cover the whole of 2010-11—and we are uprating the threshold to £18,000 in line with the general movement of property values at revaluation.

Private Rented Housing

Grant Shapps: To ask the Secretary of State for Communities and Local Government what estimate his Department has made of the proportion of vulnerable people in each vulnerability group who lived in decent private sector homes in each year since 2002. [316811]

Mr. Ian Austin: I refer the hon. Member to the answer my hon. Friend the Member for Hartlepool (Mr. Wright) gave him on 27 March 2009, *Official Report*, column 789W.

Private Rented Housing: Homelessness

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many private sector properties were leased by *(a)* local authorities and *(b)* housing associations in order to house homeless households in 2008-09. [315678]

Mr. Ian Austin: Use of accommodation with shared facilities has declined over recent years, largely through reduced bed and breakfast usage. Within the last 10 years, bed and breakfast style accommodation use peaked during 2002, when 16 per cent. of households were in this form of temporary accommodation, compared to 4 per cent. at the end of March 2009. The proportion of self-contained accommodation has increased over this period; in particular private sector accommodation leased short-term by local authorities or registered social landlords, which rose from under 30 per cent. during 2002 to 59 per cent. at the end of March 2009. On 30 March 2009, there were 37,450 households in private sector temporary accommodation leased short-term by local authorities and registered social landlords, of which 25,750 households were in accommodation leased by a local authority and 11,700 households were in accommodation leased or managed by a registered social landlord.

Safer Stronger Communities Fund

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government how much has been spent on *(a)* programmes, *(b)* staffing, *(c)* administration and *(d)* publicity by the Safer and Stronger Communities Fund; and what estimate he has made of the number of people assisted by the fund. [317841]

Ms Rosie Winterton: The Safer and Stronger Communities Fund is allocated to local authorities through area-based grant. For the current spending period, £51.967 million was allocated in 2008-09 and £30.909 million in 2009-10, with an indicative allocation of £4.893 million in 2010-11. The SSCF is a non ring-fenced fund and local authorities have flexibility over how it is spent. It is therefore not possible to break down spend into programmes, staffing, administration and publicity.

Supporting People Programme

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government how much has been spent on *(a)* staffing, *(b)* administration and *(c)* publicity for the Supporting People programme. [317212]

Barbara Follett: Communities and Local Government provide local authorities with administration grant as a contribution towards the costs of managing the programme at a local level but do not require authorities to provide details of actual expenditure on staffing, administration or publicity for the Supporting People programme.

It is possible that some local authorities do not record these sorts of expenditure for their Supporting People grants specifically. Communities and Local Government would not be able to provide this information without a disproportionate amount of effort, and for those local authorities who do not record this type of expenditure even a disproportionate amount of effort would not yield any results.

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government how much has been spent on the Supporting People programme; and how many people have received assistance under the programme since its inception. [317213]

Barbara Follett: The information requested is as follows:

Supporting People household unit and spend information

Financial year	*2003-04*[1]	*2004-05*[1]	*2005-06*	*2006-07*	*2007-08*	*2008-09*
Annual spend (£)	1,814,096,410	1,844,997,200	1,681,607,275	1,642,961,644	1,627,573,423	1,640,497,000
Household unit available	1,232,889	927,774	1,038,595	1,064,178	1,068,934	1,083,406

The household unit figures provided represent a snapshot of the capacity of Supporting People services (measured in households) at a particular point in time; in this instance as at 31 March each year, to correspond with the collection of spend data. It should be noted that household unit information is not representative of the number of households who have actually received support during the quarter or year.

Working Neighbourhoods Fund

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government how much has been spent on *(a)* staffing, *(b)* administration and *(c)* publicity for the Working Neighbourhoods Fund. [317211]

Ms Rosie Winterton: As a locally managed fund, central Government do not hold this information.

£1.52 billion has been allocated to the Working Neighbourhoods Fund for the period 2008-11. It is allocated to local authorities with high rates of worklessness, thereby giving them the flexibility to respond to local circumstances when tackling worklessness and promoting enterprise.

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government how much has been spent on the Working Neighbourhoods Fund; and how many people have received assistance from the funds. [317214]

Ms Rosie Winterton: £1.52 billion has been allocated to the Working Neighbourhoods Fund for the period 2008-11. It is allocated to local authorities with high rates of worklessness, thereby giving them the flexibility to respond to local circumstances when tackling worklessness and promoting enterprise.

As a locally managed fund, central Government do not hold information on the number of people assisted.

BUSINESS, INNOVATION AND SKILLS

Apprentices: East Sussex

Norman Baker: To ask the Minister of State, Department for Business, Innovation and Skills how many small and medium-sized businesses in *(a)* Lewes constituency and *(b)* East Sussex are employing apprentices. [315760]

Kevin Brennan: Record numbers of people are taking up and achieving an apprenticeship. Table 1 shows the number of apprenticeship starts in Lewes parliamentary constituency, East Sussex and Brighton and Hove local authorities.

Table 1. Apprenticeship starts, Lewes parliamentary constituency, East Sussex and Brighton and Hove local authorities (2003/04 to 2008/09)

	2003/04	*2004/05*	*2005/06*	*2006/07*	*2007/08*	*2008/09*
Lewes parliamentary constituency	240	240	230	210	280	280
East Sussex local authority	1,500	1,500	1,400	1,400	1,800	2,000
Brighton and Hove local authority	600	700	700	600	700	800

Notes:
1. Parliamentary constituency volumes are rounded to the nearest 10. Local authority figures are rounded to the nearest 100.
2. Parliamentary constituency and local authority are based upon the home postcode of the learner.
3. Information is not currently available on the size of the employer for apprentices. For the 2009/10 academic year, this information will become available on the ILR when a unique employer identifier will have to be provided by all employers of apprentices.
Source:
WBL/ER Individualised Learner Record

We can provide an estimate of the size of employers, nationally, that offer and have recruited apprentices from the National Employers Skills Survey (NESS). These data are based on repeated surveys of up to 79,000 employers across all business sectors in England. Table 2 shows information from the published 2007 National Employer Skills survey[1] on the number of organisations that had any staff undertaking an apprenticeship in the 12 months prior to interview, by size of employer.

Table 2: Percentage of employers that had any staff undertaking an apprenticeship over the previous 12 months (NESS 2007)

	Percentage
All employers	8
Number of employees of employer	
2-4	5
5-24	10
25-99	15
100-199	18
200-499	24
500+	33

Apprentices: Feltham

Alan Keen: To ask the Minister of State, Department for Business, Innovation and Skills how many modern apprenticeships have been started in Feltham and Heston constituency since 1997. [316492]

Kevin Brennan: Table 1 shows the number of apprenticeship starts in Feltham and Heston parliamentary constituency from 2003/04 onwards, the earliest year for which comparable data are available.

Table 1: Apprenticeship programme starts for Feltham and Heston parliamentary constituency, 2003/04 to 2008/09

Academic year	*Number of starts*
2003/04	280
2004/05	260
2005/06	230
2006/07	370
2007/08	350
2008/09	360

Notes:
1. Figures for Feltham and Heston parliamentary constituency are rounded to the nearest 10.
2. Figures are based upon home postcode of the learner.
3. Figures include apprenticeship, advanced apprenticeships and higher level apprenticeships.
Source:
Individualised Learner Record.

Information on the number of apprenticeship starts by parliamentary constituency, local authority, Government office region and for England is published in a quarterly statistical first release (SFR). The latest SFR was published on 17 December, and re-issued on 21 January to include provisional national estimates of the number of apprenticeship starts and achievements in the first quarter of 2009/10:

http://www.thedataservice.org.uk/statistics/sfrdec09

Apprentices: Hemsworth

Jon Trickett: To ask the Minister of State, Department for Business, Innovation and Skills how many modern apprenticeships have been started in Hemsworth since 1997. [316614]

Kevin Brennan: The following table 1 shows the number of Apprenticeship starts in Hemsworth parliamentary constituency from 2003/04 onwards, the earliest year for which comparable data is available.

Table 1: Apprenticeship programme starts for Hemsworth parliamentary constituency, 2003/04 to 2008/09

Academic year	*Number of starts*
2003/04	300
2004/05	300
2005/06	300
2006/07	360
2007/08	300
2008/09	450

Notes:
1. Figures for Hemsworth parliamentary constituency are rounded to the nearest 10.
2. Figures are based upon home postcode of the learner.
3. Figures include Apprenticeship, Advanced Apprenticeships and Higher Level Apprenticeships.
Source:
Individualised Learner Record

Information on the number of Apprenticeship starts by parliamentary constituency, local authority, government office region and for England is published in a quarterly statistical first release (SFR). The latest SFR was published on 17 December, and re-issued on 21 January to include provisional national estimates of the number of apprenticeship starts and achievements in the first quarter of 2009/10:

http://www.thedataservice.org.uk/statistics/sfrdec09

Bankruptcy: Sussex

Norman Baker: To ask the Minister of State, Department for Business, Innovation and Skills how many bankruptcies of *(a)* individuals in each age group resident in and *(b)* businesses based in (i) Lewes constituency and (ii) East Sussex there were in each of the last five years. [317029]

Ian Lucas: Figures for bankrupts in East Sussex and Lewes constituency by age group for the last five years are shown in Tables 1 and 2 below.

Table 1: Bankruptcies in Lewes[1]

	Age group[2]						
	Under 25	*25-34*	*35-44*	*45-54*	*55-64*	*65+*	*Unknown*
2004	2	17	18	17	6	0	4
2005	7	22	17	19	12	3	4
2006	6	28	39	23	10	4	9
2007	4	22	24	29	15	6	11
2008	1	13	25	16	10	3	16

[1] Where bankrupt has provided a valid postcode (from 94.5 per cent. in 2004 to 96.9 per cent. in 2008).
[2] Where bankrupt has provided a valid date of birth (from 92.3 per cent. in 2004 to 93.4 per cent. in 2008).

Table 2: Bankruptcies in East Sussex[1]

	Age group[2]						
	Under 25	*25-34*	*35-44*	*45-54*	*55-64*	*65+*	*Unknown*
2004	[illegible]	107	126	102	52	9	41
2005	32	152	180	125	80	22	53
2006	43	179	238	143	93	26	41
2007	27	158	217	141	102	34	53
2008	26	140	194	152	64	36	79

[1] Where bankrupt has provided a valid postcode (from 94.5 per cent. in 2004 to 96.9 per cent. in 2008).
[2] Where bankrupt has provided a valid date of birth (from 92.3 per cent. in 2004 to 93.4 per cent. in 2008).

Self-employed traders may be declared bankrupt (or enter into an individual voluntary arrangement [IVA]), however, registered companies are the subject of liquidation (compulsory liquidation or creditors voluntary liquidation (CVL)).

Table 3 shows the number of self employed traders who were declared bankrupt in each of the last five years.

Table 3: Bankruptcies amongst sole traders in Lewes and East Sussex

	Area[1]	
Year[2]	*Lewes*	*East Sussex*
2004	22	132
2005	14	144
2006	33	154
2007	20	140
2008	28	138

[1] Where bankrupt has provided a valid postcode (from 94.5 per cent. in 2004 to 96.9 per cent. in 2008).
[2] Figures from October 2006 are compiled on a different basis and are not comparable to earlier figures.

Regional figures for 2009 are not currently available for bankruptcies, as they are compiled on an annual basis. They should be available later in 2010.

Statistics covering corporate insolvencies, including liquidation, are not currently available at a sub-national level within England and Wales.

Business: Government Assistance

David Mundell: To ask the Minister of State, Department for Business, Innovation and Skills how many applications *(a)* in total and *(b)* from businesses registered in Scotland for loans under the Enterprise Finance Guarantee scheme have been (i) made and (ii) granted. [315310]

Ms Rosie Winterton: Under the Enterprise Finance Guarantee, as of 27 January 2010, over £1.13 billion of eligible applications from over 10,000 businesses have been granted, are being processed or assessed. Of these, 7,792 businesses have been offered loans totalling £794.71 million.

In Scotland, £86.92 million of eligible applications from 686 businesses have been granted, are being processed or assessed. Of these, 544 businesses have been offered loans totalling £70.69 million.

Businesses may apply for a loan from any of the participating lenders who will assess which form of lending, including the Enterprise Finance Guarantee, is most appropriate. We do not hold figures for those businesses which are instead offered a normal commercial loan, or are rejected for failing to meet the lenders' normal commercial criteria.

Jon Trickett: To ask the Minister of State, Department for Business, Innovation and Skills what steps his Department and its predecessors have taken to support small businesses in Hemsworth since 1997. [316613]

Ms Rosie Winterton: Since 1997 the Government have implemented a wide range of measures to support business, including small and medium-sized businesses. Statistical information on these measures is not available at constituency level. Statistical information has been provided at the Wakefield local authority level where available. The principal measures are as follows.

In 1998, the Government set up the Regional Development Agency, Yorkshire Forward, to deliver a joined-up approach to economic development in the region. In support of its objective of promoting business efficiency, investment and competitiveness Yorkshire Forward has provided grants for businesses through the Selective Finance for Investment (SFI) scheme, which started in April 2004, and its successor the Grants for Business Investment (GBI) scheme, which started in October 2008. Yorkshire Forward has made 27 SFI and GBI grant offers to businesses in Wakefield totalling £3.2 million, creating or safeguarding 355 jobs. Yorkshire Forward has also provided grants to support research and development by small and medium sized businesses, through the SMART scheme and its successor, the Grants for Research and Development scheme. Since 2000, Yorkshire Forward has offered 25 research and development grants totalling £1.5 million to small and medium sized businesses in Wakefield.

Since 2004, Business Link Yorkshire has been the single contact point for all publicly funded support available to businesses in Yorkshire and The Humber. This has made it easier for businesses to access information, advice and support on issues including business regulation, best practice, marketing, innovation, financial support and help with exporting. For example in 2009/10 to date, Business Link Yorkshire has helped 2,578 businesses in the Wakefield area and 913 individuals thinking of starting a business. As part of the Government's Real Help Now package we are providing more help for businesses to survive during the current economic conditions. Since October 2008 this has included a free Business Link health check which can be a useful starting point for identifying further business support tailored to the needs of individual companies. To date Business Link Yorkshire has arranged 548 health checks for small and medium sized businesses in Wakefield. In addition, the Yorkshire Forward funded Financial Health Check, which offers a grant of £2,000 for accountants to carry out a full review, has benefited 63 businesses in Wakefield.

Small and medium sized manufacturing businesses in Wakefield can also benefit from the Yorkshire and Humber Manufacturing Advisory Service (MAS), which was set up by BERR in 2002 to provide practical hands-on support to business in all aspects of manufacturing. In 2009 the Yorkshire and Humber MAS carried out over 1,000 manufacturing reviews and over 340 improvement projects, creating or safeguarding over 3,100 jobs, with an estimated total potential increase in GVA of £30.3 million. Figures at local level are not available.

Under the European Regional Development Funded Objective 2 programme between 2000 and 2008 over £93 million was provided to support small and medium enterprises in the Objective 2 areas in Yorkshire and the Humber, which included Wakefield. Figures at local level are not available.

Details of the wide range of Government funded support for business available are on the Real Help Now website

www.realhelpnow.gov.uk

Mr. Lancaster: To ask the Minister of State, Department for Business, Innovation and Skills what the criteria are for the award of a loan to a company under the Enterprise Finance Guarantee Scheme. [316783]

Ms Rosie Winterton: There are three main criteria for a business being offered an EFG loan application:

The business meeting the lender's normal commercial criteria in relation to the viability of the business and serviceability of the loan. This judgment will vary according to the lender concerned.

The lender determining that use of EFG, rather than a normal commercial loan, is necessary because of no or insufficient security available on the part of the business.

The business meeting the basic EFG eligibility criteria

Each lender has access to the EFG web portal through which they administer the EFG eligibility criteria. The main EFG eligibility criteria, with respect to the size of loan, purpose of loan, turnover size, business sector etc. is detailed on the BIS website:

http://www.berr.gov.uk/whatwedo/enterprise/finance/efc/page37607.html

Business: Snow and Ice

Mr. Hoyle: To ask the Minister of State, Department for Business, Innovation and Skills what estimate he has made of the cost to business in *(a)* Chorley, *(b)* Lancashire and *(c)* the UK of the adverse weather conditions of December 2009 and January 2010. [314221]

Ms Rosie Winterton: There are no official estimates at this early stage of local, regional or national cost to business as a result of the adverse weather but there are indications that some businesses lost trade due to customers being unable to travel or lost output due to staff being unable to attend work. We will continue to monitor the situation and estimates as these become available.

Cerebrospinal: Multiple Sclerosis

Mr. David Anderson: To ask the Minister of State, Department for Business, Innovation and Skills if he will *(a)* commission and *(b)* evaluate research into the relationship between chronic cerebrospinal venous insufficiency and multiple sclerosis. [317013]

Mr. Lammy: The Medical Research Council (MRC) is one of the main agencies through which the Government support medical and clinical research. The MRC is an independent body which receives its grant in aid from the Department for Business, Innovation and Skills.

The MRC spent £3.4 million on research into multiple sclerosis in 2008-09, but is not currently funding any research specifically into chronic cerebrospinal venous insufficiency (CCSVI).

The MRC provides funding for research through a range of grants and personal awards to scientists in universities, medical schools and other research institutes but does not normally commission research to address specific questions.

Applications are generally submitted by the scientific community in 'response mode' and the MRC always welcomes high quality applications for support into any aspect of human health. The primary considerations in funding decisions are research excellence and importance to health; however, high quality proposals in areas of particular strategic importance may be given priority in competition for funds.

The MRC provides opportunities for additional clinical research training fellowships through collaborations with Royal Colleges and charity funders including the MRC/Multiple Sclerosis Society Clinical Research Training Fellowships. One fellowship per year is available under this scheme, aimed at researchers who are involved in treating patients and who wish to pursue research into understanding and treatment of multiple sclerosis.

Details of MRC's currently funded research can be found in the MRC research portfolio which is accessible on the MRC website at:

http://www.mrc.ac.uk/ResearchPortfolio/index.htm

Companies: Birmingham

Mr. Godsiff: To ask the Minister of State, Department for Business, Innovation and Skills how many mergers of companies have taken place in Birmingham in each of the last three years. [312775]

Kevin Brennan: Information relating to mergers is not collected at this level of detail. The Office of National Statistics (ONS) is responsible for collecting information involving mergers and acquisitions by UK companies abroad and in the UK, and mergers and acquisitions by foreign companies in the UK. The ONS publishes a quarterly statistical bulletin and a Tri-annual Mini review of mergers and acquisitions.

Its latest Quarterly Bulletin (3rd Quarter 2009) can be found at the following link:

http://www.statistics.gov.uk/pdfdir/ma1209.pdf

and its last Tri-annual Mini review published in 2008 can be found at:

http://www.statistics.gov.uk/downloads/theme_commerce/2008-Mini-Triennial-M-A.pdf

Construction: Government Assistance

Bob Spink: To ask the Minister of State, Department for Business, Innovation and Skills how many construction companies in *(a)* Essex and *(b)* Castle Point have received Government assistance in the last three years. [316727]

Ian Lucas *[holding answer 10 February 2010]:* Business Link East, which is managed by the East of England Development Agency, has supported *(a)* 2,623 construction companies in Essex and *(b)* 136 construction companies in Castle Point in the last three years.

Bob Spink: To ask the Minister of State, Department for Business, Innovation and Skills whether he plans to take steps to increase the level of liquidity in the construction industry; and if he will make a statement. [316728]

Ian Lucas *[holding answer 10 February 2010]:* The Government have been increasing liquidity in construction by helping smaller and medium-sized firms, which dominate the industry, through Real Help for Business. This package of measures aims to facilitate bank lending to smaller and medium-sized firms and will continue to do so into the financial year 2010-11. In addition, in the December 2009 Pre-Budget Report the Government announced the creation of a Growth Capital Fund that will target SMEs for which traditional bank finance is either inappropriate or unavailable.

Departmental Information Officers

Mr. Hurd: To ask the Minister of State, Department for Business, Innovation and Skills how many staff in his Department and its agencies *(a)* have the status of embedded communicators and *(b)* are members of the Government Communications Network but are not listed in the Central Office of Information White Book. [315168]

Mr. McFadden: At the most recent assessment of those embedded, in October 2009, there were 18 embedded communicators in BIS. Embedded communicators are defined as staff employed primarily in a communications role based in policy or delivery units outside of the central communications function.

It is not possible to provide the number of embedded communicators who are members of the Government Communications Network (GCN) but not listed in the White Book as the Department does not hold GCN membership data.

I have approached the Chief Executives of the Insolvency Service, Companies House, the National Measurement Office and the Intellectual Property Office and they will respond to the hon. Member directly.

Letter from Peter Mason, dated 12 February 2010:

I am responding in respect of the National Measurement Office to your Parliamentary Question tabled 29 January 2010, to the Minister of State, Department for Business, Innovation and Skills, asking how many staff (a) have the status of embedded communicators and (b) are members of the Government Communications Network but are not listed in the Central Office of Information White Book.

a) The National Measurement Office, following a recent restructure, has one part time member of staff (0.6 FTE) who we believe would be regarded as an "embedded communicator" in that she is employed primarily in a communications role based in the enforcement team of the Agency. This role is based outside of the central communications team.

b) The National Measurement Office has no staff who are members of the Government Communications Network.

Letter from Gareth Jones, dated 12 February 2010:

I am replying on behalf of Companies House to your Parliamentary Question tabled 29 January 2010, UIN 315168 to the Minister of State for Business, Innovation and Skills.

Companies House has five staff who are members of the Government Communication Network, and classed as Government communicators. The two members with responsibility for dealing with press enquiries are listed in the Central Office of Information White Book, the other three are not.

Letter from Sean Dennehey, dated 2 February 2010:

I am responding in respect of the Intellectual Property Office to your Parliamentary Question tabled 29 January 2010, to the Minister of State, Department for Business, Innovation and Skills.

The Intellectual Property Office does not have any staff who have the status of embedded communicators.

Letter from Stephen Speed, dated 18 February 2010:

The Minister of State, for the Department of Business, Innovation and Skills (BIS) has asked me to reply to your question how many staff in his Department and its agencies (a) have the status of embedded communicators and (b) are members of the Government Communications Network but are not listed in the Central Office of Information White Book.

The Insolvency Service has 7 embedded communicators, 2 of whom are not direct employees but are Agency staff. There are no staff that are members of the Government Communications Network but are not listed in the Central Office of Information White Book.

Departmental Official Hospitality

John Mason: To ask the Minister of State, Department for Business, Innovation and Skills how many receptions he has hosted for representatives of print and broadcast media since 3 October 2008; and how many he plans to host in 2010. [316839]

Mr. Timms: I have not hosted any such receptions. However, since October 2008:

My Noble Friend, the then Parliamentary Under-Secretary of State for Communications, Technology and Broadcasting hosted a digital Britain summit in April 2009 at the British Library, drawing attendees from the print, broadcast and technology communities. The key note speech was given by the Prime Minister.

My right hon. Friend, the Minister of State for Higher Education and Intellectual Property hosted a lunch with educational journalists in November 2008.

There are no current plans to host any such receptions in 2010.

Departmental Video Conferencing

Gregory Barker: To ask the Minister of State, Department for Business, Innovation and Skills what the cost was of the technical support team required to run the videoconferencing and telepresence facilities in Kingsgate House in the last 12 months. [304483]

Mr. McFadden: Technical support for the videoconferencing and telepresence facilities is currently provided to the Department via a shared services agreement with the Department for Children, Schools and Families (DCSF). The costs for ICT and Information Management services are in fact broken down in a way that relates to input categories, for example staff costs, licences, etc rather than products that are supported.

However, for 2009-10 the shared services charges identified against videoconferencing and telepresence from DCSF will be £37,700 and will cover overall delivery of the services and support.

Digital Broadcasting: Radio

Bob Russell: To ask the Minister of State, Department for Business, Innovation and Skills what estimate he has made of the proportion of radio microphones and other programme-making and special events technologies which will need to be replaced with new equipment as a consequence of the clearance of the digital dividend spectrum; and if he will make a statement. [317612]

Mr. Timms: We have not estimated the proportion of microphones (both channel 69 and interleaved spectrum) or other PMSE equipment which will be affected by the clearance.

However, Ofcom have estimated that 95 per cent. of all radio microphones tune to channel 69 and will therefore be affected by the clearance.

Bob Russell: To ask the Minister of State, Department for Business, Innovation and Skills when he plans to announce his decision on the *(a)* criteria for compensation eligibility and *(b)* allocation of funding to be provided to those in the programme-making and special events sector who are affected by the clearance of the digital dividend spectrum. [317613]

Mr. Timms: Ofcom are re-evaluating their initial assumptions and eligibility criteria in light of responses to their second consultation on this issue. When this work is completed, Government will agree with Ofcom an appropriate funding allocation.

Bob Russell: To ask the Minister of State, Department for Business, Innovation and Skills whether he has made a recent estimate of the number of jobs which depend *(a)* directly and *(b)* indirectly on the use of radio microphones and other programme-making and special events technologies. [317614]

Mr. Timms: No such estimates have been made. However, the Department is aware of the contribution that the programme-making and special events (PMSE) industry makes to the UK economy, and is carefully considering how they will be relocated from channel 69 to channel 38.

Employment Agencies: EU Law

Mr. Oaten: To ask the Minister of State, Department for Business, Innovation and Skills what consideration his Department has given to the effect on the nature of ad hoc assignments of temporary workers of the Agency Worker Regulations. [316970]

Mr. McFadden: We carefully considered representations from stakeholders on the issue of ad hoc assignments. However, we concluded that it would be wrong for agency workers to be deprived of equal treatment rights just because they do not comply with 'standard' work patterns, particularly since irregular agency assignments are prevalent in lower-paid sectors. We were also concerned about the risk of any special provision on the point would further complicate the regulations, and could be exploited by the unscrupulous in order to deprive workers of equal treatment rights.

Mr. Oaten: To ask the Minister of State, Department for Business, Innovation and Skills what representations he has *(a)* sought and *(b)* received from representatives of the agency work industry on the drafting of the guidance to the Agency Worker Regulations. [316971]

Mr. McFadden: The Agency Workers Regulations 2010 were laid before Parliament on 21 January 2010, coming into force on 1 October 2011. Accompanying guidance will be drawn up and published in advance of the regulations coming into force. The important role this guidance will play has been one of the subjects discussed with not only representatives of the agency work industry but also other stakeholders during recent consultations preceding the laying of the regulations. We will of course wish to have further discussions with interested parties on the drafting of this guidance in due course.

Mr. Oaten: To ask the Minister of State, Department for Business, Innovation and Skills what plans he has further to consult representatives of the agency work industry prior to the implementation of the Agency Worker Regulations. [316972]

Mr. McFadden: The last year saw an intensive process of consultation on the Government's proposals to implement the European Agency Workers Directive. There were more than 300 responses to the original consultation on policy proposals and almost 100 responses to the second on the draft regulations. In addition, Ministers and officials held frequent meetings with a wide variety of interested parties, including those representing the agency work industry.

Accompanying guidance will be drawn up and published in advance of the regulations coming into force. We will seek the views of representatives of the agency work industry and other interested parties on the drafting of this guidance in due course.

Mr. Oaten: To ask the Minister of State, Department for Business, Innovation and Skills what impact assessment his Department has undertaken of the Agency Worker Regulations in relation to the *(a)* complexity of bonus arrangements, *(b)* cost of tracking ad hoc assignments and *(c)* transferral of indemnity from the end-user to the agency. [316975]

Mr. McFadden: We have addressed these issues in the Government responses to the two consultation exercises on implementation of the Agency Workers Regulations 2010—the relevant documents have been placed in the Libraries of the House and are available on the BIS website. These include a comprehensive impact assessment.

On bonuses, we are aware of the concerns of hirers, in particular the implications of integrating agency workers into appraisal systems for permanent staff. The regulations do not require agency workers to be integrated into these systems—hirers can adopt simpler systems such as existing feedback arrangements that many agencies already have in place. It is also by no means the case that all bonus payments will come within the scope of equal treatment rights—they will not do so, for instance, if not directly attributable to the individual worker's contribution or if they would not have been payable if the same worker had been recruited directly to do the same job (if, say, there is a qualifying period before a bonus is payable). Guidance will address these issues further.

We carefully considered representations from stakeholders on the issue of ad hoc assignments. However, we concluded that it would be wrong for agency workers to be deprived of equal treatment rights just because they do not comply with 'standard' work patterns, particularly since irregular agency assignments are prevalent in lower-paid sectors. We were also concerned about the risk of any special provision on the point would further complicate the regulations, and could be exploited by the unscrupulous in order to deprive workers of equal treatment rights.

We considered that it would be inappropriate for the regulations to make provision on the issue of indemnities since to do so would amount to an inappropriate intervention in private commercial arrangements, and the directive includes no requirements in this area.

Exports: Morocco

Daniel Kawczynski: To ask the Minister of State, Department for Business, Innovation and Skills what the monetary value was of UK exports to Morocco in *(a)* 2008 and *(b)* 2009. [317990]

Ian Lucas: UK exports of goods to Morocco were worth £484 million in 2008 and £299 million in 2009 on an Overseas Trade Statistics basis.

UK exports of services to Morocco were worth £77 million in 2008 on a Balance of Payments basis. Data for 2009 are due to be published at the end of July in the UK Balance of Payments Pink Book.

Exports: Saudi Arabia

Daniel Kawczynski: To ask the Minister of State, Department for Business, Innovation and Skills what the monetary value was of UK exports to Saudi Arabia in *(a)* 2008 and *(b)* 2009. [317989]

Ian Lucas: UK exports of goods to Saudi Arabia were worth £2,191 million in 2008 and £2,334 million in 2009 on a Balance of Payments basis.

UK exports of services to Saudi Arabia were worth £2,633 million in 2008 on a Balance of Payments basis. Data for 2009 are due to be published at the end of July in the UK Balance of Payments Pink Book.

Graduates: Work Experience

Mr. Willetts: To ask the Minister of State, Department for Business, Innovation and Skills how many unique visitors there have been to the *(a)* Graduate Talent Pool and *(b)* Our future, its in our hands website in each month since each was created. [307769]

Mr. Lammy: The Department do not have monthly figures for the number of unique visits to the Graduate Talent Pool website. But the following information is available:

Total unique visitors between 19 April and 8 December to the Employer site were: 55,012

Total unique visitors between 30th June and 8th December to the Graduate site were: 104,403

In addition the figures for total visits to the employer and graduate sites are as follows:

	Employer site	*Graduate site*
1-28 July	6109	—
29 July-1 September	21291	46444
2 September-27 September	15282	44260
28 September-3 November	10305	37982
4 November-1 Devember	9275	30334

The "Our future. Its in our hands" website is owned and managed by the Learning and Skills Council. I have asked the Chief Executive of the Learning and Skills Council to write to the hon. Member separately to provide an answer to that part of the question.

Letter from Geoff Russell, dated 12 February 2010:

The Minister of State, Department for Business, Innovation and Skills, has asked me to respond to your Parliamentary Question 627 that asked;

"how many unique visitors there have been (a) to the Graduate Talent Pool and (b) Our future, its in our hands websites in each month since each was created."

The following table contains web traffic information for the "In Our Hands" website, from 17 May 2009 to 14 December 2009. Unfortunately, due to the time constraints in which the response is required, further historical data cannot be obtained.

The "In Our hands" website was established in summer 2007 to serve a range of audiences interested in increasing their skill levels. The two main audiences are:

Individuals, who are targeted through marketing communications, and

Businesses, which are encouraged to make the Skills Pledge.

The purpose of the site was to act as a central repository for information relevant to the target audiences listed above. The site was promoted to individuals during key times of the year, summer and early spring, which are key enrolment times for post 16 providers. Since the integration of the Careers Advice Service with the Learning and Skills Council in 2008, the Careers Advice Service website and telephone helpline have become the main call to action in promotional materials targeting individuals.

As part of the Transformational Government strategy, this website has been identified by the Cabinet Office for convergence and closure (reference X1668).

Although the deadline for closure is March 2011, the LSC is aiming to have completed the necessary convergence work by the end of March 2010.

Information aimed at individuals has already been relocated in the Careers Advice Service site, which will subsequently become part of the Adult Advancement and Careers Service, in August 2010. Information and services for Business (i.e. Skills Pledge) will become part of the Business Link website.

Visits trend

Month	*Visits*	*Percentage visits*
January	0	0
February	0	0
March	0	0
April	0	0
May	3,837	5
June	7,895	10
July	13,768	18
August	6,727	9
September	18,068	23
October	16,044	21
November	7,902	10
December	3,738	5
Total	77,979	100.00

Notes:

Time interval (hour, day, etc.)

A one-year report displays monthly time increments. A one-quarter report displays weekly time increments. A one-month report or a one-week report displays daily time increments. A daily report displays hourly time increments. An hour-long interval marked 12:00, for example, includes all activity between 12:00 and 12:59.

Visits

Number of visits to your site during the specified time interval. A visit is a series of actions that begins when a visitor views their first page from the server, and ends when the visitor leaves the site or remains idle beyond the idle-time limit. The default idle-time limit is thirty minutes. This time limit can be changed by the system administrator.

Percentage

Percentage of visits to your site during the specified time interval compared with all visits to our site during the report period.

Higher Education: Finance

Rob Marris: To ask the Minister of State, Department for Business, Innovation and Skills what proportion on average of the budgets of universities in England was spent on *(a)* teaching undergraduates, *(b)* teaching graduates, *(c)* libraries, *(d)* student services, *(e)* non-sponsored research, *(f)* sponsored research and *(g)* administration in (i) 2000-01, (ii) 2004-05 and (iii) 2008-09. [315957]

Mr. Lammy: The information is not available in the breakdown requested. Information on higher education income and expenditure is collected in the Higher Education Statistics Authority (HESA) Finance Record.

Information is provided in the following table. The information provided is the nearest match to the categories outlined above. The table refers to the expenditure of English higher education institutions rather than budget. Further explanations of how the table is broken down are in the footnotes to the table. Figures for 200[illegible]/09 are not yet available so the most recent academic year is used (2007/08.)

Expenditure of English HEIs, 2000/01,2004/05 and 2007/08

	Percentage
2000/01	
Academic staff costs	25.3
Academic services	7.3
Research grants and contracts	14.1
Staff and student facilities	2.0
Other Admin and central services	10.8
Other	40.4
Total	100.0
2004/05	
Academic staff costs	25.0
Academic services	7.6

Expenditure of English HEIs, 2000/01, 2004/05 and 2007/08

	Percentage
Research grants and contracts	13.5
Staff and student facilities	2.4
Other Admin and central services	11.3
Other	40.2
Total	100.0
2007/08	
Academic staff costs	23.8
Academic services	7.6
Research grants and contracts	13.1
Staff and student facilities	2.6
Other Admin and central services	11.9
Other	41.0
Total	100.0

Notes:

1. 'Academic staff costs' include all departmental academic staff, so this will cover research staff as well as teaching staff.

2 'Academic services' includes money spent on libraries, but also includes costs to HEIs such as central computers, museums, galleries and observatories which are not included in Academic departmental costs.

3. It is not possible to split research expenditure by non-sponsored and sponsored research. 'Research grants and contracts' refers to sponsored research.

4. 'Staff and student facilities' is included within the main administration and central services category, and covers expenditure of facilities such as careers advisory services, accommodation services, health services, athletic and sporting facilities (except maintenance) and creches.

5. 'Other admin and central services' refers to admin and central services other than staff and student facilities.

6. 'Other' refers to all expenditure not included in the table including other academic department staff costs, premises, residences and catering and other expenditure not covered by the categories in the finance record table.

Source:

HESA Resources of Higher Education Institutions, 2000/0[illegible], 2004/05, 2007/08

Mr. Laws: To ask the Minister of State, Department for Business, Innovation and Skills what proportion of the Higher Education Funding Council for England teaching budget was allocated to *(a)* full-time and *(b)* part-time students in the latest year for which information is available. [317090]

Mr. Lammy: The Funding Council's recurrent grant for teaching in 2009/10 can be split as follows: 77 per cent. for full-time students (including sandwich year out), 16 per cent. for part time and 7 per cent. not allocated according to student numbers. Grant for part-time students is allocated in terms of their full-time equivalence, reflecting their relative level of activity, rather than on a headcount basis.

Higher Education: Overseas Students

Mr. Oaten: To ask the Minister of State, Department for Business, Innovation and Skills what assessment he has made of the likely effects on the economy of an increase in the minimum level qualification for which non-EU students may come to the UK for study. [316973]

Kevin Brennan: In a written ministerial statement on 10 February 2010 my right hon. Friend the Home Secretary announced the conclusions of a joint UKBA/BIS review of tier 4 of the points-based system (student visas). This includes plans to limit the delivery of National Qualifications Framework (NQF) level 3 courses to the new category of highly-trusted sponsor (HTS). UKBA will develop a full impact assessment on the review's recommendations as part of the process of implementation.

Higher Education: Salford

Hazel Blears: To ask the Minister of State, Department for Business, Innovation and Skills how many residents of Salford constituency have attended university in each year since 1997. [317735]

Mr. Lammy: The latest figures from the Higher Education Statistics Agency are shown in the table. Figures for 2009/10 academic year will be available in January 2011. Enrolments cover students on all years of study.

Enrolments[1] from Salford Parliamentary constituency[2] UK higher education institutions academic years 1997/98 to 2008/09

Academic year	*Enrolments*
1997/1998	1,070
1998/1999	1.135
1999/2000	1.115
2000/2001	1.145
2001/2002	1.275
2002/2003	1.355
2003/2004	1.475
2004/2005	1.525
2005/2006	1.610
2006/2007	1.510
2007/2008	1.415
2008/2009	1.545

[1] Covers enrolments on all modes and levels of study.

[2] The table does not include enrolments where the constituency of the student cannot be established due to missing or invalid postcode information.

Notes:

Figures are based on a snapshot as at 1 December to maintain consistency across the time series and have been rounded to the nearest five.

Source:

Higher Education Statistics Agency (HESA).

Higher Education: Stroud

Mr. Drew: To ask the Minister of State, Department for Business, Innovation and Skills (1) what proportion of 18 to 22 year olds exclusively resident in Stroud constituency were studying at university in *(a)* 1997 and *(b)* on the latest date for which figures are available; [317084]

(2) what proportion of 18 year olds in Stroud constituency participated in higher education in 2008-09. [317085]

Mr. Lammy: The Department does not collect data on the number of residents in a particular constituency who are not in higher education, which would be necessary to calculate a proportion. It is, therefore, not possible to calculate the proportion of 18 to 22 year olds resident in Stroud constituency who were studying at university. The numbers of 18 to 22 year old enrolments at UK Higher Education Institutions, from Stroud Parliamentary Constituency, are provided as an alternative in the table.

18 to 22 year old enrolments[1] from Stroud Parliamentary Constituency[2], UK higher education institutions academic years 1997/98 and 2008/09

Age	*1997/98*	*2008/09*
18	275	310
19	370	485
20	370	520
21	275	320
22	125	170

18 to 22 year old enrolments[1] from Stroud Parliamentary Constituency[2], UK higher education institutions academic years 1997/98 and 2008/09

Age	*1997/98*	*2008/09*
Total	1,415	1,805

[1] Covers undergraduate and postgraduate enrolments to full-time and part-time courses.

[2] The table does not include enrolments where the constituency of the student cannot be established due to missing or invalid postcode information.

Notes

Figures are based on snapshot as at 1 December to maintain consistency across academic years and have been rounded to the nearest five.

Higher Education Statistics Agency (HESA).

Higher Education: Student Numbers

Stephen Williams: To ask the Minister of State, Department for Business, Innovation and Skills how many students enrolled on their first full-time degree course in the latest year for which figures are available. [317338]

Mr. Lammy: Of the 423,455 full-time degree entrants to UK higher education institutions, 6,815 listed a degree as their highest qualification on entry to their 2008-09 degree. This leaves 416,640 entrants who had other qualifications listed. However, some entrants may have previously completed a degree, followed by a postgraduate course. These entrants would not be picked up as their highest qualification on entry would be listed as a postgraduate course, although they had previously studied a degree.

Holiday Leave: Feltham

Alan Keen: To ask the Minister of State, Department for Business, Innovation and Skills how many residents of Feltham and Heston constituency qualify for paid leave entitlements. [316690]

Mr. McFadden: All workers resident in Feltham and Heston qualify for paid annual leave entitlements. The statutory minimum as set out in the working time regulations is at least 5.6 weeks.

Numbers of workers resident in Feltham and Heston are not available, however, there were a total of 53,400 employees who worked in Feltham and Heston (but did not necessarily live there) in 2008, who would qualify for paid annual leave entitlement.

Maternity Leave: Hemsworth

Jon Trickett: To ask the Minister of State, Department for Business, Innovation and Skills how many and what percentage of women resident in Hemsworth have taken 26 weeks maternity leave since 1997. [316609]

Mr. McFadden: The most recent estimates of take-up of maternity leave are based on the DWP "Maternity Rights and Mothers' employment decisions in Britain; Survey of Mothers" (2007). In 2006, when mothers included in the study went on maternity leave, the statutory entitlement to ordinary maternity leave (OML) was 26 weeks, while mothers who had worked for their employer for a qualifying period of 26 weeks were also entitled to additional maternity leave (AML) of 26 weeks.

For mothers taking maternity leave in 2006:

84 per cent. took 26 weeks or more maternity leave;

35 per cent. took exactly 26 weeks maternity leave;

46 per cent. of mothers took between 27 and 52 weeks and only 3 per cent. were off for more than 52 weeks; and

16 per cent. of mothers took less than the statutory minimum entitlement (i.e. 26 weeks in 2006).

The Department does not collect data on take-up of maternity and paternity leave at constituency level.

Minimum Wage

Dr. McCrea: To ask the Minister of State, Department for Business, Innovation and Skills what estimate he has made of the number of people who have been paid at the national minimum wage rate in the last two years. [316363]

Mr. McFadden: Due to rounding in the conversion of payroll data into hourly wage rates in the Annual Survey of Hours and Earnings (ASHE) it is likely that a sizeable number of employees earning the NMW are reported in the survey to have a wage rate just above or below this level. This may mean that the estimated number of employees earning exactly at the NMW rate differs from the actual number. In addition, small sample sizes in ASHE for 16 to 17 and 18 to 21-year-olds means the number of job-holders earning a specific wage rate cannot be inferred with sufficient certainty. For these reasons BIS has provided estimates for the number of employees earning a wage at or below the NMW in the UK rather than those paid exactly at the NMW.

This analysis of the 2009 ASHE indicates that 788,000 employees earned a wage at or below the national minimum wage (NMW) rate in April 2009. The corresponding figure from analysis of the 2008 ASHE is 834,000 employees.

The estimates include the number of jobs paid below the NMW. These cannot be taken as estimates of underpayment as there are legitimate exemptions in the legislation including some apprentices and those receiving accommodation from their employer.

Jon Trickett: To ask the Minister of State, Department for Business, Innovation and Skills how many people aged between 16 and 24 years in *(a)* Hemsworth and *(b)* Wakefield have been paid at the rate of the minimum wage or above since its introduction. [316711]

Mr. McFadden: Data for earnings is not available at the constituency level because of small sample sizes at this level in the Annual Survey of Hours and Earnings (ASHE).

BIS analysis of the most recent ASHE indicates that a total of 291,000 employees in the Yorkshire and Humber region aged between 16 and 24 years earned a wage rate at or above the level of the National Minimum Wage (NMW) in April 2009.

Minimum Wage: Feltham

Alan Keen: To ask the Minister of State, Department for Business, Innovation and Skills how many of those resident in Feltham and Heston constituency have been paid at the national minimum wage rate since its introduction. [316701]

Mr. McFadden: Data for earnings are not available at the constituency level because of small sample sizes at this level in the Annual Survey of Hours and Earnings (ASHE).

At the regional level it is not possible to infer the number of employees earning exactly at the National Minimum Wage (NMW) with sufficient certainty. However it is possible to estimate the number who were paid at or below the NMW.

At the Government office region level the most recent figure from BIS analysis of the 2009 ASHE indicates the number of jobholders who were paid at or below the NMW in April 2009 in the London region was 62,000.

Music: Copyright

Dan Rogerson: To ask the Minister of State, Department for Business, Innovation and Skills what assessment has been made of the likely effects of proposed changes to music licensing legislation on *(a)* churches and other religious establishments and *(b)* small voluntary organisations in North Cornwall. [316982]

Mr. Lammy: The Government did not undertake any region by region assessment and therefore North Cornwall was not considered on an individual basis. However, as part of the consultation process a final impact assessment was commissioned from independent consultants, Europe Economics. This assessment estimated the impact on groups across the UK which would be affected. A shortened and updated form was published on 12 November 2009 with the Government response which was placed in the Library of the House. This contains a weblink to the full Europe Economics impact assessment.

The exact impact will be determined by the outcome of consultations between Phonographic Performance Limited (PPL) and organisations concerned on licence fee levels. However, PPL has agreed to voluntarily exempt music as part of divine worship and domestic/family occasions such as weddings. As part of this process it is essential that PPL work with the third sector to agree reasonable and appropriate tariffs. We value the contribution musical performers make to the economic and cultural success of our country. We have got to make sure that they are rewarded for their efforts so they can continue creating. The Government want to ensure that discussions between PPL and the third sector are facilitated so that the outcome is satisfactory for all concerned. A mutually agreed solution is vital if the needs of both PPL members and the third sector are to be met. I remain confident that this will be possible.

One North East and North East Economic Forum: Public Relations

Mr. Hurd: To ask the Minister of State, Department for Business, Innovation and Skills what payments the *(a)* North East Development Agency and *(b)* North East Economic Forum has made to Sovereign Strategy in each of the last three years; for what purposes; and if he will place in the Library a copy of the contract under which such payments have been made. [302304]

Ms Rosie Winterton: The information requested is as follows:

(a) One North East, the Regional Development Agency for the North East of England has made one payment to Sovereign Strategy in March 2007 for £23,500.

This payment was for sponsorship of a conference event dated 17 November 2006 relating to the North East Economic Forum.

As the payment was in the form of sponsorship, a contract is not applicable.

(b) The North East Economic Forum is a separate legal entity independent of Government and therefore I am unable to provide the information.

Overseas Students: Admissions

Mr. Hayes: To ask the Minister of State, Department for Business, Innovation and Skills how many foreign students have been refused entry to the UK since 2001; and what the reason for refusal was in each case. [311501]

Mr. Woolas: I have been asked to reply.

The requested information is only available from 2004 onwards.

Since 2004, our records show that 577,993 student applications were refused leave to enter the UK at our visa issuing posts worldwide. A further 8,629 foreign students were refused entry to the UK at the border during the same period.

The reason for refusal in each case could be obtained by a detailed examination of individual records only at a disproportionate cost so will not be provided.

These figures have been extracted from locally collated management information, using a live database, which means that it is provisional and may be subject to change.

Post Offices

Peter Luff: To ask the Minister of State, Department for Business, Innovation and Skills whether all Post Office branches hold information for customers on his Department's consultation on financial and banking products available through the Post Office; and if he will make a statement. [314580]

Mr. McFadden: Post Office Limited have informed us that leaflets with details of the consultation on post office banking have been sent to all post offices.

Mr. Drew: To ask the Minister of State, Department for Business, Innovation and Skills how many and what proportion of sub-post offices operate as *(a)* a stand-alone business and *(b)* one of (i) two, (ii) three and (iii) four or more businesses. [315885]

Mr. McFadden: I have asked Alan Cook, Managing Director of Post Office Ltd, to respond directly to the hon. Member and a copy of his reply will be placed in the Libraries of the House.

Mr. Carmichael: To ask the Minister of State, Department for Business, Innovation and Skills how many post offices have closed in *(a)* the UK and *(b)* Scotland in each year since 1987. [316898]

Mr. McFadden: I have asked Alan Cook, Managing Director of Post Office Ltd, to respond directly to the hon. Member and a copy of his reply will be placed in the Libraries of the House.

Post Offices: Bank Services

Mark Lazarowicz: To ask the Minister of State, Department for Business, Innovation and Skills what assessment he has made of the recommendations of the Consumer Focus report entitled Opportunity Knocks published on 1 January 2010. [316540]

Mr. McFadden: The Government welcome the Consumer Focus report entitled Opportunity Knocks. Together with responses to the consultation on post office banking which is currently under way, it will help to inform the further development of banking and financial services available at post offices.

Regional Development Agencies: Offices

Mr. Stewart Jackson: To ask the Minister of State, Department for Business, Innovation and Skills with reference to the answer to my hon. Friend the Member for Beckenham (Mrs. Lait) of 6 October 2008, *Official Report,* column 288W, on regional development agencies: offices, what the address is of each overseas office of each regional development agency; how many staff are employed in each such office; and what the cost to the public purse was of each such office in each of the last three years. [314949]

Ms Rosie Winterton: I will place a copy of the details requested in the Libraries of the House.

Strategic Investment Fund

Adam Afriyie: To ask the Minister of State, Department for Business, Innovation and Skills how much funding from the £200 million allocated to the Strategic Investment Fund in the 2009 Pre-Budget Report has been *(a)* allocated and *(b)* disbursed to each project in each (i) constituency, (ii) local authority area and (iii) Government Office region. [315806]

Mr. McFadden *[holding answer 9 February 2010]:* In allocating the additional £200 million in the 2009 Pre-Budget Report, the Chancellor specified that £50 million would be spent on offshore wind investment, £30 million on low carbon vehicles, £30 million on decarbonisation of the chemicals industry on Teesside, £40 million on other low carbon projects, £5 million for new TSB prize funds in innovative technology and £5 million on enterprise support for service personnel. The money is available to spend only in the financial year 2010-11. This money has not yet been legally committed or disbursed.

In most cases, the location will be the subject of further competitions, for example through the TSB or the Office of Low Emission Vehicles, where funding is allocated on the basis of open and competitive bids throughout the UK which will be assessed strictly and solely on the basis of merit.

Students: Finance

Mr. Laws: To ask the Minister of State, Department for Business, Innovation and Skills what the cost of *(a)* fee loans, *(b)* maintenance loans and *(c)* maintenance grants for full-time higher education students and (i) fee grants and (ii) maintenance grants for part-time higher education students is expected to be in (A) 2009-10 and (B) 2010-11. [317088]

Mr. Lammy: The current estimated provisions for 2009-10 and 2010-11 for England only are:

£million

Programme	*2009-10*	*2010-11*
Maintenance Loans (RAB cost)	584	606
Tuition Fee Loans (RAB cost)	722	782
Maintenance Grants	929	1,076
Part-time Support	41	43

As fee grants and maintenance grants are not treated separately for part-time higher education students accounts it is not possible to provide a breakdown of this figure.

The Resource Accounting and Budgeting (RAB) cost figures represent the cost to the Government, not the cash made available to students for their support, tuition fee or payments made to universities on behalf of students. RAB costs are made up of interest rate subsidy together with the costs of loans that are not repaid as a matter of policy, for example loans that are written off after 25 years, or death.

Mr. Laws: To ask the Minister of State, Department for Business, Innovation and Skills what the resource cost of *(a)* fee loans and *(b)* maintenance loans for full-time higher education students in England was in the latest period for which figures are available. [317089]

Mr. Lammy: In financial year 2008-09, the resource cost to Government of tuition fee loans was £546 million, and maintenance loans was £574 million for full-time higher education students in England. These costs are made up of interest rate subsidy together with the costs of loans that are not repaid as a matter of policy, for example loans that are written off after 25 years, or death.

Students: Grants

Mr. Drew: To ask the Minister of State, Department for Business, Innovation and Skills how many students received non-repayable maintenance grants from Gloucestershire local authority in each of the last five years; and what the average grant received by such students was in each of those years. [317083]

Mr. Lammy: The information is as follows:

Grants for maintenance—Gloucestershire[1]

Academic year	*Grant*	*Applicants*	*Average (£)*
2004/05	HE Grant	960	830
2005/06	HE Grant	1,760	830
2006/07	HE Grant	1,430	850
	Maintenance Grant[2]	1,640	1,830
2007/08	HE Grant	830	870

Grants for maintenance—Gloucestershire[1]

Academic year	*Grant*	*Applicants*	*Average (£)*
	Maintenance Grant[2]	2,940	1,940
2008/09	HE Grant	270	830
	Maintenance Grant[2]	4,740	1,970

[1] Approved applicants awarded a full or partial grant. Figures rounded to nearest 10.
[2] Maintenance Grant includes Special Support Grant.

Student Loans Company

Summertime

Mr. Ellwood: To ask the Minister of State, Department for Business, Innovation and Skills what recent assessment he has made of the merits of introducing British Summer Time and Double British Summer Time. [317516]

Mr. McFadden: This is a subject on which people have a range of differing views, and in relation to which requirements vary in different parts of the country. While the Government do not propose to change current arrangements, we continue to listen to representations we receive and consider any evidence presented to us.

UK Internet Governance Forum

Derek Wyatt: To ask the Minister of State, Department for Business, Innovation and Skills if he will publish the financial reports of the UK Internet Governance Forum for each year since its inception. [317947]

Mr. Timms: The UK Internet Governance Forum does not have a budget, its activities being sponsored by various UK stakeholders. It does not prepare annual financial reports.

Derek Wyatt: To ask the Minister of State, Department for Business, Innovation and Skills who decided on the membership of the UK Internet Governance Forum; and by what mechanisms members are nominated to that Forum. [317954]

Mr. Timms: Participation in the UK Internet Governance Forum is voluntary. Any organisation or individual who wishes to participate in its activities may do so.

Derek Wyatt: To ask the Minister of State, Department for Business, Innovation and Skills if he will publish records of the meetings of the executive of the UK Internet Governance Forum. [317955]

Mr. Timms: The UK Internet Governance Forum does not have an executive body.

Derek Wyatt: To ask the Minister of State, Department for Business, Innovation and Skills how many meetings the UK Internet Governance Forum has had since its inception. [317956]

Mr. Timms: The UK Internet Governance Forum has had five meetings since its launch on 6 March 2008.

Derek Wyatt: To ask the Minister of State, Department for Business, Innovation and Skills who the members are of the UK Internet Governance Forum executive committee; and if he will make a statement. [317957]

Mr. Timms: The UK Internet Governance Forum does not have an executive committee. The "dot.uk" registry, Nominet, takes the lead in organising UK IGF events and its communications with stakeholders (including a website www.ukigf.org.uk) working with other UK private sector stakeholders, BIS, my right hon. Friend the Member for Cardiff, South and Penarth (Alun Michael) as lead parliamentarian, and non-governmental organisations such as NSPCC, APC, Childnet and the Children's Coalition.

Derek Wyatt: To ask the Minister of State, Department for Business, Innovation and Skills what the remit is of the UK Internet Governance Forum. [317958]

Mr. Timms: The remit of the UK Internet Governance Forum is:

(i) to provide a platform for UK stakeholders in the internet, including business, civil society, parliamentarians, Government, academia and users, to consult and prepare for the annual global UN Internet Governance Forum (IGF);

(ii) for the stakeholders who attended the previous annual global IGF to disseminate outputs and information to non-participants; and

(iii) to help increase awareness of IGF activities and of the value of participation in the global, multi-stakeholder, non-decision-making IGF.

CHILDREN, SCHOOLS AND FAMILIES

Children In Care: Missing Persons

Mr. Hancock: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of Baroness Morgan of Drefelin of 7 January 2010, *Official Report, House of Lords,* column 119WA, on people trafficking, whether he plans to introduce a central system for the collection of information on children who have gone missing from local authority care. [313658]

Dawn Primarolo: The Government do not collect details of individual children who have gone missing from local authority care and we do not plan to collect this information centrally in future. Local authorities have the legal responsibility for safeguarding children in their care and holding a central register would serve no real operational purpose and would not offer value for money as the register would have to be maintained and updated on a daily basis. We do collect information once a year about the number of children who are missing from their agreed placement for 24 hours or more, which we use to develop Government policy and guidance.

New 'Statutory Guidance on Children who Runaway and go Missing from Home and Care' was issued in July 2009. This requires that local authorities collect information about missing from care incidents. Local Runaway and Missing from Home and Care (RMFHC) protocols will set out the arrangements for sharing this information with the police to make sure that action is taken to locate the child and minimise the likelihood of their going missing in future. Local authorities must identify a senior manager to take responsibility for monitoring compliance with RMFHC protocols. This task will involve authorities maintaining a record of the numbers children that they look after who are missing from their care placements and the actions being taken to locate them and make sure that they are safe. Children's services must make regular reports to council members with responsibility for "corporate parenting" on patterns of children going missing from care.

Children: Human Trafficking

John McDonnell: To ask the Secretary of State for Children, Schools and Families what assistance his Department is providing to the London borough of Hillingdon to support the borough's role in caring for trafficked children. [313059]

Dawn Primarolo: My ministerial colleague, the Baroness Morgan of Drefelin, met officials from the London borough of Hillingdon in March last year to discuss work they are undertaking on child trafficking at Heathrow airport in partnership with officers from the Paladin Team. It is for each local authority to provide services to meet the needs of their local population, including the needs of children who may have been trafficked. To support local authorities the Government published multi-agency guidance targeted specifically at safeguarding and promoting the welfare of children who may have been trafficked in December 2007. This contains a comprehensive strategy to improve the identification and safeguarding of child victims of trafficking. Furthermore, in 2009 DCSF also published revised guidance on sexual exploitation and children missing from care and young runways guidance, which include details of how services must work to protect children from trafficking.

Children: Nutrition

Keith Vaz: To ask the Secretary of State for Children, Schools and Families how many food vending machines there are in *(a)* primary and *(b)* secondary schools in (i) England, (ii) Leicester and (iii) the East Midlands. [311165]

Ms Diana R. Johnson: The Department for Children Schools and Families does not collect this information.

Children: Public Law

Tim Loughton: To ask the Secretary of State for Children, Schools and Families (1) how many cases were awaiting allocation in public law on the latest date for which figures are available; and how many children were involved in such cases; [307476]

(2) how many Children and Family Court Advisory and Support Service cases were unallocated in London on the latest date for which figures are available. [307482]

Dawn Primarolo: Nationally, as of 11 January 2010, CAFCASS had 688 unallocated public law cases, involving 1,161 children. As of the same date, CAFCASS London had 27 unallocated public law cases, involving 44 children. All of these cases have been reviewed, prioritised and screened for risk and this is a continuous process until substantive allocation takes place. This Department has asked CAFCASS to take urgent action to tackle the unallocated cases and has made available additional resources for London of up to £1.6 million in this financial year to do so.

Class Sizes: Greater London

Mr. Davey: To ask the Secretary of State for Children, Schools and Families what the average class size for *(a)* 5, *(b)* 6 and *(c)* 7 year-olds in primary schools was in each London borough in (i) 1990, (ii) 1992, (iii) 1997, (iv) 2001, (v) 2005 and (vi) the last year for which figures are available; and if he will make a statement. [311850]

Ms Diana R. Johnson: Class size information was first collected in 1998. Information for 1998, 2001, 2005 and 2009 is shown in the table.

Average class sizes[1] for year groups[2] 1, 2 and 3 in local authority maintained primary schools[3], years: 1998, 2001, 2005 and 2009, coverage: London boroughs

	1998			*2001*			*2005*			*2009*

n/a = Not applicable—no children in this year group

[1] One teacher classes as taught during a single selected period in each school on the day of the census in January.

[2] Year groups 1, 2 and 3 refer to children aged five, six and seven respectively, with the exception of a small number of children who are placed outside of their year group.

[3] Includes middle schools as deemed.

School Census

Departmental Billing

John Mason: To ask the Secretary of State for Children, Schools and Families what proportion of invoices from suppliers his Department paid within 10 days of receipt in November and December 2009. [311203]

Ms Diana R. Johnson: The Department for Children Schools and Families (DCSF) paid 99.9 per cent. (which was rounded to 100 per cent. by DWP when they reported on DCSF performance) of invoices to suppliers within 10 days of receipt in November 2009 and 98 per cent. within 10 days of receipt in December 2009.

This is based on information supplied by the Department for Work and Pensions who process invoice payments on behalf of DCSF.

Note:

DCSF moved to a new ERP system under a Shared Services agreement with DWP in November 2009 and special payment arrangements were operated by DWP and DCSF during transition.

Dr. Cable: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the average length of time taken by his Department to pay invoices from *(a)* small and medium-sized enterprises and *(b)* all creditors in the last 12 months. [315066]

Ms Diana R. Johnson: The Department for Children Schools and Families (DCSF) paid 98 per cent. of invoices to suppliers within 10 days of receipt in December 2009 (This is based on information supplied by the Department for Work and Pensions who process invoice payments on behalf of DCSF).

These figures are for all creditors, including payments to small and medium-sized enterprises. While aiming to pay SMEs as soon as possible, and within 10 days, Departments and their agencies have agreed to bring forward payments to all businesses, given the role of larger businesses in the supply chain. This avoids complicating payment systems and potential competition or state aid issues.

Note:

DCSF moved to a new ERP system under a Shared Services agreement with DWP in November 2009 and special payment arrangements were operated by DWP and DCSF during transition.

Departmental Disclosure of Information

David Davis: To ask the Secretary of State for Children, Schools and Families which non-departmental public bodies for which his Department is responsible sell information on a commercial basis to *(a)* companies or individuals in the private sector and *(b)* other organisations. [313219]

Ms Diana R. Johnson: Government Departments, agencies and non-departmental public bodies that have Crown status, make most of their information available for free re-use under PSI Click-Use licence. Additionally, whilst some information is sold as priced publications, none of the Department for Children, Schools and Families' nine executive non-departmental public bodies sells information on a commercial/profit making basis to private sector companies/individuals and other organisations.

Departmental Fines

Mr. Garnier: To ask the Secretary of State for Children, Schools and Families what powers *(a)* his Department and *(b)* each of its non-departmental public bodies (NDPBs) have to impose administrative penalties; what the statutory basis is for each such power; and how much (i) his Department and its predecessor and (ii) each of its NDPBs have recovered in administrative penalties in each of the last 10 years for which figures are available. [309260]

Ms Diana R. Johnson: The Department (like its predecessor) has no powers to impose administrative penalties.

None of the Department's NDPBs has powers to impose administrative penalties.

Neither the Department, its predecessor, nor any of its NDPBs has therefore recovered any sum by way of administrative penalties.

Departmental Internet

Grant Shapps: To ask the Secretary of State for Children, Schools and Families which websites his Department's staff are prevented from accessing on departmental networked computers. [311469]

Ms Diana R. Johnson: The DCSF Corporate IT System accesses the internet via the Government Secure Intranet (GSI) service as provided by Cable and Wireless and complies with the provisions of the GSI code of connection (as required by mandatory requirement 39 of the HMG Security Policy Framework). In order to assist with this compliance, DCSF utilises SurfControl's Web Filter to prevent access to undesirable websites. This software provides a list of categories to be blocked and URLs of sites within the category are updated on a daily basis. There are a small number of casual and contract staff who are not permitted any internet access. However, the majority of DCSF staff are allowed access to the internet subject to the following restrictions:

DCSF blocks access to the following categories:

Adult/Sexually Explicit

Intolerance and Hate

Criminal Activity

Violence

Weapons

Gambling

Spy ware

Hacking

In addition, a small number of individual websites have also been blocked for a variety of technical and policy related reasons.

Departmental Manpower

Mr. Philip Hammond: To ask the Secretary of State for Children, Schools and Families how many performance reviews were undertaken in respect of staff of his Department and its predecessors in each of the last five years; in how many cases performance was rated as unsatisfactory or below; how many staff left as a direct result of such a rating; and what percentage of full-time equivalent staff this represented. [313831]

Ms Diana R. Johnson: The information requested is set out in the following table:

	Department	*Numbers reviewed*	*Number not meeting required standard*	*Number unsatisfactory*
2008	DCSF	2,909	52	[1]—
2009	DCSF	2,813	60	[1]—

[1] Figures less than five have been suppressed on grounds of confidentiality

The Department reviews the performance of staff against their set objectives throughout the year and takes immediate action to address performance or development issues. If performance does not improve dismissal can result. The number for unsatisfactory in the above table only refers to those in grades below the senior civil service (SCS). There is no unsatisfactory mark in the SCS performance management system and poor performance procedures are started immediately.

Staff don't leave automatically as a result of an unsatisfactory marking as the performance improvement measures described above are put in place. Data for the former Department for Education and Skills (DfES) for the period 2005-07, is not readily available and could only be obtained at disproportionate cost.

Departmental Public Expenditure

David Simpson: To ask the Secretary of State for Children, Schools and Families how much his Department and its predecessor spent on *(a)* new furnishings, *(b)* works of art and *(c)* new vehicles in each of the last two years. [312543]

Ms Diana R. Johnson: Spend by the Department for Children, Schools and Families and its predecessor Department, Department for Education and Skills, on new furnishings, and new vehicles in the last two financial years and the current financial year to date is shown as follows.

Expenditure on new furnishings was higher during 2007-08 and 2008-09 owing to a total refurbishment programme at Sanctuary Buildings.

The Department for Children, Schools and Families financial system does not hold information on the amount of spend incurred purely for art works. Therefore the information could be provided only at disproportionate costs.

	Total new furnishings (desk, chairs, carpets, blinds and curtains) (£)	*New vehicles*
2007-08	1,657,739	0
2008-09	764,246	0
2009/10	125,978	0

Departmental Telephone Services

Mark Lazarowicz: To ask the Secretary of State for Children, Schools and Families how many telephone lines with the prefix *(a)* 0870, *(b)* 0845 and *(c)* 0800 his Department (i) operates and (ii) sponsors; how many calls were received to each number in the last 12 months; and whether alternative numbers charged at the BT local rate are available in each case. [305204]

Ms Diana R. Johnson: The DCSF currently operates four telephone lines with the prefix *(a)* 0870, two telephone lines with the prefix *(b)* 0845 and one telephone line with the prefix *(c)* 0800. The DCSF currently sponsors no telephone lines with the prefix *(a)* 0870, four telephone lines with the prefix *(b)* 0845 and no telephone lines with the prefix *(c)* 0800. Alternative (geographic 'BT local rate') numbers are available in each case.

The DCSF cannot provide the number of calls received by each number in the last 12 months. The information is not readily available centrally in the Department. To provide the information would involve an extensive information collection exercise which would exceed the recommended disproportionate cost threshold.

Education Maintenance Allowance

Dr. Starkey: To ask the Secretary of State for Children, Schools and Families how many students received education maintenance allowance in *(a)* England and *(b)* Milton Keynes in 2009-10. [311247]

Mr. Iain Wright: This is a matter for the Learning and Skills Council (LSC) who operate the education maintenance allowance (EMA) for the Department for Children, Schools and Families (DCSF). Geoff Russell, the LSC's acting chief executive, will write to my hon. Friend with the information requested and a copy of his reply will be placed in the House Libraries.

Family Learning Impact Fund

Mr. Laws: To ask the Secretary of State for Children, Schools and Families (1) how much has been spent on the Family Learning Impact Fund in each of the last three years; and if he will make a statement; [314159]

(2) what assessment he has made of the effectiveness of the Family Learning Impact Fund; and if he will make a statement. [314160]

Dawn Primarolo: Funding has been provided since April 2008 for the Family Learning Impact Fund. £10 million was made available in 2008-09 and £10 million in 2009-10.

The Family Learning Impact Fund has specific strands to support parents and their children—early years foundation stage, family numeracy, financial capability, digital families (school information for parents using online resources), and a strand looking at improving data collection on the number of parents and children participating.

The FLIF programme has exceeded its year 1 target of reaching 10,500 mothers and fathers, with 13,391 mothers and fathers and 9,700 children enrolling on the programme during 2008-09. In addition, the programme supported the training of 890 new family learning practitioners and helped develop a range of new resource materials to support delivery. The programme is on track to meet its targets for enrolling mothers and fathers (15,000) and children (10,000) on courses in year 2.

Foster Care

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families what estimate has been made of the number and proportion of local authorities which have a policy of considering friends and family as a first option when seeking foster placements for looked-after children; and if he will make a statement. [305292]

Dawn Primarolo: We do not collect data on the number of local authorities which have a policy of considering friends and family as a first option. However, it is already a principal of the Children Act 1989 that local authorities should support the upbringing of children by their families wherever possible, if it is in the child's best interests. The Children and Young Persons Act 2008 strengthened this requirement. Volume 1 of the revised Children Act 1989 statutory guidance requires local authorities to demonstrate that they have considered family members and friends as potential carers at each stage of the decision making process.

GCE A-level

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many white *(a)* boys and *(b)* girls eligible for free school meals achieved three A grades at A-level in 1997. [312062]

Ms Diana R. Johnson *[holding answer 19 January 2010]:* The information can not be provided as pupil level data relating to ethnicity and free school meals was not collected as far back as 1997.

GCSE: Disadvantaged

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many and what proportion of white *(a)* boys and *(b)* girls eligible for free school meals at the end of key stage 4 achieved five A* or A grades at GCSE, including English and mathematics but excluding equivalents in the (i) earliest and (ii) most recent year for which figures are available. [309638]

Mr. Coaker *[holding answer 11 January 2010]:* Pupil level attainment data by free school meal eligibility and ethnicity is only available from 2003 onwards. The information requested is presented in the following table and is for maintained schools only.

	Number of white pupils[1] eligible for free school meals achieving five or more A or A grades at GCSE including English and Maths (excluding equivalents)*		*Percentage of white pupils eligible for free school meals achieving five or more A* or A grades at GCSE including English and Maths (excluding equivalents)*	
	Boys	*Girls*	*Boys*	*Girls*
2003	156	213	0.6	0.8
2009[2]	211	344	0.8	1.4

[1] Figures for 2003 are based on pupils aged 15 and 2009 figures are based on pupils at the end of key stage 4.
[2] Figures for 2009 are provisional.
Source:
National Pupil Database

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many pupils eligible for free school meals attended schools at which fewer than 30 per cent. of pupils achieved five A* to C grades at GCSE including English and mathematics but excluding equivalents in *(a)* 1997 and *(b)* the most recent year for which figures are available. [311637]

Ms Diana R. Johnson *[holding answer 18 January 2010]:* In 2009 there were 89,580 pupils eligible[1] for free school meals attending schools at which fewer than 30 per cent. of pupils achieved five A* to C grades at GCSE including English and mathematics but excluding equivalents[2] (includes post 16 pupils).

To provide information for 1997 would incur disproportionate cost.

[1] Those eligible may choose not to take up their offer of a free school meal for various reasons e.g. through preference or non attendance on the day. Pupils are counted as eligible only if they meet the eligibility criteria and make a claim.

[2] Includes maintained mainstream schools with more than 10 pupils. Qualifications include GCSEs, GCSE short courses, GCSE double awards, vocational single and double GCSEs and AS levels.

Jim Cousins: To ask the Secretary of State for Children, Schools and Families how many and what proportion of students at each secondary school in *(a)* the City of Newcastle upon Tyne, *(b)* North Tyneside borough, *(c)* Gateshead borough and *(d)* Northumberland (i) achieved English GCSE grades A* to C, (ii) achieved mathematics GCSE grades A* to C and (iii) qualified for free school meals in 2009. [313574]

Mr. Coaker *[holding answer 26 January 2010]*: The information requested has been placed in the Libraries.

Health Education: Sex

Tim Loughton: To ask the Secretary of State for Children, Schools and Families whether he plans to change the protection provided for in law against the teaching of sex and relationships education not appropriate to the age, religious and cultural background of pupils. [311015]

Ms Diana R. Johnson: The Children, Schools and Families Bill includes provisions that place a duty on the governing body and head teacher of a school to ensure that personal, social, health and economic (PSHE) education (which includes sex and relationships education) is taught in a way that is appropriate to the ages of the pupils concerned and to their religious and cultural backgrounds.

Home Education Independent Review

Mr. Drew: To ask the Secretary of State for Children, Schools and Families how many representatives he has received on the recommendations of the Badman review of secondary education percentage of these supported the introduction of a regulator for home education. [312752]

Ms Diana R. Johnson: The registration and monitoring of home education proposals arising from the Badman report were subject to a full public consultation between 11 June and 19 October 2009. There were 5,211 responses which were mainly from home educators, their relatives and supporters and related organisations. Most of the responses were against the introduction of registration and monitoring.

Music: Education

Mr. Hunt: To ask the Secretary of State for Children, Schools and Families what percentage of *(a)* Key Stage 1 and *(b)* Key Stage 2 pupils received specialist instrumental or vocal tuition in each of the last five years. [313770]

Ms Diana R. Johnson *[holding answer 28 January 2010]*: There is no requirement for schools to provide this information, though the following data are available from information which local authorities voluntarily report to the National Music Participation Director in connection with their Local Authority Music Plans. Local authorities had predicted that 22 per cent. of their Key Stage 2 pupils would participate in their Wider Opportunities programmes in 2008-09, and have since reported that the actual figure was 24 per cent. that is 509,628 pupils. For 2009/10 the predicted figure is 31 per cent. The actual numbers will be reported to the National Music Participation Director by November 2010 and the percentage then calculated using the figure for total Key Stage 2 pupil numbers.

84 per cent. of primary schools have now signed up to 'Sing Up'.

National Safeguarding Delivery Unit: Standards

Tim Loughton: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 14 January 2010, *Official Report*, column 1123W, on the National Safeguarding Delivery Unit: standards, if he will place in the Library a copy of each of the agreed monthly Milestones. [312233]

Dawn Primarolo: The agreed milestones for the implementation of the Government's response to Lord Laming's recommendations are set out in 'The protection of children in England: action plan - The Government's response to Lord Laming', published in May last year, available at

http://publications.everychildmatters.gov.uk/default.aspx?PageFunction=productdetails&PageMode=publications&ProductId=CM+7589&

The National Safeguarding Delivery Unit reports progress towards these milestones to a cross-Government programme board of senior officials which meets on a monthly basis.

The Unit also reports into the Cabinet Sub-Committee on Families, Children, and Young People through a new ministerial sub-group which meets on a quarterly basis.

The National Safeguarding Delivery Unit published an interim report on progress made towards these milestones on 18 December 2009, available at

http://publications.dcsf.gov.uk/default.aspx?PageFunction=productdetails&PageMode=publications& ProductId=DCSF-01181-2009&

A further progress report will be published in due course.

Pre-School Education: Preston

Mr. Hendrick: To ask the Secretary of State for Children, Schools and Families how many *(a)* free nursery and *(b)* pre-school places were available for (i) three and (ii) four year-olds in Preston in each year since 1997. [311236]

Dawn Primarolo: Table 1 shows the number of part-time equivalent places filled by three and four year olds in Preston constituency from 2004 to 2009.

The Department publishes information on the part-time equivalent number of free early education places filled by three and four year olds in maintained, private, voluntary and independent providers. Information on the number of pre-school places is not separately available. Part-time equivalent places are derived by counting children taking up 12 and a half hours per week as one place, 10 hours per week as 0.8 places, seven and a half hours per week as 0.6 places, five hours per week as 0.4 places and two and a half hours per week as 0.2 places. Data at Parliamentary constituency level are not available prior to 2004.

Table 1: Part-time equivalent number of free early education places[1, 2, 3] filled by three and four year olds[4], Parliamentary constituency: Preston, position in January each year

	3-year-olds	*4-year-olds*
2004	1,100	1,200
2005	1,100	1,100
2006	1,100	1,100
2007	1,200	1,100
2008	1,200	1,100
2009	1,300	1,100

[1] A place is equal to 12.5 hours (five sessions) and can be filled by more than one child.

[2] Figures are rounded to the nearest 100.

[3] Prior to 2004, information on early education places was derived from returns made by local authorities as part of the Nursery Education Grant (NEG) data collection exercise. These data were collected at local authority level, therefore, data for this parliamentary constituency is not available prior to 2004.

[4] Age of all children taken at 31 December in the previous calendar year.

Source:

Early Years Census and School Census

The latest figures on early education places for three and four year olds in England were published in Statistical First Release (SFR) 11/2009 "Provision for children under five years of age in England: January 2009", available on my Department's website at:

http://www.dcsf.gov.uk/rsgateway/DB/SFR/s000848/index.shtml

Mr. Hendrick: To ask the Secretary of State for Children, Schools and Families how many new nurseries have been established in Preston since 1997. [311238]

Dawn Primarolo: The Department only holds data for the establishment of maintained nursery provision, which is recorded at local authority level. Information on other types of nursery provision is not held centrally. The following table sets out the numbers for each year in which new maintained nursery provision was established in the Lancashire local authority area, under local decision making arrangements which were introduced in September 1999.

From this local authority level data we have identified that no new maintained nursery schools have been established in Preston since 1999. However, two primary schools made prescribed alterations to add nursery units to their schools in 2001 and these are highlighted in the local authority table. Information about decisions made under the arrangements that operated prior to September 1999 is not reliable and is, therefore, not included.

New maintained nursery provision established in the Lancashire local authority area

	2001	*2005*	*2006*	*2007*	*2008*	*2010*	*Total*
New maintained nursery Schools	—	1	—	—	1	—	2
New nursery units added to other schools	[1]4	2	1	1	2	1	11
Total	4	3	1	1	3	1	13

[1] Includes the two Preston Primary Schools

Primary Education: Pupil Numbers

Sandra Gidley: To ask the Secretary of State for Children, Schools and Families what projections his Department has made of the numbers of primary school children over the next 10 years; and what funding has been allocated to increase numbers of such children in *(a)* Test Valley borough, *(b)* Southampton City, *(c)* the Ceremonial County of Hampshire and *(d)* the South East. [313879]

Ms Diana R. Johnson: The Department's projections for the number of pupils in maintained primary schools in England between 2009/10 and 2016/17 are given in the following table.

Projections are not published beyond 2017 due to the increasing levels of uncertainty over time. For example, the outturn for January 2009 differed by nearly 1.0 per cent. from our 2003 based projection for that year, but was less than 0.2 per cent. out from our 2008 based projection. Factors which contribute to differences between projections and outturn data include the underlying population trends, participation among under fives and variations of proportions attending independent schools.

Maintained primary schools, full-time equivalent number of pupils[1, 2, 3, 4, 5, 6, 7]

	Thousand
At January in each academic year	*Maintained primary schools*
Actual	
2008/09	3,947
Projected	
2009/10	3,967
2010/11	4,010
2011/12	4,081
2012/13	4,176
2013/14	4,292
2014/15	4,376
2015/16	4,437
2016/17	4,483

[1] Full-time equivalent numbers count each part-time pupil as 0.5.

[2] Figures are rounded to the nearest thousand pupils.

[3] The data include dually registered pupils.

[4] Experience has shown that totals in maintained primary schools are usually within ±0.2 per cent. for the first projected year. There is less certainty in the longer term. For example, the outturn for January 2009 differed by nearly 1.0 per cent. from our 2003 based projection for that year, but was less than 0.2 per cent. out from our 2008 based projection. Factors which contribute to differences between projections and outturn data include the underlying population trends, participation among under fives and variations of proportions attending independent schools.

[5] Projections allow for increase in take up of early years education towards universal provision.

[6] Projections use the mid-2008 based Office for National Statistics (ONS) population projections.

[7] The previous projections (PT278), published in Annex N of the Department's Annual Report of June 2009, used the mid-2006 based ONS population projections.

Sources:

School census (January 2009) and DCSF pupil projections (PT279, December 2009)

The Department does not allocate funding on a phase basis, so no figures for primary school funding are available. Total Dedicated Schools Grant (DSG) funding figures for pupils aged three to 15 for Southampton LA, Portsmouth LA, Hampshire LA and south east LAs in 2009-10 (final allocations) and 2010-11 (indicative allocations) are shown as follows. No funding allocations have been made beyond 2010-11 at this time. (Allocations for Test Valley borough are included within Hampshire LA.)

£ million

Local authority	*Final 2009-10 DSG allocations*	*Indicative 2010-11 DSG allocations*
Southampton	112.153	117.063
Portsmouth	101.015	104.174
Hampshire	692.510	720.147
South East LAs	4,546.166	4,735.011

These figures are for DSG revenue funding only and exclude any capital monies.

Further details can be found at:

http://www.teachernet.gov.uk/management/schoolfunding/schoolfunding2008to11/dsg200811/

In addition to DSG, further funding to schools is available through specific grants such as the School Standards Grant, School Development Grant and other Standards Funds. Further details for the latest specific grant allocation in 2009-10 and 2010-11 are available at:

http://www.teachernet.gov.uk/management/schoolfunding/schoolfunding2008to11/specificgrants200811/

In November 2009, the Department announced the allocation of £1,000,000 to Southampton LA to support the provision of additional primary places by 2011. This was part of a total of £271 million that was allocated to 34 authorities which had applied for exceptional funding for additional primary school places where there was greatest need. Hampshire LA also applied for this funding, but did not meet our criteria of high growth and need.

Pupil Exclusions

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many pupils received more than *(a)* 15 and *(b)* 20 fixed-period exclusions in the most recent year for which figures are available. [312791]

Mr. Coaker: The requested information for 2007/08 is shown in the table. Information for 2006/07 has also been included.

Primary, secondary and special schools[1, 2, 3]: Number of times pupil enrolments were excluded for a fixed period[4], 2006/07 and 2007/08

	Number of pupil enrolments[4]	
	2006/07	*2007/08*
Number of fixed period exclusions per pupil enrolment[5]		
More than 15	130	150
More than 20	40	40

[1] Includes middle schools as deemed.

[2] Includes city technology colleges and academies (including all-through academies).

[3] Includes maintained and non-maintained special schools. Excludes general hospital schools.

[4] Pupils may be counted more than once if they were registered at more than one school or moved schools during the school year.

[5] Those pupils counted in the 'more than 20' category are also included in the 'more than 15' category.

Note:

Figures rounded to nearest 10.

Source:

School Census.

Pupils: Epilepsy

Mr. Timpson: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the number of children with epilepsy in mainstream schools who achieve examination results lower than indicated by their assessed intellectual level. [312675]

Ms Diana R. Johnson: Information on the attainment of pupils with epilepsy is not collected centrally.

Pupils: Greater London

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what the average per pupil funding in *(a)* rural, *(b)* urban and *(c)* inner London secondary schools was in each year since 1997; and if he will make a statement. [310541]

Mr. Coaker: The average per student funding of secondary schools in rural, urban and inner-London settings is set out for the financial years 2004-05 and 2009-10 in the following table. Data are not available before 2004-05 as the urban/rural classification was only created in 2004. To produce urban/rural data for all years would be at disproportionate cost so a comparator of inner London and rest of England has been provided for intervening years.

The Education (Budget Statements) (England) Regulations, total budget share (plus grants)[1, 2] per pupil[3] in secondary schools[4] in England in inner London[5] and rest of England 2004-05 to 2009-10 (with an urban/rural split in RoE 2004-05 and 2009-10), cash terms[6] figures as reported by local authorities as at 12 January 2010

	Total budget share (plus grants) per pupil (£)				
	Inner London	*Urban (excluding inner London)*	*Rural*	*Rest of England (i.e. excluding inner London)*	*England*
2004-05	4,580	3,440	3,250	3,410	3,460
2005-06	4,970	—	—	3,700	3,760
2006-07	5,380	—	—	4,040	4,100
2007-08	6,020	—	—	4,380	4,440
2008-09	6,260	—	—	4,560	4,630

The Education (Budget Statements) (England) Regulations, total budget share (plus grants)[1] [2] per pupil[3] in secondary schools[4] in England in inner London[2] and rest of England 2004-05 to 2009-10 (with an urban/rural split in RoE 2004-05 and 2009-10), cash terms' figures as reported by local authorities as at 12 January 2010

	Total budget share (plus grants) per pupil[5] (£)				
	Inner London	*Urban (excluding inner London)*	*Rural*	*Rest of England (i.e. excluding inner London)*	*England*
2009-10	6,480	4,750	4,430	4,700	4,770

[1] Budget share plus grants allocated to schools is the combination of the schools individual budget share plus any revenue grants allocated to the school at the start of the financial year. This does not include any capital funding allocated to schools.

[2] The amount of money allocated to a school depends on the school funding policy of each local authority. There will be differences between authorities in the amounts of funding held centrally to spend on behalf of their schools.

[3] The pupil numbers used to calculate the per pupil amounts are as reported by the local authority on their Section 52 Budget Statement (Table 2), comprising the full-time equivalent number of pupils registered at the school, used for the initial determination of the school's budget share under the local authority's allocation formula.

[4] Included are all local authority maintained primary schools which are reported by their LA as being open for the entire final year (schools that are reported as either opening or closing during the financial year have been removed).

[5] Figures are rounded to nearest £10.

Pupils: Obesity

Tim Loughton: To ask the Secretary of State for Children, Schools and Families whether he has made an estimate of the level of obesity amongst pupils who are eligible for free school meals. [310368]

Dawn Primarolo *[holding answer 12 January 2010]*: The information is not available in the form requested.

However, the National Child Measurement programme (NCMP) provides data on the prevalence of obesity in children aged four to five years (reception year) and 10 to 11 years (year 6). Figures 13 and 14 in the NCMP report for 2008/09 provide information on the prevalence of obese children in reception and year 6 as measured by the Index of Multiple Deprivation 2007. This publication has been placed in the Library. The report shows there is a strong gradient for child obesity against area-based deprivation: the obesity prevalence rate in children in the decile of highest deprivation is 22.6 per cent. compared to 13.4 per cent. of children in the decile of lowest deprivation. Data from the school census 2009 shows a similar gradient for eligibility for free school meals against area-based deprivation: 40.5 per cent. of pupils aged five to 15 in the decile of highest deprivation are eligible for free school meals compared to 2.3 per cent. of pupils aged five to 15 in the decile with lowest deprivation.

Schools: Microphones

Rob Marris: To ask the Secretary of State for Children, Schools and Families what proportion of state schools in England have a facility for the sound amplification of teachers' voices fitted in the majority of classrooms. [315955]

Mr. Coaker: The Department does not collect information about the number of state schools with the facility for the sound amplification of teachers' voices.

For schools that wish to install such facilities, guidance is given in the Department's Building Bulletin 93 "Acoustic Design of Schools".

Rob Marris: To ask the Secretary of State for Children, Schools and Families whether his Department has commissioned any recent research on the effects on pupil *(a)* learning and *(b)* behaviour of the sound amplification of teachers' voices in classrooms. [315956]

Mr. Coaker: The Department has not commissioned any research about the effects of the sound amplification of teachers' voices in classrooms on pupil learning and behaviour.

Schools: Playing Fields

John Battle: To ask the Secretary of State for Children, Schools and Families how much revenue has accrued from the sale of school playing fields since May 1997; and what area of such fields has been sold in Leeds West constituency in that period. [306591]

Mr. Iain Wright: Legislation was introduced on 1 October 1998, under section 77 of the School Standards and Framework Act, to stop the indiscriminate sale of school playing fields. We do not hold records of how many were sold before this date but we do know that there was growing public concern about the number being lost. Since 1 October 1998 no school playing field has been sold to raise revenue funding.

A sale is only allowed if the playing field in question is genuinely surplus and all of the sale proceeds must be used towards specific capital projects to improve school sports provision or educational facilities.

Investment in school buildings has risen from £683 million in 1996-97 to £21.8 billion in the three year period 2008-09 to 2010-11. Schools no longer have to sell their playing fields to pay for repairs.

There have not been any approvals for the sale of school playing fields in Leeds West constituency.

Schools: Preston

Mr. Hendrick: To ask the Secretary of State for Children, Schools and Families what recent assessment he has made of the effects on schools of changes to the level of expenditure on school sports in Preston since 1997; and if he will make a statement. [311233]

Dawn Primarolo: In the eight years to 2011, the Government would have invested £2.4 billion in the national PE and sport strategy which aims to improve the quality and quantity of physical education (PE) and school sport up and down the country. At the heart of our strategy is the establishment of a national infrastructure of School Sport Partnerships, which now includes every maintained school in the country. However, the boundaries and membership of School Sport Partnerships in Preston has changed over time, as the network was rolled out across the country. This makes it difficult to show, accurately, the extent of the impact of that investment in Preston.

However, our annual PE and sport survey shows that, in Lancashire as a whole, the percentage of pupils doing at least two hours high quality PE and sport per week has increased over time, as follows:

	Percentage
2004/05	56
2005/06	77
2006/07	82
2007/08	89

In 2008/09, the survey changed to measure the percentage of pupils doing three hours high quality PE and sport each week. For Lancashire as a whole this figure was 52 per cent., against a national figure of 51 per cent.

Schools: Sports

Mr. Hunt: To ask the Secretary of State for Children, Schools and Families whether he has made a recent estimate of the proportion of schools which hold an annual sports day. [316730]

Mr. Iain Wright *[holding answer 10 February 2010]:* The annual PE and Sport Survey collects data from maintained schools relating to pupils' participation in PE and sport. The 2008/09 survey found that all primary schools and 98 per cent. of secondary schools held a sports day during the last academic year.

Schools: Standards

Michael Gove: To ask the Secretary of State for Children, Schools and Families (1) how many schools rated inadequate for *(a)* behaviour and *(b)* leadership by Ofsted are also rated (i) inadequate overall, (ii) satisfactory overall, (iii) good overall and (iv) outstanding overall; [316913]

(2) how many schools Ofsted rates *(a)* outstanding, *(b)* good, *(c)* satisfactory and *(d)* inadequate. [316914]

(3) how many schools Ofsted rates as outstanding for leadership. [316915]

Mr. Coaker: These are matters for Ofsted. HM Chief Inspector, Christine Gilbert, has written to the hon. Member and a copy of her reply has been placed in the Library.

Letter from Christine Gilbert, dated 11 February 2010:

Your recent parliamentary questions have been passed to me, as Her Majesty's Chief Inspector, for response.

The latest period for which published figures about maintained school section 5 inspection outcomes are available is the academic year 2008/09. This answer, therefore, takes into account inspections carried out prior to 1 September 2009.

At 1 December 2009 there were 22,260 schools open and eligible for a section 5 Ofsted inspection. Of these, 21,920 had received at least one section 5 inspection. These schools, together with their latest inspection judgements, form the basis for the response.

Of the 21,920 schools, 3,577 (16%) were judged as outstanding for overall effectiveness at their last inspection, 11,033 (50%) were judged as good, 6,950 (32%) were judged as satisfactory and 360 (2%) were found to be inadequate.

Of the 21,920 schools, 3,972 (18%) were judged as outstanding for leadership and management at their last inspection and 222 (1%) were judged as inadequate.

Of the 222 schools judged to have inadequate leadership and management, all were judged to be inadequate for overall effectiveness.

Of the 21,920 schools, 48 were judged to have inadequate behaviour. Of these, 9 were judged to be satisfactory for overall effectiveness and 39 were judged as inadequate. None was found to be outstanding or good for overall effectiveness.

A copy of this reply has been sent to Vernon Coaker MP, Minister of State for Schools and Learners, and placed in the library of both Houses.

Teachers

Michael Gove: To ask the Secretary of State for Children, Schools and Families (1) how many qualified teachers have stopped working as teachers since 2003; [315518]

(2) how many teachers who had left the maintained sector were teaching in another sector in the latest year for which figures are available. [315528]

Mr. Coaker: The information requested is not collected centrally.

Teaching: Licensing

Annette Brooke: To ask the Secretary of State for Children, Schools and Families what discussions he has had with the General Teaching Council on arrangements for implementation of his Department's proposed licence to practise; how much funding has been allocated to the implementation of that scheme; and if he will make a statement. [316908]

Mr. Coaker: We are working closely through a joint project with the General Teaching Council for England (GTCE) to design a licensing system that is simple and workable. The clauses providing for a 'licence to practise' are included in the Children, Schools and Families Bill which is progressing through Parliament. We have already published an impact assessment alongside the Bill which outlines our current estimates of the costs of introducing the system to support the 'licence to practise'. We will have a clearer picture of the precise costs once the joint work with the GTCE is concluded. The impact assessment and other related documents are available on the website at:

http://www.dcsf.gov.uk/childrenschoolsandfamiliesbill/

Vocational Education

Alan Keen: To ask the Secretary of State for Children, Schools and Families what recent assessment he has made of the effects on students' careers of the availability of vocational courses in schools. [313299]

Mr. Coaker: An assessment has not been made to date of the effects on careers of vocational learning in schools. We do know that wider research has indicated a positive return to earnings for those undertaking vocational learning while our own Youth Cohort study suggests that around 22 per cent. of learners with existing vocational qualifications are in higher education by the age of 19. Vocational and applied qualifications offer valuable choice to young people and 14-19 Diplomas in particular will enable young people to achieve their ambitions because employers and higher education designed them.

Young People: Community Orders

Mr. Hurd: To ask the Secretary of State for Children, Schools and Families with reference to his Department's press release of 24 April 2009 on community service for young people, from which budgets the funding for the programme will be drawn. [314842]

Ms Diana R. Johnson: The Community Service programme will be funded from DCSF programme budgets.

Young People: Training

Mr. Evennett: To ask the Secretary of State for Children, Schools and Families what formula was used to determine the funding allocated to local authorities for 16-plus skills provision in 2010-11. [314758]

Mr. Iain Wright: The funding formula used to determine the allocation for each provider is that contained within the learner responsive model for schools and colleges and within the employer responsive model for work-based learning providers. Details of how these models work can be found at:

http://www.lsc.gov.uk/publications/latestdocuments/Detail.htm?id=abeca474-ace6-493e-9fc9-e83545caf9b5

Funding is not allocated through local authorities for 19+ education and training other than for those with a learning difficulty assessment.

Mr. Evennett: To ask the Secretary of State for Children, Schools and Families how much funding has been awarded to each local authority for 16-plus skills provision in 2010-11. [314759]

Mr. Iain Wright: Funding allocated to local authorities for 16-18 learning in the 2010/11 academic year will be the aggregation of all 16-18 providers they are responsible for. The amount of funding each provider will be allocated in 2010/11 is currently being agreed and will be announced by the end of March 2010. Funding is not allocated through local authorities for 19+ education and training other than for those with a learning difficulty assessment.

Young People: Unemployment

Mr. Clappison: To ask the Secretary of State for Children, Schools and Families how many and what proportion of people aged between 16 and 24 years were not in education, employment or training in each region in each of the last eight quarters for which figures are available. [300822]

Mr. Iain Wright: Official estimates of the number and proportion of young people of academic age 16 to 18[1] who are not in education, employment or training (NEET) are published by the Department in a Statistical First Release (SFR) each June and can be found on the Department's website:

http://www.dcsf.gov.uk/rsgateway/DB/SFR/s000849/index.shtml

Estimates from the Labour Force Survey (LFS) of the number and proportion of people of academic age 16 to 24 who were NEET in each region in England in each of the last eight quarters are shown in the following tables.

	Q4 2007		*Q1 2008*		*Q2 2008*		*Q3 2008*	
	Number	*Percentage*	*Number*	*Percentage*	*Number*	*Percentage*	*Number*	*Percentage*
North East	49,000	15	52,000	16	56,000	17	65,000	20
North West	120,000	14	136,000	16	139,000	16	151,000	18
Yorkshire and Humberside	82,000	12	75,000	11	101,000	15	119,000	18
East Midlands	70,000	13	69,000	13	71,000	13	86,000	16
West Midlands	93,000	15	95,000	15	98,000	16	119,000	19
East of England	74,000	12	87,000	14	77,000	13	82,000	13
London	123,000	14	129,000	15	132,000	15	149,000	16
South East	116,000	13	104,000	12	111,000	12	131,000	14

South West	63,000	11	78,000	14	66,000	12	86,000	16
England	857,000	14	935,000	16	959,000	16	1,082,000	18

Estimates from the Labour Force Survey and will include pregnant mothers, those caring for children or relatives, people with a disability or suffering from ill health, and those waiting for a course or job to start.

including those on a gap year. It should also be noted that the estimates are subject to survey error, and should therefore be treated with caution. The 95 per cent. confidence interval for a regional estimate of NEET using the Labour Force Survey is typically around plus or minus 2-3 percentage points.

We are committed to ensuring that young people NEET do not become a "lost generation" and have taken decisive action to strengthen existing provision and put in place new support, training and jobs for young people. Through the September Guarantee, we are offering all 16 and 17-year-olds a suitable place to continue in learning, and announced on 18 November plans to extend the Guarantee to 16 and 17-year-olds who are NEET in January. Budget 2009 announced the Young Person's Guarantee of a job, training or a place in the Community Task Force for 18 to 24-year-olds who are approaching 12 months on jobseeker's allowance. Already 95,000 jobs under the Future Jobs Fund have been approved and some young people have started work.

In July, the Government launched 'Backing Young Britain' to bring together businesses, charities and Government to create opportunities for young people giving them a better start on the career ladder.

By offering schemes such as volunteering, work experience and apprenticeships we will ensure that young people get the start they deserve to get on the career ladder.

[1] Academic age refers to the age at the start of the academic year, 31 August.

Mr. Sanders: To ask the Secretary of State for Children, Schools and Families what percentage of 16 to 19 year-olds in Torbay constituency were *(a)* in education, training or employment and *(b)* unemployed in each year since 1992. [314617]

Mr. Iain Wright: Estimates of the number of 16 to 19-year-olds participating in education, employment or training are not available at parliamentary constituency level. The Department for Children Schools and Families publishes annual estimates of the proportion of 16 to 17-year-olds participating in education and training in each local authority. These estimates are available via this link under "additional information":

http://www.dcsf.gov.uk/rsgateway/DB/SFR/s000849/index.shtml

Connexions services, which have responsibility for supporting young people and tracking their progress, record the main activity of 16 to 18-year-olds who are known to them in each local authority area. These estimates include young people who are resident elsewhere and travel into the area to study. Furthermore, the denominator for these estimates includes a small number of young people whose main activity is not known.

	Proportion of 16 to 18-year-olds in education, training or employment (percentage)
2006[1]	83.8
2007[2]	94.8
2008[2]	94.5

[1] 2006 estimate excludes young people in part-time employment.
[2] 2007 and 2008 estimates include young people in part-time employment.

Claimant count data is available via the Office for National Statistics Nomis website:

https://www.nomisweb.co.uk/

The following table shows the average number of young people aged 16 to 19 claiming job seeker's allowance and thereby registered unemployed in the Torbay constituency in each year from 1996, the first year available. Because population estimates for 16 to 19-year-olds are not routinely available by parliamentary constituency, it is not possible to express these figures as percentages.

Average 16-19 year old claimant count in Torbay

	Average claimant count
1996	340
1997	265
1998	250
1999	215
2000	160
2001	170
2002	160
2003	160
2004	150
2005	140
2006	170
2007	170
2008	175
2009	285

It should be noted that 16 and 17-year-olds do not have access to job seeker's allowance except in cases of severe hardship.

HOME DEPARTMENT

Animal Experiments: Primates

Mr. Drew: To ask the Secretary of State for the Home Department how many primates imported into the UK for the purposes of scientific research during 2008 and 2009 were reported to be sick or dead on arrival. [316437]

Meg Hillier: During 2008, no non-human primates imported into the UK for the purposes of scientific research were reported to be sick or dead on arrival.

During 2009, no non-human primates were reported to be dead on arrival. Two showed clinical signs leading to euthanasia after arrival and two had minor injuries requiring treatment.

Mr. Drew: To ask the Secretary of State for the Home Department how many overseas primate suppliers are accredited by his Department to export non-human primates to the UK; and in which country each is based. [316439]

Meg Hillier: The Home Office has no remit to accredit overseas primate suppliers. However, the use of any non-human primate from an overseas source under the authority of a project licence issued under the Animals (Scientific Procedures) Act 1986 requires prior approval which is given only if the conditions at the supplying centre, and at the breeding centre where the animals originate if different, are acceptable to the Home Office at the time of the supply.

There are a total of 10 overseas centres currently considered accepted to provide non-human primates to

UK designated user establishments. They are based in Cambodia, China, Israel, Mauritius, Netherlands, Spain and Vietnam.

Antisocial Behaviour Orders

Paul Holmes: To ask the Secretary of State for the Home Department how many anti-social behaviour orders were issued in respect of people *(a)* under the age of 16 years, *(b)* aged between 17 and 18 years, *(c)* aged between 19 and 25 years and *(d)* over the age of 25 years in (i) 2008 and (ii) 2009. [317699]

Mr. Alan Campbell: Information collected centrally by the Ministry of Justice on the number of antisocial behaviour orders (ASBOs) issued currently covers the period up to 31 December 2007.

During 2007, a total of 920 ASBOs were issued to young people (defined as being aged 10 to 17 at the date of appearance in court) at all courts in England and Wales. The corresponding figure for adults (defined as being aged 18 or over at the date of appearance in court) is 1,362. During 2007, an additional 17 persons whose age was not reported to the Ministry of Justice were issued with an ASBO.

Antisocial Behaviour: Hemsworth

Jon Trickett: To ask the Secretary of State for the Home Department how much his Department spent on programmes to tackle anti-social behaviour in Hemsworth in *(a)* 1997-98 and *(b)* 2008-09. [316634]

Mr. Alan Campbell: Funding data for 1997-98 are not readily available.

The Home Office did not provide direct funding for programmes to tackle antisocial behaviour in Hemsworth or Wakefield Crime and Disorder Reduction Partnership (CDRP) in 2008-09.

A number of specific and individual Home Office grants have now been combined into Area Based Grant (ABG), which is allocated to local authorities on a three-year basis to maximise stability and certainty. The receiving authorities have flexibility to use ABG as they see fit to deliver local, regional and national priorities in their respective areas.

Home Office-led activities also act to tackle antisocial behaviour, for example the introduction of community support officers. Funding for neighbourhood policing (NP) (including police community support officers (PCSOs) has been provided to police authorities since 2002-03. For England and Wales the total funding for 2008-09 was £324 million. Hemsworth is within the West Yorkshire police area. Funding for West Yorkshire for 2008-09 NP/PCSOs was £13.6 million. It is for police authorities to allocate resources, and for chief constables to deploy personnel (including PCSOs) within each police force area.

Anti-terrorism Control Orders

Mr. Blunt: To ask the Secretary of State for the Home Department which police forces have had responsibility for the enforcement of a control order upon an individual since 2005; how many control orders each such force has been responsible for enforcing in that period; and what estimate he has made of the cost to each such force of discharging such responsibilities. [316105]

Mr. Hanson: Between March 2005 and 10 December 2009 (the date at which the last written ministerial statement in relation to control orders reported on), the Metropolitan Police Service was responsible for 25 control orders. 13 other police forces were responsible for the enforcement of 28 control orders. The total number of control orders each police force has been responsible for is greater than the 45 individuals who have ever been subject to control orders because some controlled individuals have moved between police force areas. I would also refer the hon. Member to written ministerial statements in relation to control orders published on 11 December 2006, 16 January 2007, 22 March 2007, 24 May 2007, 21 June 2007 (two statements), 17 September 2007, 13 March 2008, 12 June 2008, 15 September 2008, 15 December 2008, 12 March 2009, 15 June 2009, 16 September 2009 and 15 December 2009 which provide the total number of controlled individuals in and outside of the Metropolitan Police Service area. This is as much information as we can provide about the police forces responsible for controlled individuals given the national security sensitivities of these cases and the need to avoid publishing any information that could lead to the identification of an individual who is subject to an anonymity order.

The enforcement of control orders is managed from within each police force's overall budget, which includes ring-fenced counter-terrorism funding. The Home Office does not have an estimated cost of managing control orders for each police force. I would refer the hon. Member to the written ministerial statements on the allocation of counter-terrorism grants for police authorities for 2005-06; 2006-07; 2007-08; 2008-09; 2009-10 which were published on, respectively, 2 December 2004; 5 December 2005; 28 November 2006; 6 December 2007; 26 November 2008 and 26 November 2009.

Mr. Blunt: To ask the Secretary of State for the Home Department what expenditure was incurred on private security firms engaged by police forces for the enforcement of control orders in *(a)* 2006, *(b)* 2007, *(c)* 2008 and *(d)* 2009. [316106]

Mr. Hanson: The Secretary of State is not aware that any expenditure has been incurred on private security firms engaged by police forces for the enforcement of control orders.

The electronic monitoring of controlled individuals is delivered by private security companies under contract with the Ministry of Justice.

Mr. Blunt: To ask the Secretary of State for the Home Department what his Department's total expenditure incurred in respect of the Control Order Review Group was in *(a)* 2006, *(b)* 2007, *(c)* 2008 and *(d)* 2009. [316107]

Mr. Hanson: The cost of establishing the Home Office's total expenditure for the Control Order Review Group for 2006, 2007, 2008 and 2009 could be obtained only at disproportionate cost.

Mr. Blunt: To ask the Secretary of State for the Home Department what estimate he has made of the cost to the public purse of legal action associated with control orders in *(a)* 2006, *(b)* 2007, *(c)* 2008 and *(d)* 2009. [316108]

Mr. Hanson: The amount spent by the Home Office on legal action associated with control orders in each financial year starting from April 2006 is set out in the following table. These figures include the costs of the Home Office's own legal representation and advice, the costs of the special advocates and the Special Advocates Support Office and meeting the legal costs of the controlled persons where this has been ordered by the court. The figure for the financial year 2006-07 is based partially on estimates.

The figure for 2009-10 will not be fully audited until the end of the financial year and may therefore be subject to change. All figures are rounded to the nearest £100.

Amount spent by Home Office on legal action associated with control orders

Financial year	£
2006-07	1,530,900
2007-08	3,766,200
2008-09	1,837,300
2009-10 (to end January)	1,453,300

The amount attributed by the Legal Service Commission (LSC) to control order legal proceedings is set out in the following table. The LSC cannot be certain that all costs have been paid in a given case until it is closed. The great majority of control order cases in which LSC funding certificates have been issued remain open. The figures provided should therefore not be taken to reflect the full extent of the legal costs of controlled person's open legal representation. Similarly, the LSC will only usually be made aware that the Home Office has been ordered to pay all or part of the legal costs of a controlled person at the point that is the case is closed. Whilst an exact figure cannot be provided, the LSC figures may include some costs already paid by the Home Office that are yet to be recouped.

Amount attributed to control order proceedings by the LSC

Financial year	£
2006-07	391,000
2007-08	476,300
2008-09	554,400
2009-10 (to end December)	524,300

The Home Office does not hold information on the cost to Her Majesty's Court Service, the Supreme Court or the House of Lords of legal action associated with control orders.

Mr. Blunt: To ask the Secretary of State for the Home Department what awards for costs were made against the Government in respect of individuals appealing against control orders put upon them in *(a)* 2006, *(b)* 2007, *(c)* 2008 and *(d)* 2009. [316109]

Mr. Hanson: When the courts award costs against the Secretary of State, they do not determine the amount that the Government must pay. This will normally be determined by negotiation between the parties.

No records are held in relation to the amount paid in relation to awards for costs in control order cases made in the financial year 2006-2007.

Informal records not subject to Home Office accounting and audit processes indicate that the Home Office has paid £1,101,100 in relation to awards for costs in control order cases made in the financial year 2007-2008. (All figures are rounded to the nearest £100.)

£61,000 has been paid to date in relation to awards for costs made in the financial year 2008-2009. As settlement has not yet been reached in most cases, this represents an interim figure.

£341,400 has been paid to date in relation to awards for costs made in the financial year 2009-2010. This represents an interim figure as most claims for costs relating to awards made in this financial year have not yet been received and settlement has not yet been reached in those cases where claims have been received.

Arrests

Chris Grayling: To ask the Secretary of State for the Home Department how many arrests were made by police officers in each year since 1999; and what the average number of arrests per police officer was in each such year. [317641]

Alan Johnson: The requested data are published annually in the Home Office Statistical Bulletins "Police Powers and Procedures" and "Police Service Strength". The latest editions are available online and all editions are available in the Library of the House. A table is, however, provided for the Member's convenience.

It should be noted that the data provided on arrests covers arrests for notifiable offences only, which account for only a proportion of arrests made by police officers. Information on all arrests is not collected centrally.

Number of arrests for notifiable offences and officer strength 1999-2000 to 2007-08

Year[1]	*Number of arrests for notifiable offences*[2]	*Number of police officers*[3]	*Number of arrests for notifiable offences per police officer*
1999-2000	1,277,900	124,170	10.3
2000-01	1,264,200	125,682	10.1
2001-02	1,271,900	129,603	9.8
2002-03	1,313,100	133,366	9.8
2003-04	1,330,400	139,200	9.6
2004-05	1,353,400	141,230	9.6
2005-06	1,429,800	141,381	10.1
2006-07	1,482,200	140,514	10.5
2007-08	1,475,300	140,230	10.5

[1] Arrests data are not available prior to 1999-2000. Data for arrests in 2008-09 will be published in April 2010.

[2] The Home Office Arrests collection only covers arrests for notifiable offences only, data on arrests for non-notifiable offences are not reported to the Home Office. Data are rounded to the nearest hundred.

[3] Full-time equivalent officer strength figures are provided, including officers on central service secondments. In order to make like-for-like comparisons with earlier years data excludes officers on career breaks, maternity and paternity leave. Strength at the end of each given financial year is provided.

Asylum

Bob Russell: To ask the Secretary of State for the Home Department how many applicants for leave to remain have been awaiting a decision for *(a)* up to six months, *(b)* up to one year, *(c)* up to two years, *(d)* up to three years and *(e)* more than three years. [309963]

Mr. Woolas: The UK Border Agency works to agreed service standards. The information requested, expressed as a percentage of cases which met the service standard, is as follows:

	2006-07	*2007-08*	*2008-09*
Charged applications			
20 working days (target 70 per cent.)	69.0	70.2	40.2
70 working days (target 90 per cent.)	90.0	94.7	88.7
PEO in 24 hr (target 90 per cent.)	93.0	90.0	93.0
Non-charged applications			
20 working days (target 70 per cent.)	46.0	89.9	35.0
70 working days (target 90 per cent.)	82.0	95.5	84.8
PEO in 24 hr (target 90 per cent.)	88.0	n/a	n/a

Note:
These data are not provided under National Statistics protocols. They have been derived from local management information and are therefore provisional and subject to change.

Mr. Blunkett: To ask the Secretary of State for the Home Department what avenues and procedures are available to hon. Members wishing to make representations to decision-makers in the UK Border Agency on longstanding asylum cases. [313630]

Alan Johnson: Members of Parliament may make representations to the UK Border Agency on the handling of cases in the following ways: they may write in to the Agency or contact the MP's Enquiry Line or their MP Account Manager and can track the progress of their letters online.

Damian Green: To ask the Secretary of State for the Home Department what recent steps he has taken to reduce the number of outstanding asylum applications; how many staff have been assigned to this task in the last three months; and if he will make a statement. [314335]

Mr. Woolas: In the last three months there have been around 1,000 members of staff working within the Case Resolution Directorate. I refer to paragraph 15 of Lin Homer's letter to the Home Affairs Select Committee dated 19 October 2009 for our most recent update on progress. Lin Homer will provide a further update to the Committee in February 2010.

Mr. Blunkett: To ask the Secretary of State for the Home Department what mechanisms are in place to enable hon. Members to present information to the UK Border Agency on behalf of an asylum applicant in circumstances in which the applicant is unable to provide such information in person. [314407]

Alan Johnson: Members of Parliament may make representations to the UK Border Agency about the handling of asylum applications on behalf of the applicant by writing to the UK Border Agency or by contacting the UK Border Agency MPs' Enquiry Line or their MP Account Manager.

However, MPs are not able to make initial asylum applications on behalf of their constituents and, since the introduction of the requirement to make further representations on asylum claims in person in October 2009, neither are MPs able to submit further submissions on behalf of their constituents, although they can, of course, make representations.

Jenny Willott: To ask the Secretary of State for the Home Department how many and what proportion of interviews held with asylum seekers by UK Border Agency staff were *(a)* video and *(b)* audio recorded in each of the last five years; and if he will make a statement. [316215]

Mr. Woolas: Asylum interviews are not routinely recorded. In normal circumstances caseowners conducting asylum interviews take a verbatim handwritten record of the interview which is made available to the applicant and their representative. However, where an applicant or their representative asks for their interview to be audio recorded, it is UKBA policy to comply with that request in addition to the provision of a hand written verbatim record.

There is no central record of the number of cases that are recorded.

No asylum interviews are video recorded.

Jenny Willott: To ask the Secretary of State for the Home Department how many and what proportion of interviews held with asylum seekers by UK Border Agency staff in Cardiff were *(a)* video and *(b)* audio recorded in each of the last five years; and if he will make a statement. [316334]

Mr. Woolas: There is no facility within the UK Border Agency's office in Cardiff for the video recording of interviews with asylum seekers. While there is no legal requirement for such interviews to be recorded by means of audio, where a request to do so is made either by the applicant or their legal representative it is the practice of the UK Border Agency to comply with the request. This is in addition to the provision of a handwritten verbatim record.

Asylum: Compensation

Damian Green: To ask the Secretary of State for the Home Department how much his Department paid in compensation to the families of asylum seekers *(a)* in total and *(b)* in respect of unlawful detention in each of the last five years. [317367]

Mr. Woolas: The Home Office prepares its accounts in accordance with UK GAAP (Generally Accepted Accounting Principles) adapted for the public sector in accordance with guidance issued by HM Treasury.

The information is not collated in the way requested.

Asylum: Detainees

Chris Grayling: To ask the Secretary of State for the Home Department how many times on average a failed asylum seeker was transferred between detention centres prior to removal or deportation in the latest period for which figures are available. [317829]

Alan Johnson: The information requested could be obtained by undertaking a detailed examination of individual records which would be only at disproportionate cost.

However, detainees are not routinely moved between centres without an operational reason. This is normally to ensure occupancy levels of the bed space is maximised, to re-position detainees close to airports in preparation for their removal from the UK, to attend court hearings, medical appointments or for an interview.

Asylum: Finance

Jim Cousins: To ask the Secretary of State for the Home Department how many asylum seekers received section 4 support in each region in each quarter since 1 April 2007. [313899]

Mr. Woolas: Information on section 4 support is published annually and quarterly in the Control of Immigration: Statistics United Kingdom bulletin which is available from the Library of the House and from the Home Office Research, Development and Statistics Directorate website at:

http://www.homeoffice.gov.uk/rds/immigration-asylum-stats.html

We do not publish quarterly statistics by region, but we do hold the data for internal management use. The internal management data do not undergo the same quality assurance processes as published statistics. The following data are provisional and subject to change. Consequently the regional data when totalled are slightly different to the equivalent available published data. It should also be noted that the data relate to numbers that were in receipt of support as at the dates shown and not the total number that received support.

UK Border Agency region	*2 July 2007**	*1 October 2007**	*31 December 2007**	*31 March 2008*	*30 June 2008*	*6 October 2008*	*29 December 2008*	*5 April 2009*	*29 June 2009*	*28 September 2009*
London and South East	1,546	1,453	1,249	844	527	498	467	436	418	358
Midlands and East	2,791	3,082	2,462	2,602	2,855	3,115	3,351	3,657	3,886	4,100
North East Yorkshire and the Humber	2,673	2,743	2,888	3,092	3,339	3,443	3,435	3,593	3,740	3,912
North West	1,382	1,508	1,467	1,643	1,699	1,782	1,990	1,667	1,742	1,908
Scotland and Northern Ireland	372	412	435	486	520	604	590	704	830	898
Wales and South West	735	825	860	755	780	818	908	822	863	923

The data from April 2007 to July 2007 were previously recorded on a different system and subsequently migrated over. We are therefore not satisfied that these figures are sufficiently robust for release and have been omitted.

Asylum: Housing

Mr. Stewart Jackson: To ask the Secretary of State for the Home Department with reference to the answer to the hon. Member for Bromley and Chislehurst of 21 October 2009, *Official Report*, column 1529W, on "Asylum: Housing", how much has been spent on each of the 30 contracts for providing housing for asylum seekers. [311730]

Mr. Woolas: The following table details expenditure from the onset of contracts in 2006 until 29 November 2009. The total figures have been taken from internal management information and the figures for provider spend have not been specifically audited independently. Figures have been rounded to one decimal point. Four of the contracts are no longer operational.

Accommodation costs 2006-09

Supplier	*Total (£ million)*
Angel Group (NE)	14.9
Angel Group (Scotland)	26.2
Angel Group (Y and H)	46.2
Astonbrook (SW)	6.1
Astonbrook Housing Ass(Wales)	6.0
Astonbrook Housing Ass(WM)	15.9
Cardiff CC (Wales)	14.5
Clearsprings (EofE)	8.2
Clearsprings (LDN)	27.4
Clearsprings (SE)	8.8
Clearsprings (SW)	18.0
Clearsprings (Wales)	19.2

Accommodation costs 2006-09

Supplier	Total (£ million)
United Property MGMT (NW)	26.4
United Property MGMT (WM)	41.7
United Property MGMT (Y&H)	25.8
YMCA Glasgow (Scotland)	13.8

Additional payments of £3.6 million and £2.0 million were paid to Angel and Clearsprings respectively for the provision of Section 4 accommodation spread between their regional contracts.

Borders: Personal Records

Chris Huhne: To ask the Secretary of State for the Home Department what percentage of passenger movements were tracked by the e-Borders Programme in each month of *(a)* 2007, *(b)* 2008 and *(c)* 2009. [306316]

Alan Johnson *[holding answer 14 December 2009]:* The e-Borders programme formally commenced in May 2009 and the current figure (when annualised) shows that we are now tracking over 100 million passenger movements through the UK border. This represents 45 to 50 per cent. of all passenger movements into and out of the UK (pending formal verification by statisticians).

Percentage figures for passenger movements were not recorded during the period in question, however the following tables show total numbers of passenger movements tracked for each month over the years 2007-09. These include the figures prior to May 2009, when the pilot project (Semaphore) was under development and testing.

2007 Project Semaphore

	Total passenger movements
January	1,664,301
February	1,365,681
March	1,546,419
April	1,667,886
May	2,168,590
June	1,970,614
July	2,134,620
August	2,971,664
September	2,363,670
October	3,047,213
November	2,180,352
December	2,354,641
Total	25,435,620

2008 Project Semaphore

	Total passenger movements
January	2,795,104
February	2,256,904
March	2,595,127
April	3,276,999
May	2,587,554
June	2,838,955
July	3,875,956
August	3,101,125
September	2,706,082
October	3,110,224
November	2,110,082
December	2,822,786
Total	34,096,898

2009 Semaphore/e-borders

	Total passenger movements
January	1,970,860
February	1,930,528
March	3,213,046
April	2,960,390
May[1]	4,562,409
June	6,346,031
July	7,271,862
August	9,770,483
September	7,340,892
October	7,029,099
November	7,348,671
December	6,504,617
Total	66,248948

[1] e-Borders went live on 15 May 2009

Philip Davies: To ask the Secretary of State for the Home Department when his Department plans to launch its 12-week consultation on the UK Border Agency's "Authority To Carry" scheme. [312911]

Mr. Woolas: The Government have committed to a full consultation period on the introduction of an Authority To Carry (ATC) scheme. This will be in advance of introducing regulations for approval, by each House of Parliament, on how any scheme would operate. No decisions have been made as to when this might take place.

In 2011, as part of the wider rollout of e-Borders, the capability to support a manual ATC process is expected to be delivered.

British Nationality: Northern Ireland

Mr. Gregory Campbell: To ask the Secretary of State for the Home Department when he expects the Nationality Checking Service to be available in Northern Ireland. [318063]

Mr. Woolas: Nationality Checking Service is undertaken by local authorities on a voluntary basis. To date, no local authority in Northern Ireland has opted to provide the service and when they do so is a matter for them.

Burglary

Mr. Evans: To ask the Secretary of State for the Home Department how many people have been *(a)* arrested for, *(b)* charged with and *(c)* convicted of aggravated burglary in (i) the Ribble Valley, (ii) Lancashire and (iii) England and Wales in each of the last five years. [315457]

Mr. Alan Campbell *[holding answer 4 February 2010]:* The arrests collection held by the Home Office covers arrests for recorded crime (notifiable offences) only, broken down at a main offence group level, covering categories such as violence against the person and robbery.

From these data it is not possible to separate specific offences therefore data on arrests for aggravated burglary cannot be provided.

Figures provided by the Ministry of Justice, showing the number of persons prosecuted and convicted for aggravated burglary offences in Lancashire, and England and Wales 2004 to 2008 (latest available) can be viewed in the table.

Figures for Ribble Valley are not separately identifiable from the data on prosecutions reported to the Ministry of Justice.

It is not possible to separately identify aggravated burglary from the information on arrests reported to the Home Office.

Persons prosecuted and convicted for aggravated burglary offences 2004 to 2008[1, 3]

	Prosecuted					Convicted at all courts				
	2004	2005	2006	2007[2]	2008	2004	2005	2006	2007[2]	2008
Lancashire										
Aggravated burglary in a dwelling	30	51	51	28	52	4	10	15	15	15
Aggravated burglary in a building other than a dwelling	1	3	0	4	—	—	1	—	—	2
England and Wales										
Aggravated burglary in a dwelling	900	929	817	734	927	204	210	230	236	275
Aggravated burglary in a building other than a dwelling	143	80	65	67	64	20	27	18	30	17

[1] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[2] Excludes prosecutions and convictions data for Cardiff magistrates court for April, July, and August 2008.

[3] The data are on principal offence basis.

Source:

Justice Statistics Analytical Services—Ministry of Justice

Burglary: Sussex

Norman Baker: To ask the Secretary of State for the Home Department how many crimes of burglary were recorded in each police division in Sussex in each year since 2005. [315766]

Mr. Alan Campbell: The available information is given in the table. With effect from 2006-07, the divisions of East Downs and Hastings and Rother were combined to form East Sussex division.

Offences of burglary recorded by police divisions in Sussex

Number of offences

Police division	*2005-06*	*2006-07*	*2007-08*	*2008-09*
Brighton and Hove	2,836	2,307	2,269	2,273
East Downs	2,716	n/a	n/a	n/a
East Sussex	n/a	4,247	3,384	3,461
Gatwick	35	20	12	24
Hastings and Rother	2,060	n/a	n/a	n/a
North Downs	2,587	2,360	2,296	2,198
West Downs	3,198	3,207	3,172	2,871
Total	13,432	12,141	11,133	10,827

n/a = Not applicable

Business: Essex

Bob Spink: To ask the Secretary of State for the Home Department if he will make it his policy to extend to small businesses in Essex the fund to provide grants to help small retailers combat crime affecting their businesses; and if he will make a statement. [316920]

Mr. Alan Campbell: The £5 million Small Retailers' Capital Grants fund was made available for 2009-10 to provide physical crime reduction measures for small independent shops in 50 priority areas, to help reduce incidents of shoplifting and other crimes against retailers.

There are currently no plans to extend the availability to other areas, but through the National Retail Crime Steering Group (NRCSG)'s Action Plan, we are taking action that will help to tackle retail crime in every area.

The NRCSG was set up by the Home Office in partnership with the British Retail Consortium and it provides a forum for Government, law enforcement agencies and retailers' representatives such as the Association of Convenience Stores and Federation of Small Businesses to discuss and devise action to tackle crimes of concern to retailers.

Cocaine

Mr. Dai Davies: To ask the Secretary of State for the Home Department what information his Department holds on changes in the pattern of cocaine use in the last 10 years. [317554]

Mr. Alan Campbell: The most reliable measure of the prevalence of use of drugs is the British Crime Survey (BCS). In 2008/09, the latest full year for which data are available, the proportion of respondents aged 16 to 59 reporting the use of cocaine on at least one occasion in the last year was 3.0 per cent. For cocaine powder, the figure was 3.0 per cent. and for crack cocaine 0.1 per cent.

Data from the 1998 BCS show that 1.3 per cent. of respondents reported the use of cocaine in the last year (1.2 per cent. cocaine powder; 0.1 per cent. crack cocaine).

Following sharp increases in cocaine use recorded during the late 1990s, the level of use has remained broadly stable since 2000, although the rate of increase between 2007-08 and 2008-09 is statistically significant.

Crime

Mr. Gerrard: To ask the Secretary of State for the Home Department how many (a) fixed penalty notices, (b) conditional cautions and (c) public disorder notices were issued in England and Wales in each year since 2005. [317275]

Mr. Alan Campbell: Information on the number of fixed penalty notices for motoring offences issued from 2005 to 2007 can be found in table A. Data on fixed penalty notices for 2008 are scheduled to be published on 15 April 2010.

Information provided by the Ministry of Justice, on the number of penalty notices for disorder (PNDs) issued in England and Wales 2005 to 2008 can be viewed in table B.

Data on conditional cautions are not available as they are not separately identified in the data on cautions reported to the Ministry of Justice.

Table A: Number of fixed penalty notices issued for motoring offences, England and Wales 2005-07[1]

	Number of fixed penalty notices issued
2005	3,203,000
2006	3,018,000
2007	2,627,000

[1] Figures rounded to the nearest thousand

Table B: Number of penalty notices for disorder (PNDs) issued to offenders of ages 16 and over in England and Wales, 2005-08[1]

	Total PNDs issued
2005	146,491
2006	201,197
2007	207,544
2008	176,164

[1] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[2] PNDs were rolled out nationally on 1 April 2004.

Source:

Justice Statistics Analytical Services—Ministry of Justice Ref: 071-10

Alan Duncan: To ask the Secretary of State for the Home Department what estimate he has made of the average *(a)* number and *(b)* proportion of crimes committed by an offender in the geographical area within 20 miles of the home address of that offender in the last 12 months. [illegible]

Mr. Alan Campbell: No estimates have been made centrally about crimes committed in relation to addresses of offenders.

Crime Prevention

Bob Russell: To ask the Secretary of State for the Home Department what research he has undertaken on the efficacy of crime prevention measures in respect of persons who have an acquired brain injury; and if he will make a statement. [311092]

Mr. Alan Campbell *[holding answer 18 January 2010]:* The Home Office has not commissioned any research into this topic.

Crime Prevention: Expenditure

Chris Grayling: To ask the Secretary of State for the Home Department how much his Department spent on national awareness campaigns relating to *(a)* gang crime, *(b)* gun crime and *(c)* terrorism in each of the last five years. [315642]

Alan Johnson: In the last five years the Home Office has spent no money on national awareness campaigns relating to *(a)* gang crime, *(b)* gun crime and *(c)* terrorism. Spending on awareness raising campaigns has been focused at a local and regional level.

In September 2008 the Home Office produced the leaflet "You and Your Child—Advice for Parents on Gangs", this was a regional communication only although was made available on the Direct.gov website.

The Home Office has funded a national awareness campaign around the possession of knives (as opposed to gangs or guns) with the message 'It doesn't have to happen'. Viral adverts online and on mobiles have received 11 million views.

In addition, billboards were displayed in 85 community sites across the country and reached millions of 10 to 16-year-olds. In November, 'It Doesn't Have To Happen' was awarded the best public sector and charity campaign at the prestigious Campaign 2009 Media Awards.

In addition, through the Tackling Violence Action Plan, the Home Office has provided funding to the third sector organisation 'Be Safe'. 'Be Safe' undertakes weapons awareness workshops with young people to raise awareness of the consequences of carrying weapons, particularly knives.

Crime: Feltham

Alan Keen: To ask the Secretary of State for the Home Department (1) what the level of recorded crime was in Hounslow constabulary area in *(a)* 1997 and *(b)* the latest period for which figures are available; [316691]

(2) how many *(a)* recorded crimes, *(b)* recorded violent crimes, *(c)* burglaries and *(d)* vehicle thefts there were in Feltham and Heston in (i) 1997 and (ii) the latest year for which information is available. [316702]

Mr. Alan Campbell: Recorded crime data are not collected specifically at constituency level and data are therefore not available for Feltham and Heston. The available data cover the most appropriate Crime and Disorder Reduction Partnership (CDRP) area, which is Hounslow.

Since CDRP data are only available from 1999-2000 onwards, figures for 1997 cannot be provided. Data for Hounslow for 2008-09 are given in the table.

Selected offences recorded by the police in Hounslow 2008-09

Offence	Number of offences
Total recorded crime	23,745
Violence against the person	5,550
Burglary	2,593
Of which:	
Domestic burglary	1,770
Other burglary	823
Vehicle thefts	2,894
Of which:	
Theft of a vehicle	812
Theft from a vehicle	2,082

Alan Keen: To ask the Secretary of State for the Home Department how much his Department spent on programmes to tackle the misuse of drugs in Feltham and Heston in *(a)* 1997-98 and *(b)* 2008-09. [316700]

Mr. Alan Campbell: In 2008-09, the Home Office provided funding of £806,158 to Hounslow Drug Action Team through the Drug Interventions Programme (DIP) Main Grant. The constituency for Feltham and Heston comes under the London borough of Hounslow. DIP also made an allocation of £6.4 million to the Metropolitan Police Service for drug testing in 2008-09. Some of the £6.4 million would have been used to fund drug testing in the borough of Hounslow; the level of resource provided to Hounslow was decided centrally by the Metropolitan Service.

DIP is a key part of the Government's strategy for tackling drugs and reducing crime. The programme is delivered locally via drug action teams using integrated teams known as criminal justice integrated teams supported by regional Government office leads and the National Treatment Agency. Using a case management approach they aim to offer access to treatment and support.

A number of specific and individual Home Office grants have been combined into area-based grant (ABG), which is allocated to local authorities on a three-year basis to maximise stability and certainty. The receiving authorities have flexibility to use ABG as they see fit to deliver local, regional and national priorities in their respective areas.

Funding data for 1997-98 are not readily available.

Crime: Statistics

Mr. Gerrard: To ask the Secretary of State for the Home Department on how many occasions the methodology used in the compilation of national crime statistics has been changed or redefined since 1997; and if he will make a statement. [317276]

Mr. Alan Campbell: Home Office Counting Rules (HOCR) underpin the standards for the recording and counting of notifiable offences recorded by police forces in England and Wales (known as 'recorded crime').

There have been two major changes to the methodology used for the compilation of crime statistics since 1997. In April 1998 the HOCR were amended to count crimes on a per victim rather than per offence basis, with also significant extension of the coverage of offences included in the notifiable list.

In April 2002 the HOCR were revised to take account of the introduction of the National Crime Recording Standard (NCRS) which was adopted with the aim of recording crime in a more victim-focused way and maintaining greater consistency between police forces in the recording of crime. The change meant that where a crime is reported by a victim to the police it will be recorded unless there is credible evidence to the contrary.

Crimes of Violence

Chris Ruane: To ask the Secretary of State for the Home Department how many violent crimes against the person have been recorded by police forces in England and Wales in each of the last 10 years. [317960]

Mr. Alan Campbell: The National Crime Recording Standard (NCRS) was introduced in April 2002 and figures before and after that date are not directly comparable.

The requested data for 1999-2000 to 2001-02 are provided in table A and those for 2002-03 to 2008-09 are provided in table B.

Table A: Recorded violence against the person offences, 1999-2000 to 2001-02

	Total violence against the person offences
1999-2000	581,034
2000-01	600,913
2001-02	650,326

Table B: Recorded violence against the person offences, 2002-03 to 2008-09

	Total violence against the person offences
2002-03[1] [2]	845,078
2003-04	967,228
2004-05	1,048,095
2005-06	1,059,583
2006-07	1,046,167
2007-08	961,099
2008-09[3]	903,442

[1] The National Crime Recording Standard was introduced in April 2002. Figures before and after that date are not directly comparable.

[2] Includes the British Transport police from 2002-03 onwards.

[3] As in previous years, police figures for the latest year in this table and elsewhere remain subject to change as forces continue to submit further data (e.g. Her Majesty's inspectorate of constabulary is conducting a quality assurance exercise of all forces' recording of most serious violence offences which may prompt further revisions).

Crimes of Violence: North East

Jim Cousins: To ask the Secretary of State for the Home Department how many reports under each category of violent crime have been made in each *(a)* local authority area in Tyne and Wear and *(b)* police authority in the North East since April 2005; what changes have been made to the definitions of each category in that period; and what discretion police forces have in respect of the categorisation of such crimes. [317993]

Mr. Alan Campbell: The term 'violent crime' is no longer used. Data are supplied for violence against the person offences. The number of offences recorded by police forces in the North East and for the local authorities of Tyne and Wear for 2005-06 to 200-09 are shown in Tables A to H placed in the House Library.

The police record offences following the guidance provided by the Home Office Counting Rules. These provide a national standard for the recording and counting of notifiable offences recorded by police forces in England and Wales and help maintain a greater consistency between police forces in the recording of crime. In April 2002 the National Crime Recording Standard principles were introduced so that when a victim reported a crime the police had to record it unless there were credible evidence to the contrary. This removed significant discretion that had previously applied in police recording of crimes.

In each police force, a Force Crime Registrar (FCR) is responsible for deciding to which offence a particular crime should be recorded. These FCRs, along with representatives of the Home Office, ACPO and HMIC meet regularly to discuss and review the counting rules. These rules are designed to ensure that each police force records crime in a way comparable to other forces.

The counting rules, and changes to definitions can be viewed at the following link:

http://www.homeoffice.gov.uk/rds/countrules.html

There have been changes to some of the classifications for violence against the person offences between 2005-06 and 2008-09, which are outlined below. While these changes can affect the number of offences recorded between offence types, they do not affect the total figures for violence against the person offences.

Offence classifications 5A (inflicting grievous bodily harm with intent), 5B (use of substance or object to endanger life) and 5C (possession of items to endanger life) were introduced from 1 April 2008 and replace classification five (more serious wounding or other act endangering life). Classification 5A was influenced by a clarification in recording rules that had the effect of significantly increasing levels of recording in some forces. More information on this is given in Volume 2 to Crime in England and Wales 2008/09 at the following link.

http://www.homeoffice.gov.uk/rds/pdfs09/hosb1109vol2.pdf

Offence classifications 8F (inflicting grievous bodily harm without intent), 8G (actual bodily harm and other injury), 8H (racially or religiously aggravated inflicting GBH without intent), 8J (racially or religiously aggravated ABH or other injury) and 8K (poisoning or female genital mutilation) were introduced from 1 April 2008 and had previously been recorded as part of classifications 8A (less serious wounding) or 8D (racially or religiously aggravated less serious wounding).

Offence classifications 3A (conspiracy to murder) and 3B (threats to kill) were introduced from 1 April 2008 and had previously been recorded as classification 3 (threat or conspiracy to murder).

Offence classifications 10A (possession of firearms with intent), 10C (possession of other weapons) and 10D (possession of article with blade or point) were introduced from one April 2008 and had previously been recorded as classification 8B (possession of weapons).

Offence classifications 8L (harassment) and 9A (public fear, alarm or distress) were introduced from 1 April 2008 and had previously been recorded as classification 8C (harassment/public fear, alarm or distress).

Offence classifications 8M (racially or religiously aggravated harassment) and 9B (racially or religiously aggravated public fear, alarm or distress) were introduced from 1 April 2008 and had previously been recorded as classification 8E (racially or religiously aggravated harassment/public fear, alarm or distress).

Crimes of Violence: Police Cautions

Margaret Moran: To ask the Secretary of State for the Home Department in what proportion of incidents of *(a)* rape and *(b)* violence against the person reported in the last five years a caution was issued. [316491]

Mr. Alan Campbell: The requested data for the number of incidents of rape and violence against the person for each year from 2004-05 to 2008-09 are provided by the Ministry of Justice and shown in Tables A (rape offences) and B (violence against the person offences).

The number of offenders cautioned for offences of rape and violence against the person in England and Wales from 2004 to 2008 (latest available) are given in Tables A1 and B1, respectively.

Cautions and court proceedings data for 2009 are expected to be published in the autumn, 2010.

Table A: Reported offences for rape[1], 2004-05 to 2008-09

	Total number
2004-05	14,013
2005-06	14,443
2006-07	13,774
2007-08	12,639
2008-09	13,133

[1] The Sexual Offences Act 2003 introduced in May 2004 altered the definition and coverage of sexual offences. A small number of offences continue to be recorded relating to offences repealed by the Act, while these may continue to be legitimately recorded for offences prior to May 2004 it is also possible that some may have been recorded in these old categories in error, so recent changes based on small numbers should be interpreted with caution

Table A1: Cautions issued for offences of rape, England and Wales 2004 to 2008[1, 2, 3]

	Total number
2004	40
2005	22
2006	24
2007	34
2008	36

[1] The cautions statistics in table A1 relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been cautioned for two or more offences at the same time the principal offence is the more serious offence.

[2] From 1 June 2000 the Crime and Disorder Act 1998 came into force nationally and removed the use of cautions for persons under 18 and replaced them with reprimands and final warnings. These figures have been included in the totals.

[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Justice Statistics Analytical Services—Ministry of Justice

Table B: Reported violence against the person offences, 2004-05 to 2008-09

	Total number
2004-05	1,048,095
2005-06	1,059,585
2006-07	1,0[illegible],168
2007-08	[illegible]61,175
2008-09	903,993

Table B1: Cautions issued for violence against the person offences, England and Wales 2004 to 2008[1, 2, 3]

	Total number
2004	36,610
2005	51,020
2006	57,273
2007	52,334
2008	37,613

[1] The cautions statistics given in table B1 relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been cautioned for two or more offences at the same time the principal offence is the more serious offence.

[2] From 1 June 2000 the Crime and Disorder Act 1998 came into force nationally and removed the use of cautions for persons under 18 and replaced them with reprimands and final warnings. These figures have been included in the totals.

[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by police forces. Dangerous Dogs

Bob Russell: To ask the Secretary of State for the Home Department how many complaints have been made to the police in each police authority area in respect of attacks by dogs in each of the last five years; how many such complaints resulted in prosecutions; and if he will make a statement. [316414]

Mr. Hanson: The information requested is not collected centrally as there is no requirement for police forces to report attacks by dogs to the Home Office.

The police are required to notify the Home Office of offences recorded under sections 3(1) and 3(3) of the Dangerous Dogs Act 1991. These offences relate to an owner or person in charge allowing a dog to be dangerously out of control in a public place injuring any person or allowing a dog to enter a non-public place and injure any person. However, such offences would be included in the offence classification 'Actual bodily harm and other injury' and cannot be separately identified from other offences recorded under that classification.

Departmental Accountancy

Mr. Hurd: To ask the Secretary of State for the Home Department whether any written instructions have been provided to his Department's Accounting Officer in accordance with paragraph 5.5 of the Ministerial Code since May 1997. [315317]

Mr. Woolas: The Department has not received any written instructions in respect of paragraph 5.5 of the Ministerial Code since May 1997.

Departmental Billing

Dr. Cable: To ask the Secretary of State for the Home Department what estimate he has made of the average length of time taken by *(a)* his Department and *(b)* its agencies to pay invoices from (i) small and medium-sized enterprises and (ii) all creditors in the last 12 months. [315134]

Mr. Woolas: The Home Office implemented the Prime Minister's commitment to pay all small and medium enterprises (SMEs) within 10 days in October 2008.

The Home Office has invested significantly in its people with the creation of a professional Shared Service Centre and Procurement Centre of Excellence complemented by the creation of new processes and upgraded Procure to Pay systems. The Department has put a firm focus on paying its suppliers on time on receipt of a compliant invoice. It has worked closely with the Department for Business, Innovation and Skills reporting on both its legislative obligations of 30 days as well as the 10 day PM's commitment for SMEs.

The Home Office has recently converted all of its suppliers to 10-day payment terms and will be reporting on this from 1 February 2010.

The latest Home Office performance information for paying the invoices of all creditors within 30 days and paying SME compliant invoices within 10 days in January 2010 is shown in the following table:

Table 1. The Home Office performance of paying total number of invoices within 30 days and SME compliant invoices within 10 days for January 2010

	Home Office and UKBA
Total number of all invoices paid	4,512
Percentage of total number of all invoices paid within 30 days	96
Number of SMEs' compliant invoices paid within 10 days	1,080
Percentage of SMEs' compliant invoices paid with 10 days	99

The latest available performance information from the Criminal Records Bureau for paying the invoices of all creditors and SME compliant invoices within 10 days in December 2009 is shown in the following table:

Table 2. CRB performance of paying invoices within 10 days for December 2009

Month	Total number of all invoices paid	Percentage of total number of all invoices paid within 10 days	Number of SMEs' compliant invoices paid within 10 days	Percentage of SMEs' compliant invoices paid within 10 days
January 2010	264	39	109	89

Performance information from the Identity and Passport Service is that between April 2009 and January 2010 SME compliant invoices were on average paid within 12 days and the invoices of all remaining creditors were on average paid within 19 days.

Departmental Drinking Water

Bob Spink: To ask the Secretary of State for the Home Department how much his Department has spent on bottled drinking water in each of the last five years; and if he will make a statement. [313184]

Mr. Alan Campbell: The requested information cannot be obtained, without incurring disproportionate cost.

The Department is committed to reducing the environmental impact of its official activities. The Department's policy is not to supply bottled water unless it is essential for health and safety reasons.

Departmental Employment Agencies

Mr. Hurd: To ask the Secretary of State for the Home Department how many job vacancies in his Department and its agencies were filled through the use of external recruitment companies in the latest year for which figures are available. [314769]

Mr. Woolas: During the period 1 April 2008 to 31 March 2009, the Home Office and its agencies (the UK Border Agency, the Identity and Passport Service and the Criminal Records Bureau) filled 461 vacancies with permanent staff, fixed term appointments or casuals recruited through the use of external recruitment companies.

Of these 461 vacancies, 318 were Immigration caseworker jobs that arose in the UK Border Agency as a result of the move to regionalise case working and move jobs outside London, in line with the recommendation of the Gershon review.

The total of 461 vacancies filled through the use of external recruitment companies in 2008-09 represents less than 10 per cent. of the overall total number of advertised vacancies filled with permanent staff, fixed term appointments and casuals within the Home Office and its agencies during that period. The vast majority of vacancies were, therefore, filled through internal and cross-Government trawls.

Mr. Hurd: To ask the Secretary of State for the Home Department how much his Department and its agencies spent on external recruitment companies in the latest year for which figures are available. [314770]

Mr. Woolas: The information held centrally by Home Office on recruitment is not broken down in sufficient detail to identify expenditure on external recruitment companies. The requested information could be provided only at a disproportionate cost.

Departmental Empty Property

Sarah Teather: To ask the Secretary of State for the Home Department pursuant to the answer to the hon. Member for Harrogate and Knaresborough of 18 January 2010, *Official Report*, column 29W, on departmental buildings, what the *(a)* book value and *(b)* estimated annual rental value is of the vacant residential property owned by his Department. [315967]

Mr. Woolas: Since my Department is in the process of selling vacant residential property, no estimates have been made of potential rental value. I refer the hon. Member to the answer I gave on 14 December 2009, *Official Report*, column 715W on the property's book value.

Departmental Energy

Andrew Stunell: To ask the Secretary of State for the Home Department what the estimated *(a)* amount and *(b)* cost was of energy used in his Department and its agencies in each year since 1997; what proportion of the energy used was generated from renewable sources in each of those years; and if he will make a statement. [317204]

Mr. Woolas: Central Government Departments and their Executive agencies report performance data on the energy consumed and amount sourced from renewable sources annually as part of the Sustainable Operations on the Government Estate targets. The latest assessment of the Department's performance against these targets was published by the Sustainable Development Commission on 18 December 2009

http://www.sd-commission.org.uk/soge2009/

The Department's structure and its estate has changed considerably since 1997 and it does not hold comprehensive information for the last 13 years, covering *(a)* amount and *(b)* cost of the total energy consumed, and the proportion sourced from renewable sources for the Home Office estate and its agencies.

Departmental Manpower

Mr. Philip Hammond: To ask the Secretary of State for the Home Department what estimate he has made of the proportion of staff of *(a)* his Department and *(b)* its agencies managed out in the last five years who remain working in the public sector. [313853]

Mr. Woolas: The information requested is not held centrally.

Departmental Mobile Phones

Mr. Graham Stuart: To ask the Secretary of State for the Home Department how many *(a)* mobile telephones and *(b)* Blackberrys were provided to (i) Ministers and (ii) special advisers in his Department in 2009; and at what cost to the public purse. [313168]

Mr. Woolas: Blackberrys are issued to all Ministers and special advisers of the Home Department. A total of 11 Blackberrys were issued in 2009.

It is not possible ascertain total expenditure without incurring disproportionate costs.

Departmental Pay

Dr. Cable: To ask the Secretary of State for the Home Department how many staff in his Department received bonus payments in each of the last five years for which information is available; what proportion of the total workforce they represented; what the total amount of bonuses paid was; what the largest single payment was; and if he will make a statement. [300301]

Mr. Woolas: Non-consolidated performance payments are an integral element of the staff reward package in the Home Office. They have to be re-earned each year and do not add to future pay bill and pensions costs.

The Home Office (including the United Kingdom Border Agency), as part of its annual pay arrangements, pays end-of-year non-consolidated performance-related payments to up to 35 per cent. of its staff. There are separate arrangements for the Department's senior staff, which are set by the Prime Minister for the whole senior civil service, following independent advice from the Senior Salaries Review Body.

In the financial years for which information is available the total amount paid in end-of-year payments, the average and the largest single payments were:

	Number of staff in post	*Total number [illegible] staff in receipt*	*Largest single award (£000)*	*Total paid (£ million)*	*Total salary bill for year (£ million)*	*Average payment (£)*	*Payments as of salary bill*
2005-06	22,670	4,785	15	4.28	752	894	0.56
2006-07	21,630	5,097	15	4.45	723	873	0.61
2007-08	22,380	5,647	20	4.48	710	793	0.63
2008-09	21,460	6,164	22	4.75	791	771	0.60
2009-10	21,360	6,081	15	5.69	815	935	0.69

Notes:

1. The 2008-09 figure is the figure at end September 2008.
2. The 2009-10 figure is the Home Office internal headcount at 31 July 2008.
3. The 2009-10 salary figure is the current year end estimate.

Source:

The staff in pos figures come from ONS Headcount statistics.

It is also possible to give one-off special payments to members of staff in-year to reward exceptional achievements on a project or programme. In 2007, 3,702 staff received such a payment at a total cost of

£2.56 million: in 2008, 2,863 staff received such a payment at a cost of £1.16 million. Figures for 2009-10 are not yet available. Figures for previous years cannot be provided except at disproportionate cost.

Deportation: Offenders

Chris Grayling: To ask the Secretary of State for the Home Department how many foreign prisoners convicted of an offence of *(a)* illegal gun possession and *(b)* drug dealing have been deported to their country of origin in each year since 1998. [314741]

Alan Johnson: The UK Border Agency is committed to ensuring that we remove those foreign nationals who pose a risk of harm to our society. We are targeting the most harmful first and any non-EEA national who receives a custodial sentence of 12 months or more is now subject to automatic deportation proceedings. In addition any non-EEA national who goes to prison for serious drug and gun offences no matter how long their sentence, will face deportation action as well as those, no matter the type of crime, who have received several custodial sentences totalling 12 months or more. EEA nationals convicted of gun or drugs offences will face deportation action if they are sentenced to 12 months or more in prison.

In her letter to the Home Affairs Committee in July 2009 the chief executive stated that of the 5,400 foreign criminals removed or deported in 2008, 1,600 were drug offenders; more than 550 were convicted of the production or supply of drugs, over 350 convicted of possession with intent to supply drugs and over 600 were convicted of the importation of drugs. In a letter of October 2009 she further advised that of the 2,560 foreign criminals removed in quarters 1 to 2 of 2009, 680 drug offenders removed; 316 were convicted of the production or supply of drugs, over 140 convicted of possession with intent to supply drugs, and over 200 were convicted of the importation of drugs. The UK Border Agency does not routinely record the number of foreign nationals removed following a conviction for 'illegal gun possession'. Figures for 1998 to 2007 are not available.

The chief executive is due to write to the Committee again in February. Copies of the letter will be available in the Library of the House.

Deportation: Sri Lanka

Mr. Davey: To ask the Secretary of State for the Home Department how many Sri Lankan citizens have been deported since 1 May 2009; and if he will make a statement. [317335]

Mr. Woolas: The following table shows the number of nationals of Sri Lanka removed or departed voluntarily from May 2009 to September 2009, by type of departure.

Figures for the fourth quarter of 2009 will be published on 25 February 2010.

The Home Office publishes statistics on the number of persons removed or departed voluntarily from the UK on a quarterly and annual basis, which are available from the Library of the House and from the Home Office's Research, Development and Statistics website at:

http://www.homeoffice.gov.uk/rds/immigration-asylum-stats.html

Removals and voluntary departures[1], by type, nationals of Sri Lanka, May 2009 to September 2009

						Number of departures[2]
	May 2009[3]	*June 2009[3]*	*July 2009[3]*	*August 2009[3]*	*September 2009[3]*	*Total[1]*
Removals and voluntary departures, nationals of Sri Lanka	50	45	55	60	40	250
Of which:						
Enforced removals and notified voluntary departures	15	10	20	15	10	70
Assisted voluntary returns[4]	10	15	15	10	15	65
Other voluntary departures	5	-	10	15	5	40
Non-asylum cases refused entry at port and subsequently removed[5]	20	20	10	20	10	75

[1] Figures are rounded to the nearest 5 (- = 0, * = 1 or 2) and may not sum to the totals shown because of independent rounding

[2] Removals and voluntary departures recorded on the system as at the dates on which the data extracts were taken.

[3] Provisional figures. Figures will under record due to data cleansing and data matching exercises that take place after the extracts are taken.

[4] Persons leaving under Assisted Voluntary Return programmes run by the International Organization for Migration. May include some on-entry cases and some cases where enforcement action has been initiated.

[5] Figures include persons departing voluntarily after enforcement action had been initiated against them, cases dealt with at juxtaposed controls, removals performed by Immigration Officers at ports using enforcement powers and since 2005 a small number of cases who it has been established left the UK without informing the immigration authorities.

Detainees: Sri Lanka

Mr. Davey: To ask the Secretary of State for the Home Department how many Sri Lankan citizens are being held in detention in *(a)* prison and *(b)* immigration removal centres. [317334]

Mr. Woolas: As at 18 December 2009 there were 152 Sri Lankans in prison establishments. This includes those held under the Immigration Act 1971 (including those in the immigration removal centres Dover, Haslar and Lindholme) as well as those held on remand or serving custodial sentences. This figure was published in the December 2009 monthly population bulletin on the HM Prison Service website:

http://www.hmprisonservice.gov.uk/resourcecentre/publicationsdocuments/index.asp?cat=85

As at 30 September 2009 there were 45 Sri Lankans detained in the United Kingdom solely under Immigration Act Powers. Of these, 20 were detained in Dover, Haslar and Lindholme. These figures have been rounded to the nearest five consistent with the usual publication practice. Information on persons detained under Immigration Act powers is published in the Control of Immigration: Quarterly Statistical Summary, United Kingdom—3rd Quarter 2009 publication which is available from the Library of the House and from the Home Office's Research, Development and Statistics website at:

http://www.homeoffice.gov.uk/rds/immigration-asylum-stats.html

The latest information for 31 December 2009 will be published on the 25 February 2010.

DNA: Databases

Damian Green: To ask the Secretary of State for the Home Department how many criminals convicted before the creation of the National DNA Database had given a DNA sample to police. [313456]

Mr. Alan Campbell: The National DNA Database (NDNAD) does not contain information about criminal records, as this is not necessary for its function of matching DNA from crime scenes with DNA from individuals. Criminal record information is held on the Police National Computer (PNC). The first conviction in a case where DNA profiling was used occurred in 1988. Between this date and the establishment of the NDNAD in 1995, DNA profiling was applied in a relatively small number of cases. We do not have any records of DNA operations which indicate how many criminals convicted during this period had given a DNA sample.

Data obtained from the PNC on 31 March 2009 indicates that there were 2,312,289 persons with a record on PNC added by an English or Welsh force who had a conviction, caution, reprimand or final warning, but no record on NDNAD. This includes individuals who have records relating to convictions, etc. before 1995.

Breakdowns of the number of persons with a record of a conviction, caution, reprimand or final warning on PNC, which show (a) that the conviction, etc. occurred before 1995, and (b) that the person either does or does not have a record on the NDNAD, could only be produced at disproportionate cost.

Damian Green: To ask the Secretary of State for the Home Department how many people under *(a)* 16, *(b)* 18 and *(c)* 21 years old had their profile stored on the National DNA Database on 1 January 2010. [317152]

Mr. Alan Campbell: The figures given in the table show the number of subject profiles held on the National DNA Database (NDNAD) as at 31 December 2009 for police forces in England and Wales. It is broken down by current age for people aged under 16, under 18 and under 21 years old.

The number of subject profiles is not the same as the number of individuals. A proportion of DNA profiles held on the NDNAD are replicates, that is, a profile for a person has been loaded on more then one occasion (this may be because the person gave different names, or different versions of their name, on separate arrests, or because of upgrading of profiles). As at 31 December 2009, it was estimated that 13.9 per cent. of profiles held on the NDNAD are replicates. As the replication rate is calculated across the entire database, it is not possible to apply it to the number of profiles in each age group, to provide the number of individuals in that group.

The presence of these replicate profiles on the NDNAD does not impact on the effectiveness and integrity of the database.

The data presented are based on a snapshot of the NDNAD as at 31 December 2009. The data on the NDNAD are constantly changing as records are added and removed, hence the figures are a snapshot of contents at a single point in time. The data are management information and have not been formally assessed for compliance with the Code of Practice for Official Statistics.

Subject profiles held on the NDNAD taken by police forces in England and Wales as at 31 December 2009 broken down by current age

Current age	*Number of subject profiles*
Under 16	113,330
Under 18	300,798
Under 21	761,221

Damian Green: To ask the Secretary of State for the Home Department how many people from each ethnic minority had a profile stored on the National DNA Database on 1 January 2010. [317153]

Mr. Alan Campbell: The National DNA Database (NDNAD) does not hold self-reported ethnicity data, however, it does hold data on the "ethnic appearance" of persons who have a DNA profile on the database. The ethnic appearance data have six broad ethnic categories plus "unknown". They are based on the judgment of the police officer taking the sample and are recorded for police intelligence purposes to assist in subsequent identification.

The following table shows the number of DNA profiles on the NDNAD added by English and Welsh police forces, broken down by ethnic appearance, as at 31 December 2009. "Unknown" means that no ethnic appearance was recorded by the officer taking the sample.

The number of profiles held is not the same as the number of individuals. This is because some profiles are replicates—i.e. more than one profile is held for one individual. This may occur if, for example, an individual gives different names, or different versions of their name, on separate arrests. As at 31 December 2009, it was estimated that 13.9 per cent. of the subject profiles held on the entire NDNAD were replicates. As the replication rate is calculated across the entire database, it is not possible to apply it to the number of profiles of each ethnic appearance group to provide the number of individuals in that group.

The data presented are based on a snapshot of the NDNAD as at 31 December 2009. The data on the NDNAD are constantly changing as records are added and removed, hence the figures are a snapshot of contents at a single point in time. The data are management information and have not been formally assessed for compliance with the Code of Practice for Official Statistics.

Ethnic appearance	*Subject profiles*
Unknown	278,630
Asian	324,787
Black	449,288
Chinese/Japanese/SE Asian	39,979
Middle Eastern	46,987
White—North European	4,388,870
White—South European	112,695
Total profiles	5,641,236
Total individuals (estimated)	4,857,104

Domestic Violence

Chris Ruane: To ask the Secretary of State for the Home Department what estimate he has made of the incidence of domestic violence in England and Wales in each of the last 30 years; if he will make it his policy to record domestic violence incidents as a separate crime category; and if he will make a statement. [317962]

Mr. Alan Campbell: There are two sources of data on domestic violence from the British Crime Survey. Estimates of the number of incidents of domestic violence from the face-to-face section of the survey are available from 1981 to 2008-09 and can be found in this table:

http://www.homeoffice.gov.uk/rds/pdfs09/hosb1109tab201.xls

Because of the nature of these offences, more reliable estimates of domestic violence come from the self-completion section of the survey, but these are only available from 2004-05 onwards. We also only report on the prevalence of domestic violence from the self-completion section, not the incidence. Trends in the prevalence of domestic violence from 2004-05 to 2008-09 can be found in Table 3.06 here:

http://www.homeoffice.gov.uk/rds/pdfs10/hosb0110chap3.xls

The issue of making domestic violence a criminal offence was discussed during the Safety and Justice consultation which led to the introduction of the Domestic Violence Crime and Victims Act 2004. The Government believe that the range of existing criminal legislation, coupled with the definition of domestic violence, is sufficient to ensure the maximum discretion in selecting appropriate criminal charges. CPS also flag all domestic violence related crimes.

Driving Under Influence: Young People

Mr. Lancaster: To ask the Secretary of State for the Home Department how many incidents of causing death by careless driving when under the influence of drink or drugs by 16 to 24-years-olds there were in Milton Keynes in each of the last five years. [313950]

Mr. Alan Campbell: Statistics on the number of offences recorded for 'causing death by careless driving when under the influence of drink or drugs' are collected however no details are collected on the age of the offender. The offence classifications within the Police Recorded Crime series are defined by statute. No details on the victim or offender are collected unless specified in the wording of the offence classification. There are a number of sexual offences where this applies; ie sexual assault on a male aged 13 and over or rape of a female child under 13.

Drugs: Crime

Mr. Ruffley: To ask the Secretary of State for the Home Department pursuant to the answer of 6 January 2010, *Official Report*, column 344W, on drugs: crime, what the equivalent figures are for 2008. [315008]

Mr. Alan Campbell: Information provided by the Ministry of Justice, showing the number of cautions given for possession of a controlled drug, by class, England and Wales, 1997 to 2008 (latest available), can be viewed in Table 1. The number given for possession with intent to supply can be viewed in Table 2.

Table 1. Number of offenders cautioned for possession of a controlled drug, by class, England and Wales, 1997 to 2008[1,2,3,4]

	Class A	Class B	Class C
1997	3,918	48,728	249
1998	4,130	51,515	242
1999	4,266	42,560	164
2000	4,479	34,595	147
2001	4,583	33,182	108
2002	4,563	38,482	149
2003	4,764	38,845	149
2004	5,576	10,114	14,605
2005	7,431	3,621	20,805
2006	10,139	2,746	21,367
2007	13,536	3,262	22,643
2008	15,004	2,967	25,313

Table 2: Number of offenders cautioned for possession with intent to supply a controlled drug, by class, England and Wales, 1997 to 2008[1,2,3,4]

	Class A	Class B	Class C
1997	79	401	19
1998	88	470	10
1999	91	413	8
2000	139	305	7
2001	136	310	5
2002	132	336	5
2003	129	371	6
2004	137	207	280
2005	189	83	477
2006	247	53	519
2007	234	44	457
2008	141	32	324

[1] The statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[3] Cannabis was reclassified in January 2004 to a class C drug. From 1997—2004 the class B category includes cannabis; from 2005-08 cannabis is included in class C.

[4] Since April 2004 the police may issue an adult offender with a cannabis warning for simple possession of cannabis.

Justice Statistics Analytical Services—Ministry of Justice

Entry Clearances

Danny Alexander: To ask the Secretary of State for the Home Department what the average length of time was to *(a)* process a visa application and *(b)* despatch an approved passport following approval of a visa in the last year for which figures are available. [315360]

Mr. Woolas *[holding answer 5 February 2010]:* The global average processing time for all visa applications in calendar year 2009 was 13.6 working days. We are unable to provide an average time for despatching a passport to an applicant following a decision to issue a visa. This information is not available from our central records.

Chris Huhne: To ask the Secretary of State for the Home Department how many people from each country who were classified as having *(a)* low and *(b)* higher level English language skills overstayed in the UK following admittance under tier 4 of the points-based immigration system in the latest period for which figures are available. [316371]

Alan Johnson: The UK Border Agency does not hold records on the level of English language skills held by those granted entry to the country under tier 4 of the points based system. It is the responsibility of the tier 4 sponsor to assess the student's ability to follow a course of study; this includes checking the student's English language ability.

Entry Clearances: Bexley

Mr. Evennett: To ask the Secretary of State for the Home Department how many visitors' visas were sponsored by residents of the London Borough of Bexley in the last three years. [317362]

Mr. Woolas: While sponsor details are kept on individual visa application records, we are unable to accurately identify from central records all applications that have been sponsored by residents of any particular borough.

Entry Clearances: Eastern Europe

Keith Vaz: To ask the Secretary of State for the Home Department how many visa officers were employed in *(a)* Tirana, *(b)* Kiev and *(c)* Chisinau in (i) each of the last three years and (ii) 2010 on the latest date for which figures are available. [318016]

Mr. Woolas: The number of entry clearance officers employed at our visa sections in Tirana, Kiev and Chisinau since 2007 have been as follows:

ECOs	*2007*	*2008*	*2009*	*2010*
Tirana	2.0	2.0	2.4	2.4
Kiev	3.75	3.75	3.75	3.75
Chisinau	0.9	0.9	0.9	0.9

Entry Clearances: Families

Sarah Teather: To ask the Secretary of State for the Home Department how many applications for visas for family visitors to the UK have been *(a)* granted and *(b)* refused in respect of applicants from each (i) African and (ii) Caribbean country in each of the last three years. [308242]

Mr. Woolas: The information requested is given in the following table. It is based on nationality, not country and is given for each financial year.

The data are based on management information. They are provisional and subject to change.

Financial year	*Group*	*Nationality*	*Applications*	*Issued*	*Refused*	*Resolved*	*Refusal rate*

Entry Clearances: Fees and Charges

Mr. Oaten: To ask the Secretary of State for the Home Department if he will make it his policy for fees charged for visas to increase in line with inflation. [317562]

Mr. Woolas: Current policy is to set visa fees by balancing a number of complex factors, including inflation along with the cost of processing applications, the importance of attracting certain groups of migrants to the UK, and the value of a successful application in terms of entitlements and benefits to the applicant.

Entry Clearances: Indian Subcontinent

Patrick Hall: To ask the Secretary of State for the Home Department what the average length of time taken between the date of adjudication of an entry clearance case in favour of the applicant and the date of issue of a visa at the British High Commission in *(a)* New Delhi and *(b)* Islamabad was in the latest period for which figures are available. [315147]

Mr. Woolas: The information requested is not available and could be obtained only at disproportionate cost. The UK Border Agency, however, recently issued its visa sections overseas with a target time of eight weeks to conclude the consideration of visa applications after receiving notification of an allowed appeal. The agency will be monitoring the performance of visa sections against this target.

Entry Clearances: Married People

Mr. Oaten: To ask the Secretary of State for the Home Department what recent assessment he has made of the appropriateness of the level of fees for spouse settlement visas; and how much revenue accrued from such fees in each of the last five years. [317560]

Mr. Woolas: The UK Border Agency's fees for immigration and nationality are reviewed annually.

The following table shows revenue collected from spousal settlement visas in each of the last five years.

Income from spouse/civil partner visas from 2004-05 to 2008-09

	Income (£000)
2004-05	13,020
2005-06	14,666
2006-07	16,569
2007-08	28,508
2008-09	25,414

Internal management information—International Group

Entry Clearances: Overseas Students

Patrick Hall: To ask the Secretary of State for the Home Department when he expects the results of the joint review of student visas by his Department and the Department for Business, Innovation and Skills to be published. [314673]

Mr. Woolas: The outcome of the review of Tier 4, announced by the Prime Minister on 12 November 2009, were published on Wednesday 10 February 2010.

Mr. Willetts: To ask the Secretary of State for the Home Department what assessment his Department has made of the economic impact of increasing the minimum level at which non-EU students may come to the UK for study from National Qualifications Framework Level 3 to Level 4. [316912]

Mr. Woolas: The Secretary of State for the Home Department's written ministerial statement of 10 February 2010 provides full details of the recommendations stemming from the Prime Minister's review of tier 4, the student route of the points based system. We will be publishing a full impact assessment on the review in line with implementation.

We are not increasing the minimum level at which non-EU students may come to the UK for study from National Qualifications Framework level 3 to level 4, however, only education providers that qualify as Highly Trusted Sponsors will be able to offer courses at level three to international students.

Damian Green: To ask the Secretary of State for the Home Department how many dependants of those with a *(a)* student visa and *(b)* student visa relating to a course lasting less than six months entered the UK in 2008. [317155]

Mr. Woolas: The available statistics show that 20,300 "dependants of students" (excluding EEA and Swiss nationals) were given leave to enter the United Kingdom, in 2008.

It is not possible to determine, from the systems used to produce these statistics on those given leave to enter the UK, how many of those admitted as "dependants of students" were dependants of students on a course lasting less than six months.

The Secretary of State for the Home Department's written statement of 10 February 2010, *Official Report*, column 58WS contains details of the recommendations stemming from the Prime Minister's review of tier 4, and this statement includes further details of the restrictions we are placing on the dependants of certain students.

Damian Green: To ask the Secretary of State for the Home Department what assessment he has made of the likely effects on student visitors of implementing the changes proposed in the recent review of tier 4 of the points-based immigration system. [317167]

Mr. Woolas: As a result of the changes we are implementing following the review of tier 4, the student tier of the points based system, we expect there to be an increase in the number of student visitor applications, as genuine students wishing to follow lower level courses no longer permitted under tier 4 will be permitted to use the student visitor route instead.

The student visitor category is for short-term, temporary visitors to the UK who intend to complete a course of study in the UK within six months. In order to be eligible, all those seeking entry under this category must have a place on a course of study offered by an education provider which either has a tier 4 sponsor licence, or which is subject to public inspection, or which is accredited by one of the UK Border Agency's approved accreditation bodies.

Student visitors cannot follow a course that contains a work placement, and they are prohibited from taking employment in the UK.

The Secretary of State for the Home Department's written statement of 10 February 2010, *Official Report*, column 58WS contains details of the recommendations stemming from the Prime Minister's review of tier 4.

Firearms

Andrew Stunell: To ask the Secretary of State for the Home Department what recent estimate he has made of the number of unlicensed handguns in circulation in *(a)* England and *(b)* the North West; and if he will make a statement. [317549]

Mr. Alan Campbell: These data are not collected centrally. Handguns are prohibited under firearms law and can only be held with the authority of the Secretary of State. Such authority is generally limited to businesses such as arms manufacturers, and is not normally given to individuals. There are some exceptions for certain historic handguns and for certain professions (for example, vets and race starters) which need to use handguns, but they must still be held on a firearms certificate. Unlawful possession of a handgun carries a maximum sentence of 10 years imprisonment and a minimum of five years.

The National Ballistics Intelligence Service (NABIS) collects intelligence pertaining to the number of known and inferred illegal handguns in the UK, and when necessary these data are shared with the Home Office to inform firearms policy. As these data relate directly to active police operations it is not suitable for the public domain.

Forensic Science Service: Greater London

Mr. Hoyle: To ask the Secretary of State for the Home Department what discussions he has had with the management of the Forensic Science Service in London on the future of the London site after the expiry of its lease in 2013. [317842]

Mr. Alan Campbell: Discussions between the Forensic Science Service, the Metropolitan Police Authority as landlord, and the Home Office as guarantor of the lease of the laboratory premises at Lambeth, are continuing. The proposed lease, of a five-year duration, has yet to be signed. The current plans by the Forensic Science Service envisage a continued occupancy of the Lambeth premises.

Forensic Science Service: Location

Mr. Hoyle: To ask the Secretary of State for the Home Department whether relocation packages will be available for skilled Forensic Science Service staff who are to be made redundant at sites listed for closure; and if he will make a statement. [317844]

Mr. Alan Campbell: The Forensic Science Service will offer a relocation package for members of staff who have decided that they would like to move to another FSS location.

Forensic Science Service: Redundancy

Mr. Hoyle: To ask the Secretary of State for the Home Department what his latest estimate is of the number of redundancies at each Forensic Science Service for which closure is planned. [317845]

Mr. Alan Campbell: The FSS has stated that it anticipates a maximum of 800 redundancies across the organisation. As part of this figure, it is anticipated that redundancies will be made at the Chorley, Chepstow and central Birmingham (Priory House) laboratories in accordance with the following table:

FSS location	*Anticipated redundancies*
Chorley	180
Chepstow	150
Birmingham Priory	100

Government Car and Despatch Agency

Grant Shapps: To ask the Secretary of State for the Home Department how much his Department paid to the Government Car and Despatch Agency in each of the last five years; how much it has spent on such payments in 2009-10; and what proportion of such payments was made in respect of the Government Car Service. [316784]

Mr. Woolas: The amount paid by the Home Department, inclusive of the Criminal Records Bureau and UKBA agencies, to the Government Car and Despatch Agency in each of the last five financial years and to January 2010 in the current financial year is as follows:

Table 1

Financial year	*GCDA expenditure (£)*
2005-06	2,930,328
2006-07	2,882,441
2007-08	3,565,119
2008-09	3,789,066
April-January 2009-10	2,897,802

Costs to Departments of ministerial cars are reported annually to Parliament by my right hon. Friend the Secretary of State for Transport through written ministerial statement and are available in the Libraries of the House.

The Department currently has an agreement with the GCDA's Green Car service for the provision of cars and drivers. Available expenditure data are as follows:

Table 2

GCDA's Green Cars	*£*
FY 2007-08	[1]
FY 2008-09	115,000
April-December 2009	191,000

[1] Available only at disproportionate cost

Greater Manchester Police: Forensic Science

Mr. Hoyle: To ask the Secretary of State for the Home Department what discussions he has had with Greater Manchester Police Force on its decision to hold back all volume crime work from processing by the Forensic Science Service until the next financial year; and if he will make a statement. [317843]

Mr. Alan Campbell: This is a matter for, primarily, the Greater Manchester police in consultation with its forensic suppliers. The FSS has received notification that Greater Manchester police has temporarily suspended submissions of fibres, gun shot residue and glass cases.

Hizb ut-Tahrir

Chris Grayling: To ask the Secretary of State for the Home Department for how many years the group Hizb ut-Tahrir has been active in the UK. [317825]

Alan Johnson: It is normal Home Office policy not to comment on groups which may or may not be added to the list of proscribed organisations.

Hotels

Mr. Hurd: To ask the Secretary of State for the Home Department how many separate bookings for stays at hotels rated five stars or above were made through the Expotel booking service by his Department in the latest year for which figures are available; and at what cost those bookings were made. [314813]

Mr. Woolas: From best available information, no bookings for stays at hotels rated at five stars or above were made through the Expotel booking service on behalf of the Home Department in 2009.

Human Trafficking

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department what recent steps the Government has taken to tackle human trafficking. [316983]

Mr. Alan Campbell: The Government's plans to combat human trafficking are outlined in the UK Action Plan on Tackling Human Trafficking. The plan is updated annually and can be found at:

www.crimereduction.homeoffice.gov.uk

The most recent update of the plan, published in October 2009 details 38 actions to tackle trafficking across four key areas of: prevention; investigation, law enforcement and prosecution; providing protection and assistance to adult victims of trafficking; and child victims.

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department how many cases of human trafficking were identified in the UK in 2008. [316984]

Mr. Alan Campbell: The formal identification system introduced under the national referral mechanism came into force from 1 April 2009.

In 2008 referrals of potential victims of trafficking for sexual exploitation were referred to the Poppy Project who in 2008 received a total 293 referrals.

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department what steps his Department is taking to identify victims of human trafficking. [316985]

Mr. Alan Campbell: The Government's overall approach to tackling human trafficking is outlined in the, UK Action Plan:

www.crimereduction.homeoffice.gov.uk/humantrafficking004.htm

As part of its implementation of the Council of Europe convention on action against trafficking in human beings the Government established in April 2009 a National Referral Mechanism (NRM) to identify and support victims. 527 men, women and children were referred through this multi-agency framework in its first nine months of operation. 'First Responders' in designated organisations such as the police, local authorities, and the UK Border Agency (UKBA) refer potential victims of trafficking to trained specialists in 'Competent Authorities' within the UK Human Trafficking Centre and UKBA who determine whether individuals qualify as victims according to the convention.

The Government has rolled out online guidance on trafficking and the NRM, including providing information and advice for frontline practitioners. For children, a trafficking tool kit is currently being piloted in 13 English and Welsh local authorities. This aims to improve first responders' use of the assessment tool kit, which has been designed to help them identify potential child victims of trafficking.

Our launch with Comic Relief of the NSPCC Child Trafficking Advice and Information Line (CTAIL) in November 2007 has succeeded in actively supporting practitioners on how best to identify and safeguard children suspected of being trafficked as well as making a positive difference to outcomes in individual case referrals.

Operation Paladin is a Metropolitan police-led operation involving immigration officers and social workers. It is based at Heathrow airport and the United Kingdom Border Agency (UKBA) Asylum Screening Unit in Croydon. It also has a presence at the Eurostar terminal in London. The team specialises in identifying and safeguarding vulnerable children suspected of being trafficked and undertakes proactive and preventative initiatives against the trafficking of children. It also investigates specific trafficking and migration offences.

The UKBA has developed human trafficking training for frontline staff to raise their awareness of trafficking, and to help staff recognise and identify indicators. The UK Human Trafficking Centre, in conjunction with the National Policing Improvement Agency, has developed training for police officers. The training covers all forms of human trafficking and has been incorporated into programmes for all new officers as well as specific programmes such as initial detective training and those aimed at police community support officers, domestic violence, roads policing and public protection programmes.

Human Trafficking: West Midlands

Rob Marris: To ask the Secretary of State for the Home Department how many people resident in the West Midlands have been *(a)* charged with and *(b)* convicted of trafficking for sexual exploitation in each year since 2004. [315958]

Mr. Alan Campbell: Figures from the United Kingdom Human Trafficking Centre for the three police forces in the West Midlands area are as follows:

Charged	*2004*	*2005*	*2006*	*2007*	*2008*
Warwickshire	0	0	5	0	0
West Mercia	0	0	0	3	2
West Midlands	0	2	5	3	1

Conviction	*2004*	*2005*	*2006*	*2007*	*2008*
Warwickshire	0	0	5	0	0
West Mercia	0	0	0	1	2
West Midlands	0	0	3	2	0

Illegal Immigrants: Deportation

Sammy Wilson: To ask the Secretary of State for the Home Department how many and what percentage of people caught entering the UK illegally were deported in each of the last five years. [316175]

Mr. Woolas: Between January 2005 and December 2009, 33,176 illegal entrants were detected by Border Force officers at the UK Border.

Of the 33,176 illegal entrants detected, 31,968 were removed or deported. A detailed annual breakdown is provided in the following table:

	Illegal entrants detected	*Illegal entrants removed/deported*	*Percentage removed/deported*
2005	3,287	3,090	94
2006	5,580	5,442	97
2007	5,981	5,778	97
2008	8,983	8,643	96
2009	9,336	9,015	97
Total	33,176	31,968	96

The information used to answer this question has been taken from a live database and is therefore subject to change. It is suitable for management information purposes and has not been subject to the detailed checks required to qualify as National Statistics.

Immigrants: Detainees

Paul Holmes: To ask the Secretary of State for the Home Department what assessment is made of the mental well-being of detainees in immigration detention centres. [317698]

Mr. Woolas: Immigration removal centres are operated in accordance with the Detention Centre Rules 2001.

In accordance with the rules, each centre has a health care department to deliver primary services, which include medical practitioners and nursing staff, including registered mental health nurses.

Each detainee is seen by a nurse within two hours of arrival at a centre. They are then given an appointment to see a GP within 24 hours, unless the nurse considers an earlier examination is required.

Where issues of mental illness are identified which require secondary treatment, a referral is made to the relevant primary care trust for assessment and treatment as necessary.

Immigrants: Merseyside

Mr. Frank Field: To ask the Secretary of State for the Home Department whether he has made an estimate of the number of immigrants with work permits who have worked in Merseyside since 1997. [316830]

Mr. Woolas *[holding answer 10 February 2010]:* The information requested is not centrally recorded and could be obtained only at disproportionate cost.

Immigration

Mr. Spring: To ask the Secretary of State for the Home Department what proportion of claims for indefinite leave to remain were *(a)* granted and *(b)* declined within (i) three months, (ii) six months, (iii) 12 months, (iv) 24 months and (v) longer in each of the last five years. [315648]

Mr. Woolas: The following tables show the percentage of grants and refusals against the annual totals for the past five years.

ILR Grant

	Percentage					
	<3 months	*<6 months*	*<12 months*	*<24 months*	*>24 months*	*Grand total*
2005	74	11	13	1	1	86,053
2006	83	4	9	2	2	81,881
2007	87	5	4	3	1	72,296
2008	95	2	1	1	1	77,265
2009	90	5	2	1	2	98,117
Five year total	86	6	6	1	1	415,612

ILR Refusal

	Percentage					
	<3 months	*<6 months*	*<12 months*	*<24 months*	*>24 months*	*Grand total*
2005	82	10	3	3	2	3,965
2006	67	11	13	8	1	5,756
2007	49	17	11	14	9	10,103
2008	50	12	13	12	13	8,098
2009	29	26	10	12	23	9,616
Five year total	50	18	10	11	11	37,538

All figures quoted are internal management information only and are subject to change. This information has not been quality assured under National Statistics protocols.

Andrew Mackinlay: To ask the Secretary of State for the Home Department what the full chronology is of the processing of the hon. Member for Thurrock's constituent's case, Ref J269056, since the granting of exceptional leave to remain on 22 May 2000; for what reasons his acknowledged re-application submitted in 2004 has not been determined; when that application will be determined; and if he will make a statement. [316543]

Mr. Woolas *[holding answer 9 February 2010]:* The UK Border Agency wrote to my hon. Friend on 5 February 2010 addressing the concerns he has raised.

Andrew Mackinlay: To ask the Secretary of State for the Home Department what the full chronology is of the processing of the hon. Member for Thurrock's constituent's case, Ref G354413; CTS Ref No. M12456/9, since his arrival in the UK on 26 April 1997; for what reasons there has been no determination of his and his family's case; when the case will be determined; and if he will make a statement. [316544]

Mr. Woolas *[holding answer 9 February 2010]:* The UK Border Agency wrote to my hon. Friend on 5 February 2010 addressing the concerns he has raised.

Mr. Evennett: To ask the Secretary of State for the Home Department how many applications for leave to remain in the UK were made outside the immigration rules in the last 12 months. [317363]

Mr. Woolas: The number of non-asylum applications for leave to remain in the UK, that were made outside the immigration rules in the last 12 months, to the end of December 2009 was 9,295[1].

[1] All figures quoted are internal management information only and are subject to change. This information has not been quality assured under National Statistics protocols.

Chris Grayling: To ask the Secretary of State for the Home Department how many powers relating to immigration have been *(a)* created and *(b)* amended by legislation sponsored by his Department since 1997. [317666]

Alan Johnson: Since 1997 there have been a number of Acts of Parliament relating to immigration as follows:

The Special Immigration Appeals Commission Act 1997

The Immigration and Asylum Act 1999

The British Overseas Territories Act 2002

The Nationality, Immigration and Asylum Act 2002

The Asylum and Immigration (Treatment of Claimants etc) Act 2004

The Immigration, Asylum and Nationality Act 2006

The UK Borders Act 2007

The Criminal Justice and Immigration Act 2008

The Borders, Citizenship and Immigration Act 2009

These Acts have created various immigration powers for a range of public bodies including the Secretary of State, immigration officers and the courts. These statutes also make amendments to Acts pre-dating them, not least the Immigration Act 1971.

Immigration: Fees and Charges

Mr. Lancaster: To ask the Secretary of State for the Home Department what mechanisms are in place to assist those who are unable to afford the fee required for an extension to a UK visa. [316782]

Mr. Woolas: There are no mechanisms in place to assist those who are unable to afford the application fee.

An applicant who makes an application under a category not covered by an exemption set out in the fee regulations must pay the appropriate fee for that application for it to be considered. Any application made that is not accompanied by the correct fee is invalid.

Immigration: Yemen

Andrew Rosindell: To ask the Secretary of State for the Home Department how many citizens of Yemen have been refused entry to the UK on grounds of links to terrorism in each of the last five years. [315928]

Mr. Woolas: In the last five years, a total of two Yemeni nationals have been refused entry to the UK on the basis that their presence in the UK would not be conducive to the public good. This category of refusal includes, but is not limited to, those nationals suspected of having links to terrorism.

Both of these refusals took place in 2009 and resulted in the individuals being removed from the UK.

Iraq Committee of Inquiry

Jenny Willott: To ask the Secretary of State for the Home Department how many *(a)* documents and *(b)* other items of information in electronic format provided by his Department to the Iraq Inquiry that Inquiry has sought to publish under the procedure set out in the protocol on documents and other written and electronic information; and if he will make a statement. [314544]

Mr. Hanson: I refer the hon. Member to the answer given to her by the minister of State for the Cabinet Office, my right hon. Friend the Member for Dulwich and West Norwood (Tessa Jowell) on 9 February 2010, *Official Report,* columns 893-894W.

Local Government Finance

Mr. Stewart Jackson: To ask the Secretary of State for the Home Department with reference to the answer to the hon. Member for Meriden of 22 October 2009, *Official Report,* column 1645W, on local government finance, what data sets not contained in the national indicator set local authorities are required to submit to his Department. [314951]

Mr. Woolas: The Home Office does not place any statutory obligations on local authorities to submit any data sets to the Department, other than the national indicator set.

Mephedrone

Mr. Dai Davies: To ask the Secretary of State for the Home Department what consideration he has given to the inclusion of a question on mephedrone use in the British Crime Survey. [317556]

Mr. Alan Campbell: A question on mephedrone use will be added to the British Crime Survey from April 2010.

Mr. Dai Davies: To ask the Secretary of State for the Home Department what recent representations he has received from the Advisory Council on the Misuse of Drugs in respect of mephedrone use. [317558]

Mr. Alan Campbell: The Advisory Council on the Misuse of Drugs (ACMD) advised me of its concerns regarding the potential harms associated with the cathinones, including mephedrone, in correspondence sent on 22 December 2009. The council's commitment to review these compounds as a matter of urgency was reinforced at a meeting between myself and the interim Chair of the Council on 2 February 2010. The council are progressing this at a meeting to be held on the 22 February 2010, and will report to Ministers as soon as is practicable.

Milngavie Reservoir: Security

Jo Swinson: To ask the Secretary of State for the Home Department what recent *(a)* discussions and *(b)* correspondence he has had with (i) Ministers in the Scottish Executive and (ii) representatives of Scottish Water on the public security issues concerning the erection of fences around Milngavie reservoir; what security threat the fences are intended to address; what recent assessment he has made of the requirement for such security fencing; and if he will make a statement. [315445]

Mr. Hanson *[holding answer 4 February 2010]*: There have been no recent discussions or correspondence between Home Office Ministers and Scottish Ministers or representatives of Scottish Water on public security issues concerning the erection of fences around Milngavie reservoir.

In line with our long-standing policy, we do not comment on matters of national security.

Offenders: Deportation

Chris Grayling: To ask the Secretary of State for the Home Department how many time-served foreign prisoners held in the UK border Agency's detention estate *(a)* went missing without permission and *(b)* re-offended whilst being held in each year since 1998. [317662]

Alan Johnson: The following table shows the number of time-served foreign prisoners held in the UK Border Agency's detention estate who went missing without permission between 2007 and 2009.

Time-served foreign prisoners missing without permission from a detention centre

	Number
2007	26
2008	10
2009	1

These data relate only to those time-served foreign prisoners being held pending deportation.

These data are based on management information only and have not been subject to the detailed checks that apply for National Statistics publications. These figures are provisional and are subject to change.

The information requested for the number of time-served foreign prisoners held in the UK Border Agency's detention estate who went missing without permission between 1998 and 2007 and the number of time-served foreign prisoners held in the UK Border Agency's detention estate who re-offended while being held in each year since 1998, can only be obtained by the detailed examination of individual record at disproportionate cost.

Passports

Chris Huhne: To ask the Secretary of State for the Home Department if he will estimate the effect on expenditure as classified in the *(a)* common passport and identity card and *(b)* passport-specific section of the most recent identity cards scheme cost report of issuing passports without fingerprint data in each year from 2010-11 to 2018-19. [310383]

Alan Johnson *[holding answer 12 January 2010]:* It is intended that passports incorporating fingerprints will be introduced from 2012 onwards and applicants for such passports will be enrolled on the National Identity Register. From that point, common business processes and technology infrastructure will be used to register applicants on the National Identity Register and issue them with an identity card and/or a passport.

Passports: Fees and Charges

Chris Huhne: To ask the Secretary of State for the Home Department what the differences are between the fee structures for passport applications for British citizens resident overseas and those resident in the UK. [316079]

Alan Johnson: The Identity and Passport Service sets the passport fee for British citizens following an annual review with HM Treasury to ensure passport fee levels are set to recover the costs of the service provided.

The passport fee for British citizens resident overseas is set by the Foreign and Commonwealth Office.

Sammy Wilson: To ask the Secretary of State for the Home Department whether he plans to increase the UK passport application fee in 2010. [316171]

Meg Hillier: Passport fees are set in order to recover the full cost of providing the service including an element for non fee bearing consular services abroad. Fee levels are reviewed annually with HM Treasury.

The passport fee review for 2010 has not yet been concluded.

Passports: Lost Property

Stewart Hosie: To ask the Secretary of State for the Home Department how many dispatched passports have been reported lost since November 2007; and what estimate he has made of the number of such lost passports that may have been stolen. [316794]

Meg Hillier: During the period November 2007 to September 2009, the latest date for which information is available, 1,135 passports, 0.01 per cent. of those produced, were recorded as lost during the delivery process.

Of these, 115 are recorded as lost as a result of theft from a courier or courier's vehicle, and 16 as misplaced within the delivery process.

The remainder are recorded as lost due to misposting by couriers.

Police

Mr. Laws: To ask the Secretary of State for the Home Department how many police officers in each police force in England were on each category of restricted duties in each reporting period from 1997 to 2010; and if he will make a statement. [316717]

Mr. Hanson: Data on officers on recuperative and restricted duties are available centrally from 2003. Force level figures for each year from 2003-09, the latest available reporting period, are shown in the following tables. Figures for 2010 will be available later this year.

Police officers on recuperative[1] and restricted[2] duties, 2003-09

As at 31 March each year

[1] Total number of police officers (head count) on 'recuperative' duties as at 31 March. These are temporary duties or working conditions approved to assist an officer's ultimate return to full duties after injury or illness by allowing them to return to or continue in work of a less demanding capacity.

[2] Total number of police officers (head count) on 'restricted' duties as at 31 March. These are duties or conditions approved, other than for recuperative purposes, for fixed periods totalling more than 28 consecutive days (including rest days) for an officer who is unable for a specific reason to carry out one or more aspects of full operational duty.

[3] These data are provisional. They have not undergone usual quality assurance practices (including validation with individual police forces), and are therefore supplied for information purposes only.

Police National Computer

Damian Green: To ask the Secretary of State for the Home Department what guidance his Department has issued to police forces on removing records from the Police National Computer relating to people who have had their DNA profile removed from the National DNA Database as an exceptional case; and if he will make a statement. [317148]

Mr. Hanson: The Home Office has issued no such guidance to the police.

The PNC retention guidelines issued by the Association of Chief Police Officers include an exceptional cases procedure. In accordance with this, it is for individual chief police officers to use their discretion to decide whether to amend or delete information placed by their force on the police national computer (PNC) and the national DNA database (NDNAD). In exercising that discretion, they may make different decisions in respect of information held on the different systems.

Damian Green: To ask the Secretary of State for the Home Department how many personal records have been removed from the Police National Computer in each of the last five years; and if he will make a statement. [317149]

Mr. Hanson: The police national computer (PNC) is an operational tool and is not designed to produce the information requested. To obtain the information would incur a disproportionate cost.

Police: Emergency Calls

Chris Grayling: To ask the Secretary of State for the Home Department what his most recent estimate is of the *(a)* average and *(b)* average target response time for police attendance at the scene of an incident following a 999 call in (i) each police force area and (ii) England and Wales. [317826]

Alan Johnson: The Policing Pledge, which was introduced across all police forces in England and Wales at the end of 2008, sets out the minimum standards of service that the public can expect to receive from the police including for response times. Through the pledge, the police have committed to aim to answer 999 calls within 10 seconds, deploying to emergencies immediately, giving an estimated time of arrival and reaching the incident as safely and as quickly as possible. In urban areas, they aim to arrive within 15 minutes and in rural areas within 20 minutes.

The Home Office does not collect data centrally on average response times. However in October 2009, Her Majesty's Inspectorate of Constabulary published a report on the standard of pledge delivery across all police forces. The report notes that on responding to emergency calls, 17 forces were graded 'good', 25 were 'fair' and one force was 'poor'.

It is for individual police forces and authorities to ensure delivery of the policing pledge in their area. The Government will hold forces to account for progress through the single top-down target we have set them to improve public confidence that crime and antisocial behaviour are being tackled locally, and in the light of inspection work by Her Majesty's Inspectorate of Constabulary. Latest British Crime Survey (BCS) figures released in January 2010 show an improving trend, that, nationally, 50 per cent. of the public now agree that the police and local councils are dealing with the antisocial behaviour and crime issues that matter locally.

Police: Feltham

Alan Keen: To ask the Secretary of State for the Home Department how many full-time police officers there were in Feltham and Heston *(a)* in 1997 and *(b)* at the latest date for which information is available. [316699]

Mr. Hanson: Data on numbers of police officers are not available specifically at constituency level. The Feltham and Heston constituency lies within the Metropolitan police's basic command unit (BCU) of Hounslow borough. Figures at BCU level have been collected only since 2002-03. They show that the number of full-time equivalent police officers in Hounslow rose from 467 on 31 March 2003 to 518 on 31 March 2009, the latest published period. These figures include officers on career break or maternity/paternity leave. A full BCU breakdown of police officer numbers appears each year in supplementary tables to the annual 'Police Service Strength' publication, available on the Home Office website and the Library of the House.

Police: Football

Chris Grayling: To ask the Secretary of State for the Home Department what the expenditure was of the UK Football Policing Unit in England and Wales in each year since 2003. [317579]

Alan Johnson: The UK Football Policing Unit (UKFPU) was established in November 2005 following a review of the funding and delivery arrangements for policing regulated football matches in England and Wales. UKFPU is a front-line Home Office unit jointly overseen with the Association of Chief Police Officers (ACPO) lead for policing football. It undertakes a range of statutory functions and provides an infrastructure for policing English and Welsh football matches at home and, in particular, abroad. Information on expenditure is only available for the financial year commencing April 2006—the initial period having been funded from core Home Office resources.

	Expenditure of the UK Football Policing Unit (£)
April 2006 to March 2007	1,486,933
April 2007 to March 2008	2,094,858
April 2008 to March 2009	2,191,302

Powers of Entry

Grant Shapps: To ask the Secretary of State for the Home Department how many powers of entry have been *(a)* created and *(b)* amended by legislation sponsored by his Department since 1997. [311555]

Mr. Hanson: I refer the hon. Member to the reply given on 28 January 2010, *Official Report*, columns 1046-48W.

Mr. Stewart Jackson: To ask the Secretary of State for the Home Department with reference to the Prime Minister's speech at the University of Westminster on 25 October 2007, on liberty, for what reasons the proposed new test for powers of entry has not been implemented. [314957]

Mr. Hanson: I refer the hon. Member to my answer on 28 January 2010, *Official Report*, column 1047W.

Powers of Entry: Public Consultation

Mr. Stewart Jackson: To ask the Secretary of State for the Home Department when the public consultation to be undertaken as part of Lord West's review of powers of entry will commence. [312021]

Mr. Hanson: Proposals on a future framework approach for powers of entry will be published later this year.

Public Holidays

Bob Spink: To ask the Secretary of State for the Home Department what estimate he has made of the cost to his Department of the introduction of an additional public holiday; and if he will make a statement. [315116]

Mr. Woolas: The value of the introduction of an additional day's public holiday in the Home Office can be costed at an estimated notional value of £2.2 million, but it would not in fact incur an additional cost to the pay bill, as staff would merely be paid for a day on which they were not working rather than one on which they were. Similarly, although there are services offered by the Home Office which generate income, income would not be lost, as those services are not available from an alternative source and so would be obtained and paid for on another day. Therefore, although a notional cost can be attributed to the introduction of an additional day's public holiday, there would be no actual cost.

Repatriation

Mr. Randall: To ask the Secretary of State for the Home Department how much has been spent on the *(a)* Facilitated Returns Scheme and *(b)* Assisted Voluntary Returns programme in each year of their operation; and how many individuals have been awarded funds in each such year. [315379]

Mr. Woolas: Expenditure by the UK Border Agency on the Facilitated Returns Scheme (FRS) from its inception in October 2006 to March 2009 was approximately £4.3 million. Of the 4,200 foreign national prisoners removed or deported in 2007 around 25 per cent. were removed under the scheme. Of the 5,400 foreign national prisoners removed in 2008 and the 3,890 removed in quarters 1-3 2009, around 30 per cent. were removed under FRS.

Assisted Voluntary Return programmes costs by full programme year 2000-07

Voluntary Assisted Return and Reintegration programme

Programme year	*Total funding (£)*
2000-01	557,827
2001-02	992,587
2002-03	956,048
2003-04	4,500,823
2004-05	7,267,560
2005-06	8,640,406
2006-07	15,390,384
2007-08	11,132,486
Total	49,438,121

Notes:
1. Pilot programme 1999.
2. Programme year 2000-05—April to July extended.
3. Programme year 2005-06 onwards—August to July.

Assisted Voluntary Return for irregular migrants

Programme year	*Total funding (£)*
2005-06	555,453
2006-07	1,518,112
2007-08	1,803,994
Total	3,877,559

Notes:
1. Pilot 15 November 2004 to 31 March 2005
2. Programme year—April to March

These costs may be subject to revision and are still subject to audit, costs have yet to be agreed. 2008 programme final

The following table shows how many individuals left under AVR.

	Asylum cases leaving under AVR programmes	*Non-Asylum cases leaving under AVR programmes*
1999	50	—
2000	550	—

	Asylum cases leaving under AVR programmes	Non-Asylum cases leaving under AVR programmes
2001	980	
2002	895	–
2003	1,755	—
2004	2,705	10
2005	3,235	420
2006	5,340	860
2007[1]	2,865	1,290
2008[1]	2,700	1,595

[1] Provisional figures.

Both AVR and FRS are currently part funded by the European Union.

Repatriation: Offenders

Mr. Grieve: To ask the Secretary of State for the Home Department how many offenders were removed from the country under the Facilitated Returns Scheme in each year from October 2006 to October 2009; what the cost of the scheme was in each of those years; and what the average level of grant to offenders was in each of those years. [311016]

Mr. Woolas: Of the 4,200 foreign national prisoners removed or deported in 2007 around 25 per cent. were removed under the Facilitated Returns Scheme (FRS). Of the 5,400 foreign national prisoners removed in 2008 and the 3,890 removed in quarters 1 to 3 2009, around 30 per cent. were removed under FRS.

Management information on the average level of grant awarded to those removed under FRS and who claimed the reintegration package in 2006 or 2007 is not considered sufficiently reliable. In both 2008 and between quarters 1 and 3 of 2009 less than three-quarters removed under FRS claimed the reintegration package on return and of those that did, the average amount received was less than £2,500 for 2008 and £3,500 for quarters 1 to 3 of 2009.

The scheme continues to deliver significant number of removals of foreign national criminals and continues to be developed to maximise savings and maintain public safety.

The chief executive of the UK Border Agency will provide the Home Affairs Committee with information on the cost of the FRS when she writes later this month.

Sexual Offences

Chris Grayling: To ask the Secretary of State for the Home Department how many registered sex offenders in England and Wales have been found not to be residing at their registered address in each year since 1998. [314822]

Alan Johnson: The data requested are not collected in the format requested and could be collated only at disproportionate cost.

Smuggling: Shipping

David Simpson: To ask the Secretary of State for the Home Department how many ships were searched by HM Revenue and Customs in UK ports in each of the last three years. [314539]

Mr. Woolas: In April 2008, specialist search teams which were previously the responsibility of HM Revenue and Customs, became part of the UK Border Agency.

The number of ships searched in Northern Ireland ports, by these teams in the last three years, is as follows:

Financial year	Ships searched
2006-07	0
2007-08	0
2008-09	16

In addition to the searches carried out by these specialist teams, non-specialist UK Border Agency staff, including the Cutter fleet, also challenge and board commercial vessels arriving in UK ports.

David Simpson: To ask the Secretary of State for the Home Department how many ships were searched by HM Revenue and Customs in Northern Ireland ports in each of the last three years. [314540]

Mr. Woolas: In April 2008, specialist search teams which were previously the responsibility of HM Revenue and Customs, became part of the UK Border Agency.

The number of ships searched in UK ports, by these teams in the last three years, is as follows:

Financial year	Number of ships searched
2006-07	85
2007-08	505
2008-09	640

In addition to the searches carried out by these specialist teams, non-specialist UK Border Agency staff, including the Cutter fleet, also challenge and board commercial vessels arriving in UK ports.

Special Advocates

Mr. Dismore: To ask the Secretary of State for the Home Department (1) whether special advocates have been employed in cases involving *(a)* control orders, *(b)* the Special Immigration Appeals Commission, *(c)* asset freezing, *(d)* the Proscribed Organisations Appeal Commission, *(e)* the Security Vetting Appeals Panel, *(f)* the Employment Tribunal, *(g)* the Employment Appeal Tribunal and *(h)* race discrimination claims under the Race Relations Act 1976 since their introduction; [316606]

(2) whether special advocates have been employed in cases involving *(a)* criminal prosecutions where closed material is relied upon, *(b)* the Information Tribunal, *(c)* judicial review of Government decisions not to provide exculpatory material relating to Guantánamo detainees, *(d)* private law compensation claims from former Guantánamo detainees, *(e)* other judicial reviews where closed material is used, *(f)* decisions on the release and recall of prisoners involving the use of closed material under various statutory provisions in Northern Ireland and *(g)* the National Security Certificate Appeals Tribunal Northern Ireland since their introduction. [316618]

The Solicitor-General: I have been asked to reply.

The answers to the questions the hon. Member for Hendon has posed may most helpfully be put in the form of a table, which appears as follows. The table relates to the UK and has been prepared with the assistance of the Office of the Solicitor to the Advocate-General for Scotland.

		Yes	No
Question 316606			
(a)	Control Orders	x	
(b)	Special Immigration Appeals Commission	x	
(c)	Asset Freezing	x	
(d)	Proscribed Organisations Appeal Commission	x	—
(e)	Security Vetting Appeals Panel	x	—
(f)	Employment Tribunal	x	—
(g)	Employment Appeal Tribunal	x	—
(h)	Race Discrimination claims under Race Relations Act 1976	—	x
Question 316618			
(a)	Criminal Prosecutions—in this context the advocates are known as "Special Counsel"	x	—
(b)	Information Tribunal	x	—
(c)	Guantanamo Detainees—Judicial Review	x	—
(d)	Former Guantanamo Detainees—Private Law Compensation claims	—	x
(e)	Other Judicial Reviews	x	—
(f)	Release and Recall of Prisoners under various statutory provisions in Northern Ireland	x	—
(g)	National Security Certificate Appeals Tribunal Northern Ireland	x	—

Stun Guns

Tom Brake: To ask the Secretary of State for the Home Department what assessment his Department has made of the potential for use by the police of the extended range electronic projectile Taser. [314784]

Mr. Hanson: The Government have no current plans to introduce extended range electronic projectiles for use by the police.

The Home Office Scientific Development Branch (HOSDB) assesses and reviews a range of new technologies on behalf of the police service. As part of this work, HOSDB is conducting preliminary assessments of the effectiveness, level of risk and utility of a product being developed by Taser International called the extended Range Electronic Projectile (XREP). Any equipment issued to police officers is subject to very rigorous testing, and would also undergo full independent medical assessment.

The Government's approach to developing the use of less lethal weapons is in line with articles 2 and 3 of the UN Basic Principles on the Use of Force and Firearms.

Theft: Motor Vehicles

Andrew Rosindell: To ask the Secretary of State for the Home Department what steps his Department is taking to reduce the number of thefts of cars facilitated through the theft of car keys. [315926]

Mr. Alan Campbell: The British Crime Survey 2008-09 shows that vehicle crime has reduced by 57 per cent. since 1997. This success was achieved by Government and police working with partners in the public and private sectors to reduce crime, and to make cars harder to steal. It is now almost impossible to steal a car without using the keys. Some criminals now target the car keys, and the most prevalent method for doing so is by burgling homes to steal car keys, known as car key burglary.

We have invested £15 million this year in preventing and tackling burglary, including physically securing homes with effective locks and providing the right advice to those most at risk of burglary. Our current publicity campaign "Don't Advertise Your Stuff To Thieves" specifically addresses this crime through its television advert. Renewed advice on preventing burglary, including car key burglary, is also available on the Home Office website. We are currently working with the police and the Home Office Design and Technology Alliance to develop further responses to the issue of car key burglary.

We have updated our advice to people on how to protect their homes and cars. The Home Office website provides advice to householders on protecting themselves from burglary, including advice on keeping car keys out of sight of doors and windows, closing and locking doors and windows, and advising on appropriate security standards to take account of when replacing windows or doors. It includes "Steer Clear of Car Crime", an updated publication which provides advice for people on protecting their car and its contents from theft, including specific advice on keeping car keys safe from thieves.

The Home Office also funds the ACPO Vehicle Crime Intelligence Service (AVCIS). Its aims include reducing thefts of vehicles and increasing recovery of stolen vehicles. It works closely with partners across police forces, the wider public sector and the private sector to tackle vehicle crime in all its forms, including car key burglary. AVCIS has participated in a number of successful joint police operations targeted at reducing vehicle crime, including car key burglary.

UK Border Agency

Jenny Willott: To ask the Secretary of State for the Home Department how many complaints UK Border Agency managers have received from staff intending to become whistleblowers in each of the last five years; and if he will make a statement. [317030]

Mr. Woolas: This information is not collected centrally.

The Home Office policy on whistleblowing encourages members of staff to speak up about genuine concerns regarding wrongdoing and matters of conscience. They may raise their concerns in a number of ways: to their line manager; another manager whom they trust; one of the Department's nominated officers; to the Civil Service Commissioners; or to a relevant regulatory body such as the National Audit Office or the Health and Safety Executive. Matters of conscience may also be reported to the Permanent Secretary.

UK Border Agency: Complaints

Jenny Willott: To ask the Secretary of State for the Home Department how many complaints the UK Border Agency (UKBA) received against its staff *(a)* for each given reason and *(b)* from each type of UKBA service user in each of the last five years; and if he will make a statement. [316329]

Mr. Woolas: Data for complaints received by the UK Border Agency from members of the public about UK Border Agency staff can be provided for 2008 and 2009.

Serious misconduct complaints (Serious misconduct is any unprofessional behaviour which, if substantiated, would lead to disciplinary action)

2008

127 complaints (eight of which were substantiated)

2009

155 complaints (18 of which were substantiated)

Minor misconduct complaints (Minor misconduct is usually to do with isolated instances of rudeness and unprofessional conduct which are not serious enough to warrant a formal investigation and if substantiated they would not lead to criminal or disciplinary proceedings)

2008

293 complaints

2009

774 complaints

Jenny Willott: To ask the Secretary of State for the Home Department how many complaints about racism involving UK Border Agency staff were received from asylum seekers in each of the smallest geographical areas for which figures are available in each of the last five years; and if he will make a statement. [316330]

Mr. Woolas: Between January 2009 and January 2010, 28 complaints concerning serious misconduct that involved allegations of racism were received by the UK Border Agency, from members of the public, one of these complaints was substantiated. No geographical breakdown is available nor do records indicate in how many cases the complainants were asylum seekers.

Jenny Willott: To ask the Secretary of State for the Home Department how many complaints relating to incidents of violence by UK Border Agency staff were received from asylum seekers in each of the smallest geographical areas for which figures are available in each of the last five years; and if he will make a statement. [316333]

Mr. Woolas: 92 allegations of assault by UKBA staff were received between January 2009 and January 2010, two of these were substantiated. Central data do not show whether or not the complainant was an asylum seeker in each case.

UK Border Agency: Contracts

Damian Green: To ask the Secretary of State for the Home Department pursuant to the answer of 5 February 2010, *Official Report*, column 587W, on UK Border Agency: contracts, which contractors were awarded the 13 UK Border Agency contracts valued at over £2 million in 2009. [317244]

Mr. Woolas: The contractors awarded the 13 UK Border Agency contracts valued at over £2 million in 2009 are as follows:

1. Rapiscan Systems Ltd.
2. The GEO Group UK Ltd.
3. Northern Ireland Housing Executive
4. FCO Services
5. FCO Services
6. Atos Origin IT Services UK Limited
7. Dell Corporation
8. Specialist Computer Centres plc
9. Serco
10. G4S
11. G4S
12. Jomast
13. Interserve

UK Border Agency: Crimes of Violence

Jenny Willott: To ask the Secretary of State for the Home Department how many incidents of violence by asylum seekers against UK Border Agency staff were recorded in each of the smallest geographical areas for which figures are available in each of the last five years; and if he will make a statement. [316331]

Mr. Woolas: Please see following table which shows the number of physical assaults recorded by location. Please note that UKBA does not record the identity of the individual making the assault and cannot specify whether he or she was an 'asylum seeker'. The figures in the table therefore represent all assaults on staff by members of the public and not just asylum seekers. Verbal assaults are excluded from these data.

City	*Total*	*2005*	*2006*	*2007*	*2008*	*2009*
Birmingham	1	0	0	0	0	1
Cardiff	1	0	0	0	1	0
Castle Donington	1	0	0	1	0	0
Crawley	1	1	0	0	0	0

Not recorded	12	3	1	7	1	0
Total	59	5	7	25	6	16

UK Border Agency: Manpower

Jenny Willott: To ask the Secretary of State for the Home Department what the average length of service at the UK Border Agency has been of *(a)* case-owners and *(b)* casework team leaders (i) in Cardiff and (ii) nationally in each of the last five years; and if he will make a statement. [316217]

Mr. Woolas: UK Border Agency staffing data held are collated by grade only and not by role. Therefore average length of service of these roles is not available.

Jenny Willott: To ask the Secretary of State for the Home Department how many and what proportion of UK Border Agency legal staff *(a)* in Cardiff and *(b)* nationally are qualified (i) solicitors, (ii) barristers and (iii) para-legal staff; and if he will make a statement. [316220]

Mr. Woolas: There are no staff of the UK Border Agency based in Cardiff whose role is to provide legal services. General advice on procedure and current case law is provided through teams outside the Wales and South West of England region and are staffed by policy specialists. Bespoke legal advice is commissioned from the Home Office Legal Advisers Branch, Treasury Solicitor or independent Counsel as required.

Home Office Presenting Officers, who appear for the Secretary of State in the vast majority of represented appeals before the Asylum and Immigration Tribunal, are not required to hold a legal qualification.

No data are held on whether staff employed by UK Border Agency hold these qualifications.

UK Border Agency: Standards

Jenny Willott: To ask the Secretary of State for the Home Department what mechanisms are in place to ensure the consistency of immigration application decisions taken by different UK Border Agency offices; and if he will make a statement. [316332]

Mr. Woolas: The Department has in place a number of measures designed to ensure the consistency of asylum decisions. All applications are considered against centrally produced guidance and new caseowners receive uniform national training before they begin to deal with cases. Audit and quality control processes are in place and issues arising from the audits are promulgated nationally every month. Consistency is promoted through regular meetings of both regional asylum managers and senior asylum caseworkers who use a variety of networks to help ensure that best practice is shared and promoted nationwide.

UK Border Agency: Termination of Employment

Jenny Willott: To ask the Secretary of State for the Home Department how many and what proportion of UK Border Agency case owners based in Cardiff have had their contracts terminated for each reason in each of the last five years; and if he will make a statement. [316218]

Mr. Woolas: UK Border Agency staffing data are held by grade and not by role. So it is not possible to answer the question as asked. In respect of all staff in Cardiff, contracts have been terminated as follows:

Termination of contract in Cardiff

	Number
2009-10	10
2008-09	5
2007-08	0
2006-07	5
2005-06	0

Jenny Willott: To ask the Secretary of State for the Home Department how many and what proportion of UK Border Agency case owners had their contracts terminated for each reason in each of the last five years; and if he will make a statement. [316219]

Mr. Woolas: UK Border Agency staffing data are held by grade and not by role. So it is not possible to answer the question as put. In respect of staff across the agency, contracts have been terminated as follows:

Leaving reason	*2005-06*	*2006-07*	*2007-08*	*2008-09*	*2009-10*
Discharge on inefficiency grounds during a probationary or trial period	[1]—	10	6	[1]—	[1]—
Dismissal for inefficiency with compensation	12	16	19	25	21
Dismissal for inefficiency without compensation	25	11	31	21	8
Dismissal on disciplinary grounds with compensation	[1]—	[1]—	[1]—	7	[1]—
Dismissal on disciplinary grounds without compensation	25	26	41	36	38
End of Contract HO	[1]—	12	54	190	781
Gross Misconduct	[1]—	11	[1]—	[1]—	0
Total	76	88	156	284	853

[1] Five or less.

UK Border Agency: Training

Jenny Willott: To ask the Secretary of State for the Home Department what *(a)* equality and *(b)* cultural awareness training is (i) compulsory and (ii) made voluntarily available for UK Border Agency employees; and if he will make a statement. [316216]

Mr. Woolas: A range of learning vehicles on equality and cultural awareness are available to UK Border Agency staff. These can be delivered by e-learning, workshops and DVDs. All permanent UKBA staff are required to complete diversity e-learning.

Vandalism

Mr. Ruffley: To ask the Secretary of State for the Home Department how many incidents of vandalism have been reported in *(a)* England, *(b)* Suffolk, *(c)* Bedfordshire, *(d)* Cambridgeshire, *(e)* Essex, *(f)* Hertfordshire and *(g)* Norfolk in each year since 1997. [314884]

Mr. Alan Campbell: The available information relates to offences of criminal damage recorded by the police and is given in the following tables.

Table 1: Offences of criminal damage recorded in selected police force areas, 1997

Police force area	*Number of offences*
England	822,029
Suffolk	7,835
Bedfordshire	8,025
Cambridgeshire	9,250
Essex	18,845
Hertfordshire	9,831
Norfolk	9,782

Table 2: Offences of criminal damage recorded in selected police force areas, 1998-99 to 2001-02[1, 2]

Police force area	*1998-99*	*1999-2000*	*2000-01*	*2001-02*
				Number of offences
England	823,520	890,756	906,800	1,007,634
Suffolk	7,898	9,547	10,150	12,095
Bedfordshire	7,893	8,048	7,892	8,191
Cambridgeshire	11,925	12,110	13,197	13,972
Essex	18,834	21,766	24,673	26,990
Hertfordshire	10,177	11,560	13,839	15,302
Norfolk	10,393	10,978	11,481	13,065

[1] The coverage was extended and counting rules revised from 1998-99. Figures from that date are not directly comparable with those for 1997.

[2] The data in this table is prior to the introduction of the National Crime Recording Standard in April 2002. These figures are not directly comparable with those for later years.

Table 3: Offences of criminal damage recorded in selected police force areas, 2002-03 to 2008-09[1]

Police force area	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*2007-08*	*2008-09*
							Number of offences
England[2]	1,043,197	1,139,308	1,120,426	1,107,645	1,106,543	965,932	870,684
Suffolk	11,497	12,817	12,781	13,067	13,084	12,207	11,300
Bedfordshire	10,050	11,065	10,561	10,817	10,717	10,141	8,720
Cambridgeshire	16,153	16,534	16,227	14,680	13,987	14,001	12,980
Essex	30,337	34,253	32,406	30,564	30,010	26,379	23,554
Hertfordshire	17,988	19,887	20,762	20,986	20,713	17,374	14,999
Norfolk	16,030	17,462	17,470	17,577	17,258	14,790	12,647

[1] The data in this table takes account of the introduction of the National Crime Recording Standard in April 2002. These figures are not directly comparable with those for earlier years.

[2] Excluding British Transport police.

Yarl's Wood Detention Centre: Hunger Strikes

John Hemming: To ask the Secretary of State for the Home Department what reports he has received on *(a)* an ongoing hunger strike by women at Yarl's Wood immigration removal centre and *(b)* the reasons given by those women for taking that action; and if he will make a statement. [317379]

Mr. Woolas: The director of detention services and his staff have kept me fully informed about the passive protest by women at Yarl's Wood and continue to do so.

The protest has included a number of women refusing to eat meals provided in the canteen, although a number of them continue to purchase food made available in the shop and vending machines.

The well-being of the women is being monitored closed by health care officials in the centre and none are showing any signs of concern.

While each resident will have their own personal reasons for joining the protest, they are in general objecting to their detention. The UK Border Agency aims to keep detention to a minimum in order to enforce the removal of those with no basis of stay in the UK or whose deportation is required to protect the public from the harm they pose. It is a fact that detainees themselves often prolong their own detention by making late spurious appeals and failing to comply with the documentation and removal process.

Written Answers to Questions

Tuesday 23 February 2010

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Animal Tracing Schemes

Mr. Harper: To ask the Secretary of State for Environment, Food and Rural Affairs if he will hold discussions with the Secretary of State for Health in order to merge the Food Standards Agency's livestock traceability scheme with his Department's animal tracing schemes. [316825]

Jim Fitzpatrick: There are no plans to merge the livestock traceability work undertaken by DEFRA and the Food Standards Agency although DEFRA and the agency continue to collaborate closely. For example, Food Standards Agency official veterinarians already make use of documentation required under DEFRA's livestock identification and movement regulations in checking the origin and identity of livestock entering slaughterhouses for human consumption.

Dangerous Dogs

Chris Grayling: To ask the Secretary of State for Environment, Food and Rural Affairs how many people have *(a)* been prosecuted under the Dangerous Dogs Act 1991 and *(b)* received the maximum sentence for ownership of a banned dog in each year since 1998; and how many weapon dogs have been seized by police in England and Wales in each of those years. [314771]

Jim Fitzpatrick: The number of defendants proceeded against at magistrates courts and found guilty at all courts and those fined and given immediate custody under the Dangerous Dogs Act 1991, England and Wales, from 1998 to 2008 (latest available) can be viewed in the following table.

Data for 2009 are expected to be published in the autumn of 2010.

Figures for the number of dogs seized under the Dangerous Dogs Act 1991 are not collected centrally.

The number of defendants proceeded against at magistrates courts and found guilty at all courts under the Dangerous Dogs Act 1991, England and Wales, 1998 to 2008[1,2]

		Defendants

	Found guilty	8	5	13	14	7	10	5	9	11	15	10
Offences in relation to dogs under Dangerous Dogs Act Section 4(8) and Protection of Badgers Act 1992 Section 13	Proceeded against	6	30	23	39	29	20	22	16	12	10	14
	Found guilty	6	18	16	31	23	12	18	9	4	5	11
Total	Proceeded against	764	802	823	886	922	988	990	1,025	1,077	1,193	1,247
	Found guilty	406	442	446	522	517	531	582	625	668	782	889

[1] The statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[3] Staffordshire Police Force were only able to submit sample data for persons proceeded against and convicted in the magistrates' courts for the year 2000. Although sufficient to estimate higher orders of data, these data are not robust enough at a detailed level and have been excluded from the table.

[4] Excludes convictions for Cardiff magistrates court for April, July and August 2008.

Evidence and Analysis Unit, Ministry of Justice

Fish

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what his estimate is of the proportion of fish procured by the public sector which has stewardship council certification; [318031]

(2) which public sector organisations have implemented the public sector procurement initiative guidance on procuring sustainable fish to date. [318032]

Huw Irranca-Davies: Data from the 2007-08 financial year as reported in the publication 'Proportion of domestically produced food used by Government Departments and also supplied to hospitals and prisons under contracts negotiated by NHS Supply Chain and National Offender Management Service (previously HM Prison Service)' show that of the 18 Departments for which we have information, five source 100 per cent. of fish from managed sources and a further seven source 70 per cent. or more of their fish from managed sources. The average of the figures provided is 70 per cent.. A 'managed source' is defined here as managed and harvested in ways that do not lead to over-fishing or depletion of exploited populations, e.g. are covered under standards and schemes such as organic certification and Marine Stewardship Council.

The Departments which reported more than 70 per cent. of fish from managed sources were: DCMS, DCSF, DEFRA, DFID, DCLG, BIS, DFT, DWP, HMT, MOJ, NHS Supply Chain, MOD.

Data on the use of the guidance by wider public sector are not available.

Parrots: Animal Welfare

Mr. Greg Knight: To ask the Secretary of State for Environment, Food and Rural Affairs what minimum standards and size of caging his Department has set for parrots under the Animal Welfare Act 2006. [317532]

Jim Fitzpatrick: There are no minimum cage sizes for parrots under the Animal Welfare Act 2006. Under the Act owners must provide for the welfare needs of their animals and this includes a suitable environment.

Seas and Oceans: Environment Protection

Mr. Boswell: To ask the Secretary of State for Environment, Food and Rural Affairs what steps his Department is taking to improve the *(a)* coverage and *(b)* consistency of its long-term monitoring of the marine environment. [317959]

Huw Irranca-Davies: In response to the recommendations from 'Charting Progress', the Government's State of the Seas Report published in 2005, the UK Marine Monitoring and Assessment Strategy (UKMMAS) was created. The UKMMAS comprises of approximately 250 stakeholders from more than 20 organisations, including Government Departments and devolved Administrations, and has developed a co-ordinated approach to marine monitoring across the UK as a whole.

UKMMAS co-ordinates and brings together data, including that of long-term monitoring, from a large variety of sources. It is currently involved in producing 'Charting Progress 2'—the second integrated assessment of the state of UK seas, which is internationally peer-reviewed. This is scheduled for publication in July 2010.

DEFRA also funds a number of research projects and data initiatives, some of which have helped continue important data series so that we can make assessments of marine trends over time and monitor progress. One such project, funded since 2002, is the Marine Environmental Change Network (MECN). The network consists of UK and Isle of Man organisations working together to collect long-term time series information for marine waters. It also brings together scientists working on various components of marine ecosystems, enabling them to share data and carry out more robust analysis of trends. One of the project aims is to be able to analyse marine environmental change over long periods and determine what is being driven by humans (anthropogenic change) and what change is due to natural variation.

The Government have recently published the first UK Marine Science Strategy, produced by the Marine Science Co-ordination Committee (MSCC). The strategy recognises the key importance of sustained observations to marine science and includes a commitment by the Committee to work with others to develop a prioritisation framework to ensure the provision of secure, long-term data sets. This action is being taken forward by the MSCC's Long-Term Monitoring Working Group.

NORTHERN IRELAND

Departmental Disabled Staff

Mr. Harper: To ask the Secretary of State for Northern Ireland how many and what proportion of staff in *(a)* his Department and *(b)* the executive agencies for which he is responsible are disabled; and what the average salary in (i) his Department and (ii) the executive agencies is of (A) full-time disabled staff, (B) full-time non-disabled staff, (C) part-time disabled staff and (D) part-time non-disabled staff. [317895]

Paul Goggins: A total of 49 staff (3.4 per cent.) in the Northern Ireland Office (NIO) and 36 staff (4.2 per cent.) in its executive agencies have advised the Department that they have a disability.

The following table gives details the average basic salary costs for all general service staff in the NIO. Staff are paid in line with the pay scale for each grade irrespective of whether or not they have a disability. All staff who work reduced hours receive a pro-rata amount based on hours worked.

Grade	*Northern Ireland civil servants*	*Home civil servants*
		£
SCS (Pay Band 1)	66,728	66,728
Grade A	44,741	44,568
Grade B1	33,475	34,360
Grade B2	26,729	27,013
Grade C	21,048	22,064
Grade D1	15,878	16,385
Grade D2	13,401	14,214
Industrial	14,034	n/a

HEALTH

Smoking Ban

15. **Philip Davies:** To ask the Secretary of State for Health whether he plans to extend the areas in which the smoking ban operates. [317485]

Gillian Merron: We have no plans at present to extend the areas required to be smoke free in accordance with the Health Act 2006.

We gave a commitment to review the smoke free law after three years and that review will be carried out later this year.

Breast Cancer Research

16. **Martin Linton:** To ask the Secretary of State for Health what plans he has for the future funding of breast cancer research; and if he will make a statement. [317486]

Ann Keen: The Government (along with their research partners) invest substantially in breast cancer research. That investment will continue.

NHS Treatment: Waiting Times

17. **Hugh Bayley:** To ask the Secretary of State for Health what the median waiting time was for *(a)* in-patient and *(b)* out-patient NHS treatment (i) in 2005 and (ii) on the latest date for which figures are available. [317487]

Mr. Mike O'Brien: The median waiting time for in-patient admissions was 8.5 weeks in March 2005, and 4.9 weeks in December 2009, which is the latest date for which figures are available. The median waiting time for first out-patient appointment in March 2005 was 4.8 weeks, and 3.4 weeks in December 2009.

Respite Care

18. **Tony Baldry:** To ask the Secretary of State for Health what recent assessment he has made of the extent to which primary care trusts use funding provided to them for respite care for carers. [317488]

Phil Hope: The Department of Health does not determine how PCTs spend their money. It is for primary care trusts (PCTs) to decide their priorities for investment locally, taking into account their local circumstances and priorities as set out in the NHS Operating Framework.

However, the Department's Directors of NHS Performance and Adult Social Care Performance recently wrote to Strategic Health Authority Directors of Performance asking them to identify those PCTs that have agreed with their local authority to prioritise carers' support for the current year and those that are likely to prioritise it for the next year. The information will help ensure we have a rounded picture when considering the priority afforded carers in future planning rounds. I am placing a copy of the letter in the Library in the House.

NHS Service Provision

19. **Mr. Carswell:** To ask the Secretary of State for Health what his policy is on the balance between public and private sector provision of NHS services; and if he will make a statement. [317489]

Mr. Mike O'Brien: There is no target for the balance between public or private provision of NHS services. The balance must be driven by the best interests of patients and citizens. The NHS is the preferred provider, but we recognise the important contribution of the independent and third sectors where they can add capacity, drive up quality, increase patient choice and enable innovation.

Alcoholic Drinks: Pricing

20. **Michael Fabricant:** To ask the Secretary of State for Health what recent assessment his Department has made of the effect of the pricing of alcoholic drinks on the level of alcohol abuse; and if he will make a statement. [317490]

Gillian Merron: In 2008, an independent review by Sheffield university found a link between cheap alcohol, increased consumption and harm.

We are determined to take action while respecting the rights of responsible consumers and are doing further research.

We are already banning the worst irresponsible promotions such as 'all you can drink for £10'.

Health Protection Agency: Product Registration

21. **Robert Key:** To ask the Secretary of State for Health whether registration of products manufactured by the Health Protection Agency at the Centre for Emergency Preparedness and Response at Porton Down is tied to the site of manufacture. [317491]

Gillian Merron: The address of the registration holder for a medicinal product licence and the address for the site of manufacture can be, and often are, different. Either address can be changed using the formal process of a variation submission to the Medicines and Healthcare products Regulatory Agency, the Department's medicines agency.

National Curriculum: First Aid Training

22. **Bob Russell:** To ask the Secretary of State for Health what recent discussions he has had with the Secretary of State for Children, Schools and Families on the introduction of first aid training as part of the national curriculum. [317492]

Ann Keen: We have had no recent discussions with the Secretary of State for Children, Schools and Families.

The Secretary of State for Children, Schools and Families announced on 28 April 2009 that personal, social, health and economic (PSHE) education will form part of the statutory curriculum from 2011.

Under the current non-statutory provisions, at key stages 1 and 2 children learn about some basic aspects of first aid; the programme of study for PSHE at key stage 3 includes ways of recognising and reducing risk, minimising harm and getting help in emergency and risky situations; at key stage 4 it includes how to use basic and emergency first aid. It is for schools to retain flexibility over how topics included within PSHE should be delivered to meet the needs of their pupils.

Nursing Care

24. **Bob Spink:** To ask the Secretary of State for Health what steps he plans to take to improve standards of nursing care in hospitals. [317494]

Ann Keen: We have developed a number of important systems to improve the standard of nursing care in hospitals including the introduction of senior clinical roles such as modern matrons and nurse consultants. These are having a real impact, as patient surveys continue to demonstrate.

Melanoma

25. **Jeff Ennis:** To ask the Secretary of State for Health how many patients in England were diagnosed with melanoma between 1997 and 2007. [317495]

Ann Keen: Between 1997 and 2007, there were 74,967 newly diagnosed cases of melanoma in England.

Asthma: Drugs

Bob Spink: To ask the Secretary of State for Health what proportion of medication prescribed could be used to treat asthma-related conditions in each of the last five years. [316987]

Mr. Mike O'Brien: The table provides the number of prescription items dispensed in the community, in England, overall, together with the number for asthma drugs and the percentage this represents of overall drugs dispensed.

Number of prescription items dispensed in the community, in England, for drugs used to treat asthma, as defined in the British National Formulary (BNF)

Calendar year	Number of items dispensed overall (thousand)	Number of items of asthma drugs (thousand)	Percentage of total items dispensed used to treat asthma (percentage)
2004	686,138.9	37,385.6	5.4
2005	720,283.2	38,232.0	5.3
2006	751,954.1	38,869.5	5.2
2007	796,298.0	40,112.2	5.0
2008	842,502.2	42,366.4	5.0

Source:
Prescription Cost Analysis (PCA) system

Asthma drugs are defined as those listed within BNF sections 3.1.1 Adrenoceptor agonists, 3.1.2 Antimuscarinic bronchodilators, 3.1.3 Theophylline, 3.2 Corticosteroids, 3.3.1 Cromoglicate and related therapy, 3.3.2 Leukotriene receptor antagonists and 3.4.2 Allergen Immunotherapy. Some of these medicines are also indicated for conditions other than asthma.

Autism: Health Services

Mr. Touhig: To ask the Secretary of State for Health what recent representations he has received in relation to his proposed autism strategy. [318141]

Phil Hope: My right hon. Friend the Secretary of State (Andy Burnham) and I have recently and independently met Mark Lever, chief executive of the National Autistic Strategy and Chair of the External Reference Group, and the hon. Member for Chesham and Amersham (Mrs. Gillan) to discuss the development of the autism strategy.

Departmental Disabled Staff

Mr. Harper: To ask the Secretary of State for Health how many and what proportion of staff in *(a)* his Department and *(b)* the executive agencies for which he is responsible are disabled; and what the average salary in (i) his Department and (ii) the executive agencies is of (A) full-time disabled staff, (B) full-time non-disabled staff, (C) part-time disabled staff and (D) part-time non-disabled staff. [317892]

Phil Hope: The information requested was published in the Annual Civil Service Employment Survey (ACSES) statistics produced by the Office for National Statistics on 20 January 2010. This can found at:

www.statistics.gov.uk/pdfdir/cs0110.pdf

The relevant Annexes of the document have been placed in the Library.

Because disability is voluntarily self-reported and the fact that there is a subset of civil servants whose disability status is unknown or undeclared, care should be exercised when drawing conclusions based on these statistics.

Care should also be exercised when making comparisons of salaries between part-time and full-time disabled and non-disabled staff. For example, a simple comparison of median salary by disability status and working pattern does not take account of the different responsibility levels of the individuals concerned.

Drugs: Alcoholic Drinks

Mr. Dai Davies: To ask the Secretary of State for Health what assessment he has made of the effect on health of the combination of polydrug and alcohol abuse by those under the age of 18 years old. [317552]

Gillian Merron: The health effects of drug use, including polydrug use, and alcohol abuse are set out in the 2008 Drug Strategy, "Drugs: protecting families and communities" and can be found on the Home Office website at:

http://drugs.homeoffice.gov.uk/drug-strategy/overview/

This includes greater levels of ill-health or risk-taking behaviour leading to accidents, infection or pregnancy, with the potential for mental health problems and psychosis, developmental damage and even overdose or death.

Health Services: Derby

Mr. Todd: To ask the Secretary of State for Health what work the Co-operation and Competition Panel is carrying out in relation to proposals for the re-organisation of community services in Derby; and if he will make a statement. [317002]

Mr. Mike O'Brien: We understand that the Co-operation and Competition Panel (CCP) is not undertaking any work in relation to proposals for the re-organisation of community services in Derby, following Derby City primary care trust's decision to revise its plans for divestment of community services and therefore to withdraw its merger notification. Up-to-date details of the casework currently under investigation by the CCP are available on its website at:

www.ccpanel.org.uk

NHS: Expenditure

Mr. Davey: To ask the Secretary of State for Health what indications for planning purposes his Department has given to strategic health authorities in England for NHS spending for the next *(a)* three and *(b)* five years in (i) cash and (ii) real terms; and what assumptions have been made for (A) inflation and (B) efficiency savings. [317988]

Mr. Mike O'Brien: The Department set out financial planning assumptions for the national health service in the NHS "Operating Framework for England 2010-11" published in December 2009. A copy of this has already been placed in the Library.

As an interim step, the 2009 pre-Budget report announced that value for money savings of around £10 billion per year will be delivered by 2012-13 through the work under way within the NHS, and through the Public Value Programme (PVP), Operational Efficiency Programme (OEP), and other value for money initiatives.

"NHS 2010-2015: From Good to Great" set out the approach to identifying and delivering these savings.

The Department bases its assumptions about general inflation on the forecasts which HM Treasury publishes for the gross domestic product (GDP) deflator on its website. The following table sets out HM Treasury forecasts for GDP deflator increases at the pre-Budget report 2009 for 2010-11 to 2013-14.

Financial year	*Forecast GDP deflator (Percentage)*
2010-11	2¾
2011-12	1½
2012-13	2½
2013-14	2¾

Strokes: Health Services

Sir Nicholas Winterton: To ask the Secretary of State for Health if he will make it his policy to implement the proposals of the English Stroke Strategy on psychological support and regular reviews for everyone who has had a stroke. [317928]

Ann Keen: The National Stroke Strategy, published in 2007, recognised the need to develop long-term psychological and emotional support for stroke survivors with a co-ordinated approach across health and social care. To accelerate improvements in stroke care, the Department's National Quality Board has established a sub-group that will focus on joint working across the health and social care interface and on improving access to psychological support across all long-term conditions including stroke.

Strokes: Mental Health

Mr. Dismore: To ask the Secretary of State for Health what estimate he has made of the number of cases of *(a)* stroke, *(b)* dementia and *(c)* depression per 1,000 of the population; and in how many such cases the consumption of alcohol is estimated to be a direct causal factor. [316297]

Gillian Merron: No estimate has been made of the number of cases of stroke, dementia, depression, heart disease or cancer of the mouth, oesophagus, larynx or breast per 1,000 of the population.

WOMEN AND EQUALITY

Departmental ICT

Mr. Hurd: To ask the Minister for Women and Equality how much the *(a)* Government Equalities Office and *(b)* Equality and Human Rights Commission has spent on font licensing since its creation. [315533]

Michael Jabez Foster: Neither *(a)* the Government Equalities Office or *(b)* the Equality and Human Rights Commission has incurred expenditure on font licensing.

Departmental Information Officers

Grant Shapps: To ask the Minister for Women and Equality how many *(a)* press officers and *(b)* communications staff were employed by the Government Equalities Office in each year since it was established; and what the cost of employing these staff was in each such year. [309928]

Michael Jabez Foster: The number of staff employed and salary costs since GEO was established in October 2007 are set out in the table. These numbers reflect staff changes during the years, including a number of temporary press officers on short-term contracts while recruitment exercises were undertaken. A more meaningful figure is the number of press officer and communications staff posts and these are shown in brackets.

GEO Division	*Press officers*	*Communications staff*
2007-08[1]		
Number of staff	3(2)	3(3)
Total salary costs (£)	5,738	19,064
2008-09		
Number of staff	5(3)	8(3)
Total salary costs (£)	151,038	187,954
2009-10[2]		
Number of staff	8(6)	6(4)
Total salary costs (£)	213,708	185,652

[1] 12 October 2007 to 31 March 2008

[2] As at 31 December 2009

On its establishment in October 2007 the GEO supported two Ministers. The GEO now supports four Ministers and the increase in the number of press and communications posts since March 2009 reflects this.

Departmental Pay

Dr. Cable: To ask the Minister for Women and Equality pursuant to the answer of 24 November 2009, *Official Report*, column 57W, on departmental pay, how many staff in the Department received both an annual performance bonus and an in-year bonus in 2008-09; what proportion of the total workforce they represented; what the largest combined bonus payment to an individual was; and who was responsible for awarding such bonuses. [313125]

Michael Jabez Foster: In the financial year 2008-09, 10 GEO members of staff received both an in-year bonus and an annual performance bonus. This total represented 9.5 per cent. of the total work force. The highest combined total awarded was £1,250. Special bonuses are agreed by GEO's senior management team through nominations made by line managers. Annual performance bonuses are agreed through the Department's end of year staff reporting process.

CABINET OFFICE

Cancer

Mr. Dismore: To ask the Minister for the Cabinet Office (1) what estimate she has made of the number of people per 1,000 expected to develop cancer of the *(a)* mouth, *(b)* oesophagus and *(c)* larynx; and in how many such cases the consumption of alcohol is expected to be a direct causal factor; [316298]

(2) what estimate she has made of the number of people per 1,000 expected to develop *(a)* breast cancer and *(b)* heart disease; and in how many such cases the consumption of alcohol is expected to be a direct causal factor. [316299]

Gillian Merron: I have been asked to reply.

No estimate has been made of the number of cases of stroke, dementia, depression, heart disease or cancer of the mouth, oesophagus, larynx or breast per 1,000 of the population.

TREASURY

Alcoholic Drinks: Fraud

Mr. Dismore: To ask the Chancellor of the Exchequer what the estimated total cost is of delivering the alcohol fraud strategy. [316990]

Sarah McCarthy-Fry: Estimates of expenditure on activity to tackle alcohol fraud in 2007-08 and 2008-09 total approximately £22 million. The projected cost for 2009-10 indicates an increase in HMRC and UKBA expenditure of around 12 per cent., to approximately £25 million. This reflects the introduction of new enforcement capabilities, such as specialist teams to carry out civil investigations of fraud, and the establishment of a dedicated inland detection force.

Mr. Dismore: To ask the Chancellor of the Exchequer what assessment has been made of links between alcohol fraud and serious organised crime. [316992]

Sarah McCarthy-Fry: There are no estimates available for the proportion of alcohol duty losses attributable to serious organised crime, compared to other forms of fraud. However, HMRC assessments of the threats to the alcohol regime suggest that organised criminality has become a significant element in the fraud. HMRC's response, with other law enforcement agencies, is to target these criminals and the networks through which they operate to disrupt, dismantle, penalise and wherever possible prosecute those involved.

Mr. Dismore: To ask the Chancellor of the Exchequer what assessment has been made of the relationship between the levels of alcohol duties and levels of alcohol fraud. [316993]

Sarah McCarthy-Fry: No assessment has been made of the relationship between the levels of alcohol duties and levels of alcohol fraud.

Departmental Disabled Staff

Mr. Harper: To ask the Chancellor of the Exchequer how many and what proportion of staff in *(a)* his Department and *(b)* the executive agencies for which he is responsible are disabled; and what the average salary in (i) his Department and (ii) the executive agencies is of (A) full-time disabled staff, (B) full-time non-disabled staff, (C) part-time disabled staff and (D) part-time non-disabled staff. [317905]

Sarah McCarthy-Fry: The information requested can be found in the Annual Civil Service Employment Survey (ACSES) published by the Office for National Statistics on 20 January 2010 and available at:

http://www.statistics.gov.uk/pdfdir/cs0110.pdf

Departmental Manpower

Mr. Philip Hammond: To ask the Chancellor of the Exchequer how many layers of management reporting from the most senior to the most junior there are in his Department and each of its agencies; how many officials are employed in each such layer; and how much was spent on salaries and associated employment costs of staff at each such layer in the latest year for which information is available. [312818]

Sarah McCarthy-Fry: HM Treasury and the Office of Government Commerce operate pay ranges in line with civil service guidelines. Staff at all layers within each organisation's pay grading structure may have management responsibilities, except those at the lowest grade; not all staff in any pay grade will have management responsibilities. Where data relate to fewer than five staff, pay ranges have been combined. The UK Debt Management Office does not use comparable pay ranges.

The following tables give the information requested for HM Treasury, the Office of Government Commerce and the UK Debt Management Office, showing the number of posts at each management grade or level.

Table 1: HM Treasury full-time equivalent staff by pay range as at April 2009 (annualised costs)

	Staff (FTE)	*Cost (£ million)*
Perm Sec and SCS 3	7.0	1.1
SCS 2	18.9	2.4
SCS 1	81.9	7.9
Range E	376.0	22.9
Range D	439.0	15.4
Range C	162.0	4.9

Table 2: Office of Government Commerce 2008-09 average full-time equivalent staff by pay range

	Staff (FTE)	*Cost (£ million)*
Perm Sec, SCS3 and SCS 2	5.6	1.0
SCS 1	23.6	2.9
Band 6	54.2	4.3
Band 5	63.8	3.9
Band 4	37.4	1.7
Band 3	28.8	1.0
Band 2	19.7	0.6

Table 3: UK Debt Management Office average full-time equivalent permanent staff 2008-09 average by management level

	Staff (FTE)	*Cost (£ million)*
Executive board members	<5	0.6
Team leaders	16.6	1.7

Departmental Travel

Mr. Watson: To ask the Chancellor of the Exchequer if he will publish the travel guidance issued to staff of each of his Department's agencies and non-departmental public bodies. [314927]

Sarah McCarthy-Fry: Copies of the travel and subsistence guidance covering HM Treasury and the Office of Government Commerce and the Debt Management Office have been deposited in the Library of the House.

Government Car and Despatch Agency

Grant Shapps: To ask the Chancellor of the Exchequer how much his Department paid to the Government Car and Despatch Agency in each of the last five years; how much it has spent on such payments in 2009-10; and what proportion of such payments was made in respect of the Government Car Service. [316422]

Sarah McCarthy-Fry: Costs to Departments of ministerial cars are reported annually to Parliament by my right hon. Friend the Secretary of State for Transport through written ministerial statements and are available in the Libraries of the House.

Details of spending on other GCDA services for the five years prior to 2009-10 are £5,669 (2008-09), £5,329 (2007-08), £4,804 (2006-07), £5,505 (2005-06) and £6,611 (2004-05). Figures for spending in 2009-10 will be available following the publication of the audited accounts.

Inheritance Tax: Glasgow

John Mason: To ask the Chancellor of the Exchequer how much the Treasury received from inheritance tax from estates in Glasgow East constituency in the last five years. [316754]

Mr. Timms: The information requested is not available at a sub-regional level. Inheritance tax data are based on a UK-wide sample of cases which is designed to produce national level figures and the size of the sample means that we could not currently estimate tax receipts reliably at constituency level.

Inheritance Tax: Perthshire

Pete Wishart: To ask the Chancellor of the Exchequer how much the Exchequer received from inheritance tax from estates in Perth and North Perthshire constituency over the last five years. [317921]

Mr. Timms: The information requested is not available at a sub-regional level. Inheritance tax data are based on a UK-wide sample of cases which are designed to produce national level figures and the size of the sample means that we could not currently estimate tax receipts reliably at constituency level.

National Insurance Contributions: Local Government

Robert Neill: To ask the Chancellor of the Exchequer pursuant to the answer to the hon. Member for Peterborough of 27 January 2010, *Official Report*, column 918W, on national insurance contributions: local government, what estimate he has made of the likely change to revenue to the Exchequer arising from changes to national insurance contributions for local government employees in each of the next three years. [317872]

Mr. Timms: Information requested is available only at disproportionate cost, due to the work required to provide it.

The Exchequer effect of the announced changes to the national insurance system for the next three years can be found in the 2008 pre-Budget report in Table 1.2 Estimated costs for pre-Budget report policy decisions and others announced since Budget 2008 and the equivalent table in the 2009 pre-Budget report, are available at:

http://www.hm-treasury.gov.uk/d/pbr08_chapter1_379.pdf

and

http://www.hm-treasury.gov.uk/d/pbr09_chapter1.pdf

respectively.

Non-Domestic Rates

Robert Neill: To ask the Chancellor of the Exchequer how many hereditaments were deleted from the Valuation Office Agency's rating list due to demolition in each of the last five years. [317881]

Ian Pearson: The Valuation Office Agency intends to publish by 31 May 2010 information relating to movement within the 2005 rating lists, including the number of properties deleted due to demolition.

Stamp Duty Land Tax

Angus Robertson: To ask the Chancellor of the Exchequer how much the Exchequer received from stamp duty land tax in each *(a)* parliamentary constituency, *(b)* local authority area and *(c)* postcode area in (i) 2008 and (ii) 2009. [318003]

Mr. Timms: Estimates of stamp duty land tax receipts by UK parliamentary constituency are published at:

http://www.hmrc.gov.uk/stats/stamp_duty/table15-5-0708.pdf

and

http://www.hmrc.gov.uk/stats/stamp_duty/table15-5-0809.pdf

for 2007-08 and 2008-09 respectively.

Estimates of stamp duty land tax receipts by UK local authority are published at:

http://www.hmrc.gov.uk/stats/stamp_duty/table15-4-0708.pdf

and

http://www.hmrc.gov.uk/stats/stamp_duty/table15-4-0809.pdf

for 2007-08 and 2008-09 respectively.

Estimates of stamp duty land tax receipts by parliamentary constituency and local authority for 2009-10 will be published in September.

Stamp duty land tax receipt estimates by postcode area could be produced only at disproportionate cost.

Valuation office

Richard Younger-Ross: To ask the Chancellor of the Exchequer if he will direct the Valuation Office Agency to take steps to reduce the financial effects on port businesses of its retrospective revaluation of hereditaments in ports. [316868]

Ian Pearson: The Valuation Office Agency (VOA) has a statutory duty to maintain the rating lists. When the VOA becomes aware a change is needed they are under an obligation to take action to alter the rating list in accordance with the legislation. It would be inappropriate for the Agency to be directed to not undertake its statutory obligation.

The Government have listened to the concerns of businesses with significant and unexpected backdated bills, including some businesses within ports. They have legislated to enable such bills to be repaid over an unprecedented eight years rather than in a single instalment, helping affected businesses to manage the impact on their cash flows during the downturn by reducing the amount they are required to pay now.

VAT

Mr. Dismore: To ask the Chancellor of the Exchequer (1) what his most recent estimate is of the revenue lost in a year through the non-payment of value added tax and excise duty on *(a)* wine, *(b)* spirits and *(c)* tobacco; [316988]

(2) what his latest estimate is of the proportion of wine in the UK market which is sold fraudulently without value added tax and excise duty having been paid. [316989]

Sarah McCarthy-Fry: The Department does not currently have an estimate for the level of fraud in wine.

The most recent estimate of the revenue lost for spirits and tobacco was published in "Measuring Tax Gaps—2009" in November 2009 and is available in the House of Commons Library and can be found on the internet at:

http://www.hmrc.gov.uk/stats/measuring-tax-gaps.htm

Welfare Tax Credits: Overpayments

Steve Webb: To ask the Chancellor of the Exchequer how much the Adjudicator's Office has recommended in relation to tax credit cases that HM Revenue and Customs *(a)* pay in compensation to claimants, *(b)* forgo in tax and interest and *(c)* write off in overpaid tax credits since March 2008. [317178]

Mr. Timms: From 1 April 2008 the Adjudicator's Office recommended that HMRC pay £280,093 in compensation relating to tax credit cases and recommended £3,523,457 of overpayment to be written off. Interest is not generally chargeable on tax credit cases. The Adjudicators Office has not made recommendations with regard to forgoing tax or interest in relation to tax credit cases.

TRANSPORT

A1(M): Hatfield

Mr. Greg Knight: To ask the Minister of State, Department for Transport when he expects the refurbishment of the Hatfield tunnel on the A1(M) to be completed, with all carriageways open and the temporary speed restriction removed. [317522]

Chris Mole: The refurbishment of the Hatfield Tunnel on the A1(M) is expected to be completed, with all carriageways open and the temporary restrictions removed, by May 2011.

Pilots: Licensing

Mr. Todd: To ask the Minister of State, Department for Transport what plans he has to maintain the quality of pilot licensing within a single European qualification. [318524]

Paul Clark: The European Aviation Safety Agency is now responsible for establishing the standards for pilot licensing in the EU. EASA consulted on draft implementing rules on pilot licensing in 2008. The Department for Transport and the Civil Aviation Authority have responded to this consultation. The draft implementing rules were largely based on existing standards and are not intended to alter the quality of pilot licensing. The United Kingdom is represented on the EU committee which will agree the final rules.

The national aviation authorities of member states will continue to be responsible for issuing pilots' licences. They will be subject to standardisation audits by EASA to ensure that implementing rules are correctly applied.

Roads: Snow and Ice

Mrs. Villiers: To ask the Minister of State, Department for Transport how many local councils received extra supplies of *(a)* salt and *(b)* grit from the Salt Cell's reallocation of supplies in the last two months; and how much was supplied to each of them. [316886]

Mr. Khan: From 6 January the Salt Cell has provided advice to salt suppliers on how to prioritise deliveries. This advice is based upon information provided by highway authorities on their stock levels and weather forecasts from the Met Office. However, it is a matter for the salt suppliers to decide what deliveries they make.

Mrs. Villiers: To ask the Minister of State, Department for Transport how much road *(a)* salt and *(b)* grit was imported in each of the last 12 years. [316889]

Mr. Khan: This information is not collected centrally.

SCOTLAND

Disabled

Mr. Harper: To ask the Secretary of State for Scotland how many and what proportion of staff in his Department are disabled; and what the average salary in his Department is of *(a)* full-time disabled staff, *(b)* full-time non-disabled staff, *(c)* part-time disabled staff and *(d)* part-time non-disabled staff. [317896]

Ann McKechin: Staff in the Scotland Office are on secondment from the Scottish Executive or on assignment from the Ministry of Justice (MoJ) who retain any self-declared and voluntary information on disability. The Office's annual report for 2008-09 indicates that we have a small number of staff with disabilities but, for privacy reasons, the actual numbers are considered confidential.

Details on average salaries of staff are not available in the form requested.

WALES

Devolution: Wales

Mrs. Gillan: To ask the Secretary of State for Wales (1) when he plans to reply to the First Minister's letter to him on a referendum on National Assembly for Wales powers; and if he will publish his response; [318291]

(2) on what date he received a letter from the First Minister of the Welsh Assembly Government on a referendum on further powers for the National Assembly for Wales; and if he will publish the letter. [318292]

Mr. Hain: I received the First Minister's notification of a resolution under section 104 of the Government of Wales Act 2006 on 17 February 2010 and I responded on 22 February 2010.

I have placed both letters in the Library of the House.

DEFENCE

Air Force: Manpower

Dr. Murrison: To ask the Secretary of State for Defence how many RAF personnel there were of each rank in each year since 1997. [308760]

Bill Rammell: The number of RAF personnel of each rank in each year from 1997 to 2008 is listed as follows. The figures include all personnel in the RAF both trained and untrained as of 18 December 2009.

Due to ongoing validation of the Joint Personnel Administration System (JPA) all RAF strengths in 2008-09 are provisional and subject to review. All figures in the table below the rank of Group Captain have been rounded to the nearest 10.

Rank	As at 1 April each year						
	1997	1998	1999	2000	2001	2002	2003
Air Chief Marshal	5	4	4	3	2	3	4
Air Marshal	8	7	7	8	8	7	7
Air Vice-Marshal	34	32	31	32	31	31	29
Air Commodore	95	92	92	98	96	90	88
Group Captain	330	340	330	330	340	340	340
Wing Commander	1,130	1,160	1,160	1,220	1,270	1,280	1,280
Squadron Leader	2,990	3,020	3,000	2,960	3,030	3,030	3,080
Flight Lieutenant	5,280	5,060	4,580	4,820	4,580	4,520	4,510
Flying Officer/Pilot Officer/Officer Designate	1,170	1,270	1,400	1,510	1,610	1,610	1,620
Warrant Officer	1,260	1,210	1,160	1,150	1,160	1,170	1,190
Flight Sergeant/Chief Technician	4,270	4,310	4,160	4,050	4,110	3,930	3,860
Sergeant	8,040	8,120	8,120	7,930	7,860	7,790	7,620
Corporal	11,860	11,340	10,940	10,340	10,210	10,190	10,110
Junior Technician/Leading Aircraftsman/Senior Aircraftsman	18,660	17,730	17,510	17,730	16,600	16,030	15,950
Aircraftsman	1,730	2,170	2,420	2,530	2,810	2,980	3,550

Rank	As at 1 April each year					
	2004	2005	2006	2007	2008	2009
Air Chief Marshal	4	4	2	4	[1]3	[1]3
Air Marshal	4	8	8	6	[1]6	[1]9
Air Vice-Marshal	34	27	27	30	[1]25	[1]24
Air Commodore	90	92	92	95	[1]94	[1]90
Group Captain	360	340	320	310	[1]310	[1]330
Wing Commander	1,290	1,320	1,270	1,240	[1]1,220	[1]1,200
Squadron Leader	3,030	2,870	2,780	2,660	[1]2,630	[1]2,570
Flight Lieutenant	4,510	4,650	4,630	4,420	[1]4,160	[1]4,050
Flying Officer/Pilot Officer/Officer Designate	1,650	1,310	1,180	1,120	[1]1,230	[1]1,500
Warrant Officer	1,200	1,200	1,210	1,180	[1]1,130	[1]1,190
Flight Sergeant/Chief Technician	3,920	3,900	3,670	3,480	[1]3,300	[1]3,190
Sergeant	7,660	7,660	7,430	6,910	[1]6,560	[1]6,270
Corporal	10,070	10,070	9,790	9,120	[1]8,760	[1]8,460
Junior Technician/Leading Aircraftsman/Senior Aircraftsman	16,100	16,430	15,350	13,860	[1]12,350	[1]11,890
Aircraftsman	3,480	2,000	960	930	[1]1,630	[1]2,800

[1] Provisional

RAF personnel numbers have reduced over the period since 1997 in line with strategic reviews. The Strategic Defence Review (published 1998) sought to shift UK defence forces away from a largely cold war defence posture based on maintaining heavily equipped forces in Western Europe towards lighter, expeditionary forces capable of deploying across the world. It also marked a shift towards 'joint' defence forces and a greater use of advanced technology. Subsequent strategic reviews have continued these trends.

Moreover, as the 2004 Defence White Paper "Delivering Security in a Changing World" made clear,

> 'the effectiveness of modern precision weapons and sensors, which can be used in all weathers, day and night, mean that highly accurate air delivered offensive effects can be achieved with fewer fast jets than before. Similarly the air threat to deployed forces has greatly reduced and the capability of our air superiority aircraft and other air defence assets is continuing to improve. So we need fewer aircraft and fewer ground-based air defence systems to meet the threat'.

The bulk of the RAF's manpower reductions has been at lower level ranks (Senior Aircraftsman and Corporal). These were mainly achieved through efficiency improvements including multi-skilling of engineering personnel and contractorisation of posts in service trades where these ranks are prevalent.

Armed Forces: Injuries

Nick Harvey: To ask the Secretary of State for Defence (1) how many triple amputees are in the armed forces; [316994]

(2) how many amputees in the armed forces have been sent to the US for medical treatment in the last three years; [316995]

(3) how much his Department spent on sending armed forces amputees to the US for medical treatment in each of the last three years. [316996]

Mr. Kevan Jones: The Ministry of Defence has committed to publishing on a quarterly basis the numbers of service personnel who have suffered limb amputations as a result of injuries sustained while on operational deployment, and Defence Analytical Services and Advice (DASA) published figures up to the end of 2009 on 12 February 2010, available on its website at:

www.dasa.mod.uk

These figures will include partial or complete limb amputees. In order to protect patient confidentiality, those who have suffered limb amputations above the wrist or ankle on more than one limb will be reported annually as "significant multiple amputees".

Injured UK service personnel who require prosthetic limbs attend the Defence Medical Rehabilitation Centre at Headley Court in Surrey, where they are supplied with tailor-made prostheses with state of the art componentry which is matched to their clinical needs.

The Defence Medical Services (DMS) keep in touch with developments in rehabilitation in other countries, including the United States, and assess new developments carefully to judge fully their potential benefits for our people. To date the DMS have not referred any amputees to the United States for their medical treatment, although a few individual amputees have attended private US facilities of their own volition and without cost to the Department. No personnel have been forced to receive treatment in the USA, and until alternative treatments and rehabilitation regimes have been fully evaluated it would be inappropriate to deviate from current, clinically proven approaches.

Disabled

Mr. Harper: To ask the Secretary of State for Defence how many and what proportion of staff in *(a)* his Department and *(b)* its agencies are disabled; and what the average salary of (i) full-time disabled staff, (ii) full-time non-disabled staff, (iii) part-time disabled staff and (iv) part-time non-disabled staff is in (A) his Department and (B) its agencies. [317888]

Mr. Bob Ainsworth: I refer the hon. Member to the table of statistics taken from the Annual Civil Service Employment Survey published by the Office for National Statistics on 20 January 2010 and available at the following link:

http://www.statistics.gov.uk/pdfdir/cs0110.pdf

Ex-servicemen

Angus Robertson: To ask the Secretary of State for Defence what support is provided by his Department to military personnel upon discharge in respect of *(a)* trauma and psychological problems, *(b)* alcohol abuse and *(c)* drug abuse. [317793]

Mr. Kevan Jones: Since 1948, it has been successive Governments' policy that the NHS should be the main provider of health care for veterans and for the majority of veterans their mental health needs are fully met by current NHS provisions. The Department of Health and devolved Administrations with support from the Ministry of Defence and Combat Stress have launched six mental health pilots around the United Kingdom. The aim of the pilots is to deliver a service which provides expert assessment and interventions and which is acceptable to veterans.

Veterans who do not live near one of the regional schemes can access the Medical Assessment programme (MAP) which is available to veterans who were deployed on operations since 1982. The MAP offers comprehensive physical and mental health assessments for veterans who feel that their ill-health may be linked to military service.

In addition, we will be providing grant funding of £140,000, which Combat Stress are matching, to work directly with mental health trusts to ensure that the services they provide are accessible to and appropriate for military veterans.

The Department has issued guidance to commanders on substance misuse and all three services have robust drug and alcohol policies in place. Service personnel identified by the chain of command as being at risk of alcohol misuse receive counselling and welfare support. This can include attendance on preventative early intervention programmes designed to alert them to the harm that alcohol can cause to themselves and others. More serious cases are treated through specialist medical and psychological treatment and rehabilitation, including where appropriate as in-patients. Service leavers are also given literature covering a range of issues including details of national alcohol and drug helplines.

Military Aircraft: Training

Lembit Öpik: To ask the Secretary of State for Defence for what reasons the simulation of the 1994 Chinook accident by test pilot Squadron Leader Robert Burke was abandoned prior to its completion; and if he will make a statement. [309997]

Bill Rammell: The test with which Squadron Leader Burke concerned himself was being undertaken by RAF technicians at the request of the Air Accident Investigation Branch, without a requirement for his assistance. The work was not abandoned after Squadron Leader Burke was told not to take any further part.

Navy: Haiti

Mr. Ellwood: To ask the Secretary of State for Defence what proportion of the capacity of the Royal Fleet Auxiliary vessel Largs Bay's capacity was full at the point at which the vessel departed Southampton for Haiti in February 2010. [316979]

Bill Rammell *[holding answer 22 February 2010]:* Royal Fleet Auxiliary Largs Bay departed for Haiti on 3 February carrying 595 linear metres of relief supplies and equipment, including the required cargo handling and beach landing capabilities. This represents approximately 60 per cent. of the capacity available. Residual space is required to assist with the movement of supplies and equipment within the cargo hold in anticipation of changing disbursement priorities on arrival.

The operational considerations about which supplies and equipment to take included an assessment of materials that could be ordered and delivered in time to ensure that the most urgently required aid would get to Haiti. The priority was items not easily transported by air but critical to the immediate humanitarian relief effort. These include fork lift trucks, four-wheel drive vehicles and corrugated sheeting.

In addition to delivering relief supplies, RFA Largs Bay has also been deployed to provide specialised capabilities to assist with the wider United Nations-led relief effort in Haiti. Delaying departure to allow supplies to be delivered for loading needed to be balanced with the urgency of getting the ship to the vicinity of Haiti to unload and begin these wider tasks.

RAF

Dr. Julian Lewis: To ask the Secretary of State for Defence what changes have been made since 1994 to the rules under which deceased Royal Air Force aircrew can be found guilty of gross negligence; whether a finding of gross negligence could have been made in respect of the Chinook crash if the current rules had applied at the time of the crash; and if he will make a statement. [310015]

Bill Rammell *[holding answer 12 January 2010]:* In 1997 the relevant service regulations were changed to remove the express attribution of blame and although Boards of Inquiry were still able to find that "human factors" were the reason for an accident, any questions of culpability on the part of aircrew would be dealt with separately through the disciplinary or administrative action system, if appropriate. If these rules had been in force at the time of the Chinook accident the Board of Inquiry could not have made a finding of gross negligence. With the introduction of a new system of Service Inquiries in October 2008 under the Armed Forces Act 2006 which brought in procedures common across all three services and replaced the old Board of Inquiry system, the rules continued the principle that Service Inquiries are not to explicitly attribute blame or legal liability. If any question of culpability were to arise, it would have to be dealt with through the disciplinary system, although clearly this would not arise in the case of deceased personnel.

Territorial Army

David Simpson: To ask the Secretary of State for Defence pursuant to the answer of 26 October 2009, *Official Report*, column 23, on the Territorial Army, for what reason drill nights at the 38 (Irish) Brigade Regional training Centre at Ballykinler, County Down remain suspended. [316444]

Bill Rammell *[holding answer 9 February 2010]:* The Regional Training Centre at Ballykinler, County Down, is not normally used as a venue for Territorial Army training nights. However, a phase 1 training course originally scheduled to run at the Centre over six weekends was recently cancelled. The cancellation of this particular course was a local decision which was contrary to the directive issued by the Government following the decision taken in October 2009 to reinstate routine Territorial Army activity for the remainder of the financial year. The reasons for this are being investigated and the training will be reinstated. This training does not affect any personnel committed to operations and the course will be reinstated.

Veterans' Challenge Fund

Dr. Murrison: To ask the Secretary of State for Defence what the *(a)* budget, *(b)* expenditure on administration and *(c)* expenditure on grants has been of the Veterans' Challenge Fund in each year since its inception. [317637]

Mr. Kevan Jones: The Veterans Challenge Fund was established on 1 April 2003. Since then it has provided funding to prime projects that support the three pillars of the Veterans Programme (Transition, Support, and Recognition) that are identified in the Veterans Strategy.

Initially a budget of £2 million was set aside to cover a three-year period (2003-06). However, on 28 October 2005, *Official Report*, column 19WS, we announced the extension of the Veterans Challenge Fund past its initial three-year period with an annual allocation of up to £750,000.

Administration of the Veterans Challenge Fund with the MOD is an internal departmental cost with the duties being part of wider responsibilities. These costs are not taken from the budget for the fund.

The following table provides information on expenditure relating to Veterans Challenge Fund grants for each year since 2003.

	Expenditure on grants[1] *(£)*
2003-04	42,000
2004-05	190,000
2005-06	476,000
2006-07	606,000
2007-08	431,000
2008-09	661,000
Total	2,046,000

[1] Figures have been rounded to nearest thousand.

Dr. Murrison: To ask the Secretary of State for Defence which projects have been supported by the Veterans' Challenge Fund in each year since its inception; and how much funding has been allocated to each such project in each such year. [317638]

Mr. Kevan Jones: The information is not held in the format requested.

Since its launch in July 2003 the Veterans Challenge Fund has provided funding to a total of 98 projects in a number of areas including homelessness, prison in-reach and research into suicide among veterans. Projects that have benefited from our contributions have gone to make a significant difference to the veterans community.

The following table provides information relating to the number of projects undertaken for each year.

	Number of projects
2003-04	24
2004-05	13
2005-06	29
2006-07	17
2007-08	11
2008-09	4
Total	98

Costs relating to a specific project may span a financial year and may be complex through their reliance on a number of other funding factors reaching maturity at the same time. Determining the amounts for each project would require a manual search of records and incur disproportionate cost.

HOUSE OF COMMONS COMMISSION

Freedom of Information: Costs

Sir Nicholas Winterton: To ask the hon. Member for North Devon, representing the House of Commons Commission what the cost to the House has been of responding to requests made under the provisions of the Freedom of Information Act 2000. [317263]

Nick Harvey: No records are kept of the specific time spent by staff responding to inquiries. An estimate of the staff cost of handling Freedom of Information Act requests within the Information Rights and Information Security (IRIS) team, who co-ordinate the handling of responses, is £165,000 per annum.

Nurseries

Michael Fabricant: To ask the hon. Member for North Devon, representing the House of Commons Commission (1) what estimate the House of Commons Commission has made of the average daily usage of the proposed nursery by children of *(a)* hon. Members, *(b)* staff of the House of Commons Service, *(c)* staff of hon. Members and *(d)* others in its first 12 months of operation; [317123]

(2) what estimate the House of Commons Commission has made of the *(a)* running cost and *(b)* income of the proposed nursery in the first 12 months of its operation. [317124]

Nick Harvey: The nursery is being designed to provide child care for up to 40 children between the ages of birth and five years. According to child care experts, there will be a build-up of usage over a period: the average usage for the first 12 months of a new nursery is likely to be around 40 per cent. No breakdown of usage as between the children of Members and the children of others has been estimated at present: much will depend on the make-up of the next Parliament. The intention in the longer term is to recover the operating costs through the charges made to users. Disclosure of expected operating costs at this stage could undermine the House's position in the commercial competition for a nursery operator.

FOREIGN AND COMMONWEALTH OFFICE

British Nationals Abroad

Mr. Davey: To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate he has made of UK citizens living abroad in *(a)* each other EU member state and *(b)* all non-EU countries in (i) 1980, (ii) 1990, (iii) 2000 and (iv) the most recent year for which figures are available. [317719]

David Miliband: Our network of overseas posts has in the past been asked to provide an estimate of the number of British nationals resident in their consular area. The latest figures available are for 2006-07. Figures are also available for 1990 and 2000, but not 1980. The results of each of these surveys are shown in the following table.

Estimated size of the British national community

Country	*2006-07*	*2000*	*1990*
Austria	7,369	7,000	5,100
Belgium	39,867	30,200	28,500
Bulgaria	1,700	325	55
Cyprus	60,000	54,000	18,000
Czech Republic	3,183	0	83
Denmark	13,183	12,630	10,474
Estonia	220	200	—
Finland	4,350	3,200	1,300
France	381,000	156,050	43,000
Germany	115,554	164,324	92,445
Greece	31,470	144,085	21,300
Hungary	2,640	3,000	275
Ireland	112,548	0	50,000
Italy	71,990	61,000	35,000
Latvia	400	200	—
Lithuania	230	160	—
Luxembourg	4,400	5,000	2,894
Malta	6,000	6,000	3,000
Netherlands	73,600	40,000	30,000
Poland	2,531	10,000	881
Portugal	34,624	31,597	16,300
Romania	6,000	3,000	36
Slovakia	1,000	750	—
Slovenia	157	350	—
Spain	840,989	949,550	121,500
Sweden	15,000	17,500	14,000
Non-EU	10,283,651	11,000,718	5,500,000
Total	12,113,756	12,700,839	6,014,143

Note:
Based on overseas posts' estimates of the number of British nationals within their consular area.

Colombia: Political Prisoners

Mr. Love: To ask the Secretary of State for Foreign and Commonwealth Affairs what contact his Department has had with staff of the Colombian embassy in relation to prisoners held for political reasons by the Colombian authorities in the last three years; and if he will make a statement. [317799]

Chris Bryant: I raised this issue with the Colombian ambassador last week. We wholly condemn any Government who target or imprison individuals for their political orientation. We are aware of allegations that Colombian individuals are being imprisoned or charged with offences as a result of their political views or activities, and have pointed out to the Colombian authorities that those charged with crimes should have their legal rights fully respected, including the right to a fair trial. However, it is for the Colombian judicial system to assess any such cases, including exercise of the right of habeas corpus.

Mrs. Moon: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations the Government have made to the Government of Colombia on the fate of *(a)* human rights defender Carmelo Agamez Berrio and *(b)* trade unionist Liliany Obando. [317882]

Chris Bryant: We have not made any representations on the case of Carmelo Agamez Berrio.

As for Liliany Obando, we wrote in April 2009 to the Director of the Presidential Human Rights Programme and to the Director of International Affairs at the Prosecutor General's office requesting details about her case. We never received a response from the Director of the Presidential Human Rights Programme. On 25 June 2009, the Prosecutor General's office informed us that Ms Obando's case was going through the last stages of the legal accusatory process. She has been charged with

> "rebellion and the administration of resources related with terrorist activities".

My right hon. Friend the Foreign Minister raised her case personally with Colombian Foreign Minister Bermudez in London last month, and we subsequently received a letter from the Colombian ambassador updating us with the news that there have been three public hearings of her case between August and December 2009, and that two more public hearings were scheduled to happen this week. I am writing to the Colombian Deputy Foreign Minister to further register our continued interest in the case.

Cuba: Politics and Government

Mr. MacShane: To ask the Secretary of State for Foreign and Commonwealth Affairs what his Department's policy is on meeting representatives of the democratic opposition in Cuba. [317110]

Chris Bryant: Our policy towards Cuba remains based on the EU Common Position, which was agreed in 1996 and is reviewed annually at the June European Council. The Common Position sets out inter alia that the EU will

> "intensify the present dialogue with the Cuban authorities and with all sectors of Cuban society in order to promote respect for human rights and real progress towards pluralist democracy".

Following the last review of the EU's Cuba policy in June 2009, all EU member states agreed Council Conclusions which reaffirmed their commitment to the Common Position and the policy of dual track engagement with the Cuban Government and Cuban civil society. On the issue of meeting members of opposition groups in Cuba the Conclusions state:

> "The Council reaffirms that its policy for EU contacts with the peaceful pro-democracy opposition remains valid. During high-level visits, human rights issues should always be addressed; when appropriate, meetings with the peaceful pro-democracy opposition will be part of high level visits. In this context the Council calls upon the Cuban government to allow for unimpeded contacts with civil society in the margin of high level visits".

In line with this policy, our embassy in Havana maintains contacts across the full spectrum of political opinion within Cuba, including the Government and members of civil society and opposition groups; we see it as important in support of this goal to include meetings with opposition figures in high level political visits where appropriate. The last Ministerial visit to Cuba was by my hon. Friend the Member for Harlow (Bill Rammell) then Foreign Office Minister in 2005. He met a range of Cuban Government contacts, opposition figures and civil society. Since then, the Cuban Government have made official programmes conditional on Ministers and senior officials not meeting any opposition figures during visits. This has made it difficult to agree programmes for a further visit. We stand ready to organise a high level visit as soon as this precondition is dropped.

Departmental Energy

Andrew Stunell: To ask the Secretary of State for Foreign and Commonwealth Affairs what the estimated *(a)* amount and *(b)* cost was of energy used in his Department and its agencies in each year since 1997; what proportion of the energy used was generated from renewable sources in each of those years; and if he will make a statement. [317202]

Chris Bryant: The breakdown of amount and cost of energy for the last five years is summarised in the following table. To provide additional data could only be done at disproportionate cost. The proportion of energy generated from renewable sources is based on "Green" tariffs. The Foreign and Commonwealth Office has no directly renewable sources of energy.

	Electricity (kWh)	*Gas (kWh)*	*Oil (kWh)*	*Heat (kWh)*	*Total energy (kWh)*	*KCS green tariff (kWh)*	*Percentage of total energy that is green*	*Cost of all energy (£)*
2008-09	28,747,774	1,227,509	4,816,849	6,697,510	41,489,641	6,004,650	14	3,777,830
2007-08	23,524,791	1,153,023	4,280,027	5,677,120	34,634,961	6,481,320	19	2,609,700
2006-07	22,578,615	1,341,891	3,291,842	5,290,430	32,502,778	7,069,812	22	2,820,321
2005-06	20,756,930	1,679,115	4,732,676	7,146,240	34,314,961	7,860,950	23	2,404,570
2004-05	19,457,515	1,616,136	3,878,744	6,636,479	31,588,874	8,117,108	26	1,809,318
Total	115,065,625	7,017,674	21,000,138	31,447,779	174,531,215	35,533,840		13,421,739

Note:
All data are for financial year—April to March

Departmental Travel

Mr. Watson: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will publish the travel guidelines issued to staff of each of his Department's agencies and non-departmental public bodies. [315145]

Chris Bryant: The British Council publishes its own travel guidelines which are available at:

http://www.britishcouncil.org/new/freedom-of-information/information-guide/policies/staff-policies/travel-and-expenses/

The other agencies and non-departmental public bodies sponsored by the Department have not published their own travel guidelines. However, the guidelines they use are based on the Foreign and Commonwealth Office's own travel guidelines. I have placed a summary of these guidelines in the Library of the House.

Diplomatic Service Appeal Board

Mr. Watson: To ask the Secretary of State for Foreign and Commonwealth Affairs what the membership is of the Diplomatic Service Appeal Board. [317797]

Chris Bryant: The six former Foreign and Commonwealth Office (FCO) employee members of the Diplomatic Service Appeal Board are as follows:

Ms Philippa Drew CB—Chair
Professor Colin Jennings—Vice Chair
Sir James Hodge KCVO CMG—FCO nominee
Mr. Alan Hunt CMG—FCO nominee
Mr. Philip Grice LVO—Trade union nominee
Mr. John Kelly CMG LVO MBE—Trade union nominee

The two independent members are:

Mrs. Janet Rubin
Ms Susan Jenkins

Embassies: Fees and Charges

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will consider the merits of removing charges for the use of the premises of overseas posts by UK entrepreneurs holding receptions to promote products and services offered by their companies. [317991]

Chris Bryant: Making the most of the Foreign and Commonwealth Office's assets, including the effective use of our overseas estate, is kept under close review. Diplomatic staff routinely host entertainment in their official residences and other premises overseas to further the Government's strategic priorities, of which support for the UK economy and British businesses is key. In addition to this normal use of our estate, Heads of Post may offer, subject to a number of considerations including security, the use of their official residences for particular events requested by organisations who are willing to pay for the privilege, on the basis that the revenue earned is re-invested in furthering our strategic objectives. We believe this remains a sensible approach and continues to give value to the British taxpayer.

Marshall Aid Commemoration Commission

Mr. Watson: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the effectiveness of the Marshall Aid Commemoration Commission's scholarship programme. [317758]

Chris Bryant *[holding answer 22 February 2010]:* We are content that the Marshall scholarship programme is being run effectively.

Middle East: Armed Conflict

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with his Israeli counterpart on allegations of human rights abuses committed during Operation Cast Lead. [315913]

Mr. Ivan Lewis: From the outset we have called for the very serious allegations around the Gaza conflict to be properly and independently investigated by both sides, including individual incidents and wider operational choices. My right hon. Friend the Prime Minister made this clear to Prime Minister Netanyahu ahead of the UN Human Rights Council Special Session on Gaza. Most recently, I raised it in my meeting, on 9 February 2010, with Israeli Deputy Foreign Minister Danny Ayalon.

Nuclear Weapons

Mr. Dai Davies: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has made an assessment of the merits of entering the Trident system into multilateral nuclear disarmament negotiations prior to the start of the nuclear non-proliferation treaty review conference in May 2010. [317577]

Mr. Ivan Lewis: The UK firmly believes that sustainable global nuclear disarmament can only be achieved through a multilateral process, and stands ready to engage in a future broader multilateral process when the conditions are right. The UK is actively working to create these conditions and is playing a leading role globally in the nuclear disarmament debate. These conditions include watertight measures to prevent further proliferation, further cuts to the world's two largest nuclear arsenals, and solutions to the technical, political and institutional challenges posed by nuclear disarmament.

We look forward to an agreement between the US and Russia to achieve significant cuts in their nuclear arsenals by agreeing a successor to the strategic arms reduction treaty. This will be a major contribution to our shared endeavour towards a world without nuclear weapons, and will help to build trust and pave the way in due course for greater reductions. The nuclear non-proliferation treaty review conference in May 2010 will be an important opportunity to agree actions for the future on non-proliferation, peaceful uses of nuclear energy as well as on nuclear disarmament, but setting target dates for a multilateral disarmament process at this stage would not make headway given current political realities.

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs when he expects to publish a statement of the Government's approval to the nuclear non-proliferation review conference to be held in May 2010. [317849]

Mr. Ivan Lewis: UN General Assembly Resolution A/RES/61/70 of 6 December 2006 authorised the 2010 review conference of the treaty on the non-proliferation of nuclear weapons. The vote was 175 (for); 0 (abstentions); 3 (against). All 175 States party to the treaty present, including the United Kingdom, voted for the resolution. The three non-States party to the treaty (India, Israel and Pakistan) voted against. A copy of the Resolution, which was published on 3 January 2007 is available at:

http://daccess-dds-ny.un.org/doc/UNDOC/GEN/N06/498/63/PDF/N0649863.pdf?OpenElement

Palestinians

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list all official visits to Gaza made by *(a)* Ministers, *(b)* embassy officials based in Tel Aviv, *(c)* consular officials based in Jerusalem and *(d)* embassy officials based in Cairo in each of the last three years. [318021]

Mr. Ivan Lewis: We do not hold records of every visit made by officials to Gaza. However, our officials based in Jerusalem and, to a lesser extent, Tel Aviv, have visited Gaza on more than 20 occasions since January 2009. Our consulate general in Jerusalem also has two members of local staff permanently based in Gaza.

There have been no visits made, in the last three years, by our officials based in Cairo.

The Secretary of State for Development visited Gaza in March 2009.

Security

Mr. Carmichael: To ask the Secretary of State for Foreign and Commonwealth Affairs with which UK private security companies representatives of the UK Trade and Investment Defence and Security Organisation have met in each of the last five years; and in which countries these meetings took place. [316724]

Ian Lucas: I have been asked to reply.

UK Trade and Investment, Defence and Security Organisation (UKTI DSO) was formed on 1 April 2008, when responsibility for defence export promotion was transferred from the Ministry of Defence.

There is no accepted definition of private security or private military companies, and no clear line between the two categories. Since forming, UKTI DSO has had meetings with a number of companies who are members of either the British Association of Private Security Companies or the Private Security Company Association of Iraq, including: Armour Group, Control Risks Group, Edinburgh Risk, Janusian Security Risk Management, Aegis Defence Services Ltd, Group 4 Security Risk Management, Maritime Asset and Security Training, Olive Group, Britam Defence Ltd, Team Savant Ltd, Salamanca Risk Management, Pilgrims Group Ltd, Peters and May Global Logistics and Prometheus Medical.

These meetings have taken place in Algeria, Kuwait, Libya, Oman, Saudi Arabia, United Arab Emirates, USA and in the UK.

Mr. Carmichael: To ask the Secretary of State for Foreign and Commonwealth Affairs what criteria are used by the UK Trade and Investment Defence and Security Organisation to decide whether to assist UK private military and security companies to obtain business abroad. [316725]

Ian Lucas: I have been asked to reply.

Companies operating in the private military and security sector are entitled to the same support as other UK companies, in so far as their activities are legitimate and do not conflict with HMG's foreign policy goals. Eligibility for UKTI support is defined by the overall eligibility guidelines for UKTI trade services. Companies are not eligible for UKTI support if they are offering a product or service which it is illegal to produce or sell in the UK or in the target market, or which will breach export controls, or if the company's business record or business practices or products are likely to cause offence in the overseas market and/or embarrass the UK Government (for example, on corporate social responsibility grounds).

A copy of the Government 'Guidance on Contacts with Private Military and Security Companies' is in the Libraries of the House and in The National Archives, and is accessible using the following URL:

Western Sahara: Asylum

Derek Conway: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with his Algerian counterpart on responsibility for the treatment of Sahrawi refugees on Algeria's territory; and if he will make a statement. [317280]

Mr. Ivan Lewis: While Foreign and Commonwealth Office Ministers and officials do discuss the Western Sahara dispute with their Algerian counterparts on a regular basis, these discussions always take place within the context of supporting the UN Secretary General and his Personal Envoy, Ambassador Christopher Ross, in their efforts to resolve the dispute.

Derek Conway: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with his Algerian counterpart on allowing exit visas for Sahrawi refugees in the Tindouf camps; and if he will make a statement. [317281]

Mr. Ivan Lewis: My right hon. Friend the Foreign Secretary has not discussed Sahrawi exit visas with his Algerian counterpart. My hon. Friend the Member for Harlow (Bill Rammell), then Minister responsible for North Africa, did discuss UN-led efforts to resolve the dispute over Western Sahara with Abdelqader Mesahel, Algerian Minister responsible for Maghreb Affairs, during the annual UK-Algeria political dialogue in December 2008. The Western Sahara dispute is again on the agenda for the next round of the UK-Algeria political dialogue, which I will host on 2 March.

Derek Conway: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Algerian Government on the case of Mr. Sghair, a Sahrawi refugee, detained by the Polisario for three months for attempting to cross into Morocco; and if he will make a statement. [317282]

Mr. Ivan Lewis: The Foreign and Commonwealth Office (FCO) has not made any representations to the Algerian authorities about the case of Mr. Sghair, who was allegedly detained by the Polisario in 2008. The FCO has also not received any prior representations about this case.

Derek Conway: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with his Algerian counterpart on allowing entire families overland visits from the refugee camps in Tindouf; and if he will make a statement. [317283]

Mr. Ivan Lewis: My right hon. Friend the Foreign Secretary has not discussed overland visits from the refugee camps with his Algerian counterpart. My hon. Friend the Member for Harlow (Bill Rammell), then Minister responsible for North Africa, did discuss UN-led efforts to resolve the dispute over Western Sahara with Abdelqader Mesahel, Algerian Minister responsible for Maghreb Affairs, during the annual UK-Algeria political dialogue in December 2008. The Western Sahara dispute is again on the agenda for the next round of the UK-Algeria political dialogue, which I will host on 2 March.

Derek Conway: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with *(a)* his Algerian counterpart and *(b)* the Polisario on a census to count and register the Sahrawi refugee population in the Tindouf camps; and if he will make a statement. [317284]

Mr. Ivan Lewis: My right hon. Friend the Foreign Secretary has not had discussions with either his Algerian counterpart or the Polisario about a census to record the population of the Tindouf camps. Foreign and Commonwealth Office officials in Algiers and London have discussed this topic with the Polisario as part of their regular dialogue with all parties to the Western Sahara dispute.

My hon. Friend the Member for Harlow (Bill Rammell), then Minister responsible for North Africa, did discuss UN-led efforts to resolve the dispute over Western Sahara with Abdelqader Mesahel, Algerian Minister responsible for Maghreb Affairs, during the annual UK-Algeria political dialogue in December 2008. The Western Sahara dispute is again on the agenda for the next round of the UK-Algeria political dialogue, scheduled for 2 March.

Derek Conway: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with his Algerian counterpart on Algeria's obligations under the 1951 Convention on the Status of Refugees in relation to the Sahrawi refugee camps; and if he will make a statement. [317285]

Mr. Ivan Lewis: My right hon. Friend the Foreign Secretary has not discussed the 1951 Convention on the Status of Refugees with his Algerian counterpart. My hon. Friend the Member for Harlow (Bill Rammell) then Minister responsible for North Africa, did discuss UN-led efforts to resolve the dispute over Western Sahara with Abdelqader Mesahel, Algerian Minister responsible for Maghreb Affairs, during the annual UK-Algeria political dialogue in December 2008. The Western Sahara dispute is again on the agenda for the next round of the UK-Algeria political dialogue, scheduled for 2 March.

Derek Conway: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with *(a)* his Algerian counterpart and *(b)* the Polisario on the United Nations High Commission on Refugees' confidence-building measures programme for the Sahrawi refugee population in the Tindouf camps; and if he will make a statement. [317286]

Mr. Ivan Lewis: My right hon. Friend the Foreign Secretary has not had discussions with either his Algerian counterpart or the Polisario on the UN High Commissioner for Refugees (UNHCR) confidence-building measures programme. Foreign and Commonwealth Office officials in Algiers and London have discussed confidence-building measures with the Polisario as part of their regular dialogue with all parties to the Western Sahara dispute. The most recent discussions took place in February between the Polisario and Foreign and Commonwealth officials in London.

My hon. Friend the Member for Harlow (Bill Rammell), then Minister responsible for North Africa, did discuss UN-led efforts to resolve the dispute over Western Sahara with Abdelqader Mesahel, Algerian Minister responsible for Maghreb Affairs, during the annual UK-Algeria political dialogue in December 2008. The Western Sahara dispute is again on the agenda for the next round of the UK-Algeria political dialogue, scheduled for 2 March.

Derek Conway: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Ambassador of Algeria on conditions imposed by the Algerian Government and the Polisario on refugee camps in Tindouf; and if he will make a statement. [317287]

Mr. Ivan Lewis: My right hon. Friend the Foreign Secretary has not discussed the conditions in the Tindouf refugee camps with the Algerian Ambassador. My hon. Friend Bill Rammell, then Minister responsible for North Africa, did discuss UN-led efforts to resolve the dispute over Western Sahara with Abdelqader Mesahel, Algerian Minister responsible for Maghreb Affairs, during the annual UK-Algeria political dialogue in December 2008. The Western Sahara dispute is again on the agenda for the next round of the UK-Algeria political dialogue, scheduled for 2 March 2010.

Derek Conway: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the US Ambassador on the report of the United States Committee on Refugees and Immigrants on conditions imposed by Algeria and the Polisario on refugee camps in Tindouf; and if he will make a statement. [317288]

Mr. Ivan Lewis: My right hon. Friend the Foreign Secretary has not discussed the United States Committee on Refugees and Immigrants report with the US ambassador. Our officials in Algiers have discussed the report with the US embassy in Algiers and the head of the United Nations High Commission for Refugees, also in Algiers.

Derek Conway: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with his Algerian counterpart on permission for entire families to leave the Sahrawi refugee camps to travel to Mauritania; and if he will make a statement. [317289]

Mr. Ivan Lewis: My right hon. Friend the Foreign Secretary has not discussed families travelling between Tindouf and Mauritania with his Algerian counterpart. My hon. Friend Bill Rammell, then Minister responsible for North Africa, did discuss UN-led efforts to resolve the dispute over Western Sahara with Abdelqader Mesahel, Algerian Minister responsible for Maghreb Affairs, during the annual UK-Algeria political dialogue in December 2008. The Western Sahara dispute is again on the agenda for the next round of the UK-Algeria political dialogue, scheduled for 2 March 2010.

Western Sahara: Politics and Government

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will provide assistance to Morocco to seek to ensure that it receives UN recognition of its sovereignty over the Western Sahara. [317588]

Mr. Ivan Lewis: The UK Government regard the status of the disputed non-self-governing territory of Western Sahara as undetermined, pending UN efforts to find a solution that provides for the self-determination of the people of Western Sahara. The UK Government fully support the efforts of Christopher Ross, the UN Secretary-General's Personal Envoy to Western Sahara.

CULTURE, MEDIA AND SPORT

Departmental Advertising

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport which projects undertaken by his Department have incurred expenditure of more than £1,000 on advertising in the last 12 months; and what the respective spend is in each such case. [317566]

Mr. Sutcliffe *[holding answer 22 February 2010]:* In 2009, my Department spent more than £1,000 on advertising the public appointments listed:

Public body and role	*£ (VAT inclusive)*
Arts Council England, National Members	6,700
BBC Trust, Member	16,562
British Library, Chair	15,372
Commission for Architecture and the Built Environment, Chair	10,043
English Heritage, Chair	6,351

Public body and role	*£ (VAT inclusive)*
Horserace Betting Levy Board, Chair	13,314
National Museum of Science and Industry, Chair	16,432
Olympic Lottery Distributor, Member	2,000
S4C, Member	11,403
United Kingdom Anti-Doping, Chair and Members	17,980
United Kingdom Film Council, Chair	7,521

Further to this, the Government Olympic Executive spent £5,551.96 in March 2009 advertising for a speech writer and £4,830.08 in September 2009 for a communications officer.

In October 2009, £4,242.61 was spent on advertising three human resources positions and £8,906.15 on two finance positions.

Departmental Internet

Andrew Rosindell: To ask the Secretary of State for Culture, Media and Sport what the cost to his Department was of maintaining its media and social networking sites in the latest period for which figures are available. [315157]

Mr. Sutcliffe: In the current financial year, my Department has spent £1808.95 maintaining media and social networking sites which represents software maintenance costs for the complete year. We have no staff dedicated to maintaining media and social networking sites. Any content is provided by staff as part of their normal work.

C&binet, a not-for-profit conference for the global creative industries created by DCMS, had its own website, to generate interest for the conference and to provide a high quality interactive online experience for virtual delegates not attending the conference.

Between November 2008 and October 2009, £20,000 was spent on producing blog content (191 articles in total). This included (but was not restricted to) researching and identifying themes related to the c&binet agenda and tweeting (around 15 tweets per week). Also monitoring c&binet content pick up through Google and on other blogs.

Between November 2008 and October 2009 £3,000 was spent on hosting the entire c&binet website, of which the c&binet blog was one element.

Departmental Manpower

Mr. Philip Hammond: To ask the Secretary of State for Culture, Media and Sport how many performance reviews were undertaken in respect of staff of *(a)* his Department and *(b)* its agency in each of the last five years; in how many cases performance was rated as unsatisfactory or below; how many staff left as a direct result of such a rating; and what percentage of full-time equivalent staff this represented. [313833]

Mr. Sutcliffe: The information is given in the table.

	2008-09	*2007-08*	*2006-07*	*2005-06*	*2004-05*[1]
Unsatisfactory or below	1	3	7	0	—
Total reports undertaken	435	427	459	443	—

[1] No information available.

Note:

No staff members have left as a direct result of the rating received from their performance review, in the period for which the figures are available.

Departmental Responsibilities

Stewart Hosie: To ask the Secretary of State for Culture, Media and Sport how many meetings Ministers and officials in his Department have had with members of the public in the last three years. [317077]

Mr. Sutcliffe: Ministers and officials hold many meetings with members of the public as part of the process of policy development.

To collate the number of meetings held by members of this Department over the past three years would incur disproportionate costs.

Departmental Training

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport how much his Department spent on coaching in each of the last three years; and through which bodies such coaching was delivered. [316342]

Mr. Sutcliffe *[holding answer 8 February 2010]:* The amount of funding provided by my Department for coaching through UK Sport and Sport England in each of the last three financial years is listed in the table.

		£
	UK Sport	*Sport England*
2007-08	4,068,002	3,226,000
2008-09	3,585,950	6,305,000
2009-10	2,823,766	6,883,688

The UK Sport funding provides support for coaching through these organisations and schemes:

Sports Coach UK.

UK Sport's Elite coach programme.

The annual UK Sport World Class Coaching Conference.

The UK Sport Winning Coaches programme.

Coaching support for National Governing Bodies (NGBs).

The Sport England funding provides support for coaching through these organisations and schemes:

Sports Coach UK.

County Sports Partnerships (CSP) for the Community Sports Coach Scheme, which concluded in June 2009.

The Coaching System Support Network.

Recruit into Coaching, jointly delivered by Sport England and Youth Sport Trust.

Coach Education Funding for NGBs.

In addition, Sport England regional offices have made awards to support local coaching projects over the last three years. This has been funded through lottery investment as part of the Community Investment Fund.

Furthermore, Sport England will invest £480 million to support NGB plans from 2009-13, at least £100 million of which will be invested in coaching over this period.

Departmental Travel

Stewart Hosie: To ask the Secretary of State for Culture, Media and Sport what the cost was of travel by his Department's staff between England and Scotland in each of the last five years. [317074]

Mr. Sutcliffe: The cost of travel between England and Scotland in each of the last five years was as follows:

	£
2008-09	6,255
2007-08	1,246
2006-07	7,296
2005-06	6,367
2004-05	6,363
2009-10 (to date)	8,252

There are only partial data for 2007-08 due to the Department changing its travel booking service provider during that year.

Hackney

Ms Abbott: To ask the Secretary of State for Culture, Media and Sport if he will set out, with statistical evidence relating as closely as possible to Hackney North and Stoke Newington constituency, the effects on that constituency of his Department's policies since 1997. [318376]

Mr. Sutcliffe: My Department's aim is to improve the quality of life for everyone through cultural and sporting activities, to support the pursuit of excellence and to champion the tourism, creative and leisure industries.

The impact of bodies and policies of my Department on the Hackney North and Stoke Newington constituency since 1997 include:

£230,217 given from Arts Council England to organisations based in Hackney North and Stoke Newington in 2008-09 through the Grants for the Arts programme.

£222,000 of English Heritage grant offers to the Hackney North and Stoke Newington constituency in 2008-09.

Digital Switchover is due to take place in Hackney North and Stoke Newington in 2012. By the time switchover is complete at the end of 2012, 98.5 per cent. of households nationwide will be able to receive digital TV—the same number that can currently receive analogue.

£60,000 of Exchequer investment to the Hackney North and Stoke Newington constituency provided through Sport England since 2004.

Over £31 million of national lottery grants made to applications from the Hackney North and Stoke Newington constituency since 1995.

The Hackney North and Stoke Newington constituency has also benefited from other policies and spending whose impact cannot be broken down by constituency. These include:

£4 billion of Exchequer funding spent on culture.

More than £5.5 billion invested in sport by the Government and the national lottery since 1997.

Almost 750,000 free swims taken in London in the first eight months of the Free Swimming programme.

A 68 per cent. increase in national museum visits from 1998-99 to 2008-09—10 per cent. of which were by adults from lower socioeconomic groups.

£416.6 million in grants allocated by English Heritage since 1997.

48 per cent. of buildings on the original 1999 Buildings at Risk Register having their future secured.

90 per cent. of all pupils taking part in at least two hours of high quality PE or sport per week in 2008 from an estimated 25 per cent. in 2003-04—exceeding our target.

Olympic Games: Canada

Mr. Swire: To ask the Secretary of State for Culture, Media and Sport what funding he is providing to Team GB (Ltd) and the British Ski and Snowboard Federation to support participation in the Vancouver Winter Olympics. [317373]

Mr. Sutcliffe: UK Sport has advised that it has invested nearly £6.5 million of public funding in Winter Olympic and Paralympic sports in the run-up to Vancouver.

The British Ski and Snowboard Federation and its athletes on UK Sport's World Class Performance programme received £620,000 of Olympic funding and £205,000 of Paralympic funding. This investment has been supported by Talented Athlete Scholarship scheme (TASS) funding for Winter Sports, totaling £4 million in the last four years, of which over £700,000 has been invested in promising Skiers and Snowboarders.

The Winter Olympic team has also received support from the English Institute of Sport and UK Sport's world leading Research and Innovation and Talent Identification programmes.

As part of the contingency arrangements, UK Sport has agreed to provide approximately £21,500 of additional funds to the British Olympic Association. This amount has been ring-fenced for the support of two additional elite athletes and their immediate technical and coaching teams, to participate in the Vancouver Winter Olympics.

INTERNATIONAL DEVELOPMENT

Departmental Carbon Emissions

Stewart Hosie: To ask the Secretary of State for International Development what estimate he has made of the amount of carbon dioxide emitted from his Department's buildings in *(a)* 2008 and *(b)* 2009. [317246]

Mr. Michael Foster: The Department for International Development (DFID) records and reports its environmental performance on a financial year basis. Data on energy use on the UK estate, and the corresponding carbon emissions, are reported in accordance with the 'Sustainable Operations on the Government Estate' targets and are available on the websites of the Office of Government Commerce (OGC) and the Sustainable Development Commission (SDC).

The carbon dioxide emissions from our UK estate were 4,387 tonnes in 2007-08 and 3,945 tonnes in 2008-09.

Departmental Disabled Staff

Mr. Harper: To ask the Secretary of State for International Development how many and what proportion of staff in his Department are disabled; and what the average salary in his Department is of *(a)* full-time disabled staff, *(b)* full-time non-disabled staff, *(c)* part-time disabled staff and *(d)* part-time non-disabled staff. [317893]

Mr. Michael Foster: Information on the numbers, proportion and average (median) salary of Home civil service staff employed by the Department for International Development (DFID) who have declared a disability are set out in the Annual Civil Service Employment Survey (ACSES) statistics published by the Office for National Statistics on 20 January 2010, which is available at:

http://www.statistics.gov.uk/pdfdir/cs0110.pdf

Somalia: Overseas Aid

Mr. Greg Knight: To ask the Secretary of State for International Development how much bilateral aid his Department provided to Somalia in the latest year for which information is available; and in what form that aid was provided. [317523]

Mr. Thomas: Details of the Department for International Development's (DFID's) expenditure in developing countries are published in 'Statistics on International Development', which is available in the House Library and online at

www.dfid.gov.uk

DFID's bilateral assistance to Somalia in 2008-09 was £33.48 million. This assistance is broken down by aid type in the following table.

Type of aid	*£000*
Humanitarian assistance	18 288
Bilateral aid delivered through a multilateral organisation	9 376
Bilateral aid delivered through an NGO	5 579
Technical co-operation	227
Non-budget support financial aid	9

HOME DEPARTMENT

Alcoholic Drinks: Public Places

Chris Grayling: To ask the Secretary of State for the Home Department how many people were *(a)* prosecuted and *(b)* convicted for an offence of not obeying an instruction to stop drinking in a designated public place in each year since 1998. [314999]

Alan Johnson: The number of prosecutions, convictions and penalty notices for disorder for not obeying an instruction to stop drinking in a designated public place in each year from 2002-08 (latest available) can be viewed in the following table. Data prior to 2002 are not available as the offence of alcohol consumption in a public place came into force on 1 September 2001.

Court proceedings data for 2009 are planned to be published in autumn 2010.

Number of defendants issued a penalty notice of disorder, proceeded against at magistrates courts and found guilty at all courts for not obeying an instruction to stop drinking in a designated public place, 2002-08, England and Wales[1, 2, 3, 4]

Offence description		*2002*	*2003*	*2004*	*2005*	*2006*	*2007*	*2008*
Failure to obey an instruction to stop alcohol consumption in designated public place (Criminal Justice and Police Act 2001, Sec 12)	Penalty notice of disorder	—	—	485	712	1,061	1,544	1,761
	Proceeded against	37	108	122	101	101	113	[5]153
	Found guilty	34	94	96	76	73	98	[5]123

[1] The figures given in the table relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences, it is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[3] The number of defendants found guilty in a particular year may exceed those proceeded against, as it may be the case that the proceedings in the magistrates court took place in the preceding year and they were found guilty at the Crown court in the following year, or the defendants was found guilty for a different offence to the original offence proceeded against.

[4] The offence of alcohol consumption in designated public place (section 12 of the Criminal Justice and Police Act 2001) came into force on 1 September 2001.

[5] Excludes prosecutions and convictions data for Cardiff magistrates court for April, July and August 2008.

Source:

Justice Statistics Analytical Services: Ministry of Justice.

Anti-Semitism

Chris Huhne: To ask the Secretary of State for the Home Department (1) pursuant to the answer of 29 January 2010, *Official Report*, column 1127W, on anti-Semitism, whether figures on occurrences of anti-Semitism have been added to the annual data requirements for police community safety figures; [317145]

(2) with reference to the answer of 18 March 2009, *Official Report*, column 1154W, on anti-Semitism, whether the five data requirements of hate crime have been added to the annual police community safety figures; and what data have been collected on anti-Semitic incidents. [317103]

Alan Johnson: The Annual Data Requirement (ADR) has not yet been extended to cover crime data disaggregated by the five hate crime strands. The situation is being resolved in order that these data can be collected as part of the ADR from April 2011. This is the next occasion in the annual data cycle that this will be possible. The extension to the ADR will not enable us to disaggregate the data on racist offences in order that we can identify specific data on anti-Semitic crimes.

The ACPO National Community Tension Team (NCTT) has been collating data on anti-Semitic crimes since April 2008. The data are collated as an intelligence document and has not been published previously. We are seeking publication of these data at the earliest opportunity in order that indicative figures on anti-Semitic hate crime for the year 2009-10 can be made available.

Chris Huhne: To ask the Secretary of State for the Home Department with reference to the answer of 18 March 2009, *Official Report*, column 1154W, on anti-Semitism, what meetings the cross-Government champion on reducing incitement on the internet has attended in that role; and what the outcomes were of these meetings. [317104]

Alan Johnson: In his role as cross-Government internet hate crime champion, Home Office Minister Mr. Alan Campbell has met with the Internet Watch Foundation and the Trades Union Congress. The topics for discussion were the blocking of internet service providers and tackling the Redwatch website respectively.

Since becoming the cross-Government champion, the Minister has overseen the progress of the Internet Hate Crime Action Plan. This is part of the wider Cross-Governmental Hate Crime Action Plan. Work on this plan has included the creation of an online reporting mechanism for hate crime on the internet.

Arrests

Chris Grayling: To ask the Secretary of State for the Home Department what estimate he has made of the number of citizens arrests made by the public in each of the last five years. [317668]

Alan Johnson: Information on citizens arrests is not collected centrally.

Arrests: Football

Chris Grayling: To ask the Secretary of State for the Home Department how many arrests on average were made at football matches in *(a)* each police force area and *(b)* England and Wales in each year since 2003. [317837]

Alan Johnson: Data on arrests in connection with football matches are collated and reported annually on the basis of club supported and type of offence, rather than geographical location of offence. The data for part *(a)*, therefore, are not collated centrally and could be obtained only at disproportionate cost. The Home Office annually publishes statistics for football-related arrests and football banning orders in England and Wales. These statistics for the football seasons 2003-04 to 2008-09 can be accessed on the Home Office website:

http://www.homeoffice.gov.uk/crime-victims/reducing-crime/football-disorder/index.html

Information in answer to part *(b)* is presented in the following table.

Average number of arrests per regulated football match in England and Wales

Football season	*Football related-arrests in England and Wales*	*Regulated football matches in England and Wales*	*Average arrests per regulated football match*
2003-04	3,826	2,433	1.573
2004-05	3,548	2,950	1.203
2005-06	3,274	2,974	1.101
2006-07	3,716	3,088	1.203
2007-08	3,812	3,132	1.217
2008-09	3,734	3,121	1.196

Crime

Chris Grayling: To ask the Secretary of State for the Home Department how many incidents of *(a)* arson, *(b)* violence against the person, *(c)* sexual offences, *(d)* robbery and *(e)* burglary have been recorded as having taken place on the grounds of (i) educational establishments and (ii) hospitals or medical centres in each year since 1998. [317578]

Alan Johnson: Information on the location in which violent offences are committed is not collected centrally.

Chris Grayling: To ask the Secretary of State for the Home Department in which constituencies the rate of *(a)* violent crime, *(b)* sexual offences and *(c)* robbery increased between 2002-03 and 2008-09. [317885]

Alan Johnson *[holding answer 22 February 2010]*: Information is not available in the form requested as police recorded crime data are not specifically collected at constituency level.

Crimes of Violence: Females

Mrs. May: To ask the Secretary of State for the Home Department how much was spent by his Department on the "Together we can end violence against women and girls" consultation *(a)* in total, *(b)* on production and distribution of the consultation document, *(c)* on opinion polling, *(d)* on mobile roadshows and *(e)* on production and distribution of the final strategy document. [316957]

Mr. Alan Campbell: Between March and May 2009 the Government undertook the largest ever cross-government consultation on violence against women and girls with the public and with frontline experts and staff.

The following funding was provided by the Government towards the violence against women and girls consultation:

(a) The total amount spent on the consultation process was approximately £425,000.

(b) Production and distribution of the consultation document came to £10,000.

(c) The MORI poll conducted cost £14,000.

(d) The amount spent on the mobile roadshows during the 12 week consultation, including staffing, was in the region of £380,000. This includes the following:

Nine regional stakeholder events attended by nearly 800 professionals;

On-line consultation questions—more than 5,000 surveys were completed and 2,930 consultation documents were downloaded.

We received approximately 1,000 e-mails to the consultation inbox.

25 focus groups facilitated by the Women's National Commission with over 300 particularly marginalised and disadvantaged women, including asylum seekers and refugees, women involved in prostitution and victims of domestic and sexual violence.

The roadshow bus which visited 40 towns across England. Approximately 20,000 leaflets were distributed and 2,400 surveys were returned.

In total 10,000 people responded to the consultation in person or online.

(e) The current production, distribution and launch costs of the final strategy document are £20,000. It is possible that due to high demand, further copies will need to be produced.

Cybercrime

Chris Grayling: To ask the Secretary of State for the Home Department how many powers relating to cybercrime have been *(a)* created and *(b)* amended by legislation sponsored by his Department since 1997. [317665]

Alan Johnson: The Government have amended the UK legislation relating to cybercrime, the Computer Misuse Act 1990, to ensure that the Act continues to be relevant as technology changes.

In the Police & Justice Act 2006

We broadened the definition of the Section 3 offence to clarify that all means of interference with a computer system are criminalised—in particular ensuring that adequate provision is made to criminalise all forms of denial of service (DoS) attacks.

We increased the maximum penalty for the Section 1 offence of unauthorised access to computer material to two years to better reflect the seriousness of these offences as more and more sensitive systems and information have external connections and also to ensure that the offence is extraditable.

We added the Section 3A offence, which created a new offence of making, adapting or supplying articles for use in computer misuse offences to discourage the market in the production and distribution of hacking tools.

In the Serious Crime Act 2007 Part 2 we created a new general offence of encouraging and assisting crime. This offence covers both online and offline offending and replaced the offence of enabling unauthorised access to computer material created in the Police and Justice Act.

Both of these Acts also contained a number of minor and consequential amendments to other parts of the Computer Misuse Act 1990.

Additionally, changes were made to territorial extent and the relevance of external law sections of the Computer Misuse Act, through the Criminal Justice (Terrorism & Conspiracy) Act 1998.

Departmental Advertising

Mr. Weir: To ask the Secretary of State for the Home Department how much was spent on advertising by *(a)* his Department and *(b)* each (i) non-departmental public body and (ii) executive agency for which his Department is responsible in 2009. [317653]

Mr. Woolas: The following table summarises the Home Office, the UK Border Agency (UKBA), Identity and Passport Service (IPS) and Criminal Records Bureau (CRB) forecast spend on advertising for the financial year 2009-10.

	£
Home Office	8,578,052
UKBA	[1]1,577,290
IPS	1,326,478
CRB	12,216

[1] UKBA spend includes an estimated £50,000 on advertising campaigns abroad.

The activity that has been scheduled may still be subject to alteration and the total for each media may change.

The figures quoted are for net media costs and do not include production costs or fees, except for the IPS spend which includes production costs for below the line advertising.

Recruitment advertising has not been included as it is not done centrally but carried out across the Department and hence spend could be obtained only at disproportionate cost.

Departmental Visits Abroad

Mr. Weir: To ask the Secretary of State for the Home Department what the cost to his Department of its international travel has been since May 2007. [317655]

Mr. Woolas: The expenditure incurred on overseas travel between May 2007 and January 2010 is set out in the table:

	£000
Home Office, including UKBA	9,480
Identity and Passport Service	250
Criminal Records Bureau	19
Total	9,749

The above numbers include both official and ministerial travel. All travel is undertaken in accordance with the civil service management code and the ministerial code.

Detection Rates: Greater Manchester

Mr. Crausby: To ask the Secretary of State for the Home Department what the crime detection rate was in *(a)* Bolton and *(b)* Greater Manchester in each of the last five years. [316014]

Mr. Alan Campbell: From 1 April 2007 the rules governing recording of non-sanction detections were revised to reduce the scope within which they can be claimed to a very small limited set of circumstances. For this reason the preferred method of presenting detections data is to use sanction detections. The sanction detection rates for all offences detected in Bolton and Greater Manchester from 2004-05 onwards are given in the table.

Detection rates are a ratio of crimes detected in a period to crimes recorded in a period. They are not based on tracking whether individual crimes recorded in a period have eventually been detected.

Sanction detection rates for all offences detected in the Bolton Metropolitan borough division and the Greater Manchester police force area

		Percentage detected
	Bolton Metropolitan borough division	*Greater Manchester police force area*
2004-05	20	20
2005-06	27	24
2006-07	27	24
2007-08	26	25
2008-09	22	25

Driving Offences

Mr. Lancaster: To ask the Secretary of State for the Home Department how many people in *(a)* Milton Keynes and *(b)* England were convicted of (i) a motoring offence that resulted in a fatality and (ii) careless driving in each of the last five years. [313949]

Mr. Alan Campbell: The number of defendants found guilty at all courts of offences of causing death by dangerous driving and offences of careless driving in the Thames Valley police force area and England, from 2004 to 2008 (latest available) is given in the table.

Court proceedings data are not available at town or local authority area level. Therefore data are included in the table for the Thames Valley police force area.

Data for 2009 are planned for publication in the autumn, 2010.

Number of persons found guilty at all courts in the Thames Valley police force area and England of causing death by dangerous driving[1] and various careless driving offences[2], in England from 2004-08[3]

	Year				
Area/offence	*2004*	*2005*	*2006*	*2007*	*2008*
Thames Valley					
Death by dangerous driving	12	12	19	24	16
Careless driving	673	754	798	884	2,975
England					
Death by dangerous driving	303	324	279	302	259
Careless driving	19,706	19,323	18,204	27,106	55,904

[1] Includes the offences of causing death by dangerous driving, causing death by careless or inconsiderate driving when drunk, causing death by careless or inconsiderate driving, causing death by careless or inconsiderate driving while unlicensed, disqualified or uninsured and aggravated vehicle taking where the driving of the vehicle causes an accident resulting in the death of any person.

[2] Includes the offences of driving without due care and attention or reasonable consideration for other road users, failure to comply with an order to stop a moving vehicle, use of hand held mobile phone while driving, causing or permitting the use of a mobile phone while driving a motor vehicle, Using a mobile phone while supervising the holder of a provisional driving licence to drive a motor vehicle on the road, breach of requirements as to control of vehicle, position which does not give proper control or full view of road and traffic ahead etc. and other careless driving offences and racing.

[3] Excludes convictions for Cardiff magistrates court for April, July and August 2008.

Note:

1. The statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.
2. Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Source:

Justice Statistics Analytical Services—Ministry of Justice. [Ref. IOS 47-10, PQC 313949].

Driving Offences: M4

Mr. Swire: To ask the Secretary of State for the Home Department how many drivers have received a fixed penalty notice for using the bus lane on the M4 in each of the last five years. [317194]

Mr. Alan Campbell: The information requested is not available.

Data on fixed penalty notices for traffic offences reported to the Home Office are broken down by police force area only, and do not specify the specific location where offences took place.

Driving Under Influence

Chris Grayling: To ask the Secretary of State for the Home Department how many breathalyser tests were conducted by the police on drivers in each police force area in each year since 1998; and how many people *(a)* passed, *(b)* failed and *(c)* refused to take that test in each such area in each such year. [317949]

Alan Johnson: The figures requested are shown in the following tables. The latest published year is 2007. Figures for tests failed and refusals are combined as they are not reported separately to the Home Office.

Keith Vaz: To ask the Secretary of State for the Home Department when the Minister with responsibility for entry clearance last visited *(a)* Tirana, *(b)* Kiev and *(c)* Chisinau. [317917]

Mr. Woolas: To date I have not visited the visa sections in Tirana, Kiev and Chisinau.

Keith Vaz: To ask the Secretary of State for the Home Department on average how long it took for an explanatory statement relating to a visa decision to be sent to London from *(a)* Tirana, *(b)* Kiev and *(c)* Chisinau in the latest period for which figures are available. [317918]

Mr. Woolas: During 2009, the average length of time that it took for an Entry Clearance Officer's explanatory statement to be sent to the Asylum and Immigration Tribunal from our visa sections in *(a)* Tirana, *(b)* Kiev and *(c)* Chisinau following receipt of an appeal, was as follows:

Average time to despatch Explanatory Statements—2009

	Weeks
Tirana	10
Kiev	8
Chisinau	10

Entry Clearances: Married People

Mr. Oaten: To ask the Secretary of State for the Home Department what percentage of applications for spouse settlement visas was rejected in each of the last five years; how much revenue accrued in fees in respect of reapplications; and what the percentage increase in fee charges was in each of the last five years. [317561]

Mr. Woolas *[holding answer 22 February 2010]:* The following table shows the percentage of applications for spouse/civil partner settlement visas that were refused in each of the last five financial years:

FY	*Percentage refused*
2004-05	15
2005-06	16
2006-07	16
2007-08	19
2008-09	21

Source:
Internal management information—International Group

Revenue accrued in respect of re-submissions cannot be provided as it is not possible to extract this information from the recording system.

The following table shows the percentage increase for fee charges for spouse settlement visas in each of the last five financial years.

	Percentage fee increase	*Fee (£)*
2004-05	0	260
2005-06	0	260
2006-07	0	260
2007-08	92	500
2008-09	3	515

Published Fee Rates

Entry Clearances: Overseas Students

Mr. Frank Field: To ask the Secretary of State for the Home Department how many tier 4 student applications are pending in each consulate in the Indian sub-continent as a result of the suspension of processing; how many dependants are included in such applications; whether such applications will be considered against the criteria in force at the time of their application or under the new criteria; and whether applicants enrolled in education institutions which have subsequently had their licence to sponsor suspended or revoked will be refused a visa. [317851]

Mr. Woolas: The suspension of tier 4 student visa applications in north India, Bangladesh and Nepal on 1 February means that we are not accepting any new applications in this category. No applications, including those from dependants, are therefore pending as a result of the suspension.

Applications submitted before 1 February are being processed as normal against the criteria in force at the time of their application.

The suspension will be lifted in north India from 1 March for tier 4 students intending to undertake higher education courses (foundation degree, undergraduate, postgraduate).

Applicants intending to study at educational institutions which have had their sponsor licence subsequently revoked will not meet the requirements for entry and will be refused a visa. In cases where the sponsor licence has been suspended, a decision on the visa application will be deferred until a decision is made on whether to revoke or re-instate the licence.

Firearms and Explosives: Licensing

Chris Grayling: To ask the Secretary of State for the Home Department how many certificates were issued for *(a)* firearms and *(b)* explosives in each year since 1998. [317759]

Alan Johnson: Available data on firearm and shotgun certificates granted in England and Wales relating to new and renewal applications are given on Table A. These are taken from the most recent Home Office Statistical Bulletin on firearm certificates, which is available at:

http://www.homeoffice.gov.uk/rds/pdfs09/hosb0509.pdf

Due to the transition from in-force data collection systems to the National Firearms Licensing Management System (NFLMS) in 2006, firearm certificates data for 2006-07 are not available centrally. Data for 2008-09 are scheduled for publication on 25 March 2010.

Available information on explosive certificates granted by police forces in England and Wales for acquisition and keeping and acquisition only relates to the period 1998 to 2005-06 and is given in Table B. Data from 2006-07 to 2008-09 cannot be provided due to disproportionate cost. The Home Office ceased collection of explosive certificates data in 2009-10.

Table A: Firearm and shotgun certificates granted, new and renewal applications: England and Wales, 1998 to 2007-08

Number (rounded)

	Firearms		*Shotguns*	
	New applications	*Renewal applications*	*New applications*	*Renewal applications*
1998	5,900	[1]1,600	16,900	[1]6,600
1999	5,000	[1]250	15,600	[1]2,500

[1] Excludes data from Metropolitan, Staffordshire and South Yorkshire police forces.

[2] Excludes data from Hertfordshire police.

Football Banning Orders

Chris Grayling: To ask the Secretary of State for the Home Department how many football banning orders were *(a)* issued and *(b)* breached in each year since 2003. [317835]

Alan Johnson: The data requested are gathered and reported in accordance with the period of a football season rather than calendar year. The following table provides the number of football banning orders imposed during each football season since 2003-04 and the number of arrests for breach of an order. The data provide no distinction between low-level technical breaches or a substantive breach involving attempted attendance at a regulated football match at home or abroad.

Number of football banning orders (a) issued and (b) breached in each football season since 2003-04

Football season	*Football banning orders issued*	*Arrests for breach of football banning order*
2003-04	1,263	63
2004-05	970	60
2005-06	995	39
2006-07	644	56
2007-08	1,048	80
2008-09	956	84

Forced Marriage

Mr. Evans: To ask the Secretary of State for the Home Department (1) what steps his Department is taking to reduce the incidence of vulnerable people being forced to marry against their will as a result of a financial agreement between family members and a foreign national; [317260]

(2) what estimate he has made of the number of vulnerable people who have been forced to marry against their will as a result of a financial agreement between their family members and a foreign national seeking UK citizenship. [317261]

Mr. Alan Campbell: The Forced Marriage Unit (FMU) provides confidential information and assistance to potential victims of forced marriage, those who have already been forced to marry and concerned professionals. The FMU also works with partners both in the UK and overseas to ensure that appropriate action is taken to prevent forced marriage from taking place.

In the last two years over 1,600 incidences of suspected forced marriage were reported in each year to the FMU. Forced marriage is, by its nature, an underground practice and therefore detailed statistics on the scale of the problem and patterns of abuse are not fully known. While the FMU is aware of some of the key motivators for forcing a person to marry and has seen cases where both these issues appear to be a factor among those with learning and physical disabilities, we do not collect specific data on the motivators as it is not always possible to clearly identify one particular cause.

However, data on the number of suspected incidences of forced marriage that involved a person with learning and or physical difficulties have been collected since August 2009. From August 2009 to the end of January 2010 at least 18 cases involving people with learning difficulties and seven cases involving people with physical difficulties were reported to the FMU.

In July last year the FMU published revised Multi-agency Practice Guidelines which provide step by step guidance for frontline professionals on how to deal with cases of forced marriage, including cases that may involve children and adults with support needs.

The FMU is also funding research to look at the prevalence of forced marriage among those with learning disabilities. One of the objectives of the research will be to examine the motivations for forcing people with learning difficulties into marriage.

Homicide: Children

Chris Ruane: To ask the Secretary of State for the Home Department how many homicides *(a)* of and *(b)* by children there have been in each of the last 30 years; and what assessment he has made of trends in the levels of such homicides. [317967]

Mr. Alan Campbell *[holding answer 22 February 2010]*: Available information is from the Homicide Index as at 24 November 2009 and relates to the number of currently recorded homicides in England and Wales: *(a)* where the victim was aged under 16; and *(b)* where the principal suspect was aged under 16. Data are shown according to the year in which offences were initially recorded as homicide; this is not necessarily the year in which the offence took place or the year in which any court decision was made.

The number of homicides involving victims aged under 16 in England and Wales fluctuated quite substantially between 1979 and 2008-09, peaking at 101 offences in 1985 and dipping to 48 offences in 2005-06. However, due to the relatively small numbers, considerable year-on-year variation is to be expected. On average, there have been 75 such homicides per year over the 30-year period. The lower numbers recorded in the last few years are in keeping with the lower number of overall homicides.

Homicides where the principal suspect was aged under 16 are rare, accounting for between 1 and 4 per cent. of all currently recorded homicides each year between 1979 and 2008-09. As with homicide victims aged under 16, the number has fluctuated during this period, and slight year-on-year variations are to be expected.

Currently recorded homicides[1]: England and Wales, 1979 to 2008-09[2]

		Number of recorded crime
Year[3]	*Victim aged under 16 years*	*Principal suspect aged under 16 years*
1979	90	9
1980	74	22
1981	81	7
1982	90	13
1983	74	9
1984	82	7
1985	101	12
1986	60	8
1987	77	7
1988	96	4
1989	62	7
1990	67	10
1991	93	7
1992	68	9
1993	70	7
1994	76	10
1995	80	12
1996	80	9
1997	82	12
1997-98	71	9
1998-99	78	7
1999-2000	65	11
2000-01	95	11
2001-02	62	12
2002-03	91	9
2003-04	70	8
2004-05	60	9
2005-06	48	18
2006-07	64	12

Currently recorded homicides[1]: England and Wales, 1979 to 2008-09[2]

		Number of recorded crime
Year[2]	Victim aged under 16 years	Principal suspect aged under 16 years
2007-08	63	15
2008-09	50	10

[1] As at 24 November 2009; figures are subject to revision as cases are dealt with by the police and by the courts, or as further information becomes available.

[2] Data are shown according to the year in which offences were initially recorded as homicide. This is not necessarily the year in which the offence took place, or the year in which any court decision was made.

Homicide: Reoffenders

Chris Grayling: To ask the Secretary of State for the Home Department how many people convicted of homicide had a previous conviction for homicide at the time of their sentencing in each of the last five years. [317667]

Alan Johnson: Available information is from the Homicide Index and was included in table 1.11 of Home Office Statistical Bulletin 01/10, available at:

http://www.homeoffice.gov.uk/rds/pdfs10/hosb0110.pdf

Data throughout the homicide chapter reflect the position as at 24 November 2009 and are shown according to the year in which offences were initially recorded as homicide; this is not necessarily the year in which the offence took place or the year in which any court decision was made.

Suspects convicted of homicide with previous homicide conviction[1]: England and Wales, 2004-05 to 2008-09

Year offence initially recorded as homicide[2]	Number
2004-05	4
2005-06	[3]8
2006-07	[3]2
2007-08	[3]1
2008-09	—

[1] As at 24 November 2009; figures are subject to revision as cases are dealt with by the police and by the courts, or as further information becomes available.

[2] Data are shown according to the year in which offences were initially recorded as homicide. This is not necessarily the year in which the offence took place, or the year in which any court decision was made.

[3] In addition, one suspect who committed suicide had previously been convicted of homicide.

Immigration: Fraud

Daniel Kawczynski: To ask the Secretary of State for the Home Department how many foreign-born nationals have been permitted to retain *(a)* their UK citizenship and *(b)* indefinite leave to remain subsequent to their documentation being found to be fraudulent in each year since 2005. [317731]

Mr. Woolas: The information requested as to how many were permitted to retain citizenship since 2005 could be obtained by the detailed examination of individual records only at disproportionate cost. Although no one has been deprived of British citizenship, on the basis that that status was acquired on the basis of fraud, since 2005, the UK Border Agency has recently implemented a new deprivation policy and is pursuing deprivation action in a number of cases.

As regards indefinite leave to remain, a person who obtains (or seeks to obtain) leave to remain by deception is liable to removal under section 10 of the Immigration and Asylum Act 1999. We do not however have records for those that have been identified as using deception but have none the less been allowed to retain their indefinite leave to remain, as these could be obtained by the detailed examination of individual records only at disproportionate cost.

Offenders: Deportation

Chris Grayling: To ask the Secretary of State for the Home Department what the average period of time taken to deport time-served foreign prisoners held in the UK Border Agency's detention estate was in each year since 1998. [317663]

Alan Johnson: For those foreign national prisoners removed in 2007, 2008 and the first three quarters of 2009, the average length of time taken to remove once they have completed their sentence is approximately 27 weeks. This figure includes those who had been detained for a longer period while legal, country specific or documentation issues were addressed. Accurate figures relating before 2007 are not available and could only be obtained by investigating individual case-files. This would incur a disproportionate cost.

This information is from internal management information systems and should therefore be treated as provisional and subject to change.

Offensive Weapons

Chris Grayling: To ask the Secretary of State for the Home Department how many *(a)* new and *(b)* amended powers relating to the possession of a concealed weapon have been created by legislation sponsored by his Department since 1997. [317608]

Alan Johnson: The law relating to the criminal use of both offensive weapons and firearms has been strengthened in a number of areas since 1997. The changes to the law do not make a distinction between concealed and non-concealed weapons.

Passports: Older People

Mr. MacShane: To ask the Secretary of State for the Home Department if he will introduce free passports for people aged 75 years or more. [317111]

Meg Hillier: A free passport scheme was introduced as a special concession to second world war veterans who were attending 60th anniversary commemorative events in 2004. This was extended to cover all those who may have made a contribution to the overall war effort, whether or not they had served in the armed forces. It therefore applies to those who were born on or before 2 September 1929 and so would have been aged 16 or over at the end of the war.

The present free passport scheme is not an age-based concession and there are no plans to introduce free passports for people aged 75 or over. This would be considerably more expensive and could require an increase in passport fees for other applicants.

Police Community Support Officers: Assaults on Police

Chris Grayling: To ask the Secretary of State for the Home Department how many assaults upon police community support officers have been recorded in each of the last five years. [317664]

Alan Johnson: Data for the numbers of assaults on police community support officers for 2005-06 to 2008-09 are provided in the following table.

For 2004-05 assaults data are not available separately for PCSOs. Data for the numbers of assaults on police officers, PCSOs and other operational support staff combined for 2004-05 can be seen in the HMIC Annual Report, available in the Library of the House and from:

http://www.official-documents.gov.uk/document/hc0506/hc08/0842/0842.pdf

The increase in assaults should be considered in the light of the 144 per cent. increase in the number of police community support officers in post from 6,769 in 2005-06 to 16,507 in 2008-09.

Assaults[1] on Police Community Support Officers 2005-06 to 2008-09[2]

Force	2005-06 Fatal injury	2005-06 Serious injury	2005-06 Minor or no injury	2006-07 Fatal injury	2006-07 Serious injury	2006-07 Minor or no injury	2007-08 Fatal injury	2007-08 Serious injury	2007-08 Minor or no injury	2008-09 Fatal injury	2008-09 Serious injury	2008-09 Minor or no injury
South Wales[4]	—	—	—	—	—	—	—	—	—	0	0	8

[1] Provisional data collated on behalf of HMIC. Serious assaults are those for which the charge would be under Sections 18 and 20 of the Offences Against the Person Act 1861. Other assaults include those with minor or no injury. Recording practices may vary over time and between forces.

[2] Financial year runs 1 April to 31 March inclusive.

[3] Cheshire and Warwickshire were not able to provide data from the HR recording system. Data are therefore taken from the crime system and are not comparable with that from other forces.

[4] Cambridgeshire, Cheshire, Cleveland, Cumbria, North Yorkshire and South Wales were not able to provide data for one or more years.

[5] Derbyshire in all years and Devon and Cornwall in 2005-06 only were not able to separately identify the degree of assault. All assaults figures for affected years are given in the minor or no injury category.

[6] Dyfed-Powys were not able to provide consistent figures for the reporting period, and data for each year are therefore not comparable.

Police: Finance

Chris Grayling: To ask the Secretary of State for the Home Department with reference to the answer of 5 February 2008, *Official Report*, columns 997-1004W, on police: finance, what the equivalent data are for 2008-09. [317606]

Alan Johnson: The information requested is set out in the following table.

Budget requirement is set before the start of the year.

The Government do not distribute grant to police authorities purely on the basis of population. The police funding formula uses a range of data relating to demographic and social characteristics to reflect the relative needs of each police authority. Police grant allocations by the Department for Communities and Local Government and the Welsh Assembly Government also take into account the relative tax base of each police authority. Grant allocations are stabilised by damping to limit year-on-year variations.

2008-09 data

Police authority	Budget requirement (£ million)	Resident population (million)
Avon and Somerset	259.47	1.58
Bedfordshire	96.06	0.60
Cambridgeshire	120.65	0.77
Cheshire	168.06	1.01
Cleveland	124.62	0.56
Cumbria	97.40	0.50
Derbyshire	157.22	1.00

West Yorkshire	410.97	2.17
Metropolitan	2,595.00	7.59
City of London	64.12	0.01
Dyfed-Powys	86.96	0.51
Gwent	114.30	0.57
North Wales	129.42	0.68
South Wales	240.30	1.23
England and Wales total	10,833.99	54.21

Sources: Budget Requirement—BR Forms. DCLG—English police authorities. WAG—Welsh police authorities. *Population—ONS* The projected populations for 2008 in the table were used in the 2008-09 police grant settlement.

Police: Schools

Chris Grayling: To ask the Secretary of State for the Home Department on how many occasions police officers have been called out to educational establishments in *(a)* each police force area and *(b)* England and Wales in each year since 1998. [317589]

Alan Johnson: The figures requested are not collected centrally.

Police: South Yorkshire

Mr. MacShane: To ask the Secretary of State for the Home Department how many *(a)* police officers there were in (i) 1997, (ii) 2001, (iii) 2005 and (iv) 2009 and *(b)* police community support officers there were in (i) 2005 and (ii) 2009 in South Yorkshire. [317108]

Mr. Alan Campbell: The figures requested are shown in the following table.

Number of full-time equivalent (FTE) police officers and police community support officers (PCSOs) in post in South Yorkshire

As at 31 March each year	Officers[1]	PCSOs
1997	3,159	—
2001	3,197	—
2005	3,265	125
2009	3,017	328

[1] Number of FTE police officers less staff on career breaks and maternity leave.

Prosecutions

Mr. Evans: To ask the Secretary of State for the Home Department how many prosecutions there have been in respect of attempts to assist people to enter the UK illegally in each of the last five years. [317259]

Mr. Woolas: Statistics on persons proceeded against for offences under the Immigration Acts 1971 to 2006 in England and Wales by offence description are provided by the Ministry of Justice and are published annually. Information for 2004 to 2008 has been published in Table 3.4 of the Control of Immigration: Statistics, United Kingdom—2008 publication which are available from the Library of the House and from the Home Office's Research, Development and Statistics website at:

http://www.homeoffice.gov.uk/rds/immigration-asylum-stats.html

Prosecutions: West Lancashire

Rosie Cooper: To ask the Secretary of State for the Home Department how many prosecutions have been sought as a direct result of evidence gained using CCTV cameras in West Lancashire constituency in each of the last six years. [317796]

Mr. Alan Campbell: The information my hon. Friend requests is not held centrally.

The National Policing Improvement Agency (NPIA) and Cheshire constabulary are conducting a qualitative analysis of recorded crime data and case files in Cheshire. This is in order to determine the value of CCTV to investigations carried out in that particular police force area. This work will be used to assist in further consideration of the criteria that should be applied in other areas of England and Wales by police, local authorities and others in assessing the contribution of CCTV to crime detection, crime reduction and public confidence.

Sexual Offences

Chris Grayling: To ask the Secretary of State for the Home Department how many registered sex offenders were found not to be living at their registered address in the last five years. [317771]

Alan Johnson: These data are not collected in the format requested and could be collated only at disproportionate cost.

UK Border Agency: Manpower

Damian Green: To ask the Secretary of State for the Home Department how many UK Border Agency staff there were at civil service grade *(a)* 5, *(b)* 6 and *(c)* 7 on 1 January 2010. [317151]

Mr. Woolas: The civil service grade 5 has been incorporated into the Senior Civil Service and no longer exists. The numbers of UK Border Agency staff, including temporary cover arrangements, on 1 January 2010 at *(a)* SCS are 79, *(b)* grade 6 are 187 and *(c)* grade 7 are 605. These numbers are full-time equivalents rounded to the nearest whole number.

WORK AND PENSIONS

Child Maintenance and Enforcement Commission: Surveillance

Mr. Stewart Jackson: To ask the Secretary of State for Work and Pensions for what surveillance powers under the Regulation of Investigatory Powers Act 2000 the Child Maintenance and Enforcement Commission has applied; and whether it has applied for powers of entry. [314947]

Helen Goodman: The Child Maintenance and Enforcement Commission is responsible for the child maintenance system. I have asked the Child Maintenance Commissioner to write to the hon. Member with the information requested and I have seen the response.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Maintenance and Enforcement Commission, the Secretary of State promised a substantive reply from the Child Maintenance Commissioner.

You asked the Secretary of State for Work and Pensions, for what surveillance powers under the Regulation of Investigatory Powers Act 2000 the Child Maintenance and Enforcement Commission has applied; and whether it has applied for powers of entry. [314947]

The Commission is seeking authority under the Regulation of Investigatory Powers Act 2000 to undertake directed surveillance (the surveillance of individuals in a public place for the purposes of a specific investigation) and access to communications data relating to the "subscriber" of a communications provider. This could include personal information, such as bank account details, when investigating alleged criminal offences.

The Commission is not seeking powers of entry.

I hope that you find this answer helpful.

Departmental Billing

John Mason: To ask the Secretary of State for Work and Pensions what proportion of invoices from suppliers her Department paid within 10 days of receipt in December 2009. [311265]

Jim Knight: The Department for Work and Pensions paid 97 per cent. of all valid invoices within 10 days of receipt in December 2009.

Departmental Food

Mr. Paice: To ask the Secretary of State for Work and Pensions what estimate she has made of the quantity of food waste generated by her Department in each year for which figures are available. [310814]

Jonathan Shaw: The quantity of food waste generated by the Department in each year for which figures are available is:

Financial year	*Food waste (kgs)*
2008-09	39,755
2009-10	51,489

The figures cover waste from the preparation of food, waste from service counters and customer plate waste. There has been an increase in counter sales for 2009-10 of 6 per cent. compared with the same period in 2008-09. This may account for the food waste increase in 2009-10.

Departmental Legislation

Chris Huhne: To ask the Secretary of State for Work and Pensions what criminal offences have been *(a)* created and *(b)* abolished by secondary legislation sponsored by her Department since 1 May 2008. [307791]

Jim Knight: Since 1 May 2008, the following criminal offences have been created by secondary legislation sponsored by the Department for Work and Pensions:

Regulation 9 of the Child Support Information Regulations 2008 exercises the power in section 14A(3A) of the Child Support Act 1991 (inserted by section 36 of the Child Maintenance and Other Payments Act 2008) imposing a duty on persons liable to make payments of child support maintenance to notify a change of address. Any failure to comply with that duty is an offence under section 14A(3A) of the 1991 Act.

Regulation 25AC of the Child Support (Collection and Enforcement) Regulations 1992 designates certain regulations. Those regulations, inserted by the Child Support Collection and Enforcement (Deduction Orders) Amendment Regulations 2009, contain duties upon certain persons and a failure to comply with those duties is an offence. The duties are:

(i) notifications required to be given to the Child Maintenance and Enforcement Commission ("the Commission") by deposit-takers on which a regular deduction order has been served (regulation 25 E (1) to (5));

(ii) compliance with a regular deduction order which has been varied and served on a deposit-taker (regulation 25 I (4));

(iii) a requirement on deposit-takers on which a lump sum deduction order has been served to provide information (regulation 25 O (1) to (5));

(iv) a duty to comply with a lump sum deduction order as varied (regulation 25 R (3));

(v) a requirement on a deposit-taker on which a deduction order is directed to pay amounts deducted under the order to the Commission (regulation 25 AA (1)).

Since 1 May 2008, no criminal offences have been abolished by secondary legislation sponsored by the Department for Work and Pensions.

Disability Living Allowance

Steve Webb: To ask the Secretary of State for Work and Pensions how many people in each of the smallest geographical units for which figures are available claimed the higher rate care component of disability living allowance on the ground of terminal illness in 2008-09. [310725]

Jonathan Shaw: The information is in the table.

Disability living allowance—cases recorded with a higher rate care component paid on the grounds of terminal illness by Government Office Region in the 4 quarters to May 2009

Government Office Region	*August 2008*	*November 2008*	*February 2009*	*May 2009*
North East	2,700	2,600	2,400	2,400
North West	6,700	6,600	6,100	6,400
Yorkshire and the Humber	3,700	3,500	3,700	4,000
East Midlands	3,000	2,900	2,900	3,300
West Midlands	3,900	3,400	3,500	3,400
East of England	3,400	3,200	3,200	3,100
London	4,400	3,900	3,500	3,600
South East	4,100	4,100	4,100	4,200
South West	3,100	2,500	2,500	2,800
Wales	2,500	2,200	2,400	2,300
Scotland	3,900	3,300	3,500	3,600

Disability living allowance—cases recorded with a higher rate care component paid on the grounds of terminal illness by Government Office Region in the 4 quarters to May 2009

Notes:

1. The preferred statistics on benefits are now derived from 100 per cent. data sources. However, the 5 per cent. sample data still provide some detail not yet available from the 100 per cent. data sources, in particular, more complete information on the disabling condition of disability living allowance claimants. DWP recommends that, where the detail is only available on the 5 per cent. sample data, or disabling condition for disability living allowance is required, the proportions derived should be scaled up to the 100 per cent. total for the benefit.

2. Figures have been rated to agree with Work and Pensions Longitudinal Study totals and are rounded to the nearest hundred.

3. Figures show the number of people in receipt of an allowance, and exclude people with entitlement where the payment has been suspended, for example if th[illegible] are in hospital.

S[illegible]

DW[illegible]ion Directorate 5 per cent sample.

Electronic Government: Advertising

Mr. Hurd: To ask the Secretary of State for Work and Pensions what the budget is for the Direct.gov television advertising campaign launched on 4 January 2010; and which celebrities were employed to feature in the campaign. [315699]

Jim Knight: Directgov has the potential to enable Government to make substantial savings in shifting from traditional to digital channels. For those savings to be realised, it is vital that the public are aware of and trust Directgov as the Government's official website. The aim of the campaign is to increase awareness so that Directgov is the first site people think of for Government information, and one which they both trust and recommend to others. Early results have shown the campaign has been a success with a record number of 614,000 visits on the first day of the campaign which was then followed by another 663,000 the next Monday. During the period of the campaign to date, year-on-year visits to the Directgov homepage have risen by 104 per cent.

The cost of production and airtime purchased to date combined is £2.05 million.

The artists featured in the Directgov advertisement are Nick Moran, Honor Blackman, Janet Street Porter, Christopher Biggins, Kelly Brook and Graham McPherson (popularly known as 'Suggs'). Helen Mirren provided the voiceover.

Negotiations on the involvement of these artists in the project were conducted by the COI and all of the above agreed to participate in the advert for a fraction of their normal commercial rate.

Electronic Government: Publicity

Mr. Watson: To ask the Secretary of State for Work and Pensions how much her Department paid to each *(a)* actor, *(b)* musician and *(c)* other performer used to support the directgov advertisement, Go DirectGov. [310351]

Jim Knight: We are unable to provide information for individual actors, musicians or other performers. This information is market-sensitive and revealing it would weaken the potential for future earnings of those who appeared in the adverts.

Negotiations on the involvement of these artists in the project were conducted by the COI and all of the above agreed to participate in the advert for a fraction of their normal commercial rate.

Directgov has the potential to enable Government to make substantial savings in shifting from traditional to digital channels. For those savings to be realised, it is vital that the public are aware of and trust Directgov as the Government's official website. The aim of the advertisements is to increase awareness so that Directgov is the first site people think of for Government information, and one which they both trust and recommend to others.

Employers' Liability

Paul Rowen: To ask the Secretary of State for Work and Pensions what recent discussions her Department has had with the Association of British Insurers on the employers' liability insurance tracing scheme. [316772]

Jonathan Shaw: The Government want to see more done to ensure that individuals who are unable to trace insurers are given support. To this end the Government have had some very helpful discussions with a range of stakeholders, including the Association of British Insurers, on the possibility of setting up a database of employers' liability insurance.

We have today published a consultation document 'Accessing Compensation—Supporting people who need to trace Employers' Liability Insurance'. The consultation covers the best way of setting up and administering an Employers' Liability Tracing Office, including a compulsory electronic database for keeping records of future employers' liability policies that can be searched by claimants and their representatives. We are also consulting on establishing an Employers' Liability Insurance Bureau, a fund of last resort for those unable to trace an insurance policy.

We will seek to work with the Association of British Insurers and others to drive forward the establishment of the tracing office. We envisage such a system would eventually provide a complete record of all employers' liability policies issued and should be easily accessible to those who need to trace such policies.

Employment and Support Allowance

Mr. Oaten: To ask the Secretary of State for Work and Pensions whether she has set any targets for the assessment of individuals for the employment support allowance. [312482]

Jonathan Shaw: There are no targets for the number of individuals assessed as eligible for employment and support allowance.

Mr. Harper: To ask the Secretary of State for Work and Pensions what administrative processes are in place to inform claimants of employment and support allowance of the outcome of their benefit claims; and what processes are in place to ensure that claimants are informed of an unsuccessful claim before existing benefit payments are *(a)* stopped and *(b)* reduced. [316097]

Jonathan Shaw *[holding answer 3 February 2010]:* The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Darra Singh. I have asked him to provide the hon. Member with the information requested.

Letter from Darra Singh:

The Secretary of State has asked me to reply to your question asking what administrative processes are in place to inform claimants of Employment and Support Allowance of the outcome of their benefit claims; and what processes are in place to ensure that claimants are informed of an unsuccessful claim before existing benefit payments are (a) stopped and (b) reduced. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

If a customer claims Employment and Support Allowance and is entitled to this benefit, an award notice is issued to the customer by post. If a customer is not entitled to Employment and Support Allowance a decision notice is issued to the customer. The notice includes reasons for the disallowance and details of their right to a reconsideration of the decision and, where appropriate, to an appeal. Where a customer is receiving Employment and Support Allowance and their entitlement ends or reduces, for example on a change of circumstances, the customer is notified of the decision and any appeal rights which may apply. Customers are normally notified in advance of any reduction in benefit entitlement but this is not always possible, particularly if the change takes effect from a past date.

In most cases the process is automated with the vast majority of notifications generated by IT systems and delivered by post. However, where we know the customer has a mental health condition, arrangements are in place to visit them before any decision on their case is made.

I hope this information is helpful.

Employment Schemes: Graduates

Mr. Clappison: To ask the Secretary of State for Work and Pensions what forecast she has made of the take-up by graduates of the Graduate Guarantee in the next 12 months; and how many *(a)* internships and *(b)* training places she expects to be made available under the scheme in the next 12 months. [315670]

Jim Knight: In November 2009 the Prime Minister announced that the Government will guarantee access to an internship, training or help to become self-employed to all new graduates reaching six months of unemployment.

The Graduate Guarantee is based on:

The 20,000 graduate internships available through the Graduate Talent Pool (open to all graduates, from now);

The training options available through the Six Month Offer and Young Person's Guarantee;

Help to become self employed through Higher Education Funding Council for England's Economic Challenge Investment Fund and Flying Start; and

The business start-up support offered through the self employment option of the Six Month Offer.

We have not made forecasts of the take-up of each of these offers by graduates but we have guaranteed a place for every graduate who wants one.

Jobcentre Plus: Ethnic Groups

Mr. Harper: To ask the Secretary of State for Work and Pensions when her Department commissioned the Institute for Fiscal Studies to undertake its review of ethnic parity in Jobcentre Plus; when she expects that review to be published; and how much funding her Department has allocated to that review. [316779]

Jim Knight: *[holding answer 10 February 2010]:* The Institute for Fiscal Studies has completed the review and the report was published as "Estimating ethnic parity in Jobcentre Plus programmes: A quantitative analysis using the Work and Pensions Longitudinal Study (WPLS)". It was published as part of the Department's research series in 2008.

The contract with the Institute for Fiscal Studies was for £99,702.

A copy of this has been placed in the Library.

Jobcentre Plus: ICT

Mr. Harper: To ask the Secretary of State for Work and Pensions what user acceptance testing has been performed on the job search portals located in Jobcentre Plus offices; what existing bugs have been identified in the Jobsearch IT system in the last 12 months; and if she will make a statement. [316100]

Jonathan Shaw: When DWP IT systems such as job search portals are developed and implemented they are subject to a rigorous testing regime including user acceptance testing. In the last 12 months there have been eight reported defects, all of which have been rectified.

Jobcentre Plus: Manpower

Mr. Harper: To ask the Secretary of State for Work and Pensions how many and what proportion of Jobcentre Plus staff have been employed *(a)* up to one year, *(b)* between one and two years, *(c)* between two and three years, *(d)* between three and five years and *(e)* for five years or more. [314937]

Jim Knight *[holding answer 2 February 20010]:* The administration of Jobcentre Plus is a matter for the Chief Executive, Darra Singh, have asked him to provide the hon. Member with the information requested.

Letter from Darra Singh:

The Secretary of State has asked me to reply to your question asking how many and what proportion of Jobcentre Plus staff have been employed *(a)* up to one year; *(b)* between one and two years, *(c)* between two and three years; *(d)* between three and five years; and *(e)* for five years or more. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

The following table provides the details you requested. The information relates to September 2009.

Duration	*Headcount*	*Percentage*
Up to 1 year	16,739	19
Between 1 and 2 years	4,289	5
Between 2 and 3 years	2,356	3
Between 3 and 5 years	3,714	4
5 years and more	63,219	69

The high proportion of staffing in the 'up to 1 year' category reflects recruitment levels into Jobcentre Plus over recent months to deal with rising workloads as a result of the economic downturn. The majority of these people were recruited on either Fixed Term or Temporary contracts.

National Identity Fraud Unit: Manpower

Jim Cousins: To ask the Secretary of State for Work and Pensions how many staff were assigned to the National Identity Fraud Unit in each location in each of the last five years. [313256]

Helen Goodman: The available information is in the tables.

In January 2009, the National Identity Fraud Unit was reorganised from one centralised unit in Newcastle into three separate units located in London, the Isle of Wight and Glasgow. Staffing data provided from April 2006 to March 2009 have been obtained from locally held work force management information. From April 2009 the National Identity Fraud Unit's staffing activities were recorded on our Activity Based Modelling System and the data provided from April 2009 to December 2009 have been sourced from this system.

There are no available data prior to April 2006.

Staffing—National Identity Fraud Unit—Newcastle (April-October)

	2008-09	*2007-08*	*2006-07*
April	18.00	19.42	18.19

New Deal Schemes

Mrs. May: To ask the Secretary of State for Work and Pensions (1) how many people have been referred to the flexible new deal scheme since 6 October 2009; [304398]

(2) how many people unemployed for 12 months or more since April 2009 have not been referred to a flexible new deal provider in phase one areas. [304399]

Jim Knight: The flexible new deal started on 5 October and data are only starting to feed through. The Department is working to guidelines set by the UK Statistics Authority to ensure we are able to publish statistics that meet high quality standards at the earliest opportunity. We intend to publish headline Official Statistics from early 2010.

Pathways to Work

Mr. Harper: To ask the Secretary of State for Work and Pensions if she will integrate Access to Work assessments more closely with Pathways to Work providers. [315716]

Jonathan Shaw: *[holding answer 4 February 20010]:* Access to Work is a form of 'in work' support. As such there are no plans to integrate it more closely with Pathways providers. In those situations where the right type of support cannot be easily established Access to Work will use the services of contracted external assessors.

Access to Work is available to disabled people moving into paid work, including people who have been taking part in Pathways to Work and other employment programmes, as well as people already in work. Access to Work can provide practical advice and support to the disabled person and their employer to help them overcome work-related obstacles resulting from disability, for example by funding specialist equipment, a support worker or communication support at a job interview.

The White Paper "Building Britain's Recovery: Achieving Full Employment" set out a range of improvements to Access to Work. As published, we are currently discussing these proposed improvements with stakeholders, for a staged implementation starting in April 2010.

The proposed improvements include better targeting at customers further from the labour market, including people with learning disabilities and mental health conditions. The proposals also include targeting people working for smaller employers, who are currently under-represented on the programme, and to offer a 'certificate of eligibility' so that a person can indicate their eligibility for Access to Work assistance to a prospective employer.

Pensions

Steve Webb: To ask the Secretary of State for Work and Pensions how many *(a)* public and *(b)* private sector employees were contracted out into defined benefit pension schemes that offered benefits better than the minimum requirements for guaranteed minimum pensions in 1996-97. [317191]

Angela Eagle: The legislation in place between 1978 and 1997 required a contracted out defined benefit scheme to provide a guaranteed minimum pension (GMP). It was a matter for the trustees and/or sponsoring employer of each scheme to decide what if any benefits to provide in addition to the GMP, and information is not available centrally on the number of public or private sector employees in schemes which offered such benefits.

Personal Savings

Mr. Lancaster: To ask the Secretary of State for Work and Pensions what guidelines her Department issues on the classification of assets as savings. [310773]

Jim Knight: Chapter 29 of the Decision Maker's Guide (DMG) gives guidance on what particular assets count as capital when assessing entitlement to income support and jobseeker's allowance. A copy of chapter 29 of the DMG has been placed in the Library. The DMG is available online at:

http://www.dwp.gov.uk/publications/specialist-guides/decision-makers-guide/

Similar guidance is available for the other income-related benefits. Chapter 52 of the DMG gives guidance on employment and support allowance and chapter 84 gives guidance on state pension credit.

Remploy: Public Relations

Mr. Hurd: To ask the Secretary of State for Work and Pensions pursuant to the answer of 10 December 2009, *Official Report,* column 524W, on Remploy: public relations, if she will place in the Library a copy of the documents produced by Portland PR for Remploy on factory closures communications. [315700]

Jonathan Shaw: Remploy commissioned Portland PR to provide a range of services to help the company improve strategic communications.

Portland PR provided support for senior management on the overall communications strategy, and this advice informed a wide range of internal and external communication documents, materials and other communication channels across the whole company, including the factories.

It is therefore not possible to identify documents on factory closure communications produced separately by Portland PR.

Social Security Benefits: Bexley

Mr. Evennett: To ask the Secretary of State for Work and Pensions how many residents of *(a)* Bexleyheath and Crayford constituency and *(b)* the London borough of Bexley were in receipt of (i) housing benefit, (ii) council tax benefit, (iii) disability living allowance, (iv) incapacity benefit, (v) income support and (vi) employment and support allowance at the latest date for which information is available. [317264]

Jonathan Shaw: The most recent available information is given in the tables.

Housing benefit and council tax benefit figures are not available by parliamentary constituency.

Housing benefit/council tax benefit recipients in London borough of Bexley: October 2009

	Number
Housing benefit	12,990
Council tax benefit	16,690

Notes:
1. Figures are as at 8 October 2009.
2. Figures are rounded to the nearest 10.
3. Claimants receiving both housing benefit and council tax benefit will be counted twice in this table
4. On 1 April 2009 structural changes to the local authorities in England took effect. Changes are reflected from May 2009.

Source:
Single Housing Benefit Extract

Benefit recipients in Bexleyheath and Crayford constituency and London borough of Bexley: May 2009

Benefit	*Bexleyheath and Crayford constituency*	*London borough of Bexley*
Disability living allowance—cases in payment	3,550	8,980
Incapacity benefit/severe disablement allowance claimants	2,300	6,100
Income support claimants	2,260	6,390
Employment and support allowance claimants	310	800

Notes:
1. Figures are rounded to the nearest 10. Some additional disclosure has been applied.
2. Claimants receiving more than one of these benefits will be counted under each benefit
3. Disability living allowance figures show the number of people in receipt of an allowance, and exclude people with entitlement where the payment has been suspended, for example, if they are in hospital.
4. Employment and support allowance replaced incapacity benefit and income support paid on the grounds of incapacity for new claims from 27 October 2008. The figures relating to employment and support allowance have been thoroughly quality assured to National Statistics standard. However, it should be noted that this is a new benefit using a new data source which may not have reached steady state in terms of operational processing and retrospection. Hence the most recent data shown are provisional.

Source:
DWP Information Directorate: Work and Pensions Longitudinal Study.

Unemployment Benefits: Cancer

Mr. Carmichael: To ask the Secretary of State for Work and Pensions how many *(a)* people undergoing or recovering from radiotherapy and *(b)* in-patients (i) in total and (ii) normally resident in Scotland have been refused employment support allowance since 27 October 2008. [317753]

Jonathan Shaw: The information requested is not available.

ENERGY AND CLIMATE CHANGE

Biofuels

Paddy Tipping: To ask the Secretary of State for Energy and Climate Change what estimate he has made of the amount of biomass needed to fuel proposed new wood-burning power stations; and what proportion of it he expects will be from UK sources. [317107]

Mr. Kidney: Power stations of over 50 MW in England and Wales are subject to consent by the Secretary of State under section 36 of the Electricity Act 1989.

Biomass capacity of up to 849 MWe has been approved under the Section 36 consenting regime since 2007, which is expected to use up to 6.77 million tonnes of biomass per year when all plants are operational. There is also 1,289 MWe biomass capacity currently under consideration by the Secretary of State, which if consented would use up to a further 10.56 million tonnes of biomass per annum. Therefore, the combined total of consented and in planning biomass applications for England and Wales, of plants over 50MW, is 2,138 MWe potentially using up to 17.33 million tonnes of biomass per annum. This capacity includes both dedicated biomass power plants and combined biomass and energy-from-waste power plants.

Power stations of 50MW and under, in England and Wales, are considered by the local planning authority in the normal planning regime.

According to the UK RESTATS database, which has collected renewable energy data since 1989, dedicated biomass power capacity of up to 349.6 MWe has been consented by local planning authorities in England and Wales. This consented capacity, assuming a typical 25MW plant will use up to 0.2 million tonnes per annum, would use up to 2.80 million tonnes of biomass per year when all plants are operational. There is also a further 90.1 MWe dedicated biomass capacity under consideration, which is expected to use up to 0.72 million tonnes of biomass per annum. Therefore, the combined total of consented and in planning dedicated biomass applications for England and Wales, of plants 50MW and under, is 439.7 MWe using up to 3.52 million tonnes of biomass per annum.

It is not possible to separately identify the wood-burning capacity as most plants will have the flexibility to use a range of biomass fuels according to cost, availability and other considerations.

Robust biomass supply chains are only now becoming established across the UK and biomass fuels are increasingly traded as a global commodity. Therefore, we expect, in the short term at least, that these plants will use a significant volume of imported biomass, together with wood fuel sourced from managed UK forests and woodlands and from other sources such as the by-products of our timber industry, home grown perennial energy crops such as miscanthus grass and short rotation coppice (SRC) willow, and a range of biomass fuels derived from waste as defined under the renewables obligation.

Departmental Energy

Andrew Stunell: To ask the Secretary of State for Energy and Climate Change what the estimated *(a)* amount and *(b)* cost was of energy used in his Department in each year since it was established; what proportion of the energy used was generated from renewable sources in each of those years; and if he will make a statement. [317228]

Joan Ruddock: For the last full year that information is currently available, January to December 2009, the Department has used approximately 2,209,980 Kwh of electricity and 1,184,478 Kwh of gas. The cost of this was £176,216 for the electricity and £43,043 for the gas.

The electricity was procured through the green tariff from the OGC catalyst framework contract.

Departmental Public Expenditure

David Simpson: To ask the Secretary of State for Energy and Climate Change how much his Department has spent on *(a)* new furnishings and *(b)* new vehicles in each year since its inception. [312541]

Joan Ruddock: Since its inception on October 3 2008 The Department for Energy and Climate Change has spent *(a)* £699,503 on new furnishing and *(b)* nothing on new vehicles.

Departmental Surveys

Gregory Barker: To ask the Secretary of State for Energy and Climate Change if he will place in the Library a copy of the results of his Department's most recent staff survey; which organisation carried out the survey; and what the cost of the survey was. [311506]

Joan Ruddock: The Department will be publishing its October 2009 staff survey results on the DECC website on 1 March 2010. Following publication we will place a copy of the results in the Library.

The supplier for the Department's staff survey in October 2009 was ORC International who were procured by the Cabinet Office to deliver the first cross-Civil Service People Survey. The People Survey replaced all existing staff surveys in the Civil Service with a single questionnaire.

The cost of the 2009-10 People Survey for the Department was £18,300. By procuring a single supplier for staff surveys in 2009-10 the civil service has saved 35 per cent. on the total cost of staff surveys in 2008-09.

Departmental Travel

Stewart Hosie: To ask the Secretary of State for Energy and Climate Change how much was spent on travel between England and Scotland by staff of his Department in each year since its inception. [316792]

Joan Ruddock: The Department of Energy and Climate Change was created in October 2008. The amount spent on travel between England and Scotland in the Financial Year 2008-09 was £157,274.

Energy Supply

Mr. Todd: To ask the Secretary of State for Energy and Climate Change when the Government plans to publish a response to the report Energy Security: a national challenge in a changing world. [317099]

Mr. Kidney: Mr. Wicks raised a number of important issues which we have studied carefully. We will publish a response shortly.

Energy: Finance

Ann Winterton: To ask the Secretary of State for Energy and Climate Change how much Government funding from all sources has been provided to *(a)* the Energy and Resources Institute (TERI), *(b)* TERI Europe, *(c)* the Asian Energy Institute and *(d)* the Renewable Energy and Energy Efficiency Partnership in each of the last five years. [311809]

Joan Ruddock: The information is as follows.

(1) Funding for The Energy and Resources Institute (TERI)

The Department of Energy and Climate Change (DECC) has not funded TERI directly over this period. In 2009 DECC funded Phase 2 of a UK-India collaborative study on the barriers to technology transfer. This work was led by the Science and Technology Policy Research Unit at Sussex university (SPRU), which received £167,000 in funding. SPRU partnered with TERI on this study.

The following has been provided to TERI by other Government Departments: *Foreign and Commonwealth Office Funding*

£441,000 from FCO for seven projects through the strategic programme fund and global opportunities fund, 2004 to 2010, as follows:

	Project	*£*
i	Incorporating micro complexities in programmes and policies for energy security in rural India	50,000
ii	Developing an Energy Security Policy for India	120,000
iii	Commercialisation of energy efficiency and renewable energy technologies in India	60,000
iv	Information Sharing System to enhance coping capacities of farming communities in dealing with climate variability and climate change	55,000
v	Exploring opportunities for technology transfer to developing countries for mitigation of climate change	70,000
vi	Design of renewable energy credit system for India	76,000
vii	Scoping Study-Climate Change Induced Migration and its Security Implications in India's Neighbourhood.	10,000
	Total	441,000

DEFRA funding

In 2007 Defra funded Phase 1 of a UK-India collaborative study on the barriers to technology transfer. This work was led by the Science and Technology Policy Research Unit (SPRU) at Sussex university, which received £73,000 in funding. SPRU partnered with TERI on this study.

Defra funded the International Conference on Community Rights, Forests and Climate Change, 17-18 August, 2009, New Delhi (jointly organised by TERI and the Rights and Resources Initiative)—£46,000. In 2006 Defra also funded the Delhi Sustainable Development summit (£12,000) and work on sustainable development governance (£6,000). In 2007 Defra funded the Delhi Sustainable Development summit (£70,000).

DFID Funding

DFID India have provided £132,000 to TERI over this period, including £40,000 for Delhi Sustainable Development summit 2009 and £31,000 for Delhi Sustainable Development summit 2008. In addition TERI has received £137,000 from DFID UK as part of wider research consortia.

DFID have also announced plans to provide TERI with up to £10 million over the next five years. This funding will help to bring electricity and clean energy to millions of the world's poorest people by supporting renewable energy projects in India. As is routine, DFID is undertaking a full institutional assessment of TERI as part of their due diligence process before releasing funds.

Research Council Funding

TERI's Decentralised Energy Solutions Division is one of the participating institutes in a £4 million research initiative 'Off-grid energy for international development' run by the UK's Engineering and Physical Sciences Research Council.

(2) Funding for the Renewable Energy and Energy Efficiency Partnership:

	Funding (£ million)	
2009-10	2.5	DECC
2008-09	2.5	Defra
2007-08	2.5	Defra
2006-07	2.5	Defra
	1	FCO
2005-06	2.5	Defra
	1	FCO

(3) We are not aware of any Government funding for TERI Europe or the Asian Energy Institute

Energy: Prices

Jim Cousins: To ask the Secretary of State for Energy and Climate Change how many tariffs each energy provider has for its domestic customers in each region; and what steps his Department is taking to reduce the number of tariff ranges. [313744]

Mr. Kidney: Table 1 as follows indicates the number of tariffs available to a new domestic gas, electricity and dual fuel customer based on a snapshot of 23 January 2010, with figures provided by Ofgem[1]. The table excludes: social tariffs; any tariffs that were closed to a new customer as at 23 January 2010; and tariffs for companies other than the main six energy suppliers. The majority of tariffs are available in each region, however there are regional price variations due in part to regional variations in network costs for both gas and electricity.

[1] The tariff data were provided by Energy Services Online Ltd [TheEnergyShop.com].

Table 1: Average number of tariffs available to a new customer in a region, across main six energy suppliers

	Electricity	*Gas*	*Dual fuel*
Direct debit	126	21	133
Standard credit	82	14	86
Prepayment meter	17	6	20

Around half of UK gas and electricity customers pay for their energy via direct debit. Table 2 indicates the number of direct debit tariffs available to new customers in each region by each of the main six domestic energy suppliers. Generally a customer choosing to pay for their energy via any other method will have fewer tariffs open to them.

Any customer looking for a tariff at any one time may be constrained by what region they are in, their meter type, their access to the gas grid, and to some extent by payment method. This will limit the number of choices open to them by varying degrees. The information provided also contains tariffs for Economy 7 and Economy 10 customers, many of whom will be limited to only these types of tariffs to switch to or sign up to.

Government recognise that there are many tariffs for consumers to choose from. We recognise that some customers may value this range of choice in the market; however, we note that this may make it difficult for others to find the best deal. In some cases, two tariffs will have the same price and payment method—but there could be small differences such as club card points, vouchers or donations to different charities turning a single price and payment plan into multiple options. We are talking to Consumer Focus who are working with switching sites to try and resolve this problem.

From this year suppliers will be obligated to provide each customer with additional information to help them understand and compare their energy tariff to other offers in the market.

Suppliers are also obligated under their supply licence to improve the conduct of their face to face sales and marketing activities by providing consumers with information that is clear and not misleading.

Additionally, Ofgem's new over-arching Standards of Conduct state that energy suppliers must not sell a customer a product or service that he or she does not fully understand, or that is inappropriate for their needs and circumstances, or offer products that are unnecessarily complex or confusing.

Ofgem will be monitoring the effectiveness of these remedies. As part of this process they will review whether these changes have proved sufficient to help consumers understand and benefit from the range of tariffs available to them, and consider what further steps may be needed. My officials are discussing the issue of number of tariffs and its impact with consumer groups.

Warm Front Scheme

Nadine Dorries: To ask the Secretary of State for Energy and Climate Change what recent estimate his Department has made of the average waiting time for the installation of *(a)* heating and *(b)* insulation measures under the Warm Front scheme in (i) Mid Bedfordshire constituency, (ii) Bedfordshire, (iii) the East of England and (iv) England, Wales and Northern Ireland in each year since the scheme's inception. [317703]

Mr. Kidney: The following tables show the average waiting time (in working days) for the installation of *(a)* heating and *(b)* insulation measures under the Warm Front scheme in (i) Mid Bedfordshire constituency, (ii) Bedfordshire, (iii) the East of England in the current scheme year, and (iv) England in each year since the scheme's inception.

Average timescales quoted for years 2005-09 run from the completion of the technical survey to the completion of works. Timescales for the current scheme year run from the allocation of work to a registered installer to the completion of work following a change in recording processes under the revised contract for the scheme's delivery.

Heating timelines	*Mid Bedfordshire*	*Bedfordshire*	*East of England*	*England*
2005-06	n/a	n/a	n/a	68
2006-07	n/a	n/a	n/a	74
2007-08	n/a	n/a	n/a	64
2008-09	n/a	n/a	n/a	57
2009-10[1]	43	50	45	45

n/a = not available.

[1] Data run to 31 January 2010.

Insulation timelines	*Mid Bedfordshire*	*Bedfordshire*	*East of England*	*England*
2005-06	n/a	n/a	n/a	31
2006-07	n/a	n/a	n/a	29
2007-08	n/a	n/a	n/a	33
2008-09	n/a	n/a	n/a	23
2009-10[1]	11	14	17	17

n/a = not available.

[1] Data run to 31 January 2010.

Neither the Department nor eaga, the scheme manager, has previously grouped data by constituency or county: as such, the regional data for 2005 to 2009 are not available. However, I refer the hon. Member to the answer given to the hon. Member for Hazel Grove (Andrew Stunell) on 1 December 2009, *Official Report* column 717W, which presents the average timelines for heating and insulation work by each local authority area between May 2008 and November 2009.

Fuel poverty is a devolved issue and the Warm Front scheme operates in England alone: as such, it is not possible to provide data for Wales and Northern Ireland.

COMMUNITIES AND LOCAL GOVERNMENT

Affordable Housing

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many affordable homes were constructed in 2008-09. [315663]

Mr. Ian Austin: Information on additional new build affordable homes can be found in Table 1009 on the CLG website:

http://www.communities.gov.uk/documents/housing/xls/1406088.xls

Not all affordable housing is provided by new build completions, some can be provided through acquisitions.

Grant Shapps: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 9 February 2010, *Official Report*, columns 866-8W, on affordable housing, what expenditure his Department has incurred on *(a)* HomeBuy Direct, *(b)* New Build HomeBuy, *(c)* Open Market HomeBuy, *(d)* First Time Buyer's Initiative, *(e)* Social HomeBuy and *(f)* Rent to HomeBuy in 2009-10. [317535]

John Healey: I refer the hon. Member to the answer I gave him on 9 February 2010, *Official Report*, columns 867-68W.

Jim Cousins: To ask the Secretary of State for Communities and Local Government how many homes have been bought under the Rent to Homebuy scheme in each *(a)* local authority and *(b)* region since the inception of that scheme; and what the monetary value of such sales was in each area on the latest date for which figures are available. [318014]

John Healey: I refer the hon. Member to the answer I gave to the hon. Member for Welwyn Hatfield (Grant Shapps) on 22 February 2010 to PQ 316761.

Affordable Housing: Salford

Hazel Blears: To ask the Secretary of State for Communities and Local Government how much has been spent on increasing the standard of social housing in Salford since 1997. [317391]

Mr. Ian Austin: The following table shows Salford city council and their arms length management organisation, Salix Homes, capital investment in council housing in the city.

	Expenditure £000
1998	13,929
1999	16,115
2000	14,335
2001	21,410
2002	20,949
2003	24,839
2004	18,135
2005	21,697
2006	19,964
2007	18,656
2008	21,102
2009	13,910

Source:

Annual returns to Communities and Local Government

The TSA cannot provide the data requested for housing associations in the City.

Affordable Housing: Standards

Grant Shapps: To ask the Secretary of State for Communities and Local Government (1) by what mechanisms the Homes and Communities Agency measures its progress in meeting its statutory duty to improve the quality of housing; [316940]

(2) what recent steps the Homes and Communities Agency has taken in respect of its statutory duty to *(a)* improve the quality of housing and *(b)* contribute to the achievement of good design. [316941]

John Healey: Two of the HCA's four statutory objects are to (i) improve the supply and quality of housing in England and (ii) contribute to the achievement of sustainable development and good design in England. The HCA inherited standards for certain of its programmes, setting minimum criteria which must be achieved before funding is provided. Regular checks and audits are undertaken to ensure these requirements are delivered. The HCA have established advisory Boards to assist with these issues, and plan to issue a design and quality strategy later this year. Details of these panels, including membership, can be found on the HCA's website:

www.homesandcommunities.co.uk

Grant Shapps: To ask the Secretary of State for Communities and Local Government what criteria the Homes and Communities Agency used to assess the design quality and viability of housing schemes for the purposes of awarding funding under Round 1 of the Kickstart programme; and what account was taken of the assessments made by the Commission for Architecture and the Built Environment in its capacity as adviser on that programme. [316942]

John Healey: The criteria used by the HCA to assess the design quality and viability of housing schemes under Round 1 of the Kickstart programme can be found in the Round 1 'Kickstart Housing Delivery: Unlocking Stalled Sites' guidance located on HCA's website. Design quality was part of the overall value for money assessment of Kickstart bids, alongside deliverability and the capacity to create jobs. CABE assessments were used to highlight schemes where more attention was needed and were the basis for further assessment by HCA regional teams. The HCA regional teams were able to augment the CABE assessment with additional relevant local information to inform final decisions on award of funding.

Audit Commission: Procurement

Robert Neill: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Meriden of 16 December 2009, *Official Report*, column 1261W, on the Audit Commission: procurement, how much the Audit Commission spent in respect of each organisation that supplied goods or services to it in 2008-09. [317572]

Ms Rosie Winterton: This is an operational matter for the Audit Commission and I have asked the chief executive of the Audit Commission to write to the hon. Member direct. The table referred to has been placed in the Library of the House.

Letter from Steve Bundred, dated 23 February 2010:

Your Parliamentary Question has been passed to me to reply.

The payments made to organisations that supplied goods or services to the Audit Commission in 2008-09 are outlined in the attached table.

A copy of this letter will be placed in Hansard.

Business Improvement Districts

Mr. Davey: To ask the Secretary of State for Communities and Local Government in how many business improvement districts in England more than one retail area is working in partnership; and if he will make a statement. [317722]

Barbara Follett: The Department does not hold this information.

Mr. Davey: To ask the Secretary of State for Communities and Local Government what guidance he has issued to *(a)* local authorities and *(b)* businesses on establishing a business improvement district which includes more than one retail centre; and if he will make a statement. [317723]

Barbara Follett: Communities and Local Government has not issued guidance on establishing a business improvement district that includes more than one retail centre.

Community Development: Finance

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government how much funding his Department has allocated to the *(a)* Supporting People programme, *(b)* New Communities fund, *(c)* New Deal for Communities fund, *(d)* Safer and Stronger Communities fund, *(e)* Local Enterprise Growth Initiative and *(f)* Working Neighbourhoods fund in each financial year from 2009-10 to 2014-15. [317361]

Ms Rosie Winterton: The information requested is as follows:

(a) Supporting People

The funding allocations to the Supporting People programme for:

2009-10: £1,665 million

2010-11: £1,636 million

No allocations have been yet agreed for future years and beyond 2011.

(b) New Communities Fund

Ministers decided in 2009 to reallocate resources from the New Communities Fund to other ministerial priorities. This was to reflect ministerial reprioritisation of funding across the Department to ensure available funding supports the highest priorities in the current fiscal circumstances.

(c) New Deal for Communities fund

In April 2009 the Department announced NDC partnership allocations of £186.2 million in 2009-10 and an indicative allocation of £70.4million in 2010-11, the final year of the programme.

(d) Safer and Stronger Communities

For the Safer and Stronger Communities fund, £30.909 million was allocated in 2009-10 and there is an indicative allocation of £4.893 million in 2010-11. No allocations have been agreed for years beyond 2010-11.

(e) Local Enterprise Growth Initiative

£98.885 million has been allocated for the Local Enterprise Growth Initiative for 2009-10 (£23.912 million Capital and £74.972 million Revenue) and there is an indicative allocation of £93.950 million for 2010-11 (£18.648 million Capital and £75.301 million Revenue).

No decisions have yet been made on arrangements for LEGI beyond the current three year spending period.

(f) Working Neighbourhoods Fund

£547.8 million has been allocated for the Working Neighbourhoods Fund for 2009-10, this includes the £40m top-up announced in November 2009, and there is an indicative allocation of £507.9 million for 2010-11.

No decisions have yet been made on arrangements for WNF beyond the current three year spending period.

Consolidated Communications

Robert Neill: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Peterborough of 20 January 2010, *Official Report*, column 377W, on the Audit Commission: public opinion, what the purpose was of the public affairs consultancy work undertaken by Consolidated Communications for his Department;

and what *(a)* documents and *(b)* other deliverables the Audit Commission received from Consolidated Communications under that contract. [317524]

Ms Rosie Winterton: This is an operational matter for the Audit Commission and I have asked the chief executive of the Audit Commission to write to the hon. Member direct.

Letter from Steve Bundred, dated 23 February 2010:

Your Parliamentary Question has been passed to me to reply.

The Audit Commission contracted Consolidated Communications, a communications company, during a period of substantial reorganisation of its communications directorate. Consolidated offered advice and support, replacing functions in the external communications team that, temporarily, were not available in house.

The work and deliverables carried out under the contract were:

the monitoring of Parliament;

the monitoring of policy announcements; and

briefings on legislative issues.

A copy of this letter will be placed in Hansard.

Council Housing: Newcastle Upon Tyne

Jim Cousins: To ask the Secretary of State for Communities and Local Government what representations he has received from Your Homes Newcastle on the funding for asbestos removal under the decent homes programme; and if he will place in the Library a copy of those representations. [318004]

Mr. Ian Austin: Communities and Local Government Department has received no recent representations from Your Homes Newcastle on the funding for asbestos removal under the Decent Homes programme. However, their parent local authority, Newcastle City Council, as part of their ALMO bidding application in 2003, made a contingency allowance in their Building Cost Model for asbestos removal.

Council Tax

Robert Neill: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 5 January 2010, *Official Report*, column 214W, on council tax, whether local authorities may levy a surcharge on council tax bills paid by credit card. [317571]

Barbara Follett: I refer the hon. Member to the answer I gave to him on 5 January 2010, *Official Report*, column 214W.

Robert Neill: To ask the Secretary of State for Communities and Local Government how much gross council tax revenue in *(a)* cash and *(b)* real terms at 2010 prices was raised in each region in (i) 1997-98 and (ii) the most recent year for which figures are available. [317868]

Barbara Follett: The amount of gross council tax revenue in *(a)* cash and *(b)* real terms at 2008-09 prices raised in each region in (i) 1997-98 and (ii) 2008-09, the most recent year for which figures are available, are shown in the following table.

£ million

	1997-98 cash	*1997-98 at 2008-09 prices*	*2008-09 cash*
North East	449	614	902
North West	1,310	1,794	2,570
Yorkshire and the Humber	866	1,186	1,835
East Midlands	773	1,058	1,738
West Midlands	940	1,288	1,996
East of England	1,051	1,439	2,613
London	1,386	1,898	3,171
South East	1,716	2,350	4,098
South West	995	1,363	2,395
Total England	9,488	12,990	21,319

The data are taken from the Quarterly Return of Council Tax and non-domestic rates returns completed annually by all billing authorities in England and the real terms data are given at 2008-09 prices using the Retail Price Index.

Robert Neill: To ask the Secretary of State for Communities and Local Government how much and what proportion of gross revenue to local authorities from council tax was funded by council tax benefit in 2008-09. [317800]

Barbara Follett: In 2008-09 the gross revenue to local authorities from council tax was £24.9 billion with £3.5 billion of this figure being from council tax benefit paid to the collection fund. Therefore 14 per cent. of the gross revenue to local authorities from council tax was funded by council tax benefit.

Council Tax: Discounts

Robert Neill: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Peterborough of 20 January 2010, *Official Report*, column 378W, on council tax, what types of council tax discount are made available by each individual local authority; and what the monetary value was of such discounts in the latest period for which figures are available. [317937]

Barbara Follett: Details of the types of local council tax discounts awarded as at October 5 2009, and the authority awarding the discount, are shown as follows.

Pensioners: Bury, Hillingdon, Kirklees, Lincoln, Southampton, Wirral

Properties affected by flooding and other external environmental factors: Doncaster, East Lindsey, Forest of Dean, Gloucester, Herefordshire UA, Hillingdon, Malvern Hills, North Lincolnshire, Northumberland, Rotherham, Wakefield, Wychavon

Those to whom, because they have been affected by the change in regulations since a discount was originally awarded, a discount has been awarded so as to not disadvantage them: Adur, Exeter, Horsham, North Norfolk, Waveney

The following types of local council tax discounts were also awarded as at 5 October 2009.

A hard to sell property

A new unfinished property

Difficult to let properties

Hardship

Occupied and unoccupied furnished properties that do not have the benefit of mains services including beach chalets

Properties that are no one person's sole or main residence where access is restricted taxpayers who can comply with the council's Mooring Policy.

Various classes of empty properties.

These discounts were awarded by the following authorities. It is not possible to identify which authority awarded which discount as this may allow identification of individual properties or persons.

Bradford

Brighton and Hove

Cambridge

Canterbury

Copeland

Daventry

East Riding of Yorkshire UA

South Ham

South Lakeland

West Somerset

Details of the monetary value of these discounts are not collected centrally.

Robert Neill: To ask the Secretary of State for Communities and Local Government which local authorities have used their powers to reduce the council tax discount on *(a)* empty and *(b)* second homes; what revised discount rate was set in each case; and what estimate has been made of the total additional council revenue raised as a result of such revisions in each year since 1993. [318062]

Barbara Follett: Since 1 April 2004, local billing authorities have been given the discretion to reduce the council tax discount offered on long-term empty homes and second homes.

I have placed in the Library of the House tables which show which authorities have, since 2004-05, used their power to reduce discounts for council tax on empty and second homes in their area as well as the revised rate applied.

The estimated total additional council revenue raised as a result of the reduction to discounts for long-term empty and second homes for each year since 2006-07 is shown in the following table:

£ million

	Long-term empty homes	*Second homes*
2006-07	79	98
2007-08	88	101
2008-09	104	113
2009-10	108	124

Estimates have not been provided for the years prior to 2006-07 due to the disproportionate cost in producing them.

Council Tax: Statistics

Robert Neill: To ask the Secretary of State for Communities and Local Government with reference to the answer of 16 June 2009, *Official Report*, column 368W, on council tax: statistics, what decision was taken on the designation of council tax statistics. [317815]

Barbara Follett: Officials are currently working with the United Kingdom Statistics Authority (UKSA) on the assessment of council tax levels set by local authorities in England. When the assessment has been completed, details will be available on the UKSA website at the following link:

http://www.statisticsauthority.gov.uk/assessment/assessment-reports/index.html

Departmental Advertising

Mr. Weir: To ask the Secretary of State for Communities and Local Government how much was spent on advertising by *(a)* his Department and *(b)* each (i) non-departmental public body and (ii) Executive agency for which his Department is responsible in 2009. [318069]

Barbara Follett: The Department's expenditure on communications, including advertising, is set out in its annual reports, which include details of the initiatives communicated. Departmental annual reports are available on the Department's website at:

www.communities.gov.uk

Additional detail on the most recent year (2008-09) is available at:

http://www.communities.gov.uk/documents/corporate/pdf/1298507.pdf

Information on advertising by the Department's non-departmental public bodies and Executive agencies is not held centrally and could be supplied only at disproportionate cost.

Departmental Computers

Robert Neill: To ask the Secretary of State for Communities and Local Government how much on average his Department paid for a typical *(a)* laptop and *(b)* desktop computer (i) including and (ii) excluding value added tax in the latest period for which figures are available. [317870]

Barbara Follett: The average price paid by the Department for Communities and Local Government in the financial year 2009-10 for a desktop computer is approximately £787 excluding VAT and £1,862 excluding VAT for laptops. The costs of individual desktop and laptop computers can vary considerably depending on the model required and whether it is purchased for network or standalone use. If it is to be networked the cost will include the price of ongoing support from our IT supplier and of providing security features to meet the relevant cross government requirements set by the Cabinet Office and Communications-Electronics Security Group (CESG).

Departmental Disabled Staff

Mr. Harper: To ask the Secretary of State for Communities and Local Government how many and what proportion of staff in *(a)* his Department and *(b)* the executive agencies for which he is responsible are disabled; and what the average salary in (i) his Department and (ii) the executive agencies is of (A) full-time disabled staff, (B) full-time non-disabled staff, (C) part-time disabled staff and (D) part-time non-disabled staff. [317908]

Barbara Follett: The information is as follows:

(a) The number and the average salaries of the disabled and non-disabled staff employed by the Department for Communities and Local Government who have made their disability status known, is shown in the following table:

	Average salaries (£)	*Full-time equivalent Staff number*
Disabled—Full-time	35,411	90
Disabled—Part-time	41,023	5.7
Non-disabled—Full-time	40,722	1,296
Non-disabled—Part-time	40,569	133.4

(b) Information on the average salaries of disabled and non-disabled staff in the Department's agencies is not held centrally.

Departmental Energy

Andrew Stunell: To ask the Secretary of State for Communities and Local Government what the estimated *(a)* amount and *(b)* cost was of energy used in his Department and its agencies in each year since 1997; what proportion of the energy used was generated from renewable sources in each of those years; and if he will make a statement. [317226]

Barbara Follett: The amount and cost of energy used by Communities and Local Government and its executive agencies in each year since 2004-05 is detailed in the following table. To provide data prior to 2004-05 would represent disproportionate costs to the Department.

CLG central

	Electricity (kWh)	*Renewable (%)*	*Cost (£)*	*Gas (kWh)*	*Cost (£)*
2004-05	10,744,962	99	392,578	9,289,748	161,962
2005-06	12,642,144	99	740,661	9,339,992	212,924
2006-07	13,018,289	92	1,185,468	8,769,886	280,322
2007-08	10,850,743	91	743,455	7,033,682	172,769
2008-09	7,350,508	98	[1]—	4,763,012	[1]—

Executive agencies

	Electricity (kWh)	*Renewable (%)*	*Cost (£)*	*Gas (kWh)*	*Cost (£)*
2004-05	15,311,717	46	621,065	20,434,155	270,500
2005-06	12,700,819	52	743,699	20,740,911	363,795
2006-07	12,889,192	51	979,996	21,168,731	427,325
2007-08	11,751,470	53	962,422	18,084,384	308,092
2008-09	12,161,536	51	1,046,516	17,682,433	419,928

[1] Full energy costs for CLG Central are not known for 2008-09 due to estate rationalisation and subsequent incomplete pro-rated costs from our landlord.

Mandatory cross-Government targets require Departments and their agencies to reduce carbon emissions from offices by 12.5 per cent. by 2010-11 against 1999-2000 levels and to source at least 10 per cent. of electricity from renewables by 31 March 2008. Performance is reported annually as part of the Sustainable Development in Government (SDiG) process.

The latest assessment of Government's performance against these targets was published by the Office of Government Commerce (OGC) on the 18 December 2009, and is available on the OGC website

http://www.ogc.gov.uk/sustainability_programme_ progress.asp

Information on reporting years prior to 2008/09 was collated and published by the Sustainable Development Commission (SDC) and can be found on the SDC website

http://www.sd-commission.org.uk

Departmental Manpower

Mr. Philip Hammond: To ask the Secretary of State for Communities and Local Government how many employees in *(a)* his Department and *(b)* each of its agencies are in transition prior to being managed out; how long on average the transition window between notification and exit has been in (i) his Department and its predecessors and (ii) each of its agencies in each of the last five years; what estimate he has made of the salary costs of staff in transition in each such year; and what proportion of employees in transition were classed as being so for more than six months in each year. [313247]

Barbara Follett: The phrases 'in transition' and 'managed out' are not used in the civil service. However, we have taken the former to mean staff officially declared to be surplus, and the latter to mean surplus staff leaving the organisation, either through redeployment or compulsory redundancy.

In Communities and Local Government surplus staff are not necessarily managed out. The Department's redeployment pool, known as the Career Transition Centre, includes staff returning from loans, secondments, and career breaks, as well as those currently without permanent posts. Most of these staff are redeployed within the civil service.

The following table shows the length of the transition window, with associated salary costs, and the proportion of staff who were surplus for more than six months. The cost of surplus staff has only been centrally accounted for in Communities and Local Government since April 2008 so no data on this are available prior to this date. Similarly, the Department did not track staff redeployment before April 2008.

	Number of surplus staff exiting the organisation	*Salary cost for transition period (£)*	*Average length of transition period in months*	*Percentage in transition for more than six months*
Central Communities and Local Government

Total	n/a	n/a	n/a	n/a

[1] This shows where less than five employees exited in a particular year. Publication of further details could breach our rules of confidentiality and are thus, not provided.

Mr. Philip Hammond: To ask the Secretary of State for Communities and Local Government what estimate he has made of the proportion of staff of *(a)* his Department and its predecessors and *(b)* its agencies managed out in the last five years who remain working in the public sector. [313841]

Barbara Follett: No data are collected on the future employment of staff who leave the Department or its agencies.

Departmental Official Hospitality

Pete Wishart: To ask the Secretary of State for Communities and Local Government how much his Department spent on ministerial hospitality in *(a)* 2004-05, *(b)* 2005-06, *(c)* 2006-07 and *(d)* 2007-08 expressed in current prices. [317345]

Barbara Follett: I refer the hon. Member to the answer given to him by my right hon. Friend the Member for Tooting (Mr. Khan) on 17 December 2008, *Official Report*, column 787W.

Pete Wishart: To ask the Secretary of State for Communities and Local Government how many receptions he has hosted for representatives of print and broadcast media since 3 October 2008. [317346]

Barbara Follett: Since his appointment as Secretary of State for Communities and Local Government in June 2009, my right hon. Friend has hosted two receptions for representatives of print and broadcast media.

Angus Robertson: To ask the Secretary of State for Communities and Local Government how many receptions he has hosted for representatives of print and broadcast media since October 2008; how much each reception cost; and how many attended each. [317999]

Barbara Follett: Communities and Local Government published an annual list of receptions hosted by Ministers for 2008-09 in a written ministerial statement on 21 July 2009, *Official Report*, column 118WS.

The next return will be published in July 2010.

Departmental Recruitment

Mr. Hurd: To ask the Secretary of State for Communities and Local Government how much his Department and its agencies spent on external recruitment consultants in the last 12 months for which figures are available. [315285]

Barbara Follett: The Department does not hold this information centrally and could provide it only at disproportionate cost.

The Planning Inspectorate does not hold this information centrally and could provide it only at disproportionate cost.

Fire Service college has made no payments to external recruitment consultants in FY 2008-09.

Queen Elizabeth II Conference Centre has made no payments to external recruitment consultants in FY 2008-09.

Mr. Hurd: To ask the Secretary of State for Communities and Local Government how many vacancies in *(a)* his Department and *(b)* its agencies were filled using external recruitment consultants in the last 12 months. [315290]

Barbara Follett: The Department does not hold this information centrally and it could be provided only at disproportionate cost.

The Planning Inspectorate filled two vacancies in the last 12 months.

Fire Service college has not filled any vacancies in the last 12 months.

Queen Elizabeth II Conference Centre has not filled any vacancies in the last 12 months.

Departmental Surveys

Robert Neill: To ask the Secretary of State for Communities and Local Government with reference to the answer to the hon. Member for Meriden of 16 October 2009, *Official Report*, column 1117W, on FlexSpace, if he will place in the Library a copy of the staff survey carried out in January 2009. [317602]

Barbara Follett: The Department for Communities and Local Government is making arrangements for a copy of the SpaceFlex staff survey, along with the results of the project's post occupation evaluation survey, to be placed in the Library once the project has been completed and evaluated.

The project is due to complete in July 2010. The post occupancy evaluation will then be undertaken and the Department anticipates that the results will be available in October 2010.

Domestic Waste: Waste Disposal

Robert Neill: To ask the Secretary of State for Communities and Local Government how much area-based grant was allocated to *(a)* waste disposal and *(b)* waste collection authorities in 2008-09; and how much such grant he plans to allocate to each type of authority in (i) 2009-10 and (ii) 2010-11. [317969]

Ms Rosie Winterton: In two tier areas, waste collection is generally carried out by district councils and waste disposal by county councils. In single tier areas, such as unitary authorities and metropolitan borough councils, collection and disposal is generally combined, although in some Metropolitan areas waste disposal is carried out on behalf of local authorities by statutory joint waste disposal authorities.

The allocation of area based grant (ABG) for each district council, county council, unitary authority and metropolitan borough council for 2008-09 to 2010-11 is available at:

http://www.communities.gov.uk/localgovernment/localgovernmentfinance/areabasedgrant/

ABG is unhypothecated and decisions on the use of the grant are for individual local authorities.

Employment Tribunals Service

Robert Neill: To ask the Secretary of State for Communities and Local Government how many employment disputes involving staff of his Department have been taken to an employment tribunal since 2003; what the outcome was in each case which has been concluded; and what the grounds for dispute were in each case. [317865]

Barbara Follett: Less than five employment disputes involving Communities and Local Government staff have been taken to an employment tribunal since the Department was established in 2006. Consequently, publication of details relating to these cases could breach our rules of confidentiality and so cannot be provided.

Empty Dwelling Management Orders

Bob Russell: To ask the Secretary of State for Communities and Local Government with reference to the answer to the hon. Member for Meriden of 19 October 2009, *Official Report*, column 1299W, on empty dwelling management orders, how many empty dwelling management orders have been issued by each local authority since the date of that answer; how many resulted in the re-occupation of empty dwellings; and if he will make a statement. [314844]

Mr. Ian Austin: 27 interim empty dwelling management orders had been issued by 19 October 2009. Since that date the Department is aware of one further interim empty dwelling management order issued by South Gloucestershire council that has been authorised by a residential property tribunal. This has not yet resulted in the reoccupation of the property.

Empty dwelling management orders are a last resort, where all other measures of investigation and negotiation have been exhausted and the local authority has been unable to persuade the owner to bring the property back into use. In many cases the threat of an empty dwelling management order is sufficient to make owners take action.

Energy Performance Certificates

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many properties there were on the Domestic Energy Performance Certificate Register in *(a)* November 2009, *(b)* December 2009 and *(c)* January 2010. [317540]

Mr. Ian Austin: The number of domestic Energy Performance Certificates (EPCs) on the Domestic EPC Register was 3,904,360 on 30 November 2009, 4,008,217 on 31 December 2009 and 4,144,284 on 31 January 2010.

Gardens: Planning Permission

Robert Neill: To ask the Secretary of State for Communities and Local Government pursuant to the oral answer to the hon. Member for Meriden of 26 January 2010, *Official Report*, column 660, on planning, which part of the 1992 planning guidance defined gardens as brownfield land for planning purposes. [317814]

Mr. Ian Austin: The classification of land introduced in 1985 in the first report on Land Use Change in England included a "Residential" category that covered "Houses, flats and adjoining garages, gardens, estate roads and pathways, sheltered accommodation where residences have separate front entrances."

This classification thus established the principle that gardens should not be separated from the curtilage when establishing for statistical purposes whether residential land has been redeveloped for other purposes.

The 1992 Planning Policy Guidance note (Housing) drew on the 1985 based classification. It states that

> "recent information on land use changes in England shows that nearly half of the land developed for housing was either previously developed or was vacant land in built up areas".

What counted as "previously developed" in this context was plainly based on the classifications which had been in use since 1985.

Government Offices for the Regions: Finance

Robert Neill: To ask the Secretary of State for Communities and Local Government what the *(a)* running cost and *(b)* aggregate programme expenditure was of each Government Office of the Regions in 2008-09. [317985]

Ms Rosie Winterton: The running (admin) cost and aggregate programme expenditure for each of the regional Government Offices for 2008-09 was as follows:

£

Regional Government Office	*Running (admin) costs expenditure 2008-09*	*Aggregate programme expenditure 2008-09*
GO North East	10,178,900	63,201,887
GO North West	12,191,200	587,300,000
GO Yorkshire and Humber	8,922,600	1,441,209,521
GO West Midlands	10,837,400	100,156,000
GO East Midlands	8,932,000	51,181,868
GO East	9,109,600	65,257,342
GO South East	10,561,400	209,777,489
GO South West	10,467,500	545,083,981
GO London	11,811,500	100,367,713

The aggregate programme expenditure figure is made up of the programme budgets delegated by 12 Sponsor Departments directly to each regional Government Office and includes European expenditure.

The existing Sponsor Departments are CLG, BIS, DfT, DCFS, DWP, DEFRA, Home Office, MoJ, DECC, DCMS, Cabinet Office and DoH.

Green Belt

Nadine Dorries: To ask the Secretary of State for Communities and Local Government what steps his Department is taking to protect the green belt in *(a)* England, *(b)* East of England, *(c)* Bedfordshire and *(d)* Mid Bedfordshire constituency. [317530]

Mr. Ian Austin: We are committed to the protection of green belt throughout England. Only in exceptional circumstances may its boundaries be amended, where the tests in Planning Policy Guidance Note 2, 'Green Belts', are met. Disregarding the reclassification of 47,300 hectares as National Park in 2005, green belt nationally has grown by around 34,000 hectares since 1997.

In the East of England Plan 2008, Policy SS7 states that the broad extent of green belts in the region is appropriate and should be maintained. However, it identifies the need for strategic review of green belt boundaries at Stevenage, Hemel Hempstead, Harlow and Welwyn/Hatfield. These are designated key centres for development and change where significant growth allocations have been made.

In Bedfordshire the Milton Keynes/South Midlands Sub Regional Strategy 2005 required a strategic green belt review at Luton/Dunstable/Houghton Regis and at Leighton Linslade. This was required to provide room for growth around the conurbation to 2031, and is being undertaken as part of the core strategy for Luton/southern central Bedfordshire which is currently in preparation. It is not yet clear whether or not the hon. Member's constituency is likely to be directly affected. The area of individual green belts is for local planning authorities to decide.

Robert Neill: To ask the Secretary of State for Communities and Local Government what assessment he has made of the effects on the protection of the green belt of the introduction of National Policy Statements. [317858]

John Healey: The Government have no proposals to change policy for the protection of green belts. National Policy Statements incorporate green belt policy.

Housing Associations: Finance

Grant Shapps: To ask the Secretary of State for Communities and Local Government what recent assessment he has made of the level of borrowing by housing associations to finance the building of new homes. [316819]

Mr. Ian Austin: The housing association sector has successfully raised £58 billion of private finance, enabling it to develop new affordable housing, invest in its existing stock and deliver quality services to its tenants. This includes £13.4 billion of committed loan facilities that are available to meet the sector's forecast funding requirements. For 2009-14 associations are currently forecasting that they will undertake new development with a net cost (after grant and sales receipts) of £9.44 billion which will be funded by private finance.

Housing: Construction

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many homes for social rent were built *(a)* by local authorities, *(b)* by housing associations and *(c)* privately in (i) 2008-09 and (ii) 2009-10 to date. [316817]

Mr. Ian Austin: The following table shows new build homes for social rent completed in 2008-09 by type of provider.

New-build homes for social rent by sector: England 2008-09

	Number
Total social rented provision	27,790
Of which:	
Local authorities	570
Registered social landlords	22,670
Private sector	4,550

Sources:
Homes and Communities Agency, P2 returns to CLG, Housing Strategy Statistical Appendix.

Data are reported by the tenure of the dwelling rather than by the organisation carrying out the construction as most dwellings are built by private builders even if the final tenure is in the social stock.

Not all housing for social rent is provided by new build completions, as some supply can come from acquisitions. In 2008-09, a total of 31,090 homes for social rent were supplied.

Complete estimates for 2009-10 are not available. House building statistics for the first six months of 2009-10 show that 160 new build units for social rent were completed by local authorities in this period. The Homes and Communities Agency have published official statistics on the number of affordable homes delivered under the National Affordable Housing programme (NAHP) for April to September 2009. These show that a total of 10,671 units were completed for social rent in this period under the NAHP, of which 9,809 were new build completions. However, these figures do not provide a complete picture of new build homes for social rent delivered by RSLs. Estimates for the private sector are not available for 2009-10.

Grant Shapps: To ask the Secretary of State for Communities and Local Government what proportion of all new *(a)* dwellings, *(b)* affordable homes and *(c)* homes for social rent in England were flats with (i) one bedroom, (ii) two bedrooms, (iii) three or more bedrooms in each year since 1997. [317011]

Mr. Ian Austin: The information requested on all new dwellings can be found on the Department's website in Live Table 254:

http://www.communities.gov.uk/housing/housingresearch/housingstatistics/housingstatisticsby/housebuilding/livetables/

For information on affordable homes and homes for social rent I refer the hon. Member to the answer given by my hon. Friend the Member for Hartlepool (Mr. Wright) on 6 May 2009, *Official Report*, column 243W.

Not all affordable housing is provided through new build completions, supply can also come from the acquisition and refurbishment of private sector homes. In 2008-09, a total of 55,770 additional affordable homes, of which 31,090 were for social rent homes, were provided.

Grant Shapps: To ask the Secretary of State for Communities and Local Government what proportion of all new *(a)* dwellings, *(b)* affordable homes and *(c)* homes for social rent in England were (i) flats and (ii) houses in each year since 1997. [317012]

Mr. Ian Austin: The information requested on all new dwellings can be found on the Department's website in Live Table 254:

http://www.communities.gov.uk/housing/housingresearch/housingstatistics/housingstatisticsby/housebuilding/livetables/

For information on affordable homes and homes for social rent I refer the hon. Member to the answer given by my hon. Friend the Member for Hartlepool (Mr. Wright) on 6 May 2009, *Official Report*, column 243W.

Housing: Prices

Robert Neill: To ask the Secretary of State for Communities and Local Government what recent estimate he has made of the average cost, including value added tax, to a certificate holder of a domestic energy performance certificate for an average family home in London. [317880]

Mr. Ian Austin: The cost of Energy Performance Certificates (EPCs) is determined by the market. No information is therefore held centrally upon which to base an estimate of the average cost to building owners or landlords of having an EPC prepared on any property that they may own.

Infrastructure Planning Commission: Finance

Robert Neill: To ask the Secretary of State for Communities and Local Government what his latest estimate is of the *(a)* capital and *(b)* running costs of the Infrastructure Planning Commission in (a) 2009-10 and (b) 2010-11. [317861]

John Healey: The Infrastructure Planning Commission (IPC) was established on 1 October 2009 providing advice and guidance to promoters.

The estimated costs for the IPC for six months from October to March of 2009-10 are tabled as follows:

	£ million
(a) Capital	1.24
(b) Running costs	2.68

The capital costs include the development of an IT case management system and running costs include staff and Commissioner recruitment and training.

From 1 March 2010 the IPC will be ready to receive applications for development consent and the estimated running costs for 2010-11 are set out in the Impact Assessment published in November 2007 and the Annex published in January 2009 which are available on the Communities and Local Government website. No major additional capital costs for 2010-11 are anticipated to those incurred in 2009-10.

Infrastructure Planning Commission: Pay

Robert Neill: To ask the Secretary of State for Communities and Local Government with reference to the answer to the hon. Member for Brentwood and Ongar of 16 June 2009, *Official Report,* column 204W, on the Infrastructure Planning Commission, what the monetary value is of the remuneration paid to the chairman of the Commission is including *(a)* salary, *(b)* employee pension contribution, *(c)* travel expenses and *(d)* benefits in kind; whether any form of bonus or incentive payment is included in the package; and what (i) minimum length of contract and (ii) notice period applies. [317816]

John Healey: The annual financial monetary value of the remuneration paid to the Chair of the Commission is as follows:

Infrastructure Planning Commission (IPC): Chair remuneration

	£/Hours
Basic salary	£184,000
Bonus structure	None
Employer's pension contribution	Not pensionable
Benefits in kind/Incentives	None
Contracted hours	4 days/week
Travel expenses (October to December 2009)	£3,538.85

Note: The IPC will publish the detail of expenses on their website on a quarterly basis.

In line with Schedule 1, Part 3 (1) of the Planning Act 2008, which stipulates that the chair must be appointed for a fixed period which must not be less than five years or more than eight years, the chair has been appointed for the minimum five years, which can be extended for a further three years subject to satisfactory performance. The appointment can be terminated early by either party, by giving three months notice, in writing.

Land: Databases

Robert Neill: To ask the Secretary of State for Communities and Local Government with reference to the answer to the hon. Member for Meriden of 16 October 2009, *Official Report*, column 1124W, on land: databases, what *(a)* type of information and *(b)* level of detail provided by infra-red aerial photography as part of the Pan-Government Agreement on geographical information. [317601]

Mr. I[illegible] Austin: The information requested is as follows:

(a) The Pan-Government Agreement colour infra-red aerial photography provides a representation of the real world that highlights actual landcover on the ground. It is commonly used in environmental applications as it is effective at discriminating variations in vegetation.

(b) The data are provided at 50cm resolution.

Local Government Finance

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government with reference to the answer to the hon. Member for Meriden of 22 October 2009, *Official Report*, column 1645W, on local government finance, how many separate data attributes or indicators are collected as part of each of the datasets listed in the answer. [317114]

Barbara Follett: The information collected on each of the local government finance data sets can be found from the forms which can be accessed on the Department's website at:

http://www.communities.gov.uk/localgovernment/localregional/localgovernmentfinance/statistics/usefulinformation/formstimetable/

Robert Neill: To ask the Secretary of State for Communities and Local Government what estimate the Audit Commission has made of the cost to local authorities of central government inspection, audit and compliance in 2008-09. [317859]

Ms Rosie Winterton: This is an operational matter for the Audit Commission and I have asked the chief executive of the Audit Commission to write to the hon. Member direct.

Letter from Steve Bundred, dated 23 February 2010:

Your Parliamentary Question has been passed to me to reply.

The Audit Commission has made no estimate of the cost to local authorities of central government inspection, audit and compliance in 2008-09.

The total fees charged to local authorities in 2008-09 for external audit by auditors appointed by the Audit Commission and for Audit Commission inspections are set out in the Commission's annual report and accounts for that year.

The inspectorates of local public services have jointly commissioned independent research into the costs to local authorities of compliance with Comprehensive Performance Assessment in 2008-09 and how this changed with the introduction of the new Comprehensive Area Assessment in 2009-10. This research is expected to be concluded in March 2010 and will be published as soon as it is available.

A copy of this letter will be placed in Hansard.

Local Government Finance Funding Changes Independent Inquiry

Robert Neill: To ask the Secretary of State for Communities and Local Government with reference to page 79 of the final report of the Lyons Inquiry into local government, if he will place in the Library a copy of the written submission to that Inquiry made by the National Audit Office. [317567]

Barbara Follett: I have placed a copy of the National Audit Office's submission to the Lyons Inquiry in the Library of the House.

Local Government: Bank Services

Mr. Cameron: To ask the Secretary of State for Communities and Local Government which local authorities' requests for permission to capitalise potential losses on investments held in Icelandic banks have been *(a)* granted and *(b)* rejected; and on what grounds such bids have been rejected. [317749]

Barbara Follett: As capitalisation allows local authorities to use capital resources to meet revenue pressures applications are considered against strict and readily available criteria. All Icelandic capitalisation applications were assessed against the exceptional financial difficulties criteria.

The list of authorities who applied for capitalisation under exceptional financial difficulties is available on the Department's public website at:

http://www.communities.gov.uk/documents/localgovernment/xls/1451009.xls

All bids were carefully considered, and the grounds for acceptance or rejection were the criteria for exceptional financial difficulties which are contained within the guidance to authorities. This is available on the Department's public website at:

http://www.communities.gov.uk/documents/localgovernment/pdf/1197739.pdf

Local Government: Cost Effectiveness

Robert Neill: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Welwyn Hatfield of 19 January 2010, *Official Report*, column 290W, on local government: cost effectiveness, for what reason the £250 million cost to local authorities of the Personal Care at Home Bill is not being classified as a new burden under his Department's new burdens principle; over what period and in which financial years local authorities will be required to make the personal care efficiency savings; and whether local authorities will be required to increase council tax or cut services if the personal care efficiency savings are not made. [317810]

Barbara Follett: The provisions under the Personal Care at Home Bill will be funded through a combination of additional grant and redirected local authority efficiency savings. The cost of providing free Personal Care has been calculated to be £335 million in the first half year from October 2010; £210 million of this will be funded by the Department of Health and £125 million from local government efficiencies. The full-year costs have been calculated to be £670 million. Of this, £250 million would be met by local authority efficiencies and £420 million would come from the Department of Health. Decisions about the funding of frontline services from 2011-12, including adult social care, will be taken as part of the normal spending review process, which will take into account both pressures and the scope for further efficiency gains.

The Government believe that it is right to expect councils to play their part to help deliver this new commitment. We have provided record investment in local government, with local authorities receiving £8.6 billion more over the current spending review. We have also confirmed in 'Putting the Frontline First: Smarter Government' that we will free-up local resources through reducing burdens, targets and the level of ring-fencing. On top of this, low inflation and affordable pay settlements should mean that councils have room to redirect efficiency savings to deliver this priority.

The Government have made clear that it expects the average Band D council tax increase in England to fall to a 16 year low in 2010-11 and will not hesitate to cap any excessive council tax increases set by individual authorities.

Local Government: Debt Collection

Janet Anderson: To ask the Secretary of State for Communities and Local Government if he will make an assessment of the effectiveness of Rossendale borough council's supervision of private bailiffs acting on that authority's behalf. [317174]

Barbara Follett: No. Any request for an assessment of Rossendale borough council's commercial contract with a private bailiff company should be raised with the council itself or the Audit Commission.

Local Government: Equality

Robert Neill: To ask the Secretary of State for Communities and Local Government how much funding his Department has provided to local authorities *(a)* under the formula grant system and *(b)* through specific grants to fund new burdens arising from new equality and diversity duties in each year since 2005-06. [317809]

Barbara Follett: The formula grant settlement in all these years took account of the spending pressures on all authorities' responsibilities, including equality and diversity duties, as well as the scope for efficiencies. No specific grants have been allocated relating to these issues.

Local Government: Pay

Robert Neill: To ask the Secretary of State for Communities and Local Government what estimate he has made of the cost to local authorities of the planned increase in employers' National Insurance Contributions in each of the next three years. [317862]

Barbara Follett: There are no proposed or planned increases in employer's national insurance contributions in 2010-11. However, in 2011-12 employer's contributions are set to increase by 1 per cent. to 13.8 per cent. and the additional pressure this will put on the wage bills of local authorities will be considered, with all others during the next spending review. This will also take into account other factors, like the scope for continued efficiency gains.

Local Government: Pensions

Robert Neill: To ask the Secretary of State for Communities and Local Government what the average employer contribution rate to each fund of the Local Government Pension Scheme is. [317806]

Ms Rosie Winterton: This information is not held centrally. A summary of the 2007 triennial valuation exercises, prepared by the Society of County Treasurers, can be found at:

http://www.cipfa.org.uk/panels/pensions/download/2007_LGPS_Valuation_Survey_Results.pdf

Individual scheme administering authorities can provide details of contribution levels of all fund employers and fund average contribution data.

Robert Neill: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Welwyn Hatfield of 26 January 2010, *Official Report*, column 770W, on local government and fire services: pensions, what the level is at which employer pension contributions to the local government pension scheme will be *(a)* capped and *(b)* shared. [317876]

Ms Rosie Winterton: Discussions are continuing with stakeholders about the final terms for cap and share to apply within the Local Government Pension Scheme having regard to the outcome of the 2010 actuarial valuation exercise.

Robert Neill: To ask the Secretary of State for Communities and Local Government whether he plans to change the employee contribution rate for the Local Government Pension Scheme. [317986]

Ms Rosie Winterton: There are no current plans to amend the Local Government Pension Scheme employee contribution tariff.

Mortgages: Government Assistance

Stewart Hosie: To ask the Secretary of State for Communities and Local Government how many homeowners are in receipt of assistance under the Homeowner Mortgage Protection Scheme [317344]

John Healey: I refer the hon. Member to the answer I gave to the hon. Member for Meriden (Mrs. Spelman) on 16 December 2009, *Official Report*, column 1297W.

Robert Neill: To ask the Secretary of State for Communities and Local Government how many households have been refused assistance under the Mortgage Rescue Scheme because the value of the property exceeded the eligibility criteria. [317863]

John Healey: Regional property price caps for the Mortgage Rescue Scheme have been in place since the scheme was launched in January 2009. They reflect the aim of the scheme to provide targeted support for vulnerable households at risk of homelessness.

The level of the caps was increased on 1 May and is now at least 150 per cent. of lower quartile property prices in each region. In addition, housing associations have flexibility to consider applications which exceed the cap if appropriate depending on household's individual circumstances.

During 2009 fewer than 5 per cent. of applications were deemed ineligible for support because their property exceeded the regional price cap.

Angus Robertson: To ask the Secretary of State for Communities and Local Government (1) how many applications were made to the Homeowner Mortgage Protection Scheme from homeowners in Moray constituency in 2009; and how many of these met the eligibility criteria; [317971]

(2) how many homeowners are in receipt of help under the Homeowner Mortgage Protection Scheme in Moray constituency. [318002]

Mr. Weir: To ask the Secretary of State for Communities and Local Government how many applications were made to the Homeowner Mortgage Support Scheme by homeowners in Angus constituency in 2009; and how many of these met the eligibility criteria. [318068]

Pete Wishart: To ask the Secretary of State for Communities and Local Government how many homeowners in Perth and North Perthshire constituency are in receipt of help under the Homeowner Mortgage Protection Scheme. [317922]

John Healey: I refer the hon. Members to the answer I gave to the hon. Member for Meriden (Mrs. Spelman) on 16 December 2009, *Official Report*, column 1297W. This information is not collected at constituency level.

Non-Domestic Rates

Robert Neill: To ask the Secretary of State for Communities and Local Government what estimate he has made of the proportion of eligible small firms which do not claim small business rate relief. [317807]

Barbara Follett: New work by CLG analysts, published on 9 December 2009, shows that take-up of small business rate relief (SBRR) is much better than some have previously claimed. The report "Small business rate relief—improving evidence on eligibility and take-up: Methodology" is available at:

http://www.communities.gov.uk/publications/localgovernment/smallbusinessmethod

and estimates that, of the around 1.2 million business properties in England below the current rateable value (RV) thresholds for SBRR, around 575,000 are occupied by eligible small businesses; and around 68 per cent. of those eligible were actually claiming the relief at 31 December 2006, the latest date for which we have information on the number of claimants.

This estimate of the number of properties claiming the relief will be updated for 2008-09 following the issue of the statistical release "Number of hereditaments benefiting from Small Business Rate Relief and the number of empty hereditaments: experimental statistics" that will be published on the Communities and Local Government website at the end of February.

This means that an estimated 32 per cent. of properties occupied by eligible small businesses were not claiming the relief as at December 31 2006. The total amount of relief granted to small businesses has increased by 34 per cent. in real terms since we introduced the scheme—rising from £202 million in 2005-06 to £298 million in 2008-09. The new analysis estimates that in 2008-09, of the £325 million total relief that would be granted if all 575,000 eligible properties had claimed, 92 per cent. was actually paid out.

We have taken action to make it as easy as possible for eligible small businesses to access the relief and so improve take-up. In 2007 we removed the requirement for claimants to re-apply each year, so that a small business only had to apply once in each revaluation period. And on December 9 2009 we laid before Parliament an Order to remove the requirement to re-apply for SBRR at revaluation in 2010, a move which has been welcomed by the Federation of Small Businesses.

Robert Neill: To ask the Secretary of State for Communities and Local Government what the levy charged on the business rate multiplier to offset estimated losses in revenue due to rating appeals was in each year since 2005-06. [317984]

Barbara Follett: There is no additional levy added to the business rate multiplier to take account of estimated losses for appeal for each individual year. The business rate multiplier is calculated in a revaluation year according to the formula at schedule 7 of the Local Government Finance Act 1988.

The formula allows for the total rateable value of the ratings lists to be adjusted to take account of estimated losses in appeals. The subsequent multiplier for each year of the 2005 ratings list following the 2005-06 revaluation year was adjusted just by the RPI inflation.

The calculation of the 2005-06 multiplier including an adjustment for estimated losses in appeals is set out in the Business Rates Information letter that I have put in the House Library.

The five-yearly business rates revaluations make sure each business pays its fair contribution and no more by ensuring that the share of the national rates bill paid by any one business reflects changes over time in the value of its property relative to others. The 2010 revaluation will not raise a single extra penny for Government.

Over a million properties will see their business rate liabilities come down as a result of revaluation. The Government have put in place a £2 billion relief scheme to limit the impact on the minority with bill increases, which in 2010-11 will ensure no business property sees its rates bill increase by more than 11 per cent. as a result of the revaluation, with maximum increases capped at just 3.5 per cent. for small properties. That is on top of the wider support available to help ease business pressures including discounted rate bills for small businesses and deferring tax payments.

Non-Domestic Rates: Empty Property

Robert Neill: To ask the Secretary of State for Communities and Local Government with reference to the answer to the hon. Member for Meriden of 16 October 2009, *Official Report*, column 1132W, on non-domestic rates: empty properties, if he will place in the Library a copy of the data on empty properties provided by each local authority as part of the most recent national non-domestic rates return. [317599]

Barbara Follett: Valid data at individual local authority level will be available following the issue of the statistical release "Number of hereditaments benefiting from Small Business Rate Relief and the number of empty hereditaments: experimental statistics" that will be published on the Communities and Local Government website at the end of February.

Non-Domestic Rates: Ports

Robert Neill: To ask the Secretary of State for Communities and Local Government if he will place in the Library a copy of the correspondence received from GEFCO UK in relation to the new business rate regime affecting port businesses. [317801]

Barbara Follett: As explained to the hon. Member on 20 July 2009, it would be inappropriate for Ministers to release correspondence they receive without authority.

Parish Councils: Council Tax

Robert Neill: To ask the Secretary of State for Communities and Local Government which parish councils levy a precept on council tax. [317854]

Barbara Follett: This information is not held centrally.

Robert Neill: To ask the Secretary of State for Communities and Local Government what the gross revenue raised from parish precepts was on council tax in England in each year since 1997-98; and what the average parish precept on a Band D bill was in each such year. [317857]

Barbara Follett: Details of the gross revenue raised from parish precepts on council tax and the average parish precept on a band D bill in England since 2000-01 are published in table A3c of "Local Government Financial Statistics England No. 19 2009" that was published in May 2009.

A copy of this publication is available in the Library of the House and a copy is also available on the Communities and Local Government website at:

http://www.communities.gov.uk/publications/corporate/statistics/financialstatistics192009

Private Rented Housing

Grant Shapps: To ask the Secretary of State for Communities and Local Government (1) what estimate he has made of the *(a)* start-up and *(b)* ongoing costs of his Department's telephone helpline for tenants in the private rented sector; [317543]

(2) how much his Department plans to allocate to its new telephone helpline for tenants in the private rented sector. [317544]

Mr. Ian Austin: Our policy statement on the private rented sector published on 3 February included, as part of a package of measures designed to help tenants, landlords and letting agents, a commitment to set up a dedicated telephone helpline for private sector tenants by the summer of this year.

As the statement makes clear, we are discussing the details of how this proposal will be implemented with stakeholders in the voluntary sector.

Private Rented Housing: Planning Permission

Robert Neill: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the written ministerial statement of 27 January 2010, *Official Report*, columns 54-6WS, on planning, what estimate has been made of the increase in the number of planning applications likely to result from the proposed changes. [317875]

Mr. Ian Austin: An estimate of the increase in the number of planning applications as a result of the proposed changes will be set out in the final impact assessment which is being produced in association with the implementing legislation.

Regional Planning and Development

Robert Neill: To ask the Secretary of State for Communities and Local Government how many core strategies have been approved by the relevant local planning authority to date; and how many Local Development Frameworks include a full set of documentation as required under the Local Development Scheme. [317855]

Mr. Ian Austin: Development Plan Documents are approved by local planning authorities at different stages: at publication; at submission of the strategy to the Secretary of State for an independent Examination in Public; and at adoption. The following table sets out the latest position for core strategies.

Local Development Schemes are a forward look setting out the timetables for the Development Plan Documents that local authorities intend to prepare or review. These are subject to ongoing change as new circumstances and requirements arise. The LDS should therefore rarely if ever be completed.

	Adopted	*Submitted to SoS but not yet adopted*	*Published but not yet submitted*
Core strategies	61	25	31

Social Rented Housing

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many registered social landlords there were in 2009; and how many properties were owned by them. [316809]

Mr. Ian Austin: On 31 March 2009 there were 1,830 landlords registered with the Tenant Services Authority and they owned a total of 2,379,728 units of housing.

A unit of housing is a single family home: a bedsit, flat, family house or a bedspace[1] in a hostel.

[1] Individuals placed in a hostel will occupy a bedspace in either a private room or a shared dormitory.

Grant Shapps: To ask the Secretary of State for Communities and Local Government what research his Department has conducted into the income of households in the social rented sector. [316818]

Mr. Ian Austin: The Survey of English Housing (SEH) has been the Department's main source of information on income by housing tenure up to 2007-08. From 2008-09 estimates will be mainly derived from the new English Housing Survey (EHS). An additional source is DWP's Family Resources Survey (FRS).

The most recently published annual report, Housing in England 2007-08, contains tables derived from both the SEH and the FRS. The report can be accessed at:

http://www.communities.gov.uk/documents/statistics/pdf/1346249.pdf

Tenant Services Authority

Robert Neill: To ask the Secretary of State for Communities and Local Government if he will place in the Library a copy of the *(a)* communications audit, *(b)* campaign book, *(c)* communications plan and *(d)* political and key stakeholder outreach plan provided to the Tenant Services Authority under its contract with APCO Worldwide. [317869]

John Healey: No such documentation exists. A copy of the contract briefs is available in the Library of the House.

Unitary Councils: Finance

Sarah Teather: To ask the Secretary of State for Communities and Local Government what the projected *(a)* minimum and *(b)* maximum cost savings estimated for each unitary authority established since 2007 were prior to the authority's inception; what cost saving targets were set when each was established; and what savings each has achieved to date. [318038]

Ms Rosie Winterton: I refer the hon. Member to the answer given to the hon. Member for Peterborough (Mr. Jackson) on 9 February 2010, *Official Report*, column 882W.

Youth Services: Finance

Robert Neill: To ask the Secretary of State for Communities and Local Government how much funding his Department allocated to local authorities for youth services in *(a)* 2008-09, *(b)* 2009-10 and *(c)* 2010-11 through (i) formula funding, (ii) specific grants, (iii) special grants and (iv) area-based grants; and how much such funding of each type was earmarked for (A) revenue support and (B) capital expenditure in each such year. [317856]

Barbara Follett: Neither formula grant nor Area Based Grant are hypothecated to any particular purpose. The Department has paid no specific or special grants to authorities for youth services in the years in question.

JUSTICE

Approved Premises

John McDonnell: To ask the Secretary of State for Justice what the average annual cost of housing a person in a probation hostel or approved premises was in the latest period for which figures are available. [317096]

Maria Eagle: The current grant for approved premises (formerly known as probation or bail hostels) equates to an average £26,600 per bed space for the current financial year, unchanged from the previous year. More than one resident will occupy a single bed space in approved premises over the course of a year, with an average stay of 74.7 days per resident.

Feltham

Alan Keen: To ask the Secretary of State for Justice if he will set out, with statistical evidence relating as closely as possible to Feltham and Heston constituency, the effects on that constituency of changes to his Department's policies since 1997. [316673]

Maria Eagle: The Ministry of Justice's work spans criminal, civil and family justice, democracy, rights and the constitution. Every year around 9 million people use our services in 900 locations across the United Kingdom, including 650 courts and tribunals and 139 prisons in England and Wales.

The range of the Department's policies and actions is wide and the statistical information relating to it is not normally collected on a constituency basis. Consequently, some of the information requested in the question cannot be provided in the form requested except at a disproportionate cost.

Although data on sentencing for the period are not available for the constituency of Feltham and Heston, they are available for London. These show the total number of offenders sentenced annually was 202,478 in 1997 and 242,429 in 2008, the latest period for which such information is available.

The number of offences brought to justice for London increased from 119,531 for the 12 months ending 31 March 2001 (the earliest period since which such data have been compiled) to 230,202 (provisional figures) for the 12 months ending 31 March 2009.

With regard to prosecutions, data are not available for the constituency of Feltham and Heston. However, the total number of defendants proceeded against at magistrates' courts by the Metropolitan Police was 260,328 in 1997 compared to 279,581 in 2008.

The latest data, which cover reoffending in the period 1 July 2008 to 30 June 2009, showed that the three month reoffending rate for offenders on the probation caseload in Hounslow was 8.15 per cent. After controlling for changes in the characteristics of offenders on the probation caseload, there was a reduction in reoffending of 6.06 per cent. compared to the 2007-08 baseline. Data are not available prior to 2007 on this basis.

The number of persons commencing court order supervision by the Probation Service in London was 17,214 in 1997 and 23,787 in 2008.

163,570 civil non-family proceedings were started in the county courts of London Civil and Family HM Courts Service (HMCS) area and Staines in 2008, compared to 275,769 in 1998, the first year for which these figures are available. In respect of family law, there were also 15,680 private law applications and 870 public law applications made in the county or High Courts of this HMCS area and Staines in 2008-09, compared to 11,931 and 1,095 respectively in 2003-04, the first annual period for which these figures are available.

In addition, at a national level:

Local communities are being better engaged in criminal justice—by giving them a say in the types of Community Payback projects offenders carry out and allowing them to see justice being done, for example through the use of high visibility jackets. Offenders have now worked more than 14 million hours, with an estimated value to the taxpayer of over £30 million.

Major constitutional reforms have been delivered, including devolution, the Human Rights Act, Freedom of Information, Lords Reform, and a new Supreme Court for the UK.

National Offender Management Service: Manpower

John McDonnell: To ask the Secretary of State for Justice how many people are employed at the *(a)* national and *(b)* regional level in the National Offender Management Service. [317093]

Maria Eagle: On 31 December 2009 the National Offender Management Service (NOMS) Headquarters employed 2,260 at national headquarters and 1,094 at regional offices and in regionally organised technical support teams. A further 1,021 staff are employed by the NOMS Shared Service Centre in Newport, South Wales.

Offenders: Deportation

Mr. Grieve: To ask the Secretary of State for Justice how many foreign national prisoners serving sentences of less than 12 months have a court recommendation for deportation. [317127]

Mr. Straw: At the end of June 2009, there were 990 foreign national prisoners (FNPs) in England and Wales, serving a sentence of less than 12 months.

Data on how many of these FNPs also received court recommendation for deportation are not held centrally and could not be provided without manual checking of records at disproportionate cost.

This figure has been drawn from administrative IT systems which, as with any large scale recording system, is subject to possible errors with data entry and processing.

Prison Accommodation

Alan Duncan: To ask the Secretary of State for Justice with reference to the answer to the hon. Member for Harborough of 8 June 2009, *Official Report*, columns 774-75W, on prison accommodation, how many cells were not in use in each *(a)* prison for adult males, *(b)* prison for adult females, *(c)* young offender institution for males and *(d)* young offender institution for females on 1 January 2010 or the latest date for which figures are available. [318056]

Mr. Straw: As at 29 January 2010 there were 1,598 places recorded as out of use from the total certified normal accommodation (CNA) of the prison estate. This represents 2.1 per cent. of the total CNA.

The data available do not allow for a breakdown of whether these places are for young offenders or adults.

Comprehensive information on why these places are out of use is not held centrally, however the majority of out of use accommodation will be due to maintenance or refurbishment work taking place.

There is a planned programme of refurbishment of accommodation which requires the temporary closure of prison places. This allows the critical maintenance of the estate to be undertaken whilst having no significant change on the number of net places in use.

The following table shows the total number of places that were recorded as out of use by male and female establishments.

HMP Ashwell has 415 places out of use following an incident in April 2009. HMP Wealstun has 300 places out of use while part of the establishment is re-rolled to closed conditions.

Establishment name	*Number of places out of use*	*Percentage of CNA*
Male establishments		
Ashfield	7	1.7
Ashwell	415	69.3
Aylesbury	12	2.6
Bedford	1	0.9
Channings Wood	2	0.3
Cookham Wood	25	17.2
Dartmoor	62	9.8
Dorchester	8	5.5
Edmunds Hill	10	2.6
Elmley (Sheppey Cluster)	18	2.4
Featherstone	29	4.3

Establishment name	*Number of places out of use*	*Percentage of CNA*
Full Sutton	8	1.3
Grendon	23	9.1
Haslar	22	13.8
Hindley	66	13.0
Isle of Wight[1]	1	0.1
Lincoln	12	2.7
Liverpool	10	0.8
Long Lartin	13	2
Manchester	16	1.7
Moorland	13	1.8
Pentonville	5	0.5
Portland	72	11.9
Ranby	1	0.1
Rochester	32	4.2
Spring Hill	1	0.3
Stoke Heath	58	9.1
Swaleside	127	13.6
Swansea	18	7.3
Wakefield	1	0.1
Wealstun	300	37
Whatton	45	0.4
Whitemoor	28	5.7
Woodhill	5	0.8
Wormwood Scrubs	23	2
Female establishments		
Askham Grange	24	16.0
Holloway	29	5.5
Low Newton	45	14.3
New Hall	9	2.3
Styal	2	0.4

[1] The sites at Albany, Camphill and Parkhurst constitute HMP Isle of Wight.

Prison Officers

Alan Duncan: To ask the Secretary of State for Justice how many prison officers were *(a)* disciplined or *(b)* dismissed from (i) privately and (ii) publicly managed prisons in each of the last five years for which figures are available. [318059]

Maria Eagle: In the National Offender Management Service (NOMS) information is only held centrally in respect of staff disciplined or dismissed from publicly managed prisons. There is no requirement for privately managed prisons to notify NOMS headquarters of any disciplinary action taken against their employees. In order to provide the information required in respect of the privately managed prisons, we would have to contact each of the prisons concerned and ask them to submit their records for the last five years to NOMS so that it could be collated. This would incur disproportionate cost.

The following table provides a breakdown of the number of prison officers in the public sector Prison Service who have been disciplined or dismissed in each of the last five calendar years. Staff can be dismissed from the public sector Prison Service if their attendance, conduct or performance falls below the required standards. The data given for dismissals includes all prison officers from publicly managed prisons who have left the service for inefficiency, conduct and performance reasons.

	2005	*2006*	*2007*	*2008*	*2009*	*Total*
Disciplinary cases[1]	156	160	185	122	151	774
Dismissals[2]	172	167	200	185	170	894

[1] Data on disciplinary cases are derived from the HR Discipline Database and the Shared Service Personnel Management Database. As with any large-scale administrative systems these are liable to a certain level of inaccuracy. It includes all centrally recorded disciplinary cases excluding those resulting in dismissal from service.

[2] Data includes dismissals for inefficiency, conduct and performance reasons and are derived from the Oracle HR system and the former Personnel Corporate Database. As with any large-scale administrative systems these are liable to a certain level of inaccuracy.

Alan Duncan: To ask the Secretary of State for Justice what the average duration of standard initial training for prison officers is in *(a)* privately and *(b)* publicly managed prisons. [318061]

Maria Eagle: In privately managed prisons the duration of initial training for prison custody officers (equivalent to prison officers in the public sector) is nine weeks. The training is mainly classroom based but includes job shadowing in the prison.

All newly recruited prison officers in public sector prisons are required to complete a one year foundation training programme, leading to a level 3 National Vocational Qualification in Custodial Care (CCNVQ). Training begins with an eight week prison officer entry level training course, which is mainly college-based. This provides staff with all the underpinning knowledge and understanding in core skills required to successfully complete their CCNVQ within 12 months of joining the National Offender Management Service.

Prison: Offences

Chris Grayling: To ask the Secretary of State for Justice how many prisons were free from *(a)* illegal drug use and *(b)* mobile telephone smuggling in each year since 1997. [317762]

Maria Eagle: Prisons have achieved considerable success in reducing the level of drug misuse against a background of continuing high demand for drugs. Drug misuse as measured by random mandatory drug testing has fallen 68 per cent. since 1996-97.

The following table gives the number of prisons that reported no drug misuse, as measured by random mandatory drug testing (MDT), in each year since 1996-97. Many prisons also report very low levels of drug misuse. The varying nature of individual prison populations can result in fluctuating month to month MDT positive rates. Many prisons achieve periods of zero positive rates but are not drug free over an entire 12 month period.

	Number of prisons reporting no drug misuse, as measured by random MDT
1996-97	1
1997-98	0
1998-99	0
1999-2000	1
2000-01	2
2001-02	2
2002-03	2
2003-04	0
2004-05	1
2005-06	1

	Number of prisons reporting no drug misuse, as measured by random MDT
2006-07	1
2007-08	2
2008-09	1

These figures have been drawn from administrative data systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system.

The data are not subject to audit.

Due to the covert nature of mobile phone use in prisons, the National Offender Management Service (NOMS) is not able to identify definitively prisons where there is a complete absence of mobile phone smuggling. NOMS is acutely aware of the threat posed by mobile phone use in prisons and has introduced measures to assist prisons in minimising the number of mobile phones entering prison, finding mobile phones within prisons and disrupting the use of mobile phones that cannot be found. NOMS is working to implement systems to improve the reporting by prisons of mobile phone seizures which will assist in understanding the scale of the issue.

Prisoners

Mr. Grieve: To ask the Secretary of State for Justice what *(a)* high, *(b)* medium and *(c)* low projections he has made for the prison population in each of the next five years. [317134]

Mr. Straw: The Ministry of Justice produces annual projections of the prison population in England and Wales, most recently in August 2009.

These project the prison population under three different scenarios, based on different assumptions about future sentencing trends: the Medium scenario assumes no increases or decreases in custody rates or determinate sentence lengths. The High/Low scenarios reflect a 1 per cent. per annum increase/decrease in custody rates and a 0.5 per cent. increase/decrease in the average (determinate) custodial sentence lengths.

Other impacts included in the projections, such as those of legislation and processes, are applied equally to all scenarios. These cover the anticipated impacts of policy and process initiatives that have agreed implementation timetables. These assumptions and anticipated impacts have remained unchanged since last year projections.

The requested information is shown in the following table:

Projected prison population (end June figures)

	High	*Medium*	*Low*
2010	85,700	84,900	83,900
2011	88,600	86,900	84,900
2012	90,200	87,700	84,900
2013	91,100	87,600	84,000
2014	92,400	88,000	83,500

Notes:

1. All numbers rounded to the nearest hundred.

2. The prison population is influenced by diverse factors that can mean that the actual future prison population may not be the same as that projected: changes in sentencer behaviour, policy decisions and the criminal justice process, which can respond to a multitude of environmental factors such as high profile criminal cases and public debate; implementation of new policies and processes without a timetable, or for which a quantitative assessment of the impact is currently not possible; unknown future policy, process and political changes.

More details on the projections may be found in the latest published bulletin, "Prison Population Projections 2009-2015" Ministry of Justice Statistics Bulletin, 28 August 2009. This is available at the following webpage:

http://www.justice.gov.uk/publications/prisonpopulation.htm

Mr. Grieve: To ask the Secretary of State for Justice what representations he has received on projections for prison *(a)* population and *(b)* capacity over the next two years. [317135]

Mr. Straw: The latest projections for the prison population were published on the 28 August 2009, in the Ministry of Justice publication "Prison Population Projections 2009-15" available at:

http://www.justice.gov.uk/publications/statistics.htm

They cover the period August 2009—June 2015 and investigate three future scenarios.

These projections were produced using a version of the long term prison population projections model that was developed in the 1990's and has worked well. However, in line with good practice, further development of the long-term modelling of the prison projections is being undertaken in 2009 and 2010, to ensure the model continues to perform and is using the most up to date techniques and data. A new, more flexible framework will be developed.

This development process has provided the opportunity for stakeholders to influence the way in which the model is developed and they have been asked to comment, or ask for further details, via the MoJ website. At the current time no comments or other representations have been received.

With regards to prison capacity the Ministry of Justice has received different forms of representation on future prison capacity from a variety of sources, among them Members of Parliament, non-governmental organisations and members of the public. Details of all these representations are not all held centrally and could only be obtained at disproportionate cost.

Mr. Gerrard: To ask the Secretary of State for Justice (1) what his most recent estimate is of the average annual cost to his Department of holding in prison *(a)* an adult and *(b)* a person aged under 21 years; [317277]

(2) what criteria are used to determine the average cost of a prison place in England and Wales; and whether this includes the cost of the National Offender Management Service national and regional structures. [317278]

Maria Eagle: For 2008-09, the average cost per prisoner in an adult prison was £39,600 and in a young offender institution was £53,400.

These average costs comprise the expenditure on public and private prisons (as recorded in the National Offender Management Service (NOMS) Agency Annual Report and Accounts), increased by an apportionment of relevant costs borne centrally and in the regions by NOMS. This involves some estimation. In addition, expenditure met centrally by the Youth Justice Board (YJB) is included. The figures do not include the cost of prisoners held in police or court cells under Operation Safeguard, nor expenditure met by other Government Departments (e.g. Health and Education). The prisoner escort service costs are included. Where the costs of young people are recharged by NOMS to the YJB, expenditure is shown gross and not reduced by income from the YJB.

Alan Duncan: To ask the Secretary of State for Justice what his Department's *(a)* high, *(b)* medium and *(c)* low projections of the prison population are for each month to December 2011. [318057]

Mr. Straw: The Ministry of Justice produces annual projections of the prison population in England and Wales, most recently in August 2009.

These project the prison population under three different scenarios, based on different assumptions about future sentencing trends: the Medium scenario assumes no increases or decreases in custody rates or determinate sentence lengths. The High/Low scenarios reflect a 1 per cent. per annum increase/decrease in custody rates and a 0.5 per cent. increase/decrease in the average (determinate) custodial sentence lengths.

Other impacts included in the projections, such as those of legislation and processes, are applied equally to all scenarios. These cover the anticipated impacts of policy and process initiatives that have agreed implementation timetables. These assumptions and anticipated impacts have remained unchanged since last year projections.

The requested information is shown in the following table:

Monthly values of projected prison population for High, Medium and Low scenarios

	High	*Medium*	*Low*
July 2009	83,962	83,962	83,962
August 2009	83,400	83,300	83,200
September 2009	83,700	83,600	83,400
October 2009	84,100	83,900	83,600
November 2009	84,200	83,900	83,500
December 2009	82,300	82,000	81,500
January 2010	83,300	82,900	82,400
February 2010	83,600	83,100	82,500
March 2010	84,800	84,200	83,500
April 2010	85,000	84,400	83,600
May 2010	85,000	84,300	83,400
June 2010	85,700	84,900	83,900
July 2010	86,600	85,700	84,700
August 2010	86,400	85,500	84,400
September 2010	86,700	85,700	84,400
October 2010	86,800	85,700	84,400
November 2010	87,300	86,100	84,800
December 2010	85,600	84,400	82,900
January 2011	86,500	85,200	83,600
February 2011	86,800	85,400	83,700
March 2011	87,800	86,400	84,600
April 2011	87,700	86,100	84,300
May 2011	88,000	86,300	84,400
June 2011	88,600	86,900	84,900
July 2011	89,200	87,400	85,300
August 2011	89,200	87,300	85,200
September 2011	89,300	87,400	85,200
October 2011	89,400	87,400	85,200
November 2011	89,600	87,500	85,200
December 2011	87,400	85,200	82,800

Notes:

1. Data are rounded to the nearest hundred.
2. Data are given for the last day of each month.
3. The prison population is influenced by diverse factors that can mean that the actual future prison population may not be the same as that projected: changes in sentencer behaviour, policy decisions and the criminal justice process, which can respond to a multitude of environmental factors such as high profile criminal cases and public debate; implementation of new policies and processes without a timetable, or for which a quantitative assessment of the impact is currently not possible; unknown future policy, process and political changes.
4. The July 2009 prison population figure is a provisional figure published on the 31 July 2009 by HM Prison Service: www.hmprisonservice.gov.uk/assets/documents/1000481131072009_web_report.doc

More details on the projections may be found in the latest published bulletin, "Prison Population Projections 2009-2015" Ministry of Justice Statistics Bulletin, 28 August 2009. This is available at the following webpage:

http://www.justice.gov.uk/publications/prisonpopulation.htm

Prisoners Release

Alan Duncan: To ask the Secretary of State for Justice what estimate he has made of the number and proportion of offenders who *(a)* on release from custodial sentences and *(b)* on commencement of a community sentence, are moved to a different geographical area from their home address for (i) reasons of rehabilitation, (ii) reasons of victim safety and (iii) other reasons. [318045]

Maria Eagle: The information requested is not collated centrally. Offenders are transferred between probation areas for a variety of reasons, including rehabilitation and victim safety. However, there is no mechanism is place to record centrally the reasons behind these transfers.

To answer the question, each probation area would need to review their case load to establish the number of offenders who have been transferred between probation areas, and then to examine those cases to determine the reasons behind each move. This could be achieved only by incurring disproportionate cost.

Prisoners Transfers

Mr. Grieve: To ask the Secretary of State for Justice what the cost to the public purse was of transferring prisoners to Crown Dependencies in each of the last five years. [317133]

Mr. Straw: The cost of the transferring prisoners from England and Wales to the three Crown Dependencies (Guernsey, Jersey, and the Isle of Man) was as follows:

	£
2006	7,431.78
2007	4,463.40
2008	4,591.52
2009	7,386.84

The costs shown cover the cost of the flights for the prisoner and escorting staff. The cost of transferring the prisoner from a prison to the airport is covered by the inter prison transfer contract and is not separately recorded. The cost of transfer before 2006 was met from the contract in place at the time. Costs incurred under that contract were not separately recorded.

Prisoners: Education and Drugs

Chris Ruane: To ask the Secretary of State for Justice how much his Department and its predecessors spent on *(a)* prisoner education and *(b)* drug treatment programmes for prisoners in each of the last five years. [317245]

Maria Eagle: Table 1 following shows the amount spent on prisoner education and training in each of the last five years in public sector prisons in England, funded by the Department for Business Innovation and Skills and its predecessors:

Table 1

	£ million
2005-06	151
2006-07	156
2007-08	175
2008-09	178
2009-10	178

The current budget has increased threefold since 2001.

In 2003 a ministerial decision was taken that the Learning and Skills Council (LSC) took responsibility for planning, funding and, with the then Regional Offender Managers (ROMS), commissioning of a new Offenders' Learning and Skills Service (OLASS) in public sector prisons and for offenders under supervision in community in England. OLASS came into effect across England with effect from 31 July 2006.

The Learning and Skills Council (LSC) also spent a further £30 million in European Social Funds. This was used for a number of regionally commissioned projects around vocational training and employer engagement in both prisons and the community for the two calendar years 2006 and 2007. They also established a £13.9 million budget from EQUAL funding for the period December 2006 to March 2008 to meet additional provision for offenders both in custody and in the community.

The National Offender Management Service (NOMS) gained co-financing organisation status in January 2009 and successfully bid for a total of £50 million of European Social Funding to enhance the skills and employment services to offenders in prison and the community. NOMS has been granted the funding over 27 months to increase offenders' employability and improve their access to mainstream support provision. Planning is already under way to extend the funding into a second phase up to 2013.

In addition, training for prisoners is undertaken, mainly by Prison Service staff, while prisoners work or are engaged in various areas such as prison industries, catering, physical education, land based activities, industrial cleaning and laundries. The central costs of the training elements of these, mainly production functions, are not kept centrally.

Table 2 shows Ministry of Justice/Home Office additional funding allocations for the delivery of drug interventions in prisons over the last five years. The figures include funding for accredited drug treatment programmes, Counselling, Assessment, Referral, Advice and Throughcare services (CARATs), the Young People's Substance Misuse Service (for 15 to 18-year-olds only) and Compact Based Drug Testing.

In addition to this the Ministry of Justice has permanently transferred £11.3 million a year to primary care trusts for the delivery of clinical drug treatment in prisons.

Table 2

					£ million
	2005-06	*2006-07*	*2007-08*	*2008-09*	*2009-10*
CARATs	26.8	30.3	32.1	33	34.2
Young People's Substance Misuse Service	4.3	4.7	4.7	4.7	4.7
Accredited Drug Treatment Programmes	21.1	21.7	21.7	21.8	22.4
Compact Based Drug Testing (CBDT)[1]	8.3	8.3	8.3	8.3	8.3
Total MoJ funding for prison drug interventions	60.5	65	66.8	67.8	69.6

[1] CBDT includes voluntary drug testing and incentive based drug testing.

Prisoners: Foreigners

Mr. Grieve: To ask the Secretary of State for Justice whether he has made an estimate of the number of foreign nationals likely to serve custodial sentences in England and Wales in each year to 2014. [317130]

Mr. Straw: The Ministry of Justice does not undertake separate population projections for the foreign national population.

Prisoners: Gender Identity Disorder

Lynne Jones: To ask the Secretary of State for Justice pursuant to the answer of 27 January 2010, *Official Report*, columns 865-6W, on prisoners: gender identity disorder, in what form the advice and information contained within the draft guidance is made available to prisoners who do not request it. [316791]

Maria Eagle: The guidance or advice is normally given when requested by prison staff who have been approached by prisoners seeking this information, or where they identify a prisoner on reception who is undergoing gender re-assignment treatment. There are also occasions when prisoners have written direct to officials in the National Offender Management Service for advice or information.

The information or advice will normally be given to prison staff in the form of a detailed email with relevant attachments (a copy of the draft document). In the case of prisoners; they receive a detailed written reply which would also encourage them to speak to their personal officer or a member of the health care team. A copy of the draft document would not be supplied to prisoners.

Prisoners: Mothers

Alan Duncan: To ask the Secretary of State for Justice what estimate he has made of the number of women in prison who *(a)* have children, *(b)* have children and no husband or long-term partner and *(c)* have no registered address. [318058]

Maria Eagle: The information requested is not routinely collected. However, a recent Ministry of Justice study suggested that 55 per cent. of women in prison are mothers. Work has begun with the Department for Children, Schools and Families to implement the recently published Framework for Supporting Offenders' Families. Within four days of entering custody, prisoners should have an assessment of their accommodation needs and if necessary, prison staff will provide advice and guidance to help them find settled accommodation prior to release.

Prisons : Manpower

Alan Duncan: To ask the Secretary of State for Justice what the average length of continuous employment in the same prison was of *(a)* prison officers and *(b)* prison governors in (i) privately and (ii) publicly managed prisons in each of the last five years for which figures are available. [318060]

Maria Eagle: The information requested is set out as follows:

Public Sector Establishments

Information on the length of continuous service in the same public sector Prison Service establishment for both prison officers and operational managers is contained in the following table. The information relates to the average length of time that the officers or managers, who were in post on 31 December each year, had previously spent at their then current establishment.

Average time in current establishment of public sector staff

	Average length of service (years) in current establishment	
As at 31 December each year	*Prison officers*[1]	*Operational managers*[2]
2009	8.9	5.8
2008	8.4	5.5
2007	8.2	5.3
2006	8.1	5.3
2005	8.0	5.1

[1] Prison officers only, does not include senior or principal officers.

[2] Includes all grades of operational managers, not only the in-charge governor. Manager G to senior manager A.

Private Sector Establishments[1]

Information about private sector establishments has been provided by individual contractors where available. Limitations in the data available mean that not all private sector establishments have information available in a format that is compatible with the question. Information for these establishments is presented in a separate table.

The private sector establishments have been in operation for a relatively short time and consequently the average length of service is inevitably lower than in public sector establishments where some individual officers have been in post for up to 40 years.

Average time in current establishment of private sector staff[1]

	Average length of service (years) in current establishment	
As at 31 December each year	*Prison custody officers*	*Governors*[2]
2009	4.1	6.0
2008	4.2	5.0
2007	3.9	4.8
2006	3.8	5.6
2005	3.9	4.6

[1] Information relates to Altcourse, Bronzefield, Dovegate (since 2007 only), Forest Bank and Peterborough.

[2] The definition of governor differs across contractors from all managers to only the in-charge manager.

Proportion of all staff[1] *with more than two years service*

	Proportion of staff with more than two years service in establishment (Percentage)
2009	76.9
2008	63.0
2007	65.2
2006	65.1
2005[2]	n/a

[1] Information relates to all staff at Ashfield, Doncaster and Lowdham Grange.

[2] Information not available for 2005.

Prisons: Dogs

Philip Davies: To ask the Secretary of State for Justice how many *(a)* passive and *(b)* active dogs there are in each prison in England and Wales; and on what basis they are distributed. [317400]

Maria Eagle: Allocation of drug detection dogs around the estate is decided on a regional basis, according to need. The profile is not static. In some regions there is a regional pool of dogs and handlers, moving from prison to prison as required. In other regions dogs and handlers are allocated to and permanently based in individual prisons as required.

As of October 2009 the Prison Service had 216 active drug dogs and 204 passive drug dogs in prisons, allocated as follows:

		Number
Prison	*Active drug dogs*	*Passive drug dogs*
Acklington	2	1
Ashfield	0	1
Ashwell	1	1
Aylesbury	1	0
Bedford	2	2
Belmarsh	4	2
Birmingham	4	2
Blantyre House	0	0
Blundeston	2	2
Brinsford	2	2
Bristol	2	2

Yorkshire and Humber Area Search Team[2]	11	10
Total	216	204

[1] The North West Area Search Team covers the following prisons: Altcourse, Buckley Hall, Forest Bank, Garth, Haverigg, Hindley, Kennet, Kirkham, Lancaster Castle/Farms, Liverpool, Preston, Risley, Styal, Thorn Cross and Wymott.

[2] The Yorkshire and Humber Area Search Team covers the following prisons: Askham Grange, Doncaster, Everthorpe, Hull, Leeds, Lindholme, Moorlands, New Hall, Northallerton, Wealstun, Wetherby and Wolds.

Prisons: Drugs

Philip Davies: To ask the Secretary of State for Justice whether a positive mandatory drug test automatically results in the search of a prison cell. [317398]

Maria Eagle: The National Offender Management Service's National Security Framework (NSF) does not prescribe that a cell search should follow a positive mandatory drug test. Current NSF policy requires that cells must be searched using authorised national procedures set out in the document. The frequency of routine cell searching is a matter for local discretion and should be determined as part of local searching strategies to meet local security, control and resource needs of the establishment.

In addition, cell searches may also be conducted on an intelligence-led basis or on reasonable suspicion that an item of contraband is secreted within a cell.

Philip Davies: To ask the Secretary of State for Justice what guidance has been issued on the procedure to be followed by prison service staff when a sniffer dog makes a positive indication of the presence of illicit drugs on *(a)* a visitor, *(b)* a contractor, *(c)* a prisoner and *(d)* a prison officer. [317399]

Maria Eagle: The National Offender Management Service (NOMS) Passive Drug Dog Guidelines, issued to all prisons, recommends that:

(a) and *(b)* when a passive drug dog indicates against a social visitor or contractor a repeat screen with the dog should be considered. Security staff should then question the visitor/contractor and investigate whether any further intelligence or evidence exists. If no further information exists, the visit can proceed but in closed conditions or the visitor can leave the prison. The prison's police intelligence officer should also be informed. If no further information exists on a contractor, they can be permitted entry to the prison. If further evidence and/or intelligence exists, depending on its nature, the visitor/contractor may be full (strip) searched and/or the police may be called;

(c) when a passive drug dog indicates against a prisoner the prisoner should be full (strip) searched. If no substance is found the prisoner should be required to undergo a suspicion mandatory drug test. The prisoner's cell should also be searched. If drugs are found the prisoner should be referred to the prison adjudication system. If drug finds are substantial, indicating intent to supply, the police may be called. Other evidence and intelligence will also be considered following which further administrative action may be taken;

(d) when a passive drug dog indicates against a member of prison staff the member of staff should be given a rub down search and asked to complete a questionnaire inquiring whether there is any reason why they may have come into contact with drugs. The member of staff should only proceed once all the information is verified. If drugs are found the police should be called.

Prisons: Mobile Phones

Alan Duncan: To ask the Secretary of State for Justice (1) what progress he has made in *(a)* trialling and *(b)* evaluating disruption technologies for mobile telephones in prisons; [318054]

(2) in which prisons mobile telephone signal blockers are in operation. [318055]

Maria Eagle: The National Offender Management Service is trialling a variety of technologies in a number of establishments in support of our strategy to minimise the number of mobile phones entering prisons; find mobile phones that are smuggled into prisons; and disrupt mobile phones that we cannot find. For security reasons, it is not appropriate to disclose the location of these trials.

This is a challenging area of work where we are working closely with mobile network operators and Ofcom where appropriate to ensure full evaluation of the pilots.

Probation: Per Capita Costs

John McDonnell: To ask the Secretary of State for Justice (1) what factors are taken into account in calculating the cost of individual probation supervision; [317092]

(2) what factors are taken into account in calculating the estimated cost of probation supervision of an individual *(a)* with a condition and *(b)* without a condition. [317098]

Maria Eagle: The supervision requirement is one of 12 requirements of a community order. The factors taken into account when costing the supervision requirement are:

offender tier (there are four tiers in the National Offender Management Model describing different case management approaches and map against different resource levels and offender manager competences);

the length of the offender's sentence;

the offender's gender;

the grade of staff working with the offender; and

the time taken by staff to deliver the supervision requirement, which includes meetings with the offender, liaison with providers of specialist advice and feeding back to the offender manager. The level of engagement is primarily dependent on the tier of the offender.

Costs estimated using this bottom up process are not the full costs since they do not include overheads. Full costs of the supervision requirement will be collected and published in order to benchmark the whole of the probation system by the end of 2011.

Probation: Sex Offender Treatment Programme

John McDonnell: To ask the Secretary of State for Justice what the average cost of probation supervision of an individual with a sex offender programme attachment was in the latest year for which information is available. [317095]

Maria Eagle: The funding for the supervision of offenders and the delivery of sex offender programmes in the community is part of the general grant given to probation areas or trusts. The costs will vary and depend on a number of factors including the risk presented by the individual, the level of supervision required, the programme the individual attends, and the arrangements for delivery in the particular area. It is not possible to accurately disaggregate the cost of this work.

Full costs of probation services will be collected and published to benchmark the whole of the probation system by the end of 2011.

Public Opinion

Mr. Grieve: To ask the Secretary of State for Justice how much his Department spent on *(a)* focus groups and *(b)* other deliberative forms of public opinion research in each month of the last two years. [317157]

Mr. Straw: Monthly data on the amount spent on focus groups and other forms of deliberative public opinion research could currently be provided only at disproportionate cost as the information requested on expenditure is not held centrally. However, a search of local records has identified a number of projects undertaken in the 2008-09 and 2009-10 financial years where focus groups were used, the expenditure on which is provided as follows.

Table 1: Focus Groups: Ministry of Justice

	£
2008-09	435,218
2009-10	53,039

Figures in the table above are estimates including VAT and are based on a collation of local returns as no central records are available. They exclude any focus groups run by NDPBs.

With regard to deliberative research, between October 2009 and February 2010, the Ministry of Justice held a series of deliberative events on Identity, Values and a possible Bill of Rights and Responsibilities. It is not possible to finalise the actual costs at this stage, however, it is anticipated that this will come to less than £1 million in total.

Rehabilitation Centres: Young People

Mr. Burrowes: To ask the Secretary of State for Justice how many intensive fostering places are available under the Youth Rehabilitation Order in each youth offending team area; what the average cost per place is; and whether he plans to increase the number of places available under that Order. [317548]

Maria Eagle: Intensive fostering is being piloted by the Youth Justice Board and 25 places are currently available in the youth offending teams (YOTs) that are taking part in the pilot. There are 10 places in Wessex, six in Staffordshire and Stoke on Trent, three in Trafford and six across London.

The cost of a placement currently ranges between £2,220 to £2,385 a week. A further six places will be provided in 2010-11, four in Cambridgeshire and Peterborough YOTs and two in Derby City YOT. Extension of intensive fostering more widely will be subject to future spending reviews.

Unpaid Work

John McDonnell: To ask the Secretary of State for Justice what the average cost of supervising a person on unpaid work for *(a)* 160 hours and *(b)* 240 hours was in the latest period for which figures are available. [317097]

Maria Eagle: The funding for the supervision of offenders sentenced to unpaid work is part of the general grant provided to probation areas. The actual costs will vary between areas and according to the type of work placement.

The National Offender Management Service Specification Benchmarking and Costing Programme, has produced a service specification for unpaid work/Community Payback based on an assumed operating model. This will enable more accurate calculations of costs and is currently being employed by probation areas and directors of Offender Management to assess Community Payback as part of a best value exercise.

The service specification for unpaid work/Community Payback calculates the cost of commencement, including risk assessment and offender induction during the first two hours of the sentence at £82.40. For an offender attending a weekday work group in an urban area, the ongoing cost is calculated to be £8.83 an hour. The cost of a 160 hour sentence is therefore £1,477.54 and the cost of a 240 hour sentence is £2,183.94. These calculations do not include indirect costs such as premises, which will vary between probation areas. The hourly cost of Community Payback work at agency placements, where supervision is undertaken by the organisation benefiting from the work is less costly, while operating work groups at weekends and in remote locations is proportionally more costly.

Young Offenders

Mr. Burrowes: To ask the Secretary of State for Justice how many young offenders in each youth offending team area have been remanded in custody in each of the last six months. [317533]

Maria Eagle: The following table shows the number of young people in each youth offending team area have been remanded in custody in each of the six months July-December 2009. Separate figures are given for young people remanded pending and during trial, those committed for sentencing and young people remanded to the care of a local authority with a secure requirement.

The data, which will be placed in the Library, have been supplied by the Youth Justice Board and have been drawn from administrative IT systems, which, as with any large-scale recording system, are subject to possible errors with data entry and processing and may be subject to change over time. Differences in counting rules may mean that figures from other databases are not directly comparable.

BUSINESS, INNOVATION AND SKILLS

Apprentices: Salford

Hazel Blears: To ask the Minister of State, Department for Business, Innovation and Skills how many modern apprenticeships were started in Salford in *(a)* 1997 and *(b)* 2008-09. [317383]

Kevin Brennan: Table 1 shows the number of apprenticeship starts in Salford parliamentary constituency, Eccles parliamentary constituency, Worsley parliamentary constituency and Salford local authority from academic year 2003/04 onwards, the earliest year for which comparable data are available. Salford is made up of Salford and Eccles parliamentary constituencies and part of Worsley parliamentary constituency.

Table 1: Apprenticeship programme starts for Salford parliamentary constituency and Salford local authority, 2003/04 to 2008/09

	2003/04	*2004/05*	*2005/06*	*2006/07*	*2007/08*	*2008/09*
Salford parliamentary constituency	330	340	310	340	310	340
Eccles parliamentary constituency	530	570	530	520	540	580
Worsley parliamentary constituency	530	450	450	420	510	450
Salford local authority	1,100	1,200	1,100	1,100	1,100	1,200

Notes:

1. Figures by parliamentary constituency are rounded to the nearest 10. Figures for Salford local authority are rounded to the nearest 100.
2. Figures are based upon home postcode of the learner.
3. Figures include Apprenticeships, Advanced Apprenticeships and Higher Level Apprenticeships.
4. Salford is made up of Salford and Eccles parliamentary constituencies and part of Worsley parliamentary constituency.

Source:
Individualised Learner Record

Information on the number of apprenticeship starts by parliamentary constituency, local authority, Government office region and for England is published in a quarterly statistical first release (SFR). The latest SFR was published on 17 December, and reissued on 21 January to include provisional national estimates of the number of apprenticeship starts and achievements in the first quarter of 2009/10:

http://www thedataservice.org.uk/statistics/sfrdec09

Departmental Energy

Andrew Stunell: To ask the Minister of State, Department for Business, Innovation and Skills what the estimated *(a)* amount and *(b)* cost was of energy used in his Department and its agencies in each year since it was established; what proportion of the energy used was generated from renewable sources in each of those years; and if he will make a statement. [317238]

Mr. McFadden: Since the establishment of this Department in June 2009 and up to the end of December 2009, energy usage and costs on our core estate were as follows:

	Amount used (KWh)	*Costs (£000)*
Electricity	6,835,697	824.9
Gas	2,055,014	58.2

Note:
Costs are inclusive of VAT which is not reclaimable.

During this period, 76.9 per cent. of our energy was generated from renewable sources.

I have approached the chief executives of the Insolvency Service, Companies House, National Measurement Office and the Intellectual Property Office and they will respond directly to the hon. Member.

Letter from Peter Mason, dated 22 February 2010:

I am responding in respect of the National Measurement Office to your Parliamentary Question tabled on 9 February 2010, to the Minister of State, Department for Business, Innovation and Skills asking about the estimated amount and cost of energy used in the Department and its agencies in each year since it was established and the proportion of the energy used which was generated from renewable sources in each of those years.

Our records on both the amount and cost of energy usage are based on Financial Years. The National Measurement Office was created on 1st April 2009 when the National Weights and Measures Laboratory (NWML) merged with the unit in the then Department for Innovation, Universities & Skills which was responsible for the National Measurement System and that unit relocated to the NWML building in Teddington. Therefore we have information only with respect to the NWML building prior to the merger.

Over the five years to April 2009, the amount of energy used by NWML at Teddington, expressed as KWh, was:

	Electricity	*Gas*
2004-05	[1]—	799.277
2005-06	[2]113,809	763.356
2006-07	674,357	692,751
2007-08	630,412	710.582
2008-09	619,181	744.977

[1] No reliable figures available.
[2] Part year.

Over the last five years our records indicate that the cost of energy to NWML at Teddington was:

£

	Electricity	*Gas*
2004-05	55,779.38	17,551.23
2005-06	66,796.09	26,730.70
2006-07	10,156.98	23,993.23
2007-08	40,963.17	23,579.51
2008-09	41,396.33	29,409.96

Electricity is supplied via a National Physical Laboratory (NPL) contract. Sub-metering to allow an accurate recharge of electricity costs was introduced in February 2006. The low expenditure figure in 2006-07 reflects the application of 'credits' resulting from settlement of a dispute over electricity charges in earlier years.

Gas was supplied and invoiced directly to NWML and that continues to be the case with NMO.

The above costs are inclusive of VAT, any standing charges and climate change levy applied to the invoices.

Under the NPL electricity contract 5 per cent. of the energy is generated from renewable sources.

Letter from Gareth Jones:

I am replying on behalf of Companies House to your Parliamentary Question tabled 9 February 2010, UIN 317238, to the Minister of State for Business, Innovation and Skills.

From June to December 2009, the last month for which figures are available, Companies House has consumed the following amounts of energy:

	Amount (kwh)	*Cost (£)*
Electricity	4,055,664	481,563
Gas	845,403	28,708

Companies House procures green electricity which supports electricity generated from renewable sources under the Government's climate change levy exemption scheme.

Letter from John Alty, dated 16 February 2010:

I am responding in respect of the Intellectual Property Office to your Parliamentary Question tabled 09 February 2010, to the Minister of State, Department for Business, Innovation and Skills.

Energy usage by the Intellectual Property Office is as follows:

a) 2,800,817 kwh, at a cost of b) £234,000.

This usage was between 1st June 2009 (date of establishment of BIS was 5th June 2009) and 31st December 2009. None of the energy used during this period was from renewable sources.

These figures are a total of the electricity and gas used at the IPO's Concept House and Nine Mile Point sites in South Wales. They exclude the IPO's Bloomsbury Street offices in London where the IPO is billed as part of a maintenance charge.

Letter from Stephen Speed, dated 17 February 2010:

The Minister of State for Business, Innovation and Skills has asked me to reply to you directly in respect of your question (2009/1312) asking what was the estimated amount and cost of energy used, and what proportion of that energy was generated from renewable sources, for each year since The Insolvency Service was established.

Following guidance issued to Departments about this question, the table below gives information for the last five years. We are unable to provide data before that time.

	Renewable (Kwh)	*Electricity (Kwh)*	*Electricity cost (£)*	*Gas Kwh*	*Gas cost (£)*
2004-05	—	2,722,806	228,935	610,187	15,886
2005-06	—	2,777,875	330,981	565,826	18,952
2006-07	—	2,770,868	435,769	389,574	29,172
2007-08	—	2,892,755	453,676	471,518	43,314
2008-09	[1]-6,172	2,336,081	611,936	659,159	12,591

[1] The figure for renewable energy derives from a photovoltaic roof at our largest building.

Prior to the current year, The Insolvency Service was tied to contracts that did not include the supply of energy from renewable sources. We have now entered into a contract for our largest office which will include 10 per cent. renewable energy for the first year of the contract, with incremental increases thereafter. It is our intention to add further offices to this contract when other existing leases come to an end. It should also be noted that the data supplied in the table above applies to those buildings (approximately 25 per cent. of the estate) where we are billed for energy directly. Those offices where utilities are met through the landlord's service charge are not included.

Departmental Pay

Grant Shapps: To ask the Minister of State, Department for Business, Innovation and Skills how many *(a)* year-end and *(b)* in-year bonuses were paid to officials in his Department and its predecessor in each of the last three years; and how much was paid in such bonuses in each such year. [307098]

Mr. McFadden: An element of the BIS overall pay award for staff below the SCS is allocated to non-consolidated variable pay related to performance. These payments are used to drive high performance and form part of the pay award. There are two types of award: in-year bonuses, which consist of special individual performance awards and non-pay rewards that recognise strong performance in particularly demanding tasks for situations. Staff in receipt of a special bonus may also receive an annual performance award. Annual performance awards are paid to members of staff who receive a highly successful performance rating.

Non-consolidated variable pay awards are funded from within existing pay bill controls, and have to be re-earned each year against pre-determined targets and, as such, do not add to future pay bill costs.

Performance awards for the SCS are part of the pay system across the whole senior civil service, and are used to reward high performance sustained throughout the year, based on judgments of how well an individual has performed relative to their peers. The performance related pay scheme is designed to help drive high performance and support better public service delivery. Performance awards are non-consolidated and non-pensionable. The percentage of the pay bill set aside for performance-related awards for the SCS is based on recommendations from the independent Senior Salaries Review Body.

BIS was formed through a machinery of government change that occurred in June 2009. The Department was created by merging The Department for Business Enterprise and Regulatory Reform (BERR) and The Department for Innovation, Universities and Skills (DIUS). DIUS and BERR were themselves created as part of a machinery of government change in June 2007. This means that BIS in its current format did not exist to award performance awards in any of the previous three years.

The information in the following table has been drawn from various data sources and provides details for both of the former Departments that were merged to create BIS.

Department	*Financial year*	*Number of staff who received "in year awards"*	*Total value of "in year rewards" (£)*	*Number of staff awarded end of year performance awards*	*Total value of end of year performance awards (£)*	*Total value of awards (£)*
BERR	2006-07	919	491,669	1,286	2,532,180	3,023,849
	2007-08	1,238	693,386	1,065	2,265,502	2,958,888
	2008-09	1,218	586,631	971	2,240,592	2,827,223
DIUS	2006-07[1]	—	—	—	—	—
	2007-08	273	21,125	24	185,916	207,041
	2008-09	201	13,855	213	459,171	473,026

[1] DIUS was not created until 2007

Notes:

1. DIUS was created by a MOG change that occurred in June 2007 and did not exist before this date. The majority of annual performance awards paid to staff in 2007-08 were issued by the Departments that staff had transferred from.
2. In all three years the total value of the performance awards paid was approximately 1.5 per cent. of the total Department's pay bill.

Departmental Travel

John Penrose: To ask the Minister of State, Department for Business, Innovation and Skills how much each of his Department's *(a)* non-departmental public bodies and *(b)* research councils spent on (i) first-class air travel, (ii) first class rail travel, (iii) taxis, (iv) hotel accommodation and (v) other travel and overnight subsistence expenses in each of the last three years. [313293]

Mr. McFadden: The Department does not hold information on its NDPBs' (which includes the Research Councils) travel and subsistence expenses centrally and such information could be obtained only at disproportionate cost.

Exports: Saudi Arabia

Daniel Kawczynski: To ask the Minister of State, Department for Business, Innovation and Skills what recent steps he has taken to recruit staff with direct experience of commercial exports to UK Trade and Investment to work on the promotion of exports to Saudi Arabia. [317992]

Ian Lucas: UK Trade and Investment (UKTI) is not an employer in its own right. For the majority of its human resource requirements, it draws on the staff employed by one or other of its two parent departments, the Department for Business Innovation and Skills (mainly in the UK) and the Foreign and Commonwealth Office (mainly overseas).

UKTI staff in Riyadh, Jeddah and Al Khobar, together with those promoting business with Saudi

Arabia in London, are BIS or FCO employees. In addition, locally engaged staff are employed by UKTI in Saudi Arabia, many of whom come from a commercial background, to assist UK firms access the opportunities available in the market. UKTI has also appointed two specialists from the private sector to help British companies to win business stemming from the Saudi Arabian Government's fiscal stimulus programme.

London Metropolitan University

Jeremy Corbyn: To ask the Minister of State, Department for Business, Innovation and Skills what recent assessment he has made of the financial situation of London Metropolitan University; and what his estimate is of likely *(a)* student and *(b)* staff numbers in (i) 2009-10, (ii) 2010-11 and (iii) 2011-12. [318018]

Mr. Lammy: Assessments of the financial situation of individual institutions are a matter for the Higher Education Funding Council for England (HEFCE) and the individual institutions.

Final student and staff numbers for 2009-10 will not be available until these are collected at the end of the academic year by the Higher Education Statistics Agency. HEFCE is discussing with the university, as it does with all institutions, its future plans for student and staff numbers as part of its arrangements for monitoring the financial position of the university.

Maternity Leave

Annette Brooke: To ask the Minister of State, Department for Business, Innovation and Skills what the average length of maternity leave taken by women was in each of the last five years; and if he will make a statement. [317190]

Mr. McFadden: From April 2007 all employed mothers are entitled to 52 weeks maternity leave, of which 39 may be paid. Employers are not required to record or report the uptake of maternity leave to the Government.

The most recent estimates of take-up of maternity leave are based on the DWP 'Maternity Rights and Mothers' employment decisions in Britain: Survey of Mothers' (2007). In 2006, when the mothers included in the study went on maternity leave, the statutory entitlement to ordinary maternity leave (OML) was 26 weeks, while mothers who had worked for their employer for a qualifying period of 26 weeks were also entitled to additional maternity leave (AML) of 26 weeks.

For mothers taking maternity leave in 2006:

84 per cent. took 26 weeks or more maternity leave;

35 per cent. took exactly 26 weeks maternity leave;

46 per cent. of mothers took between 27 and 52 weeks and 3 per cent. were off for more than 52 weeks;

16 per cent. of mothers took less than the statutory minimum entitlement (i.e. 26 weeks in 2006).

The next Maternity Rights survey will be based on mothers who took maternity leave starting in summer 2008. It is due to report later in 2010.

Unemployment: Bedfordshire

Nadine Dorries: To ask the Minister of State, Department for Business, Innovation and Skills how many people under 25 years old were not in employment, education or training in Mid Bedfordshire constituency in *(a)* 1997, *(b)* 2007 and *(c)* 2008-09. [318039]

Kevin Brennan: Due to small sample sizes, we are unable to provide estimates of the number of young people not in employment, education or training for parliamentary constituency areas.

The Annual Population survey can provide estimates for local education authorities. The latest Annual Population Survey data available are for 2008. Estimates of people not in employment, education or training are not available prior to 2000 due to data in earlier years being incomplete.

The number of young people not in employment, education or training in England is published by DCSF every quarter. The latest information can be found here:

http://www.dcsf.gov.uk/rsgateway/DB/STR/d000890/NEETQtrBriefQ32009.pdf

Unemployment: Salford

Hazel Blears: To ask the Minister of State, Department for Business, Innovation and Skills how many people aged between 18 and 24 years old and not in employment, education or training there were in Salford constituency in *(a)* 1997 and *(b)* 2009. [317736]

Kevin Brennan: Due to small sample sizes, we are unable to provide estimates of the number of people not in employment, education or training for parliamentary constituency areas.

The Annual Population survey can provide estimates for local education authorities, but not for age groups narrower than 16-24. The latest Annual Population Survey data available are for 2008. Estimates of people not in employment, education or training are not available prior to 2000 due to data in earlier years being incomplete.

The number of young people not in employment, education or training in England is published by DCSF every quarter. The latest information can be found at:

http://www.dcsf.gov.uk/rsgateway/DB/STR/d000890/NEETQtrBriefQ32009.pdf

Vocational Training: Tax Allowances

Mr. Drew: To ask the Minister of State, Department for Business, Innovation and Skills if he will discuss with the Chancellor of the Exchequer the provision of tax *(a)* discounts or *(b)* credits for those required to pay for their own training. [316639]

Kevin Brennan: It is important that we target investment in education and training as efficiently and effectively as possible. Targeting through the tax system may result in supporting learning that would have taken place in any event.

We believe providing entitlements for every adult to receive training towards a first full level 2 qualification and for young people (up to age 25) to receive training for a first full level 3 qualification is a more efficient way of supporting individuals that otherwise would not have engaged in training. Evidence shows that this training is often more effective when delivered in the work place. This is why we have developed our flagship Train to Gain programme, which, since its inception in 2006 has helped people to start 1.54 million qualifications.

It is also why we are expanding the apprenticeship system to build a new technician class for the higher level jobs of the future, almost doubling the number of advanced and higher apprenticeships places for 19 to 30-year-olds.

Working Hours: Salford

Hazel Blears: To ask the Minister of State, Department for Business, Innovation and Skills how many of those resident in Salford constituency have received a reduction in their working hours since the introduction of a maximum length of working week of 48 hours. [317734]

Mr. McFadden: The Working Time Regulations provide workers with the right to refuse to work more than 48 hours on average, if they do not want to. It is not possible to estimate how many residents have received a reduction in their working hours as a result of the introduction of a maximum length of the working week to 48 hours either at the national level or in Salford constituency.

Young People: Unemployment

Norman Baker: To ask the Minister of State, Department for Business, Innovation and Skills what proportion of people in *(a)* Lewes constituency and *(b)* England aged (i) between 16 and 18 and (ii) between 19 and 24 years old were not in education, employment or training in each year since 1997. [315767]

Mr. Iain Wright: I have been asked to reply.

Estimates of the number and proportion of young people aged 16-18 who were not in education, employment or training (NEET) are published annually in the statistical first release (SFR) "Participation in Education, Training and Employment by 16-18 year olds in England". This publication contains the Department's best estimate of the NEET rate and is the official measure used to measure progress against out target to reduce the proportion of young people NEET by 2 percentage points by the end of 2010. The most recent SFR can be accessed via the Department's website here:

http://www.dcsf.gov.uk/rsgateway/DB/SFR/s000849/index.shtml

A time series going back to 1985 is available under "Additional Information".

A comparable measure of NEET for 19-24 year olds is not available. However, the Department publishes "NEET Statistics—Quarterly Brief" which contains an alternative measure of NEET covering 16-24 year olds. The next issue is due for publication on 25 February, 2010 and will be available via this link:

http://www.dcsf.gov.uk/rsgateway/DB/STR/d000913/index.shtml

Estimates of the proportion of young people NEET are not available at parliamentary constituency level. The smallest geographical area for which estimates are available is local authority. These local estimates are derived from data collected by Connexions services and are published on the DCSF 14-19 website and are only available for 16-18 year olds:

http://www.dcsf.gov.uk/14-19/index.cfm?go=site.home&sid=42&pid=343&lid=337&ctype=Text&ptype=Single

Connexions local estimates are not directly comparable with the national estimates in the SFR. Figures for West Sussex since 2006, the earliest available, are shown in the following table.

	Percentage of 16-18 year olds NEET in West Sussex
2006	4.5
2007	4.4
2008	5.4

There are no comparable or robust estimates of the proportion of 19-24 year olds NEET available for local authorities.

CHILDREN, SCHOOLS AND FAMILIES

Academies

Peter Bottomley: To ask the Secretary of State for Children, Schools and Families what recent representations he has received from the Charity Commission on the method of achieving charitable status for educational academies and colleges; and what steps he plans to take in response to those representations. [310572]

Mr. Coaker: The Department held discussions with the Charity Commission on the way in which academies are registered as charities. As a result of those discussions, I tabled an amendment at Committee stage to remove a clause in the Children, Schools and Families Bill, which would have made changes to those arrangements. A copy of a letter from the chief executive of the Charity Commission and the Permanent Secretary's advice to the Secretary of State has been placed in the Library.

Blaydon

Mr. David Anderson: To ask the Secretary of State for Children, Schools and Families if he will set out, with statistical information related as directly as possible to Blaydon constituency, the effects on Blaydon of the policies and actions of his Department and its predecessors since 2000. [315305]

Mr. Coaker: Since 2000 the Government have transformed education and child care with improved outcomes for children and young people. Figures showing the performance at key stage 2 and at GCSE and equivalents in Blaydon are given in the following tables.

Key stage 2 results of 11-year-old pupils attending schools¹ in Blaydon constituency

Percentage of pupils gaining level 4 and above	*2000*	*2009²*	*Percentage point improvement 2000-09*
Blaydon—English	82	86	4
Blaydon—maths	79	87	8
Blaydon—science	90	93	3
England—English³	75	80	5

Key stage 2 results of 11-year-old pupils attending schools[1] in Blaydon constituency

Percentage of pupils gaining level 4 and above	*2000*	*2009[2]*	*Percentage point improvement 2000-09*
England—maths[3]	72	79	7
England—science[3]	85	88	3

[1] Local averages include pupils attending all maintained schools (including academies and city technology colleges).

[2] Revised data.

[3] England averages include pupils attending all maintained schools (including academies and city technology colleges).

GCSE and equivalent[1] results for pupils[2] attending schools[3] in Blaydon constituency

Percentage of pupils gaining	*2000*	*2009[4]*	*Percentage point improvement 2000-09*
Blaydon—5+ A*-C	55.8	86.0	30.2
Blaydon—5+ A*-G	92.1	96.5	4.4
England—5+ A*-C[5]	49.2	70.0	20.8
England—5+ A*-G[5]	88.9	92.3	3.4

[1] From 2004 results incorporate GCSEs, GNVQs and a range of other qualifications approved pre-16. Prior to 2004, results are based on GCSEs and GNVQs only.

[2] From 2006 figures are for pupils at the end of key stage 4. Prior to 2006, results are based on pupils aged 15.

[3] Local averages include pupils attending all maintained schools (including academies and city technology colleges) and from 2000 do not include pupils recently arrived from overseas.

[4] Revised data.

[5] England averages also include independent schools as well as hospital schools and PRUs.

Further information by constituency is provided within the Department's 'In Your Area' website available at:

http://www.dfes.gov.uk/inyourarea

Information available at constituency level includes the number of specialist schools, number of operational academies, number of teaching assistants and other support staff, number of teachers and pupil: teacher ratios. Where information is not available at constituency level it has been provided at local authority level including the number of free early education places taken up by three and four-year-olds, number of full-time and part-time entrants to higher education institutions aged 18 to 20, average A-level point score per candidate and per entry together with percentage of people of working age qualified to at least level 2 and percentage of people of working age qualified to level 4 and above.

Additional information could be provided only at disproportionate cost.

Children: Day Care

Alan Keen: To ask the Secretary of State for Children, Schools and Families how many *(a)* free nursery and *(b)* pre-school places were available for (i) three and (ii) four year olds in Feltham and Heston constituency in each year since 1997. [316683]

Dawn Primarolo: The following table shows the number of part-time equivalent places filled by three and four year olds in Feltham and Heston constituency from 2004 to 2009.

The Department publishes information on the part-time equivalent number of free early education places filled by three and four-year-olds in maintained, private, voluntary and independent providers. Information on the number of pre-school places is not separately available. Part-time equivalent places are derived by counting children taking up 12 and a half hours per week as one place, 10 hours per week as 0.8 places, seven and a half hours per week as 0.6 places, five hours per week as 0.4 places and two and a half hours per week as 0.2 places. Data at parliamentary constituency level are not available prior to 2004.

Part-time equivalent number of free early education places[1, 2, 3] filled by three and four-year-olds[4]: Parliamentary constituency Feltham and Heston, position in January each year

	Three-year-olds	*Four-year-olds*
2004	970	1,400
2005	990	1,300
2006	1,100	1,400
2007	1,100	1,400
2008	1,200	1,400
2009	1,300	1,600

[1] A place is equal to 12.5 hours (five sessions) and can be filled by more than one child.

[2] Figures are rounded to the nearest 100 if they exceed 1,000 and to the nearest 10 otherwise.

[3] Prior to 2004, information on early education places was derived from returns made by local authorities as part of the Nursery Education Grant (NEG) data collection exercise. These data were collected at local authority level, therefore, data for this parliamentary constituency are not available prior to 2004.

[4] Age of all children taken at 31 December in the previous calendar year.

Source:

Early Years Census and School Census

The latest figures on early education places for three and four-year-olds in England were published in Statistical First Release (SFR) 11/2009 "Provision for children under five years of age in England: January 2009", available on my Department's website

http://www.dcsf.gov.uk/rsgateway/DB/SFR/s000848/index.shtml

Children: Social Services

Mr. Drew: To ask the Secretary of State for Children, Schools and Families whether he has had recent discussions with Gloucestershire county council on its provision of children's services and children's centres. [316054]

Dawn Primarolo: As part of its role to both provide challenge and support the Government Office for the South West meets the local authority regularly to discuss children's services.

The Department for Children, Schools and Families' delivery partner supporting the development of Sure Start Children's Centres, Together for Children, regularly liaises with the local authority regarding its children's centres programme.

The Secretary of State wrote to Gloucestershire local authority on 19 November 2009 regarding the local authority's National Challenge Progress Review.

Children's Centres: Feltham

Alan Keen: To ask the Secretary of State for Children, Schools and Families how many children in Feltham and Heston constituency attend Sure Start centres. [316668]

Dawn Primarolo: The eight designated Sure Start Children's Centres in Feltham and Heston constituency have a combined reach area of over 6,000 children under five and their families. Reach area defines those children and families with the opportunity to access children's centres. Figures for the number of children under five and their families actually attending and using children's centres are not collected centrally.

Classroom Assistants: Lewes

Norman Baker: To ask the Secretary of State for Children, Schools and Families how many full-time equivalent teaching assistants there were in schools in Lewes constituency *(a)* in 1997 and *(b)* at the latest date for which figures are available. [315769]

Mr. Coaker: In January 1997 there were 60 full-time equivalent teaching assistants in service in local authority maintained schools, city technology colleges and academies in Lewes constituency and 210 in January 2009. The data source is the School Census and the figures are rounded to the nearest 10.

Departmental Internet

Mr. Hurd: To ask the Secretary of State for Children, Schools and Families with reference to the answer of 10 November 2009, *Official Report*, column 311W, on Google Adword online advertising keywords, for which Google Adword online advertising keywords his Department has paid in the last 12 months; and at what cost. [315279]

Ms Diana R. Johnson: The requested information cannot be supplied without incurring disproportionate cost.

Departmental Recruitment

Mr. Hurd: To ask the Secretary of State for Children, Schools and Families how many job vacancies in his Department and its agencies were filled through external recruitment in the last year for which figures are available. [315288]

Ms Diana R. Johnson: In the last financial year (2008-09), there were 88 people recruited externally into the DCSF.

The Department has no agencies.

Departmental Sick Leave

David Simpson: To ask the Secretary of State for Children, Schools and Families how many staff in his Department have had five or more periods of sickness absence of less than five days since its inception. [316469]

Ms Diana R. Johnson: Since the inception of the Department for Children, Schools and Families on 28 June 2007, 176 staff have had five or more periods of sickness absence of less than five days. This applies from the date of establishment of the Department to 31 January 2010 (the latest information available).

Education Maintenance Allowance: Hemsworth

Jon Trickett: To ask the Secretary of State for Children, Schools and Families how many people have received the educational maintenance allowance in Hemsworth constituency since its introduction. [316713]

Mr. Iain Wright: This is a matter for the Learning and Skills Council (LSC) who operate the education maintenance allowance (EMA) for the Department for Children, Schools and Families (DCSF). Geoff Russell the LSC's acting chief executive, will write to my hon. Friend from Hemsworth with the information requested and a copy of his reply will be placed in the House Library.

Families: Government Assistance

Michael Gove: To ask the Secretary of State for Children, Schools and Families which departments he expects to contribute funds to the Think Family grant in 2010-11; and how much each department will contribute. [315727]

Mr. Coaker *[holding answer 5 February 2010]*: The Think Family Grant for is made up of contributions from DCSF, HO, DH and DCLG. The contributions from individual Departments and associated activity costs in 2010-11 are as follows:

	£ million
Department of Health	2.85
Communities and Local Government	2.5
Home Office	10
Department for Children, Schools and Families	79.8

Contributions are also made at the local level as match funding or in-kind services. Information on this is not held centrally.

Feltham

Alan Keen: To ask the Secretary of State for Children, Schools and Families (1) if he will set out, with statistical evidence relating as closely as possible to Feltham and Heston constituency, the effects on that constituency of changes to his Department's policies since 1997; [316679]

(2) how many 14 year olds in schools in Feltham and Heston constituency obtained level 5 or above in key stage 3 results in *(a)* 1997 and *(b)* 2009; [316680]

(3) how many 11 year olds in schools in Feltham and Heston constituency obtained level 4 or above in key stage 2 results in *(a)* 1997 and *(b)* 2009; [316681]

(4) how many pupils in schools in Feltham and Heston constituency gained five A* to C GCSEs or equivalent in *(a)* 1997 and *(b)* 2009. [316687]

Mr. Coaker: Since 1997 the Government have transformed education and child care with improved outcomes for children and young people. Figures showing the performance at key stage 2, key stage 3 and at GCSE and equivalents in Feltham and Heston are given in the following tables:

Key stage 2 results of 11 year old pupils attending schools in the Feltham and Heston constituency

Percentage of pupils gaining level 4 and above[1]	*1997*	*2009*[2]	*Percentage point improvement 1997 to 2009*
Feltham and Heston—English	53	77	24
Feltham and Heston—maths	47	76	29
Feltham and Heston—science	59	87	28

Key stage 2 results of 11 year old pupils attending schools in the Feltham and Heston constituency

Percentage of pupils gaining level 4 and above[1]	*1997*	*2009*[2]	*Percentage point improvement 1997 to 2009*
England—English	63	80	17
England—maths	62	79	17
England—science	68	88	20

[1] Includes pupils attending all maintained schools (including Academies and City Technology Colleges).

[2] Revised data.

School and College Achievement and Attainment Tables

Further information by constituency is available on the Department's "In Your Area" website:

http://www.dfes.gov.uk/inyourarea

The information available at constituency level includes the number of specialist schools, number of operational Academies, number of teaching assistants and other support staff, number of teachers and pupil:teacher ratios. Where information is not available at constituency level it has been provided at local authority level including the number of free early education places taken up by three and four year olds, number full-time and part-time entrants to higher education institutions aged 18 to 20, average A level point score per candidate and per entry together with percentage of people of working age qualified to at least level 2 and percentage of people of working age qualified to level 4 and above.

Additional information could only be provided at disproportionate cost.

GCSE

Mr. Graham Stuart: To ask the Secretary of State for Children, Schools and Families what percentage of pupils in *(a)* comprehensive and *(b)* maintained schools who achieved at least five grades A* to C at GCSE achieved (i) one or more, (ii) more than one, (iii) more than two, (iv) more than three of those grades in the subjects of business studies, music technology, child development, hairdressing, construction, health and social care, sociology, media, travel and tourism, performing arts, and hospitality and catering, in each year since 1997; [314463]

(2) what percentage of pupils from current National Challenge schools who achieved at least five grades A* to C at GCSE achieved *(a)* one or more, *(b)* more than one, *(c)* more than two, *(d)* more than three of those grades in the subject of business studies, music technology, child development, hairdressing, construction, health and social care, sociology, media, travel and tourism, performing arts, and hospitality and catering, in each of the last five years. [314464]

Mr. Coaker: The information can be provided only at disproportionate cost.

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many pupils in *(a)* comprehensive and *(b)* independent schools were entered for GCSEs in (i) English literature, (ii) physics, (iii) chemistry, (iv) biology, (v) history and (vi) a foreign language in 2009. [315622]

Mr. Coaker: The information required is given in the following table:

Number of pupils entered for GCSEs in selected subjects in comprehensive and independent schools in 2009

Selected subject	*Comprehensive school*	*Independent school*
English Literature	405,303	36,839
Physics	53,532	15,028
Chemistry	53,654	15,671
Biological Sciences	56,884	16,435
History	155,610	23,248
A Modern Foreign Language	211,689	39,225

Achievement and Attainment Tables

The data relate to pupils at the end of key stage 4.

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many students resident in *(a)* Knowsley, *(b)* Sandwell, *(c)* Lambeth and *(d)* England achieved (i) five GCSEs at grades A* to C including English and mathematics, excluding equivalents, (ii) at least one grade C at GCSE, excluding equivalents and (iii) three A grades at A-level (A) in 1997 and (B) in the most recent year for which figures are available. [316867]

Mr. Coaker: The information requested for the academic years 2004/05 and 2008/09 for GCSEs and for the academic years 2005/06 and 2008/09 for A Levels is in the following tables.

Previous years' data can be provided only at disproportionate cost.

GCSE achievements of students[1] resident in Knowsley, Sandwell and Lambeth local authorities[2] and England[3] at the end of key stage 4[4], 2004/05 and 2008/09

		Total number of students	Percentage who achieved five or more GCSEs including English and mathematics at grade A*-C excluding equivalents	Percentage who achieved at least one GCSE pass at grade C or above excluding equivalents
2004/05	Knowsley	2,314	28.3	66.9
	Sandwell	3,915	29.3	64.9
	Lambeth	2,257	33.6	74.0
	England[3]	583,930	41.7	75.3
2008/09	Knowsley	2,066	35.9	70.9
	Sandwell	3,901	34.7	71.8
	Lambeth	2,217	45.8	83.7
	England[3]	578,629	47.8	80.1

[1] Students attending maintained schools only including City Technology colleges and academies.

[2] Excludes students whose area of residency is unknown due to missing or invalid postcode information.

[3] England figure includes students known to be resident in England or with a missing or invalid postcode.

[4] Based on students at the end of key stage 4 in the relevant academic year.

GCSE: Salford

Hazel Blears: To ask the Secretary of State for Children, Schools and Families (1) what percentage of children in Salford schools obtained five GCSEs at grades A* to C in *(a)* 1997 and *(b)* 2009; [311671]

(2) what percentage of pupils in Salford obtained five A* to C grades at GCSE in *(a)* 1997 and *(b)* 2009. [317387]

Mr. Coaker: Of all 15-year-old pupils in maintained schools in Salford, 30.7 per cent. achieved five or more GCSE/GNVQs at grades A*-C in 1997.

Of all pupils at the end of KS4 in maintained schools in Salford, 73.4 per cent. achieved five or more GCSE or equivalents at grades A*-C in 2009.

Hazel Blears: To ask the Secretary of State for Children, Schools and Families what percentage of pupils in Salford obtained five A* to C grades at GCSE including English and mathematics in *(a)* 1997 and *(b)* 2009. [317386]

Mr. Coaker: Of all 15-year-old pupils in maintained schools in Salford, 20.1 per cent. of pupils achieved five or more GCSE/GNVQ at grades A*-C including English and mathematics in 1997.

Of all pupils at the end of KS4 in maintained schools in Salford, 45.8 per cent. of pupils achieved five or more GCSE or equivalents at grades A* -C including English and mathematics in 2009.

Hemsworth

Jon Trickett: To ask the Secretary of State for Children, Schools and Families if he will set out, with statistical information related as directly as possible to Hemsworth constituency, the effects on Hemsworth of his Department's policies and actions since 2000. [316308]

Mr. Coaker: Since 2000 the Government have transformed education and child care with improved outcomes for children and young people. Figures showing the performance at Key Stage 2 and at GCSE and equivalents in Hemsworth are given in the following tables:

Key Stage 2 results of 11-year-old pupils attending schools in the Hemsworth constituency

Further information by constituency is provided within the Department's 'In Your Area' website available at:

http://www.dfes.gov.uk/inyourarea

Information available at constituency level includes the number of specialist schools, number of operational academies, number of teaching assistants and other support staff, number of teachers and pupil:teacher ratios. Where information is not available at constituency level it has been provided at local authority level including the number of free early education places taken up by three and four-year-olds, number full-time and part-time entrants to higher education institutions aged 18 to 20, average A-level point score per candidate and per entry together with percentage of people of working age qualified to at least Level 2 and percentage of people of working age qualified to Level 4 and above.

Additional information could be provided only at disproportionate cost.

Learning Disability: Birmingham

Mr. Godsiff: To ask the Secretary of State for Children, Schools and Families how many children resident in the Birmingham, Sparkbrook and Small Heath constituency have been diagnosed with a learning disability in each year since 2003. [312200]

Mr. Coaker: Information about pupils' type of Special Educational Need was first collected in the School Census in 2004. Of the 12 types of need identified four specifically mention learning difficulties and are listed in the following table.

Number of resident pupils[1, 2] with learning difficulties

	Birmingham, Sparkbrook and Small Heath					
	2004	*2005*	*2006*	*2007*	*2008*	*2009*
Moderate Learning Difficulty	1,230	1,290	1,160	1,250	1,500	1,600
Profound and Multiple Learning Difficulty	10	10	10	20	40	40
Severe Learning Difficulty	150	150	150	140	120	130
Specific Learning Difficulty	170	170	190	190	160	160
Total	1,550	1,620	1,510	1,600	1,820	1,920

[1] Information on primary need is only collected for pupils at School Action Plus and those with a statement of SEN.
[2] Figures are rounded to the nearest 10.

Non-Departmental Public Bodies: Finance

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families which non-departmental public bodies have received funding from his Department in each year since its inception; and how much was paid to each in each such year. [316554]

Ms Diana R. Johnson *[holding answer 9 February 2010]:* The Department for Children, Schools and Families (DCSF) was created on 28 June 2007. The following table shows the amounts paid to the Department's non-departmental public bodies as grant in aid for financial years 2007-08 and 2008-09. This information is drawn from the Department's published resource accounts. Information for 2009-10 will not be available until the resource accounts are published in July.

Grant in aid to non-departmental public bodies (NDPBs)

£000

	2008-09	*2007-08*
British Educational Communications and Technology Agency(BECTA)	61,285	37,172
Children and Family Court Advisory and Support Service (CAFCASS)	113,874	106,450
Children's Workforce Development Council (CWDC)[1]	71,931	—
National College for School Leadership (NCSL)	107,643	83,305
Office of the Children's Commissioner (OCC) (also known as 11 Million)	2,907	2,663
Partnerships for Schools (PfS)	9,292	6,931
Qualifications and Curriculum Authority (QCA)	143,890	157,369
School Food Trust (SFT)	10,666	7,738
Training and Development Agency for Schools (TDA)	738,222	777,313
Payment to DIUS for DCSF programmes delivered by the LSC[2]	7,384,652	7,052,258
Grant in aid	8,644,362	8,231,199

[1] The Children's Workforce Development Council became an NDPB from 1 April 2008.
[2] The Department for Innovation and Skills (DIUS) has now become the Department for Business, Innovation and Skills (BIS). The Learning and Skills Council (LSC) is an NDPB funded jointly by BIS and DCSF.

Personal, Social, Health and Economic Education

Bob Russell: To ask the Secretary of State for Children, Schools and Families if he will make it a requirement that emergency life support skills are included in the compulsory Personal, Health, Social and Economic curriculum; and if he will make a statement. [315702]

Ms Diana R. Johnson: Children and young people already learn about emergency life support skills as part of Personal Social Health and Economic (PSHE) education. They learn about where and how to obtain health information, how to recognise and follow health and safety procedures, ways of reducing risk and minimising harm in risky situations, how to find sources of emergency help and how to use basic and emergency first aid.

Basic and emergency aid will continue to be part of statutory PSHE when it is introduced in schools in September 2011.

Pupil Exclusions: Suffolk

Mr. Ruffley: To ask the Secretary of State for Children, Schools and Families how many children have been permanently excluded from *(a)* primary, *(b)* middle, *(c)* upper and *(d)* secondary schools in Suffolk in each year since 1997. [314870]

Mr. Coaker: The available information requested is shown in the table.

From 2002, the Department has carried out a checking exercise to confirm the overall number of permanent exclusions. However, this only confirms the number of exclusions in each local authority area and not at school level. Therefore information for middle and upper schools are not separately identifiable.

Maintained primary and secondary schools[1]: Number of pupil enrolments[2] with permanent exclusions, 1996/97 to 2007/08, Suffolk local authority

	Primary[1]		*State-funded secondary schools[1, 3]*	
	Number of permanent exclusions	*Percentage of the school population[4]*	*Number of permanent exclusions*	*Percentage of the school population[4]*
1996/97	10	0.03	100	0.20
1998/99	10	0.03	100	0.21
1997/98	20	0.04	110	0.21
1999/2000	20	0.05	80	0.15

Maintained primary and secondary schools[1]: Number of pupil enrolments[2] with permanent exclusions, 1996/97 to 2007/08, Suffolk local authority

	Primary[1]		*State-funded secondary schools[1, 3]*	
	Number of permanent exclusions	*Percentage of the school population[4]*	*Number of permanent exclusions*	*Percentage of the school population[4]*
2000/01	10	0.03	130	0.25
2001/02	30	0.05	140	0.25
2002/03[5]	20	0.05	130	0.23
2003/04[5]	30	0.07	160	0.30
2004/05[5]	20	0.04	130	0.23
2005/06[5]	10	0.02	80	0.14
2006/07[5]	10	0.01	60	0.11
2007/08[5]	10	0.01	80	0.15

[1] Includes middle schools as deemed (upper schools are included in state-funded secondary schools).

[2] Pupils may be counted more than once if they were registered at more than one school or moved schools during the school year.

[3] State-funded secondary schools include maintained secondary schools, city technology colleges and academies. Suffolk local authority has no city technology colleges or academies.

[4] The number of permanent exclusions expressed as a percentage of the number (headcount) of all pupils (excluding dually registered pupils) in January each year for the relevant school type.

[5] Estimates based on local authority figures following a checking exercise to confirm the overall number of permanent exclusions in each local authority.

Note:

Figures have been rounded to the nearest 10.

Source:

Termly Exclusions Survey and School Census

Pupils: Per Capita Costs

Andrew Rosindell: To ask the Secretary of State for Children, Schools and Families how much his Department spent per child on *(a)* primary and *(b)* secondary schools in (i) Greater London and (ii) Romford in the latest period for which figures are available. [315936]

Mr. Coaker: The Department allocates education funding to local authorities so the requested information for Greater London and Romford constituency is not available. The available information on how much was spent per child in primary and secondary schools in Havering and Greater London is shown in the following table:

	2008-09	
	Primary education	*Secondary education*
England	3,780	4,890
Greater London	4,470	5,820
Havering	3,645	5,144

Notes:

1. School based expenditure includes only expenditure incurred directly by the schools. This includes the pay of teachers and school-based support staff, school premises costs, books and equipment, and certain other supplies and services, less any capital items funded from recurrent spending and income from sales, fees and charges and rents and rates. This excludes the central cost of support services such as home to school transport, local authority administration and the financing of capital expenditure.
2. The calculation for 2002-03 onwards is broadly similar to the calculation in previous years. However, 2001-02 and earlier years includes all premature retirement compensation (PRC) and Crombie payments, mandatory PRC payments and other indirect employee expenses. In 2001-02 this accounted for approximately £70 per pupil. From 2002-03 onwards only the schools element of these categories is included and this accounted for approximately £50 per pupil of the 2002-03 total. Also, for some LAs, expenditure that had previously been attributed to the school sectors was reported within the LA part of the form from 2002-03, though this is not quantifiable from existing sources.
3. Pupil numbers include only those pupils attending maintained establishments within each sector and are drawn from the DfES Annual Schools Census adjusted to be on a financial year basis.
4. Figures are rounded to the nearest £10 and are in Cash Terms.

Sandwell

Mr. Watson: To ask the Secretary of State for Children, Schools and Families if he will set out, with statistical evidence relating as closely as possible to the borough of Sandwell, the effects on that borough of changes to the policies of his Department and its predecessors since 1997. [316473]

Mr. Coaker: Since 1997 the Government have transformed education and child care with improved outcomes for children and young people. Figures showing the performance at Key Stage 2 and at GCSE and equivalents in Sandwell local authority are given in the following tables:

Key Stage 2 results of 11-year-old pupils attending schools in the Sandwell local authority

School and College Achievement and Attainment Tables

Other relevant statistical evidence relating to Sandwell local authority includes:

"Infant Class sizes"—the number of children at Key Stage 1 (including reception) in primary schools, taught by one teacher in classes over 30 has fallen from 4,423 in 1997 to 62 in 2009.

"School workforce"—an extra 750 teaching assistants and 1,430 more support staff than in 1997.

"Early education places"—the number of free part-time early education places taken up by three and four-year-olds in maintained, private, voluntary and independent providers has risen from 7,025 in 1997 to 7,465 in 2009.

Further information about Sandwell local authority is available on the Department's In Your Area website available at:

http://www.dfes.gov.uk/inyourarea

and also on the Department's research and statistics website at:

http://www.dcsf.gov.uk/rsgateway/

Additional information could be provided only at disproportionate cost.

Schools: Feltham

Alan Keen: To ask the Secretary of State for Children, Schools and Families how much has been spent repairing schools in Feltham and Heston constituency in each year since 1997. [316695]

Mr. Coaker: Figures are not available for the parliamentary constituency of Feltham and Heston as data are collected at a local authority level.

Repairs to capital assets which bring them back to their original state are classified as a revenue cost, for which capital allocations cannot be used. Expenditure on capital assets which improves them further, including additions, is classified as a capital cost for which capital or revenue allocations can be used.

The available information on how much has been spent repairing schools in Hounslow local authority is shown in the following table:

School based expenditure on repair and maintenance of buildings in Hounslow local authority from 1999-2000 to 2008-09

		£
	Hounslow	*England*
1999-2000	2,706,000	631,994,000
2000-01	2,934,000	670,942,000
2001-02	3,695,000	729,882,000
2002-03	4,129,000	503,199,000
2003-04	3,138,000	501,233,000
2004-05	3,198,000	550,301,000
2005-06	3,921,000	608,386,000
2006-07	3,959,000	645,680,000
2007-08	5,115,000	731,938,000
2008-09	5,067,000	738,599,000

Notes:

1. Financial information used in this answer are taken from the DCSF section 52 collection.

2. All expenditure on non-capital building works, including repairs and maintenance of buildings, and non-capital expenditure on fixed plant and grounds.

3. Building maintenance and improvement, including: Charges by contractors for internal and external repair, maintenance and improvement to buildings and fixed plant including costs of labour and materials; Related professional and technical services, including labour costs where supplied as part of the contract/service; Costs of materials and equipment used by directly employed staff for internal and external repair, maintenance and improvement to buildings and fixed plant; Fixtures and fittings e.g. carpet, curtains, etc.

4. Figures rounded to nearest £1,000. Cash terms figures as reported by local authorities as at 8 February 2010.

Capital allocations to Hounslow local authority for each year since 1997-98, which includes Feltham and Heston, are set out in the following table:

	£ million
1997-98	3.8
1998-99	4.6
1999-2000	4.0
2000-01	7.1
2001-02	6.2
2002-03	9.7
2003-04	38.7
2004-05	11.9
2005-06	10.7
2006-07	12.0
2007-08	14.6
2008-09	16.9
2009-10	30.3
2010-11	22.3

Notes:

1. The allocations in 2007-08, 2008-09 and 2009-10 includes £2.5 million, £3.5 million and £8.5 million respectively, which form part of the £20 million re-development of Heston School.

2. The allocations in 2009-10 and 2010-11 include £3.5 million and £8.5 million respectively for the new Primary Capital programme.

Alan Keen: To ask the Secretary of State for Children, Schools and Families how much per pupil has been spent on schools in Feltham and Heston constituency in each year since 1997. [316697]

Mr. Coaker: Figures are not available for the parliamentary constituency of Feltham and Heston as data are collected at a local authority level. The available information on how much has been spent per pupil in Hounslow local authority is shown in the following table:

School based expenditure per pupil from 1997-98 to 2008-09

		England	*Hounslow*
1997-98	Pre-Primary and Primary Education	1,740	2,060
	Secondary Education	2,360	2,670
	Special Schools	9,830	11,920
	Total (including Pre-primary)	2,080	2,430
1998-99	Pre-Primary and Primary Education	1,870	2,240
	Secondary Education	2,450	2,750
	Special Schools	10,110	11,740
	Total (including Pre-primary)	2,190	2,560
1999-2000	Primary Education	2,010	2,340
	Pre-Primary and Primary Education	2,050	2,380
	Secondary Education	2,610	2,770
	Special Schools	10,900	11,610
	Total (including Pre-primary)	2,390	2,670
	Total (excluding Pre-primary)	2,370	2,640
2000-01	Primary Education	2,210	2,470
	Pre-Primary and Primary Education	2,280	2,530
	Secondary Education	2,830	3,070
	Special Schools	11,860	12,890
	Total (including Pre-primary)	2,620	2,900
	Total (excluding Pre-primary)	2,590	2,870
2001-02	Primary Education	2,480	2,820
	Pre-Primary and Primary Education	2,570	2,880
	Secondary Education	3,150	3,410
	Special Schools	13,030	14,380
	Total (including Pre-primary)	2,940	3,260
	Total (excluding Pre-primary)	2,900	3,220

School based expenditure per pupil from 1997-98 to 2008-09

		England	*Hounslow*
2002-03	Primary Education	2,530	2,840
	Secondary Education	3,230	3,740
	Special Schools	12,820	14,760
	Total (excluding Pre-primary)	2,950	3,400
2003-04	Primary Education	2,750	3,060
	Secondary Education	3,550	4,040
	Special Schools	14,050	15,670
	Total (excluding Pre-primary)	3,230	3,680
2004-05	Primary Education	2,910	3,160
	Secondary Education	3,800	4,380
	Special Schools	15,110	16,790
	Total (excluding Pre-primary)	3,450	3,890
2005-06	Primary Education	3,150	3,440
	Secondary Education	4,070	4,700
	Special Schools	16,430	17,810
	Total (excluding Pre-primary)	3,720	4,200
2006-07	Primary Education	3,360	3,630
	Secondary Education	4,320	4,880
	Special Schools	17,480	18,940
	Total (excluding Pre-primary)	3,950	4,400
2007-08	Primary Education	3,580	3,910
	Secondary Education	4,620	5,190
	Special Schools	18,650	20,470
	Total (excluding Pre-primary)	4,210	4,700
2008-09	Primary Education	3,780	4,150
	Secondary Education	4,890	5,490
	Special Schools	19,790	20,990
	Total (excluding Pre-primary)	4,460	4,970

Notes:

1. The financial information used in the answer is taken from CLG's RO1 collection (1997-98 to 1998-99) and from the DCSF S52 collection (1999-2000 onwards).
2. 2002-03 saw a further break in the time series following the introduction of Consistent Financial Reporting (CFR) and the associated restructuring of the outturn tables. The change in sources is shown by the dotted line. From 2002-03 school based expenditure is taken from Section 52 Outturn Table A.
3. Pupil numbers include only those pupils attending maintained establishments within each sector and are drawn from the DCSF Annual Schools Census adjusted to be on a financial year basis.
4. The 1999-2000 figures reflect the return of GM schools to local authority maintenance. Consequently Las where there entire pupil provision were educated in GM schools will show a unit cost of zero prior to 1999-2000.
5. Expenditure was not distinguished between the pre-primary and primary sectors until the inception of Section 52 for financial year 1999-2000.
6. School based expenditure in LA maintained nursery schools was not recorded in 2002-03 and comparable figures are not available for 2003-04 onwards.
7. Figures are rounded to the nearest £10. Cash terms figures as reported by local authorities as at 8 February 2010.

Schools: Health Hazards

Tom Brake: To ask the Secretary of State for Children, Schools and Families what guidance his Department provides to schools on the effects on children's health of mobile telephones. [316542]

Ms Diana R. Johnson: We have made available for schools the precautionary advice of the Independent Expert Group on Mobile Phones together with clarifications obtained by the Chief Medical Officer. These confirm that children less than 16 years of age should be discouraged from using mobiles phones for non-essential calls since they are more likely than adults to be vulnerable to any unrecognised health risks.

Schools: Hemsworth

Jon Trickett: To ask the Secretary of State for Children, Schools and Families how much has been spent on repairs to schools in Hemsworth in each year since 1997. [316611]

Mr. Coaker: Repairs which bring schools back to their original state constitute a revenue expense, and are paid out of revenue funding. Repairs which amount to capital improvement, such as a better insulation are payable from capital allocations.

School-based expenditure on repairs and maintenance of buildings in Wakefield local authority, as reported by the local authority, is set out in the following table. Information is not collected in respect of Hemsworth.

	£ million
1999-2000	7.1
2000-01	8.8
2001-02	3.9
2002-03	3.9
2003-04	4.1
2004-05	4.6
2005-06	4.7
2006-07	5.3
2007-08	6.5
2008-09	5.8

School capital allocations are not made directly to Hemsworth, but to Wakefield local authority. Allocations by the Department to Wakefield during the period of 1997-98 to 2009-11 are £222.6 million.

	£ million
1997-98	5.2
1998-99	7.9
1999-2000	7.4
2000-01	13.4
2001-02	13.7
2002-03	17.3
2003-04	20.6
2004-05	19.4
2005-06	21.2
2006-07	16.7
2007-08	15.7
2008-09	15.0
2009-10	25.8
2010-11	23.3

Schools: Sports

Mr. Jim Cunningham: To ask the Secretary of State for Children, Schools and Families what steps his Department is taking to increase provision of sport in schools in Coventry. [315940]

Mr. Iain Wright: The Department funds a national network of 450 School Sport Partnerships to increase the quality and quantity of PE and Sport in schools.

The following table sets out the amount of funding that schools in Coventry have received over the last five years to undertake this work.

	£
2005/06	618,620
2006/07	867,792
2007/08	803,751
2008/09	914,060
2009/10	925,602
Total	4,129,825

Social Services

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many serious case reviews have been outstanding for more than one year. [316073]

Dawn Primarolo *[holding answer 5 February 2010]:* The Department does not collate this information centrally.

Chapter 8 of the statutory guidance, 'Working Together to Safeguard Children', published in December 2009, states that serious case reviews should be completed within six months from the date of the decision to proceed.

Ofsted has responsibility for evaluating all serious case reviews and considers the timeliness of their completion as part of that process. The second Ofsted report on serious case reviews, 'Learning Lessons from Serious Case Reviews: Year 2', published in October 2009, noted that "Serious case reviews are generally being carried out more speedily" but that "56 reviews took between one year and two years". The report went on to note that the time taken did not automatically determine the quality of the review and in some instances delays led to improvements in quality, for example as a result of the effective scrutiny of overview panels returning inadequate individual management reviews. It went on to state that longer timescales raised questions about the effectiveness of the reviews in identifying lessons to be learnt quickly enough and thus making a difference in practice.

Chapter 8 of the statutory guidance, 'Working Together To Safeguard Children' is clear that where lessons are able to be identified they should be acted upon as quickly as possible.

Social Services: Doncaster

Tim Loughton: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 2 February 2010, *Official Report,* column 302W, on social services: Doncaster, with whom meetings were held on each visit listed; and what topics were discussed at each such meeting. [316435]

Ms Diana R. Johnson: The information is shown in the following table.

Name	*Date(s) of visit*	*Place(s) of visit/ meetings held*	*Topic discussed/purpose of visit*
Charles Clarke	5 May 2004	Doncaster College	Not recorded
	9 November 2004	Youth Offenders Unit	Not recorded
Stephen Twigg	22 September 2004	Barnby Dun and Hexthorpe Primary Schools	Not recorded
Lord Filkin	28 January 2005	Prison Officers Association Learning Centre	To open the new Learning Centre
Lord Adonis	15 July 2005	Thorne Grammar School	Not recorded
	25 April 2007	Mayor Martin Winter	Not recorded
Ed Balls	13 July 2007	Scawthorpe Castle Hills Primary School and Scawsby Rosedale Primary School	Flood recovery discussions
	12 September 2008	Relate HQ	To learn more about Relate's work
Jim Knight	4 June 2008	Serlby Park School	To promote The Diploma in Construction and the Built Environment.
		Toll Bar Primary School	The involvement and support of 2012 Olympics and Impact of flooding on the school
		Campsmount Technology College	To learn more about the work done in fostering greater parental engagement

With reference to the answer of 2 February 2010, *Official Report,* column 302W we incorrectly stated that Ruth Kelly visited Doncaster on 5 May and 9 November 2004. This was in fact Charles Clarke.

Social Services: Kirklees

Tim Loughton: To ask the Secretary of State for Children, Schools and Families when he expects to *(a)* receive and *(b)* publish the executive summary of the serious case review into the Karen Matthews case in Kirklees. [316198]

Dawn Primarolo *[holding answer 8 February 2010]:* Preparation of serious case reviews and publication of related executive summaries are matters for Local Safeguarding Children Boards, acting in accordance with statutory guidance. I understand that the Kirklees Safeguarding Children Board has undertaken a serious case review into the case mentioned and will publish the executive summary as soon as it is able.

Special Educational Needs: Suffolk

Mr. Ruffley: To ask the Secretary of State for Children, Schools and Families how many children with special educational needs in Suffolk have been educated outside that county in each year since 1997; and what the cost was to the local education authority of that provision. [314872]

Ms Diana R. Johnson: It is not possible to provide all of the information requested on pupil numbers and costs as it would involve disproportionate costs. Table 1 provides information on the amount spent by Suffolk local authority on fees for pupils at independent special schools and abroad in the financial years 2000-01 to 2009-10. Information for earlier years is not available. Table 2 provides the number of pupils from Suffolk local authority educated in non-maintained special schools for the years 2003, 2007, 2008 and 2009. Residency information for pupils attending independent schools is not collected. Information for years prior to 2003 is not available on a comparable basis.

Table 1: S52 Budget 2001-02 to 2009-10, Table 1 data as reported by local authorities, fees for pupils at independent special schools and abroad[1], Suffolk

	Number
2000-01	3,794,410
2001-02	3,993,310
2002-03	4,387,950
2003-04	5,711,070
2004-05	6,077,850
2005-06	6,160,690
2006-07	6,390,000
2007-08	6,551,210
2008-09	6,902,410
2009-10	7,037,780

[1] Funding for schools outside of authority control. Therefore, this may be outside the geography of the LA or within the geographical boundary in the independent sector. *Note:* Figures are rounded to nearest £10.

Table 2: Number of pupils from Suffolk local authority educated in non-maintained special schools for the years 2003, 2007, 2008 and 2009

		Number of pupils with a statement of SEN educated outside the resident local authority			
	Resident local authority	*2003*	*2007*	*2008*	*2009*
935	Suffolk	82	72	69	72

Stress

Grant Shapps: To ask the Secretary of State for Children, Schools and Families if he will place in the Library a copy of the advice issued to staff of his Department on stress recognition and management. [314519]

Ms Diana R. Johnson: The Department for Children, Schools and Families is committed to creating a healthy and safe working environment for all its employees. Effective stress recognition, prevention and management, in line with the Health and Safety Management Standards, are important elements of this commitment. The Department will place a copy of the advice and guidance issued to staff in the Libraries.

Sussex

Mr. Soames: To ask the Secretary of State for Children, Schools and Families if he will set out, with statistical information related as directly as possible to Mid Sussex constituency, the effects on Mid Sussex of the policies and actions of his Department and its predecessors since 2000. [314780]

Mr. Coaker: Since 2000 the Government have transformed education and child care with improved outcomes for children and young people. Figures showing the performance at Key Stage 2 and at GCSE and equivalents in Mid Sussex are given in the following tables:

Key Stage 2 results of 11-year-old pupils attending schools in the Mid Sussex constituency

Percentage of pupils gaining level 4 and above	*2000*	*2009[1]*	*Percentage point improvement 2000-09*
Mid-Sussex			
English[2]	83	85	2
Maths[2]	82	85	3
Science[2]	94	92	-2
England			
English[3]	75	80	5
Maths[3]	72	79	7
Science[3]	85	88	3

[1] Revised data.
[2] Pupils attending schools in Mid Sussex constituency.
[3] The average for all schools in England.

5+ A*-G	88.9	92.3	3.4

[1] From 2004 results incorporate GCSEs, GNVQs and a range of other qualifications approved pre-16. Prior to 2004 results are based on GCSEs and GNVQs only.
[2] From 2006 figures are for pupils at the end of Key Stage 4. Prior to 2006 results are based on pupils aged 15.
[3] Revised data.
[4] Parliamentary constituency figures are based on all maintained schools (including City Technology Colleges and, from 2003, Academies).
Source:
School and College Achievement and Attainment Tables

Further information by constituency is provided within the Department's 'In Your Area' website available at:

http://www.dfes.gov.uk/inyourarea

Information available at constituency level includes the number of specialist schools, number of operational Academies, number of teaching assistants and other support staff, number of teachers and pupil:teacher ratios. Where information is not available at constituency level it has been provided at local authority level including the number of free early education places taken up by three and four-year-olds, number full time and part time entrants to Higher Education Institutions aged 18 to 20, average A level point score per candidate and per entry together with Percentage of People of Working Age Qualified to at least Level 2 and Percentage of People of Working Age Qualified to Level 4 and above.

Additional information could be provided only at disproportionate cost.

Truancy: Disadvantaged

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many and what proportion of *(a)* boys and *(b)* girls who were eligible for free school meals were classified as persistent absentees in 2006-07. [314326]

Mr. Coaker *[holding answer 29 January 2010]:* The requested information is shown in the table.

Maintained primary, state-funded secondary and special schools[1,2,3]: Number and proportion of persistent absentees[4] by free school meal eligibility 2006-07 in England

	Pupil enrolments who are eligible for free school meals classified as persistent absentees	Proportion of pupil enrolments who are eligible for free school meals classified as persistent absentees (percentage)[6]	Pupil enrolments who are not eligible for free school meals classified as persistent absentees	Proportion of pupil enrolments who are eligible for free school meals classified as persistent absentees (percentage)[6]	All pupil enrolments classified as persistent absentees[7]	Proportion of pupil enrolments classified as absentees (percentage)[6]
Boys[5]	49,210	9.3	86,100	3.1	138,250	4.1
Girls[5]	46,560	9.2	85,910	3.3	134,710	4.2

[1] Includes middle schools as deemed.

[2] Includes maintained secondary schools, city technology colleges and academies (including all-through academies).

[3] Includes maintained and non-maintained special schools. Excludes general hospital schools.

[4] Persistent absentees are defined as having 64 or more sessions of absence (authorised and unauthorised) during the year, typically over 20 per cent. overall absence rate.

[5] Number of pupil enrolments in schools from start of the school year up until 25 May 2007. Includes pupils on the roll for at least one session who are aged between five and 15, excluding boarders. Some pupils may be counted more than once.

[6] The number of persistent absentee enrolments expressed as a percentage of the total number of enrolments with the same characteristics.

[7] Includes pupils for whom characteristic data were missing or unclassified.

Note:

Numbers are rounded to the nearest 10.

Additional information could be provided only at disproportionate cost.

Young People: Refuges

Sarah Teather: To ask the Secretary of State for Children, Schools and Families what recent representations he has received on the future of the London Refuge; and if he will make a statement. [315802]

Dawn Primarolo *[holding answer 5 February 2010]:* The Department received a copy of a letter from the chief executive of St. Christopher's Fellowship to directors of Children's Services in London, explaining the financial situation regarding the Refuge, on 19 June. Since then, no direct representations from St. Christopher's have been made. The future of the Refuge was also raised in business questions on 10 December.

Officials are conducting a review of services for runaways in London and the Government have offered financial support if it is needed to help start the process of strengthening these services.

Written Answers to Questions

WALES

Manufacturing Industries

Mrs. Gillan: To ask the Secretary of State for Wales how many people have been employed in the manufacturing sector in Wales in each year since 1997. [318482]

Mr. Hain: The estimated numbers of employee jobs in the manufacturing sector in Wales in each year since 1997 are as follows:

As at September each year	*Number*
1997	214,006
1998	216,186
1999	206,861
2000	201,647
2001	194,762
2002	184,952
2003	181,649
2004	179.941
2005	172,090
2006	158,004
2007	160,293
2008	154,982
2009	140,593

Source:
NOMIS, Employee Job Estimates

Ports

Mrs. Gillan: To ask the Secretary of State for Wales what discussions he had with ministerial colleagues in the Department for Transport on ports policy between the date of publication of the Welsh Affairs Select Committee's Fifteenth Report of Session 2008-09, on Ports in Wales HC 601 and the date upon which the Government responded to that report. [318279]

Mr. David: The Wales Office contributed to the formulation of the Government response to the Welsh Affairs Committee "Ports in Wales" Report for which the Department of Transport was the lead Department. There were no direct discussions between Ministers of the respective departments but the issues raised by the Report are discussed on an ongoing basis.

SCOTLAND

Computer Games Industry

4. **Mr. McGovern:** To ask the Secretary of State for Scotland what recent discussions he has had on assistance to the computer games industry in Scotland. [317404]

Ann McKechin: My right hon. Friend has regular discussions with colleagues on a range of issues affecting the games industry in Scotland.

During a visit to Abertay university, Dundee, in December 2009 my right hon. Friend announced a £2.5 million investment for a games industry centre from the Government's strategic investment fund.

Social Deprivation: Ayrshire

12. **Ms Katy Clark:** To ask the Secretary of State for Scotland what discussions he has had with ministerial colleagues on policy to reduce levels of social deprivation in Ayrshire. [317413]

Mr. Jim Murphy: I have regular discussions with ministerial colleagues about deprivation and reducing poverty including discussions about tax credits, the national minimum wage and employment.

Economic Performance

13. **Mr. Bain:** To ask the Secretary of State for Scotland what recent discussions he has had on the performance of the Scottish economy. [317414]

Mr. Jim Murphy: I have regular discussions with ministerial colleagues, representatives from business, trade unions and communities about the performance of the Scottish economy.

Common Agricultural Policy

14. **Mr. Moore:** To ask the Secretary of State for Scotland what recent discussions he has had with the Secretary of State for Environment, Food and Rural Affairs on discussions at EU level on reform of the common agricultural policy. [317415]

Ann McKechin: My right hon. Friend and I have regular discussions with ministerial colleagues on a range of issues.

Departmental Energy

Andrew Stunell: To ask the Secretary of State for Scotland what the estimated *(a)* amount and *(b)* cost was of energy used in his Department in each year since 1997; what proportion of the energy used was generated from renewable sources in each of those years; and if he will make a statement. [317232]

Ann McKechin: The Scotland Office did not centrally record all of its utility usage before the current financial year. This information is, however, now recorded and will be reported in our forthcoming annual report.

Future Jobs Fund

Mark Lazarowicz: To ask the Secretary of State for Scotland what assessment he has made of the effectiveness of the Future Jobs Fund in Scotland. [317407]

Mr. Jim Murphy: The Future Jobs Fund is making a significant impact in Scotland. Last week I announced funding for a further 1,371 new jobs in Scotland through the Future Jobs Fund, which brings the total number of jobs created in Scotland to just under 9,000.

FOREIGN AND COMMONWEALTH OFFICE

Dubai: Death

Mr. Galloway: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Government of Dubai on the alleged murder of a Palestinian national by a group alleged to include British passport holders; and if he will make a statement. [318478]

Chris Bryant: I refer the hon. Member to my answer to the right hon. Member for Richmond, Yorks (Mr. Hague) of 22 February 2010, *Official Report*, columns 22-23.

Mr. Galloway: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Government of Israel on the use of British passports in association with the death in Dubai of a Palestinian national; and if he will make a statement. [318480]

Chris Bryant: The defrauding of British passports is unacceptable. The Government will continue to take all the action that is necessary to protect British nationals from identity-fraud. My right hon. Friend the Foreign Secretary made this clear in a meeting with his Israeli counterpart Avigdor Lieberman in Brussels on 23 February 2010.

Nigeria: Human Rights

Paul Rowen: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the human rights record of the government of Nigeria. [318204]

Chris Bryant: The UK is committed to supporting the Government of Nigeria in addressing the human rights challenges it faces. We welcome Acting President Jonathan's commitment of 9 February 2010 to ensuring the safety and security of Nigerians' lives and property while respecting human rights.

We have recently raised our concerns with the appropriate state and federal authorities about issues such as the rights of children in Akwa Ibom state, the handling of unrest by the Nigerian security services in Maiduguri in 2009 and Jos in 2010, as well as allegations of extra-judicial killings by the Nigerian police force in Enugu state, as identified in Amnesty International's report of 9 December 2009. These issues have been covered particularly in discussions with the Inspector General of the Nigerian police force and the Secretary to the Government of the Federation. Our high commission in Abuja and the Department for International Development (DFID) will continue to raise UK concerns at the highest level, and to encourage reform and accountability in Nigeria's police force, for example through DFID's Justice for All programme.

HOME DEPARTMENT

Drugs: Crime

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department what recent steps his Department has taken to reduce the volume of illegal drugs trafficked through the UK. [317216]

Mr. Alan Campbell: The trafficking of drugs to the UK is the subject of constant attention by the law enforcement agencies working collaboratively, in the United Kingdom and overseas, against the drugs and individuals involved. In 2008-09 the Serious Organised Crime Agency was involved, with partner agencies, in seizures of 88 tonnes of cocaine and heroin. SOCA works closely with international partners to help them destroy production capability in source countries and deny traffickers the ability to operate their routes to the UK. This enforcement activity appears to have contributed to increases in the wholesale price of cocaine and a reduction in its purity at street level, changes which are suggestive of a shortage of supply of the drug in the UK.

We are currently implementing the recommendations of 'Extending Our Reach: a comprehensive approach to tackling serious organised crime' which was published in July 2009 which, through a wide range of measures, will improve the UK's effectiveness against organised crime, including drugs trafficking.

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department what recent discussions he has had with his counterparts in *(a)* Europe, *(b)* the US and *(c)* Afghanistan on measures to tackle the trafficking of illegal drugs. [317217]

Mr. Alan Campbell: I had discussions with US counterparts (John Brennan, the President's Assistant on Counter-Terrorism, Janet Napolitano, the Homeland Security Secretary, and Eric Holder, the Attorney General) in Washington in September. We discussed measures to tackle the trafficking of illegal drugs, looking at source countries and supply routes. Our discussions immediately followed my visit to the Joint Inter-Agency Task Force in Key West, Florida, where joint work is producing strong results in interdicting the traffic in cocaine from Latin America and the Caribbean. I secured agreement for the creation of a senior level US/UK group on organised crime, to include counter narcotics activity.

In my absence on other business earlier this month, Lord West met Gil Kerlikowske, the US Director of the Office of National Drug Control Policy, in London and a number of common issues were discussed, including operational cooperation in tackling drug trafficking.

I continue to take a close interest in EU proposals and actions to tackle drug trafficking, where UK officials are fully engaged with our EU colleagues, focusing on work in Latin America and the Caribbean, West Africa, Afghanistan and Pakistan.

Powers of Entry

Mr. Stewart Jackson: To ask the Secretary of State for the Home Department with reference to his Department's document entitled Guidance on Powers of Entry—Scrutiny by the Home Department, how many requests for new powers of entry from organisations other than the police have been *(a)* approved and *(b)* refused by his Department since October 2007. [312858]

Mr. Hanson: Applications are submitted to the Home Department in accordance with guidance issued to Government Departments on entry powers:

http://www.police.homeoffice.gov.uk/publications/
operational-policing/GuidanceonPowersofEntry.html

The function of referral to the Home Office is to assist Departments in complying with that guidance rather than refusing applications. The following statutory provisions have been subject to referral to my Department since October 2007.

Current Bills before Parliament

—	*Statute*	*Department responsible*	*Number of powers*
1	Cluster Munitions (Prohibitions) Bill cl. 12 Power to enter premises and search for prohibited munitions cl. 21 Power to search and obtain evidence: issue of warrant	BIS	2

UK Border Agency: Overtime

Damian Green: To ask the Secretary of State for the Home Department how much the UK Border Agency spent on overtime payments to civil servants at grade *(a)* 5 and *(b)* 6 in each of the last two years. [317150]

Mr. Woolas: The amount that the UK Border Agency spent on overtime payments to civil servants at grade *(a)* senior civil service and *(b)* six in each of the last two years was *(a)* nothing and *(b)* £1,684.

Home Office civil servants in the UK Border Agency at grade *(a)* 5, are not eligible for overtime payments and, (this grade has now been re-graded into the senior civil service whose contracts specifically exclude overtime). Civil service staff at grade 6 level are not eligible for overtime payments. There is guidance on discretionary payments instead of overtime, which are used rarely.

Vetting: Compensation

Tim Loughton: To ask the Secretary of State for the Home Department pursuant to the answer of 8 February 2008, *Official Report*, columns 756-7W, on vetting: compensation, how much the Criminal Records Bureau has paid in financial awards to provide redress for customers for maladministration since 1997. [317218]

Meg Hillier: The Criminal Records Bureau (CRB) makes financial awards to redress customers for its maladministration in accordance with Treasury policy.

The following table shows the number of claims made, the number of those claims which resulted in an award and the amount paid out in each financial year since the Bureau's inception.

Financial year	*Total certificates issued*	*Claims*	*Awards*	*Total paid (£)*	*Percentage of Awards against total certificates issued*
2002-03	1,437,094	340	112	29,882	0.008
2003-04	2,284,688	609	237	108,669	0.011
2004-05	2,430,937	466	125	62,812	0.005
2005-06	2,770,265	532	71	118,272	0.003
2006-07	3,277,957	684	151	165,043	0.005
2007-08	3,23,251	594	151	159,148	0.046
2008-09	3,855,881	1085	301	290,124	0.008
2009-10	3,215,409	1442	265	340,266	0.008

These figures are calculated by financial year and information for 2009-10 contains the figures up to December 2009. The full financial year's figure will not be available until after March 2010.

Work Permits

Chris Grayling: To ask the Secretary of State for the Home Department how many work permits carrying entitlement to settlement in the UK were issued to non-EU citizens in each year since 2005. [317635]

Alan Johnson: A work permit does not carry an entitlement to settlement.

Written Questions: Government Responses

Dr. Cable: To ask the Secretary of State for the Home Department when he plans to answer question 300301, on departmental pay, tabled on 18 November 2009. [313135]

Mr. Woolas: I refer the hon. Member to the reply given on 22 February 2010, *Official Report*, columns 346-47W.

Chris Huhne: To ask the Secretary of State for the Home Department when he plans to answer question 310383, on fingerprints in passports, tabled on 7 January 2010. [317196]

Alan Johnson *[holding answer 22 February 2010]:* I refer the hon. Member to the reply given on 22 February 2010, *Official Report*, column 373W.

HOUSE OF COMMONS COMMISSION

Members: Email

Mr. Maude: To ask the hon. Member for North Devon, representing the House of Commons Commission with reference to the answer of 2 March 2009, *Official Report*, columns 1211-2W, and pursuant to the answer of 21 January 2010, *Official Report*, column 434W, on Members: email, if the House of Commons Commission will direct to be placed on the House of Commons website *(a)* a list of the forms of email encryption members of the public can use to communicate securely with their Members of Parliament and *(b)* a directory of encryption certificates and PGP keys used by hon. Members. [318317]

Nick Harvey: It is a matter for individual Members whether to make details of their encryption software available to their constituents.

Nurseries: Costs

Michael Fabricant: To ask the hon. Member for North Devon, representing the House of Commons Commission what estimate he has made of the cost of converting Bellamy's Bar, Bellamy's Club Room and the Astor Suite and surrounding rooms into a crèche, including the cost of all other construction work required associated with the crèche. [317550]

Nick Harvey: The cost, including fees, of converting Bellamy's Bar, Bellamy's Club Room and the Astor Suite and surrounding rooms into a nursery is provisionally estimated to be some £490,000 excluding VAT.

CULTURE, MEDIA AND SPORT

Castle Point

Bob Spink: To ask the Secretary of State for Culture, Media and Sport if he will set out, with statistical evidence relating as closely as possible to Castle Point constituency, the effects on that constituency of changes to his Department's policies since 1997. [318082]

Mr. Sutcliffe: My Department's aim is to improve the quality of life for everyone through cultural and sporting activities, to support the pursuit of excellence and to champion the tourism, creative and leisure industries.

The impact of bodies and policies of my Department on the Castle Point constituency since 1997 include:

> Digital switchover is due to take place in Castle Point in 2012. By the time switchover is complete at the end of 2012, 98.5 per cent. of households nationwide will be able to receive digital TV—the same number that can currently receive analogue.
>
> Over £4 million of national lottery grants made to applications from the Castle Point constituency since 1995.

The Castle Point constituency has also benefited from other policies and spending whose impact cannot be broken down by constituency. This includes:

> £4 billion of Exchequer funding spent on culture.
>
> More than £5.5 billion invested in sport by the Government and the national lottery since 1997.
>
> Almost 800,000 free swims taken in the south east in the first eight months of the Free Swimming programme.
>
> A 68 per cent. increase in national museum visits from 1998-99 to 2008-09—10 per cent. of which were by adults from lower socioeconomic groups.
>
> £416.6 million in grants allocated by English Heritage since 1997.
>
> 48 per cent. of buildings on the original 1999 Buildings at Risk Register having their future secured.
>
> 90 per cent. of all pupils taking part in at least two hours of high quality PE or sport per week in 2008 from an estimated 25 per cent. in 2003-04—exceeding our target.

Departmental Energy

Andrew Stunell: To ask the Secretary of State for Culture, Media and Sport what the estimated *(a)* amount and *(b)* cost was of energy used in his Department and its agency in each year since 1997; what proportion of the energy used was generated from renewable sources in each of those years; and if he will make a statement. [317237]

Mr. Sutcliffe: The information requested is shown in the following tables.

Department for Culture, Media and Sport

	Electricity Kwh	Electricity cost (£)	Gas Kwh	Gas cost (£)
2003-04	4,368,200	n/a	3,275,900	n/a
2004-05	4,186,300	n/a	2,643,900	n/a
2005-06	4,438,600	n/a	2,488,400	n/a
2006-07	4,320,100	361,500	2,631,300	86,600
2007-08	3,647,800	293,100	2,135,400	48,800
2008-09	3,091,900	318,500	1,344,400	37,300

n/a = Not available.

Since December 2005 the Department has purchased energy generated from 100 per cent. renewable sources. Information relating to years prior to 2003 is not available.

The Royal Parks

[1] Not recorded.

Since 2002 The Royal Parks has purchased energy generated from 100 per cent. renewable sources. Information relating to years prior to 2002 is not available.

Departmental Internet

Mr. Heald: To ask the Secretary of State for Culture, Media and Sport how many designs for its website his Department has commissioned since 2005. [318655]

Mr. Sutcliffe: My Department commissioned one redesign of its website in 2005. We are currently redesigning the website home page.

Departmental Temporary Employment

Grant Shapps: To ask the Secretary of State for Culture, Media and Sport which companies were contracted by his Department for the provision of temporary staff in each of the last three years; how many temporary staff were employed by his Department in each such year; and what the monetary value was of contracts with each such company in each such year. [317997]

Mr. Sutcliffe: The information requested is shown in the following tables.

Supplier

(£)

Holiday Accommodation

Richard Younger-Ross: To ask the Secretary of State for Culture, Media and Sport what assessment he has made of the compliance with European Commission state aid rules of his Department's policy on the participation in marketing initiatives promoted by *(a)* Visit England and *(b)* Visit Britain by operators of holiday homes who do not participate in the National Quality Assurance scheme; and if he will make a statement. [316863]

Margaret Hodge: My Department has been involved in discussions with the European Commission in relation to the specific matters raised by the hon. Member. These discussions have not been concluded and it would be inappropriate to comment on them at this time.

The Department's objective is to ensure that the activities of VisitBritain and VisitEngland are compatible with the rules relating to state aid.

Theatre: Young People

Mr. Jenkins: To ask the Secretary of State for Culture, Media and Sport how many free theatre tickets have been provided to under-26 year olds by the Arts Council since February 2009. [310092]

Margaret Hodge: Between February 2009 and November 2009, 121,742 tickets were taken up by young people under the 'A Night Less Ordinary' scheme. Over 20,000 of these tickets have been given away by organisations based in the West Midlands.

Results from 1 December 2009 to 28 February 2010 will be made available in April.

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport what recent assessment he has made of the effectiveness of Arts Councils England's A Night Less Ordinary scheme in achieving its objectives. [317185]

Margaret Hodge: An independent evaluation project is running alongside the two year 'A Night Less Ordinary' scheme.

The evaluation will identify, record and measure the effectiveness of the scheme in achieving its objectives at a national and local level.

'A Night Less Ordinary' is a pathfinder programme and the report will help inform the future direction of the programme. We also expect the report to be a useful audience development tool for the entire theatre sector. Evaluation reports will be published in due course.

OLYMPICS

Departmental Written Questions

David Simpson: To ask the Minister for the Olympics what average time her Office took to answer questions for *(a)* ordinary written answer and *(b)* written answer on a named day in the last 12 months. [313675]

Tessa Jowell: Information on the average time taken to answer parliamentary questions is not readily available in the format requested and could be provided only at disproportionate cost. However in my role as Minister for the Olympics, during 2009, I answered 28 per cent. of ordinary written and 45 per cent. of named day questions on time. These figures are unacceptable and were due to failings in departmental processes. Work has been done to mitigate these failings, and future figures should reflect this.

Further to this, with effect from the current Session of Parliament, each Department will provide the Procedure Committee with sessional statistics on the time taken to answer written questions. This implements recommendation 24 of the 3rd report from the Procedure Committee, Session 2008-09.

Olympic Games 2012: Construction

Jim Cousins: To ask the Minister for the Olympics what steps she is taking to encourage construction workers from the North East to work on construction sites for the London 2012 Olympics; and how many such workers there are. [313910]

Tessa Jowell: At the end of December 2009, 41 per cent. of the Olympic park workforce were from parts of the UK outside of London. The Olympic Delivery Authority (ODA) does not measure the number of workers from each region. People from the North East can access employment opportunities through the national Jobcentre Plus network and businesses from the North East that have won Olympic-related contracts are providing further economic benefits for the region.

In addition to those working on the park, the ODA has 17 direct suppliers registered in the North East, including the designer of the Broxbourne White Water Canoe Centre for Games and legacy from Newcastle upon Tyne. More businesses are securing work further down the supply chain, such as the Durham-based company providing roof cladding for the aquatics centre and the company from Wallsend who are supplying and operating jack machines for bridges and highways projects. More information on businesses that have won Games-related contracts can be found at the business section of the London 2012 website:

www.london2012.com/business

The ODA and its partners have put a range of measures in place to help local people in particular access training and employment opportunities on the Olympic park, which includes 48 hours' exclusive access to vacancies.

Olympic Games 2012: Recruitment

Mr. Frank Field: To ask the Minister for the Olympics if she will ensure that notification of job vacancies arising from the London 2012 Olympics is made through Jobcentre Plus before such vacancies are advertised elsewhere. [316829]

Tessa Jowell: Vacancies on the Olympic park can be accessed across the UK through the national Jobcentre Plus network. The Olympic Delivery Authority (ODA) and its partners have put in place a range of measures to help local people in particular access training and employment opportunities on the site.

Vacancies are offered exclusively to each of the five host borough employment brokerages and Jobcentre Plus offices in the area for a period of 48 hours, to give local people the best possible chance of accessing vacancies on the site. Vacancies unfilled after this time are then made available across London through Relay London Jobs and Jobcentre Plus for a further 24-hours, before being made available nationally through the Jobcentre Plus network. At the end of December 2009, 20 per cent. of the Olympic park workforce were from the five Olympic host boroughs, 33 per cent. from other London boroughs and 41 per cent. from the UK outside of London. 11 per cent. of the workforce were previously unemployed.

In addition to direct employment opportunities on the park, companies are winning contracts both directly with the ODA and in the supply chains of its contractors, helping to spread the economic benefits of the games across the UK. In the North West alone, 44 businesses are directly supplying the ODA and many more are winning work further down the supply chain, such as the Horwich-based company providing steelworks for the Stadium and the Merseyside company supplying roof cladding for the Aquatics Centre.

More information on businesses that have won games-related contracts can be found at the business section of the London 2012 website at:

www.london2012.com/business

WORK AND PENSIONS

Children: Maintenance

Pete Wishart: To ask the Secretary of State for Work and Pensions how many cases under consideration by the Child Support Agency involve absent parents in *(a)* Scotland and *(b)* Perth and North Perthshire constituency. [317061]

Helen Goodman: The Child Maintenance and Enforcement Commission is responsible for the child maintenance system. I have asked the Child Maintenance Commissioner to write to the hon. Member with the information requested and I have seen the response.

Letter from Stephen Geraghty, dated 24 February 2010:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Child Maintenance Commissioner as the Child Support Agency is now the responsibility of the Child Maintenance and Enforcement Commission.

You asked the Secretary of State for Work and Pensions how many cases under consideration by the Child Support Agency involve absent parents in (a) Scotland and (b) Perth and North Perthshire constituency. [317061]

I have interpreted 'under consideration' as cases where an application has been made but which has yet to be cleared.

The Child Support Agency's performance has continued to show improvement over the last quarter, building on the stable base provided by successful completion of the Operational Improvement Plan in March 2009.

As at December 2009, the number of uncleared cases in Scotland was 2,120, which represents a 20% decrease from 2,650 in September 2009. In Perth and North Perthshire Parliamentary constituency the volume of uncleared cases fell from 55 in September 2009 to 45 in December 2009. These figures include both old and current scheme applications and those cases administered clerically.

Nationally, uncleared applications fell to 28,900 in December 2009, which is a 6,300 (18%) reduction from September 2009.

I hope you find this answer helpful.

Departmental ICT

Mrs. Curtis-Thomas: To ask the Secretary of State for Work and Pensions which of her Department's information technology projects have been outsourced in the last three years; and what the monetary value was of each contract let in respect of such projects. [313374]

Jim Knight: The provision of IT services to the Department for Work and Pensions in support of business change has been outsourced to private sector suppliers since it was created in 2001. There has been no further outsourcing in the last three years.

Departmental Surveys

Mrs. May: To ask the Secretary of State for Work and Pensions whether her Department has conducted any staff satisfaction surveys in the last 12 months. [317156]

Jonathan Shaw: DWP has conducted two such surveys in the last 12 months: in March 2009 and as part of the Civil Service People Survey in October 2009.

Employment Schemes: Financial Services

Andrew Rosindell: To ask the Secretary of State for Work and Pensions (1) whether her Department operates programmes to assist workers made redundant from the financial services sector to find employment; [315898]

(2) how much her Department has spent on measures to fund employment for workers previously employed in the financial services sector in the last 12 months; and what steps it has taken to that end. [315899]

Jim Knight: The Government are taking decisive steps to tackle the effects of the recession and reduce unemployment and are committed to helping every unemployed person return to work.

While we do not operate programmes specifically aimed at supporting redundant workers from the financial services sector, we have made available up to £5 billion, since November 2008, to offer a substantial package of new back to work support to all jobseekers, irrespective of their background, throughout their time on jobseeker's allowance.

We have quadrupled funding to the Rapid Response Service which provides support to employees under threat of redundancy, helping them to find new employment quickly.

We have also significantly increased the funding to maintain and increase the existing support that is available to newly unemployed claimants through Jobcentre Plus and its external partners. As well as help with jobsearch, skills and access to basic skills training, newly unemployed people now have day one access to Local Employment Partnership vacancies, help to meet the expenses involved in finding work and, for some, access to Work Trials.

In April 2009, we strengthened this support by introducing group jobsearch sessions specifically targeted at newly unemployed people, as well as specialist back to work support for newly unemployed professionals and executives, delivered through recruitment agencies. We built on this in the recent White Paper "Building Britain's Recovery: Achieving Full Employment", and from spring 2010, we will be strengthening the support offered to professional customers by offering further access to a follow-up session with these agencies to maintain the momentum of their journey back to work.

Further back to work support is available to all jobseekers throughout their claim and the longer somebody is on jobseeker's allowance, the more support they can get. This currently includes access to recruitment subsidies, self-employment support, work focused training and volunteering at six months and more intensive personalised support from external providers later in a claim.

There is also a substantial package of support available to 18 to 24-year-olds to help them get back to work which includes a guarantee of a job, work focused training or work experiences at the six month stage in a claim.

Employment Schemes: Young People

Andrew Stunell: To ask the Secretary of State for Work and Pensions how many residents of each local authority area in the North West aged between 16 and 24 years old have taken up *(a)* graduate internship, *(b)* a non-graduate internship, *(c)* work and *(d)* training since the Young Person's Guarantee came into effect; and how many are in receipt of jobseeker's allowance under that Guarantee. [317210]

Jim Knight: Information on graduate internships, non-graduate internships, work, and training through the Young Person's Guarantee, is not currently available, but will be made available from spring 2010 through a statistical release that is planned to cover the whole of the Young Person's Guarantee. This is normal practice for the Department's employment programmes and it allows time for the information to be collected, understood, verified and reported.

Future Jobs Fund

Mrs. May: To ask the Secretary of State for Work and Pensions how many bids for Future Jobs Fund funding have been accepted in each parliamentary constituency; and how many jobs are expected to be created under bids in each such constituency. [304377]

Jim Knight: The information requested has not been recorded by parliamentary constituency and therefore cannot be provided.

Mrs. May: To ask the Secretary of State for Work and Pensions how many young people are participating in Future Jobs Fund jobs; and how many Future Jobs Fund job vacancies there are. [304397]

Jim Knight: The information requested is not currently available. Information on numbers of young people participating in Future Jobs Fund jobs will be made available in future through a statistical release covering the whole of the Young Person's Guarantee. The first publication will be available in the spring, and quarterly thereafter.

Jobcentre Plus: Racism

Jenny Willott: To ask the Secretary of State for Work and Pensions how many complaints of racism have been made by Jobcentre Plus staff against other Jobcentre Plus staff in each of the last five years, broken down by the smallest geographical area for which information is available; and if she will make a statement. [316597]

Jim Knight: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Darra Singh. I have asked him to provide the hon. Member with the information requested.

Letter from Darra Singh, dated 24 February 2010:

The Secretary of State has asked me to reply to your question asking how many complaints of racism have been made by Jobcentre Plus staff against other Jobcentre Plus staff in each of the last five years, broken down by smallest geographical area for which information is available. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

The Department does not maintain any automated data to capture the volumes of formal complaints from current or former staff relating to race discrimination. Although Jobcentre Plus retains clerical information on official written complaints from existing or former members of staff; this data does not identify where complaints relate specifically to any allegations of racism.

Although formal investigations into allegations of harassment, bullying and discrimination are handled through our Department for Work and Pensions Human Resources Investigation Service, some complaints may be addressed separately through local management investigations and there is no available data to provide the requested information in full.

I am, therefore, unable to provide a more detailed reply.

Mining: Industrial Diseases

Mr. Kemp: To ask the Secretary of State for Work and Pensions how many former miners have *(a)* applied for and *(b)* been granted industrial injuries benefit for miners' knee in the North East region to date. [317160]

Helen Goodman: The information is not available in the format requested.

The current national position is that since the addition of osteoarthritis of the knee to the list of prescribed industrial diseases on 13 July 2009, 32,820 claims have been received nationally of which 7,713 have received an award of, or an increase of industrial injuries disablement benefit.

This information is based on an ongoing informal count by the Jobcentre Plus offices dealing with industrial injuries disablement benefit. We are looking into arrangements to publish this information as official statistics.

John Mann: To ask the Secretary of State for Work and Pensions if she will estimate the number of miners and former miners who experience chronic back and neck pain as a result of their working conditions. [317242]

Helen Goodman: It is not possible to provide a reliable estimate because the Labour Force Survey contains insufficient cases of miners, or former miners, who have self-reported work-related musculoskeletal disorders.

Mortgages: Government Assistance

Grant Shapps: To ask the Secretary of State for Work and Pensions what rate of interest her Department used in calculations of entitlements and payments under the Support for Mortgage Interest Scheme in each of the last 12 months. [316746]

Helen Goodman: The standard interest rate used to calculate Support for Mortgage Interest was 6.08 per cent. in each of the last 12 months.

Grant Shapps: To ask the Secretary of State for Work and Pensions how many Support for Mortgage Interest Scheme funding recipients reached the maximum two-year period permitted for claiming in each of the last eight quarters. [316802]

Helen Goodman: The two-year period limit for jobseekers claiming Support for Mortgage Interest (SMI) was introduced in January 2009. It applies only to customers receiving jobseeker's allowance.

No SMI customer has been affected by the introduction of this two-year limit because it is less than two years since it was introduced. The earliest date that a jobseeker could be affected by the two year limit is 5 January 2011 assuming continuous receipt of jobseeker's allowance including SMI throughout the two year period.

New Deal Schemes

Mrs. May: To ask the Secretary of State for Work and Pensions how many flexible New Deal phase 1 suppliers were fully operational on 6 October 2009. [304381]

Jim Knight: Fourteen supplier organisations were contracted to start delivering flexible new deal from October 2009. Twelve of the 14 started delivery from 5 October, meaning there was a supplier operating in every contract package area from that date. By 20 October all 14 suppliers were fully operational in all phase one contract package areas covering 28 Jobcentre Plus districts.

New Deal Schemes: Feltham

Alan Keen: To ask the Secretary of State for Work and Pensions how many women resident in Feltham and Heston have participated in the New Deal for *(a)* Lone Parents and *(b)* Partners since 1997; and if she will make a statement. [316693]

Helen Goodman: The available information can be found in the following table.

Number of woman participants in the New Deal in Feltham and Heston parliamentary constituency: Time Series to August 2009 - Starters (Spells)

	New Deal for Lone Parents	*New Deal for Partners*
Feltham and Heston		
1997	[1]—	n/a
1998	40	n/a
1999	210	n/a
2000	230	n/a
2001	290	n/a
2002	330	n/a
2003	340	n/a
2004	330	10
2005	310	20
2006	370	10
2007	580	[1]—
2008	610	10
2009	230	[1]—

n/a = Not applicable.

[1] Nil or negligible.

Notes: 1. Figures are rounded to the nearest 10. Some additional disclosure control has also been applied.

2. The latest New Deal figures will be affected by the introduction of the new Jobseeker's Regime and Flexible New Deal (gradual implementation started from April 2009).

3. Westminster parliamentary constituency (post May 2005) is allocated using the Office for National Statistics Postcode Directory and customer's postcode.

4. The New Deal for Lone Parents was introduced in October 1998.

5. Data for New Deal for Partners are available from April 2004.

6. Latest Data are to August 2009.

7. Spells are not available for New Deal for Partners so individual level data are used instead. Spells are used for New Deal for Lone Parents.

Source

Department for Work and Pensions, Information Directorate.

Over 2.2 million people have been helped into work through the New Deals, and we are building on the success of this programme to create the Flexible New Deal. This programme will better meet the employment and skills needs of those who have been on Jobseeker's Allowance for a long time or who have struggled to find a stable pattern of work.

Pension Credit: Kingston

Mr. Davey: To ask the Secretary of State for Work and Pensions how many pensioners in *(a)* the Royal borough of Kingston and *(b)* Kingston and Surbiton constituency have been in receipt of pension credit in each of the last three years. [318040]

Angela Eagle: The information requested is in the following tables:

Recipients of pension credit in Kingston upon Thames, local authority

As at August each year	*Household recipients*	*Individual beneficiaries*
2009	4,090	4,780
2008	3,990	4,660
2007	4,020	4,710

Recipients of pension credit in Kingston and Surbiton parliamentary constituency

As at August each year	*Household recipients*	*Individual beneficiaries*
2009	3,180	3,710
2008	3,090	3,600
2007	3,140	3,670

Notes:

1. Numbers rounded to the nearest ten.

2. Pension credit is claimed on a household basis—household recipients are those people who claim pension credit either for themselves only or on behalf of a partner. Beneficiaries are the number of claimants in addition to the number of partners for whom they are also claiming.

3. Parliamentary constituencies and local authorities are assigned by matching postcodes against the relevant Office for National Statistics postcode directory.

4. On April 1 2009 structural changes to the local authorities of England took effect. Changes are reflected from May 2009 in the Tabulation Tool.

DWP Information Directorate Work and Pensions Longitudinal Study

Pensioners: Per Capita Costs

Mr. Hepburn: To ask the Secretary of State for Work and Pensions how much her Department has spent on pensioners per capita in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and (d) the UK in each year since 1997. [313339]

Angela Eagle: Complete information is not available. Such information as is available is in the tables.

Pensioner spending per capita (£, cash)

	2002-03	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*2007-08*	*2008-09*
Jarrow	5,060	5,480	5,870	6,190	6,290	6,630	6,910
South Tyneside	5,080	5,530	5,890	6,210	6,330	6,660	7,010
North East	4,960	5,350	5,700	6,000	6,110	6,430	6,770
Great Britain	4,680	5,020	5,320	5,610	5,700	6,000	6,320

Pensioner spending per capita (£, 2009-10 prices)

	2002-03	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*2007-08*	*2008-09*
Jarrow	6,030	6,360	6,620	6,850	6,770	6,930	7,050
South Tyneside	6,060	6,410	6,650	6,880	6,810	6,970	7,150
North East	5,910	6,200	6,430	6,650	6,570	6,720	6,910
Great Britain	5,580	5,820	6,010	6,220	6,140	6,280	6,450

Notes:

1. The Department for Work and Pensions is responsible for expenditure in Great Britain only. Expenditure in Northern Ireland is a matter for the Northern Ireland Office.

2. Figures have been rounded to the nearest £10.

3. Figures include spending on: state pension; attendance allowance; winter fuel payment; bereavement benefits; widow's benefit; minimum income guarantee; pension credit, over-65s payment and over-70s payment. figures for other benefits, and for these benefits before 2002-03, are not available.

4. Figures are estimated by dividing expenditure on the above benefits by the number of state pensioners in the relevant area.

5. Great Britain benefit expenditure data for all benefits, and local authority and parliamentary constituency benefit expenditure data for some benefits, can be found here:

http://research.dwp.gov.uk/asd/asd4/expenditure.asp

6. The DWP Tabulation Tool, which gives caseload and expenditure data for some benefits split by local authority, parliamentary constituency and Government office

region, among others, can be found here:

http://research.dwp.gov.uk/asd/tabtool.asp

Pensions

Steve Webb: To ask the Secretary of State for Work and Pensions how many and what proportion of pensioners receive earnings-related state pensions under *(a)* the state earnings-related pension scheme only, *(b)* the state second pension scheme only and *(c)* both schemes. [317177]

Angela Eagle: The information is in the table

Pensioners in receipt of additional state pension (Great Britain, March 2009)

	State earnings-related pension scheme (SERPS) only	*State second pension (S2P) only*	*Both SERPS and S2P*
Number of pensioners in receipt	6,491,000	144,900	1,838,000
Percentage of total number of recipients of any state pension	59	1	17

Notes:
1. Figures shown are for March 2009.
2. Caseload figures are rounded to the nearest 100 pensioners. Percentages are rounded to the nearest percent. Note the denominator used in the percentages is total state pension caseload in Great Britain, rather than total population in Great Britain at or above state pension age.
3. The state second pension (S2P) scheme reformed the state earnings-related pension scheme (SERPS) from April 2002. Only people reaching state pension age from April 2003 onwards can have built up some entitlement to S2P.
4. Pensioners in receipt of additional pension under the S2P scheme but not under SERPS were either credited into S2P through caring or disability, or are receiving an S2P top-up on account of contracted-out employment.

Source:
Department for Work and Pensions, Information Directorate, administrative data 5 per cent. sample

Post Office Card Account

Mark Lazarowicz: To ask the Secretary of State for Work and Pensions what the estimated cost to her Department is per transaction of Post Office Card Account transactions under *(a)* the new Post Office Card Account due to be introduced in 2010 and *(b)* each other benefit transaction method. [317181]

Helen Goodman: The new Post Office card account contract began on 1 October 2009 and the current average cost to the Department for each payment made into a POca is around 50p.

Other payment method costs are: 1p per payment into a bank or other account; £2.00 per cheque; and 55p per payable order.

The costs are made up of contract costs and where appropriate, other costs such as postage, stationery and administration.

Social Security Benefits: Students

Mrs. Dean: To ask the Secretary of State for Work and Pensions (1) what estimate she has made of the average annual cost of implementing amended deemed income rules to provide for income from student loans to be disregarded in respect of the entitlement to benefits of those students who suspend their studies because of serious ill health; [311602]

(2) what estimate she has made of the number of students who would be affected by the amendment of the deemed income rules to provide for income from student loans to be disregarded in respect of the eligibility for benefits of those students who suspend their studies because of serious ill health. [311606]

Helen Goodman: We are looking with colleagues in other Departments at the position for students who suspend their studies because of serious ill health and who, as a result, have not drawn down their student loan. I will also explore with the Department for Business, Innovation and Skills, education providers and students' representative bodies, whether we can strengthen the awareness and transparency of the current arrangements.

Information on the number of students that might be affected by such a change to the deeming rules for those who abandon their course is not available as it would depend on the detailed conditions that were set.

Unemployment Benefits

Mrs. May: To ask the Secretary of State for Work and Pensions (1) if she will publish each version of the sanctions regime applicable to *(a)* jobseeker's allowance, *(b)* incapacity benefit, *(c)* employment and support allowance and *(d)* income support which has been in effect for any period since 1997; [313077]

(2) what assessments her Department has made of the effectiveness of alternative sanctions regimes; and if she will publish the reports of those assessments; [313079]

(3) what changes she plans to make to the Jobcentre Plus sanctions regime; [313080]

(4) if she will publish each evaluation her Department has made of the effectiveness of the Jobcentre Plus sanctions regime. [313081]

Jim Knight: Benefit sanctions are aimed at establishing a framework of rights and responsibilities with benefit customers, and encourage positive outcomes by obliging customers in receipt of working age benefits to engage with the support on offer and help them move into employment.

Benefit sanctions have been an integral part of Jobseeker's Allowance (JSA) since it was introduced and the detail is set out in the Jobseeker's Allowance Regulations 1996.

Since April 2000 the sanction regulations for Incapacity Benefit customers have been set out in various Work Focused Interviews (WFI) regulations: The Social Security (Work-focused Interviews) Regulations 2000 No. 897; The Social Security (Jobcentre Plus Interviews) Regulations 2001 No. 3210; The Social Security (Jobcentre Plus Interviews) Regulations 2002 No. 1703; The Social Security (Incapacity Benefit Work-focused Interviews) Regulations 2003 No. 2439; and The Social Security (Incapacity Benefit Work-focused Interviews) Regulations 2008 No. 2928, Regulation 9.

The sanctions regime for Employment and Support Allowance customers is set out in The Employment and Support Allowance Regulations 2008 No. 794, Regulation 63.

The Income Support sanction regime was introduced through the Social Security (Work-focused Interviews for Lone Parents) and Miscellaneous Amendments Regulations 2000; The Social Security (Jobcentre Plus Interviews) Regulations 2001; and the Social Security (Jobcentre Plus) Regulations 2002 respectively. Copies of all of this legislation are available in the Library.

The Department continually reviews the effectiveness of conditionality and the associated sanctions regimes across all working age benefits and undertakes research on their effectiveness in supporting customers to move into employment. Published reports on the operation of sanctions are listed on the Department for Work and Pensions website at:

http://research.dwp.gov.uk/asd/asd5/rrs-index.asp

and are available in the House Library.

The 2008 White Paper 'Raising expectations and increasing support: reforming welfare for the future' (CM7506), set out the Government's intention to test a model of escalating sanctions based on the principles set out in the 2008 independent review of conditionality 'Realising Potential: A vision for personalised conditionality and support' by Professor Paul Gregg. The model introduces five stages of sanctions, initially in Progression to Work pathfinder areas, which will allow for more attempts at contact and in depth case reviews with lone parents and partners of certain benefit recipients, and a number of stages before a financial sanction is considered.

Furthermore, the Welfare Reform Act 2009 introduced two new sanctions to the Jobseeker's Allowance. The first is the power to sanction a customer who commits acts of violence or threatening behaviour against Jobcentre Plus staff during the course of a claim for Jobseeker's Allowance. The second is a sanction for Jobseeker's Allowance customers who fail to attend their mandatory appointments as part of the requirements of receiving Jobseeker's Allowance, this change will be implemented from April 2010.

The Welfare Reform Act 2009 also introduced the power to sanction lone parents on Income Support and partners of certain benefit recipients, with younger children, for not undertaking agreed work related activity. The first stage of implementation for these measures will be in October 2010 in the Progression to Work pathfinder Jobcentre Plus districts.

As part of the ongoing review of support for Jobcentre Plus customers with disabilities and health conditions, we are reviewing the current sanctions regime for Employment and Support Allowance customers and we will publish details about any proposed changes in spring 2010.

Unemployment Benefits: Appeals

Mr. Carmichael: To ask the Secretary of State for Work and Pensions how much her Department has spent on contesting employment support allowance appeals in *(a)* the UK and *(b)* Scotland since 27 October 2008. [317756]

Jonathan Shaw: The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Darra Singh. I have asked him to provide the hon. Member with the information requested.

Unemployment Benefits: Cancer

Mr. Carmichael: To ask the Secretary of State for Work and Pensions how many terminally ill cancer patients *(a)* in total and *(b)* normally resident in Scotland have been required by her Department to (i) undergo a medical examination and (ii) attend a work-focused interview since 27 October 2008. [317752]

Jonathan Shaw: The information requested is not available.

Unemployment Benefits: Glasgow East

John Mason: To ask the Secretary of State for Work and Pensions how many individuals are in receipt of *(a)* attendance allowance, *(b)* incapacity benefit and *(c)* jobseeker's allowance in Glasgow East constituency; and what the average weekly payment was in respect of each such benefit in the latest period for which figures are available. [317248]

Jonathan Shaw: The available information is in the following table.

Attendance allowance, incapacity benefit/severe disablement allowance and jobseeker's allowance claimants in Glasgow East parliamentary constituency: May 2009

	Caseload	*Average weekly amount (£)*
Attendance Allowance	3,380	61.34
Incapacity Benefit/Severe Disablement Allowance	8,920	53.75
Jobseeker's Allowance	3,510	57.83

Notes:

1. Figures are rounded to the nearest 10 and average amounts to the nearest penny.
2. Incapacity benefit/severe disablement allowance figures do not include employment and support allowance.
3. Attendance allowance totals show the number of people in receipt of an allowance, and exclude people with entitlement where the payment has been suspended, for example, if they are in hospital.
4. Data is published on the Department for Work and Pensions' website at:

http://research.dwp.gov.uk/asd/

Source:

DWP Information Directorate: Work and Pensions Longitudinal Study

Unemployment Benefits: Medical Examinations

Mr. Carmichael: To ask the Secretary of State for Work and Pensions how many complaints *(a)* in total and *(b)* from residents of Scotland regarding fitness to work assessments her Department has received since 27 October 2008. [317754]

Jonathan Shaw: Information on the number of complaints received by the Department specifically about the work capability assessment element of employment and support allowance is not available.

Vocational Training: Disabled

Mr. Harper: To ask the Secretary of State for Work and Pensions what her latest assessment is of the adequacy of skills training on offer to claimants of Incapacity Benefit and Employment and Support Allowance; and for what reason claimants of Incapacity Benefit and

Employment and Support Allowance are not able to access Train to Gain if they have more than four GCSEs or NVQ Level 2. [315694]

Jonathan Shaw: It is the role of Jobcentre Plus to work with all customers and help them overcome any barrier to getting into work. Where this involves meeting a skills need, a customer, including one in receipt of either incapacity benefit or employment and support allowance, can be referred to a range of training provision provided by either Jobcentre Plus or the Learning and Skills Council.

There is a wide range of training provision on offer throughout the country for all customers, including those in receipt of incapacity benefit and employment and support allowance. Customer training needs are assessed on an individual basis and customers are then referred to provision that not only meets their needs but also the needs of local employers. The adequacy of skills training is therefore not assessed on a national basis but is driven by the local labour market and an assessment of the individual's needs.

The primary national return to work programme for people claiming incapacity benefits or employment and support allowance is Pathways to Work. In Pathways to Work areas, private and voluntary sector providers are contracted to tailor provision to meet the needs of the customer. It is their responsibility to ensure that any training is adequate and appropriate.

Last October we announced a review of Pathways to Work. The White Paper, 'Building Britain's Recovery: Achieving Full Employment', published in December, set out our underpinning principles for reform and confirms that we will bring forward proposals in the spring.

Train to Gain is not routinely offered to those on benefits. It is a programme aimed specifically at employers, giving them better access to a range of training opportunities for improving the skills of their employees and the productivity of their business.

Over the last few years, to boost demand and respond to the downturn the Government introduced a number of temporary funding flexibilities for qualifications delivered as part of Train to Gain. Until August 2010, this includes providing full funding in respect of full level 2 qualifications (5 A*-C GCSEs or the vocational equivalent) where the employee already holds a qualification at that level.

The National Skills Strategy Skills for Growth (November 2009), set out the Government's intention to focus their substantial investment through Train to Gain on areas of high growth and ensure a greater level of co-funding by employers. The emphasis will therefore be on fully supporting employers to upskill their employees, with employers contributing the costs where their staff need to reskill.

Winter Fuel Payments

Steve Webb: To ask the Secretary of State for Work and Pensions (1) whether her Department has made an estimate of the cost in real terms of extending the winter fuel payment to people *(a)* receiving the higher rate mobility component of disability living allowance and *(b)* receiving the higher rate care component of disability living allowance because they are terminally ill, who otherwise would not be entitled to it, in each of the next six years; and if she will make a statement; [316495]

(2) if she will estimate the cost to the public purse in real terms of paying winter fuel allowance in respect of all children aged under five years old in receipt of the higher care component of disability living allowance in each of the next five years. [316496]

Jonathan Shaw: It is not possible to identify these costs as it is not possible to identify disability living allowance customers who would not be entitled to a winter fuel payment because they are living in households that already receive a winter fuel payment.

Disability living allowance is specifically designed to help meet the extra costs of disability, including heating.

Winter Fuel Payments: Rotherham

Mr. MacShane: To ask the Secretary of State for Work and Pensions how much has been paid out in winter fuel payments to eligible households in Rotherham in winter 2009-10. [317109]

Angela Eagle: For winter 2008-09 (the last winter for which information is available) we spent £3.4 million on Winter Fuel Payments in Rotherham.

Notes:

1. Expenditure figures are rounded to the nearest £0.1 million
2. Parliamentary constituencies are assigned by matching postcodes against the relevant Office for National Statistics postcode directory.

Winter Fuel Payments: Stroud

Mr. Drew: To ask the Secretary of State for Work and Pensions what estimate she has made of the number of householders in Stroud constituency who will receive *(a)* £250 and *(b)* £400 winter fuel payment in 2009-10. [317086]

Angela Eagle: Information on the number of households in Stroud which received winter fuel payments for winter 2008-09 (the last year for which information is available) is in the House of Commons Library.

Mr. Drew: To ask the Secretary of State for Work and Pensions how many pensioners in Stroud constituency are in receipt of winter fuel allowance; and how much her Department paid to such pensioners in winter fuel allowances in 2009. [317087]

Angela Eagle: In winter 2008-09 (the last winter for which information is available) 25,540 people in Stroud received a winter fuel payment, at a cost of £5.4 million.

Notes:

1. Payment figures are rounded to the nearest ten
2. Expenditure figures are rounded to the nearest £0.1 million
3. Parliamentary constituencies are assigned by matching postcodes against the relevant Office for National Statistics postcode directory.

JUSTICE

Drugs: Sussex

Norman Baker: To ask the Secretary of State for Justice pursuant to the answer of 10 December 2009, *Official Report*, column 618W, on drugs: Sussex, how many people were found guilty of offences of drug *(a)* possession and *(b)* dealing in (i) Sussex and (ii) Lewes constituency in 2008. [317036]

Claire Ward: The number of persons found guilty at all courts in the Sussex police force area for offences of possession, and supplying or offering to supply, a controlled drug in 2008 (latest available) is shown in the following table.

Data are not available at parliamentary constituency level.

Data for 2009 are planned for publication in the autumn, 2010.

Number of persons found guilty at all courts in the Sussex police force area for offences of possession, and supplying or offering to supply, a controlled drug. 2008[1, 2]

Offence description	*2008*
Having possession of a controlled drug	752
Having possession of a controlled drug with intent to supply	165
Supplying or offering to supply a controlled drug	107

[1] The statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Justice Statistics Analytical Services—Ministry of Justice.

Family Conciliation Services

Margaret Moran: To ask the Secretary of State for Justice (1) what recent representations he has received from agencies involved in child contact cases of the effects on children of compulsory mediation in such cases; and if he will make a statement; [318043]

(2) what estimate he has made the total savings to the public purse likely to accrue from the implementation of compulsory mediation as an alternative to court action in child contact cases. [318044]

Bridget Prentice: I have not received any representations regarding the effects on children of compulsory mediation in child contact cases. Family mediation in England and Wales is voluntary and I have not made any estimate of savings from the implementation of compulsory mediation.

On 20 January 2010, the Green Paper, Support For All: The Families and Relationships Green Paper, was published. Family mediation forms part of the consultation process as the Government are seeking views about whether mediation assessment (not mediation in its entirety) should be made compulsory for parents who go to court to seek to resolve residence or contact disputes, where it is safe to do so.

At the same time, the Government announced a comprehensive review of the family justice system, which will report jointly to the Secretaries of State for Justice and Children, Schools and Families and the Welsh Assembly Government. The principle that 'the interests of the child should be paramount' will be at the heart of this review. The review will focus on the management and leadership of the family justice system and what can be done to promote informed settlement and agreement of family law cases outside of the court system. It will seek to learn from the experience of other jurisdictions and from research and will be supported by the appointment of an expert, external advisory group. The review will report in 2011.

Margaret Moran: To ask the Secretary of State for Justice in how many cases involving a child contact decision a court has granted contact against the wishes of the child subject to that decision in each of the last five years. [318050]

Bridget Prentice: Her Majesty's Courts Service does not record any information centrally on whether a court granted contact against the wishes of the child. Information on the wishes of the child could be obtained by inspection of individual case files only at disproportionate cost.

HMCS does record the total number of contact orders made. Table 1 shows the number of public and private law section 8 contact orders made in all tiers of court between the years of 2004 and 2008. 2008 is the latest full calendar year for which data are published. Statistics on contact orders made are published by the Ministry of Justice in the annual command paper "Judicial and Court Statistics", copies of which are available in the Library of the House and on the Ministry's website at:

http://www.justice.gov.uk/publications/judicialandcourtstatistics.htm

Table 1: Section 8 public and private law contact orders made in all tiers of court between 2004 and 2008

	Public	*Private*	*Total*
2008	2,568	76,759	79,327
2007	2,471	69,713	72,184
2006	1,848	62,672	64,520
2005	1,562	60,294	61,856
2004	2,045	70,169	72,214

Notes:

1. Figures presented are for England and Wales only.
2. Figures relate to the number of children subject to each application.
3. All tiers of court are represented in the answer; specifically the Family Proceedings Court, county court and High Court.
4. There are known data quality problems with the figures for the Family Proceedings Courts. A new data collection method, introduced in April 2007, has made some improvements to the completeness of the data.
5. Section 8 is the part of the Children Act 1989 that refers to contact orders, residence orders, prohibited steps orders and specific issue orders.
6. Public Law refers to Children Act 1989 cases where there are child welfare issues and a local authority, or an authorised person, is stepping in to protect the child and ensure they get the care they need.
7. Private Law refers to Children Act 1989 cases where two or more parties are trying to resolve a private dispute. This is commonly where parents have split up and there is a disagreement about contact with, or residence of, their children.
8. Due to changes in methodology and data collection methods over time, comparisons between years should be avoided.

Judicial and Court Statistics

National Offender Management Service: Manpower

Kelvin Hopkins: To ask the Secretary of State for Justice what steps the human resources department of the National Offender Management Service is taking to redress the imbalance in the terms and conditions of staff in the prison and probation services. [312572]

Maria Eagle: The prison and probation services operate within the framework of the National Offender Management Service (NOMS) Agency. For historical reasons the two services have different employment structures. Prison service staff are civil servants and are directly employed by the NOMS Agency. Probation service staff are not civil servants and are employed by a probation board or trust. It is recognised that there is a difference in the operational need of both services. This is reflected in their terms and conditions and different operational structures. Terms and conditions are kept under review in developing pay modernisation strategies for both services.

Paedophilia

Margaret Moran: To ask the Secretary of State for Justice how many convicted paedophiles there were in bail hostels in each of the last five years; and what his most recent estimate is of the number of convicted paedophiles in bail hostels. [318526]

Maria Eagle: The number of child sex offenders accommodated in approved premises (formerly known as probation and bail hostels) in England and Wales will vary from time to time. Statistical information about the offending history of offenders residing in approved premises at any one time is not collected centrally, although offenders' assessed level of risk of harm at the point of admission is.

Approved premises provide for enhanced and effective supervision of certain offenders. This would be much more difficult to achieve if such offenders were dispersed into less suitable accommodation in the community.

Prison Sentences

Alan Duncan: To ask the Secretary of State for Justice how many *(a)* UK, *(b)* Irish and *(c)* other European economic area nationals are serving a sentence of (i) mandatory life imprisonment, (ii) discretionary life imprisonment and (iii) imprisonment for public protection. [318048]

Maria Eagle: The following table shows the numbers of British, Irish and other EEA nationals serving mandatory life sentences, other life sentences (including discretionary life imprisonment) and indeterminate sentences for public protection (IPP) in prison establishments in England and Wales as at 30 June 2009. These are the latest available data.

	British nationals	*Irish nationals*	*Other EEA nationals*
Mandatory lifers	4,381	55	67
Other lifers	2,263	24	12
IPPs	4,882	38	63

The figures on mandatory and other lifers have been drawn from the prison IT system. The IPP figures were taken from the Public Protection Unit Database (PPUD) in the National Offender Management Service. The PPUD is a live database, updated on a regular basis. Data taken from the database on consecutive days will contain differences reflecting updates.

Both the prison IT system and the PPUD are administrative systems which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Prisoner Escapes

Chris Grayling: To ask the Secretary of State for Justice how many abscondees from each prison were foreign nationals in each year since 1997. [317636]

Maria Eagle: Figures on the number of foreign national prisoners who have absconded from each prison since 1997 are not available centrally and could be obtained only at disproportionate cost by accessing the individual record of each absconder.

A prisoner absconds if he or she absents themselves from prison without overcoming a physical security barrier such as that provided by fences, locks, bolts and bars, a secure vehicle or handcuffs. The rate of abscond from open prisons continues to fall and absconds are now at their lowest level since centralised reporting of this type of incident began in 1995.

Foreign nationals, including those subject to enforcement proceedings under the Immigration Act, must be risk assessed for open conditions in the same way as all other prisoners but with the additional requirement that the UK Border Agency is asked to contribute any information which might indicate an increased risk of abscond.

Prisoners

Mr. Evans: To ask the Secretary of State for Justice whether his Department has implemented programmes for the purposes of de-radicalising prisoners who are serving sentences for terrorism offences. [317014]

Maria Eagle: The National Offender Management Service (NOMS) is taking forward a wide-ranging programme of work to manage the risks of violent extremism and radicalisation among offenders. Part of this programme includes work to research, develop and evaluate potential intervention approaches.

Given the comparatively low numbers of terrorist offenders and the different motivations and behaviours they present in relation to their offending, it is difficult to identify with statistical significance and reliability factors associated with terrorist offending or reoffending. Therefore prison and probation staff need to use all available sources of evidence to assess the risk of serious harm or reconviction which terrorist offenders pose, and to identify appropriate intervention strategies.

For any intervention to be effective it will need to target the reasons why people offend which are different for each individual. There are currently no group work programmes specifically accredited for use with those convicted of offences related to terrorism. NOMS is working to understand the potential use of a wide range of intervention strategies which may help combat violent extremist offending and address the criminogenic factors of the individual violent extremist offender.

Prisoners' Discharge Grants

Mr. Grieve: To ask the Secretary of State for Justice how much his Department spent on subsistence payments to offenders on end of custody licence in *(a)* 2007-08, *(b)* 2008-09 and *(c)* 2009-10. [317125]

Mr. Straw: The available information on the subsistence payments to offenders on end of custody licence in *(a)* 2007-08, *(b)* 2008-09 and *(c)* 2009-10 is as follows:

	1 July to 31 March 2007-08	*2008-09*	*1 April to 30 September 2009-10*
Paid by DWP on behalf of the National Offender Management Service	859,199.74	2,270,140.29	1,363,313.05
Paid direct by prison establishments	2,405,446.00		74,292.17

Prisoners released on End of Custody Licence, ECL, are paid subsistence in place of benefits. This subsistence payment is necessary to ensure that during their period of ECL they are able to purchase food and meet essential living expenses. Sentenced prisoners known to have over £500 in personal funds do not receive any subsistence payments.

When the ECL scheme was first introduced, offenders released for the maximum of 18 days received their subsistence payments in instalments through the Department of Work and Pensions (DWP), which made payments on behalf of the Ministry of Justice. Prisoners released for less than 18 days were paid in full by prisons on release. From 23 June 2008, payment in instalments by DWP was extended to prisoners spending 15 days or more on ECL. From 15 December 2008, payment in instalments by DWP was further extended to offenders spending eight days or more on ECL. The advantage of the system of payments through DWP is that prisoners receive their subsistence in instalments rather than in a single lump sum.

It is not possible to break down the amount paid directly by prison establishments between 2007-08 and 2008-09. The available information has been collected manually from all prison establishments and may be subject to a margin of error. In addition, figures for payments by prisons in January-March 2009 cannot be identified and an estimated element has been included for these.

Prisoners Release: Reoffenders

Alan Duncan: To ask the Secretary of State for Justice pursuant to the answer of 11 January 2010, *Official Report*, column 792W, on prisons: release, how many of the 12 serving ex-prisoners who have not been back into the criminal justice system since their release in error have committed further offences; what the original offence was for which each was convicted; and what proportion of the original sentence each had served at the date of release. [318052]

Maria Eagle: Only one of the 12 offenders listed as follows is shown on the police national computer as having committed a further offence (theft/fraud) or is wanted for anything other than the release in error.

Prisoner discharge can be a complex area and the following table and associated notes reflect this complexity. Despite this the number of releases in error is small, accounting for fewer than 0.05 per cent. of discharges from prison.

The following table shows the details of the 12 offenders who had not been accounted for at the time of my answer of 11 January 2010. Since then, four of these 12 offenders have been returned to custody or have appeared in court and resolved the outstanding issue.

Individual offenders released in error according to offence and proportion of sentence served at time of release

Offence	*Proportion of sentence served (percentage)*
Drug Production	[1]100
Other Motoring	[1]100
Breach of Bail	[2]100
Wounding	41
Fine Default	50
Fine Default	50
Burglary	[3]n/a
Breach Community Service Order	n/a
Fine Default	[4]100
Wounding	[4]98
Common Assault	[4]100
Theft	[4, 5, 6]n/a

[1] Served all of sentence but released in error because offenders were due to be interviewed by another law enforcement agency.

[2] Served all of sentence but released in error because offender was due to appear in court on further charges.

[3] Sentence length not applicable—remand prisoner released in error prior to trial.

[4] Four offenders have since appeared in court or been returned to custody to resolve the outstanding error.

[5] Served all of current sentence but released in error because he had, prior to the current sentence, served a previous period in prison. He had been released on licence to serve the remainder of that earlier sentence in the community. While he was serving his second sentence it had been decided that he should serve some or all of the remaining period of the earlier sentence in prison. He was released in error before that could happen. The additional period he could have served would have been subject to the view of the Parole Board. That period could have been up to a maximum of a further one year and one day.

[6] Committed further offence of theft/fraud since release in error but is now back in custody.

These figures have been drawn from live administrative data systems which may be amended at any time. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system.

Prisons: Construction

Alan Duncan: To ask the Secretary of State for Justice in what locations his Department intends to provide the 3,500 further prison places announced for 2010; how many will be *(a)* part of new-build prisons, *(b)* additions to existing prisons and *(c)* refurbished disused cells in existing prisons; and how many will have been brought on stream at the end of each month in 2010. [318053]

Maria Eagle: In total, over 3,600 places are currently planned for delivery in 2010 as part of the Core Capacity Programme. Over 500 of these places have been provided through the more efficient use of cellular accommodation.

The following table shows the locations of the new places to be provided in new prisons, expansions on existing sites and through cell reclaim schemes:

	Location	*Places*	*Accommodation type*
Littlehey[1]	Cambridgeshire	480	New build
Swaleside[1]	Kent	176	Expansion
Wymott[1]	Lancashire	16	Cell reclaim
Lowdham Grange	Nottinghamshire	260	Expansion
Exeter	Devon	8	Cell reclaim
Holme House	Cleveland	180	Expansion
Nottingham	Nottinghamshire	344	Expansion
Birmingham	West Midlands	10	Cell reclaim
Bure	Norfolk	264	Conversion[2]
Hollesley Bay	Suffolk	20	Cell reclaim
Elmley	Kent	190	Expansion
Feltham	London	34	Cell reclaim
Isis	London	480	New build
Moorland	South Yorkshire	23	Cell reclaim
Wealstun	West Yorkshire	300	Conversion[3]
Buckley Hall	Lancashire	60	Expansion
Parc	South Wales	330	Expansion

[1] Already delivered.

[2] Final phase of opening of new prison Bure. Not new build but a conversion of the former RAF Coltishall.

[3] Places created through conversion of open accommodation to closed conditions.

The following table shows how many of these places are currently planned for delivery in each month in 2010. The number of places delivered in each month may be subject to change.

	Number of places
January	672
February	268
March	534
April	284
May	224
June	0
July	480
August	23
September	0
October	300
November	60
December	330

Terrorism: Compensation

Mr. Ellwood: To ask the Secretary of State for Justice what his policy is on the retrospective provision of financial support to British citizens who have been subject to terrorist acts overseas. [318203]

Claire Ward: The Government have tabled amendments to the Crime and Security Bill to establish a Victims of Overseas Terrorism Compensation scheme. This will be a forward looking scheme. In accordance with the long standing general principle that the Government and Parliament do not legislate retrospectively, the new scheme will only apply to designated terrorist attacks that take place on or after 18 January 2010 (that is, the date on which the scheme was announced). However, we appreciate that there will be victims of overseas terrorist attacks in recent years who continue to face hardship as a result of the on-going consequences of a disability arising from injuries sustained in such an attack. In recognition of this, the Government have announced plans to provide financial assistance to eligible victims of overseas terrorist attacks since 1 January 2002 who are in such a position. Although separate from the Victims of Overseas Terrorism Compensation scheme, the introduction of these non-statutory arrangements is subject to the passage of the provisions in the Crime and Security Bill.

Further details will be announced shortly.

Victim Support: Hounslow

Alan Keen: To ask the Secretary of State for Justice how much funding has been allocated to victim support in the Hounslow constabulary area in each year since 1996. [316688]

Claire Ward: Prior to 2001 records of specific allocation of how Victim Support decided to allocate Government funding, broken down into areas, is not available. The following table gives the detail of the allocation of Government funding to Hounslow from 2001 to date. In 2004-05, Hounslow joined the Middlesex region and London thereafter in 2008-09.

	Victim Support region	*Funding allocated to Hounslow (£)*	*Total government funding to Victim Support (£ million)*
1996-97	Hounslow and Feltham	n/a	11.7
1997-98	Hounslow and Feltham	n/a	12.7
1998-99	Hounslow and Feltham	n/a	12.7
1999-2000	Hounslow and Feltham	n/a	17.5
2000-01	Hounslow and Feltham	28,803	18.6

Young Offenders

Mr. Burrowes: To ask the Secretary of State for Justice how many young offenders received remand decisions of *(a)* conditional bail, *(b)* unconditional bail, *(c)* local authority accommodation and *(d)* custody in each youth offending team area in the last six month period for which figures are available. [317575]

Maria Eagle: The following table shows the number of remand decisions of *(a)* conditional bail, *(b)* unconditional bail, *(c)* local authority accommodation and *(d)* custody in each youth offending team area during the six-month period from October 2008 to March 2009.

The data have been supplied by the Youth Justice Board and have been drawn from administrative IT systems, which, as with any large-scale recording system, are subject to possible errors with data entry and processing and may be subject to change over time. Differences in counting rules may mean that figures from other databases are not directly comparable.

Remands of young people under 18, October 2008 to March 2009

NORTHERN IRELAND

Departmental Energy

Andrew Stunell: To ask the Secretary of State for Northern Ireland what the estimated *(a)* amount and *(b)* cost was of energy used in his Department and its agencies in each year since 1997; what proportion of the energy used was generated from renewable sources in each of those years; and if he will make a statement. [317230]

Paul Goggins: The information requested is contained in the following tables.

Northern Ireland Office Core

	Total energy Kwh	Total cost (£)	Percentage of electricity purchased generated from renewable sources	Biomass Kwh
2004-05	4,216,520	174,877	12	0
2005-06	5,625,286	253,901	19	0
2006-07	4,852,080	309,608	17	0
2007-08	5,660,863	347,854	18	0
2008-09	3,446,157	377,179	16	43,200

Public Prosecution Service

	Total energy usage	
	Kwlh	£
2004-05	174,9371	122,620
2005-06	2,082,376	190,063
2006-07	3,024,459	281,620
2007-08	3,276,114	341,330
2008-09	3,281,271	303,600

Crown Solicitor's Office

	Total energy usage	
	Fuel (Oil) (£)	Electric (£)
2004-05	9,453	10,774
2005-06	5,535	6,366
2006-07	11,441	16,506
2007-08	6,696	9,071
2008-09	19,595	13,065

Northern Ireland Prison Service

	Total Kwlh	Total (£)	Percentage green electricity	Total renewable
2004-05	42,610,301	2,134,684	15	4.1
2005-06	55,708,772	2,530,790	20	4.4
2006-07	58,238,073	2,941,982	20	4.4
2007-08	58,631,316	3,169,019	20	4.5
2008-09	60,377,730	4,273,141	100	23.0

Forensic Science Northern Ireland

	Total energy usage	
	Kwlh	£
2006-07	2,048,872	98,892
2007-08	1,999,447	92,285
2008-09	2,325,183	139,595

Youth Justice Agency

	Total energy usage	
	Kwlh	£
2004-05		206,525
2005-06		246,966
2006-07		359,759
2007-08		255,494
2008-09		380,590

The Compensation Agency's best estimate is that the energy costs since 1997 directly paid have been £10,000 per annum.

Weapons

David Simpson: To ask the Secretary of State for Northern Ireland when he expects the Independent International Commission on Decommissioning to publish an inventory of decommissioned terrorist weapons, explosives and materials. [318274]

Paul Goggins: The decommissioning arrangements ended in the United Kingdom on 9 February 2010 and end in Ireland on 25 February 2010. The Independent International Commission on Decommissioning (IICD) will shortly provide both Governments with a report on the decommissioning which has taken place in the last six months. I will place copies of that report in the Libraries of both Houses. I am discussing with the Irish Government and the IICD arrangements to conclude the work of the IICD.

DEFENCE

Defence Medical Services: Manpower

Sir Menzies Campbell: To ask the Secretary of State for Defence with reference to the answer of 21 October 2009, *Official Report*, column 1468W, on Defence Medical Services: manpower, when a copy of the October 2009 figures will be placed in the Library. [310002]

Mr. Kevan Jones: I apologise for the delay in responding to this question.

The latest available data are summarised in the following table:

Defence Medical Service Regulars: Manning as at 1 October 2009

	Requirement	Trained strength	Shortfall (percentage)
Medical officers	818	476	42
Nurses	1,900	1,500	21
Medical support services	4,083	3,882	5
Dental officers and allied dental healthcare professionals	777	764	2
Total	7,578	6,622	13

Notes:

1. Requirement excludes the manning and training margin.
2. Trained strength only includes personnel that are qualified in their speciality.
3. 'Medical support services' include the paramedics cadre.
4. Dental officers and allied dental healthcare professionals includes dental practitioners, dental support officers, dental surgery assistants and dental technicians.

It has been decided that detailed data will no longer be published where this would highlight potential pinch points within the armed forces, including the Defence Medical Services. I am withholding information on pinch points as its disclosure would, or would be likely to prejudice the capability, effectiveness or security of the armed forces.

In order to maintain appropriate external scrutiny of such data, the Department will continue to provide comprehensive restricted manning data to the House of Commons Defence Committee.

Departmental Manpower

Mr. Philip Hammond: To ask the Secretary of State for Defence what estimate he has made of the proportion of staff of *(a)* his Department and *(b)* its agencies managed out in the last five years who remain working in the public sector. [313843]

Mr. Bob Ainsworth: This information is not held in the format requested and could be provided only at disproportionate cost.

Departmental Public Expenditure

Dr. Fox: To ask the Secretary of State for Defence what estimate he has made of his Department's expenditure on urgent operational requirements in 2009-10. [314472]

Mr. Bob Ainsworth: We have recently raised our 2009-10 Urgent Operational Requirements estimate to £936 million. The precise in-year spend will not be known until after the end of the financial year but we are currently forecasting that we will spend close to, but below, the estimate.

Nuclear Submarines: Decommissioning

Willie Rennie: To ask the Secretary of State for Defence what recent estimate he has made of the total cost of the interim storage of laid-up submarines project. [318369]

Mr. Quentin Davies: I refer the hon. Member to the answers I gave on 24 November 2009, *Official Report*, column 54W and on 30 November 2009, *Official Report*, column 418W.

Willie Rennie: To ask the Secretary of State for Defence (1) what recent estimate he has made of the whole-life cost of the submarine dismantling project; [318412]

(2) what recent estimate he has made of the cost to the public purse of the submarine dismantling project in *(a)* Rosyth Dockyard and *(b)* Devonport Dockyard. [318413]

Mr. Quentin Davies: The project currently has approval to undertake a £14 million assessment phase due to complete in 2011. This will be followed by the demonstration phase, which will run from 2011 to 2013; costs for this phase have not yet been approved. Whole life cost figures will be developed as part of the preparation of the main gate business case, which is planned to be submitted for approval in 2013.

The development of the costs associated with different project options, including site options, will form a part of this work.

Willie Rennie: To ask the Secretary of State for Defence (1) what assessment his Department has made of the merits of using the site at Sellafield for the *(a)* submarine dismantling and *(b)* radioactive waste storage elements of the submarine dismantling project; [318414]

(2) what sites his Department is considering to use for the *(a)* submarine dismantling and *(b)* radioactive waste storage elements of the submarine dismantling project. [318415]

Mr. Quentin Davies: There are currently four regions where there are MOD or defence-related commercial sites that are likely to be considered for submarine dismantling project activities. These regions are Devon, Fife, Argyll and Bute and Berkshire. A number of briefings to elected representatives in these regions have already been carried out, including to the hon. Member, and others have been scheduled.

The project is at an early stage in the process to develop an effective public consultation and associated strategic environmental assessment. This work has included identification of existing nuclear sites, both defence and civil, that are technically capable of submarine dismantling or storing the resultant radioactive waste. At this stage, two sites have been identified that could be technically capable of carrying out dismantling activities and 12 sites have been identified that could be technically capable of carrying out waste storage. Technical capability is only one aspect and the wider suitability of sites has not yet been assessed.

Further analysis work is still required and, until the public consultation is complete, no decisions will be taken on sites for either submarine dismantling or waste storage. I am withholding details of the individual sites identified at this time, as the MOD intend to publish this information in the future as part of the planned public consultation and strategic environmental assessment.

Willie Rennie: To ask the Secretary of State for Defence what assessment his Department has made of the technical barriers to the *(a)* submarine dismantling and *(b)* radioactive waste storage elements of the submarine dismantling project. [318416]

Mr. Quentin Davies: No technical barriers have been identified that would prevent either submarine dismantling or radioactive waste storage from taking place. Most technical aspects of the work have already been demonstrated elsewhere, either in other industry sectors, particularly the civil nuclear sector, or through other countries' work on dismantling nuclear submarines.

We continue to work closely with a range of organisations, including both industry and Government, in the UK and elsewhere, to ensure that we develop appropriate technical solutions that are both safe and effective.

INTERNATIONAL DEVELOPMENT

Developing Countries: Overseas Aid

Andrew Stunell: To ask the Secretary of State for International Development how much his Department has spent in each developing country on promoting good governance in 2009-10 to date; and how much it spent in (a) 2007-08 and (b) 2008-09. [317199]

Mr. Michael Foster: The Department for International Development (DFID) spent £688,453,000 in 2007-08 and £684,014,000 in 2008-09 bilaterally on promoting good governance. The figure for 2009-10 is not yet available.

DFID supports a broad definition of good governance and the above figures include funding for elections, civil society strengthening, security sector reform, post-conflict peace building, legal and judicial development, corruption and public sector financial management.

DFID bilateral spend by country, by sector and by year is available on DFID's website at:

http://www.dfid.gov.uk/About-DFID/Finance-and-performance/Aid-Statistics/Statistics-on-International-Development-2009

Andrew Stunell: To ask the Secretary of State for International Development how much funding his Department has allocated to supporting Parliaments in developing countries in 2009-10 to date; and how much funding it allocated in *(a)* 2007-08 and *(b)* 2008-09. [317200]

Mr. Michael Foster: The Department for International Development (DFID) supports Parliaments in our partner countries as part of our overall support to governance. We do not track absolute values of support to Parliaments within this category. DFID bilateral aid for promoting good governance totalled £688,453,000 in 2007-08 and £684,014,000 2008-09. The figure for 2009-10 is not yet available.

Remittances

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development pursuant to the answer of 25 November 2009, *Official Report*, columns 229-30W, on remittances, what information he sought from offices of his Department in African countries on remittance flows in the last quarter of 2009-10. [316927]

Mr. Thomas: The Department for International Development (DFID) does not independently compile data on remittances. We monitor trends in remittance flows using data compiled by the World Bank, which sources its information directly from Central Banks. Based on the information currently available, the World Bank is expecting remittance flows to Sub-Saharan Africa in 2009 to have remained stable at 2008 figures of $21 billion.

HEALTH

Blood

Mr. Gerrard: To ask the Secretary of State for Health what provisions exist in the NHS blood and transplant contract in respect of the re-sale of blood and blood components by private hospitals; and on what date the contract entered into force. [317272]

Gillian Merron: The current NHS Blood and Transplant contract for the supply of blood to hospitals stipulates that blood components, whether purchased directly or on behalf of a third party, must not be sold on for a profit. This contract came into force on 1 April 2008, and runs until 31 March 2011. Current contractual arrangements allow hospitals to supply blood to other NHS or private hospitals and pass on the costs, provided no profit is made.

Crimes of Violence: Females

Mrs. May: To ask the Secretary of State for Health how much funding has been allocated to his Department's taskforce on the health aspects of violence against women and girls in 2009-10. [316956]

Ann Keen: The Department has allocated approximately £335,000 to the taskforce on the health aspects of violence against women and girls in 2009-10. This funding has paid for a series of detailed focus groups to explore the experiences of women and children who are victims of violence and the national health service response, employment of staff, a literature review, publication of associated reports and ongoing support for the running of taskforce itself.

Health Protection Agency

Robert Key: To ask the Secretary of State for Health if he will place in the Library a copy of the consultants' reports on *(a)* the outline business cases for the Porton Down and Terlings Park options and *(b)* the preferred option analysis for the Centre for Emergency Preparedness and Response Developments at Terlings Park or at Porton Down. [318206]

Gillian Merron: The documents to which the hon. Member refers have not been submitted to the Department.

The Department does not disclose business cases, such as this, which contain commercially sensitive information.

Health Protection Agency: Location

Jim Cousins: To ask the Secretary of State for Health what arrangements are being made for the relocation of Health Protection Agency staff and activities from Newcastle General Hospital, Newcastle; and how many such *(a)* staff and *(b)* activities have so far been relocated and to each site. [318000]

Gillian Merron: The Health Protection Agency's (HPA's) clinical microbiology activity at Newcastle is to be transferred to other national health service accommodation in Newcastle as a result of redevelopment plans for Newcastle General Hospital. No clinical microbiology staff or activities have yet been transferred.

The HPA's Food, Water and Environmental Unit at Newcastle is transferring to Leeds as part of a phased transfer. Three senior staff will transfer to Leeds or will work remotely, as part of this transfer. The remainder of the staff have been offered alternative employment within the Newcastle Clinical laboratory and will re-locate with these units to sites within Newcastle Trust. The HPA is aiming to complete this process by 31 March.

Health Protection Agency: Porton Down

Mr. Stephen O'Brien: To ask the Secretary of State for Health if he will place in the Library a copy of the terms of the Health Protection Agency's (HPA) recommendation to his Department to close the HPA site at Porton Down. [318172]

Gillian Merron: The Health Protection Agency has made no recommendation to the Department to close its site at Porton Down. The Department does not disclose business cases, such as this one, which contain commercially sensitive information.

Muscular Dystrophy

Richard Younger-Ross: To ask the Secretary of State for Health if he will take steps to increase the number of centres for the treatment of Duchenne muscular dystrophy. [316865]

Ann Keen: It is the responsibility of local health bodies to ensure they have appropriate facilities available for the care of those living with Duchenne muscular dystrophy.

Neuromuscular services, including those for muscular dystrophy, are included within the Adult Neurosciences Chapter of the Third Edition of the Specialised Services National Definitions Set (SSNDS). SSNDS helps hospitals to provide soundly based costings and commissioners to effectively plan, procure and monitor specialised services activity. The third edition of the set will improve the precision and coverage of the definitions, incorporating the most up to date diagnosis and intervention codes to make the SSNDS as comprehensive as possible.

The National Specialised Commissioning team has brought to Specialist Commissioning Groups attention the key issues arising from the Muscular Dystrophy Campaign ongoing awareness campaign.

The Government's National Service Framework (NSF) for Long-term Conditions focuses on improving the standard and quality of services for people with neurological conditions including muscular dystrophy. The aim of the NSF is to ensure all those with these conditions will get faster diagnosis, more rapid treatment and a comprehensive package of care.

Prostate Cancer: Medical Treatments

Christopher Fraser: To ask the Secretary of State for Health how many people with a diagnosis of prostate cancer were recorded as having received treatment by *(a)* watchful waiting, *(b)* active surveillance, *(c)* radical prostatectomy, *(d)* laparoscopic prostatectomy, *(e)* robotic prostatectomy, *(f)* low-dose rate brachytherapy, *(g)* high-dose rate brachytherapy, *(h)* cryotherapy, *(i)* external beam radiotherapy, *(j)* hormone therapy, *(k)* high intensity ultrasound, *(l)* chemotherapy, *(m)* bisphosphonates and *(n)* another method in each primary care trust commissioning area of responsibility in each year since 1997-98. [317710]

Ann Keen: This information is not held in the requested format. We are not able to provide figures relating to watchful waiting, active surveillance, radical prostatectomy and bisphosphonates, as these are not captured in Office of Population Censuses and Surveys (OPCS)-4 codes.

We have provided a count of finished consultant episodes where the primary diagnosis was prostate cancer and this information has been placed in the Library.

Christopher Fraser: To ask the Secretary of State for Health how much has been spent on hormonal therapy prescriptions for prostate cancer in *(a)* England, *(b)* each primary care trust area and *(c)* each constituency since 2007. [317715]

Ann Keen: The information requested has been placed in the Library, apart from constituency information, which is not collected centrally.

The tables provide the net ingredient cost of prescription items dispensed in the community by primary care trust (PCT) and nationally. Information on usage in hospitals is available and has been included in the response for England but is not available at PCT level.

Swine Flu: Musgrove Park Hospital Taunton

Mr. Liddell-Grainger: To ask the Secretary of State for Health how many patients have been treated for symptoms of swine influenza at Musgrove Park Hospital, Taunton in the last 12 months. [317973]

Gillian Merron: The information is not available in the format requested. Such information as is available is collected at trust level. Musgrove Park Hospital is part of Taunton and Somerset NHS Foundation Trust. Taunton and Somerset NHS Foundation Trust has treated an estimated 62 in-patients with swine flu (H1N1 swabbed or clinically presumed) from 8 am 6 July 2009 to 8 am 11 February 2010. The Department did not collect data prior to 6 July 2009.

Turning Point

Mr. Stewart Jackson: To ask the Secretary of State for Health whether his Department has evaluated the effectiveness of the Turning Point charity's handling of the Connected Care programme on behalf of his Department; and if he will make a statement. [318199]

Phil Hope: Delivering Connected Care in Hartlepool is one of the Department's social enterprise pathfinder projects. The Department's 26 social enterprise pathfinder projects have been collectively evaluated but no specific evaluations of Turning Point in this regard was undertaken. The evaluation focused on the processes, barriers and enablers to social enterprise in the health and social care sector.

CABINET OFFICE

Central Office of Information: Contracts

Mr. Hurd: To ask the Minister for the Cabinet Office pursuant to the answer to the hon. Member for Bromley and Chislehurst (Robert Neill) of 5 January 2010, *Official Report*, column 101, on the Central Office of Information: public relations, if she will place in the Library a copy of the Building Britain's Future Urban Youth contract; which firm was awarded the contract; and what the monetary value is of the contract. [314846]

Tessa Jowell: Livity Ltd were engaged by Cabinet Office to work on communicating the themes in Building Britain's Future to young audiences. The total value of the contract was £20,000 (excluding VAT).

The Cabinet Office does not place contracts with its commercial suppliers in the Library as they are classified commercial in confidence. In this instance, the contract with Livity Ltd was drawn up by COI. The standard Terms and Conditions were those as per the COI's Cultural Diversity Framework. A copy of these has been placed in the Library. Future COI Framework Terms And Conditions will be published on the COI website when renewed.

Mr. Hurd: To ask the Minister for the Cabinet Office what the predicted monetary value is of the Branding lot of the Central Office of Information's Marketing and Brand Strategy Consultancy Framework; what contracts have been awarded under that lot; to which public bodies; and what estimate she has made of the total monetary value of all contracts under the Framework agreement. [315231]

Tessa Jowell: I have asked the Chief Executive of the Central Office of Information to write to the hon. Member.

Letter from Mark Lund, dated 8 February 2010:

As Chief Executive of the Central Office of Information (COI), I have been asked to reply to your Parliamentary Question [315231] asking for information regarding the Strategic Consultancy Framework.

There is no estimated monetary value of the Branding lot of the Central Office of Information's Marketing and Brand Strategy Consultancy Framework.

Two contracts have been awarded from the lot to Dept for Innovation and Shills and the National Fraud Authority Development Board.

The estimated total monetary value of all contracts under this Framework agreement is £13-14m over 4 years.

Mr. Hurd: To ask the Minister for the Cabinet Office what the predicted monetary value is of the Brand and Values lot of the Central Office of Information's Internal Communication, Engagement and Change Consultancy Framework; what contracts have been awarded under that lot; to which public bodies such contracts have been awarded; and what estimate she has made of the total monetary value of all contracts to be let under the Framework agreement. [315232]

Tessa Jowell: I have asked the Chief Executive of the Central Office of Information to write to the hon. Member.

Letter from Mark Lund, dated 2 February 2010:

As Chief Executive of the Central Office of Information (COI), I have been asked to reply to your Parliamentary Question [315232] on the Internal Communication, Engagement and Change Framework:

No contracts have been awarded under Lot 3 (Brand & Values) of the Internal Communications, Engagement and Change framework.

Total estimated monetary value of all contracts to be let under the duration (4 years) of the ICEC Framework Agreement is £9-10 million.

Departmental Computer Software

Mr. Maude: To ask the Minister for the Cabinet Office what her policy is in respect of the installation and use of *(a)* Internet Explorer, *(b)* Firefox and *(c)* Opera website browsers by Government Departments. [318248][1]

Angela E. Smith: Government policy regarding installation and use of web browsers is that all decisions must be in line with value for money requirements. In addition, the Open Source, Open Standards, Re-use strategy requires Departments to consider open source browsers such as Firefox and Opera on a level basis with proprietary browsers such as Internet Explorer. The strategy can be found at:

www.cabinetoffice.gov.uk/media/318020/open_source.pdf

Departmental Freedom of Information

Mr. Maude: To ask the Minister for the Cabinet Office pursuant to the answer of 29 January 2010, *Official Report*, column 1140W, on departmental correspondence, what her Department's policy is on the target for providing *(a)* an acknowledgement and *(b)* a substantive response to a request made under the provisions of the Freedom of Information Act 2000. [318340]

Tessa Jowell: Requests for information under the Freedom of Information Act 2000 are handled in accordance with the Act. Section 10 of the Act deals with the time for compliance with requests. Requests must be responded to promptly or in any event not later than 20 working days following receipt. In certain circumstances this 20 working day deadline can be extended.

Government Departments: Advertising

Anne Main: To ask the Minister for the Cabinet Office how much the Government has spent on advertisements for Government services on *(a)* television and *(b)* commercial radio since 2005. [317102]

Tessa Jowell: This information is not collected centrally. Each Government Department, agency and non-departmental public body is responsible for setting its own communications priorities and outputs, and each Secretary of State is responsible to Parliament.

While no central figures are held on the total Government communications spend, figures for Departments' expenditure through the Central Office of Information (COI) are shown in the COI Annual Report. Copies are available in the Libraries of the House. However these figures only provide a partial picture and do not distinguish between different advertising media.

Government Departments: Marketing

Mr. Hurd: To ask the Minister for the Cabinet Office with reference to page 16 of Smarter Government, Cm 7753, what the monetary value is of the planned reduction in marketing and communications spend; over what period the planned reduction is expected to take place; whether the reduction relates to *(a)* Central Office of Information expenditure and *(b)* departmental expenditure; and whether she expects there to be any reduction in the number of departmental press officers employed. [315280]

Mr. Byrne: I have been asked to reply.

The 2009 pre-Budget report announced that Government would save £650 million from cuts of 50 per cent. in consultancy spend and 25 per cent. in marketing and communications spend across Government by 2012-13. The 25 per cent. cut will be based on 2009-10 spending levels. It will be for individual Departments and arm's length bodies to decide their priority for future spending.

Homeworking

Greg Mulholland: To ask the Minister for the Cabinet Office what estimate she has made of the number of people who worked from home in *(a)* rural areas, *(b)* urban areas and *(c)* nationally in each year since 1997; and what proportion of the workforce this represented in each case in each year. [318424]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

A copy of the letter will be placed in the Libraries of the House.

---

[1] *[Official Report, 1 March 2010, Vol. 506, c. 12MC.]*

Iraq Committee of Inquiry

Mr. Dai Davies: To ask the Minister for the Cabinet Office if she will instruct the Cabinet Secretary to make available to the Iraq Inquiry the documents which Lord Goldsmith said he would wish to be made public during his appearance at the Inquiry on 27 January 2010. [317082]

Tessa Jowell: Government Departments have provided, or are in the process of providing, copies of all documents and electronic information they hold which the inquiry has so far requested. The Iraq inquiry has access to all Government papers it wants to see, including those referred to by Lord Goldsmith.

Publication of documents is a separate matter. Requests from the inquiry for declassification of documents are being handled in accordance with the protocol agreed between the Government and the inquiry, which is available on the Cabinet Office's website and a copy is in the Library of the House.

Non-profit Making Organisations

Margaret Moran: To ask the Minister for the Cabinet Office what criteria the Office of the Third Sector uses to evaluate the performance of *(a)* social enterprise networks and *(b)* regional development agencies against their objectives to develop social enterprise. [318161]

Angela E. Smith: The Office of the Third Sector (OTS) does not evaluate the performance of the social enterprise networks. OTS does, however, work closely with the regional social enterprise networks and the regional development agencies (RDAs), as well as the national social enterprise representative body, the Social Enterprise Coalition, of which the regional networks are members. OTS has recently committed to host and chair a regular working group of the regional social enterprise networks and the RDAs which will aim to share information and best practice on supporting social enterprise.

The OTS is investing £5.9 million over four years from 2007-08, to improve social enterprise business support in each of the nine English regions. In October 2008, a contractor was appointed to undertake a national evaluation of the project. A baseline report on the early stages of the programme is available on the OTS website where further reports leading up to the final report due in 2011 will also be published:

http://www.cabinetoffice.gov.uk/third_sector/news/news_stories/social_enterprise_business_support_baseline_report.aspx

The Cabinet Office is also funding the £6 million Social Enterprise Programme being delivered by Capacitybuilders, which aims to increase collaboration and knowledge sharing between social enterprise infrastructure and support services across the third sector.

Self-employed

Greg Mulholland: To ask the Minister for the Cabinet Office how many people were recorded as self-employed in *(a)* rural areas, *(b)* urban areas and *(c)* nationally in each year since 1997; and what proportion of the workforce this represented in each case in each year. [318425]

Angela E. Smith: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

A copy of the letter will be placed in the Libraries of the House.

Social Mobility Commission

Mr. Maude: To ask the Minister for the Cabinet Office how much funding has been allocated to the Social Mobility Commission; by what mechanisms its staff will be appointed; how many staff will be employed by that Commission; and what the terms of reference are of that Commission. [318120]

Angela E. Smith: In 'Unleashing Aspirations', published on 18 January 2010, the Government set out their response to the final report of the Panel on Fair Access to the Professions, and agreed to establish a Social Mobility Commission. It will give expert advice to Government and report on progress towards a fairer, more mobile society.

A transition team has been set up within the Cabinet Office to make the necessary preparations for this Commission. The transition team will develop the detail of the Commission's terms of reference, funding and work programme. It will also advise on the appointment of members and the selection criteria for any appointments to the Commission.

The budget for the Social Mobility Commission has yet to be established, and will form part of the consideration of the transition team.

Voluntary Organisations: Finance

Mr. Maude: To ask the Minister for the Cabinet Office whether funding allocated to the Futurebuilders has been re-allocated to the Third Sector Recession Action Plan. [318131]

Angela E. Smith: The Real Help for Communities Action Plan is partially funded, with Treasury permission, from a draw down on end-year flexibility which has been accumulated from under-spends in some OTS programmes, including Futurebuilders.

Funding was not reallocated from Futurebuilders to the Third Sector Recession Action Plan.

COMMUNITIES AND LOCAL GOVERNMENT

Community Development: Business

Justine Greening: To ask the Secretary of State for Communities and Local Government how much funding has been granted under the Local Enterprise Growth Initiative in each *(a)* local authority and *(b)* lower layer super output area in each year since 2000. [318265]

Ms Rosie Winterton: The Local Enterprise Growth Initiative follows closely the principles of devolution and provides eligible local authorities with the authority, freedom and flexibility to best determine the local needs and options, and use the funding in creative ways to support local priorities. Information is therefore not available for each lower layer super output area (LSOA).

I have placed in the Library of the House a table which provides details of LEGI allocations by local authority.

Community Development: Expenditure

Justine Greening: To ask the Secretary of State for Communities and Local Government how much funding has been granted under the New Communities Fund in each *(a)* local authority and *(b)* lower super output area in each year since 2000. [318212]

Ms Rosie Winterton: I refer the hon. Member to the answer I gave her on 10 February 2010, *Official Report*, column 1027W.

Justine Greening: To ask the Secretary of State for Communities and Local Government how much funding has been granted under the Inspiring Communities Grant in each *(a)* local authority and *(b)* lower super output area in each year since 2000. [318214]

Ms Rosie Winterton: Inspiring Communities has been designed as a two-year pilot for learning. Details of grant funding for the 15 projects are given as follows:

£

Local authority	*Lower super output areas*	*2009-10*	*2010-11*
LB Barking and Dagenham (Heath Ward)	E01000061	Up to 201,666	Up to 285,000

Council Housing: Property Transfer

Margaret Moran: To ask the Secretary of State for Communities and Local Government (1) what guidance he has issued to local authorities on the use of Community Land Trusts; [318535]

(2) what steps he plans to take to promote Community Land Trusts in urban areas; and if he will make a statement. [318536]

Mr. Ian Austin: The Government are committed to helping the development of Community Land Trusts (CLTs) that are well managed and financially robust.

To provide clarity about the nature of the CLT sector, we included a definition of a CLT in the Housing and Regeneration Act 2008.

We have supported a number of pilot CLT projects across the country through the Housing Corporation and its successor the Homes and Communities Agency (HCA). The HCA is exploring with local authorities the role that CLTs could play in meeting local housing need.

We have approved a £500,000 grant for Carnegie UK, supported by Community Finance Solutions, to develop the CLT sector by developing a sustainable network of training/guidance and support, and by engaging with lenders to facilitate access to finance for communities wishing to develop CLTs.

We have also funded the Development Trust Association to establish an asset transfer unit to help community organisations including CLTs to transform land and buildings into community assets.

Disadvantaged

Justine Greening: To ask the Secretary of State for Communities and Local Government what the level of deprivation in England was as measured by the Index of Multiple Deprivation for each individual indicator of deprivation in each *(a)* local authority and *(b)* lower layer super output area in each year since 2000. [318262]

Ms Rosie Winterton: The English indices of deprivation have, since 2004, been produced at lower level super output area (LSOA) level. LSOAs are smaller than wards and are designed to remain consistent in size, and over time, to allow more detailed identification of pockets of deprivation. There are 32,482 LSOAs in England with an average population of 1,500 people.

The indices are presented by ranking each area to show relative, rather than absolute levels of, deprivation. LSOAs are ranked from 1, most deprived, to 32,482, least deprived.

There are a selection of local authority level summary measures. The majority of the domains, and all the underlying indicators, are only published at LSOA level. For full details I refer to the publications on the Communities and Local Government website, as follows:

Indices of deprivation 2007 LSOA and Local Authority summaries can be found at:

http://www.communities.gov.uk/communities/neighbourhoodrenewal/deprivation/deprivation07/

Indices of deprivation 2004 LSOA and local authority summaries can be found at:

http://www.communities.gov.uk/archived/general-content/communities/indicesofdeprivation/216309/

Before this, the indices were produced for each electoral ward in England. Indices of deprivation 2000 ward summaries can be found at:

http://www.communities.gov.uk/archived/general-content/communities/indicesofdeprivation/indicesofdeprivation/

Empty Dwelling Management Orders: North East

Jim Cousins: To ask the Secretary of State for Communities and Local Government how many empty dwelling management orders there have been in each housing authority area in the North East region to date. [318825]

Mr. Ian Austin: In total 29 interim empty dwelling management orders have been issued to date. A residential property tribunal authorised the issue of one interim empty dwelling management order by South Tyneside council in March 2009.

Empty dwelling management orders should only be considered as a last resort, where all other measures of investigation and negotiation have been exhausted and the local authority has been unable to persuade the owner to bring the property back into use. In many cases the threat of an empty dwelling management order is sufficient to make owners take action.

Energy Performance Certificates

Grant Shapps: To ask the Secretary of State for Communities and Local Government what recent assessment his Department has made of the average cost to a certificate holder of a domestic energy performance certificate; and if he will make a statement. [316947]

Mr. Ian Austin: The cost of energy performance certificates (EPCs) is determined by the market. No information is therefore held centrally upon which to base an estimate of the average cost to building owners or landlords of having an EPC prepared on any property that they may own.

Government Offices for the Regions: Finance

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government what programme budgets of each sponsoring Government Department are administered by Government Offices for the Regions. [318508]

Ms Rosie Winterton: The programme budgets currently being administered by Government offices for the regions are as follows:

CLG

Regional Assembly Grant
Regional Housing Pot
Regional Chambers Fund
Local Area Agreements
Gypsy and Traveller Site Grant
Disabled Facilities Grant
European Regional Development Fund—Objectives 1 and 2
New Deal for Communities
Preventing Violent Extremism
PSA 16 Challenge Fund

DWP

European Social Fund—Objectives 1, 2 and 3

DCSF

GO Networking
CSA Support
CSA Secondee costs
Young London Matters
Manchester City Region
Child Poverty
Childcare Regional Networks
Local Delivery Support
14-19 Sub-regional Groupings Support
Youth Opportunities Fund
Youth Capital Fund/Capital Fund Plus
Teenage Pregnancy
Quality Protects and Education Protects

Cabinet Office

Regional Infrastructure Programme

Home Information Packs

Robert Neill: To ask the Secretary of State for Communities and Local Government pursuant to the answer to Lord Bates of 25 January 2010, *Official Report*, House of Lords, column 1190, on energy performance certificates, what the evidential basis is for the assessment that home information packs have *(a)* bedded down well and *(b)* proved to be a useful instrument to help purchasers. [317871]

Mr. Ian Austin: A survey by Connells estate agency in 2009 of more than 37,000 transactions showed that sales with HIPs go through seven days more quickly on average. Consumer research carried out by the Office of Fair Trading showed that a third of buyers were influenced by their HIP and found the new property information questionnaire to be the most useful component.

Homelessness

Grant Shapps: To ask the Secretary of State for Communities and Local Government (1) what guidance his Department has issued to local authorities on the provision of services to households which are designated intentionally homeless; [314657]

(2) what provision is made for emergency accommodation for households which are classified as intentionally homeless; [314658]

(3) how many households classified as intentionally homeless in each of the last three years included children; [314659]

(4) how many households classified as intentionally homeless were provided with emergency accommodation in each of the last three years; and how many such households were accommodated for more than *(a)* 28 and *(b)* 60 days; [314660]

(5) how many households in each local authority area were classified as intentionally homeless in each of the last three years; [314661]

(6) how many households in temporary accommodation were classified as intentionally homeless in each of the last three years; [314663]

(7) how many of the households in temporary accommodation were classified as intentionally homeless on the latest date for which figures are available. [314664]

Mr. Ian Austin: Chapter 11 of the "Homelessness Code of Guidance for Local Authorities", issued by the Secretary of State for Communities and Local Government in July 2006 under section 182 of the Housing Act 1996 ("the 1996 Act") provides guidance to local authorities on determining whether housing applicants became homeless, or threatened with homelessness, intentionally or unintentionally. Supplementary guidance on intentional homelessness, in respect of applicants who face homelessness following difficulties in mortgage commitments, was issued by the Secretary of State in August 2009 under s.182 of the 1996 Act. The guidance is available on the Department's website at the following link:

http://www.communities.gov.uk/publications/housing/homelessnesscode

Under section 190(2)(a) of the 1996 Act, where a local housing authority in England are satisfied that an applicant is eligible for assistance, has a priority need for accommodation but has become homeless intentionally, the authority must secure that accommodation is available for the applicant's occupation for such period as they consider will give the applicant a reasonable opportunity of securing accommodation for his or her occupation. Under section 190(2)(b), the authority must also provide the applicant with (or secure that the applicant is provided with) advice and assistance in any attempts the applicant may make to secure that accommodation becomes available for his or her occupation. Under section 188(1) of the 1996 Act, authorities also have a duty to secure accommodation for applicants, pending inquiries, if they have reason to believe the applicant may eligible for assistance, homeless and may have a priority need for accommodation. This duty will apply even if the authority has reason to believe the applicant may have become homeless intentionally.

Information about English local housing authorities' activities under the homelessness legislation (Part 7 of the Housing Act 1996) is collected at local authority level, and published by the Department in the quarterly statistical release on statutory homelessness, available both in the Library and via the CLG website:

http://www.communities.gov.uk/publications/corporate/statistics/homelessnessq32009

Under the legislation, the priority need categories include, among others, applicants with whom dependent children reside or might reasonably be expected to reside. Data collected include the number of applicants accepted by local housing authorities as eligible for assistance, in priority need but intentionally homeless.

The number of households found to be eligible for assistance, intentionally homeless and in priority need in the years 2006-07, 2007-08 and 2008-09 is 10,930, 9,560 and 8,890 respectively. Information about the number of these households that included children is not held centrally.

Information about the number of households found intentionally homeless and provided with emergency accommodation, and for how long they were accommodated, is not held centrally.

Data on households found to be eligible for assistance, intentionally homeless and in priority need are provided in live table 627 on statutory homelessness, which is published on the Department's website:

http://www.communities.gov.uk/documents/housing/xls/141476.xls

The number of households accepted as eligible for assistance, in priority need but intentionally homeless and accommodated in temporary accommodation for such period as will give the applicant a reasonable opportunity to secure accommodation was 1,370, 810 and 840 at the end of March 2007, March 2008 and March 2009, respectively. The latest quarterly data show 600 such households in temporary accommodation at the end of September 2009.

Housing

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government how much funding his Department has allocated to assist first-time buyers with property purchases in *(a)* 2008-09, *(b)* 2009-10, *(c)* 2010-11 and *(d)* 2011-12. [318507]

John Healey: I refer the hon. Member to the answer I gave to the hon. Member for Welwyn Hatfield (Grant Shapps) on 9 February 2010, *Official Report*, columns 866-68 W.

I also refer the hon. Member to the answer I gave to the hon. Member for Brent East (Sarah Teather) on 22 February 2010, *Official Report*, column 267W.

Housing: Construction

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government how many permanent dwellings of each tenure were constructed in England in each of the last 30 calendar years including 2009. [314943]

Mr. Ian Austin: The information requested is shown in live table 244 on the Communities and Local Government website at the following link:

http://www.communities.gov.uk/documents/housing/xls/1473581.xls

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many schemes scoring less than nine points under the Building for Life criteria were proposed for *(a)* private development and *(b)* social or affordable housing under the Kickstart programme. [316952]

Mr. Ian Austin: Under Round 1 of Kickstart, there were 67 schemes which the Commission for Architecture and the Built Environment (CABE) scored as less than nine points under the Building for Life criteria. Of these, 28 included funding for affordable housing. All 28 of these were characterised by either incomplete information being made available to CABE and/or a review of the schemes by the Homes and Communities Agency. The CABE assessments were used to highlight schemes where more attention was needed and were the basis for further assessment by HCA regional teams. The HCA regional teams were able to augment the CABE assessment with additional relevant local information, to reach their final decisions.

Further information on Round 1 of Kickstart, including a breakdown of scores under Building for Life, is available on the HCA website.

Immigration

Mr. Frank Field: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 10 February 2010, *Official Report*, column 1067W, on immigration, what the average annual projected change is in the number of households in England between 2006 and 2031 on the basis of the principal population projection; and what the equivalent average annual increase is using a zero net migration projection. [318419]

John Healey: The latest national household projections, based on the 2006 Sub-National Population Projections published by the Office for National Statistics, are published on the Communities and Local Government website and contain figures showing the components of household growth.

Landlords

Grant Shapps: To ask the Secretary of State for Communities and Local Government pursuant to his Department's news release of 3 February 2010 on tenants' protection, what plans his Department has for an online directory of landlords; what estimate he has made of the costs of establishing such a directory; whether such costs are to be entirely borne by his Department; when he expects the directory to begin operation; and if he will make a statement. [318751]

Mr. Ian Austin: Details of our plans for a national register of landlords are set out in the paper published alongside the 3 February announcement—"The private rented sector: professionalism and quality—consultation. Summary of responses and next steps". Estimated costs associated with the register, which will be met from registration fees, are provided in the relevant impact assessment published as part of the consultation exercise on the Government response to the Rugg Review—"The private rented sector: professionalism and quality"—which took place in the period 13 May to 7 August 2009. Both of these documents can be accessed through the Department's website.

Local Government Finance

Robert Neill: To ask the Secretary of State for Communities and Local Government what estimate he has made of the amount of area-based grant funding to be distributed to local authorities in *(a)* 2009-10, *(b)* 2010-11 and *(c)* 2011-12. [317983]

Barbara Follett: The amounts of area-based grant announced for 2009-10 and 2010-11 are £3,280,108,374 and £4,818,317,187 respectively.

Decisions about the amount of area-based grant in 2011-12 have not yet been made.

Local Government: Inspections

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government (1) what estimate his Department has made of the cost of *(a)* local authority reporting to central Government and *(b)* local government inspection by external inspectors and auditors; and what recent research his Department has (i) conducted and (ii) commissioned on this matter; [318504]

(2) what estimate his Department has made of the cost to central Government of inspecting local government; and what recent research his Department has *(a)* conducted and *(b)* commissioned on this matter. [318505]

Ms Rosie Winterton: This Department has made no such estimates. Assessment and inspection is carried out by a number of inspectorates, including the Audit Commission which is sponsored by Communities and Local Government (CLG). The cost to the Audit Commission of its assessment and inspection is covered by a mixture of the fees paid by local authorities and direct grant from CLG. In 2009-10, the grant from CLG for the Commission's local government and Fire and Rescue Authority work totalled £20.2 million.

This Department has not conducted or commissioned any research on these matters. However, the Audit Commission, on behalf of the joint inspectorates responsible for Comprehensive Area Assessment (CAA), commissioned an independent evaluation of CAA. This is looking at implementation and delivery of the new arrangements, co-ordination across inspectorates and the initial cost to inspected bodies under CAA. The evaluation report is expected to be published in March.

As part of the Government's Smarter Government White Paper, CLG are leading on commitments to remove indicators that are no longer relevant or needed by April 2010 and reducing the overall number of national indicators against which local authorities will have to report their performance for the next spending period. We are also running a number of Total Place pilots and have invited them to provide information on the costs of assessment and inspection. The Department is preparing a report on Total Place which it will issue at Budget 2010. HM Treasury is leading a review of the work and number of inspectorates, supporting the Government's aims to reduce the burdens connected to assessment and inspection.

Mining

Mr. Todd: To ask the Secretary of State for Communities and Local Government what plans he has to amend the provisions of policy guidance concerning coal mining and colliery spoil disposal. [317376]

Mr. Ian Austin: There is no current intention to review existing planning policy on coal mining and colliery spoil disposal.

Mortgages: Government Assistance

Bob Spink: To ask the Secretary of State for Communities and Local Government how many homeowners in Castle Point constituency are in receipt of assistance from the Homeowner Mortgage Protection scheme. [318098]

John Healey: For management information on homeowners mortgage support I refer the hon. Member to the answer I gave to the hon. Member for Meriden, (Mrs. Spelman) on 16 December 2009, *Official Report*, column 1297W. This information is not monitored at constituency level.

Neighbourhood Renewal Fund

Justine Greening: To ask the Secretary of State for Communities and Local Government how much funding has been granted under the Neighbourhood Renewal Fund in each *(a)* local authority and *(b)* lower layer super output area in each year since 2000. [318263]

Ms Rosie Winterton: Neighbourhood Renewal Fund (NRF) was allocated to eligible local authorities with the authority, freedom and flexibility to best determine the local needs and options. Information is therefore not available for how this was applied to each lower layer super output area (LSOA).

NRF ran from 2001-02 to 2007-08.

I have placed in the Library of the House, a table which records the NRF allocation for each local authority area in England from 2001 to 2008.

New Communities Fund

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government how much his Department has spent on *(a)* staffing, *(b)* administration and *(c)* publicity costs in respect of the New Communities Fund. [318277]

Ms Rosie Winterton: I refer the hon. Member to the answer I gave her on 23 February 2010, *Official Report*, column 474W.

Because of the decision in 2009 to reallocate resources from the New Communities Fund to other ministerial priorities, the costs incurred by the Department were for staff time spent in the development of options and discussions with stakeholders. It would incur disproportionate costs to provide this information.

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government how much his Department has spent on the New Communities Fund; and how many people have participated in the Fund since its inception. [318278]

Ms Rosie Winterton: I refer the hon. Member to the answer I gave her on 23 February 2010, *Official Report*, column 474W.

New Deal for Communities

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government how much his Department has spent on *(a)* staffing, *(b)* administration and *(c)* publicity costs in respect of the New Deal for Communities programme. [318276]

Ms Rosie Winterton: The information requested is not held centrally and could be provided only at disproportionate cost.

Non-profit Making Associations

Margaret Moran: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 2 February 2010, *Official Report*, column 254W, on non-profit making associations, what outcomes he anticipates from social enterprises and other third sector organisations allocated funding from his Department; and by what mechanisms his Department will measure the performance of social enterprises against targets in the next three years. [318400]

Barbara Follett: The Department provides funding which benefits over 150 third sector and social enterprise organisations. The outcomes of this funding vary in different localities and information on these is not held centrally. To gather it would involve disproportionate time and cost.

In line with greater decentralisation, the Department does not set performance targets for social enterprises. Where the Department directly funds and works with social enterprises, progress and performance are assessed against agreed work plans, milestones and budgets specifically tailored to the individual programme needs.

Property Development: Floods

Martin Horwood: To ask the Secretary of State for Communities and Local Government how many and what proportion of *(a)* new and *(b)* affordable homes were built in areas at risk from flooding in (i) 2006, (ii) 2007, (iii) 2008 and (iv) 2009. [318519]

Mr. Ian Austin: I refer the hon. Member to the answer given to the hon. Member for Welwyn Hatfield (Grant Shapps) on 19 January 2010, *Official Report*, column 295W.

Second Homes

Sarah Teather: To ask the Secretary of State for Communities and Local Government what recent estimate he has made of the number of second homes in *(a)* urban and *(b)* rural areas in England. [318484]

Barbara Follett: As at October 2009, there were 127,000 second homes in local authority areas classified as urban and 125,000 second homes in those classified as rural.

The data are as reported by all billing authorities on their annual council tax base (CTB) form. The split into urban and rural areas is based on the DEFRA rural definition and local authority classification. Full details of this can be found on the DEFRA website at:

http://www.defra.gov.uk/evidence/statistics/rural/rural-definition.htm

Social Rented Housing: Feltham

Alan Keen: To ask the Secretary of State for Communities and Local Government how many properties in Feltham and Heston constituency *(a)* have been improved under the Decent Homes programme in each year of the programme and *(b)* do not meet the Decent Homes standard. [316670]

Mr. Ian Austin: We cannot provide figures at constituency level. We do not hold a figure for the number of properties improved by the London borough of Hounslow each year under the decent homes programme. The number of non-decent homes each year is shown in the table.

Non-decent dwelling estimates—Hounslow

	Total stock	*Non-decent dwellings*	*Percentage non-decent*
2001	15,091	10,500	70
2002	14,892	10,499	71
2003	14,580	9,243	63
2004	13,879	5,258	38
2005	13,373	2,508	19
2006	12,899	0	0
2007	13,176	0	0
2008	12,942	0	0
2009	13,549	0	0

Source:
Annual returns to Communities and Local Government

Social Rented Housing: Tenants

Robert Neill: To ask the Secretary of State for Communities and Local Government (1) pursuant to the answer to the hon. Member for Peterborough of 27 January 2010, *Official Report*, columns 914-5W, on affordable housing, what steps the Tenant Services Authority is taking to assist social landlords with the sexual orientation surveys of tenants; [317873]

(2) pursuant to the answer to the hon. Member for Peterborough of 27 January 2010, *Official Report*, columns 914-5W, on affordable housing, if he will place in the Library a copy of his Department's guidance on the monitoring and evaluation systems; whether any additional funding has been allocated by his Department to local authorities to assist the monitoring and evaluation of the sexual orientation of tenants; whether completing such a form will be a condition of tenancy; and whether requirements will apply to social landlords to report the findings of their sexual orientation surveys to *(a)* his Department, *(b)* the Tenant Services Authority, *(c)* the Government Equalities Office and *(d)* the Equality and Human Rights Commission. [317874]

Mr. Ian Austin: There is no statutory requirement on social landlords to monitor or survey the sexual orientation of their tenants and no Government plans to make it a requirement on social landlords to report to any organisation data on the sexual orientation of their tenants. Consequently, no additional funding has been allocated to local authorities by Communities and Local Government specifically to assist with the monitoring and evaluation of the sexual orientation of their tenants.

The Government do not believe it would be appropriate to make it a requirement that tenants should provide information on their sexual orientation.

The guidance referred to in the answer to the hon. Member for Peterborough (Mr. Jackson) of 27 January 2010, *Official Report*, columns 914-5W, is statutory guidance on the allocation of social housing by local authorities ('Fair and Flexible', issued 4 December 2009). I have arranged for a copy of the guidance to be placed in the Library of the House.

Travelling People: Caravan Sites

Robert Neill: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Meriden of 19 January 2010, *Official Report*, column 297W, on travelling people: caravan sites, if he will place in the Library a copy of the *(a)* planning and enforcement appeal rulings made by the Planning Inspectorate that resulted in the appeal being granted in part or in full and *(b)* representations of 24 February 2009. [317813]

Mr. Ian Austin: Information in respect of *(a)* has been deposited in the Library of the House. This shows which of the 75 planning and enforcement appeals on the previous list have been allowed by the Planning Inspectorate either in part or in full. These decisions, for appeals lodged by Green Planning Solutions, can be retrieved from the Planning Portal on

http://www.pcs.planningportal.gov.uk/pcsportal/casesearch.asp

In respect of *(b)*, the meeting of the 24 February 2009 was arranged following general issues raised in procedural correspondence over a number of appeals. The agenda, summarised in my previous reply, has also been deposited in the Library of the House. I am advised that no formal notes were made during or after the meeting, but the meeting lasted for about an hour and discussion was general and related directly to the agenda items. No specific and current appeal casework was mentioned.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agriculture: Manpower

Mrs. Gillan: To ask the Secretary of State for Environment, Food and Rural Affairs how many people have been employed in the agricultural sector in each year since 1997. [318483]

Jim Fitzpatrick: Figures on the total agricultural labour force at June each year have been taken from DEFRA's annual June survey of agriculture and horticulture (see notes 1 to 6) and are set out as follows.

Total labour force including farmers and their spouses

	Number (thousand)
1997	417.0
1998	415.0
1999	397.2
2000	374.0
2001	368.3
2001[5]	386.7
2002[6]	371.6
2003	354.4
2004	367.5
2005	364.9
2006	361.0
2007	353.1
2008	360.1
2009	363.0

[1] Includes estimates for minor holdings.

[2] Estimates have been made for non-respondents.

[3] Figures exclude school children but include trainees employed under an official youth training scheme and paid at Agricultural Wages Board rates or above.

[4] The figures presented here are not comparable with earlier years' results due to the introduction of new questions in 1998.

[5] June 2001 results assuming register improvements had not taken place (comparable with June 2000).

[6] June 2001 results including register improvement (not directly comparable with June 2000).

Changes in labour force estimates

In 1998, fundamental changes were introduced to the labour questions on the June agricultural and horticultural census in England. It appears that this change in questions may have led to the recording of additional Labour who were not previously included in the returns.

We therefore advise caution when comparing the 1998 results with previous years. The June 2001 figures include estimates for holdings that have been converted from the temporary register. Further improvements to the register of agricultural holdings have also been made, mainly as a result of livestock tracing. As a result it is not possible to directly compare the June 2000 and June 2001 results. Furthermore, it is not possible to backdate the existing labour series as it is impossible to estimate how long the newly registered holdings have been in existence. However, the June 2001 results have also been calculated assuming the register changes had not taken place to provide comparable figures.

Clothing: Recycling

Jo Swinson: To ask the Secretary of State for Environment, Food and Rural Affairs what steps his Department is taking to encourage the development of an (*a*) industry-wide standard and (*b*) voluntary agreement for the collection, sorting, re-use and recycling of second hand clothing. [318517]

Dan Norris: DEFRA has co-ordinated the sustainable clothing roadmap, a voluntary industry initiative to improve the environmental and ethical performance of clothing. One aim of the roadmap is to increase re-use and recycling, including consideration of issues around collection and sorting. In association with industry and stakeholders, we launched the first sustainable clothing action plan to implement this roadmap in 2009.

The clothing roadmap and supporting research are available on DEFRA's website:

www.defra.gov.uk/environment/business/products/roadmaps/clothing/index.htm

Departmental Communication

Mr. Hurd: To ask the Secretary of State for Environment, Food and Rural Affairs whether his Department publishes an annual report on departmental communications. [315599]

Dan Norris: The Department does not publish an annual report specifically about communications. Communication is included as a separate item in the departmental annual report.

Departmental Energy

Andrew Stunell: To ask the Secretary of State for Environment, Food and Rural Affairs what the estimated (*a*) amount and (*b*) cost was of energy used in his Department and its agencies in each year since 1997; what proportion of the energy used was generated from renewable sources in each of those years; and if he will make a statement. [317205]

Dan Norris: The annual consumption and cost of energy used in buildings on the DEFRA and Executive Agency estate for the last five years is shown in the following table.

2008-09

	Total energy consumption (kWh)	*Electricity sourced from renewables (kWh) (percentage)*	*Total energy costs (£)*
DEFRA	21,522,953	98	1,510,199
AH (formerly SVS)	5,317,597	44	387,349
MFA (formed 1 October 2005)	404,273	25	29,754

Total	134,541,144	58	4,407,286

Notes:

MFA Data in 2005-06 is for the whole year, we are unable to split the data before and after the Agency was formed.

Key to table:

AH--Animal Health

MFA--Marine Fisheries Agency

RPA--Rural Payments Agency

CEFAS--Centre for Environment, Fisheries and Aquaculture Science

CSL--Central Science Laboratory

VLA--Veterinary Laboratories Agency

Departmental Housing

Sarah Teather: To ask the Secretary of State for Environment, Food and Rural Affairs what recent estimate he has made of the *(a)* potential annual rental and *(b)* total book value of the (i) empty and (ii) occupied residential properties owned by his Department. [313753]

Dan Norris: The Department's empty residential property has a combined potential annual rental value of £24,000. The Department's occupied residential property has a potential annual rental value of £222,100, which excludes a number of properties held as part of the letting of a larger holding.

The Department's empty residential property has a total book value of £207,000. The Department's occupied residential property has a total book value of £5,195,000.

Of those residential properties currently vacant, the houses are either actively being offered for sale or are already sold subject to contract.

Departmental ICT

Mr. Hurd: To ask the Secretary of State for Environment, Food and Rural Affairs how much his Department and its agencies have spent on font licensing in the last three years. [315477]

Dan Norris: There has been no departmental spend on font licensing in the last three years.

Detailed spend on font licensing by DEFRA agencies is not held centrally and could be collated only at disproportionate cost.

Departmental NDPBs

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs for how many non-departmental public bodies his Department is responsible. [314253]

Dan Norris: Information on the number of non-departmental public bodies (NDPBs) sponsored by my Department is published in the annual Cabinet Office report—"Public Bodies". "Public Bodies 2009" is available online at:

www.civilservice.gov.uk/ndpb

Copies have been placed in the Libraries of the House.

Departmental Temporary Employment

Grant Shapps: To ask the Secretary of State for Environment, Food and Rural Affairs which companies were contracted by his Department for the provision of temporary staff in each of the last three years; how many temporary staff were employed by his Department in each such year; and what the monetary value was of contracts with each such company in each such year. [317996]

Dan Norris *[holding answer 22 February 2010]:* The following tables provide information on the companies contracted for the provision of temporary staff in each of the last three years and the monetary value of the contracts with each company in each year. The number of temporary staff employed under these contracts is not held centrally and can be provided only at disproportionate cost.

Food: Schools

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what funding his Department has allocated for the creation of school allotments for the purpose of growing food; [318512]

(2) what steps his Department has taken to assist teachers in setting up food-growing schemes in schools. [318513]

Jim Fitzpatrick: The Government have supported the "Growing Schools" programme since 2001. The programme provides easy access to a wide range of curriculum-based resources and a comprehensive continuous professional development programme for teachers. In the last three years this has been funded at £350,000 per annum. It is up to schools to identify suitable space for food growing.

DEFRA announced in the Government's new Food Strategy (Food 2030), published in early January, that it would be providing further support to the programme. The new DEFRA funding will build the capacity of the programme and enable a further 65,000 pupils, parents and staff to gain hands-on experience of growing food. This will be included as part of a forthcoming tender exercise which will appoint the contractor for the next phase of the programme.

Newspaper Licensing Agency

Mr. Hurd: To ask the Secretary of State for Environment, Food and Rural Affairs what payments his Department's agencies made to the Newspaper Licensing Agency in each of the last 10 years. [315595]

Dan Norris: The following table shows payments made by the core Department to the Newspaper Licensing Agency in each of the last 10 years taken from central records.

	£
2000-01	18,837.93
2001-02	42,774.79
2002-03	6,961.88
2003-04	10,746.66
2004-05	54,678.12
2005-06	164,178.46
2006-07	172,749.73
2007-08	180,146.03
2008-09	185,114.84
2009-10	147,589.06

Rats: Greater London

Robert Neill: To ask the Secretary of State for Environment, Food and Rural Affairs with reference to the answer of 14 July 2009, *Official Report*, column 232W, on rats: Greater London, whether his Department holds a copy of the completed survey report for the period up to 2006. [317603]

Huw Irranca-Davies: The next report covering the period up to 2006 will be available soon. It has taken longer than anticipated to ensure comparability of analyses between years for the rodent data from the English House Condition Survey. This has delayed report publication beyond the previously indicated target of 2009.

Rural Payments Agency: Pay

Sammy Wilson: To ask the Secretary of State for Environment, Food and Rural Affairs how much has been paid in bonuses to staff at the Rural Payments Agency in each of the last five years. [318170]

Jim Fitzpatrick: I refer the hon. Member to the answer I gave to the hon. Member for Westmorland and Lonsdale (Tim Farron) on 27 January 2010, *Official Report*, columns 874-75W.

Textiles: Waste Disposal

Jo Swinson: To ask the Secretary of State for Environment, Food and Rural Affairs what steps his Department is taking to reduce the amount of textile waste going to landfill. [318518]

Dan Norris: The Government consider that landfill should be the last resort for most types of waste. We are assessing the case for restricting a number of biodegradable and recyclable wastes, including textiles, from landfill.

DEFRA and the devolved Administrations have commissioned further research on the options for landfill bans or restrictions in the UK, including the costs, benefits and practical implications. We will publish a consultation on these options in the coming weeks.

TREASURY

Bank Services: Local Government

John Mann: To ask the Chancellor of the Exchequer what discussions his officials have had with *(a)* local authorities and *(b)* representatives of the government of Iceland on local authority investments in Icelandic banks in 2010. [318454]

Sarah McCarthy-Fry: Treasury Ministers and officials have meetings with a wide variety of organisations in the public and private sectors as part of the process of policy development and delivery. As was the case with previous Administrations, it is not the Government's practice to provide details of all such meetings.

Bankruptcy: Business

Mr. Binley: To ask the Chancellor of the Exchequer against how many businesses HM Revenue and Customs has initiated winding up or bankruptcy action in 2008-09; and how much debt such action recovered. [316843]

Mr. Timms: The total number of bankruptcy and winding up petitions filed by HM Revenue and Customs in 2008-09 in England, Wales, Scotland and Northern Ireland was 13,181. This has fallen from 2006-07 and 2007-08 when the totals were 17,936 and 14,716 respectively.

The information on the value of the debt contained within those petitions is not available centrally and could be obtained only at disproportionate cost.

Banks: Pay

Lynne Jones: To ask the Chancellor of the Exchequer what plans he has for the distribution of money yielded by the one-off levy on any individual discretionary bonus above £25,000 paid by banks to their employees between the pre-Budget report and April 2010. [317327]

Mr. Timms: The Government set out their plans for tax and spending at the pre-Budget and Budget reports.

Economic and Monetary Union

Mr. Maude: To ask the Chancellor of the Exchequer pursuant to the answer of 4 February 2010, *Official Report*, column 520W, on economic and monetary union, if he will place in the Library a copy of the minutes of the most recent meeting of the Standing Committee on Preparations for the euro. [318312]

Mr. Timms: A copy of the minutes requested has been placed in the Library of the House.

Inheritance Tax: Moray

Angus Robertson: To ask the Chancellor of the Exchequer how much the Exchequer received from inheritance tax on estates in Moray constituency in the last five years. [318005]

Mr. Timms: The information requested is not available at a sub-regional level. Inheritance tax data are based on a UK-wide sample of cases which is designed to produce national level figures and the size of the sample means that we could not currently estimate tax receipts reliably at constituency level.

Local Government: Cost Effectiveness

Robert Neill: To ask the Chancellor of the Exchequer pursuant to the answer to the hon. Member for Welwyn Hatfield of 19 January 2010, *Official Report*, column 290W, on local government: cost effectiveness, what proportion of the estimated £550 million of savings he expects to result from efficiencies made in respect of waste collection and disposal. [317811]

Mr. Byrne: The pre-Budget report sets out a number of areas where local government will be able to find significant efficiencies by 2012-13, including waste collection and disposal. It is for individual local authorities to make efficiencies based on local priorities and use of resources in these and other services.

Robert Neill: To ask the Chancellor of the Exchequer pursuant to the answer to the hon. Member for Welwyn Hatfield of 19 January 2010, *Official Report*, column 290W, on local government: cost effectiveness, whether the proposed £800 million savings by 2012-13 will include efficiency savings made in *(a)* 2009-10, *(b)* 2010-11 and *(c)* 2011-12. [317878]

Mr. Byrne: The pre-Budget report sets out a number of areas where local government will be able to find £800 million per year efficiency savings by 2012-13. These are savings to be delivered by 2012-13 against a baseline year of 2010-11.

Maternity Benefits

Mrs. Maria Miller: To ask the Chancellor of the Exchequer what the rate of take-up of the Health in Pregnancy Grant is among parents in each income decile group. [318387]

Mr. Timms: The information requested is not available. Income details are not collected on the Health in Pregnancy claim form.

Tax Collection

Mr. Duncan Smith: To ask the Chancellor of the Exchequer what consideration he has given to the merits of centralising the collection of amounts owed to all Government Departments through one debt collection body. [317332]

Mr. Byrne: HMT currently has no plans to introduce one debt collection body, but Treasury Ministers continually have policy options under review and recognise the need for joined-up approaches.

Taxation

Mr. Liddell-Grainger: To ask the Chancellor of the Exchequer how many *(a)* P14 and *(b)* P35 returns required clerical action in (i) 2006, (ii) 2007, (iii) 2008 and (iv) 2009. [316949]

Mr. Timms: The information requested is available only at disproportionate cost, as the data are not held centrally.

Welfare Tax Credits: Overpayments

Steve Webb: To ask the Chancellor of the Exchequer (1) how many tax credit overpayments were written off in each month of *(a)* 2005-06, *(b)* 2006-07, *(c)* 2007-08 and *(d)* 2008-09; and if he will make a statement; [317179]

(2) how many disputed tax credit overpayments have resulted in no repayment *(a)* because of official error and *(b)* in total in each month of each year since their introduction; and if he will make a statement; [317180]

(3) how many tax credit overpayments were disputed in each month *(a)* between June 2007 and March 2008 and *(b)* since December 2008; and if he will make a statement. [317182]

Mr. Timms: HM Revenue and Customs (HMRC) does not separately record whether a tax credits overpayment is written off in part or in full so the precise information requested is not available. HMRC explains its approach to tax credits overpayments and the circumstances in which customers may not have to pay them back in its Code of Practice 26 "What happens if we've paid you too much tax credit?", available at:

www.hmrc.gov.uk/leaflets/cop26.pdf

For information about the numbers of disputed overpayment cases and the number of disputed overpayments written off in part or in full as a result of official error up to and including 2007-08, I refer the hon. Member to the answers given to the hon. Member for Inverness, Nairn, Badenoch and Strathspey (Danny Alexander) on 17 March 2008, *Official Report*, columns 901-02W, and 20 May 2008, *Official Report*, column 212W.

Information relating to disputed overpayments written off on grounds of official error in 2008-09 and 2009-10 can be found in the following table.

	New disputes (ground)	Written off in part or full (around)
2008		
May	—	950
June	—	750
July	—	1,000
August	—	950
September	—	1,200
October	—	1,350
November	—	1,650
December	15,250	1,800
2009		
January	11,200	2,350
February	8,450	2,200
March	8,600	4,250
April	8,450	4,650
May	6,300	1,650
June	9,000	2,250
July	8,800	2,300
August	10,350	2,150
September	13,750	2,800
October	12,050	2,750
November	15,250	3,400
December	9,450	2,400

Note:
The figures for overpayments written off do not directly relate to those disputes that were received in the same period.

The number of tax credit overpayments remitted separately on hardship grounds are compiled annually to the end of October and are shown in the following table.

Year to end of October	Number of overpayments remitted
2006	134
2007	2,092
2008	1,176
2009	1,189

Mr. Duncan Smith: To ask the Chancellor of the Exchequer (1) what assessment he has made of the cost-effectiveness of recovering tax credits debt where deduction from ongoing payments is not possible; [317290]

(2) what plans he has for the treatment of the remaining £559 million of tax credits overpayments created in 2003-04 that had not been recovered by 31 March 2009; [317304]

(3) what steps he plans to take to increase the number of opportunities for recovering tax credit overpayments from any subsequent tax credits payments where one award has ceased and a new award started; [317306]

(4) what changes he proposes to enable a greater number of tax credits customers to repay overpayments through deduction from income and benefits. [317307]

Mr. Timms: These issues were included in the conclusions and recommendations of the Committee of Public Accounts report 2009-10: 'HM Revenue and Customs: Improving the Processing and Collection of Tax: Income Tax, Corporation Tax, Stamp Duty Land Tax and Tax Credits' (HC 97), published on 10 December 2009. The Government will publish their responses to the Committee's Report in a Treasury Minute.

Mr. Duncan Smith: To ask the Chancellor of the Exchequer how much of the total tax credit debt was recovered *(a)* by deduction from ongoing tax credit payments and *(b)* by other means in the 2008-09 tax year. [317305]

Mr. Timms: The information requested is on page R39 of HM Revenue and Customs 2008-09 Accounts, available at:

http://www.hmrc.gov.uk/about/hmrc-accs-0809.pdf

Mr. Duncan Smith: To ask the Chancellor of the Exchequer what assessment he has made of the effects on *(a)* children living in poverty and *(b)* households in the lowest quartile of annual income of recovery of tax credits overpayments. [317308]

Mr. Timms: Processes are in place to ensure that the recovery of overpayments does not cause hardship. HM Revenue and Customs' (HMRC) policy on the recovery of overpayments is set out in the Code of Practice 26 'What happens if we have paid you too much tax credits?', available at:

www.hmrc.gov.uk/leaflets/cop26.pdf

Households receiving the maximum tax credits, with no reduction due to income, will have a maximum of 10 per cent. of their award recovered to re-pay an overpayment. Those entitled to the child element above the family element or working tax credit below the maximum award will have a maximum of 25 per cent. of their award recovered in order to repay an overpayment. If a customer cannot meet their living expenses, due to recovery of the overpayment, HMRC may allow more time to repay the overpayment.

BUSINESS, INNOVATION AND SKILLS

Adult Education

Mr. Hancock: To ask the Minister of State, Department for Business, Innovation and Skills what plans his Department has to support *(a)* Portsmouth and *(b)* other local authorities in the achievement of the aims of "The Learning Revolution" White Paper. [318435]

Kevin Brennan: Local authorities have a key part to play in achieving the aims of "The Learning Revolution" White Paper. During 2010-11 we will work with the Skills Funding Agency to develop new lead accountable bodies, led by local authorities, to take responsibility for funding and planning informal adult learning in order to strengthen local ownership, widen local partnerships and improve coherence between key policies at the local level.

Funding priorities for 2010-11 are set out in the "Skills Investment Strategy 2010-11", published November 2009. In 2010-11 we will continue to invest £210 million in Adult Safeguarded Learning, reaffirming our White Paper commitments. In the 2009-10 financial year we have invested an additional £20 million in a Transformation Fund which is supporting more than 300 innovative projects to strengthen local infrastructures and widen access to learning for hard-to-reach groups. Funding is supporting two projects in Portsmouth: "Memories are made of this" and the "Portsmouth Informal Learning Project". Portsmouth is also an eligible district for the

Community Learning Champions Support Programme grants and can bid for funding to support a second round project.

Mr. Hancock: To ask the Minister of State, Department for Business, Innovation and Skills what role Adult Safeguarded Learning funds will play in achieving the aims of "The Learning Revolution" White Paper. [318438]

Kevin Brennan: Our funding priorities are set out in the strategy document, "Skills Investment Strategy 2010-11", published November 2009. In 2010-11, we will continue to invest £210 million in Adult Safeguarded Learning—learning for personal, family and community development. This reaffirms our commitment to implementing the vision set out in "The Learning Revolution" White Paper. A new priority will be to encourage Digital Life Skills which can often be embedded with other provision and open up a whole range of new learning opportunities to help thousands of offline adults take their first steps with computers and the internet.

We want every adult to benefit from a wide choice of learning opportunities. Informal learning can make a profound difference to people's lives by developing family and community cohesion, improving people's health and providing a stepping stone towards training and employment. During 2010-11 we will work with the Skills Funding Agency to develop new lead accountable bodies, led by local authorities, to strengthen local ownership, widen partnerships and improve coherence between policies at the local level.

Apprentices: Essex

Bob Spink: To ask the Minister of State, Department for Business, Innovation and Skills how many modern apprenticeships have been started in *(a)* Essex and *(b)* Castle Point since 1997. [318107]

Kevin Brennan: Table 1 shows the number of apprenticeship starts in Essex local authority, Southend-on-Sea local authority, Thurrock local authority and Castle Point parliamentary constituency from academic year 2003-04 onwards, the earliest year for which comparable data are available. Essex is made up of Essex, Southend-on-Sea and Thurrock local authorities.

Table 1: Apprenticeship Programme Starts for Essex, Southend-on-Sea and Thurrock local authorities and Castle Point parliamentary constituency, 2003-04 to 2008-09

	2003-04	2004-05	2005-06	2006-07	2007-08	2008-09
Essex local authority	4,300	4,100	3,900	4,200	5,000	5,200
Southend-on-Sea local authority	500	500	400	400	500	500
Thurrock local authority	400	400	300	400	500	600
Castle Point Parliamentary Constituency	300	200	200	270	340	400

Notes:
1. Figures for Castle Point Parliamentary Constituency are rounded to the nearest 10, Local Authority figures are rounded to the nearest 100.
2. Figures are based upon home postcode of the learner.
3. Figures include apprenticeships, advanced apprenticeships and higher level apprenticeships.
4. Essex is made up of Essex, Southend-on-Sea and Thurrock Local Authorities.
Source:
Individualised Learner Record

Information on the number of apprenticeship starts by parliamentary constituency, local authority, Government Office Region and for England is published in a quarterly statistical first release (SFR). The latest SFR was published on 17 December, and re-issued on 21 January to include provisional national estimates of the number of apprenticeship starts and achievements in the first quarter of 2009-10:

http://www.thedataservice.org.uk/statistics/sfrdec09

Apprentices: Per Capita Costs

David Davis: To ask the Minister of State, Department for Business, Innovation and Skills what the average annual cost to the Government is of an apprenticeship undertaken through the National Apprenticeship Service. [318239]

Kevin Brennan: The Department for Business, Innovation and Skills and the Department for Children, Schools and Families allocate funding to the Learning and Skills Council (LSC) for the provision of apprenticeships in England. Planned investment for 16-18 and adult apprenticeships for 2009-10 and 2010-11 financial years is given in the following table.

£000

	Financial year	
	2009-10	2010-11
16-18 apprenticeships	695,000	780,000
Adult (aged 19 and over) apprenticeships	389,914	398,410

Sources:
Adult apprenticeships—BIS Skills Investment Strategy 2010-11, November 2009
16-19 apprenticeships—DCSF 16-19 Statement of Priorities and Investment Strategy 2010-11

Apprenticeships for those aged 16-18 are fully funded by the public purse. For learners aged 19 or over the employer is expected to make a contribution towards the cost of the course.

The public cost of delivering an apprenticeship varies significantly depending on the industry in which the apprenticeship framework is being delivered; whether the framework is at level 2 or 3; and whether the participant is in the 16-18, 19-25 or 25+ age group. For example the LSC estimates that it costs £2,749 to deliver a level 2 adult apprenticeship framework in Supporting Teaching and Learning in Schools and £4,083 to deliver the level 3 equivalent framework. Between industries the difference in estimated costs can be more marked. LSC estimates that the cost of delivering a level 3 adult apprenticeship in clock and watch repair is £13,409 but the cost of an adult apprenticeship at the same level in business and administration is £3,327.

It is not therefore possible to provide a meaningful average cost to the public purse of an apprenticeship.

Business: Regulation

John Penrose: To ask the Minister of State, Department for Business, Innovation and Skills what estimate he has made of the annual cost to businesses of compliance with Government regulations introduced since 27 June 2007 in each *(a)* local authority area and *(b)* constituency. [318497]

Ian Lucas: In October 2009, the Government published the first Total Benefit/Cost ratio of New Regulations, for all legislation that received Royal Assent or was made by Parliament in the previous financial year, 2008-09. This is summarised in the following table:

Measure	*Quantified equivalent annual benefits (£ billion)*	*Quantified equivalent annual costs (£ billion)*	*Ratio of quantified benefits to costs (rounded)*
The Pensions Act 2008	9.95	9.95	1.00
Primary Legislation	3.13	1.11	2.82
Secondary Legislation	11.20	2.01	5.57
Total	24.28	13.07	1.85

These data were calculated from information provided in published Impact Assessments (IAs) and includes all costs and benefits, not only those to business.

Nationwide data for earlier years could be provided only at disproportionate cost.

The Government do not collate data about regulation such as road closure orders that affect business on a purely local basis. It also does not hold data on national regulation at local authority or constituency level.

Departmental Advertising

Pete Wishart: To ask the Minister of State, Department for Business, Innovation and Skills how much was spent on advertising by *(a)* his Department and *(b)* each (i) non-departmental public body and (ii) executive agency for which his Department is responsible in 2009. [317251]

Mr. McFadden: For advertising spend by the Department in 2009/10 I refer the hon. Member to the answer I gave to the hon. Member for Welwyn Hatfield (Grant Shapps) on 1 February 2010, *Official Report*, column 132W.

Figures for advertising spend for each non-departmental public body could be provided only at disproportionate cost.

I have approached the chief executives of the Insolvency Service, Companies House, the National Measurement Office and the Intellectual Property Office and they will respond to the hon. Member directly.

Letter from Gareth Jones, dated 15 February 2010:

I am replying on behalf of Companies House to your Parliamentary Question tabled 9 February 2010, UIN 317251 to the Minister of State for Business, Innovation and Skills.

Companies House spent £331,804 on advertising in 2009. The vast majority of this was spent on informing businesses of their obligations under the Companies Act.

Letter from Stephen Speed, dated 15 February 2010:

The Minister of State, Department for Business, Innovation and Skills has asked me to reply to your question how much was spent on advertising by (a) his Department and (b) each (i) non-departmental public body and (ii) executive agency for which his Department is responsible in 2009.

The Insolvency Service did not spend anything on advertising and marketing in 2009.

Letter from John Alty, dated 16 February 2010:

I am responding in respect of the Intellectual Property Office to your Parliamentary Question tabled 09 February 2010, to the Minister of State, Department for Business, Innovation and Skills.

The Intellectual Property Office, an Executive Agency of the Department for Business, Innovation and Skills, spent £122,000 on advertising in 2009.

Letter from Peter Mason, dated 24 February 2010:

I am responding in respect of the National Measurement Office to your Parliamentary Question asking the Minister of State, Department for Business, Innovation and Skills, how much was spent on advertising in 2009.

The National Measurement Office spends very little on advertising and such expenditure is not separately identified in our accounting system. In practice, the principal use of advertising would be for recruitment purposes. Any paid advertising of the Agency or its services would be recorded as part of our marketing expenditure. in the Calendar Year 2009 expenditure on external recruitment advertising in total was £11,852.50 and expenditure on marketing activities as a whole was £12,990.42.

Directgov

John Penrose: To ask the Minister of State, Department for Business, Innovation and Skills what progress his Department has made on the development of a new consumer space for direct.gov.uk; and when he expects it to be launched. [318520]

Kevin Brennan: A new consumer area on the Directgov website was launched on 16 December 2009 and is accessible at www.direct.gov.uk/consumer . This brings together, in one place, information from BIS and a number of other Departments on consumer rights, with signposts to further guidance on DirectGov such as managing debt, buying and selling a vehicle and environmental advice.

Over the next 12 months, BIS will be working with other Government Departments and partner organisations to enhance this area further with consumer content from across Government, including self-help tools and templates.

Economic Participation Programme

Mr. Stewart Jackson: To ask the Minister of State, Department for Business, Innovation and Skills if he will monitor the efficacy of the Economic Participation Programme operated under the auspices of the East of England Development Agency; and if he will make a statement. [318200]

Ms Rosie Winterton: The Economic Participation Programme is a matter for both the Board of the East of England Development Agency (EEDA), as an arm's length non-departmental public body, and the local authorities that EEDA contract with for the delivery of the sub-regional elements of the programme. An evaluation of the programme, previously known as "Investing in Communities", was undertaken in 2008 as part of an overall EEDA evaluation and a copy has been placed in the Libraries of the House. This evaluation identified that between 2005 and 2008:

> 825 jobs were created; 5,862 people assisted into employment; 92 businesses created; and over 12,800 new skills or qualifications acquired.

Innovation

Greg Mulholland: To ask the Minister of State, Department for Business, Innovation and Skills what the rate of growth of knowledge-intensive industries was in *(a)* rural areas, *(b)* urban areas and *(c)* nationally in each year since 1997. [318426]

Ian Lucas: Gross value added in knowledge-intensive industries and the associated year on year growth for the UK as a whole is detailed in the table below. This corresponds to an annual average growth rate of 5.8 per cent. per annum. Data on a rural versus urban basis are not available.

	Gross value added in knowledge-intensive industries (Constant 2000 prices: £ billion)	*Percentage growth on previous year*
1996	178.8	—
1997	192.6	7.7
1998	211.2	9.7
1999	227.7	7.8
2000	248.0	8.9
2001	259.4	4.6
2002	256.8	-1.0
2003	267.7	4.3
2004	280.9	4.9
2005	294.3	4.7
2006	312.3	6.1
2007	331.3	6.1

Source:
OECD STAN database

Students

Greg Mulholland: To ask the Minister of State, Department for Business, Innovation and Skills how many students from each UK university have attended a Make it Happen event held by their university [illegible] association with his Department; and how many such students have since enrolled on the self-employment and business start-up programme. [[illegible]924]

Mr. Lammy: The Make it Happen programme is aimed primarily at unemployed graduates, however, students—especially final year students—are not discouraged from attending a Make it Happen event.

The table attached shows the number of graduates and students from each UK university that have attended one of the Make It Happen events at any convenient university and the number of graduates and students who have registered for the subsequent self employment and business start up programmes from their first availability on 24 September 2009 to 10 February 2010.

Table to show the number of students and graduates from each UK university that have attended a Make it Happen event and the number of students and graduates who have registered for the self-employment and business start-up programmes

ENERGY AND CLIMATE CHANGE

Carbon Emissions

Derek Wyatt: To ask the Secretary of State for Energy and Climate Change what his Department's definition is of carbon neutrality. [318511]

Joan Ruddock: The Government's definition of carbon neutrality was published in October 2009 and is available on the DECC website:

http://www.decc.gov.uk/en/content/cms/what_we_do/lc_uk/neutrality/neutrality.aspx

The definition is

> "Carbon neutral means that—through a transparent process of calculating emissions, reducing those emissions and offsetting residual emissions—net carbon emissions equal zero."

Fuel Poverty: South West

Nick Harvey: To ask the Secretary of State for Energy and Climate Change what recent estimate he has made of the number of households in fuel poverty in each constituency in Devon and Cornwall. [318664]

Mr. Kidney: The most recently available sub-regional split of fuel poverty relates to 2006. The following table shows the number of households in fuel poverty in each constituency in Devon and Cornwall:

	Parliamentary constituency	*Number of fuel poor households*
Cornwall	Falmouth and Camborne	6,700
	North Cornwall	10,300
	St. Ives	8,500
	South-East Cornwall	6,500
	Truro and St. Austell	7,400
Devon	East Devon	6,000
	Exeter	4,800
	North Devon	7,800
	Plymouth, Devonport	3,700
	Plymouth, Sutton	7,100
	South-West Devon	3,100
	Teignbridge	6,300
	Tiverton and Honiton	6,500
	Torbay	7,600
	Torridge and West Devon	10,600
	Totnes	6,900

Government Departments: Carbon Emissions

Derek Wyatt: To ask the Secretary of State for Energy and Climate Change whether there are plans to redefine carbon neutrality targets in respect of Government departments; and if he will make a statement. [318510]

Joan Ruddock: The Sustainable Operations on the Government Estate (SOGE) framework, including the target for central Government to be carbon neutral by 2012, is under review. An announcement on the new framework will be made shortly.

Natural Gas: Storage

John Hemming: To ask the Secretary of State for Energy and Climate Change how much gas was taken from *(a)* medium, *(b)* long and *(c)* short range storage on each day in February 2010 for which figures are available; and what estimate he has made of the volume of gas exported to continental Europe on each of those days. [318581]

Mr. Kidney: The table shows the flows of gas out of storage and to and from Europe. This covers the period for which data from national grid (the system operator) were available at the time of searching.

During the period the UK was a net importer of gas from Europe on each day, although there was some cross-trading of gas (importing from the Netherlands while exporting to Belgium) on some days.

The relationship between flows patterns can be complex and reflects underlying supply and demand conditions (and thereby prices) at different times and different markets. Contractual and other factors may also play a role. Attempting to map and compare particular supplies of gas into the market to particular flows out of the market would be misleading; what is important is the aggregate supply and demand position.

During the period the UK was well supplied with gas.

	Withdrawals from long range storage in mcm[1]	*Withdrawals from medium range storage in mcm*[2]	*Withdrawals from short range storage in mcm*[3]	*Exports to continental Europe through the UK in mcm*[4]	*Imports into the UK through UK in mcm*[5]	*Imports into the UK through BBL in mcm*

[1] Long range storage is the Rough facility.
[2] Aggregated end of day flows from: Aldbrough, Hatfield Moor, Hole House Farm, Hornsea and Humbly Grove.
[3] Aggregated end of day flows from: Avonmouth, Glenmavis and Partington.
[4] Exports through the Interconnector; value of 0 assigned to days when the Interconnector was in import mode.
[5] Imports through the Interconnector; value of 0 assigned to days when the Interconnector was in export mode.

Warm Front Scheme

John Mann: To ask the Secretary of State for Energy and Climate Change whether tenants with communal heating systems are eligible for participation in the Warm Front programme. [318275]

Mr. Kidney: The provision of measures under the Warm Front scheme to a household will be subject to assessment by the scheme manager in accordance with the regulations which govern the scheme. The scheme includes the provision of a range of heating measures including the provision of a central heating system connected to the local community-heating grid, with no more than six radiators, for qualifying households.

WOMEN AND EQUALITY

Departmental Communication

Mr. Hurd: To ask the Minister for Women and Equality pursuant to the answer of 9 December 2009, *Official Report*, column 351W, on Equality and Human Rights Commission: public relations, what payments the Commission has made to *(a)* Positif Politics and *(b)* APCO Worldwide since its establishment; on what dates and for what purposes; and if she will place in the Library a copy of the contracts under which such payments were made. [315616]

Maria Eagle: The Equality and Human Rights Commission has provided the following information about its payments.

(a) Positif Politics

A total of two payments were made to Positif Politics between May and June 2008 for staff training sessions, including seminars on local government elections and the Welsh Assembly legislative system

£233.83 paid 5 May 2008 (£199.00 plus £34.83 VAT)

£233.83 paid 24 June 2008 (£199.00 plus £34.83 VAT)

(b) APCO Worldwide

A total of three payments were made to APCO Worldwide between January and June 2008 for work undertaken during the transition period between May and October 2007 when the new commission was being set up. This included the development of a campaign programme which enabled the EHRC to raise awareness of its profile and highlight its key priorities across a range of audiences

£28,044.02 paid on 16 January 2008 (£23,867.25 plus £4,176.77 VAT)

£28,032.80 paid on 20 February 2008 (£23,857.70 plus £4,175.10 VAT)

£28,059.49 paid on 4 June 2008 (£23,880.42 plus £4,179.07 VAT)

Contracts are Commercial in Confidence and as a consequence will not be placed in the Library.

Equality and Human Rights Commission: Business Interests

Philip Davies: To ask the Minister for Women and Equality which organisations have received funding from the Equalities and Human Rights Commission (EHRC) where a Commissioner or employee of the EHRC *(a)* is a member of and *(b)* has a financial or other interest in the organisation concerned. [309946]

Maria Eagle: The Equality and Human Rights Commission (EHRC) does not collect information pertaining to the membership or other interests of its staff.

The Commission's grant assessment framework requires all staff involved in the assessment process to declare their interests and to abstain from any discussions, debate or assessment related to applications where a conflict of interest might arise.

Of the 61 organisations to be funded in 2009-10, staff interests were declared in relation to the following five organisations:

The Lesbian and Gay Foundation
Lincolnshire YMCA
Living Options Devon
Families Need Fathers
The Runnymede Trust

However none of the staff involved in the assessment process had a financial interest in any organisation funded by the Commission.

The Commission does collect information pertaining to the membership or other interests of its Board of Commissioners.

One member of the Board of Commissioners had an interest in a funded organisation in 2009-10 (as chief executive of Stonewall). This interest was declared and the Commissioner was not involved in the grant assessment panel, the Grants Committee, or any other board level decisions on grant funding.

Eight new Commissioners' appointments took effect on 4 December 2009 and the register of interests pertaining to these individuals is being compiled. However, these Commissioners played no role in the round of grant-making referred to.

Faith Schools

Andrew Mackinlay: To ask the Minister for Women and Equality whether provision will be included in the Equality Bill to permit any publicly funded faith schools to require teaching staff to promote the ethos of the relevant religious faith; and if she will make a statement. [318476]

Maria Eagle: We would expect all staff at schools to act in accordance with the ethos of their school, as we would expect them to maintain standards of behaviour and a high educational standard.

The Equality Bill maintains exceptions contained in the School Standards and Framework Act 1998 (SSFA), which permit faith schools to discriminate on religious grounds in relation to certain staff. These exceptions are different according to the different types of maintained faith schools.

Voluntary aided schools may apply religious criteria to all applicants to teaching posts. Voluntary controlled and foundation schools are required to have reserved teachers who are appointed specifically to teach religious education. These reserved teachers must be appointed for their fitness and competence to teach religious education according to the tenets of the relevant faith; they may account for up to a fifth of all the teaching staff and may include the head teacher. In these schools such religious criteria cannot be applied to any other teaching posts.
